"Doing Learning, one profits everyday."
Doing Tao, one suffers a loss everyday -
loses, and loses some more,
and so arrives at not doing anything.
Doing nothing, nothing will remain not done.
Taking over the world: only by not working.
A person who sets to working,
doesn't have what it takes to take over the world.

[32t49c] **Michael LaFargue**
The Wise Person is always a man without a mind -
he takes the mind of the hundred clans as his mind.
Those who are good, I am good to them;
those who are not good, I am also good to them -
Te is good.
Those who are honest, I am honest with them;
those who are not honest, I am also honest with them -
Te is honest.
The Wise Person,
lives in the world all drawn in,
for the world's sake he keeps his mind muddled.
The hundred clans,
all strain their eyes and ears toward him.
The Wise Person treats them all as his children.

[32t50c] **Michael LaFargue**
"Setting out to live is entering into death."
"Thirteen are the life givers,
thirteen are the death bringers."
The thirteen body parts are also death spots in people's life and activity.
Why?
Because they live life so lavishly.
So we hear:
One who Excels at fostering life,
"travels on land without meeting rhinoceros or tiger,
enters combat without armor or weapon."
The rhinoceros finds no place to jab its horn,
the tiger finds no place to lay its claws,
a weapon finds no place where its point can enter.
Why?
Because he has no death spot.

[32t51c] **Michael LaFargue**
Tao produces them,
Te rears them,
events shape them,
talents complete their development.
And so:
Among the thousands of things,
there are none that do not honor Tao and treasure Te.
This honoring Tao and treasuring Te -
no one commands it, it always happens naturally.
Tao produces them,
Te rears them, makes them grow, nurses them, settles them, heals them, sustains them, protects them.
Produces but does not possess;
works but does not rely on this;
presides but doesn't rule.
This is mysterious Te.

[32t52c] **Michael LaFargue**
The world has a Source, the Mother of the World.
Once you get the Mother,
then you understand the children.
Once you understand the children,
turn back and watch over the Mother.
As to destroying the self,
there will be nothing to fear.
Close your eyes,
shut your doors,
till the end of your life you will not get tired.

Open your eyes,
carry on your business,
till the end of your life you will not be safe.
Keeping your eyes on the Small Thing is called Clarity;
watching over Weakness is called strength.
Engage with the flashing things,
turn back to Clarity,
do not deliver yourself to disaster.
This is cultivating Steadiness.

[32t53c] **Michael LaFargue**
If I had the least bit of understanding,
I would walk on the great Way.
Only display will be dangerous.
The great Way is very smooth,
but people love bypaths.
The court is very well kept,
the fields are very weedy,
the granaries very empty.
"Their clothes are fine and colorful, on their belts are sharp swords, they are filled with food and drink" -
a superabundance of expensive goods.
This is robbers boasting,
certainly not the Way.

[32t54c] **Michael LaFargue**
Excellently founded: it will not be uprooted;
Excellently embraced and cared for: it will not slip away;
so sons and grandsons will never cease to offer the sacrifices.
Cultivate It in your person, its Te will be pure;
cultivate It in the clan, its Te will be abundant;
cultivate It in the village, its Te will be lasting;
cultivate It in the state, its Te will be ample;
cultivate It in the empire, its Te will be all-embracing.
Yes:
Judge a person taking that person as the measure,
judge a clan taking that clan as the measure,
judge a village taking that village as the measure,
judge a state taking that state as the measure,
judge the world taking the world as the measure.
How do I know the nature of the world?
By this.

fierce beasts will not snatch it,
birds of prey will not attack it.
Its bones are Soft, its sinews Weak,
but its grip is firm.
It has not known the union of man and woman,
but its organs get aroused:
Vital energy at its height.
It will scream all day without getting hoarse:
Harmony at its height.
To experience Harmony is called being Steady,
to experience Steadiness is called Clarity.
'Increasing life': ominous;
'the mind controlling the ch'i': forcing.
Things are vigorous, then grow old:
A case of 'not-Tao'.
Not-Tao, soon gone.

Those who understand are not talkers,
talkers don't understand.
Close your eyes,
shut your doors.
Dampen the passion,
untie the tangles,
make the flashing things harmonious,
make the dust merge together.
This is called the mysterious Merging.
Yes:
You cannot get close,
you cannot stay away,
you cannot help It,
you cannot harm It,
you cannot treasure It,
you cannot look down on It.
Yes:
It is the Treasure of the World.

"Rule the kingdom by the norm;
wage war by the unexpected."
Take over the world by Not Working.

the poorer the people will be.

The people:
The more 'sharp weapons' they have,
the more disordered the state and the clans will be.
Men:
The more clever and skillful they are,
the more weird things will start to happen.
The more you publicize rules and laws,
the more robbers and thieves you will have.
Yes, the Wise Person says:
I Do Nothing,
and the people transform themselves.
I love Stillness,
and the people bring themselves to correctness.
I do No Work,
and the people enrich themselves.
I have no desires,
and the people by themselves become Simple.

[32t58c] **Michael LaFargue**
When the ruler is dull and incompetent,
the people are pure and simple.
When the ruler is sharp and alert,
the people are a bad lot.
"Bad luck: good luck depends on it;
good luck: bad luck hides in it."
Who knows where this ends?
There is no norm.
What accords with the norm turns around and becomes weird;
what is excellent turns around and becomes ominous.
"People's blindness -
it has been going on so long now."
And so the Wise Person:
Is square and honest but does not cut,
is pointed and exact but does not hurt,
is straight and direct but not tactless,
shines but does not dazzle.

[32t59c] **Michael LaFargue**
"When it comes to governing the people and serving Heaven, there's no one like a farmer."
Just being a farmer -
this means getting dressed early.
Getting dressed early means increasing one's store of Te;
increasing one's store of Te, then nothing is impossible;
nothing impossible, then no telling the limit;
no telling the limit, then one can possess the state.
One who possesses the Mother of the state,

can last a long time.
This means having deep roots and strong foundations,
the Way of 'lasting life, good eyesight into old age'.

[32t60c] **Michael LaFargue**
Governing a large state is like cooking a small fish.
Rule the world by Tao,
then ghosts will not take to haunting.
It is not that the ghosts will not haunt,
their haunting will cause no hurt to humankind.
(It's not only that their haunting will not hurt humankind,
the Wise Person also does not cause hurt to them.
These two do not hurt each other.)
Yes, Te unifies and restores.

[32t61c] **Michael LaFargue**
The great state is a low and easy,
woman for the world,
the one the whole world unites with.
Femininity always overcomes Masculinity, by Stillness,
in Stillness it takes the low place.
Yes:
A great state,
by putting itself lower than the smaller state,
will win out over the smaller state.
A small state,
by putting itself lower than the great state,
will win out over the great state.
Yes:
One puts itself lower so it will win out,
if the other gets lower, then it will win.
(A great state has no further desire,
than to embrace and protect other states.
A small state has no further desire,
than to enter and serve other states.
So both get what they want.)
The greatest should be the lowest.

[32t62c] **Michael LaFargue**
Tao is the honored center for the thousands of things.
The treasure of the good;
what protects the not good.
Elegant words can buy and sell;
fine conduct gets people promoted.
People who are not good,
why are they rejected?

Yes:
When they are enthroning the Son of Heaven or installing the Three Ministers -
although they are presenting in tribute jade medallions out in front of four-horse teams,
this cannot compare to sitting and setting forth this Tao.
What was the reason that the ancients treasured this Tao?
Is it not said:
"By it the seeker obtains;
by it the guilty escapes."
Yes:
It is the Treasure of the World.

[32t63c] **Michael LaFargue**
Be a Non Doer,
work at Not Working,
acquire a taste for that which has no taste.
Treat small things as though they were great;
treat few things as though they were many.
"Reward what is injurious, with kind Te."
Plan difficult things focusing on the easy parts;
do great things focusing on the small details.
Difficult tasks in the world always begin from what is easy,
great tasks in the world always begin from what is small.
And so the Wise Person:
Does not 'do great things',
and so is able to fulfill his greatness.
Yes:
Light agreement is never very trustworthy,
considering everything easy makes everything difficult.
And so the Wise Person:
Treats things as difficult,
and in the end has no difficulty.

[32t64c] **Michael LaFargue**
When sitting still, they are easy to hold down;
no omens yet, it is easy to plan;
when fragile, they are easy to break;
when small, they are easy to scatter.
Work on it when it isn't yet;
put it in order when it is not yet disordered.
A tree you can barely get your arms around grows from a tiny shoot;
a nine-story tower begins as a heap of earth;
a thousand-mile journey begins under your feet.
Working ruins, grasping loses.
And so the Wise Person:
Does not work, so does not ruin;
does not grasp, so does not lose.

"When the people are engaged in some task,
they are always on the point of finishing when they ruin it."
Careful at the end just as at the beginning,
then there will be no ruining of the work.
And so the Wise Person:
Desires to be desireless,
does not prize goods hard to come by,
learns to be un-Learned,
turns back to the place all others have gone on from.
So as to help along the naturalness of the thousands of things without presuming to be a Worker.

[32t65c] **Michael LaFargue**
Those Excellent at doing Tao in ancient times -
it was not to enlighten the people, but to keep them stupid.
The difficulty in governing the people -
because of their knowledge.
Yes:
By "Knowledge!" govern the state -
a crime against the state.
By "Ignorance!" govern the state -
a boon to the state.
Always:
To understand these two lines,
is also to understand the Ideal Pattern.
Always:
To understand the Ideal Pattern,
is to have mysterious Te.
Mysterious Te is deep, far-reaching,
in opposition to things -
only afterward comes the Great Harmony.

The Yang-tze and the ocean:
How are they able to be Kings of the hundred streams?
Because they excel at being low -
this is how they are able to be Kings of the hundred streams.
And so:
Wishing to be high above the people,
you must by your speech put yourself at the bottom.
Wishing to be out in front of the people,
you must put your self in the last place.
And so, the Wise Person:
Stands above, but the people are not weighed down;
stands out in front, but the people are not harmed;
and so the world delights in praising him, and does not tire.
Because of his not contending,

no one in the world can contend with him.

[32t67c] **Michael LaFargue**
Everyone in the world says of me:
'Great - but doesn't seem normal'.
It's just 'greatness' -
that's why it does not seem normal.
If I were normal, I'd have been of little worth for a long time now.
I have three treasures,
I protect and keep hold of them.
The first is called 'gentleness',
the second is called 'frugality',
the third is called 'not presuming to act like leader of the world'.
Gentle, so able to be bold;
frugal, so able to be lavish;
not presuming to act like leader of the world, so able to become head of a government.
Now:
To be bold without being gentle,
to be lavish without being frugal,
to act like leader without putting oneself last:
This is death.
Yes, gentleness:
"Attack with it and you will win,
defend with it and you will stand firm."
When Heaven wants to rescue someone,
it surrounds him with a wall of gentleness.

[32t68c] **Michael LaFargue**
The best soldier is not warlike,
the best fighter shows no anger,
the one best at defeating the enemy does not engage him,
the one best at managing people puts himself below them.
This is the Te of not contending;
this is the power to manage people.
This is being the Counterpart of Heaven,
equalling the very best of the ancients.

[32t69c] **Michael LaFargue**
Military men have a saying:
"I do not presume to act as master, I act as guest;
I do not presume to advance an inch, I retreat a foot."
This is like "going forward without going forward,
rolling up the sleeves but baring no arm,
attacking without showing hostility,
drawing with no sword."
Nothing brings greater disaster than the motto:

"The enemy is nothing."
Thinking, "the enemy is nothing": close to losing my Treasure.
Yes, when they cross weapons and attack each other,
the one in mourning will win.

[32t70c] **Michael LaFargue**
My words are very easy to understand,
very easy to practice.
No one in the world can understand,
no one can practice them.
The words have an ancestor,
the practice has a master.
They just do not understand
and so they do not understand me.
(So few understand me - a rare treasure indeed.)
And so the Wise Person:
Dressed in shabby clothes, jade under his shirt.

[32t71c] **Michael LaFargue**
"Aware but not aware of it: a high thing."
Not aware but aware of it: sick of this.
Simply sick of the sickness - and so no longer sick.
The Wise Person's lack of this sickness:
He became sick of being sick, and so he's no longer sick.

[32t72c] **Michael LaFargue**
When the people are not in awe of your majesty,
then great majesty has been achieved.
Do not restrict where they can live,
do not tire them out by taxing what they live on.
Simply do not tire them,
and they will not tire of you.
And so, the Wise Person:
Knows himself,
does not make a show of himself.
Loves himself,
does not exalt himself.
Yes, he leaves 'that' aside, and attends to 'this'.

[32t73c] **Michael LaFargue**
"One who shows bravery by being daring will get killed;
one who shows bravery by not being daring will survive."
But in both these cases:
"Sometimes it helps, sometimes it harms."
"What Heaven picks to hate - who knows the reason?"
And so the Wise Person:

Treats things as difficult.
Heaven's Way:
Not contending, but excels at overcoming;
not speaking, but excels in getting answers;
not summoning, but people come of themselves;
lax, but excels at organization.
Heaven's net is very wide -
loosely woven,
but it lets nothing slip by.

[32t74c] **Michael LaFargue**
"The people are always lacking in the fear of death."
Then why frighten them with death?
Supposing the people always had the fear of death,
and we could catch law breakers and kill them -
who would dare?
There is always The Executioner - he does the killing.
Doing the killing in The Executioner's place,
this is like "doing the cutting in the master carpenter's place."
One who cuts in the master carpenter's place -
seldom it is he does not cut his hand.

[32t75c] **Michael LaFargue**
'The people are starving'.
It is because those high up eat too much tax grain,
this is why they are starving.
'The people are hard to govern'.
It is because there is Working among those high up,
this is why they are hard to govern.
'The people take death lightly'.
It is because they pursue a lavish life,
this is why they take death lightly.
Simply:
Those who do not Work at 'living' -
these are better men than those who 'love life'.

[32t76c] **Michael LaFargue**
People begin life Soft and Weak,
when they are dead they are hard and firm.
Among the thousands of things:
Grass and trees begin life Soft and tender,
when they are dead they are withered and brittle.
Yes, strength and hardness accompany death;
Softness and Weakness accompany life.
And so:
With a battle axe too hardened, you cannot win;

when a tree becomes hard, then comes the axe.
The strong and the great stand lowest,
the Soft and Weak stand highest.

[32t77c] **Michael LaFargue**
Heaven's Way is like the stringing of a bow:
It pulls down what is high,
it lifts up what is low,
it takes away from what has an abundance,
to give to what has not enough.
Heaven's Way:
Take away from what has an abundance,
help along what has not enough.
People's way is not like this:
Take away from what has not enough,
to offer it to what has an abundance.
Who can have an abundance to offer the world?
Only the one who has Tao.
And so the Wise Person:
Works but does not rely on this,
achieves successes but does not dwell in them,
has no desire to show off his worth.

[32t78c] **Michael LaFargue**
Nothing in the world is Softer or Weaker than water.
But when it attacks what is hard and strong,
none of them can win out,
because they have no way of affecting it.
Softness overcomes what is hard,
Weakness overcomes what is unyielding.
Everyone in the world understands it,
no one can practice it.
And so the Wise Person says:
Taking on a state's dirt makes one lord of its earth altars,
taking on a state's misfortunes makes one King of the world.
Right words seem the opposite.

[32t79c] **Michael LaFargue**
"When great hostilities are smoothed over,
there is always some hostility left."
How could this be considered good?
And so the Wise Person:
"Keeps hold of the left-hand contract tally,
and doesn't make demands on others."
One who has Te is concerned with fulfilling his contract,
one who does not have Te concerns himself with collecting his due.

Heaven's Way:
Not to have personal favorites, but to be invariably good to all.

[32t80c] **Michael LaFargue**
Oh for a small country with few people!
Supposing there were men with the talents of dozens and hundreds,
but no one employed them.
Supposing the people took death seriously,
and did not travel far distances.
Although there exist boats and carriages,
they have no occasion to ride in them.
Although there exist armor and weapons,
they have no occasion to show them off.
Supposing people returned to knotting cords,
and using this as writing.
They find their food savory,
they find their clothes elegant,
they are content with their homes,
they are fond of their folkways.
Neighboring states are in sight of one another,
so they hear the sounds of each others' dogs and roosters -
but people reach old age and die with no comings and goings between them.

[32t81c] **Michael LaFargue**
Sincere words are not elegant,
elegant words are not sincere.
Excellence is not winning arguments,
winning arguments is not being Excellent.
Understanding is not wide learning,
wide learning is not understanding.
The Wise Person does not store up for himself.
By working for others,
he increases what he himself possesses.
By giving to others,
he gets increase for himself more and more.
"Heaven's Way: to benefit and not to harm."
The Way of the Wise Person: to work and not contend.

[33t01c] **Cheng Lin**
The truth that may be told is not the everlasting Truth.
The name given to a thing is not the everlasting Name.
Nothingness is used to denote the state that existed before the birth of heaven and earth.
Reality is used to denote the state where the multitude of things begins to have a separate existence.
Therefore,
when the mind rests in the state of Nothingness, the enigma can be understood;
when the mind rests in the state of Reality, the bounds can be reached.
These two states, though bearing different names, have a common origin.
Both are mysterious and metaphysical.
They are the most mysterious, and form the gateway to all mysteries.

[33t02c] **Cheng Lin**
As soon as the world regards some thing as beautiful, forthwith also appears ugliness.
As soon as the world regards some deed as good, forthwith also appears evil.
Thus we have the alternation of existence and non-existence;
the succession of the difficult and the easy;
the comparison of the long and the short;
the contrast between the high and the low;
the variation of pitch notes;
the order of precedence and sequence.
The Sage is ever free from artifice, and practises the precept of silence.
He dose things without the desire for control.
He lives without the thought of private ownership.
He gives without the wish for return.
He achieves without claiming credit for himself.
Because he does not claim credit for himself, he is always given credit.

[33t03c] **Cheng Lin**
When talents are not esteemed, men will not strive to excel one another.
When wealth is not treasured, men will not attempt to rob one another.
When the objects of sensual satisfaction disappear, men's minds are free from distraction and confusion.
Wherefore the Sage, as regards government, wishes only that it will enable men to be humble at heart, well-fed in body, free from sensuous desires, and strong in physique.
When the people are free of cunning, desires, and artifice, there must be good order.

[33t04c] **Cheng Lin**
Truth may appear hollow, but its usefulness is inexhaustible.
It is so profound that it comprehends all things.
It is so vague that its very existence may seem doubtful.
I do not know its origin, but I believe that its existence preceded that of the gods.

[33t05c] **Cheng Lin**
The universe is a-moral, and it regards all things as mere straw-dogs.
The Sage is a-moral, and he regards all men as mere straw-dogs.
The whole universe may be compared to a bellows.

It is hollow, but not empty.
It is moving and renewing without cease.
The more volubly one talks, the quicker will come his exhaustion.
It is best to abide by the old traditions.

[33t06c] **Cheng Lin**
The spirit of life is immortal and may be compared to the mysterious productive power which forms the base of the universe.
It is imperceptible, and its usefulness is inexhaustible.

[33t07c] **Cheng Lin**
Heaven is everlasting, and earth is perpetual.
Their endurance is due to the fact that they exist without the consciousness of self, because of which they endure for ever.
Likewise, the Sage is most highly esteemed because he regards himself as the least important.
His life is long preserved because he has no thought about his personal security.
He is able to realize his complete self because he is always selfless.

[33t08c] **Cheng Lin**
The way of a good man is like that of water which benefits all things without contention.
He is content to keep that which is discarded by the multitude.
Hence he is close to Truth.
He adapts himself to any environment;
he attunes his mind to what is profound;
he associates himself with the virtuous;
his words inspire confidence;
his rule brings about order;
he administers affairs with ability;
his actions are opportune.
Because he does not contend, he gives no cause for resentment.

[33t09c] **Cheng Lin**
Those who amass wealth without ceasing are comparable to one who continues to temper a weapon until it loses its keenness.
A house that is filled with gold and jades cannot long remain secure.
A man who proudly displays his riches invites trouble for himself.
The effacement of self after success has been achieved is the way of Heaven.

[33t10c] **Cheng Lin**
When the spirit holds fast to the body, how can there be disunion!
When the vital force attains the utmost degree of pliancy, how can one fail to resemble a new-born babe!
When the mind is purified, how can there be blemishes!
When the ruler truly loves the people, how can he fail to accomplish things!
When the sensual organs are properly used, how can one fail to have strength!
When the intellectual faculties are properly employed, how can one fail to have understanding!
The mysterious Nature is that which produces, grows, lives without the desire for ownership, gives without

the wish for return, rules without claiming lordship.

Thirty spokes share the space of one nave.
The substance and the void are both essential to the usefulness of a carriage.
Clay is moulded to make vessels.
The substance and the void are both essential to the usefulness of a vessel.
Doors and windows are hewn in a house.
The substance and the void are both essential to the usefulness of a house.
Thus, the presence of something may prove beneficial, just as the absence of something may prove useful.

[33t12c] **Cheng Lin**
The five colours blind the eyes of man.
The five tones deafen the ears of man.
The five flavours vitiate the palate of man.
The pursuit of pleasures deranges the mind of man.
The love for wealth perverts the conduct of man.
Wherefore the Sage attends to the inner self, and not to the outward appearance.

[33t13c] **Cheng Lin**
Honour and disgrace are alike a cause of excitement.
The great trouble of man lies in the love for self.
What is meant by saying that honour and disgrace are alike a cause of excitement?
Man prefers honour to disgrace.
When he has the one, he becomes excited;
when he loses the other, he becomes excited.
This means that honour and disgrace are alike a cause of excitement.
What is meant by saying that the great trouble of man lies in the love for self?
Man is beset with great trouble because of his consciousness of self.
If he is selfless, how can there be any trouble?
Wherefore, if a man esteems himself only as much as he esteems the whole world, he will find security therein.
If a man loves the world as much as he loves himself, he will find security therein.

[33t14c] **Cheng Lin**
That which cannot be seen is formless.
That which cannot be heard is noiseless.
That which cannot be touched is bodiless.
These three cannot be examined in detail for they really constitute one indivisible whole.
This indivisible whole (Truth) does not appear bright when viewed at the summit, or dark when viewed at the nadir.
It is imperceptible and indescribable.
It is always changing, and reverting to the state of Nothingness.
It is formless, shapeless, vague, and indefinite.
Pacing it, one cannot see its head; pursuing it, one cannot see its tail.
Abide by this primordial Truth, and the States of today can be ruled.

Know the primary conditions, and you know the principles of Truth.

[33t15c] **Cheng Lin**
The ancients who knew how to live according to Truth possessed a subtle and penetrating intelligence.
The profundity of their character was immeasurable.
As it was immeasurable, we can only give a superficial description of them as follows:
They moved about cautiously as though they were fording a large stream of water.
They were retiring and hesitant as though they were shy of the men around them.
Their demeanour was reverent as though they were meeting honoured guests.
They quickly adapted themselves to any circumstance as though they were ice melting before fire.
Their manners were simple and artless as though they were unhewn wood.
Their minds were expansive and receptive as though they were hollow valley.
Their views were impartial and tolerant as though they were turbid puddles.
What is it that can end the turbidity of puddles?
When there is no disturbance, the impurities gradually settle, and the water becomes clear.
What is it that can perpetuate the continuity of things?
When there is constant change, life gradually undergoes growth.
Those who hold fast to Truth do not desire satiation.
Because there is no satiety, life is continually renewing itself.

[33t16c] **Cheng Lin**
When one has attained the utmost humility and abided in the state of extreme quiescence, he can observe the cycle of changes in the simultaneous growth of all animate creation.
Things appear multitudinous and varied, but eventually they all return to the common root.
When they revert to the common root, there is quiescence.
The state of quiescence is called the fulfilment of destiny.
The fulfilment of destiny is called normalcy.
The knowledge of normalcy is called enlightenment.
The ignorance of normalcy causes haphazard action, and brings about calamities.
Knowing normalcy, a man becomes perspicacious.
Being perspicacious, he becomes altruistic, supreme, celestial, true, and everlasting.
Throughout his life nothing can do him harm.

[33t17c] **Cheng Lin**
Under the highest type of ruler, the subjects are hardly aware of his existence.
Under the next type of ruler, the subjects love his government.
Under the still next type of ruler, the subjects praise his government.
Under the still next type of ruler, the subjects stand in awe of his government.
Under the still next type of ruler, the subjects despise his government.
When one fails to inspire confidence, there must be cause for distrust.
Be quiet!
How can speech be of any avail!
When there are successes and achievements, the people believe that these are the natural results.

[33t18c] **Cheng Lin**
When the great Truth is abandoned, the teachings of benevolence and righteousness become fashionable.

When wit and cunning are highly esteemed, the adepts in hypocrisy become fashionable.
When discord reigns in the family, the teachings of filial piety and fraternal love become fashionable.
When chaos prevails in the country, the loyal ministers become fashionable.

[33t19c] **Cheng Lin**
Banish the witty and cunning, and the people will be benefited a hundred-fold.
Cease the teaching of benevolence and righteousness, and the people will again become filial and fraternal.
Discard deceit and greed, and the people will cease to rob one another.
The above three are based on artifice, and are insufficient for good government.
Hence the people should be asked to do the following:
Cherish simplicity and honesty.
Banish selfishness and desires.
Discard learning and fears.

[33t20c] **Cheng Lin**
Respect and insolence, - are they really different?
Beauty and ugliness, - are they really different?
A man feels compelled to detest that which the multitude detest.
The multitude seem to be busy and merry as though they were celebrating a religious festival or attending a spring picnic.
I alone remain quiet and indifferent.
I roam about in a wide expanse as though I could never find an anchorage.
I am simple and ignorant like a new-born babe.
I fell weary and desolate like a homeless solitaire.
The multitude seem to have plenty.
I alone seem to have an insufficiency.
The multitude appear wise.
I alone look foolish.
The multitude appear bright.
I alone look dull.
I am like one tossed about on the wide sea or blown about in a high gale.
The multitude appear useful.
I alone look worthless.
I am different from other men, because I alone esteem the attainment of Truth.

[33t21c] **Cheng Lin**
The conduct of those who have attained perfection is always in accordance with the way of Truth.
Truth is vague and intangible.
Though vague and intangible, within it there is substance.
Though vague and intangible, within it there is form.
Though distant and vacuous, within it there is essence.
Its essence is real, and its validity can be proven.
It has existed from the earliest time, and only its name is new.
It is the primary origin of the whole of creation.

The imperfect becomes perfect.
The old becomes new.
The crooked becomes straight.
The empty becomes full.
Loss means gain.
Plenitude means confusion.
Wherefore, the Sage holds fast to Truth and thereby sets an example for the world.
Because he is not self-complacent, he becomes enlightened.
Because he is not self-important, he becomes illustrious.
Because he is not self-conceited, he becomes successful.
Because he is not self-assertive, he becomes supreme.
Because he himself does not strive for superiority, there is none in the world who can contend with his superiority.
There is an old saying:
"The imperfect becomes perfect."
How true are these words!
In order to revert to the whole, one must abide by what is normal and natural.

[33t23c] **Cheng Lin**
Boisterous gales do not continue unabated from morn till eve.
Torrential rainfalls do not continue unabated throughout the day and night.
Who is it that produces these phenomena?
Heaven and earth.
Since these phenomena cannot last for ever, how much less can the work of man!
Those who follow the way of Truth will meet in Truth.
Those who follow the way of virtue will meet in virtue.
Those who follow the way of Heaven will meet in Heaven.
Those who meet in Truth become one with Truth, and they rejoice in it.
Those who meet in virtue become virtuous, and they rejoice in it.
Those who meet in Heaven become heavenly, and they rejoice in it.

[33t24c] **Cheng Lin**
Those who raise themselves on tiptoe cannot stand firm;
those who walk with long steps cannot travel far.
Those who are self-complacent are not enlightened.
Those who are self-important are not illustrious.
Those who are self-conceited are not successful.
Those who are self-assertive are not supreme.
Those who abide by Truth say:
"When one has a surplus of food and an excess of clothing, he causes envy in other men.
Therefore, the followers of Truth eschew these."

[33t25c] **Cheng Lin**
There is something evolved from chaos, which was born before heaven and earth.
It is inaudible and invisible.
It is independent and immutable.

It is all-pervasive and ceaseless.
It may be regarded as the mother of heaven and earth.
I do not know its name and call it Truth or Daw.
If I must describe it, I will say that it is great, active, far-reaching, and cyclical in its motion.
Thus Truth is great, heaven is great, earth is great, and the king is also great.
Within the universe there are four great ones, and the king is one of them.
The king must follow the examples of earth, heaven, Truth, and Nature.

[33t26c] **Cheng Lin**
That which is weighty has its source in that which is light.
That which is tranquil can subdue that which is disquiet.
Wherefore, the Sage always conducts himself gravely and tranquilly.
Though he may be surrounded by splendour and comfort, he is always reposeful and disinterested.
When the ruler conducts himself lightly, he loses the respect of his ministers.
When he conducts himself with disquietude, he loses the support of his people.

[33t27c] **Cheng Lin**
Good conduct leaves behind no traces.
Good words afford no room for criticism.
Good mathematicians require no calculating apparatus.
Good lids need no bolts, and they cannot be opened.
Good fasteners need no cords, and they cannot be released.
The Sage, by his abiding goodness, saves mankind because he spurns no one.
He, by his abiding goodness, saves the inanimate creation because he spurns nothing.
This is called mutual understanding.
Wherefore,
the good man should be the teacher of the bad man;
the bad man should serve as a lesson for the good man.
When one fails to esteem his teacher, or the other fails to value his lesson, each is under a great illusion, though each may possess erudition.
This is called obscure conception.

[33t28c] **Cheng Lin**
When a man, though aware of his manly strength, abides by a womanly meekness,
he is content to occupy the most humble position in the world.
When he is content to occupy the most humble position in the world, and when he always abides by his true nature,
he becomes again like a new-born babe.
When a man, though aware of his own purity, does not spurn the impure,
he is content to dwell in the lowest place in the world.
When he is content to dwell in the lowest place in the world, and when he always abides by his true nature,
he reverts to the natural simplicity.
The original qualities are destroyed when a thing is turned into some useful vessel.
The Sage, by preserving the original qualities, becomes the supreme ruler.
Hence, the great institutions are those which do not violate the nature of man.

[33t29c] **Cheng Lin**
When one desires to win over an Empire by action, I find that he will never have a moment of rest.
The possession of an Empire is something ordained by the gods.
It cannot be gained by action, or held.
Those who try to gain by action are sure to fail;
those who try to hold are sure to lose.
As regards the things of this world, they are constantly alternating:
they lead, they follow;
they inhale, they exhale;
they are strong, they are weak;
they rise, they fall.
Wherefore, the Sage eschews that which is excessive, extravagant, or superfluous.

[33t30c] **Cheng Lin**
Those who use Truth in assisting the ruler do not resort to war for the conquest of an Empire.
War is a most calamitous evil.
Wherever armies are quartered, briars and thorns become rampant.
Famines inevitably follow in the wake of great wars.
The good rulers are satisfied when an attack is stopped, and they do not venture to pursue conquest for supremacy.
Victories do not make them vainglorious, aggressive, arrogant, or anxious to pursue conquest for supremacy.
It is contrary to Truth for the strong to do harm to the weak.
Those who act contrary to Truth are sure to perish early.

[33t31c] **Cheng Lin**
The weapons of war are implements of disaster, and they should not be employed by the rulers except when it is unavoidable.
They should not show enthusiasm for their employment, and even when they are victorious, they should not glorify them.
To glorify them means taking delight in the killing of men.
Those who take delight in the killing of men cannot win the approval of the whole Empire.
The weapons of war are the implements of disaster, and they are detestable.
Therefore they are spurned by the followers of Truth.
Ordinarily the ruler esteems the left hand, but in war he esteems the right hand.
On joyful occasions, the left-hand side is the place of honour,
but on mournful occasions, the right-hand side is the place of honour.
The general second in command is seated on the left-hand side, and the general-in-chief is seated on the right-hand side.
All these indicate that war should be regarded as a mournful occasion.
When many people are killed, it should be an occasion for the expression of bitter grief.
Even when a victory is scored, the occasion should be regarded as lamentable.

[33t32c] **Cheng Lin**
Truth is the name given to that which was originally nameless and simple.
Though small, the whole world cannot subjugate it.

When the rulers abide by it, all animate creation will of their own accord become their servants.
Because heaven and earth are one with Truth, they produce rains and dews which benefit all mankind alike without their asking.
The name was fabricated by man.
Since it has been given a name, the rulers ought to know it.
When they know it, they will be free from danger.
Truth is to the universe as rivers and seas are to the earth.

[33t33c] **Cheng Lin**
He who knows others is wise; he who knows himself is enlightened.
He who overcomes others is powerful; he who overcomes himself is strong.
He who feels self-contentment is rich; he who practises self-cultivation is resolute.
He who abides by his original nature endures; he who follows Truth throughout life enjoys immortality.

[33t34c] **Cheng Lin**
The great Truth is all-pervasive and may be found everywhere.
It gives life to all animate creation, and yet it does not claim lordship over them.
It accomplishes all things, and yet it does not claim anything for itself.
It embraces all things, and yet it has no fixed abode.
It abides by inaction, and may be considered minute.
It is the ultimate destiny of all animate creation though it is not conscious of it, and it may be considered great.
Because it is never conscious of its greatness, it becomes truly great.

[33t35c] **Cheng Lin**
He who abides by the great Simulacrum (Truth) finds the people of the whole world eager to follow him.
By following him they are rendered free from harm, and peace prevails.
Like music and baits, he attracts all passers-by.
The utterance of Truth is insipid.
It cannot be seen with the eyes;
it cannot be heard with the ears;
it cannot be exhausted from constant use.

[33t36c] **Cheng Lin**
When one wishes to expand, one must first contract.
When one wishes to be strong, one must first be weak.
When one wishes to rise, one must first fall.
When one wishes to take, one must first give.
This is called mere truism.
Meekness can overcome hardness, and weakness can overcome strength.
Fishes cannot survive after leaving deep waters.
The State must not leave the weapons of war in the hands of the people.

[33t37c] **Cheng Lin**
Truth abides by inaction, and yet nothing is left undone.
If the rulers abide by Truth, all animate creation will of their own accord come under their influence.

When they of their own accord come under their influence, and if selfish desires arise, I would tranquillize them with the nameless simplicity (Truth).
Once tranquillized by the nameless simplicity, they will again be free from selfish desires.
Thus free from selfish desires, they will be calm, and the world will of its own accord become peaceful.

[33t38c] **Cheng Lin**
The most virtuous is not conscious of being virtuous, and therefore he attains virtue.
The least virtuous is always afraid of losing virtue, and therefore he fails to attain virtue.
The most virtuous abides by inaction, and nothing is left undone.
The least virtuous is always employed with action, and much is left undone.
When benevolence is most highly esteemed, people practise it for its own sake.
When righteousness is most highly esteemed, people practise it for their own good.
When propriety is most highly esteemed, people practise it because they are compelled to.
Thus,
virtue becomes fashionable when people fail to follow Truth;
benevolence becomes fashionable when people fail to attain virtue;
righteousness becomes fashionable when people fail to practise benevolence;
propriety becomes fashionable when people fail to practise righteousness.
The rules of propriety are brought about by the lack of loyalty and sincerity, and by the prevalence of confusion.
Learning is pushed to the fore when Truth is disregarded as a matter of no importance, and when hypocrisy begins to prevail.
Therefore the truly great men dwell in what is fundamental, and shun what is trivial;
they abide by what is real, and discard what is ornamental.

[33t39c] **Cheng Lin**
Since antiquity the following may be said to have attained Truth:
Heaven, which by Truth is clear.
Earth, which by Truth is secure.
The gods, which by Truth are divine.
The valleys, which by Truth are full.
All animate creation, which by Truth are alive.
The rulers, which by Truth are capable of rectifying the Empire.
Conversely, the following inferences may be stated:
Without that which renders it clear, heaven stands the danger of disruption.
Without that which renders it secure, earth stands the danger of depression.
Without that which renders them divine, the gods stand the danger of impotence.
Without that which renders them full, the valleys stand the danger of desiccation.
Without that which renders them life, all animate creation stand the danger of annihilation.
Without that which renders them capable of rectification, the rulers stand the danger of being overthrown.
Humility forms the basis of honour, just as the low ground forms the foundation of a high elevation.
Wherefore, the sovereigns are content to call themselves "The Virtueless" and "The Unworthy."
Does not this show that they regard humility as a matter of utmost importance?
Hence, the most praiseworthy are indifferent about praise.
It matters not to them whether they are admired as are beautiful jades, or despised as are rugged stones.

[33t40c] **Cheng Lin**
The motion of Truth is cyclical.
The way of Truth is pliant.
The multitude of things in this world have their origin in Reality.
Before the birth of Reality there was Nothingness.

[33t41c] **Cheng Lin**
When the highest type of men hear of Truth, they forthwith sedulously practise it.
When the average type of men hear of Truth, they are unimpressed.
When the lowest type of men hear of Truth, they greatly deride it.
Indeed, if these men do not deride it, it is surely not Truth.
Wherefore it is said in the Book of Jiann-Yan:
"The one who understands Truth appears as though he did not understand it.
The one who advances toward Truth appears as though he were retreating from it.
The one who finds the way of Truth easy appears as though he found it difficult."
The most virtuous appear as though they were devoid of virtue.
The virtuous who can impart virtue to others appear as though they were incapable.
The virtuous who are strong appear as though they were weak.
The virtuous who are solid appear as though they were unreal.
The most pure appears as though it were impure.
The perfect square is cornerless.
The greatest achievement is slow of completion.
The highest note is inaudible.
The great Simulacrum is formless.
The great Truth is nameless.
It is only Truth that excels both in giving and achieving.

[33t42c] **Cheng Lin**
Truth gave birth to one;
one gave birth to two;
two gave birth to three;
three gave birth to the multitude of things which attain the state of harmony when the opposite elements of Ying and Yang are mingled in a well-balanced manner.
Men dislike to be called "The Virtueless" or "The Unworthy."
But these are the names with which the sovereigns style themselves.
Hence, a thing may seem diminished when it is actually augmented, and it may seem augmented when it is actually diminished.
What other men teach, I also teach:
"The violent and overbearing men will die an unnatural death."
This will form the main theme of my teaching.

[33t43c] **Cheng Lin**
The softest thing in the world can overcome the hardest.
Such a thing seems to issue forth from nowhere, and yet it penetrates everywhere.
From this I have learned the advantage of inaction.
Few men in this world have learned the precept of silence, and the advantage of inaction.

Fame and life, - which is the more precious?
Life and property, - which is the more important?
Gain and loss, - which is the more to be preferred?
Inordinate love will surely result in abandonment.
Over-hoarding will surely end in heavy loss.
He who knows contentment will not suffer disgrace.
He who knows when to stop will not incur danger.

[33t45c] **Cheng Lin**
The most perfect appears as though he were imperfect, and his beneficence is inexhaustible.
The most complete appears as though he were incomplete, and his usefulness is limitless.
The most upright appears as though he were crooked.
The most skillful appears as though he were stupid.
The most eloquent appears as though he were inarticulate.
Calm can overcome unrest; heat can overcome cold.
With purity and quiescence of mind, one may rule supreme in this world.

[33t46c] **Cheng Lin**
When Truth prevails in this world, horses are employed to work on the farm.
When Truth fails to prevail in this world, horses employed in war are bred on the outskirts of the metropolis.
There is no error greater than that of having many desires.
There is no calamity greater than the feeling of discontent.
There is no fault greater than the desire for gain.
Therefore, he who knows contentment is always contented.

[33t47c] **Cheng Lin**
Without leaving the house, one may know everything about the world.
Without looking through the window, one may see the way of Heaven.
The further one travels, the less he knows.
Thus, the Sage possesses wisdom without seeking;
becomes famous without display;
achieves success without effort.

[33t48c] **Cheng Lin**
With learning one aims at constant augmentation.
With Truth one aims at constant diminution.
The diminution continues and continues until the state of inaction is reached.
Because of inaction, nothing is left undone.
When one constantly abides by inaction, he can win an Empire.
If he does not abide by inaction, he will never be able to win an Empire.

[33t49c] **Cheng Lin**
The Sage has no fixed prejudices, but always regards the hearts of all mankind as his own.
Those who are good, he treats well;

those who are not good, he also treats well.
Thus he finds only good men.
Those who are sincere, he believes;
those who are not sincere, he also believes.
Thus he finds only sincere men.
The Sage wishes that all men in this world will soon return to simplicity.
While people in general strain their ears and eyes, the Sage wishes to have them all sealed.

[33t50c] **Cheng Lin**
Man begins with life, and ends with death.
During the span of man's existence,
three-tenths of it are passed in the processes of growth;
three-tenths are passed in the processes of decay.
That which is meant for the development of life but which is passed in the processes of decay also constitutes three-tenths.
Why is this so?
Because man over-taxes the life force.
It has been said that he who knows how to preserve life avoids the rhinoceros and tigers when travelling by land;
dodges arms and weapons when engaged in battle with a hostile army.
He sees to it that the rhinoceros have no opportunity to use their horns;
that tigers have no opportunity to use their claws;
that enemies have no opportunity to use their weapons.
Why is this so?
Because man avoids the risks of death.

[33t51c] **Cheng Lin**
It is Truth that gives both life and form to things.
The nature of a thing determines its individuality and perfection.
Therefore, as regards all things, Truth and Nature are the most important.
The importance of Truth and Nature is a matter of course, and requires no comment.
Truth gives birth to life.
Nature determines the individuality, growth, development, completion, maturity, protection, and security of a thing.
The mysterious Nature is that which lives without the desire for ownership, gives without the wish for return, rules without claiming lordship.

[33t52c] **Cheng Lin**
There was something which preceded the birth of the universe.
When the primary cause is grasped, the effects may be understood.
One's whole life can be secure if knowing the effects, one still holds fast to the primary cause.
Stop up all the orifices of lust, shut out all forms of distraction, - then one's whole life will be free from harm.
Open all the orifices of lust, attend to the gratification of desires, - then one's whole life will be beyond salvation.
The clear-sighted is he who can discern even the minute things.
The strong is he who can abide by meekness.

Following the light, reverting to the source of illumination, doing no harm to oneself, - these are the ways of attaining what is normal.

[33t53c] **Cheng Lin**
If I am truly enlightened and travel the way of great Truth, I should always feel apprehensive lest I deviate from it.
The way of great Truth is most easy to travel, yet men prefer the by-paths.
The Court is very corrupt, the fields are much neglected, the granaries are much depleted;
yet there are men who still don expensive dresses, carry sharp swords, gorge themselves with food and wine, and wallow in superfluous wealth.
These men may be called the captains of robbers.

[33t54c] **Cheng Lin**
He who knows how to establish himself cannot be uprooted.
He who knows how to hold fast cannot lose his grip.
The descendants of such a man will worship him without cease.
When one's conduct is in accordance with Truth, the inherent qualities become real.
When a whole family follows Truth, the inherent qualities become abundant.
When a whole village follows Truth, the inherent qualities become enduring.
When the whole State follows Truth, the inherent qualities become superabundant.
When a whole Empire follows Truth, the inherent qualities become universal.
Thus,
one man is the measure of other men,
one family is the measure of other families,
one village is the measure of other villages,
one State is the measure of other States,
and one Empire is the measure of other Empires.

[33t55c] **Cheng Lin**
When the inherent qualities are completely preserved, one is like a new-born babe.
Poisonous insects will not bite him, ferocious beasts will not crouch in wait for him, predatory birds will not attack him.
Though his body is weak and supple, yet he has a firm grip.
Though he is ignorant about the reproductive organs, yet he possesses them all.
This is because he is full of the elemental force.
He may cry all day, yet he never loses his voice.
This is because he attains the perfect harmony.
When the elemental force is in perfect harmony, there is normalcy.
When one knows normalcy, there is enlightenment.
When one tampers with life, there is calamity.
When the heart is subservient to the will, there is compulsion.

[33t56c] **Cheng Lin**
Those who know do not speak; those who speak do not know.
Stop up all the orifices of lust,
shut out all forms of distraction,

repress all manner of cunning,
unravel all causes of confusion,
eliminate all opportunities for rivalry,
remove all kinds of inequality,
- then there is great harmony.
When there is no cause for favour or disfavour, gain or loss, honour or disgrace,
the world will become rectified.

[33t57c] **Cheng Lin**
When one rules the State with uprightness, and uses stratagem in war,
he cannot hope to win over a whole Empire.
How do I know that this is true?
Because of the following:
When there are many prohibitory statutes in the Empire, the people become the more impoverished.
When the people possess numerous weapons of war, the State becomes more chaotic.
When men possess much skill and cunning, there is an increase of fanciful goods.
When there is a profusion of laws and regulations, banditry becomes rife.
Therefore, one of the Sages said:
"I abide by inaction, and the people reform themselves.
I esteem quietude, and the people rectify themselves.
I make no effort, and the people enrich themselves.
I have no desires, and the people of their own accord practise simplicity."

[33t58c] **Cheng Lin**
When the government is simple, the people are honest.
When the government is complicate, the people are wily.
What one calls calamity is often a fortune under disguise.
What one calls fortune is often a cause of calamity.
Who knows what the final outcome will be?
How can there be absolute right!
The right may turn out to be wrong.
How can there be absolute goodness!
The good may turn out to be evil.
Indeed, men have been under a delusion for such a long time.
The Sage,
though he is strict in his own conduct, does not require other men to conform;
though he is honest, does not hurt other men;
though he is upright, does not condemn other men;
though he is glorious, he does not dazzle other men.

[33t59c] **Cheng Lin**
In governing men and serving Heaven, there is nothing better than temperance.
In order to practise temperance, one must first follow Truth, and this means adherence to the inherent qualities.
When one adheres to the inherent qualities, he becomes invincible.
When he is invincible, he also becomes unfathomable.

When he is unfathomable, he also becomes one with Truth.
When he is one with Truth, he becomes everlasting.
This is the way to attain immortality.

[33t60c] **Cheng Lin**
To govern a large State is as easy as frying small fishes.
When one rules an Empire according to Truth, the spirits become powerless.
Not only the spirits, but also the gods are powerless to do harm to men.
Not only the gods, but also the Sages are powerless to do harm to men.
When these do not do harm to one another, their inherent qualities will enable them to arrive at a common end.

[33t61c] **Cheng Lin**
In order to govern a large State, one must practise humility.
The father of an Empire should behave as though he were the mother.
The female willing to occupy a subordinate position uses quietude to subjugate the male.
Thus,
when a large State is humble, it can win over the small States;
when a small State is humble, it can win over the large States.
In the case of the large States, humility makes them desirous of protecting all men, and no more.
In the case of the small States, humility makes them desirous of serving all men, and no more.
These obtain what they desire because they practise humility.

[33t62c] **Cheng Lin**
Truth is the abode of the whole of creation.
It is treasured by good men, and it should also be treasured by bad men.
Good words enable one to obtain honour, and good conduct enables one to receive respect.
When a man is bad, why should we spurn him?
Wherefore, it is better to advance toward Truth than to be an Emperor, or a Grand Minister, or a royal messenger wearing precious jades and riding in fine carriages.
Why did the ancients esteem Truth?
Was it not for the reason that by following Truth men could obtain what was desirable and avoid what was undesirable?
Because of Truth they could rule the whole Empire.

[33t63c] **Cheng Lin**
Abide by inaction.
Do not crave for accomplishment.
Discard learning.
Regard great, small, much and little as the same.
Deal with what is easy as though it were difficult;
with what is trivial as though it were important.
The world's difficult tasks may appear easy in the beginning, just as the world's great achievements may appear small in the beginning.
Because the Sage does not go about great undertakings, he is able to accomplish great things.
He who lightly makes promises will surely be found wanting in good faith.

He who often underestimates difficult tasks will surely be beset with difficulties.
Because the Sage is always aware of the existence of difficulties, he never encounters difficulties.

[33t64c] **Cheng Lin**
When chaos has not yet appeared, it is easy to maintain peace.
When portents have not yet appeared, it is easy to devise measures.
When a thing is brittle, it can be easily broken.
When a thing is minute, it can be easily dispersed.
Measures should be adopted to forestall future emergencies.
Action should be taken to safeguard against possible confusion.
A giant tree whose trunk measures several feet in diameter is grown from a tiny seed.
A tall tower nine storeys high is built upon basketfuls of earth.
A long journey of a thousand lii is covered step by step.
Those who try to gain by action are sure to fail;
those who try to hold are sure to lose.
Because the Sage abides by inaction, he does not fail.
Because he does not try to hold, he does not lose.
Men often fail in their undertakings when they are on the verge of success.
If the same care is exercised towards the end as at the beginning, they can never fail.
Wherefore, the Sage has no desires, covets not rarities, and acquires not learning in order that he may avoid the faults of the multitude.
He promotes the spontaneous development of all things, and does not venture to interfere by his own action.

[33t65c] **Cheng Lin**
The ancients who knew Truth well did not make the people acquire learning, but kept them in the state of simplicity.
The people become difficult to govern when they are full of wiles.
Therefore,
the ruler who relies on learning does harm to the State;
the ruler who relies not on learning does good to the State.
These two ways are the ways of government.
When one always follows the right course, he acts in accordance with the mysterious Nature.
The mysterious Nature is profound and far-reaching.
When things revert to it, there is great concord.

[33t66c] **Cheng Lin**
That the rivers and seas are the lords of all waterways is because they occupy the lowest position, which fact is the cause of their lordship.
Wherefore, he who wishes to be above the people must be content to be at the bottom.
He who wishes to be at the head of the people must be content to be in the rear.
Thus the Sage occupies a superior position, and the people do not find it burdensome.
He occupies a leading position, and the people do not find it irksome.
Therefore the whole Empire takes delight, and is never weary of paying him homage.
Because he himself does not strive for superiority, there is none in this world who can contend with his superiority.

[33t67c] **Cheng Lin**
The world thinks that Truth which I describe is so great that it seems unreal.
It seems unreal because it is indeed so great.
If it were considered real, then it must be small.
There are three treasures which I cherish as the most precious.
The first is compassion.
The second is frugality.
The third is humility.
Because of compassion, there is courage.
Because of frugality, there is liberality.
Because of humility, there is supremacy.
Perdition will be the lot of those who choose courage, and abandon compassion;
who choose liberality, and abandon frugality;
who choose supremacy, and abandon humility.
When there is compassion, one can be victorious in an offensive war, and hold his position in a defensive war.
Because of the compassion of such a man, Heaven will deliver and protect him.

[33t68c] **Cheng Lin**
The best warriors are not warlike.
The best strategists are not impulsive.
The best winners are not quarrelsome.
The best rulers are not arrogant.
All these indicate the virtue of non-contention,
the ability to employ men,
compliance with Heaven's sublime way.

[33t69c] **Cheng Lin**
One of the ancient strategists said:
"I do not venture to fight an offensive war;
I prefer to be on the defensive.
I dare not advance an inch;
I prefer to retreat a foot."
This indicates the futility of possessing armaments,
the reluctance to send armed expeditions,
the inexistence of casus belli,
the absence of foes.
Nothing can be more calamitous than an underestimation of the enemy's strength.
To underestimate the enemy's strength may cost a man his life.
In the event of war, those who regard it as a lamentable necessity will win.

[33t70c] **Cheng Lin**
My teaching is very easy to understand and very easy to practise.
Yet the world does not understand or practise it!
My teaching has its basis, and my conduct has its reason.
Because the world is ignorant of them, I am misunderstood.

There are few who understand me, and those who abuse me are placed in positions of honour.
Therefore the Sage must dress in coarse robes while hiding precious jewels within his breast!

[33t71c] **Cheng Lin**
Those who know, and yet do not think they know, belong to the highest type of men.
Those who do not know, and yet think they know, are really at fault.
When one knows that he is at fault, he can be free of faults.
The Sage is free of faults because he knows when he is at fault.

[33t72c] **Cheng Lin**
When the people are not afraid of punishment, the exercise of authority will be hampered.
Do not oppress the people; do not make them weary of life.
When the ruler does not oppress the people, they will not be weary of life.
The Sage knows his own worth, but makes no self-display.
He has self-respect, but does not feel self-important.

[33t73c] **Cheng Lin**
When one is daring to the point of recklessness, he will meet with violent death.
When one's daring is tempered by caution, he will find his life secure.
Of these two types, one is beneficial and the other harmful.
Who knows the cause of Heaven's preference?
The way of Heaven is victorious, and there is no strife convincing, and there is no speech;
responsive, and there is no compulsion;
sure of success, and there is no haste.
The rule of Heaven is extensive and comprehensive, slow but sure.

[33t74c] **Cheng Lin**
When the people are not afraid of death, why try to frighten them by capital punishment?
If the people are really afraid of death and when the wrongdoers are promptly executed, who will dare to do wrong?
There should be a certain authority to decide on the death of men.
If the decision of death is given to other men than the qualified party, it is comparable to asking a novice to do the work of a master-craftsman.
In so doing, the novice seldom escapes injuring his hands.

[33t75c] **Cheng Lin**
The people suffer hunger because the rulers levy so many taxes.
That is why they starve.
The people become difficult to govern because the rulers demand too much action.
That is why they are difficult to govern.
The people risk death because the rulers have too many desires.
That is why they risk death.
He who does not occupy himself with the preservation of his own body is superior to those who regard it as a matter of utmost importance.

When a man is alive, his body is supple and pliant.
When he is dead, it is hard and stiff.
When a plant is alive, it is supple and pliant.
When it is dead, it is dry and brittle.
Therefore,
to be hard and stiff is the way of death;
to be supple and pliant is the way of life.
A stiff weapon may break, just as a stiff tree may crack.
That which is hard and stiff occupies a disadvantageous position.
That which is supple and pliant occupies an advantageous position.

[33t77c] **Cheng Lin**
The way of Heaven is like the drawing of a bow!
The bulge is levelled;
the depression is raised;
the excess is diminished;
the deficiency is replenished.
The way of Heaven is to diminish excess, and replenish deficiency.
The way of man is the opposite.
He robs the poor to serve the rich.
Who can give all he has to serve the world?
Only the follower of Truth.
Thus the Sage gives without the wish for return;
he achieves without claiming credit.
Is this not because he wishes to conceal his worth?

[33t78c] **Cheng Lin**
There is nothing in this world more supple and pliant than water.
Yet even the most hard and stiff cannot overcome it.
This is an irrefutable truism.
That the meek can overcome the strong, just as the supple can overcome the hard, is known to all people.
Only they fail to practise it.
A Sage once said:
"He who can suffer humiliation for the sake of his country is qualified to rule over a State.
He who can suffer calamities for the sake of his country is qualified to rule over an Empire."

[33t79c] **Cheng Lin**
When one merely tries to allay anger, the feelings of resentment may always remain.
Only by returning injury with kindness can there be goodwill.
Wherefore, the Sage always gives without expecting gratitude.
The virtuous is preoccupied with the thought of how to benefit others.
The unvirtuous is preoccupied with the thought of how to injure others.
The way of Heaven is impartial, helping all men alike in doing good.

[33t80c] **Cheng Lin**
The State should be small, and its inhabitants should be few.

Its ruler should teach the people to shun arms and weapons even though they are available.
He should teach the people to avoid the risks of death, and to be reluctant to travel in distant countries.
Thus though there might be ships and carriages, they would have no need to mount them.
Though there might be arms and weapons, they would have no need to use them.
He should make the people return to the state of pristine simplicity where the system of knotting threads was used.
Then they would relish the food they eat;
consider beautiful the clothes they wear;
regard as comfortable the houses they dwell in;
enjoy the customs they have.
The State may be so closely situated that the barking of dogs and the crowing of cocks in one may be heard in the other.
Thus the people would be content to live in their own country from the time of their birth until their death without thinking of foreign intercourse.

[33t81c] **Cheng Lin**
True words may not be specious, and specious words may not be true.
Good words may not be convincing, and convincing words may not be good.
Wise men may not be learned, and the learned may not be wise.
The Sage gives without reservation.
He offers all to others, and his life is more abundant.
He helps all men alike, and his life is more exuberant.
The way of Heaven is to benefit, and not to harm.
The way of the Sage is to give, and not to strive.

[34t01c] **Yi Wu**
The way that can be talked about is not the constant Way.
The name that can be named is not the constant Name.
Non-being is the name of the origin of Heaven and Earth;
Being is the name of the mother of all things.
Therefore:
Constantly in Non-being, one wishes to contemplate its (the Way's) subtlety.
Constantly in Being, one wishes to contemplate its path.
These two come from the same source, but are different in name.
The same source is called Mystery.
Mystery and more mystery.
It is the gateway to myriad subtleties.

[34t02c] **Yi Wu**
When all in the world know beauty as beauty,
then ugliness already has arisen.
When all know good as good,
then bad already has arisen.
Therefore:
existence and non-existence give birth to each other,
difficult and easy complement each other,
long and short contrast with each other,
high and low rely on each other,
sound and voice harmonize with each other,
front and back follow each other.
Therefore:
the sage manages his affairs by non-action and spreads his teachings without words.
All things arise, he does not reject them.
He produces, but does not possess;
acts, but does not take credit;
achieves merit, but does not dwell [on it].
Because he does not dwell on it, it does not leave him.

[34t03c] **Yi Wu**
[The ruler] not exalting talent, the people will not compete;
[The ruler] not valuing rare goods, the people will not steal;
[The ruler] not displaying desirable things, the people's hearts will not be disturbed.
Therefore, the sage's government:
empties their hearts,
fills their bellies,
weakens their wills,
strengthens their bones.
He always causes the people to have no knowledge and no desires
And causes those who are clever to not dare to act.
Acting by non-action, nothing will not be governed well.

[34t04c] **Yi Wu**
The Way appears empty;
in use, it may not overflow.
Fathomless, it seems to be the ancestor of all things.
It blunts its own sharpness,
unties its own tangles,
tempers its own brightness,
unites itself with dust.
Deep but clear, it seems to exist and not to exist.
I do not know whose son it is.
It symbolizes that which precedes the Creator.

[34t05c] **Yi Wu**
Heaven and Earth have no humanity;
They regard all things as straw-dogs.
The sage has no humanity;
He regards the people as straw-dogs.
Between Heaven and Earth, it is like a bellows or a flute!
Empty, but not exhausted;
With movement, more comes out.
Too much talk always exhausts;
It is better to keep to the inside.

[34t06c] **Yi Wu**
The spirit of the valley never dies;
It is called the mysterious female.
The gate of the mysterious female is called the root of Heaven and Earth.
Continuously it seems to exist.
There is no labor in its use.

[34t07c] **Yi Wu**
Heaven is eternal and Earth is everlasting.
The reason they can last forever
Is because they do not live for themselves.
So, they can live long.
Therefore, the sage places himself behind,
But actually he goes ahead;
Neglects himself,
But actually preserves himself.
Is it not because he has no self
That his self is realized?

[34t08c] **Yi Wu**
The supremely good [man] is like water.
Water is good at benefiting all things
but does not compete with them.

It dwells in places that people dislike;
therefore, it is close to the Way.
In dwelling, he is good at living close to the ground.
In mind, he is good at making himself like an abyss.
In giving, he is good at practicing humanity.
In speaking, he is good at keeping his word.
In governing, he is good at managing.
In doing, he is good at using his abilities.
In moving, he is good at discerning the right time.
Because he does not compete with others, he will be free from blame.

Holding [a cup] until it overflows, is not as good as stopping in time.
[A sword] beaten to its sharpest, will not last long.
A hall filled with gold and jade, cannot be kept forever.
Pride in riches and honors, creates trouble for oneself.
After achieving merit, retire.
It is the Way of Heaven.

[34t10c] **Yi Wu**
To keep the spirit and body embracing Oneness,
can you let them not be separate?
To concentrate the breath for attaining softness,
can you be like an infant?
To wash and clear the mysterious vision,
can you eliminate all flaws?
To love the people and govern the state,
can you be without knowledge?
To open and close the Heavenly gates,
can you be the female?
To understand all things in the four directions,
can you be in non-action?
To produce them and nourish them,
To produce without possessing,
To act without taking credit,
To [encourage] growth without controlling,
This is called mysterious virtue.

[34t12c] **Yi Wu**
The five colors cause people's eyes to become blind.
The five tones cause people's ears to become deaf.
The five flavors cause people's mouths to become taste-less.
Racing and hunting cause people's minds to become mad.
Rare goods cause people's actions to become obstructed.
Therefore, the sage is for the belly, not for the eye.
He renounces that and takes this.

[34t13c] **Yi Wu**
Favor is like disgrace, which startles us.
Big troubles should be treated as seriously as our bodies.
What is meant by, "Favor is like disgrace, which startles us"?
Favor is lowly.
Getting it startles us;
Losing it startles us;
Thus, favor is like disgrace, which startles us.
What is meant by, "Big troubles are treated as seriously as our bodies"?
The reason that we have big troubles is that we possess bodies.
If we did not possess bodies, what troubles could we have?
Therefore,
only the man who values himself for the sake of the world
is worthy of being entrusted with the world;
only the man who loves himself for the sake of the world
is worthy of being relied on by the world.

therefore, they are blended into one.

below it, there is no darkness.
Continually!
Infinitely!
Unnameable, it returns again to the no-thingness.
This is called the form of the formless, the image of nothingness.
This is called the vague, the elusive.
Meeting it, one does not see its face;
Following it, one does not see its back.

If one holds to the Way of ancient times,
one can manage existence in the present.
That one can know the origin,
is called the record of the Way.

[34t15c] **Yi Wu**
In ancient times, the men who cultivated the Way shared its essence, subtlety, mystery, and penetration.
They were deep and beyond knowing.
Because they were beyond knowing, we try only to describe them:
Cautious, as if crossing a river in winter;
Hesitant, as if fearing the neighbors on all sides;
Serious, as if a guest;
Expansive, as if melting ice;
Sincere, as if an uncarved block;
Vast, as if a valley;
Chaotic, as if turbid [water].
Who can stop turbidity, clarifies it gradually through tranquility.
Who can create lasting peace, produces it gradually through movement.
The men who protect this Way do not want to be too full;
only by not being too full can they remain under cover,
without new achievements.

[34t16c] **Yi Wu**
Practice emptiness to its ultimate.
Maintain tranquility sincerely.
All things rise together;
I only contemplate their return.
All things flourish;
Each returns to its root.
To return to the root is tranquility;
It means to return to life.
To return to life is constancy;
To know constancy is enlightenment.
One who does not know constancy acts blindly and is in danger.
Knowing constancy, one's mind embraces all.
Embracing all, one treats all things equally.
Treating all things equally, one is kingly.
Being kingly, one is in accord with Heaven.
In accord with Heaven, one attains the Way.
Attaining the Way, one lives long.
One's entire life is without danger.

[34t17c] **Yi Wu**
The best ruler: the people merely know he exists.
Next best: the people love and praise him.
Next: the people fear him.

Lowest: the people despise him.
Because he does not trust enough,
he will not be trusted by others.
Silent, the best ruler values his words.
When he has achieved merit and completed his works,
the people all say, "We did it ourselves."

[34t18c] **Yi Wu**
When the great Way was abandoned,
Humanity and righteousness appeared.
When the intelligent and knowledgeable arose,
Great hypocrisy appeared.
When the six relationships were not in harmony,
Filial piety and paternalistic kindness appeared.
When the state was in chaos and disorder,
Loyal ministers appeared.

[34t19c] **Yi Wu**
Transcend sagacity and abandon intellect;
The people will be benefited a hundredfold.
Transcend humanity and abandon righteousness;
The people will return to filial piety and paternal kindness.
Transcend craftiness and abandon profit;
Robbers and thieves no longer will exist.
These three are but ornaments, and inadequate;
Therefore, they should be subordinated.
Appear plain and embrace simplicity;
Reduce selfishness and restrain desires.

[34t20c] **Yi Wu**
Transcend learning; there will be no sorrow.
Between "yea" and "nay", what is the difference?
Between "good" and "evil", what is the distinction?
What other people fear, I cannot but fear.
Of wandering, there will be no end.
Most people are busy coming and going
As if enjoying a feast,
As if ascending a tower in the springtime.
I alone am unmoved, showing no sign,
Like a baby who has not yet become a child;
Weary, as if I have no home to return to.
Most people have more than enough; I alone seem to be left out.
My mind is like a fool's! Chaotic, chaotic!
Ordinary people are bright; I alone am dim.
Ordinary people inspect [everything]; I alone am obscurant,
Indifferent as the sea, endless as a high wind.

Most people are reasonable; I alone am stubborn and mean.
I am different from others; I value being fed by the Mother.

[34t21c] **Yi Wu**
The attitude of grand virtue is to follow only the Way.
The Way is like something elusive and evasive.
Within it there is image, evasive and elusive.
Within it there is matter, elusive and evasive.
Within it there is essence, dim and dark.
The essence is very real,
Within it there is evidence of reality.
From ancient times to now,
Its name has not disappeared.
By it one can see the source of all things.
How could I know the source of all things?
By this.

[34t22c] **Yi Wu**
To bend is to be whole.
To crook is to be straightened.
To be hollow is to be filled.
To be worn out is to be renewed.
To have little is to gain more.
To wish for more is to be confused.
Therefore, the sage embraces oneness to become the pattern for the world.
By not being self-opinionated, he becomes enlightened.
By not being self-righteous, he becomes manifest.
By not being self-glorified, he has merit.
By not being self-satisfied, he develops well.
He alone does not compete with anyone;
so, no one can compete with him.
Is the ancient saying, "To bend is to be whole", an idle word?
Truly, the whole will return to him.

[34t23c] **Yi Wu**
Nature rarely speaks.
So, a whirlwind does not last all morning,
Nor does a sudden shower last the whole day.
Who causes these? Heaven and earth.
If what Heaven and earth do cannot last long,
What can man do?
Therefore, one who follows the Way is in accord with the Way.
One who practices virtue is in accord with virtue.
One who loses is in accord with loss.
To be in accord with the Way is to be accepted gladly by the Way.
To be in accord with virtue is to be accepted gladly by virtue.

To be in accord with loss is to be accepted gladly by loss.
When a man is not sincere enough
He will not be trusted.

[34t24c] **Yi Wu**
One who is on tiptoe cannot stand.
One who strides cannot walk.
One who is self-opinionated is not enlightened.
One who is self-righteous is not brightened.
One who is self-glorified is without merit.
One who is self-satisfied cannot develop.
To the Way, all of them are known as
"Unwanted food and useless actions."
They may be despised by all things;
Therefore, one who practices the Way does not dwell on them.

[34t25c] **Yi Wu**
There was something formed in chaos;
It existed before heaven and earth.
Still and solitary,
It alone stands without change.
It is all-pervasive without being exhausted.
It may be the mother of the world.
I do not know its name, but name it the Way.
With reluctance, I call it Great.
Great means on-going;
On-going means far-reaching;
Far-reaching means reversing;
Therefore, the Way is great.
Heaven is great;
Earth is great;
The king also is great.
In this realm there are four great things,
And the king is one of them.
Man follows Earth;
Earth follows Heaven;
Heaven follows the Way;
The Way follows its nature.

[34t26c] **Yi Wu**
Heaviness is the root of lightness.
Tranquility is the master of restlessness.
Therefore, the sage travels all day without parting from his baggage wagon.
Although there are splendid palaces,
he lives transcendentally at ease.
Why would a ruler of ten thousand chariots treat himself so lightly in the world?

Being light, one would lose one's foundation.
Being restless, one would lose one's mastery.

[34t27c] **Yi Wu**
Good walkers leave no track.
Good speakers leave no opening for criticism.
Good counters use no calculators.
Good closers use no bolts, but the doors cannot be opened.
Good tiers use no rope, but their knots cannot be untied.
Therefore, the sage is constantly good at saving people; no one is forsaken.
He is constantly good at saving things; nothing is abandoned.
This is called inherent enlightenment.
Therefore, good men are teachers of men who are not good;
Men who are not good are the good man's materials.
He who does not respect his teacher nor love his materials,
However intelligent, is greatly confused.
This is called essential subtlety.

[34t28c] **Yi Wu**
Knowing the male and keeping to the female,
One will be the stream bed of the world.
To be the stream bed of the world,
One will not depart from the constant virtue
But will return again to infancy.
Knowing the white and keeping to the black,
One will be the pattern of the world.
To be the pattern of the world,
One will not deviate from the constant virtue
But will return to the non-ultimate.
Knowing the honor and keeping to the mean,
One will be the valley of the world.
Being the valley of the world,
One's constant virtue is complete;
One returns to simplicity.
When the uncarved block is divided, it becomes vessels.
The sage uses it to become a leader.
Therefore, the great system will not cut apart.

[34t29c] **Yi Wu**
If one wants to possess the world and act upon it,
I know that he cannot get it.
The world is a sacred vessel;
It cannot be acted upon.
To act upon it is to destroy it.
To grasp it is to lose it.
Therefore, in all things,

Some lead, some follow,
Some blow warm, some blow cool,
Some are strong, some are weak,
Some destroy, some are destroyed.
Therefore, the sage avoids the extreme,
The extravagant, and the excessive.

[34t30c] **Yi Wu**
One who aids the ruler with the Way
Does not use military force to be strong in the world.
It brings retribution.
Where an army is stationed,
Briers and thorns grow.
After a great war,
A bad year invariably follows.
The good one gets a result and stops;
He dares not attribute it to his strength.
He gets results but does not brag,
gets results but does not boast,
gets results but is not arrogant,
gets results but does not make choices,
gets results but does not use force.
Anything that grows strong grows old.
This is called, "Not being with the Way".
Whatever is not with the Way will die early.

[34t31c] **Yi Wu**
Fine weapons are things of ill omen.
All beings may dislike them;
Therefore, one who follows the Way does not live with them.
Ordinarily, a superior man values the left side;
Using an army, he values the right side.
Weapons are things of ill omen, not a superior man's things.
He uses them only when unavoidable.
He regards contentment as best.
Even if he wins, victory is not beautiful.
To find a victory beautiful is to rejoice at killing people.
One who rejoices at killing people can never attain his will in the world.
On fortunate occasions, the left side is elevated;
On unfortunate occasions, the right side is elevated.
The lieutenant-general stays on the left;
The supreme general stays on the right.
Deal with military affairs as if they were funeral rites.
Mourn for the killing of many people.
Observe funeral rites for the winning of a war.

[34t32c] **Yi Wu**
The Way constantly is nameless.
Although its simplicity makes it seem trivial,
No one can subjugate it.
If dukes and kings can keep to it,
All things will naturally behave as guests.
Heaven and earth will unite with each other,
And sweet dew will fall.
People, without being commanded,
Will be equal to each other.
In the beginning of creation,
All things were given names.
When names are given,
One must know when to stop.
Knowing when to stop,
One will be free from danger.
The Way is to the world
As the great rivers and oceans
Are to streams in the valleys.

[34t33c] **Yi Wu**
One who knows another is intelligent;
One who knows himself is enlightened.
One who overcomes another has power;
One who overcomes himself is strong.
One who is contented is rich.
One who acts forcefully has will.
One who does not lose his place will endure long.
One who dies but does not perish will live long.

[34t34c] **Yi Wu**
The great Way is universal,
It exists on the left and the right.
All things rely on it for life,
And it does not refuse them.
It achieves without possessing.
It clothes and feeds all things
Without being their master.
Constantly desireless, it may be called "the small".
All things return to it,
But it is not their master.
It may be called "the great".
Because it does not consider itself great,
It is able to be great.

He who holds to the great image
Will be followed by the people of the world.
They will go unharmed,
In safety, calm, and peace.
Music and good food tempt passing guests to pause;
[But,] the Way that is tasted has no flavor,
Looked at, it cannot be seen,
Listened to, it cannot be heard,
Used, it cannot be exhausted.

[34t36c] **Yi Wu**
If it wants to close anything, surely it will first open it.
If it wants to weaken anything, surely it will first strengthen it.
If it wants to abandon anything, surely it will first allow it to arise.
If it wants to take away anything, surely it will first give it.
This is called the subtle enlightenment.
The soft and the weak win over the hard and the strong.
Fish cannot leave the deep water.
The state's sharpest weapons cannot be shown to people.

[34t37c] **Yi Wu**
The Way is constantly in non-action,
But it leaves nothing undone.
If dukes and kings can keep to it,
All things will be transformed by themselves.
But, in transforming, desires arise.
I will subdue them by the nameless simplicity;
With nameless simplicity,
There will be no desires.
Being desireless is to be tranquil.
All the world will become calm by itself.

[34t38c] **Yi Wu**
One with supreme virtue is not attached to virtue, so has virtue.
One with lower virtue does not lose virtue, so has no virtue.
One with supreme virtue is in non-action and acts without purpose.
One with lower virtue is in action and has purpose in his actions.
One with high humanity is in action but acts without purpose.
One with high righteousness is in action and acts with purpose.
One with high propriety is in action but, if people do not respond,
He raises armies to draw others to him.
Therefore, when people lose the Way, they resort to virtue.
Losing virtue, they resort to humanity.
Losing humanity, they resort to righteousness.
Losing righteousness, they resort to propriety.
Propriety marks the lack of loyalty and trust

And the beginning of disorder!
The man with foreknowledge is only an ornament of the Way
And the beginning of stupidity.
Therefore, the great man dwells on the thick but not on the thin.
Dwells on the substance, but not on the ornament.
So, he renounces that and takes this.

[34t39c] **Yi Wu**
Those of ancient times attained oneness.
Heaven attained oneness and became clear;
Earth attained oneness and became calm;
Spirits attained oneness and became divine;
Valleys attained oneness and became full;
All things attained oneness and came to life;
Dukes and kings attained oneness and became models for the world.
All was achieved by oneness.
Heaven, without [oneness], becoming clear, might crack;
Earth, without [oneness], becoming calm, might explode;
Spirits, without [oneness], becoming divine, might be exhausted;
Valleys, without [oneness], becoming full, might dry up;
All things, without [oneness], receiving life, might perish;
Dukes and kings, without [oneness], becoming honorable, might fall.
Therefore, the superior takes the inferior as its root.
The high recognizes the low as its foundation.
Therefore, dukes and kings call themselves
"the lonely one", "the little one", and "the worthless one".
Is this not to recognize the lowly as the root?
Is not this?
Therefore, those who wish for great reputation have no reputation.
We do not want to be bright as jade or hard as stone.

[34t40c] **Yi Wu**
Reversal is the movement of the Way.
Weakness is the function of the Way.
All things in the world live in Being,
And Being lives in Non-being.

[34t41c] **Yi Wu**
When the highest scholars hear of the Way, they practice it diligently.
When average scholars hear of the Way, they doubt its existence.
When the lowest scholars hear of the Way, they laugh loudly at it.
Without their laughing, it would not be the Way.
Therefore, the established words say:
The bright way looks dim,
The advancing way looks as if retreating,
The level way looks rough,

Supreme virtue looks like a valley,
Great whiteness looks soiled,
Abundant virtue looks deficient,
Established virtue looks like cowardice,
True essence looks changeable,
The greatest square has no corners,
The greatest vessel is completed late,
The greatest music is seldom heard,
The greatest image has no shape,
The Way is hidden in namelessness.
Yet, only the Way is good in lending itself, and is complete.

[34t42c] **Yi Wu**
The Way brings forth one,
One brings forth two,
Two bring forth three,
Three bring forth all things.
All things carry the dark and embrace the light
and make them harmonize with empty energy.
People dislike "the lonely one", "the little one", and "the worthless one",
But kings and dukes call themselves by these names.
Therefore, everything may gain by losing
and may lose by gaining.
What people teach, I also teach:
"The man of violence will not die well."
I will take this as the father of my teaching.

[34t43c] **Yi Wu**
That which is softest in the world overrides that which is hardest in the world.
Only that which has no existence can enter that which has no crevice.
Therefore, I know the benefit of non-action.
Teaching without words
And benefit without action;
Few in the world attain it.

[34t44c] **Yi Wu**
Of fame and body, which is dearer?
Of body and property, which is worth more?
Of gain and loss, which is more troublesome?
Therefore, excessive love surely is great waste.
Much storing up surely is a heavy loss.
To know when you have enough
is to avoid disgrace.
To know when to stop
is to be free from danger.
Only thus can one long endure.

[34t45c] **Yi Wu**
The greatest achievement seems imperfect, yet its usefulness is never exhausted.
The greatest fullness seems empty, yet its usefulness is endless.
The greatest straightness seems bent.
The greatest skill seems clumsy.
The greatest eloquence seems like stammering.
Restlessness wins over cold.
Tranquility wins over heat.
Pure tranquility is the norm of the world.

[34t46c] **Yi Wu**
When the world is with the Way,
Galloping horses are sent back for dung.
When the world is without the Way,
War horses are raised in the suburbs.
No calamity is greater than not knowing contentment;
No trouble is greater than desiring gain.
Therefore, the contentment of knowing contentment is constant contentment.

[34t47c] **Yi Wu**
Without going out of doors, one can know the world.
Without looking out of windows, one can see the Way of Heaven.
The more one goes, the less one knows.
Therefore, the sage
knows without travelling,
names without looking,
achieves without action.

[34t48c] **Yi Wu**
To pursue learning is to increase daily.
To practice the Way is to decrease daily.
Decreasing and more decreasing,
One arrives at non-action.
Non-action, but nothing is left undone.
To have the world, one always should be in doing nothing.
If one is busy in doing something,
One cannot have the world.

[34t49c] **Yi Wu**
The sage's mind is not unchangeable;
He regards the people's mind as his mind.
He is good to those who are good;
He also is good to those who are not good.
This is the virtue of goodness.
He trusts those who are trustworthy;

He also trusts those who are not trustworthy.
This is the virtue of trustfulness.
The sage, in the world,
Harmoniously merges his mind with the world's.
The people all strain their ears and eyes;
The sage regards them as children.

[34t50c] **Yi Wu**
From birth to death,
One-third are fellows of life,
One-third are fellows of death,
And one-third are fellows of life who move to grounds for death.
Why is this?
Because they are overly attached to their lives.
It is said that those who are good at sustaining life
Travel on land without meeting wild buffalos or tigers,
Enter battle without protection of armor or weapons.
In them, a wild buffalo finds no place to gore with its horns,
A tiger finds no place to seize with its claws,
A weapon finds no place to pierce with its blade.
Why is this?
Because they have no grounds for death.

[34t51c] **Yi Wu**
The Way brings them forth,
Virtue nurtures them,
Matter shapes them,
Environment forms them.
Therefore, all things without exception venerate the Way and value virtue.
The Way's venerability and virtue's value
are that they do not command but constantly are natural.
Therefore, the Way brings them forth,
Virtue nurtures them,
Grows them and rears them,
Matures them and ripens them,
Nourishes them and shelters them.
Producing without possessing,
Acting without taking credit,
Growing without controlling, --
This is called mystical virtue.

Having known the son,
One should stay with the mother;
Then, to the end of one's life, there will be no danger.
Block the passages;
Shut the doors;
To the end of one's life, there will be no toil.
Open the passages;
Do all things;
To the end of one's life, there will be no salvation.
To know the small is called enlightenment;
To keep to the soft is called strength.
Use brightness and return to enlightenment.
Do not bring calamities upon oneself.
This is to practice constancy.

[34t53c] **Yi Wu**
If I, subtly, have knowledge,
Walking in the great Way,
My only fear is to act on it.
The great Way is very level,
But the people prefer short cuts.
The court is very remote;
The fields are very weedy;
The storehouses are very empty.
But officials wear gorgeous garments,
Carry sharp swords,
Are surfeited with food and drink,
And possess more money and goods than they can use.
This is called, "to steal reputation."
This is not the Way!

[34t54c] **Yi Wu**
What is well established cannot be uprooted.
What is well embraced cannot slip away.
[Practicing these], one's descendants will offer sacrifices without end.
Cultivate them in oneself, one's virtue will be true.
Cultivate them in the family, one's virtue will increase.
Cultivate them in the community, one's virtue will develop.
Cultivate them in the country, one's virtue will be abundant.
Cultivate them in the world, one's virtue will be universal.
Therefore,
by the self, contemplate the self;
by the family, contemplate the family;
by the community, contemplate the community;
by the country, contemplate the country;
by the world, contemplate the world.

How can I know about the world as such?
By these.

[34t55c] **Yi Wu**
One who has an abundance of virtue is like a newborn baby.
Wasps and serpents do not sting it;
Fierce beasts do not seize it;
Birds of prey do not pounce on it.
Its bones are weak, its sinews are soft, but its grasp is firm.
Not yet knowing the union of female and male, its spirit is whole.
This is perfect essence.
It howls all day without getting hoarse.
This is perfect harmony.
To know harmony is to be constant;
To know constancy is to be enlightened.
To increase one's life span is ominous.
To control one's energy by mind is called strength;
To become strong is to become old.
This cannot be called the Way.
Not being in the Way, one will soon die.

[34t56c] **Yi Wu**
One who is wise does not speak;
One who speaks is not wise.
Blocking the passages,
Shutting the doors,
Blunting the sharpness,
Untying the tangles,
Tempering the brightness,
Uniting with the dust, --
This is called the mystical union.
Therefore,
There is no way to get close to it;
There is no way to leave it;
There is no way to benefit it;
There is no way to harm it;
There is no way to value it;
There is no way to despise it;
Therefore, it is revered in the world.

[34t57c] **Yi Wu**
Govern the country correctly,
Use the army trickily,
Have the world by doing nothing.
How can I know that is so?
By these:

The more taboos and prohibitions there are in the world,
the poorer the people are.
The more sharp weapons the people have,
the more chaotic the nation is.
The more craft and skill people have,
the more strange things happen.
The more laws and commands a nation has,
the more robbers and thieves there are.
Therefore, the sage says:
I am in non-action, and the people transform themselves.
I like to be tranquil, and the people correct themselves.
I do not interfere, and the people prosper naturally.
I have no desires, and the people return naturally to simplicity.

[34t58c] **Yi Wu**
When the government is obscure and withdrawn,
The people are simple and honest.
When the government inspects and reinspects,
The people lack [morality and virtue].
Bad fortune is what good fortune depends on;
Good fortune is what bad fortune hides in.
Who knows the ultimate end?
There is no norm.
Normality turns out to be odd;
Goodness turns out to be bad.
People's confusion has been long.
Therefore, the sage is
upright but not cutting,
incorruptible but not harmful,
straight but not reckless,
bright but not dazzling.

[34t59c] **Yi Wu**
In governing people and serving Heaven,
There is nothing better than thrift.
Only by thrift can one submit early.
To submit early is to fully accumulate virtue.
With a full accumulation of virtue,
there is nothing that cannot be overcome.
With nothing that cannot be overcome,
one's limits are beyond knowing.
With limits beyond knowing,
one can rule a nation.
If one has the country's mother,
one can long endure.
This is called deep-root and firm-stalk.

This is the way of long life and lasting vision.

[34t60c] **Yi Wu**
Govern a big country as if cooking a small fish.
Reign over the world with the Way,
Then its demons will have no spiritual power.
Not that demons are not spiritually powerful,
But their spiritual powers will not harm people.
Not that their spiritual powers cannot harm people,
But, because the sage also will not harm people,
Neither harms the other.
Therefore, they return to virtue together.

[34t61c] **Yi Wu**
A big state puts itself in the low place:
It is the focal point of the world
And the female of the world.
The female constantly wins over the male by her tranquility.
Tranquility is regarded as the low place;
Therefore, a big state, by lowering itself beneath a small state,
Can have the small state.
The small state, by lowering itself beneath a big state,
Can be taken to the big state's heart.
Therefore, one puts itself low to take,
and the other puts itself low to be accepted.
The big state wants only to embrace more people;
The small state wants only to join and serve the big state;
Thus, both have satisfied their needs.
The big one is right to put itself in the low place.

[34t62c] **Yi Wu**
The Way is the refuge of all beings.
It is the good man's treasure
And the safeguard of the man who is not good.
Fine words can buy,
Respectable conduct can win people over.
If a man is not good,
How could he abandon the Way?
Therefore, if one is crowned king,
Installed by three dukes,
Although with hands full of jade,
Preceded by a four-horse team,
It is not as good as sitting here, advancing the Way.
Why, since ancient times, has the Way been thus valued?
Is it not because the one can get what he seeks
And the other can get rid of his sins?

Therefore, the Way is valued by the world.

[34t63c] **Yi Wu**
Act through non-action,
Serve through non-doing,
Taste through non-tasting,
Do the great through the small,
Deal with the myriad through the few,
Repay malice with virtue,
Solve the difficult problem at its easiest,
Do the great work at its smallest.
The difficult affairs of the world surely start from the easy,
The great works of the world surely begin from the small.
Therefore, the sage, never doing anything for greatness,
Is able to achieve greatness.
One who promises lightly surely will not be trustworthy;
One who thinks everything easy will end in more difficulty.
Therefore, the sage, taking everything as difficult,
Will have no difficulty in the end.

[34t64c] **Yi Wu**
What is at rest is easy to hold;
What has not yet appeared is easy to plan.
What is fragile is easy to shatter;
What is small is easy to scatter.
Act before the problem happens;
Manage before disorder arises.
A tree as big as one's embrace springs from a tiny sprout;
A tower with nine stories starts from a heap of earth;
A walk of a thousand miles begins from where one stands.
One who acts will fail;
One who becomes attached will lose.
Therefore, the sage, without acting, does not fail,
Without becoming attached, does not lose.
The people, in doing, fail at the point of success.
One should be as cautious at the end as at the beginning;
Then there will be no failure.
Therefore, the sage desires to be desireless
And does not value rare treasures,
Learns to be unlearned
And reforms the faults of people.
He aids all things in their natural development
And dares to not act on them.

Did not make the people clever
But kept them in ignorance.
If the people are hard to govern,
It is because they have too much knowledge.
Therefore,
one who governs the state with knowledge is a malefactor to the state;
one who does not govern the state with knowledge is a benefactor to the state.
Knowing both of these is also knowing to follow the pattern.
Constantly knowing to follow the pattern
Is called mystical virtue.
Mystical virtue reaches deep and far;
It returns with all things,
After which, supreme harmony will be attained.

[34t66c] **Yi Wu**
The reason rivers and seas are able to be the kings of all valleys
Is because they excel in taking the lowest places.
So, they become the kings of all valleys.
Therefore, one who wants to be above the people
Surely must, in words, be below them.
One who wants to stay before people
Surely must, in body, stay behind them.
Therefore, though the Sage's place is above,
The people are not burdened.
The Sage is ahead,
But the people are not obstructed.
Therefore, the world happily praises and does not tire of him.
Because he does not compete,
The world cannot compete with him.

[34t67c] **Yi Wu**
All the world says that my Way is too great to be like a thing.
It alone is great; so, it seems like no thing.
If it were like a thing, it would be already small.
I have three treasures to be kept and protected:
The first is called compassion;
The second is called thrift;
The third is called not daring to be ahead of the world.
Compassionate, one can be brave;
Thrifty, one can be expansive;
Not daring to be ahead of the world, one is able to be the leader.
Now,
Bravery without compassion,
Expansiveness without thrift,
Going ahead without retreat,
Is fatal.

Compassion,
In war, will result in victory;
In defense, will result in holding firm.
When Heaven is going to save someone,
It protects him with compassion.

[34t68c] **Yi Wu**
One who excels as a knight is not warlike.
One who excels as a warrior is not angry.
One who excels at winning over enemies does not strive with them.
One who excels at managing people puts himself beneath them.
This is called the virtue of not being competitive.
This is called using the power of people.
This is called "matching Heaven", the ultimate state of the ancients.

[34t69c] **Yi Wu**
Military strategists have a saying,
"I dare not be a host; rather, a guest.
I dare not advance an inch; rather, retreat a foot."
This can be called
marching without formation,
striving without arms,
overthrowing without enmity,
capturing without weapons.
There is no greater calamity than to underestimate an enemy.
To underestimate an enemy is to lose one's treasures.
Therefore, when opposing armies try to overcome each other,
One who sorrows will win.

[34t70c] **Yi Wu**
My words are very easy to understand
and very easy to practice,
But the world cannot understand them
and cannot practice them.
My words have their primal meaning;
My deeds have their principle.
Only I am without knowledge;
Therefore, I am not known.
If those who know me are few,
Then, what I have is of value.
Therefore, the sage is covered by coarse clothes, but embraces jade.

[34t71c] **Yi Wu**
One who knows, but does not know, is best.
One who does not know, but knows, is sick.
Only one who recognizes this sickness as sickness

Will not have the sickness.
The sage does not have this sickness
Because he recognizes this sickness as sickness.
Therefore, he has no sickness.

[34t72c] **Yi Wu**
When the people no longer fear authority,
Then the great authority will come.
Do not neglect their livelihood;
Do not scorn their spiritual lives.
If you do not scorn them,
They will not reject you.
Therefore, the sage
Knows himself, but is not opinionated;
Loves himself, but is not conceited.
So, he renounces that and chooses this.

[34t73c] **Yi Wu**
One who shows bravery in daring will be killed.
One who shows bravery in not daring will live.
Of them both, one is beneficial and the other is harmful.
About Heaven's dislike,
Who knows the reason?
Therefore, even a sage finds it difficult.
The way of Heaven
does not compete, but is good at winning;
does not speak, but is good at responding;
does not summon, but all things come of themselves;
is broad, but is good at planning.
Heaven's net is vast;
It is loose, but never misses.

[34t74c] **Yi Wu**
If the people no longer fear death,
How can one threaten them with death?
If one causes them constantly to fear death and captures and kills those who are tricky,
Who would dare to be tricky?
The one who constantly is the executioner can kill.
One who kills by taking the place of the great executioner
is like one who takes the place of the great carpenter in cutting wood.
Of those who have taken the place of the great carpenter,
Few have not hurt their own hands!

Therefore, they starve.
The people are hard to govern
Because those above are too active.
Therefore, they are hard to govern.
The people make light of death
Because those above seek too much for their own lives.
Therefore, they make light of death.
To do nothing for one's life
Is better than to value it.

[34t76c] **Yi Wu**
One who is living is soft and weak.
One who is dead is hard and rigid.
All living things, like grass and trees, are soft and frail.
With death, they become withered and dry.
Therefore, hardness and rigidity are associated with death.
Softness and weakness are associated with life.
Therefore, powerful weapons will not win;
Massive trees will be cut down;
The strong and great will be laid low;
The soft and weak will be exalted.

[34t77c] **Yi Wu**
Is not the way of Heaven like the stringing of a bow?
The upper part is depressed,
The lower part is raised;
The too-long string is shortened,
The too-short string is added to.
The way of Heaven reduces excesses and makes-up deficiencies.
The path of man is not so;
It decreases the deficient to supply the excessive.
Who can have more to offer to the world?
Only the man with the Way.
Therefore, the sage acts without taking credit,
Achieves without attachment.
He does not want to display his worthiness.

[34t78c] **Yi Wu**
Nothing in the world is softer or weaker than water,
But those who attack the hard and strong cannot conquer it,
Because nothing can change it.
The weak wins over the strong,
The soft wins over the tough.
Everyone in the world knows this,
But no one can practice it.
Therefore, the sage says,

To accept the state's sordid aspects is to be the lord of the state.
To accept the state's ill omens is to be the king of the world.
True words sound like their opposite.

[34t79c] **Yi Wu**
Reconciliation of a great grudge
Surely will leave some ill-will.
How can this be considered as good?
Therefore, the sage holds the left-hand part of the contract and does not blame the other person.
The man with virtue is likely to keep the contract;
The man without virtue is likely to collect the tax.
The way of Heaven has no favor;
It is constantly with the good man.

[34t80c] **Yi Wu**
There can be a small state with few people.
Let it have many vessels; the people will not use them.
Let the people value death and not move to far places.
Though there are boats and carriages, there is no place to ride them.
Though there are arms and weapons, there is no place to display them.
Let the people again tie knots of rope and use them.
Sweet their food,
Beautiful their clothes,
Peaceful their living,
Happy their customs.
Neighboring states can see each other,
The sounds of cocks and dogs can be heard by each other,
But the people will grow old and die, never having visited each other.

[34t81c] **Yi Wu**
Sincere words are not sweet;
Sweet words are not sincere.
The good man is not argumentative;
The argumentative man is not good.
The wise man is not erudite;
The erudite man is not wise.
The sage does not hoard.
The more he does for others,
The more he has for himself.
The more he gives to others,
The more he gains for himself.
The way of Heaven is to benefit others, not to harm them.
The way of the sage is to act, but not to compete with others.

[35t01c] **Han Hiong Tan**
Dao that can be expressed in words is not the absolute Dao.
The names that can be given are not the absolute names.
Non-being is before the dawn of time,
Being is when everything begins to emerge.
Therefore, maintaining a passive and receptive mode,
You can watch the secret of life;
Maintaining an active and attentive mode,
You can perceive the rhythm of life.
These two cognitive processes, though differing in names,
Are in the same continuum.
Both are known as the inscrutable Mystery,
Which is the greatest of all mysteries.
And it is through these perspectives that we can observe the marvellous phenomena of Nature.

[35t02c] **Han Hiong Tan**
When everyone knows what beauty is,
There must also be ugliness.
When everybody knows what goodness is,
Then evil must also exist.
Therefore, the haves and the have-nots coexist.
Easy and hard become complementary.
Long and short differ in length.
High and low contrast in height.
Tone and pitch harmonise with each other.
The past is followed by the present.
Hence, the sage manages his affairs with non-action,
Teaches without utterance,
And lets everything develop without any interference.
Dao procreates but does not possess.
It facilitates development but does not gloat.
When it accomplishes his task, it does not claim credit.
As the sage does not claim credit for his success,
The credit cannot be taken away from him.

[35t03c] **Han Hiong Tan**
Do not venerate the intelligentsia,
So that people will not rival.
Do not value rare objects,
So that people will not steal.
Do not display any desirable goods,
So that people will not be tempted.
Therefore, the sage rules the people by
Emptying their hearts, filling their stomachs,
Diminishing their desires and strengthening their bones.
He constantly makes people devoid of cunning and ambition,

So much so that even a rabid rabble-rouser among them
Is not able to stir up any trouble.
By practising non-action,
The rule will be peaceful.

[35t04c] **Han Hiong Tan**
Dao is akin to an empty vessel.
It is inexhaustible, as if the vessel can never be filled completely.
So deep and unfathomable,
It must be from where all things come forth.
Dao blunts its own sharpness,
Simplifies its own complexity,
Attenuates its own brilliance,
And mingles with the dirt.
Vast and profound, it appears that it could go on forever.
I do not know whose progeny it is.
It was there before the existence of the creator.

[35t05c] **Han Hiong Tan**
Nature is impartial;
It treats everything like sacrificial straw dogs.
The sage is also indifferent;
He regards everyone as sacrificial straw dogs.
The universe is just like a bellows.
Though empty and intangible, it is never spent.
The more you use it, the more briskly it carries on.
But to argue excessively will definitely come to a dead end.
It is best to maintain the central core of human nature.

[35t06c] **Han Hiong Tan**
The spirit of the valley (Dao) is immortal.
It is known as the mystical female.
The birth canal of the mystical female
Opens to the universe.
Dao seems to be able to go on forever and continues to function effortlessly.

[35t07c] **Han Hiong Tan**
The universe is everlasting.
It is eternal because it does not exist for its own sake.
Hence, it will be everlasting.
The sage safeguards his interest by always putting his personal interests last.
He regards his interests as inconsequential.
Yet, it is often preserved.
Is this because by not being self-serving that his interests are always preserved?

A person of great virtue behaves like water.
Water benefits everything but does not contend.
It resides at the lowest place that everyone loathes.
Thus this characteristic of water bears close resemblance to the typical trait of Dao.
A person of great virtue prefers to live on the lowest ground.
His heart is quiescent and serene.
His dealings with others are based on goodwill.
His utterances are forever sincere.
His rule is orderly and peaceful.
His managerial skills are superb.
His timing is always impeccable.
Because he is not contentious, nobody will ever hold a grudge against him.

[35t09c] **Han Hiong Tan**
As brimming with pride will often lead to a downfall,
A timely halt is much preferred.
If you continue to hone the blade of a knife,
You will not be able to preserve its sharp edge.
It is impossible to safeguard a house full of treasures forever.
Wealthy people who are arrogantly extravagant,
Inevitably bring calamity upon themselves.
To retire after a successful career is to follow the way of Dao.

[35t10c] **Han Hiong Tan**
In maintaining congruity of the mind and body,
Can you prevent your attention from wandering?
Can you breathe naturally and relax your entire body
Until it becomes as supple as an infant's?
Can you clear all errant thoughts and maintain an immaculate mind?
Can you rule benevolently by adhering to non-action?
In watching everything evolve and change, are you able to maintain quietude (a typical female trait)?
Can you learn intuitively rather than analytically?
Dao procreates and nourishes everything.
It engenders but does not claim possession.
It achieves but does not claim credit.
It lets things develop but does not exert control.
This is known as "inconspicuous virtue".

[35t11c] **Han Hiong Tan**
Thirty spokes come together at the hub.
The empty hub houses the axle of the wheel, and this allows the cart to move.
You mould clay to make utensils.
The empty space of the container makes it useful.
While building a house, you put in windows and doors.
The empty space gives us the room to use.
The substantial part creates the space, and thus provides us the benefit.

However, it is in the empty space that the actual utility lies.

[35t12c] **Han Hiong Tan**
Excessive colours impair your sight.
Excessive noise affects your hearing.
Excessive tastes will dull your taste buds.
Galloping and hunting on horseback will drive you crazy.
Coveting rare objects will impel people to commit crime.
Therefore, the sage aims to satiate the people's hunger.
He does not intend to feast their visual desires.
Hence, he rejects the latter but embraces the former.

[35t13c] **Han Hiong Tan**
Whether you are exalted or disgraced, you are uneasy.
It is because you are fearful of imminent disaster.
Why should you be uneasy when you are exalted or disgraced?
Being exalted, you feel proud and elated.
In disgrace, you feel shameful and miserable.
Gaining honour, you fear losing it.
Losing honour, you suffer severe humiliation.
This is why you feel terribly uneasy when you are exalted or disgraced.
Why is there a fear of imminent disaster?
The fear exists because you are constantly worrying about when disaster will strike you.
If you can forget about yourself, then there is no fear.
However, if you manage the country with the same consideration as you have for yourself,
Then you can be entrusted for the job.
If you rule the country in the same manner as you love yourself,
You deserve to be the trustee of the nation.

[35t14c] **Han Hiong Tan**
That which cannot be seen is called Yi.
That which cannot be heard is Xi.
That which cannot be touched is Wei.
All these three qualities can hardly be analysed.
When amalgamated into one,
Its upper limit is not radiant,
And its lower limit is not dull.
It is as nebulous as it is indescribable.
Eventually it approaches to nothingness.
This is why it is called the formless form, or the immaterial material.
This is why it is called the illusory.
Try to meet it head-on, and you cannot see its face.
Try to follow it from behind, and you cannot see its back.
Following the way of ancient Dao,
You will be able to manage your affairs with great aplomb.
To be able to understand ancient Dao

Is to truly appreciate the immutable principles of Dao.

[35t15c] **Han Hiong Tan**
In antiquity, a person who followed the way of Dao,
Was as enigmatic as he was insightful.
He was also inscrutable.
Because of his inscrutability, I am compelled to describe his demeanour:
He acts cautiously, as if he were wading through a frigid stream in winter.
He conducts his affairs prudently, as if he were fearful of the gossiping of his nosy neighbours.
His behaviour is as majestic and proper as an honoured guest.
His demeanour is as spontaneous as the melting ice.
His character is as unsophisticated as a block of raw timber.
He is as open-minded as a valley.
He is as muddle-headed as a turbid stream.
Who can allow the turbid water to precipitate and gradually become clear?
Who can agitate the stillness and slowly bring vivacity back again?
He who follows the way of Dao does not become swollen-headed.
Consequently, he will endure.

[35t16c] **Han Hiong Tan**
I strenuously try to banish all errant thoughts from my mind, and assiduously attempt to maintain quietude.
Henceforth, while everything continues to develop and evolve, I silently watch its natural transformation.
Although there are multifarious things in the world,
Each and every one will go back to where it came from.
Returning back to where it came from is called 'jing'.
It is also called 'back to destiny'.
'Back to destiny' is the eternal law.
You have insightful wisdom if you understand this eternal law.
Unable to grasp this will bring about calamity.
Knowing this, you will have great understanding.
Having great understanding will make you impartial.
Being impartial, you generally facilitate others to fulfil their potential. (accomplishment)
Accomplishment is in accordance with the law of nature.
The law of nature is called Dao.
Dao is everlasting.
Following the way of Dao, your whole life will be free from danger.

[35t17c] **Han Hiong Tan**
People take the great ruler for granted and are oblivious to his presence.
The good ruler is loved and acclaimed by his subjects.
The mediocre ruler is universally feared.
The bad ruler is generally despised;
Because he lacks credibility, the subjects do not trust him.
On the other hand, the great ruler seldom issues orders.
Yet he appears to accomplish everything effortlessly.

To his subjects everything he does is just a natural occurrence.

[35t18c] **Han Hiong Tan**
When the great Dao is in decline,
Benevolence and loyalty appear.
As wisdom arises, so does hypocrisy.
Only in a feuding family do filial piety and parental doting become conspicuous.
Loyal ministers emerge whenever the country is in chaos.

[35t19c] **Han Hiong Tan**
If you discard sagacity and wisdom,
The populace will be better off a hundred-fold.
If you get rid of benevolence and righteousness,
Filial piety and doting affection will return.
If you dispense with ingenuity and profiteering,
There will be no thieves.
All these attributes are mere superficialities.
They are not substantial enough to run the country.
There are other ways:
Outwardly, be simple; and inwardly, you should maintain your pristine sincerity.
You should not be selfish or avaricious.

[35t20c] **Han Hiong Tan**
Get rid of the knowledge and you eliminate your worry.
To say 'yes' or to howl 'yes', is there a big difference?
The concepts of good and bad, are they that much different?
Should I also be afraid of what other people are fearful about?
I am yet to make up my mind on these questions.
Nevertheless, everyone is happy, as if having a great feast or a nice picnic in spring.
Singularly, I am feeling tranquil and imperturbable.
I am as innocently naive as an infant.
Feeling lost as if I have no place to go back to.
Everyone seems to be smug while I alone feel inadequate.
I am just a clod and am very bewildered.
Everyone appears to be dazzling, but I am simply lacklustre.
Everyone is astute while I am befuddled.
My thoughts are drifting and ruffling, like an ocean.
My mind is blowing aimlessly like a gale.
Everyone is striving for success and prosperity
While I remain obstinately inane and insignificant.
I know I am different for I am devoted to the study of Dao.

[35t21c] **Han Hiong Tan**
The demeanour of a man of great virtue is consistent with the way of Dao.
Dao, as an entity, is not tangible.
Though it is intangible, it appears to have some image.

Although it appears nebulous, it has some form.
Though inscrutable and indistinct, it appears to have some vitality.
This vitality is as real as it is creditable.
From antiquity until now, Dao has always existed.
Through following the way of Dao, one tries to understand the beginning of the world.
To understand the beginning of the universe is from the study of Dao.

[35t22c] **Han Hiong Tan**
To preserve your life, you have to be pliable.
That which is bent will soon be straightened.
The lowest ground will be filled by water.
Old and tattered things will soon be replaced.
To gain real insights, you must be focused.
Dealing with too many things concurrently can only lead to confusion.
The sage embraces the essence of Dao.
He thus sets an example for others to follow.
Not trying to be prominent is why he is famous.
Not pretending to be a know-all is why he is distinguished.
Not wanting to claim credit is why he is acclaimed.
Not bragging about his ability is why he has advanced.
Because he is not contending, no one can compete with him.
The ancient saying that to be pliable is to preserve oneself is not just empty rhetoric.
It is through following the way of Dao that self-preservation is assured.

[35t23c] **Han Hiong Tan**
To be reticent is consistent with the law of nature.
Usually the hurricane does not last more than half a day.
And torrential rain does not pour for a whole day.
The wind and rain are the result of the forces of nature.
Even the forces of nature do not endure for long,
So how can human efforts ever match that of nature?
Those devoted to Dao will follow Dao, and those devoted to De will follow De.
On the contrary, those who go against Dao will manifest it in their behaviours.
Following the path of Dao, Dao is glad to accept you.
Following the path of De, De is pleased to welcome you.
Following the alternative path, the alternative entity is also happy to receive you.
If the people in power have no credibility, then the ordinary people will not trust them.

[35t24c] **Han Hiong Tan**
He who stands tiptoed will soon fall over.
He who walks with huge strides will not go very far.
By trying to show off, you will not be eminent.
By acting like a know-all, you will not be distinguished.
If you brag about your success, you will end up with no credit.
If you are conceited, you will not make any further advancement.
From the perspective of Dao,

Even animals will find all extravagant deeds disgusting.
He who follows the path of Dao does not subscribe to these actions.

[35t25c] **Han Hiong Tan**
There is an admixture,
Which existed before heaven and earth.
As silent as it is nebulous,
It exists alone and it is permanent.
It moves around a circle unceasingly.
It is the mother of the universe.
I do not know its name and I have decided to call it Dao.
Arbitrarily, I describe it as great.
So great that it begins to permeate everywhere.
Permeating outwards, it goes farther and farther away.
Nevertheless, it will soon return to its original state again.
Therefore, Dao is great.
Heaven is great.
Earth is great.
Humanity is great.
In the universe, humanity is one of the four greats.
Man models earth;
Earth models heaven;
Heaven models Dao.
And Dao models nature.

[35t26c] **Han Hiong Tan**
Frivolity should be anchored to solemnity.
Tranquillity should keep a tight rein on agitation.
Therefore, the sage carries out his daily tasks with gravity and equanimity.
He is oblivious to the honour that has been bestowed upon him.
Although he lives in luxury, he is unaffected by all the trappings.
How could any national leader behave in a cavalier fashion in governing the country?
In fickle frivolity, he will lose the foundations.
In great haste, he will lose control.

[35t27c] **Han Hiong Tan**
A good traveller leaves no tracks.
A good debater never makes a slip.
A good strategist does not require chips to formulate a plan.
A good leader does not confine his men to ensure that they stay.
A good employer does not need rope to bind his men to their jobs.
Therefore, the sage always assists but never abandons people.
He always aids all creatures and he never forsakes them.
This is called "covert enlightenment".
While a good person could be a bad person's teacher,
A bad person could provide a salutary lesson to a good person.

A learned person remains a befuddled one if he neither values the teacher nor learns from this salutary lesson.
The subtlety of Dao can only be appreciated by an intuitive mind.

[35t28c] **Han Hiong Tan**
Knowing the excitement of proactivity, you settle for quietude.
Everyone will converge to you like water flowing towards the valley.
Thus, you are like the valley to the world.
Holding fast to the "absolute virtue" (Dao),
You try to return to the pristine innocence of an infant.
You know the benefit of the limelight, but choose to be anonymous.
You set this example for others to follow.
Holding fast to the "absolute virtue" unerringly,
You hope to return to the path of Dao.
Knowing the lure of fame and glory, you choose humility instead.
By your taking a low profile, everyone converges to you like water flowing towards the ravine.
Thus, you are the ravine to the world.
The "absolute virtue" is bountiful.
Finally, it returns to the naturalness of a raw timber.
The natural block once carved becomes useful utensils.
The sage utilises them as leaders.
The system set up by the sage should cause no harm.

[35t29c] **Han Hiong Tan**
If you want to rule the world according to your own whims,
It is unlikely to be successful.
Governing a country is a sacred mission.
You must not be meddlesome or intransigent.
He who is meddlesome will flounder in his job.
He who is rigid and foolhardy will lose the plot.
It takes all sorts to make the world.
Some are leaders and some are followers.
Some are highly excitable and some are calm.
Some are strong and some are weak.
Some feel secure and some feel threatened.
Nevertheless, the sage forsakes excess, extravagance and arrogance.

[35t30c] **Han Hiong Tan**
An enlightened minister prefers applying the principles of Dao to assist his sovereign in governing.
He is extremely reluctant to use force to subjugate others.
Using force always has repercussions.
Wherever the army passes through, the land is laid to waste and brambles grow.
After a major battle, there will be a famine the following year.
A moral person will only accomplish his task.
He will not be heavy-handed.
Achieving success, he is not ostentatious.

Accomplishing his task, he does not gloat.
Scoring victory, he is not arrogantly intransigent.
He goes to war in order to achieve his objective, only when he has no other choice.
Even after winning, he does not brutalise the vanquished.
Whenever anything reaches its peak, it starts to decline.
Moreover, excessive use of force is not in accordance with Dao.
Anything that goes against Dao will suffer an early demise.

[35t31c] **Han Hiong Tan**
Sharp weapons are inauspicious instruments.
Everyone dislikes them.
Hence, those who follow the way of Dao avoid using them.
In times of peace, a person of virtue favours the left side.
Only during war does the right side become the preferred choice.
A weapon is an instrument of bad omen.
It is never the favourite object of the man of virtue.
Even as the last resort when military force has to be used,
It should be used with great restraint and equanimity.
In victory, one should not glorify the war.
He who glorifies war must be a bloodthirsty person.
No bloodthirsty person has ever won universal respect or approval.
The left side represents good auspices.
The right side augurs bad omen.
The second-in-command resides on the left side, whereas the commander-in-chief resides on the right.
In conducting the war, the mood is as dark and solemn as that of a funeral rite.
During the conflict, you should still mourn for the heavy casualties you have inflicted.
In victory, you should bury the dead with appropriate ceremony.

[35t32c] **Han Hiong Tan**
Dao is often referred to as "the nameless".
Although this "pristine simplicity" (Dao) appears to be insignificant,
Nothing in the world can subjugate it.
If a ruler can follow the way of Dao,
Everyone will naturally come to join him.
When Yin and Yang harmonise, rain begins to fall.
Similarly, people will live in harmony without any coercion.
Whenever a system is set up, new terminology appears.
(A new system will bring about new disputes.)
However, it is important to simplify the system.
Knowing when to stop, you can avert a calamity.
What Dao is to the people is similar to what the ocean is to the rivers.

[35t33c] **Han Hiong Tan**
He who understands others is wise.
He who knows himself is sagacious.
To defeat others, you are powerful.

To prevail upon yourself, you are resolute.
To be contented is to be wealthy.
To diligently follow the way of Dao means you have great determination.
By not deviating from the path of Dao, you will perpetuate.
When a person dies but his spirituality persists, this is the essence of immortality.

[35t34c] **Han Hiong Tan**
The great Dao flows everywhere.
It goes to the right and it goes to the left.
Myriad beings depend on it to survive,
But it does not interfere with them.
It facilitates but does not gloat.
It nourishes everything, but does not exert control.
Dao has no goal and appears to be insignificant.
Nevertheless, everything relies on it for sustenance, but it exerts no control.
Such action seems to be magnificently great.
Dao has no intention to be great, yet it attains greatness.

[35t35c] **Han Hiong Tan**
When the ruler follows the way of Dao,
People will flock to him.
They become the beneficiaries and enjoy peace and harmony.
Beautiful music and sumptuous foods allure all passers-by.
They linger and then decide to stay.
How is Dao best described?
Dao is tasteless, invisible and inaudible,
But its use is inexhaustible.

[35t36c] **Han Hiong Tan**
If you want to contract something, you must first stretch it.
You must first strengthen his power before you can weaken him.
Similarly, you have to build up something first before you can demolish it.
You can only take something away from somebody after they have possessed it.
This sort of platitudes is known as "subtle discernment".
The soft and the weak can overcome the hard and the strong.
Just like the fish should not leave the deep,
The machination in politics must not be revealed to the public.

[35t37c] **Han Hiong Tan**
Dao always sticks to non-action, yet everything develops spontaneously.
If the rulers could follow the way of Dao,
Everything under the sun will function properly.
If desire begins to creep in during the developing process,
It should be constrained by the "nameless simplicity".
The "nameless simplicity" has no designs.
Without designs, it will not create any disturbance.

Hence, peace will again prevail in the world.

[35t38c] **Han Hiong Tan**

The ruler with great virtue never reveals his virtue.
Hence, he truly possesses real virtue.
An ordinary ruler deliberately tries to show off his virtue.
He therefore does not possess any real virtue.
The ruler with great virtue goes with the flow.
His action encapsulates the essence of wu-wei.
The ordinary ruler deliberately tries to go with the flow.
He thus achieves the antithesis of wu-wei.
The ruler with great compassion rules benevolently without ulterior motives.
He thus captures the essence of wu-wei.
The ruler of righteousness deliberately sets out to rule benevolently.
He thus misses the essence of wu-wei.
The ruler of propriety (rites) imposes rules and regulations.
When the people do not conform, he responds with punitive measures.
Therefore, when Dao is in decline, virtue supplants it.
When virtue is in decline, benevolence replaces it.
When benevolence fails, righteousness takes its place.
When righteousness does not prevail, rites begin to exert their authority.
The prevalence of rites is the sign that loyalty and trust are wearing very thin and that serious trouble is brewing.
Clever people with prescience to foretell events represent the superficiality of Dao.
This heralds the beginning of ignorance.
Therefore, a man of substance is unsophisticated but not shallow.
He resides on the fundamental but not on the superficial.
He thus embraces the substance and rejects the trimmings.

[35t39c] **Han Hiong Tan**

In antiquity, the person who follows Dao said:
If the sky is harmonised with Dao, it will be clear.
When the Earth harmonises with Dao, it will be settled.
Similarly, the spirits will retain their magic power;
The valley will be filled with water.
When the ruler follows the way of Dao, his reign will be peaceful.
All these are achieved by following the way of Dao.
If the sky is not clear, it will split.
If the Earth is not settled, it will erupt.
When the spirits lose their power, they will become extinct.
The valley without water will dry up.
All forms of life without nourishment will perish.
A ruler who fails to maintain peace will be toppled.
Dignitaries rely on the support from commoners.
A tall building depends entirely on its base to stay erect.
Hence, the rulers customarily use self-deprecating words when referring to themselves.

Is this not an acknowledgement that everything originates from a humble beginning?
Everyone dislikes words like orphaned, widowed, and unworthy.
Yet, the rulers customarily use these terms to describe themselves.
The irony is that if you crave for fame, you will end up losing it.
The person who follows Dao has no desire to be valued like a beautiful jade.
Nor would he like to be rejected as an ugly stone.

[35t40c] **Han Hiong Tan**
Reversal is the action of Dao.
Soft and weak is the function of Dao.
Everything comes from being.
And being comes from non-being.

[35t41c] **Han Hiong Tan**
When a consummate scholar learns about Dao,
He studies it diligently and puts it into practice.
When a mediocre scholar hears about Dao,
He becomes totally perplexed.
When a lowly scholar hears about Dao,
He instantaneously bursts into laughter.
If it is not sneered at,
It cannot have been the real Dao.
Therefore, there was an ancient saying:
A person who knows about Dao appears to be dull.
A person who is advanced in Dao appears to be backward.
A person who travels smoothly along the path of Dao appears to be on a bumpy ride.
A person with excellent virtue appears to be quite shallow.
A person with immaculate virtue appears tarnished.
A person with great virtue appears to be inadequate.
A person with substantial virtue seems to be flimsy.
A person with genuine virtue appears to be shifty.
The greatest space has no corners.
A prodigal talent takes time to actualise.
The greatest sound is nature's sound of silence.
Dao has no form.
Dao is subtle, obscure, and indescribable.
Only Dao will give generously and help others to accomplish.

[35t42c] **Han Hiong Tan**
Dao engenders one. (Tai-chi)
One engenders two. (Yin and Yang)
Two engenders three. (combinations of Yin and Yang)
Three engenders everything.
Everything carries Yin and embraces Yang.
The mixing of Yin and Yang becomes an entity.
People dislike words like orphaned, widowed and unworthy.

Nevertheless, the lords use these terms as their titles.
An affair may finally turn out well despite a very bad start.
Conversely, it could turn out badly with a good start.
That is what I have learnt: nothing is certain in life.
I will use this to teach others.
However, I will still use
"Those who resort to violence will die by violence" as my principal teaching.

[35t43c] **Han Hiong Tan**
The world's softest can ride roughshod over the world's hardest.
The pervasive force which has no form (thickness)
Can penetrate through the substance that has no breach (crevice).
Hence, I understand the advantage of non-action.
The principles of teaching without words (speechless tuition) and the benefits of non-action (laissez faire) are peerless under the sun.

[35t44c] **Han Hiong Tan**
Personal glory or your life,
Which do you treasure more?
Your life or worldly possessions,
Which is more precious to you?
Gaining one but losing the other, which is more deleterious?
Therefore, wanting something badly can cost you dearly.
The more goods you hoard, the more you can possibly lose.
By being contented, you will never suffer any humiliation.
Knowing when to stop, you will never put your life in jeopardy.
Hence, you will have a long and wonderful life.

[35t45c] **Han Hiong Tan**
The greatest accomplishment appears imperfect, but its utility is limitless.
Immense fullness appears inadequate, yet its use is inexhaustible.
Though as straight as an arrow, it appears crooked.
Polished agility appears awkwardly clumsy.
Great eloquence appears haltingly hesitant.
Tranquillity prevails upon rashness.
Coldness overcomes heat.
The sage maintains quietude and practises non-action.
He sets an example for everyone to follow.

[35t46c] **Han Hiong Tan**
When Dao prevails, thoroughbred horses plough the land.
When Dao is in decline, cavalry horses give birth near the battlefields.
There is no curse worse than insatiable greed.
There is no misfortune worse than unquenchable desire.
Only a person who knows when enough is enough is always contented.

Without stepping out of the house,
You can know what is going on in the world.
Without peering out the window,
You can understand the way of Dao.
The farther you travel, the less you really know.
Therefore, the sage knows without having to travel.
Without seeing for himself, he can understand the law of nature.
Without meddling, he accomplishes easily.

[35t48c] **Han Hiong Tan**
In the pursuit of knowledge, your rapacity increases every day.
In the pursuit of Dao, your desire decreases daily.
It will continue to decrease until it reaches a state of wu-wei.
Adhering to non-action, you can accomplish everything easily.
You must stick to the principle of non-interference in order to rule a nation.
Once you become meddlesome, you become unfit to govern a nation.

[35t49c] **Han Hiong Tan**
The sage has no preconceived ideas.
He simply takes the lead from his subjects.
He treats the good people with kindness.
He also treats the bad people with kindness.
He thus cultivates the virtue of kindness.
He treats those who are trustworthy with sincerity.
He also treats those who are not trustworthy with sincerity.
Thus, he is cultivating the virtue of sincerity.
The sage always handles his affairs in an amicable way.
He steers his subjects towards a simple and unpretentious life.
Everyone pays attention to him and asks for guidance.
He nurtures them tenderly as if caring for babies.

[35t50c] **Han Hiong Tan**
From the time you were born, you are dying.
About one-third of people are luxuriating in longevity,
Another third are enjoying a normal life span but travelling along the path towards a natural death.
The other third are heading on the path towards a premature death.
The cause of premature death is due to overindulgence in life.
I have heard that people, who master the art of living,
Can avoid meeting a rhinoceros or tiger in the jungle.
They can avoid getting hurt by any sharp weapons in a battle.
The rhinoceros cannot employ its horn against them.
The tiger cannot attack them with its paws.
Sharp weapons cannot inflict injury on them.
Why is this so?
They simply manage to stay away from the circle of death.

[35t51c] **Han Hiong Tan**
Dao produces everything.
De nourishes everything.
Dao and De work in tandem and things begin to take shape.
Things begin to evolve according to the circumstances.
Hence, all beings respect and venerate Dao and De.
Dao and De are so venerated because they do not exert control.
Everything is allowed to develop naturally.
Therefore, Dao procreates everything; De nurtures.
De facilitates growth, development, fruition and ripening.
It also nourishes and protects.
Dao procreates but does not possess.
De accomplishes but does not claim credit.
It facilitates growth but does not exert control.
This is known as "inconspicuous virtue".

[35t52c] **Han Hiong Tan**
The world has its beginning.
It is the mother of the world (Dao).
Once you have understood the mother,
You should then begin to learn more about the son (evolution).
While learning more about the son,
You must always stick to the principles of Dao (mother).
Thus, you will never be in any danger in your whole life.
If you block out your senses, you will be calm and insouciant.
If you allow your cognitive processes to intervene with your daily affairs, you will be irremediably mired by harassment.
You have insightful wisdom if you are able to discern the minutiae in every affair.
Adhering to the principle of yielding, you are resolutely strong.
Igniting the spark of intuitive mindfulness, you thus rekindle your insightful wisdom.
Consequently, you will never court any disaster.
This is simply following the way of Dao.

[35t53c] **Han Hiong Tan**
Even if I confidently know that I am on the right path, I will still tread gingerly for fear of deviating from it.
The correct path of Dao is smooth and easily accessible.
However, people still choose to travel on the small paths.
While the magnificent imperial palace is immaculate and pristine,
The paddy fields are neglected and the granaries empty.
Yet, the ruler still dresses elegantly, wears fine swords and feasts in style.
He continues to amass great personal wealth.
This is the behaviour of a chief of robbers.
He is not following the way of Dao.

A person who is adept at increasing virtue will adhere to it unswervingly.
A person who holds steadfastly to his virtue will resolutely persist with it.
His deeds will endure because his progeny will continue to commemorate him for generations to come.
If he diligently cultivates his personal virtue, the virtue will be genuine.
Diligently cultivating virtue in a family, the virtue will be abundant.
Diligently cultivating virtue in a community, the virtue will be expansive.
Diligently cultivating virtue throughout the country, the virtue will be prolific.
Diligently cultivating virtue throughout the world, the virtue will be ubiquitous.
Therefore, looking from the individual perspective, you can see the benefit.
From the respective viewpoints of family, community, country or the world, the benefits are also obvious.
How do you know cultivating virtue will benefit the world?
It is through this inference.

[35t55c] **Han Hiong Tan**
The person of great virtue is akin to an infant.
Poison snakes and insects will not bite him.
Ferocious animals will not harm him.
Birds of prey will not attack him.
The infant is weak and floppy,
But his grip is firm and tight.
Although he does not knows anything about copulation,
He has a strong erection and this signifies the pinnacle of vitality.
He can scream all day without suffering from hoarseness.
This epitomises that his vital energy is in harmony.
When the energy is harmonised, it is acting in accord with Dao.
If you understand the way of Dao, you have transcendental wisdom.
Overindulgence in life is harmful.
Forcing the body to work beyond its limits is excessive.
Whenever anything reaches its peak, it then begins to decline.
Action that is unnatural is contrary to Dao.
Action contrary to Dao will lead to an early demise.

[35t56c] **Han Hiong Tan**
He who really knows does not speak.
He who speaks does not know.
You must block the portals to your sensory organs.
You must also blunt the sharp edge and reduce the complexity.
You must attenuate the glares and mix with commoners.
This is to attain "the divine oneness".
Henceforth, you are not concerned about intimacy or estrangement.
You have no concerns about advantage and disadvantage.
You have no concerns about nobility and lowliness.
Everyone treasures you.

[35t57c] **Han Hiong Tan**
You should govern a country by moral rectitude.

You should fight a war by employing stratagems.
You should follow the principle of non-intervention to rule a country.
How do I know all these are going to work?
Let us look at the followings:
The more rules and regulations you establish, the more destitute the people become.
The more intense the machination amongst the ruling classes, the more discordant the country will become.
The more cunning the people, the more outlandish things they do.
The more laws you proclaim, the more thieves you produce.
Therefore, the sage says:
"I follow non-action, and thus my people will live harmoniously.
I remain calm, and thus my people become righteous.
I do not meddle, and thus my people become more prosperous.
I have no desire, and thus my people will be simple and contented."

[35t58c] **Han Hiong Tan**
When the government is magnanimous, the people are contented and unsophisticated.
When the government is overbearing and mean-spirited, the people are resentful and miserable.
Whenever calamity occurs, boon is also lurking around the corner.
Whenever good fortune strikes, misfortune is always stalking in its shadow.
Nobody will ever know how things will end in any given situation, as there are no fixed patterns.
Sometimes, a normal affair can turn out to become exceptionally eventful.
Sometimes, an apparently good thing can go terribly wrong.
For a very long time, these things continue to befuddle the ordinary people.
Nevertheless, the sage is always sharp but not cutting.
He is incorruptible but not contemptuous of others.
He is upright and direct but not repugnant.
He is brilliant but not dazzling.

[35t59c] **Han Hiong Tan**
Nothing beats frugality in governing a country or following the way of Dao.
Frugality compels you to get ready in advance.
To get ready in advance means you start to amass virtues straightaway.
The accumulation of virtues will enable you to achieve practically anything in life.
Ability to accomplish anything means you have incredible power.
With this limitless power, you can govern a country.
Governing the country by following the way of Dao, you will endure.
A plant can bear great fruit only if it has deep roots.
Building deep roots is the way to perpetuate.

[35t60c] **Han Hiong Tan**
Governing a big country is akin to frying a small fish.
When the power of Dao is prevalent,
Even the demons become impotent.
Although the demons continue to possess magical power,
Their power is rendered innocuous.
Hence, the demons cannot harm people.

The sage also does not harm people.
Both do not interfere with people.
Thus by sticking to non-intervention, both let their virtues merge together.

[35t61c] **Han Hiong Tan**
When a great nation takes a low profile, it becomes the hub of small nations.
Dao is the world's mystic female.
The mystic female triumphs over the male by her quietude.
Her characteristics are quietude and humility.
If the larger nation is humble, it will gain the trust of the smaller nations and absorb them.
By being compliant, the smaller nations will gain protection from the larger nation.
Both need to take a lowly position to gain control or to be protected.
The large nation aims to embrace and expand.
The smaller nation wishes to gain protection and to prosper.
Although they both aim to achieve their respective objectives, the larger nation should still take the lower profile.

[35t62c] **Han Hiong Tan**
Dao is the safe haven for all beings.
The good people value it.
The bad people receive protection from it.
Words consistent with Dao will place you in a coveted position.
Deeds consistent with Dao will make you stand out from the crowd.
Even if people are bad, Dao will not reject them.
There are important events as such coronation and swearing in of ministers.
In these pompous ceremonies, officials carrying precious jade lead the procession followed by four thoroughbreds.
This largess becomes insignificant when compared to simply presenting Dao as a gift.
Why has Dao always been valued since antiquity?
It is as the saying goes:
"If you seek it, you will get it; if you make an error, you will be forgiven."
Hence, Dao is valued by all.

[35t63c] **Han Hiong Tan**
Normal people act rashly, but the sage does not.
Normal people interfere freely, but the sage is different.
Normal people prefer tasty cuisine, but the sage prefers plain food.
The sage will deal with all matters, big or small, by always recompensing ill will with goodwill.
To solve a complex issue, you must first start working with the easy problems.
To accomplish a huge task, you must start and graduate from a series of simpler tasks.
To solve the most complex problem, you must tackle the simplest one first.
The greatest task in the world is often the aggregation of smaller tasks.
The sage has never endeavoured to accomplish a great task.
Yet, he accomplishes a great task.
A person who readily gives promises often fails to keep them.
A person who takes things too lightly will definitely be plagued with many problems.

The sage regards everything as potentially troublesome.
Consequently, he will never encounter any difficulty.

[35t64c] **Han Hiong Tan**
It is easier to maintain the status quo when things are established and stabilised.
It is easier to correct things when the incipient signs of trouble have just occurred.
Fragile things disintegrate quickly.
Minute things disperse readily.
You should act well before the rot has set in.
You should take effective measures before chaos arises.
A tree broader than a man's embrace grows from a tiny seedling.
The tallest tower starts from a clod of earth.
The longest journey begins with the first step.
He who schemes will fail, and he who grasps tightly will lose it.
Hence, the sage does not scheme and will not fail.
He does not hold fast so he will not lose it.
Failure usually occurs at the cusp of succeeding.
If you pay careful attention from start to finish, there will be few failures.
What the sage wants is the opposite of what others want.
Hence, the sage does not covet rare objects.
The sage learns what others don't want to learn.
Thus, he avoids making mistakes that others commonly make.
The sage only facilitates.
He lets things evolve, but he does not interfere.

[35t65c] **Han Hiong Tan**
The ancient ruler who followed the way of Dao,
Attempted to make people simple and unsophisticated, not clever and scheming.
People are unruly because they are too clever and devious.
Using sophisticated measures to run a country, you can only cause harm.
Using unsophisticated measures, you will bring prosperity to the country.
These two models are consistent with the immutable principles of Dao.
Understanding the immutable principles, you are a person of inconspicuous virtue.
Inconspicuous virtue is profound and enduring.
Inconspicuous virtue is the opposite of conventional wisdom.
By going with the flow, you will achieve great harmony.

[35t66c] **Han Hiong Tan**
How does the sea become the king of all waters?
It is because it is good at lying low.
Hence, it is the king of all waters.
Therefore, the sage must be modest in order to reign successfully.
In order to lead, the sage must follow the people wishes.
Consequently, when the sage reigns, people are not oppressed.
When the sage leads, the people are not suppressed.
Hence, the sage is esteemed and not hated.

As the sage does not contend,
No one can contend with him.

[35t67c] **Han Hiong Tan**
Everyone says that Dao is so huge that it does not resemble anything we know.
As it is so phenomenally huge, it becomes incomparable.
If it does remotely resemble something on earth, then with the passage of time, its uniqueness will evaporate and gradually become inconsequential.
I steadfastly hold on to my three treasures.
These are compassion, frugality and humility.
With compassion, I can arouse real courage from my subordinates.
With frugality, I would enjoy popular support.
With humility, I become the natural leader.
Let us examine the following scenarios.
Demanding bravery from the subjects without showing compassion towards them,
Expecting popular support without dispensing benefits,
And wanting to become the leader without exhibiting humility.
These are negative attributes that will lead to self-destruction.
By applying compassion in war, you will be triumphant in attack and invincible in defence.
When Providence wants to save a nation,
It does so by bestowing great compassion to its leader.

[35t68c] **Han Hiong Tan**
The accomplished general does not appear intimidating.
The consummate warrior does not exhibit any anger.
The victorious commander does not contend.
A good manager often appears meek and humble.
All the above examples display the virtue of non-contention.
With this virtue you can capitalise on others' expertise.
This is in accord with the way of Dao - the celestial way.

[35t69c] **Han Hiong Tan**
There is a saying among the militarists:
"I would rather defend than initiate an attack.
I would be most reluctant to advance an inch but quite ready to retreat a foot."
The ultimate ideal is as follows:
Not having any battalions to form a configuration,
Not having to initiate an attack,
Not needing to take up arms,
And not having to fight a war.
There is no disaster worse than to underestimate your enemy,
For this could endanger your life.
Hence, if two evenly-matched armies fight against each other,
The aggrieved side that feels poignantly oppressed will win.

Though my words are easily comprehended and easily followed,
People do not understand and do not want to follow.
My words are based on the principles of Dao.
I also follow the same principles in all my dealings.
Because people do not understand my teachings, they fail to understand me as well.
Few people understand me.
Fewer people follow my teachings.
The sage always dresses shabbily but still embraces the treasure in his bosom.

[35t71c] **Han Hiong Tan**
Knowing but thinking you do not really know, you are a man of great virtue.
Not knowing but thinking that you know, you have a severe affliction.
Because you are aware of this fault, you can then try to avoid committing this mistake.
The sage has no flaws because he is cognizant of this malady.
Hence, he has no shortcomings.

[35t72c] **Han Hiong Tan**
When people do not respect the authority,
Legislation bearing stiff penalties will soon follow.
Nevertheless, the ruler should not make people's lives a living hell.
If the ruler is not oppressive, they will not loathe him.
Although the sage is conscious of his ability, he does not show off his talent.
While maintaining his self-righteousness, he does not flaunt his eminence.
He thus rejects parading his eminence, but he embraces his self-esteem.

[35t73c] **Han Hiong Tan**
Brave and reckless will be killed.
Brave but prudent will survive.
Two different types of bravery have dissimilar outcomes:
one is beneficial but the other is disastrous.
Why Providence dislikes one but not the other is a puzzle.
Even the sage is unable to fathom the reason.
The way of Dao is to accomplish without contention;
To evoke response without utterance;
All things come to pay homage without being told.
Dao does not resort to scheming but its plan is perfect.
The dragnet cast by Providence has wide meshes,
Yet, no wrongdoers ever slip through.

[35t74c] **Han Hiong Tan**
If people are not afraid to die, why bother threatening them with death?
If people are afraid of dying, then death penalties should be summarily dished out to criminals.
Consequently, there will be no more offenders.
Normally, Nature usually does the job of the executioner.
If the government tries to do what Nature normally does,
It is akin to the apprentice trying to do the job of the master carpenter.

The apprentice usually ends up cutting his own hand.

[35t75c] **Han Hiong Tan**
People are starving because they are forced to pay onerous taxes.
That is why they are starving.
People are unruly because they are burdened by excessive rules.
This is why they become unruly.
Whilst living lavishly, the ruler extorts heavy taxes from the people, forcing them to risk their lives simply to eke out a living.
That is why the people are not afraid to die.
Hence, frugal rulers are infinitely better than those harsh ones who extort heavy taxes to live luxuriously.

[35t76c] **Han Hiong Tan**
When a person is alive and kicking, his body is soft and pliable.
When he is dead, his body is rigid and stiff.
Living plants are soft and supple.
Dead plants become dried and stiff.
Therefore, hard and stiff epitomises the dead.
Soft and supple typifies the living.
Hence, when an army flaunts its might, it will be defeated.
As the tree grows big and tall, it will be felled.
The strong and powerful should occupy the lower position.
While the meek and weak should be sitting atop.

[35t77c] **Han Hiong Tan**
The way of Dao operates like the art of archery.
When you aim too high, you have to adjust downwards.
When you aim too low, you have to adjust upwards.
If the tension is excessive, you lower it.
If the tension is inadequate, you augment it.
The way of Dao is to take from the excess and give it to the deficient.
In the human realm, it is totally different.
It is the case of robbing the poor and giving it to the rich.
Who would take from the haves and give it to the have-nots?
Only the people who follow the way of Dao would.
Therefore, the sage does things without ulterior motives.
When he accomplishes, he does not claim credit.
It is because he does not want to appear sagacious.

[35t78c] **Han Hiong Tan**
Nothing in the world is softer and more yielding than water.
Nevertheless, among all things that can overcome the hard and strong,
None is more formidable than water and none can supplant it.
Everybody knows that the soft can overcome the hard,
And the weak can subdue the strong,
But few can put these into practice.

The ancient sage once said:
"A person who can withstand all the nation's insults,
Is fit to be the ruler.
A person who can endure all the misfortunes of the nation,
Is fit to be the king of the world."
Here lies the paradox: truthful words that are candid and self-evident may appear to be "trash talk".

[35t79c] **Han Hiong Tan**
To bury the hatchet following a bitter struggle does not necessarily dispel the residual hatred.
How can it be called a good resolution?
The sage only carries the credit note but does not ask for the repayment.
A person with great virtue holds the credit note but does not insist on remittance.
The immoral person relentlessly extracts exorbitant taxes from the people.
Although the way of Dao is impartial, it always gives succour to good people.

[35t80c] **Han Hiong Tan**
In a small and sparsely populated country,
Even if there are many talented military leaders, the nation does not require their services.
People treasure their lives and livelihoods that they loathe to emigrate.
Although there are boats and carriages, no one wants to use them.
While there are armour and weapons, there is no place to exhibit them.
People revert back to ancient way of recording events by tying knots on the string.
Their food is sumptuous.
Their garments are beautiful.
Their lodgings are comfortable.
Their social mores and customs are unsophisticated but joyous.
The neighbouring states can be sighted, and the noises of barking dogs and crowing cocks can be heard reciprocally.
Yet, people will never visit each other, never in a million years.

[35t81c] **Han Hiong Tan**
Truthful words are usually plain and not flowery.
Embroidered words are not always truthful.
A person who abides to the principles of Dao does not resort to sophistry.
He who resorts to sophistry to win an argument does not follow the way of Dao.
The erudite scholar may only have circumscribed knowledge.
He who has extensive knowledge may not be erudite.
The sage does not hoard.
The more he serves others, the more he has in reserve.
The more he gives away, the more he has in abundance.
The predisposition of Dao is to benefit everything, and it does not cause any harm.
The way of the sage is to accomplish but not to compete.

[36t01c] **Hua-Ching Ni**
Tao, the subtle reality of the universe cannot be described.
That which can be described in words is merely a conception of the mind.
Although names and descriptions have been applied to it, the subtle reality is beyond the description.
One may use the word "Nothingness" to describe the Origin of the universe, and "Beingness" to describe the Mother of the myriad things,
but Nothingness and Beingness are merely conceptions.
From the perspective of Nothingness,
one may perceive the expansion of the universe.
From the perspective of Beingness,
one may distinguish individual things.
Both are for the conceptual convenience of the mind.
Although different concepts can be applied,
Nothingness and Beingness and other conceptual activity of the mind all come from the same indescribable subtle Originalness.
The Way is the unfoldment of such subtle reality.
Having reached the subtlety of the universe,
one may see the ultimate subtlety,
the Gate of All Wonders.

[36t02c] **Hua-Ching Ni**
As soon as the world regards something as beautiful,
ugliness simultaneously becomes apparent.
As soon as the world regards something as good,
evil simultaneously becomes apparent.
In exactly the same manner,
existence and nonexistence give birth to each other.
Difficult and easy define each other.
Long and short form each other.
High and low make each other distinguishable.
Silence and sound make each other conspicuous.
Front and back connect each other.
Realizing this, one does not separate one's being from the subtle essence of the universe.
One holds no preconceptions, and does things without insisting on personal conditions.
One guides people by living in accord with the essence of life.
One brings good things about, but has no intention of possessing them.
One performs work, but has no intention to acquire personal power.
When one's task is accomplished,
one lets go of it and seeks no reward or recognition.
Because one does not claim credit for oneself,
one does not do any damage to oneself.

When wealth is not treasured, desire for possessions will not be stirred up.

Then people will not be tempted to rob one another.
By shutting that which is desirable out of sight, the heart will remain undisturbed.
Then there will be no confusion in the hearts of people.
The guidance of the Universal One of natural wholeness is therefore:
Empty your mind.
Enjoy good health.
Weaken your ambitions.
Strengthen your essence.
When people are free from cunning, desire, and artifice, everything will be well-ordered of its own accord.

[36t04c] **Hua-Ching Ni**
The subtle Way of the universe appears to lack strength,
yet its power is inexhaustible.
Fathomless, it could be the origin of all things.
It has no sharpness,
yet it rounds off all sharp edges.
It has no form,
yet it unties all tangles.
It has no glare,
yet it merges all lights.
It harmonizes all things and unites them as one integral whole.
It seems so obscure,
yet it is the Ultimate Clarity.
Whose offspring it is can never be known.
It is that which existed before any divinity.

[36t05c] **Hua-Ching Ni**
The subtle virtue of the universe is wholeness.
It regards all things as equal.
The virtue of the sage is wholeness.
He too regards all things as equal.
The universe may be compared to a bellows.
It is empty, yet it never fails to generate its products.
The more it moves, the more it brings forth.
Many words lead one nowhere.
Many pursuits in different directions bring only exhaustion.
Rather, embrace the subtle essence within.

[36t06c] **Hua-Ching Ni**
The subtle essence of the universe is active.
It is like an unfailing fountain of life which flows forever in a vast and profound valley.
It is called the Primal Female and the Subtle Origin.
The Gate of the Subtle Origin becomes the root of the universe.
It subtly and gently generates without exhausting itself.

Heaven is everlasting and Earth is perpetual.
Why so?
Because they live without holding onto any consciousness of self.
Therefore, they can endure forever.
One who does not separate his being from the nature of universal wholeness lives with the universal virtue of wholeness.
He, too, dissolves all consciousness of self and lives as the universe.
By putting himself behind others,
he finds himself foremost.
By not considering his own personal ends,
his personal life is accomplished.
He finds himself safe, secure and preserved.
Because he does not hold a narrow concept of self,
his true nature can fully merge with the one universal life.

[36t08c] **Hua-Ching Ni**
One of universal nature is like water;
he benefits all things but does not contend with them.
He unprotestingly takes the lowest position;
thus, he is close to the universal truth.
One of universal virtue chooses to live in a suitable environment.
He attunes his mind to become profound.
He deals with others with kindness.
In his speech, he is sincere.
His rule brings about order.
His work is efficient.
His actions are opportune.
One of deep virtue does not contend with people;
thus, he is above reproach.

[36t09c] **Hua-Ching Ni**
A bow that is stretched to its fullest capacity may certainly snap.
A sword that is tempered to its very sharpest may easily be broken.
A house that is full of jade and gold cannot remain secure for long.
One who proudly displays his wealth invites trouble.
Therefore, resign from a high position when your mission is complete.
This is the Universal Way of a life of deep virtue.

[36t10c] **Hua-Ching Ni**
Can you always embrace Oneness without the slightest separation of body and mind?
Can you maintain undivided concentration until your vital force is as supple as a newborn baby's?
Can you clarify your inner vision to be flawless?
Can you love your people and serve your state with no self-exaltation?

can you remain detached and innocent?
Give birth to and nourish all things without desiring to possess them.
Give of yourself, without expecting something in return.

This is how to realize the deep virtue of the universe.

Thirty spokes together make a wheel for a cart.
It is the empty space in the center which enables it to be used.
Mold clay into a vessel;
it is the emptiness within that creates the usefulness of the vessel.
Cut out doors and windows in a house;
it is the empty space inside that creates the usefulness of the house.
Thus, what we have may be something substantial,
but its usefulness lies in the unoccupied, empty space.
The substance of your body is enlivened by maintaining the part of you that is unoccupied.

[36t12c] **Hua-Ching Ni**
The five basic colors can be made into countless combinations to perplex the eyes.
The five basic tones can be made into infinite compositions to bewilder the ears.
The five basic flavors can be made into numerous stimulations to confuse the tongue.
The pursuit of worldly pleasures can make the mind wild and uncontrollable.
The one who sees the deep nature of life would rather embrace the simple subtle essence of life.

[36t13c] **Hua-Ching Ni**
Favor and disgrace are both causes of shock.
When one is favored, one is shocked.
When one is disgraced, one is also shocked.
That is because people forget the unadorned plainness of universal life.
If they knew this clearly, then what is meant by saying that favor and disgrace are both causes of shock?
Favor is no higher than disgrace.
What is meant by saying that the greatest trouble is the strong sense of individual self that people carry in all circumstances?
People are beset with great trouble because they define their lives so narrowly.
If they forsake their narrow sense of self and live wholly, then what can they call trouble?
Therefore, only one who dedicates himself to the wholeness of the world is fit to tend the world.
Only one who relinquishes the self can be entrusted with responsibility for the life of the world.

but in the mystical moment you see it, hear it and grasp it,
the Unseen, Unheard and Unreachable presents itself as the indefinable essence.
Confront it, and you do not see its face.
Follow it, and you do not see its back.
It does not appear bright when viewed at the zenith,
nor does it appear dark when viewed at the nadir.
There is nothing that can make this subtle essence of the universe distinct.
When you try to make it clear to yourself, it evasively reverts to Nothingness.
You may call it the Form of the Formless or the Image of the Imageless.
Yet the elusive, subtle essence remains nameless.
If you hope to meet it,
it has no part you can call front.
If you hope to follow it,
it has no place you can call behind.
Yet it can be observed in the constant regularity of the universe.
The constancy of the universe of antiquity is the constancy of the present time.
If one knows the Primal Beginning, one may thus know the truth of the universal subtle Way.

[36t15c] **Hua-Ching Ni**
The ancient ones who knew how to live with the subtle essence of the universe were gentle and flexible,
profound and indistinguishable.
They were too deep to be known, thus we can only describe their appearance.
They did not rush into anything,
as if fording an icy stream in early winter.
They were retiring and hesitant, not assertive,
as if they were shy of people.
They were reverent in demeanor to everyone,
as if meeting honored guests.
They did not insist on imposing their views on others or interfering in worldly affairs,
as if they were passing travelers.
They adapted themselves to a circumstance like melting ice.
Simple and genuine, they were like virgin timber.
Empty and receptive, they were like a huge cave.
Comprehensive and unprejudiced,
they were equally kind to all things;
like the water of a stream flowing down a mountain, they benefitted all things.
Who else could move constantly from the gross and heavy to the light and pure?
Who else could evolve steadily from the inert and stagnant to everlasting life?
Those who hold fast to the subtle essence of the universe do not desire to extend themselves in climax.
Because there is no climax to one's extension and expansion, life is continually renewing itself.

[36t16c] **Hua-Ching Ni**
Attain the utmost unoccupiedness.
Maintain the utmost stillness,
and do not interfere with all the things that rush together in activity and grow luxuriantly.
Then you can see how living things flourish and renew themselves.

Yet, they all must return to the root again, each to its simple source.
Knowing to return to the root is to be refreshed.
This is called subtle revitalization.
To restore one's vitality is to constantly renew oneself.
To know constant renewal is to have achieved clarity.
If one does not know constant self renewal and thus acts foolishly,
disaster will soon occur.
Knowing constancy in renewing oneself,
one can extend the duration of one's life.
If one can deeply understand the extension of life's duration,
one is able to contain all things within oneself.
To be all-inclusive is to be impartial.
To be impartial is to realize the positive, creative virtues of Heaven.
To be Heavenly is to be one with the subtle essence of the universe.
To be one with the subtle essence of the universe is to enjoy everlasting life.
Such a one will be preserved, even after the dissolution of his physical body.

[36t17c] **Hua-Ching Ni**
High beings of deep universal virtue work unassertively.
They help all people,
yet people are barely aware of their existence.
Leaders of great achievement earn the friendship and praise of people.
Leaders of great strength make people afraid.
People despise and defy a leader who is untrustworthy.
One cannot inspire confidence in people through words alone;
it must be accompanied by correct deeds.
When one of subtle virtue has accomplished his task, all the people will say:
"It is we ourselves who made it so."

[36t18c] **Hua-Ching Ni**
When humankind strayed from the natural way of life,
relative social disciplines began to appear.
When intelligence and cleverness of mind are admired,
great hypocrisy is born.
When disharmony manifested in family relations,
children who respected their parents and parents who loved their children became rare examples.
When chaos prevailed in the country,
only a few loyal ministers were recognized.
Let all people return to their true nature.
Love, kindness, wisdom, family harmony, and loyalty should not be taught one by one,
separately from an honest life.
Then, once again, people will regain the natural virtue of wholeness.
The world will be naturally ordered.
There will be no one who singly and cunningly works for personal interest alone.

Abandon the separate concepts of holiness and unholiness.
Then all people will be benefitted a hundredfold.
Abandon the separate concepts of justice and humanism,
and all people will return to a natural state of harmony.
Abandon the cunning and cleverness of the mind,
and people will cease to rob and deceive one another.
These things are based on artifice and are thus inadequate to express the natural virtue of wholeness.
Hence, return to the true self to embrace only the one, unadorned nature.
Refine personal preference and desire.
End the endless search for segmented, intellectual knowledge,
and set your mind above worry and vexation.
In this way, one may restore one's unity with the perfection of one great universal life.

[36t20c] **Hua-Ching Ni**
In high truth, is there any difference between yes and no?
Between good and evil, is there any absolute distinction?
Must one fear what everyone fears?
It is still too early for the subtle truth to dawn on those who are so self-assertive.
The people of the world run about excitedly as if they were going to miss the yearly, royal, sacrificial feast,
or as if they were going to be the last one to climb a high tower on a beautiful spring day.
I alone remain quiet and indifferent.
I anchor my being to that which existed before Heaven and Earth were formed.
I alone am innocent and unknowing, like a newborn babe.
Unoccupied by worldly cares, I move forward to nowhere.
The people of the world have more than enough.
I alone appear to have nothing.
The people of the world appear shrewd and wise.
I alone look foolish.
I like to be forgotten by the world and left alone.
Indeed, I have the mind of a single person!
Calm and self-contained, I am like the vast ocean.
Free and seemingly aimless, I am like a gentle wind.
Everyone seems so clever and self-assured.
I alone appear unlearned and original,
insistent upon a different direction than other people pursue.
I alone value taking my sustenance from the Mother.

[36t21c] **Hua-Ching Ni**
One of deep virtue cherishes the subtle essence of the universe.
The subtle essence of the universe is elusive and evasive.
Though it is elusive and evasive,
it unveils itself as images and forms.
Evasive and elusive,
it discloses itself as indefinable substance.
Shadowy and indistinct,
it reveals itself as impalpable subtle essence.

This essence is so subtle, and yet so real.
It is the subtle origin of the whole of creation and non-creation.
It existed prior to the beginning of time as the single deep and subtle reality of the universe.
It brings all into being.

[36t22c] **Hua-Ching Ni**
The yielding are preserved whole.
The crooked become straight.
The empty become filled.
The depleted are renewed.
What has little will gain.
What has much will become confused.
Therefore, one with a whole mind holds fast to the one essence and thereby becomes an example to the rest of the world.
Because he does not flaunt his brightness,
he becomes enlightened.
Because he is not self-important,
he becomes illustrious.
Because he does not boast of his accomplishments,
he becomes successful.
Because he is not self-assertive,
he becomes supreme.
Because he does not strive for superiority,
there is no one in the world who can contend with his superiority.
Indeed, the ancient teaching that "the yielding are preserved whole" is no empty saying.
Truly, they are preserved whole in order to attain one universal life.

[36t23c] **Hua-Ching Ni**
The utterance of the universal subtle law is too loud to be audible.
Look at this: a squall does not last the whole morning, nor does a torrential shower last the whole day.
What determines this?
Even Nature cannot make such violence last for long.
How long, then, can the violent actions of human beings last?
Hence, one who follows gentleness becomes one with universal truth.
One who follows wholeness becomes one with universal virtue.
One who separates himself from universal nature and from universal virtue becomes separate and lost.
When one is one with universal nature,
universal nature is one with him.
When one is one with universal virtue,
universal virtue is one with him.
When one deviates from universal nature,
deviation keeps him from universal nature.
If one does not know and believe that the subtle law manifests in his own life,
how can he have faith that it pervades the entire universe?

One who stands on tiptoe cannot stand firmly.
One who strides cannot walk far.
One who flaunts himself is not illumined.
One who insists that he is right is self-righteous.
One who boasts of his accomplishments undoes his merit.
One who takes pride in himself impedes his own growth.
These things are normally detested by people who nurture virtue and the truthfulness of life,
for they do not set their eyes and hearts upon anything that is equal to "the greed for excessive food which fosters morbid growth."
Thus, such things are not agreeable to them.

[36t25c] **Hua-Ching Ni**
Before Heaven and Earth are born, there is something formless and complete in itself.
Impalpable and everlasting,
silent and undisturbed,
standing alone and unchanging,
it exercises itself gently,
and generates itself inexhaustively in all dimensions.
It may be regarded as the Mother of all things.
Far beyond humankind's relative conception,
it cannot be referred to by a specific name,
yet it may be identified as the subtle essence of the universe.
In the absence of an accurate word,
I shall call it "the Great."
Being great, it extends itself without limit.
Extending itself without limit, it is far-reaching.
Being far-reaching, it ultimately reverts to itself,
returning to its self-sufficient origin.
Indeed, it had never really left itself!
This indefinable subtle energy flow is truly the greatest of all.
Expressing its integral nature,
the universal subtle essence remains intangible, yielding, and uncontrollable:
the ultimate expression of the cosmos.
As an expression of its unceasing creativeness,
it manifests as the spaciousness of the sky.
As an expression of its receptiveness,
it manifests as the great massiveness of galaxies, stars, and planets.
As an expression of harmonious reintegration,
it manifests as human life.
Thus, in the natural flow of energy transformation, human life becomes one of the four great expressions of the subtle essence of the universe.
It is the way of universal subtle integration.
Humankind conforms to Earth.
Earth conforms to the sky.
The sky conforms to the Subtle Origin.
The Subtle Origin conforms to its own nature.

These are the four peaks of manifestation from the great transformation of one universal subtle energy.
Taking an individual human life as example,
the intangible body with its fluids and nervous system construct a field of intangible, but functioning mind and super consciousness.

[36t26c] **Hua-Ching Ni**
Centeredness is the cure for impulsiveness.
Serenity is the master of restlessness.
Knowing this, one of universal nature is placid and never departs from the center of his own being.
Though he may move about all day,
he never loses his poise.
Though he may be surrounded by splendor and comfort,
he is always dispassionate and undistracted.
For one with great responsibility,
to conduct himself lightly is perilous.
In frivolity, one's root is lost.
In restlessness, one's self-mastery could go with the wind!

[36t27c] **Hua-Ching Ni**
One who is good at running leaves no tracks.
One who is good at talking has no flaws in his speech.
One who is good at calculating makes no use of counting tools.
One who is good at shutting things makes no use of bolt and bar, yet no one can open what he has shut.
One who is good at tying makes no use of cords and knots, yet no one can untie what he has fastened.
One of natural, integral virtue is good at helping all people impartially.
Thus, no one is abandoned.
Because he is good at protecting and preserving all things,
nothing is ever thrown away.
This is called "embodying the light of the subtle truth."
Hence, the people on the Universal Integral Way are teachers of those off the Way.
However, if the student does not value the teacher,
and the teacher does not tend the student well,
though they both may be intelligent enough,
this leads only to further separation.

[36t28c] **Hua-Ching Ni**
Know that you possess the strong masculine principle,
yet abide by the meek, feminine principle.
Thus, become the flowing stream of the world.
As the flowing stream of the world,
never swerve from your true nature.
In this way, you return to the originality of a newborn babe.
Know the bright, yet keep to the dark.
Never wavering from the subtle truth,
you will conform to the pattern of an integral being.
In this way, you return again to the infinite.

Know how to be honored and glorified,
yet maintain unadorned plainness.
Thus, become the abundant valley of the world.
As the abundant valley of the world,
you realize the sufficiency of the constant, subtle virtue of the integral universe.
In this way, you return to the original simplicity of an uncarved block of wood with undamaged potential.
An integral individual, by preserving the original qualities of his being,
maintains his supreme, integral nature.
When the uncarved block is shaped into various single tools and vessels,
its original qualities are destroyed.
This is called "the great Oneness that cannot be divided."

[36t29c] **Hua-Ching Ni**
Those who want to conquer the world and make it conform to their own desires will never have success,
for the sovereignty of the world is a subtle thing.
He who tries to shape it spoils it.
He who tries to hold it loses it.
The things of the world are constantly changing.
There is a time for things to move ahead,
and a following time for things to retreat;
a time to withdraw internally,
and a following time to expand externally;
a time to grow luxuriantly,
and a following time to decay;
a time to rise up,
and a following time to sink down low.
Therefore, one who does not separate his being from the deep nature of the universe avoids all extremes,
extravagance and excess.

[36t30c] **Hua-Ching Ni**
One who assists a leader with the subtle truth of the universe advises him not to use the force of arms to try
to conquer the world,
for such things will always rebound.
It is generally the nature of weapons to turn against their wielders.
Whenever armies touch the land,
they turn it into a wasteland.
Moreover, plague and death invariably follow in the wake of a great war.
Therefore, a leader should be allowed to effect only a right purpose and not rely on the force of arms once his
goal has been achieved.
He effects his right purpose,
but does not take pride in it.
He effects his right purpose as a regrettable necessity.
He effects his right purpose,
but does not delight in violence,
for he knows that to be excessively strong is to hasten decay and that violence is against the integral nature
of the universe.

Whoever goes against the nature of the universe will soon perish.

[36t31c] **Hua-Ching Ni**
Weapons are instruments of killing and destruction,
which are contrary to the nature of life.
Thus, they are avoided by those who follow the subtle Way of the universe.
According to ancient social custom,
in times of peace a gentleman regards the left side, the soft hand, as the place of honor;
in times of war, the right side, the strong hand, is considered the place of honor.
Because weapons are inauspicious,
they are not the instruments of a gentleman.
Only when one has no other choice may one resort to using them, and, if their use is necessary, one must employ calmness and restraint,
for peace and quiet are the normal nature of universal life.
Even in victory there is no cause for excitement and rejoicing.
To rejoice over a victory is to delight in killing and destruction.
He who delights in killing and destruction cannot be expected to thrive for long in the world.
Therefore, on happy occasions the left side has precedence,
while on sad occasions, it is the right side.
When this rite was applied in the army, the lieutenant-commander stood at the left, while the commander-in-chief stood on the right.
This indicates that war is treated as the equivalent of a funeral service.
Because many people have been caused an unnatural death in war,
it is only right that the survivors should mourn them.
Even when a victory is won,
the occasion should be regarded as lamentable.

[36t32c] **Hua-Ching Ni**
The universal subtle essence is unnameable and omnipresent.
Although it appears even in the plainest and most ordinary of things,
it is inferior to nothing.
It maintains itself as a model of indivisible integrity.
If people would embrace it as their own true nature,
everything would settle down in right order and peace of its own accord.
Harmonious relationship can be illustrated by the cycle of the seasons which produces rain and dew at exactly the right times.
People do not need to do anything to insure the harmony between Heaven and Earth.
All names were given for the purpose of distinction when the original simplicity was diversified.
When one departs from simplicity, the result is perplexity.
When one returns to simplicity, one is saved from destruction by confusion.
The universal subtle essence is to human beings what the great ocean is to the rivers and streams of the earth.

One who knows himself has insight.

One who overcomes others is forceful.
One who overcomes himself is truly strong.
One who knows he has enough is rich.
One who does not divert his mind from the realization of integral virtue is wisely willful.
One who preserves his natural integrity will endure.
One who embraces the subtle essence dies yet does not perish and thus enjoys true immortality.

[36t34c] **Hua-Ching Ni**
The subtle essence of the universe is omnipresent.
It may go to the left or the right.
All things derive their life from it,
and it holds nothing back from them,
yet it takes possession of nothing.
It accomplishes its purpose,
but it claims no merit.
It clothes and feeds all,
but has no ambition to be master over anyone.
Thus it may be regarded as "the Small."
All things return to it, and it contains them,
yet it claims no authority over them.
Thus it may be recognized as "the Great."
The wise one who never attempts to be emotionally great and who accomplishes each small task with full devotion,
as if it were the greatest of tasks, is naturally recognized as great.

[36t35c] **Hua-Ching Ni**
When the subtle Way of the universe is taught, people know where to go and what to learn,
because they know that they will not be harmed but will receive great peace.
The teacher of the universal Way is like one who gives real food to people.
He does not feed them colorful bait with the intention of catching them.
The subtle Way of the universe is flavorless, with nothing much to offer the mouth.
Neither does it offer much to be enjoyed by the eyes or entertain the ears, yet its usefulness is inexhaustible.

[36t36c] **Hua-Ching Ni**
If you hope to expand, you should first contract.
If you hope to become strong, you should first weaken yourself.
If your ambition is to be exalted, humiliation will follow.
If you hold fast to something, it will surely be taken away from you.
This is the operation of the subtle law of the universe.
The law of the universe is subtle, but it can be known.
The soft and meek can overcome the hard and strong.
The strength of a country must not be displayed.
Just as fish cannot leave the deep,
one must never stray from one's true nature.

The subtle essence of the universe is always unoccupied,
yet it leaves nothing undone.
If the people of the world were wise enough to plant the root of their lives deep within the Subtle Origin,
then the worldly affairs of life would coherently follow their own natural course,
and harmony would abound of its own accord.
When confusion takes place in one's surroundings,
it can be dissolved with the power of undisturbable Simplicity.
When life is ruled by undisturbable Simplicity,
desire and passion naturally fall away and reveal people's true, original nature.
Then the peaceful order of the universe prevails and unity manifests again of its own accord.

[36t38c] **Hua-Ching Ni**
One of subtle universal virtue is not conscious of being virtuous,
therefore, he is truly virtuous.
One of partial virtue attempts to live up to an external standard of virtue,
therefore, he is not truly virtuous.
One of whole virtue does not need to do anything in order to be virtuous,
because virtue is the very essence of one's true nature.
But, one of partial virtue believes that something must be done in order to prove that he is virtuous.
Thus, partial virtue becomes prevalent when people fail to follow their own true nature.
Benevolence becomes prevalent when people fail to be naturally kind.
Etiquette becomes prevalent when people fail to be righteous and considerate.
When people find no response with etiquette,
they roll up their sleeves and force others to respond to them.
When people stray from the subtle way of universal nature,
they can no longer perceive their own true nature.
Thus, they emphasize relative virtue.
When natural virtue is lost,
society depends on the doctrine of humanism.
When humanity becomes corrupted,
social and religious teachings appear and become powerful forces.
When social and religious teachings become corrupted,
what is left behind is the empty shell of superficial ceremonies and artificial etiquette.
When etiquette is emphasized,
it is because people lack the simple qualities of fairness and kindness.
This is the starting point of people of confusion.
All of these man-made, partial virtues are merely superficial flowers, a false nature.
When people begin to move away from their own true nature,
it is the beginning of hypocrisy.
Therefore, one who integrates his own individual being with the deep nature of the universe sets his heart upon the root of reality rather than the husk, and upon the nourishment of the fruit rather than the fleeting beauty of the flowers.
Truly, he cherishes what is deep within rather than what is shallow without.
Knowing this, he knows what to accept and what to reject.

Since ancient times there have been those who have attained the subtle essence of the universe and thus become what they are.
Heaven attained the subtle essence of the universe and became clear.
Earth attained the subtle essence of the universe and became stable.
Divine spirits attained the subtle essence of the universe and became powerful.
The Valley of the Universe attained the subtle essence of the universe and became productive.
The myriad things attained the subtle essence of the universe and became prosperous.
The sages attained the subtle essence of the universe and became wise.
All became what they are by attaining the subtle essence of the universe and hence their true nature.
Extinction happens to one who violates his true nature.
Without being pure, Heaven would cease to be.
Without being stable, Earth would burst into bits.
Without maintaining their potency, spirits would disperse.
Without being productive, the vast Valley of the Universe would become exhausted.
Without being reproductive, the myriad things would perish.
Without fortifying themselves with integral virtue, sages would stumble and fall.
Greatness is rooted in plainness,
just as the low forms the foundation of the high.
Realizing this, the ancient sovereigns were content to style themselves as desolate, unworthy, and needy.
Therefore, one who does not separate his being from the nature of the universe follows the Integral Way.
He has no wish to sound like jingling jade pendants in order to court a good name,
nor like the rumbling of a stone rolling from a cliff in order to create a bad name.
Each one should work on one's own subtle spiritual integration with the subtle essence of the universe.

[36t40c] **Hua-Ching Ni**
Returning to itself is how the subtle Way of the universe exercises itself.
Being gentle and yielding is how the subtle Way of the universe employs itself.
All things of the world come from the Manifest.
The Manifest comes from the unmanifest, subtle essence of the universe.

[36t41c] **Hua-Ching Ni**
When people of the highest awareness hear the subtle Way of the universe,
they cultivate themselves diligently in order to live in accord with it.
When mediocre people hear the subtle Way of the universe,
they are unimpressed.
When people who are low hear the subtle Way of the universe,
they break into loud laughter.
If it were not laughed at,
it would not be the subtle Way of the universe.
Thus there is a traditional saying that he who understands the subtle Way of the universe seems dull of comprehension.
He who approaches the subtle Way of the universe seems to move away from it.
He who moves on the smooth path of the universe seems to go up and down as if traveling a rough road.
The deeply virtuous are like an empty, receptive valley.
The innocent appear to be sullied.
The abundant appear to be deficient.

The perfect appear to be defective.
The honest appear to be corrupt.
Hence, great space has no corners.
Great talent ripens late.
Great eloquence is silent.
Great form is shapeless.
The subtle essence of the universe is hidden and indefinable, yet its benefit is always subtly bestowed.

[36t42c] **Hua-Ching Ni**
The universal subtle essence gave birth to One.
One gave birth to Two.
Two gave birth to Three.
Three gave birth to the Myriad Things.
All lives have their backs to the yin and embrace the yang.
There is nothing more loathed by people than to be orphaned, desolate, and hapless.
Yet the wise ancient kings, princes, and barons used such titles to refer to themselves.
A thing is sometimes benefitted by being humbled,
and diminished by being expanded.
What the ancients have taught, I also shall teach:
"A man of force and violence will come to a violent end."
Whoever said this can be my teacher and father.

[36t43c] **Hua-Ching Ni**
The softest of all things can overcome the hardest of all things.
Only the insubstantial can penetrate the spaceless.
Thus, we know the benefit of non-interference and the teaching of the subtle Way of the universe that does not rely on words.
Few people under Heaven can attain it.

[36t44c] **Hua-Ching Ni**
As for your fame and your life, which matters more?
As for your life and your wealth, which is more precious?
As for gain or loss, which is more damaging?
He who is most endeared to something must pay dearest for it.
He who has hoarded much will suffer great loss.
He who knows when enough is enough saves himself from humiliation.
He who knows when to stop protects himself from peril.
To know this is to be long enduring.

[36t45c] **Hua-Ching Ni**
The great perfection seems imperfect, yet its usefulness is unfailing.
The great fullness appears to be void, yet its usefulness is boundless.
The great accomplishment seems unfinished.
The ultimate straightness appears crooked.
Profound skillfulness appears clumsy.
Fluent eloquence seems mute.

Movement overcomes cold.
Stillness overcomes heat.
Maintain clarity and purity,
and be a model of deep virtue for all people.

[36t46c] **Hua-Ching Ni**
When the people of the world live in accord with the subtle Way of the universe,
horses are used for agricultural purposes.
When the people of the world do not live in accord with the subtle Way of the universe,
then horses, even pregnant mares, are driven into the battlefield and bred there.
There is no greater calamity for a nation, or for an individual,
than not finding contentment with one's own sufficiency.
There is no greater mistake for a nation, or for an individual,
than to be covetous.
Hence, when one is content within one's own nature, one will always have enough.

[36t47c] **Hua-Ching Ni**
Without going out of your door, you can know the ways of the world.
Without looking through your window, you can see the Way of Heaven.
The farther you go, the less you know.
Thus, one of deep virtue knows without going,
sees without looking,
and accomplishes without doing.

[36t48c] **Hua-Ching Ni**
Learning builds daily accumulation,
but the practice of the Way of spiritual integration with the subtle essence of the universe builds daily simplification.
Simplify and simplify, until all contamination from relative, contradictory thinking is eliminated.
Then one does nothing, yet nothing is left undone.
One who wins the world does so by not meddling with it.
One who meddles with the world loses it.

[36t49c] **Hua-Ching Ni**
One with wholeness of virtue has an unconditioned mind.
He regards the mind of all being as his own mind.
He is kind to the kind.
He is also kind to the unkind,
for the subtle nature of the universe is kind.
He is faithful to the faithful.
He is also faithful to the unfaithful,
for the integral virtue of the universe is undeceiving.
In the midst of the world,
he dissolves all minds into harmonious Oneness.
All people strain their eyes and ears for excitement.
One of deep virtue brings all people back to their childlike-heartedness.

[36t50c] **Hua-Ching Ni**
That one's physical life will begin with birth and end in death seems a surety.
Also, in an individual life, the special opportunities of life and death are very much equal.
When there is an opportunity for death,
there is an opportunity for life also.
When there is an unusual opportunity for life,
it pulls one's life closer to death.
Aside from such opportunities,
there is the personal effort to maintain normalcy.
This is much more reliable than the special opportunities which place one's life on the verge of life and death.
People of awareness value normalcy and forsake seeking special opportunities which hold the promise of increasing the strength of living.
Such things are eventually only ways to speed up one's life.
One who can enjoy his natural life is content with the life of simple normalcy.
As I was told, one who knows how to tend his life with simple normalcy,
does not meet wild animals on the road or know the touch of weapons during war.
The mighty horns of the rhinoceros,
the powerful claws of the tiger,
the sharp blades of weapons,
find nowhere to pierce him.
Why is this so?
Because his mind holds no uncanny thoughts he gives death no opportunity.

[36t51c] **Hua-Ching Ni**
The natural essence of the universe gives life to all things.
Virtue nurses them.
Matter shapes them.
The natural environment brings them to maturity.
Therefore, all things without exception revere the subtle essence and honor virtue.
Though the subtle essence deserves reverence,
it does not demand it.
And though virtue ought to be honored,
it, too, does not demand it.
Thus, it is the subtle essence that gives life to all things, and with its virtue nurses them, grows them, fosters them, shelters them, comforts them, nourishes them and embraces them.
It does all this, yet it claims no possession,
expects no gratitude, and desires no lordship.
This is called the subtle virtue of the universe.

[36t52c] **Hua-Ching Ni**
All of creation has a common beginning.
This common beginning is the Mysterious Mother of all.
If we know the Mother, we may know her offspring.
Know the offspring, yet stay with the Mother,

and the essence of your life will never be exhausted, even though your body be dissolved.
Block the openings, shut the doors,
and to the end of your days, you will not be worn out.
Unblock the openings, multiply your activities,
and to the end of your days, you will be beyond remedy.
Thus it is said:
To perceive the subtle is to have true vision.
To be soft is to be truly strong.
Use the outer light, but return to the inner.
In this way, you will restore your integral virtue,
and be preserved from all harm.

[36t53c] **Hua-Ching Ni**
If I had even the tiniest grain of insight,
I should live in accordance with the subtle Way of the universe;
my only fear would be to stray from it.
The Integral Way of the universe is very smooth and straight, yet people's minds prefer devious bypaths.
The courts are polished and decorated,
while the fields are untilled,
and the granaries are empty.
People wear fine clothes to adorn their external appearance.
They carry sharp swords at their sides and worship might rather than righteousness.
They know only to make merry by indulging in food and drink.
They crave to possess more riches than they could ever use.
This is the committing of robbery and is not the Universal Integral Way of natural life.

[36t54c] **Hua-Ching Ni**
What is well planted cannot be pulled up.
What is closely embraced cannot slip away.
The wise establish virtue firmly within themselves, and are honored for generations ever after.
Apply natural, integral virtue to your own character,
and it will be genuine.
Apply natural, integral virtue to the family,
and it will abound.
Apply natural, integral virtue to the state,
and it will flourish abundantly.
Apply natural, integral virtue to the world,
and it will be pervasive.
Understand other people's lives by means of your own life.
Understand other people's families by means of your own family.
Understand other societies by means of your own society.
Understand other countries by means of your own country.
How can you know what is right for the world?
By knowing what is right for your own life.

One who is steeped in natural virtue is akin to a newborn babe.
Wasps and poisonous serpents do not sting it.
Fierce beasts do not seize it.
Birds of prey do not maul it.
Its bones are tender, its muscles soft, yet its grip is firm.
It has not known the union of male and female, yet its male member will stir naturally.
This is because its vitality is perfectly whole.
It can howl and scream all day long without becoming hoarse.
This is because it embodies perfect harmony.
To know harmony is to know natural virtue.
To recognize the natural virtue of the universe is to have insight.
To overprotect one's life is to invite danger.
To follow the fantasy of the mind is to drain away one's life energy.
To hasten growth is to hasten decay.
All of this is against the Way of natural virtue.
Whatever is against the Universal Way of life soon ceases to be.

[36t56c] **Hua-Ching Ni**
One who knows does not speak.
One who speaks does not know.
The one who knows is the one whose doors are shut, whose openings are blocked, whose sharpness is blunted, and whose glare is softened.
He is one with the subtle truth of the universe.
Thus you cannot get close to such a person by your love to do so,
nor can you keep away from him by your desire to do so.
You cannot bestow benefit on him,
nor can you do him harm,
because he holds the subtle essence of the universe.

[36t57c] **Hua-Ching Ni**
When serving the public, use upright means.
When commanding troops in war, employ the principle of surprise.
To win the world, do nothing to interfere with it.
Why?
Because the more prohibitions and inhibitions that are imposed on people,
the more difficult their lives become.
The more destructive weapons a nation or its people possess,
the poorer the people of that country become,
and the greater is the chaos that occurs in the world.
The more clever and crafty people become,
the more often strange things happen.
The more laws and ordinances there are,
the more criminals and dissidents will arise.
Therefore, the ancient sages of natural virtue said:
"I do nothing, and people's contention dissolves by itself.
I enjoy serenity, and people rectify themselves.

I make no effort, and people enrich themselves.
I have no desire, and people return to simplicity."

[36t58c] **Hua-Ching Ni**
When the government does not interfere, the people are simple and happy.
When the government does interfere, the people are tense and cunning.
Disaster is what blessing perches on.
Blessing is where disaster abides.
Who can say what the ultimate end of all possibilities will be?
Appropriate means soon become unfitting.
Good means soon turn to evil.
Long indeed have the people been perplexed by the endless, topsy-turvy movement of life.
Therefore, one of subtle virtue dissolves and eliminates the vicious cycle of duality.
He may have sharp corners, but he does not jab.
He may extend himself, but not at the expense of others.
He may shine, but he does not dazzle.

[36t59c] **Hua-Ching Ni**
In managing people and serving Heaven, there is nothing better than sparing unnecessary activities and expense.
To be thrifty means to return to the simple essence of life.
To return to the simple essence of life is to nourish subtle virtue.
To nourish subtle virtue is to be able to overcome any difficulty.
Being able to overcome difficulties,
one can break through all limitations.
One's limitlessness is derived from whole and boundless virtue.
The source of such virtue can support one to serve a nation.
Then one's benevolence can be enduring.
This is the way to firmly plant and deeply root oneself in the subtle path of universal integration.
This is the achievement of the Way of immortality.

[36t60c] **Hua-Ching Ni**
Managing a big country is like cooking small fish.
The more you stir them, the less their shape can be maintained.
When one applies the subtle Way of the universe to the world,
all high spirits unite and harmonize their potencies.
Thus, they do not harm people.
All the world's leaders know to merge with the great Oneness,
thus all people are preserved from harm.
When the subtle Way of the universe is all pervading,
there is no longer any distinction between subject and object,
between spiritual and material,
between holy and unholy.
All energies merge into harmonious Oneness.

A great country is like the lower regions of a river: a place where all the streams of the world unite.
She is the mother of the world.
The peaceful and feminine always overpowers the masculine.
Being peaceable, one takes the lower position.
Hence, if a great country can lower itself to greet a small country,
it will win the friendship and trust of the small country.
If a small country can lower itself to greet a great country,
it will win the friendship and support of the great country.
One wins by taking the lower position,
while the other wins by remaining low.
Thus, if each is to find its proper place,
the one that is great must place itself low and offer help.

[36t62c] **Hua-Ching Ni**
The subtle essence of the universe supports all things.
It is a treasure to virtuous people,
yet it is a refuge for unvirtuous people too.
Good words will find their market.
Good deeds may be presented as a gift to another.
Though a person has strayed from the right path,
the all-encompassing subtle essence of the universe will never abandon him.
Hence, at the enthronement of an emperor,
or the appointment of the three highest ministers of the empire,
rather than present them with discs of jade and teams of fine horses,
show them the priceless subtle Way of the universe.
Why did the ancients esteem the subtle Way of the universe?
Didn't they say that a seeker will find nothing,
but that he can be free from all transgression?
That is why it is such a treasure to the world.

[36t63c] **Hua-Ching Ni**
Do that which is not done by doing.
Make that which is not made by making.
Taste that which cannot be distinguished by taste.
Hold the same regard for the few and the many.
Requite the unkind with kindness.
Thus, one of subtle virtue desires what is not connected with desire,
sets no value on the rare goods of the world,
learns what is not learned through learning,
and induces people to return to that which they have overlooked.

[36t64c] **Hua-Ching Ni**
Tackle difficulties when they are easy.
Accomplish great things when they are small.
Handle what is going to be rough when it is still smooth.
Control what has not yet formed its force.

Deal with a dangerous situation while it is safe.
Manage what is hard while it is soft.
Eliminate what is vicious before it becomes destructive.
This is called "attending to great things at small beginnings."
A tree so big it can fill the span of a man's arms grows from a tiny sprout.
A terrace nine stories high rises from a shovelful of earth.
A journey of a thousand miles begins with a single step.
Thus, one of integral virtue never sets about grandiose things,
yet he is able to achieve great things.
Lightly made promises inspire little confidence.
Making light of things at the beginning,
one will meet with failure in the end.
Being prepared for hardship, one will not be overcome by it.
In handling their affairs, people often ruin them just as they are on the verge of success.
With heedfulness in the beginning and all the way through to the end,
nothing is ruined.

[36t65c] **Hua-Ching Ni**
In ancient times, those who were well-versed in the practice of the subtle Way of the universe did not lead people to disintegrate their minds through intellectual development for the sake of partial achievement.
Instead, they dissolved all contradictory concepts and images in order to maintain the natural state of simplicity.
Why are people so hard to manage?
Because they have become complicated.
He who leads others with a conditioned and complicated mind is the source of calamity.
He who leads others with simplicity is the source of blessing.
To know these two principles is to possess a rule and measure, the symbol of the ancient wise one.
To keep the rule and measure constantly in your mind,
is to spontaneously manifest integral virtue.
Deep and far-reaching is the subtle truth of integrity.
It leads all things to return from worldly divergence to one great and universal life.

[36t66c] **Hua-Ching Ni**
How does the sea become the queen of all rivers and streams?
By lying lower than they do!
Hence, it is the queen of all rivers and streams.
One who humbles himself, therefore, can serve all people.
By putting himself last, he comes to be their leader.
Thus, when one of subtle virtue is set above people,
they do not feel that he is their burden.
And, when he stands in front of people,
they do not feel that he is an obstruction to them.
Therefore, the world follows one of subtle virtue joyfully,
and never tires of doing so.
He does not compete with anyone,

thus he is above all competition.

[36t67c] **Hua-Ching Ni**
The world may say that the subtle Way of the universe which I describe is great,
but that it has little bearing on worldly life.
Truly, it is just that it is not definable, like the small ways of the world, thus it is indeed great.
There are three treasures which I embrace and follow closely:
the first is to be kind;
the second is to be simple;
the third is to not put one's own importance first in the world.
Because kindness and compassion can produce courage,
simplicity can thus be broadened to contain the world.
By not putting your own importance first in worldly affairs,
you will not impede the natural growth of all things.
If a person endeavors to be brave without first being kind,
great purposed, without first simplifying his life,
an authority, without first denying himself,
he cannot evolve freely from strife, and is only courting destruction.
Kindness can help to win a war.
Kindness can help to defend a fortification.
Kindness will invite the corresponding energy of kindness from Heaven through all the divine beings who support and protect.

[36t68c] **Hua-Ching Ni**
A good warrior is never violent.
A good fighter is never offensive.
A great victor defeats his opponent, but not by challenging him.
A great commander is humble.
This is called the power of non-contention.
This is also called making use of the effort of others.
To follow this is to follow the pattern of the subtle law of the universe.

[36t69c] **Hua-Ching Ni**
The strategist who has achieved excellence says: dare not to be the host, but rather be the guest.
Dare not to be the restless aggressor, but rather be the calm defender.
Dare not advance an inch, but rather retreat a foot.
March forward where there is no obstacle.
Stretch out your arm only where there is no confrontation.
Charge an opponent where there is no resistance.
Hold a weapon that is invisible.
There is no greater mistake than to underestimate the power of an opponent.
To underestimate the power of an opponent may cost a man his life.
Therefore, when opposing troops meet in battle,
it is the side with the greatest caution that wins.

My words are very easy to understand and easy to practice,
yet the world can neither understand nor practice them.
My words have only one source: the subtle truth of the universe.
My deeds have only one master: the natural virtue of the universe.
The people of the world have no knowledge of this.
Thus, they have no knowledge of me.
The fewer the persons that know me,
the nobler are they that follow me.
Therefore, the one of whole virtue wears coarse clothes superficially,
but holds a precious treasure within.

[36t71c] **Hua-Ching Ni**
He who regards his intellectual knowledge as ignorance has deep insight.
He who overrates his intellectual achievement as definite truth is deeply sick.
Only when one is sick of this sickness can one cease to be sick.
One who returns his mind to the simplicity of the subtle truth is not sick.
He knows to break through conceptual knowledge in order to directly reach the subtle truth of the universe.
This is the foundation of his health!

[36t72c] **Hua-Ching Ni**
When people lack a sense of pure spiritual piety toward natural life,
then awful things happen in their life.
Therefore, respect where you dwell.
Love your life and livelihood.
Because you do not disparage your life and livelihood, you will never become tired of life.
Thus, one of natural whole virtue respects his own life, but is not egotistical.
He loves his life, but does not exalt himself.
He holds a sense of spiritual serenity for all things, and disparages nothing.
Hence, he does what is right and gives up what is not right.

[36t73c] **Hua-Ching Ni**
He who is brave in daring will meet an unnatural death.
He who is brave in gentleness will be preserved.
Of these two kinds of bravery, one is beneficial, while the other proves harmful.
The subtle truth of the universe does not support those who are brave in daring,
yet there are still many people who do not understand such apparent truth.
So, even the one who integrates his being with the subtle essence of the universe,
dares not make light of the subtle law of life.
The subtle Way of the universe gave birth to a world of peace and order.
It responds to the order and harmony of all beings and things without needing to talk to them.
Without your summoning it, it comes to you.
Without scheming, its plan is perfect.
Vast is the subtle energy network of the universe.
Sparsely meshed it is, yet nothing can slip through it!

If people are not afraid to die, what is the use of threatening them with the punishment of death?
On the other hand,
if people value their lives, and if outlaws are seized and killed or are killed by what they are doing,
who would dare risk a life of peace for the sake of an insecure future?
Yet it is always true that one who takes charge of killing is killed in turn.
To become the executioner of artificial righteousness is like the inexperienced lad who would brandish a sharp axe of a master carpenter.
He can seldom escape cutting himself.

[36t75c] **Hua-Ching Ni**
Why are people starving and leading a difficult life?
Is it not because their rulers consume too much tax grain?
Is that why they are starving and leading a difficult life?
Why are people hard to manage?
Is it not because those above them create distress with their oppressive interference?
Is that why they are hard to manage?
Why do people make light of death?
Is it not because those above them demand too much for themselves and value only their own personal power and glory?
Is that why they take death so lightly?
One who is a guardian of people and does nothing for his own life knows how to value all lives well.

[36t76c] **Hua-Ching Ni**
When a person is alive, he is soft and supple.
When a person dies, he becomes hard and rigid.
When a plant is alive, it is pliant and tender.
When a plant is dead, it becomes dry and brittle.
Hence, the hard and rigid are companions of the dead.
The soft and supple are companions of the living.
Therefore, a mighty army is ready to be vanquished.
A tree that is dry is ready for the ax.
The mighty and the great will be laid low.
The soft and the gentle will outlive them all!

[36t77c] **Hua-Ching Ni**
The subtle Way of the universe: is it not expressed in the stretching of a bow?
The high it presses down.
The low it lifts up.
The excessive it takes from.
The deficient it gives to.
It is the nature of this subtle truth to take from what is excessive and give to what is deficient.
The way of man, however, is otherwise.
It takes from those in need to give to those who already have more than enough.
Only one of whole virtue always has something to give to others.
Therefore, one of whole virtue does things, but does not keep them for himself;
accomplishes his tasks, but does not cling to them.

He has no desire to trade his virtue for people's worship.

[36t78c] **Hua-Ching Ni**
Nothing in the world is softer or more yielding than water.
But, for wearing down the hard and strong,
there is nothing like it.
That yielding overcomes the strong and softness overcomes the hard is something that is known by all,
but is practiced by few.
An ancient developed one said:
"He who can take the troubles of the people of the world is qualified to rule the world.
He who can tend to calamities for the sake of all beings is the right person to be the sovereign of the world."
Indeed, truth seems paradoxical!

[36t79c] **Hua-Ching Ni**
Even after settling a great dispute, some resentment is likely to remain.
Can this be considered a true settlement?
Only by cultivating the virtue of wholeness and by returning injury with kindness can there be true harmony.
Therefore, one of deep virtue always gives without expecting gratitude.
One whose virtue is deep treats the world as if he were the debtor,
holding the left side of the tally.
He willingly repays the world through serving his fellow man.
One who is partially virtuous treats the world as if he were the creditor,
holding the right side of the tally.
He thinks the world owes him something and should repay him.
Although the subtle Way of the universe holds no favoritism or partiality,
it always supports those who are naturally virtuous.

[36t80c] **Hua-Ching Ni**
Let there be small communities with few inhabitants.
The supply of vessels may be more than enough,
yet no one would use them.
The inhabitants would love living there so dearly that they would never wish to move to another place.
They may have every kind of vehicle,
but they would not bother to ride them.
They may have powerful weapons,
but they would not resort to using them.
They would return to a simple system of cords and knots to record their simple events,
as was done in ancient times.
They would be content with plain food,
pleased with simple clothing,
satisfied with rustic but cozy homes,
and would cling to their natural way of life.
The neighboring country would be so close at hand that one could hear its roosters crowing and its dogs barking along the boundaries.
But, to the end of their days, people would rarely trespass the territory of another's life.

True words are not necessarily beautiful.
Beautiful words are not necessarily truthful.
One who is achieved does not argue,
and one who argues is not achieved.
One who knows the deepest truth does not need segmented information.
One who knows vast amounts of information may not know the truth.
One of deep virtue is not occupied with amassing material goods,
yet the more he lives for others, the richer his life becomes.
The more he gives, the more his life abounds.
The subtle Way of the universe is beneficial, not harmful.
The integral nature of a person is to extend one's virtue unconditionally and to contend with no one.

The Tao that can be spoken of is not the Tao itself.
The name that can be given is not the name itself.
The unnameable is the source of the universe.
The nameable is the originator of all things.
Therefore, oftentimes without intention I see the wonder of Tao.
Oftentimes with intention I see its manifestations.
Its wonder and its manifestations are one and the same.
Since their emergence, they have been called by different names.
Their identity is called the mystery.
From mystery to further mystery:
The entry of all wonders!

[37t02c] **Chang Chung-yuan**
When beauty is universally affirmed as beauty, therein is ugliness.
When goodness is universally affirmed as goodness, therein is evil.
Therefore: being and non-being are mutually posited in their emergence.
Difficult and easy are mutually posited in their complementariness.
Long and short are mutually posited in their positions.
High and low are mutually posited in their contradiction.
Voice and tone are mutually posited in their unity.
Front and back are mutually posited in their succession.
Thus, the wise deals with things through non-interference and teaches through no-words.
All things flourish without interruption.
They grow by themselves, and no one possesses them.
Work is done, and no one depends on it.
Achievements are made, but no one claims credit.
Because no one claims credit, achievements are always there.

[37t03c] **Chang Chung-yuan**
If no one esteems the best, men will be free from contention.
If no one values the precious, men will be free from illegal gain.
If men see nothing to desire, their minds will be free from confusion.
Therefore, the wise guides men by relaxing their minds and keeping their bellies firm;
By reducing their wills and letting their physiques become strong.
He always frees men from the search for knowing and demanding.
This means that the knower dares not act for the known.
When action is through non-action, no one is uncultivated.

[37t04c] **Chang Chung-yuan**
Tao functions through its nothingness.
And can not be conceived of as full of things.
Profound indeed, it is the model of all things.
Dulling its sharpness,
Releasing its entanglements,
Tempering its light, and

Unifying with the earth,
Clearly, indeed, it remains.
I do not know who created it,
But it is likely that it existed prior to God.

[37t05c] **Chang Chung-yuan**
Heaven and earth are not benevolent:
They treat ten thousand things indifferently.
The wise is not benevolent:
He treats men indifferently.
The entire universe is basically void, like a bellows:
When it is in non-action, it does not lack anything;
When it is in action, it is even more productive.
Debating with words leads to limitations.
Therefore, nothing is better than to remain in the state before things are stirred.

[37t06c] **Chang Chung-yuan**
The spiritual reality of the void never ceases to exist.
We call it the mystery of passivity.
The entry to the mystery of passivity is the origin of the universe.
Unceasing, it always remains.
Drawn upon, it is never exhausted.

[37t07c] **Chang Chung-yuan**
The existences of heaven and earth are long-lasting.
Their existences are long-lasting because they do not conceive of their existences as existences.
Therefore, their existences are long-lasting.
When the wise stays back, he steps forward.
When he forgets his self, he finds his self.
Is it not through selflessness that one achieves selfhood?

[37t08c] **Chang Chung-yuan**
That which is best is similar to the water.
Water profits ten thousand things and does not oppose them.
It is always at rest in humble places that people dislike.
Thus, it is close to Tao.
Therefore, for staying, we prefer a humble place.
For minds, we prefer profundity.
For companions, we prefer the kindness.
For words, we prefer sincerity.
For government, we prefer good order.
For affairs, we prefer ability.
For actions, we prefer the right time.
Because we do not strive,
We are free from fault.

[37t09c] **Chang Chung-yuan**
To hold things and to be proud of them is not as good as not to have them,
Because if one insists on an extreme, that extreme will not dwell long.
When a room is full of precious things, one will never be able to preserve them.
When one is wealthy, high ranking, and proud of himself, he invites misfortune.
When one's task is completed and his mission is fulfilled, he removes himself from his position.
This is indeed the way of Nature!

[37t10c] **Chang Chung-yuan**
Can you unify hun and p'o into one and not let them be divided?
Can you concentrate on your breathing to reach harmony and become as an innocent babe?
Can you clean the dark mirror within yourself and let nothing remain there?
Can you love the people and govern the state and do so without interference?
Can you enter and leave the realm of Non-being and let these actions take place by themselves?
Can the clear illumination radiate to all directions without your having knowledge of it?
Cultivate it, and nourish it,
Produce it, but do not possess it,
Labor on it, but do not depend on it,
Lead it, but do not manage it.
This is called the mystic attainment.

[37t11c] **Chang Chung-yuan**
Thirty spokes are joined at the hub.
From their non-being arises the function of the wheel.
Lumps of clay are shaped into a vessel.
From their non-being arises the function of the vessel.
Doors and windows are constructed together to make a chamber.
From their non-being arises the function of the chamber.
Therefore, as individual beings, these things are useful materials.
Constructed together in their non-being, they give rise to function.

[37t12c] **Chang Chung-yuan**
Numerous colors make man sightless.
Numerous sounds make man unable to hear.
Numerous tastes make man tasteless.
Racing and pursuing game make man's heart violent.
Valuing rare things makes man worry about their safety.
Therefore, the wise concentrates on the belly and not on the temptations of the senses.
Thus, he abides in the one and foregoes the other.

[37t13c] **Chang Chung-yuan**
Honor and dishonor both move us
Because we are troubled by having a self.
Why do we say that honor and dishonor move us?
Because honor lifts us upward
And dishonor lowers us downward,

Thus, when we are honored we are moved.
When we are dishonored we are also moved.
That is why honor and dishonor are both said to move us.
Why do we say that the great trouble is having a self?
Because we have great trouble simply because we have a self.
If we are selfless, then where is the trouble?
If we identify our self with the world,
Then within our self there is the world.
If we love the world as we love our self,
Then within our self there is only the world.

[37t14c] **Chang Chung-yuan**
Gaze at it; there is nothing to see.
It is called the formless.
Heed it; there is nothing to hear.
It is called the soundless.
Grasp it; there is nothing to hold on to.
It is called the immaterial.
We cannot inquire into these three,
Hence, they interfuse into one.
Above, it is not light.
Below, it is not dark.
Invisible, it cannot be called by any name.
It returns again to nothingness.
Thus, we call it the form of the formless
The image of the imageless.
It is the evasive.
Approach it; you cannot see its face.
Go after it; you cannot see its back.
Adhere to the Tao of the remote past,
And apply it to the present.
This will enable you to understand the primordial beginning.
This is the essential Tao.

[37t15c] **Chang Chung-yuan**
In ancient times the best man of Tao was refined and deeply enlightened.
His depth can hardly be measured.
Because his depth can hardly be measured,
I will try to draw a picture of him.
Prudent, as if he were wading in a cold stream in the winter;
Calm, as if he did not want to disturb his neighbors;
Respectful, as if he were a guest;
Fluid, as if he were ice melting;
Solid, as if he were an uncarved block;
Vacant, as if he were a valley;
Lacking clear discriminations, as if he were impure;

Who is able to gradually reach purity from impurity through quiescence?
Who is able to gradually grow lively from motion through motionlessness?
One who abides in Tao never desires to reach an extreme.
Because he never desires to reach an extreme,
He can remain in the old, yet become the new.

[37t16c] **Chang Chung-yuan**
Contemplate the ultimate void.
Remain truly in quiescence.
All things are together in action,
But I look into their non-action.
Things are unceasingly moving and restless,
Yet each one is proceeding back to the origin.
Proceeding back to the origin is quiescence.
To be in quiescence is to return to the destiny of being.
The destiny of being is reality.
To understand reality is to be enlightened.
Not to understand it, and to act wrongly, leads to disaster.
Reality is all-embracing.
To be all-embracing is to be selfless.
To be selfless is to be all-pervading.
To be all-pervading is to be transcendent.
To be transcendent is to attain Tao.
To attain Tao is to be everlasting.
Even when the body dies, it is not the end.

[37t17c] **Chang Chung-yuan**
The best leader is one whom no one knows.
The next best is one who is intimate with the people and is flattered by them.
The next is one who is feared by the people.
The next is one who is held in contempt by the people.
Therefore, when one's sincerity is not sufficient, one does not have the confidence of the people.
Be cautious! and spare words.
Then when work is done and things are accomplished,
People will say that things happened by themselves.

[37t18c] **Chang Chung-yuan**
As soon as the great Tao is cast aside,
There prevails the teaching of benevolence and righteousness.
As soon as intellection and prudence are esteemed,
There is produced the great falsehood.
As soon as the members of a family are no longer at peace,
There is a demand for filial piety and love.
As soon as a nation is in confusion and rebellion,
There is a claim for loyal officers.

[37t19c] **Chang Chung-yuan**
Let the people be free from discernment and relinquish intellection,
Then they will be many times better off.
Stop the teaching of benevolence and get rid of the claim of justice,
Then the people will love each other once more.
Cease the teaching of cleverness and give up profit,
Then there will be no more stealing and fraud.
Discernment and intellection, benevolence and justice, cleverness and profit are nothing but outward refinements.
Hence we must seek something other than these.
Reveal simplicity,
Hold to one's original nature,
Rid one's self of selfishness,
Cast away covetousness,
Eliminate artificial learning and one will be free from anxieties.

[37t20c] **Chang Chung-yuan**
What is the difference between the respectful "wei" and the disrespectful "o"?
What is the difference between good and bad?
Where others are afraid, must I be afraid, too?
How extremely ridiculous this is!
The people are rejoicing as if they are enjoying a sacrificial feast,
Or walking up a terrace in the blossoming spring.
How quiescent I am, alone unstirred, like a baby before he knows how to make pleasant expressions.
How aimlessly I wander, with no home to turn to.
People all have many ambitions and desires.
I, alone, seem to have left all of them.
How ignorant I am!
My mind must be that of a fool.
People are glorious and shining.
I, alone, am dark and dull.
People are clever and inquisitive.
I, alone, am obscure and blunt.
How tranquil I am, like the placid sea.
How loftily drifting, as if I am bound nowhere.
People all have their motives.
I, alone, am good for nothing and uncouth.
I am not like the others.
I am nourished by the Mother.

[37t21c] **Chang Chung-yuan**
That which is inherent in the great attainment (void) is the echo of Tao.
That which is Tao is indistinct and ineffable.
Ineffable and indistinct, yet therein are forms.
Indistinct and ineffable, yet therein are objects.
Unfathomable and invisible, yet therein are essences.

The essence is indeed genuine, therein is the vivid reality.
From ancient times until the present, the name of Tao has never ceased to exist.
Through it we see the beginning of all things.
How do we understand the beginning of all things?
It is through this.

[37t22c] **Chang Chung-yuan**
To bend is to maintain integrity.
To deviate is to be direct.
To be concave is to be convex.
To be exhausted is to be rejuvenated.
To be wanting is to be endowed.
To have much is to be deprived.
Therefore, the wise identifies opposites as one,
And sets an example for the world.
He remains in concealment and spontaneously is unconcealed.
He does not assert himself, therefore he is eminent.
He does not claim credit, therefore he receives credit.
He is not vain, therefore he is the best.
Because he does not oppose anyone in the world, no one can oppose him.
Thus, the ancient saying "to bend is to maintain integrity" is the word of truth.
Indeed, integrity is attributed to this.
Through no words,
It takes place by itself.

[37t23c] **Chang Chung-yuan**
Nature rarely expresses itself in words.
When a hurricane occurs, it does not last all morning.
Neither does a heavy shower last the whole day.
These are actions of heaven and earth.
Thus, even heaven and earth cannot maintain their actions for long.
How can man?
Therefore, the learner of Tao identifies with Tao.
When one achieves it, one identifies with one's achievement.
When one loses it, one identifies with one's losing.
When man identifies with achievement, achievement also willingly identifies with man.
When man identifies with losing, losing willingly identifies with man.
If one does not believe enough in this identity, then it will not take place.

[37t24c] **Chang Chung-yuan**
To lift the heel is not to stand.
To take long strides is not to walk.
To show off is not to shine.
To insist that one is right is not to be distinct.
To claim credit is to have no credit.
To be proud of oneself is not to be the best.

From the point of view of Tao, all of these are extras which things themselves do not like.
Therefore, the man of Tao does not abide with them.

[37t25c] **Chang Chung-yuan**
There was a thing, a "gathering" chaos,
Which existed prior to heaven and earth.
Silent!
Empty!
Existing by itself, unchanging,
Pervading everywhere, inexhaustible,
It might be called the mother of the world.
Its name is unknown;
I simply call it Tao.
If I were to exert myself to define it,
I might call it great.
Great means extending to the limitless.
Extending to the limitless means reaching the extreme distance.
Reaching the extreme distance means returning to "nearness."
Thus, Tao is great,
Heaven is great, earth is great, and man is great, too.
In the universe we have four greatnesses, and man is but one.
Man is in accordance with earth.
Earth is in accordance with heaven.
Heaven is in accordance with Tao.
Tao is in accordance with that which is.

[37t26c] **Chang Chung-yuan**
The weighty is the origin of the weightless.
Stillness is the fountain of restlessness.
Therefore, the ruler journeys from morning until night and never separates himself from his heavy supply cart.
Although he is in a glorious atmosphere, he remains quiescent and above it.
How can a leader "with ten thousand chariots" take himself lightly before the world?
To take himself lightly is to lose the origin.
Restlessness means that the fountain is lost.

[37t27c] **Chang Chung-yuan**
The best action is free from marks [either good or evil].
The best words are free from stains [either good or bad].
The best calculator is free from calculation and measure.
The best closure has no bolts, yet it cannot be opened.
The best knot has no cord, yet it cannot be untied.
Thus, the wise knows how to rescue men; hence, no one is excluded.
He also knows how to rescue things; hence, nothing is excluded.
This is called penetration to illumination.
Therefore, the virtuous is the model for the unvirtuous.

The unvirtuous is the origin of the virtuous.
If one does not appreciate the virtuous or cherish the unvirtuous,
Although one is intelligent, one is not free from confusion.
This is called the indispensable wonder.

[37t28c] **Chang Chung-yuan**
To be aware of the positive, yet to abide in the negative is to be the abyss of the universe.
To be the abyss of the universe is to not deviate from real attainment and to remain like an innocent child.
To be aware of the white, yet to abide in the black is to be the chasm of the universe.
To be the chasm of the universe is to have sufficient real attainment, and to remain in the state of original non-differentiation.
When original non-differentiation is differentiated, things are produced.
Yet when the wise makes use of original non-differentiation, he becomes the leader of the people.
Therefore, great governing is non-discriminating.

[37t29c] **Chang Chung-yuan**
If one undertakes the task of governing the kingdom and engages in governing it,
I see that he cannot lead it anywhere.
A kingdom is a spiritual vessel and should not be manipulated.
Manipulating it leads to failure.
To grasp it is to miss it.
Because the natures of things vary, one acts, another copies;
One breathes lightly, another breathes heavily;
One is vigorous, one is meek;
One carries on, another fails.
Thus, the wise is not excessive, overindulgent, or extreme.

[37t30c] **Chang Chung-yuan**
Aiding in governing the kingdom through Tao means not depending on the superiority of arms.
Depending on the superiority of arms creates consequences.
Wherever there are armies, disorder occurs.
After a great battle, there is a year of deprivation.
Victory is merely the outcome of a contest.
One should not dare to claim superiority of power.
As victory is merely an outcome, one should not boast about it.
As it is merely an outcome, one should not show off because of it.
As it is merely an outcome, one should not be proud of it.
As it is merely an outcome, one cannot help but have it.
As it is merely an outcome, one should not claim superiority of power.
Claiming to be strong leads to decay.
This violates Tao.
That which violates Tao will not last long.

[37t31c] **Chang Chung-yuan**
Arms are implements of ill omen which are abhorred by men.
Therefore, the man of Tao does not abide them.

Arms are implements of ill omen.
One uses them only when one cannot avoid it.
Even if one engages in fighting, one should remain quiescent and indifferent.
Even if the war is won, one should not glorify it.
To glorify it means that one enjoys slaying men.
If one enjoys slaying men, one will never be successful in the world.

[37t32c] **Chang Chung-yuan**
Tao is real, yet unnameable.
It is original non-differentiation and invisible.
Nevertheless, nothing in the universe can dominate it.
If rulers and lords were able to abide with it, all things in the universe would yield to them naturally.
Heaven and earth are unified and rain the dew of peace.
Without being ordered to do so, people become harmonious by themselves.
When discrimination begins, names arise.
After names arise, one should know where to abide.
When one knows where to abide, one is never exhausted.
To abide with Tao in the world is to be the same as mountain streams flowing to the rivers and to the sea.

[37t33c] **Chang Chung-yuan**
To know others is to be intelligent.
To be aware of one's self is to be awakened.
To overcome others is to have superior strength.
To overcome one's self is to be vigorous.
To be satisfied is to be wealthy.
To act with power is to be aspiring.
To retain one's source is to be long-lasting.
To die yet not to be deceased is to have longevity.

[37t34c] **Chang Chung-yuan**
The magnificent Tao is all-pervading.
It may penetrate to either this side or that side.
All creatures abide with it and grow; none are excluded from it.
When its work is done, it does not demand merit.
It nurtures all things, but does not rule them.
When it is without intention, it may be called lesser.
When all things return to it, yet it does not possess them, it may be called greater.
Therefore, the wise does not endeavor to be great.
Hence, his attainment is great.

[37t35c] **Chang Chung-yuan**
When one maintains the great image in dealing with the world,
One deals with the world without harming it.
Instead, one makes the world serene, tranquil, and peaceful.
Music and delicacies may attract passersby to remain momentarily,
But the taste of Tao is plain and without flavor.

Look at it, nothing can be seen.
Listen to it, nothing can he heard.
Employ it, it cannot be depleted.

[37t36c] **Chang Chung-yuan**
That which is to be condensed must first be dispersed.
That which is to be enervated must first be vitalized.
That which is to be devastated must first be produced.
That which is to be obtained must first be yielded.
This is called invisible illumination.
The soft overcomes the unshakable;
The weak overcomes the strong.
Just as fish stay deep in the pond,
The best arms in the nation are those that remain invisible.

[37t37c] **Chang Chung-yuan**
Tao is real and free from action, yet nothing is not acted upon.
If rulers abide with it, all things transmute by themselves.
If, in the process of transmutation, intention emerges, it must be overcome by the original non-differentiation of the nameless.
To experience the original non-differentiation of the nameless, one should also be free from intending to have no-intention.
To be free from intending to have no-intention is to be quiescent.
Thereby, the world is naturally led to tranquillity.

[37t38c] **Chang Chung-yuan**
The highest attainment (Tê) is free from attainment.
Therefore, there is attainment.
The lowest attainment is never free from attainment.
Therefore, there is no attainment.
The highest attainment never acts and is purposeless.
The lowest attainment acts and is purposeful.
The highest benevolence (jen) acts and is purposeless.
The highest righteousness (yi) acts and is purposeful.
The highest propriety (li) acts and no one follows it.
One bares one's arms and throws one's opponents away.
Therefore, when Tao is lost, we have attainment.
When attainment is lost, we have benevolence.
When benevolence is lost, we have righteousness.
When righteousness is lost, we have propriety.
Propriety is due to a lack of trustworthiness and is the beginning of disorder.
Anticipated knowledge is the superficiality of Tao and is the beginning of foolishness.
Hence, the great man chooses reality and not superficiality.
He acts according to reality and not appearance.
Thus, he grasps the one and foregoes the other.

[37t39c] **Chang Chung-yuan**
In the remote past there were those who attained the One.
Attaining the One, heaven became pure.
Attaining the One, earth became peaceful.
Attaining the One, God became spiritual.
Attaining the One, the ocean became full.
Attaining the One, ten thousand things came into life.
Attaining the One, rulers became the models of the world.
All of them became so through the One.
Without becoming pure, heaven would have broken.
Without becoming peaceful, the earth would have quaked.
Without becoming spiritual, God would have crumbled.
Without becoming full, the ocean would have drained.
Without coming into life, ten thousand things would have perished.
Without becoming the models of the world, rulers would have stumbled.
Therefore, the worthless serves as the foundation of the worthy.
The inferior serves as the basis of the superior.
Thus, rulers call themselves isolated men, without merit, and worthless.
Is this not enough to prove that the worthless serve as the foundation of the worthy?
Hence, the perfect fame is no fame.
Rulers do not want to be esteemed as tingling jade; they would rather be plain, solid rock.

[37t40c] **Chang Chung-yuan**
Reverse is the movement of Tao.
Yielding is the action of Tao.
Ten thousand things in the universe are created from being.
Being is created from non-being.

[37t41c] **Chang Chung-yuan**
When a man of superior talent listens to Tao, he earnestly applies it.
When an ordinary man listens to Tao, he seems to believe it and yet not to believe it.
When the worst man listens to Tao, he greatly ridicules it.
If he did not ridicule it, it would not be Tao.
Therefore, in Ch'ien-yen we have:
Understand Tao as if you do not understand it;
Enter into Tao as if you are coming out of it;
Move smoothly with Tao as if you are having difficulties.
The highest attainment is as if it is no attainment.
All-embracing attainment is as if it is lacking attainment.
Rigorous attainment is as if it is indolent loafing.
Real essence is as if it is empty.
The great white is as if it is black.
The great square is without corners.
Great capacity is successful in its later days.
Great music is without sound.
The great image is without form.

Tao is concealed and without name.
Nevertheless, Tao furnishes all things and fulfills them.

[37t42c] **Chang Chung-yuan**
From the Tao, one is created;
From one, two;
From two, three;
From three, ten thousand things.
All of them achieve harmony through the unification of affirmation and negation
Which is embraced by everything.
No one likes to be isolated (ku), without merit (kua), or worthless (pu ku),
Yet rulers refer to themselves with these names.
Thus, some things add to their value by reducing their value.
Some things reduce their value by adding to their value.
Other ancients have taught this; I teach it too.
"The man of violence will end his life in violence."
This is a basic motto.

[37t43c] **Chang Chung-yuan**
The meekest in the world
Penetrates the strongest in the world.
As nothingness enters into that-which-has-no-opening.
Hence, I am aware of the value of non-action
And of the value of teaching with no words,
As for the value of non-action,
Nothing in the world can match it.

[37t44c] **Chang Chung-yuan**
Man's name or man's self - which is closer to him?
Man's self or his property - which is more valuable to him?
Success or failure - which is more harmful to him?
Things that are cherished more, cost more.
The more that is kept, the more that is missed.
The man who is easily contented is free from shame.
The man who knows the right time to stop is free from danger.
Thus, he will last long.

[37t45c] **Chang Chung-yuan**
When accomplishment reaches its utmost,
It is as if nothing is accomplished.
Its application is never exhausted.
When fullness reaches its utmost,
It is as if it is still vacant.
Its application leads to limitlessness.
Thus the perfectly straight is as if it were bent.
The most skilled is as if it were stupid.

The greatest ability of debate is as if it were speechless.
Hence, quiescence surpasses movement,
Coldness surpasses heat,
Tranquillity sets the example for the world.

[37t46c] **Chang Chung-yuan**
When the world is governed according to Tao,
Horses are used to work on the farm.
When the world is not governed according to Tao,
Horses and weapons are produced for the frontier.
No crime is greater than that of ambition.
No misfortune is greater than that of discontentment.
No fault is greater than that of conquering.
Therefore, to know contentment through contentment
Is to always have enough.

[37t47c] **Chang Chung-yuan**
Without going out of the gate,
One is aware of the world.
Without peering outside,
One sees the way of heaven.
The farther away one is,
The less one is aware.
Therefore, the wise is aware of all things
Without moving a step.
He identifies all things
Without looking at them.
He completes all things
Without action.

[37t48c] **Chang Chung-yuan**
To learn,
One accumulates day by day.
To study Tao,
One reduces day by day.
Through reduction and further reduction
One reaches non-action,
And everything is acted upon.
Therefore, one often wins over the world
Through non-action.
Through action, one may not win over the world.

[37t49c] **Chang Chung-yuan**
The wise man is free from his own mind,
But identifies the people's minds as mind.
He considers good as good,

But he also considers not-good as good.
Thus, his attainment of non-differentiation is successful.
He considers truth as truth,
But he also considers not-truth as truth.
Thus, his attainment of non-differentiation is perfected.
In the world, the wise conscientiously non-differentiates
The minds of the people.
Because people rely on their senses of hearing and seeing,
The wise treats them as innocent children.

[37t50c] **Chang Chung-yuan**
To live or to die:
Three out of ten men live,
While three out of ten men die.
Further, three out of ten men cling to life,
But they lose it.
Why?
Because they all crave life.
He who knows how to safeguard his life
Does not encounter tigers or rhinoceroses.
In the battlefield
He does not avoid dangerous weapons.
Rhinoceroses cannot gore him,
Tigers cannot claw him,
Dangerous weapons cannot harm him.
Why?
Because there is no place in him for death.

[37t51c] **Chang Chung-yuan**
Tao creates all things;
Tê cultivates them.
Things are shaped according to their natures;
Relational conditions fulfill them.
Therefore, ten thousand things all venerate the source of Tao
And value the potentialities of Tê.
Tao is venerated and Tê is valued spontaneously;
No one orders that it be so.
Thus, Tao creates all things;
Tê cultivates them.
They give them birth.
They nourish them.
They give them shape.
They give them quality.
They shelter them.
They guard them.
They create them but do not possess them.

They work for them but expect no reward.
They bring them to maturity but do not control them.
This is called invisible attainment.

[37t52c] **Chang Chung-yuan**
The world has its beginning,
Which may be called the origin of the world.
When one is aware of the origin,
One knows its manifestations.
When one is aware of its manifestations,
Yet abides with its origin,
One never falls short in all of one's life.
Ceasing verbal expressions,
Stopping the entry of sensations,
One is never exhausted.
On the contrary, when one is full of words
And entangled with one's affairs,
One is never able to save one's self.
To see what is invisible is to be awakened.
To remain gentle is to be strong.
Apply illumination and return to awakening.
Then one is free from disaster.
This is called living in accordance with reality.

[37t53c] **Chang Chung-yuan**
If I had even a slight awareness,
And practiced the great Way,
What I would fear would be deviating from it.
The great Way is a very level road,
But men like to take circuitous paths.
Thus, the palaces are extremely elegant,
But the people's farms are extremely desolate,
And there is no grain reserved in the storehouses.
The rulers wear expensive garments,
Carry fine swords,
Satiate themselves with food and drink,
And possess inordinate riches and precious things.
This is the greatest robbery,
And is indeed against the great Way.

[37t54c] **Chang Chung-yuan**
Nothing can be taken away if it is well-founded.
Nothing can be lost if it is well-grasped.
For generations to come, the worship will not be discontinued.
To cultivate (Tao) in one's self makes attainment real.
To cultivate (Tao) in one's family makes attainment a surplus.

To cultivate (Tao) in one's community makes attainment long-lasting.
To cultivate (Tao) in one's nation makes attainment abundant.
To cultivate (Tao) in one's world makes attainment all-embracing.
Thus, through the self, one contemplates the self.
Through the family, one contemplates the family.
Through the community, one contemplates the community.
Through the nation, one contemplates the nation.
Through the world, one contemplates the world.
How do I know the world as world?
It is through this.

[37t55c] **Chang Chung-yuan**
When man is enriched with Tê,
He may be identified with an innocent child.
He is free from the stings of insects,
Free from the claws of wild beasts,
Free from the attacks of devouring birds.
None of his bones or muscles are said to be strong,
But the grip of his hand is always firm.
Nothing concerning the union of male and female is yet known,
But potentiality is evident.
The essence of his life is perfect.
He can cry all the time without losing his voice.
His inner harmony is supreme.
To be aware of inner harmony is to abide with reality.
To abide with reality is to be enlightened.
However, to push life to the full leads to evil.
The mind forcing one's potential is artificial.
When things are artificial, they lead to decay.
This deviates from Tao.
That which deviates from Tao ends life soon.

[37t56c] **Chang Chung-yuan**
One who is aware does not talk.
One who talks is not aware.
Ceasing verbal expressions,
Stopping the entry of sensations,
Dulling its sharpness,
Releasing its entanglements,
Tempering its brightness,
And unifying with the earth:
This is called the identity of Tao.
Hence, no nearness can reach him nor distance affect him.
No gain can touch him nor loss disturb him.
No esteem can move him nor shame distress him.
Thus, he is the most valuable man in the world.

[37t57c] **Chang Chung-yuan**
Guide the country through tranquillity.
Engage in war with rare operations.
Win over the world through non-action.
How am I aware that this ought to be so?
Because of this, the more restrictions and limitations there are,
The more impoverished men will be.
The more arms men possess,
The more disordered the country will be.
The more scheming and deceitful men are,
The more strange things will occur.
The more rules and precepts are enforced,
The more bandits and crooks will be produced.
Hence, we have the words of the wise:
Through my non-action,
Men are spontaneously transformed.
Through my quiescence,
Men spontaneously become tranquil.
Through my non-interfering,
Men spontaneously increase their wealth.
Through my non-willing,
Men spontaneously return to original simplicity.

[37t58c] **Chang Chung-yuan**
When the country is governed through simplicity and leniency,
The people are genuine and honest.
When the country is governed through harshness and sharp investigation,
The people are more deceitful and dishonest.
From misfortune, good fortune is derived.
In good fortune, misfortune is conceived.
Who can determine the ultimate truth?
Or is there no ultimate truth at all?
As truth often turns out to be untruth,
Goodness often turns out to be evil.
This has long confused the people.
Thus, when the wise deals with things he is firm in his principles,
Yet not sharp.
He is pure, yet not harmful.
He is straightforward, yet not violent.
He is illuminated, yet not glittery.

[37t59c] **Chang Chung-yuan**
In guiding people and working according to nature,
It is best to follow renunciation.
Following renunciation means returning soon.

Returning soon means accumulating attainment.
Accumulating attainment, everything can be dealt with.
Dealing with everything leads to limitlessness.
With limitlessness, one can govern the country.
Governing the country through its origin leads to endurance.
This means that to root deeply and to plant firmly leads to longevity and eternal consciousness.
Therefore, governing a large nation is as simple as preparing a dish of food.

[37t60c] **Chang Chung-yuan**
When Tao prevails in the world, evil loses its power.
It is not that evil no longer possesses spiritual power.
It is that its power does not damage men.
Indeed, it is not that its power does not damage men.
It is primarily that the ruler does not become harmful to men.
When opposites no longer damage each other,
Both are benefitted through the attainment of Tao.

[37t61c] **Chang Chung-yuan**
A greater nation must be humble and like a reservoir
Where all the waters join together.
It is the passivity of the universe.
Passivity always prevails over activity through quiescence.
Quiescence is humble before activity.
When a greater nation is humble before a lesser nation,
It prevails over the lesser nation.
When a lesser nation is humble before a greater nation,
It prevails over the greater nation.
Thus, by being humble one prevails over others.
Or, by being originally in a lower position,
One prevails over others.
A greater nation simply likes to bring people together
And to nurture them.
A lesser nation simply likes to participate
And work together with others.
In this way, both have what they like,
But the greater nation must be humble.

[37t62c] **Chang Chung-yuan**
Tao is concealed in the depths of all things.
The worthy value it.
The unworthy are protected by it.
Good words may be traded for honor.
Good works may impress men.

Jade and horses are all decorated,
None of these is a better offer to the nation than Tao.
Tao has been highly esteemed since the remote past.
Why?
Because not searching for it, one obtains it.
Even if one has faults, one is free from them.
Thus, the Tao is the most highly esteemed thing in the universe.

[37t63c] **Chang Chung-yuan**
Action or non-action, work or non-work, knowledge or non-knowledge,
Large or small, more or less:
It is just like returning hatred with love,
Contemplating the difficult with the easy,
Working on the great through the small.
Because the hard tasks in the world must be preceded by what is easy,
Great affairs in the world must begin with what is minute.
Hence, the wise never works on what is great;
He achieves what is great.
The easier it is to promise a thing,
The less one can fulfill.
The more lightly things are taken,
The more difficulties occur.
Therefore, the wise takes things as difficult;
He is always free from the difficult.

[37t64c] **Chang Chung-yuan**
That which is motionless is easy to maintain.
That which is prior to emergence is easy to deal with.
That which is just beginning is easy to destroy.
That which is minute is easy to disperse.
Act on what is before it occurs.
Manage things before they are in disorder.
Big trees grow out of small shoots.
A nine story tower begins to be built from one little lump.
A journey of a thousand miles begins from where one stays.
Those who proceed through action fail.
Those who grasp on to a thing lose it.
Therefore, the wise does not act on things and is free from failure.
He does not grasp on to things, and does not lose them.
People who are engaged with things often fail when they almost complete them.
Therefore, one should be as careful in the last stage of one's work as at the beginning.
Then one will be free from failure.
Hence, for the wise, willing is non-willing.
He never values things which are hard to attain.
He learns what is unlearned.
He avoids the mistakes that have been made by others.

He is in accordance with the nature of ten thousand things, yet he never interferes with them.

[37t65c] **Chang Chung-yuan**
In the remote past, the man who was good in Tao did not lead his people to calculative thinking,
But let them remain ignorant of it.
The difficulty in cultivating men is that they are full of intellectual discrimination.
Governing the nation through intellectual discrimination is harmful to it.
Not governing the nation through intellectual discrimination is a blessing to it.
Knowing the difference between these two sets a standard.
To be aware of this standard is profound attainment.
Profound attainment is deep and far-reaching.
It is the reversal of ordinary things, yet it leads to great harmony with Tao.

[37t66c] **Chang Chung-yuan**
Rivers and seas become the leading powers over all the waters from the highlands
Because they place themselves in low positions before the other waters.
That is why rivers and seas become the leading powers over all the waters from the highlands.
Thus, when the ruler wishes to become the leader of his people,
He first humbles himself before them.
When he wishes to be in front of his people,
He first remains in back of them.
When he is in a high position, people do not feel his authority.
When he is in front of his people, they do not feel any obstruction.
Therefore, all the people want to support him, and no one dislikes him.
It is because he never contends with others that others are unable to quarrel with him.

[37t67c] **Chang Chung-yuan**
The world says that I am beyond determination
And cannot be identified with anything.
It is because I am beyond determination that I cannot be identified with anything.
If I could be identified with anything,
I would no longer be beyond determination.
There are three essentials that I value and maintain:
One is compassion (tz'u),
Another is renunciation (ch'ien),
The third is never longing to be first in the world.
One who is compassionate is able to be valiant.
One who renounces is able to broaden one's self.
One who never longs to be first in the world
Is able to achieve the full growth of his capacity.
In the present day, people wish to be valiant,
But they are not compassionate.
They wish to broaden their selves,
But they do not renounce.
They wish to achieve the full growth of their capacities,
But they long to be first in the world.

This indeed leads to death.
Through compassion, engaging in war, one wins.
In self-defense, one is very well protected.
This type of person is saved by heaven.
Because he is compassionate, he is taken care of well.

[37t68c] **Chang Chung-yuan**
A good soldier is free from violence.
A good fighter is free from rage.
A good winner is free from competition.
A good leader is humble before the people.
This is called the attainment of non-contention,
Or the application of the strength of others.
It is also called identity with the ultimate
Beyond space and time.

[37t69c] **Chang Chung-yuan**
On military operations we have:
"I do not boldly attack others first,
But take action only after being attacked."
"I do not boldly move forward even an inch,
But withdraw a foot."
This is called the operation of non-operation,
Bearing the arms of non-arms,
Charging the enemy of non-enemy,
Carrying the weapons of non-weapons.
There is no more serious misfortune
Than to engage in war lightly.
To engage in war lightly is to violate my essential teachings of compassion, renunciation, and never longing to be first in the world.
Therefore, when two armies join in battle,
The one that is compassionate wins.

[37t70c] **Chang Chung-yuan**
It is not difficult to grasp my words or to follow them.
Yet no one in the world can grasp them or follow them.
Because words must derive from the source of words,
Action requires an actor who acts.
Since you are not aware of this, you cannot know me.
The less people know me, the more valuable I am.
Thus, the wise is covered with tattered clothes which conceal precious jade.

[37t71c] **Chang Chung-yuan**

The wise is free from defects.
He is aware of defects as defects.
Therefore, he is free from defects.

[37t72c] **Chang Chung-yuan**
When people are free from fear,
They experience "basic dread."
Because they are not limited by the places in which they stay,
They are at peace with their lives.
Because they are at peace with their lives,
Their lives are peaceful.
Therefore, the wise is aware of himself,
But does not display himself.
He cultivates himself,
But is not proud of himself.
He leaves behind small fear,
But experiences basic dread.

[37t73c] **Chang Chung-yuan**
Courageous but foolhardy, one perishes.
Courageous but not foolhardy, one's life is saved.
Between these two, one gains, the other loses.
Who knows what nature loathes?
Even the sage can hardly make a wise choice.
According to the way of heaven,
Without contending, one inevitably wins.
Without asking, one spontaneously receives a response.
Without invitation, success comes by itself.
Unintentionally, the heavenly way is well-devised.
The net of nature is all-embracing.
Although the spaces are large, nothing escapes it.

[37t74c] **Chang Chung-yuan**
Men are no longer afraid to die.
Why should we frighten them with dying?
If men were still as afraid of death as they used to be,
We could catch a criminal and put him to death.
Who would have the courage to commit a crime?
(In nature), there is always one who is responsible for ending the life of man.
If we take over the responsibility of killing,
It is just like taking over the great lumberjack's work of cutting wood.
If we take over the great lumberjack's work of cutting,
We can hardly help but hurt our hands.

It is because their kings tax them too heavily.
Therefore, they are deprived of food.
When men are hard to govern,
It is because their kings interfere with their lives.
Therefore, they are hard to govern.
When men give up their lives lightly,
It is because their kings are anxious to live extravagantly.
Therefore, men give up their lives lightly.
Only one who disregards his own life
Knows how to value the lives of others.

[37t76c] **Chang Chung-yuan**
When a man is alive,
His body is soft and frail.
After his death,
It is hard and solid.
When grass and trees are growing,
They are delicate and fragile.
After their deaths,
They are wizened and decayed.
Therefore, what is hard is close to death.
What is soft is close to life.
Thus, when troops are inflexible, they lose the war.
When a wood board is dried hard, it cracks.
What is strongest and most solid remains low.
What is softest and meekest remains high.

[37t77c] **Chang Chung-yuan**
The course of nature is similar to the curve of a bow:
That which is at the top is pulled down;
That which is at the bottom is brought up.
That which is overfull is reduced;
That which is deficient is supplemented.
The course of nature is to reduce what is overfull
And to supplement what is deficient.
The course of man is to reduce what is deficient
And to supplement what is overfull.
Who can supplement the overfull for the people of the world?
Only the man of Tao can do it.
Therefore, with the wise, work is done and no one depends on it.
Achievements are made, but no one claims credit.
Is he not free from wishing to show off his superiority?

[37t78c] **Chang Chung-yuan**

This is the truth and cannot be changed.
"The meek suppresses the solid, the soft suppresses the strong."
All the people in the world know this,
Yet they cannot apply it to their lives.
Therefore, the wise says:
"Those who can accept the blame for the entire nation
Will be the leaders of the nation.
Those who can endure the evil omens of the world
Will be the kings of the world."
Right expression is similar to its reversal.

[37t79c] **Chang Chung-yuan**
When a serious resentment is reconciled,
Some resentment certainly remains.
Thus, reconciliation cannot be considered the best way.
Although the wise holds to the contract prepared by the debtor,
He never forces the debtor to fulfill his responsibility.
Therefore, the man of Tê holds only to the contract,
While the man without Tê presses for taxes.
The way of nature is free from intimacy.
Yet it constantly stays with the good man.

[37t80c] **Chang Chung-yuan**
There is a kingdom which is small and sparsely populated.
There are numerous implements, but no one uses them.
The people love their lives and no one wants to move afar.
Boats and carriages are available, but no one rides them.
Fine weapons are in their possession, but no one uses them.
The people are back in the times when knotted cords were used to record things.
They enjoy fine delicacies and are handsome in their dress.
They are happy with their residences and are pleased with their traditions.
Although the next state is within sight, and the sounds of cocks crowing and dogs barking are heard,
The people live their whole lives without traveling to and fro.

[37t81c] **Chang Chung-yuan**
When words express truth, they are not refined.
When words are refined, they do not express truth.
One who is proficient does not depend on verbal disputation.
One who depends on verbal disputation is not proficient.
One who knows is not encyclopedic.
One who is encyclopedic does not know.
The wise does not accumulate.
The more he works for other people, the more he gains.
The more he shares with other people, the more he receives.
The Tao followed by heaven is to do good and not to harm.
The Tao followed by the wise is to work and not to claim credit.

Realization of Tao
T'i Tao
The Tao that can be stated is not the Eternal Tao.
The name that can be named is not the Eternal Name.
The Unnameable is originator of Heaven and Earth.
The Nameable is mother of the ten thousand things.
Therefore,
Always be desireless, so as to discern Tao's wonderful essence;
Always have some desire, so as to discern its manifestations.
These two come out from the same source,
But are different in name.
Their identical nature is a mystery.
Mystery of mysteries -
That is the gate of all wonderful essence.

Self-Culture
Yang Shen
When all the world knows beauty as beauty,
Then ugliness comes into being;
When all the world knows goodness as goodness,
Then evil comes into being.
Therefore,
Being and Non-Being condition each other;
Difficult and Easy give rise to each other;
Long and Short set off each other;
High and Low contrast each other;
Tone and Voice harmonize each other;
Front and Rear succeed each other.
Thus the Sage handles affairs non-assertively,
And imparts his teaching without words.
The ten thousand things grow apace,
But he does not let them down.
He produces but does not claim ownership;
He acts but does not presume on the result;
He achieves success but does not take the credit.
For the very reason that he takes no credit,
Credit does not separate from him.

So that the people will not become thieves.
Keep what is desirable out of sight,
So that their heart will not get excited.
Therefore, in ruling the people the Sage
Empties their hearts,
Fills their bellies,
Weakens their aspirations,
Strengthens their bones.
He always makes them guileless and desireless,
And makes the guileful ones afraid to interfere.
Practice non-interference,
And there will never be any misrule.

Source Non-Existent
Wu Yuan
Tao is hollow, yet its utility
Seems unlikely to reach the limit.
Profound indeed it is;
It seems to be the fount of all things.
It blunts the sharp;
It unravels the tangled;
It harmonizes with the light;
It mingles with the dust.
Calm like a deep pool it seems to remain.
I do not know whose son it is.
It apparently antecedes the Creator.

The Utility of Hollowness
Hsu Yung
Heaven and Earth are not kindly;
They equate the ten thousand things with straw dogs.
The Sage is not kindly;
He equates the people with straw dogs.
The space between Heaven and Earth,
Is it not like a bellows?
It is hollow, yet it never fails to supply.
The more it is worked, the more it gives forth.
Much talk often leads to exhaustion.
Better concentrate on the center.

Hence comes the name Mysterious Female.
The gateway of the Mysterious Female
Is the root of Heaven and Earth.
Continuous like a thread it seems to exist;
Its utility is inexhaustible.

Dimming the Light
T'ao Kuang
Heaven is eternal, Earth is durable.
The reason why they are eternal and durable
Is that they do not exist for themselves.
This is why they can long endure.
Therefore, the Sage putting himself behind,
Finds himself in front;
And placing himself beyond his concern,
Finds himself well preserved.
Is this not because he is unselfish?
For the very reason that he is unselfish,
He is able to find Self-fulfilment.

Yielding Nature
I Hsing
A man of the superior type resembles water,
Whose goodness lies in benefiting all things without contention,
And staying in places detested by the masses.
This makes him closely akin to Tao.
The goodness of his abode is its low location.
The goodness of his heart is its cavern-like hollowness.
Benevolence is the goodness of his offerings.
Sincerity is the goodness of his speech.
The goodness of his rule means peace.
The goodness of his dealings means competence.
His moves are good because timely.
As he is not disposed to contend,
He causes little resentment.

Can hardly be safeguarded.

It Can Be Done
Neng Wei
In harmonizing your hun and p'o to embrace the One,
Can you concentrate without deviating?
In attuning your breath to induce tenderness,
Can you become like a new-born babe?
In cleansing and purifying your Mystic Mirror,
Can you make it free from all stain?
In loving the people and ruling the state,
Can you practice non-interference?
When the Heavenly Gate opens and closes,
Can you play the part of the Female?
When your light shines forth in all directions,
Can you ignore it with perfect equanimity?
To produce things and nourish them,
To produce but not to claim ownership,
To act but not to presume on the result,
To lead but not to manipulate, -
This is called Mystic Virtue.

Utility of Non-Being
Wu Yung
Thirty spokes converge on the nave of a wheel:
It is where there is non-being (hollow space)
That the usefulness of the wheel lies.
Clay is molded into a vessel:
It is where there is non-being
That the usefulness of the vessel lies.
Doors and windows are hewn out to make a room:
It is where there is non-being
That the usefulness of the room lies.
Therefore, while being is valuable,
It is non-being that is useful.

The five tones deafen man's ears;
The five flavors vitiate man's taste;
Racing and hunting make man's heart go wild;
Hard-to-get articles impede man's movement.
Thus the Sage cares for the belly, not the eye.
Indeed, he rejects this and adopts that.

Abhorrence of shame
Yen Ch'ih
Favor and disgrace both seem startling.
Honor is great trouble if identified with the self.
What does it mean by saying
That favor and disgrace both seem startling?
Favor descends from superior to inferior.
The recipient seems startled upon getting it;
He seems no less startled upon losing it.
This is what it means by saying
That favor and disgrace both seem startling.
What does it mean by saying
That honor is great trouble if identified with the self?
The reason why I have great trouble
Is that I have a self;
If I am selfless and unselfish,
What trouble do I have?
Therefore, he who feels honored
In offering himself for the world,
Can be assigned the rule of the world;
He who loves to offer himself for the world,
Can be trusted with the world.

What is elusive when grabbed at is called wei.
These three are not amenable to investigation;
Therefore, they mingle as One.
On rising, the One does not become bright;
On falling, it does not become dark.
Unnameable it goes on and on,
And again reverts to Non-Being.

This is called winking-waning, as in a dream.

On greeting it, one cannot see its front;
On following it, one cannot see its back.
Taking hold of the Tao of antiquity

Virtue Revealed
Hsien Teh
The good scholars of ancient times
Were keen, astute, mysterious, and intuitive.
They were so profound as to be incomprehensible.
Since they show themselves incomprehensible,
They must be depicted in some arbitrary way:
They were cautious as if fording a stream in winter,
Hesitant as if afraid of the neighbors around,
Dignified as if in the role of a guest;
They were easy-going, like ice about to melt,
Unpretentious, like wood in its virgin state,
Open-minded, like a valley,
And murky, like turbid water.
Who, being like turbid water, can remain calm,
So that quiescence will gradually lead to clarity?
Who can stay relaxed for a long while,
So that an impulse will gradually lead to Life?
He who conserves this Tao does not go to the limit.
For the reason that he does not go to the limit,
He can wear well and does not need renewal.

[38t16c] **Henry Wei**
Return to the Root
Kuei Ken
Empty the mind to the utmost extent.
Maintain quiescence with the whole being.
The ten thousand things are growing with one impulse,
Yet I can discern their cyclic return.
Luxuriant indeed are the growing things;
Yet each again will return to the root.
Returning to the root means quiescence;
Quiescence means renewal of life;
Renewal of life means in tune with the Immutable.
Knowing the Immutable brings enlightenment.
Not knowing the Immutable causes disaster.
Knowing the Immutable, one will be broad-minded;
Being broad-minded, one will be impartial;

Being impartial, one will be kingly;
Being kingly, one will attain the Divine;
Attaining the Divine, one will merge with Tao,

The Atmosphere of Simplicity
Ch'un Feng
The best rulers are not known to the people;
Then come those who are loved and praised;
Then those who are held in awe;
And lastly those who are despised.
When one's faith is inadequate,
It will not evoke faith from other people.
(Wise rulers) are wary and treasure their words.
When their task is accomplished and their work done,
All the people would say:
"We did it of our free will."

[38t18c] **Henry Wei**
Social Decadence
Su Po
The Great Tao having been abandoned,
There arise benevolence and righteousness.
With the emergence of wit and wisdom,
There comes into being monstrous hypocrisy.
When the six relatives fail to live in harmony,
There arise filial piety and parental love.
When the state falls into darkness and disorder,
There come into existence loyal ministers.

[38t19c] **Henry Wei**
Return to Innocence
Huan Ch'un
Forswear wisdom, discard knowledge,
And the people will gain a hundredfold.
Forswear benevolence, discard righteousness,
And the people will recover filial and parental love.
Forswear skill, discard profit,
And thieves and robbers will not appear.
These three steps are inadequate for culture.
They, therefore, have to encompass some others,
Such as:
Display plainness, embrace simplicity,
Reduce selfishness, and decrease desires.

Different from the Madding Crowd
I Su
Forswear learning, and vexation will vanish.
Between an abrupt "Yes" and a gentle "Yea,"
How much is the difference?
Between the good and the bad,
How much is the difference?
What others fear, one should also fear -
What a silly notion!
Whither will it lead?
Merrily, merrily, the multitude is rejoicing,
As if feasting after the Great Sacrifice,
As if mounting the Terrace of Love.
I alone remain indifferent and show no emotion,
Like an infant as yet unable to smile.
Wandering aimlessly,
I look like a homeless tramp.
The multitude all have enough and to spare;
I alone seem to be left on the wayside.
Oh, my mind is indeed like that of an idiot!
So dull, so dull I feel.
The worldlings are bright and cheerful;
I alone feel gloomy and dismal.
The worldlings are smart and self-confident;
I alone feel disgusted and depressed.
Restless like the sea,
I drift along as if never able to settle down.
The multitude all have some worthy employment;
I alone am stubborn and worthless.
I alone differ from other people,
And love to draw nourishment from the Mother.

Hsu Hsin
The inherent quality of Grand Virtue (Teh)
Always conforms only to Tao.
Tao is something dreamily winking and waning.
Waning, winking, it embodies forms;
Winking, waning, it embodies things.
It may seem receding afar and darkening,
Yet within it there is an essence.
This essence is very real.
Inside is something invariably vital.

Strength to the Humble
I Ch'ien
To be crooked is to become perfect;
To be bent is to become straight;
To be hollow is to become full;
To be worn out is to be renewed;
To have little is to receive more;
To have plenty is to be perplexed.
Therefore, the Sage embraces the One,
And serves as model for the world.
As he does not like to show off, he is enlightened;
As he is not prone to be self-righteous, he is distinguished;
As he does not blow his own horn, he acquires merit;
As he does not extol himself, he is fit to be a leader.
And it is precisely because he does not contend,
That no one under heaven can contend with him.
The ancient saying "To be crooked is to become perfect"
Surely is not an empty remark.
The world goes to him who is truly perfect.

Emptiness and Non-Being

Nature is brief in its speech.
Thus a tempest does not last a whole morning,
Nor does a rainstorm last a whole day.
What is it that causes the wind and rain?
It is Heaven and Earth.
Even Heaven and Earth cannot be long in their outbursts.
How much the less can man in his!
Therefore, in the pursuit of Tao,
Those tending toward Tao will identify with Tao;
Those tending toward virtue will identify with virtue;
Those tending toward failure will identify with failure.
To those identified with Tao,
Tao will gladly extend welcome;
To those identified with virtue,

Bitter Favors
K'u En
He who stands on tip-toe will totter;
He who takes long strides is a poor walker.
He who likes to show off is not enlightened;
He who is prone to be self-righteous is not distinguished;
He who blows his own horn will acquire no merit;
He who extols himself is not fit to be a leader.
From the standpoint of Tao, it can be said:
"Eating excessive food or to walk with a burden
May be disgusting to creatures."
People possessed of Tao, therefore, reject them.

Symbol of the Great Origin
Hsiang Yuan
There is something formless and perfect,
Ever-existing, even before birth of Heaven and Earth.
How still it is!
How quiet!
Abiding alone and unchanging,
It pervades everywhere without fail.
Well may it be the mother of the world.
I do not know its name,
But label it Tao,
And arbitrarily name it Great.
Great means going incessantly;
Going incessantly means reaching far;
Reaching far means completing the cycle.
Therefore,
Tao is Great;
Heaven is Great;
Earth is Great;
Kingliness is Great.
In the cosmos there are four Greats,
And Kingliness constitutes one of them.
Man patterns after Earth;
Earth patterns after Heaven;
Heaven patterns after Tao;
Tao patterns after Innate Freedom.

Gravity as a Virtue
Chung Teh
Heaviness is the root of lightness;
Quiescence is the master of hastiness.
Thus the Sage traveling all day
Will not stay away from his loaded cart.
Though glorious prospects are in view,
He remains serene in a transcendental atmosphere.
For what reason should it be
That a weighty person like the lord of ten thousand chariots
Would consider himself lighter than worldly vanities?
In making light of himself, he loses his ministers;
In being hasty, he loses his kingly command.

[38t27c] **Henry Wei**
Skillful Application
Ch'iao Yung
A good walker leaves no traces behind;
A good speaker leaves no blemishes for criticism;
A good counter does not use counting chips;
A good lock has no bolt, yet cannot be opened;
A good knot has no string, yet cannot be untied.
Thus the Sage (in his silent and subtle way)
Is always good in saving people,
Thereby leaving no people unsaved;
And always good in saving things,
Thereby leaving nothing unsaved.
This is called "Passing the light."
Hence the good man is the teacher of the bad,
And the bad is object lesson for the good.
He who does not honor his teacher,
Nor loves any object lesson,
Is lost in a great maze, clever though he may be.
Such is called Significant Subtlety.

And yet holds on to the black (Yin),
Becomes a model for the world.
Being a model for the world,
His Eternal Virtue becomes unerring,
And he returns to the Infinite.
He, who is aware of glory
And yet holds on to ignominy,
Becomes the valley of the world.
Being the valley of the world,
His Eternal Virtue becomes sufficient,
And he returns to the state of virgin wood (simplicity).
The virgin wood, on being cut up, is used as implements.
Sages, who make use of the implements,
Become high officials and leaders.
The Supreme Ruler uses the wood without cutting it.

[38t29c] **Henry Wei**
Non-Action
Wu Wei
One might wish to get hold of the world,
And wilfully interfere with it.
In my view, this is bound to fail.
The world is a Divine Vessel.
It cannot be interfered with.
He who interferes with it spoils it;
He who grasps it loses it.
For among the creatures of the world,
Some are leaders, some are followers;
Some tend to condone, some to condemn;
Some are strong, some are weak;
Some are forward-looking, some are downcast.
The Sage, therefore, eschews the excessive,
Eschews the extravagant, and eschews the extreme.

Moderate Use of Force
Chien Wu
He who uses Tao to assist the ruler of a people
Will not employ armed force to dominate the world.
For such a scheme is apt to boomerang.

After a great war, famine inevitably happens.
Therefore,
A good-natured man attains his objective and stops;
He dares not grab by violence.

He wants to attain his objective,
But does not extol it,
Nor brag about it, nor take pride in it.
He attains his objective as if it could not be helped,
And does not use it to practice violence.
For things, after their prime, will begin to decay.
Decay indicates disregard of Tao.
Whatever disregards Tao soon vanishes.

Banning the Use of Force
Yen Wu
Fine weapons are inauspicious instruments.
They are probably detested by the people.
Therefore, he who is possessed of Tao rejects them.
The superior man honors the left in time of peace;
In time of war he honors the right.
Weapons are inauspicious instruments;
They are not instruments for the superior man.
He uses them only under dire necessity,
And in this case priority is given to moderation.
He does not consider victory a fine thing.
Those who consider victory a fine thing
Are those who delight in slaughtering people.
Those who delight in slaughtering people
Can never gratify their ambition to win the world.
Therefore, the left is favored for felicitous occasions;
For mournful occasions, the right is favored.
The second-in-command stands on the left,
While the commander-in-chief stands on the right;
For according to funeral rites are they treated.
Mass slaughter is to be bewailed with grief and sorrow.
Victory is to be mourned with funeral rites.

Natural Perfection
Ren Ch'eng
The Great Tao is all pervasive;
It could be on your right or on your left.
The ten thousand things depend on it for growth,
And it never lets them down.
It achieves success but is not possessive.
It enfolds and nourishes the ten thousand things,
Yet it does not claim ownership.
Always desireless and covetous of nothing,
It could be termed small.
But as the ten thousand things return to it,
And it does not care to be their lord,
It could be termed great.
Thus the Sage never in life tries to be great,
And for this very reason becomes truly great.

Discourse on Virtue
Lun Teh
Superior virtue is not virtue-conscious,
Therefore it has virtue.
Inferior virtue never forgets virtue,
Therefore it has no virtue.
Superior virtue does not interfere,
And has no motive to interfere.
Inferior virtue interferes,
And has a motive to interfere.

Superior benevolence interferes without motive;
Superior righteousness interferes from motive;
Superior propriety interferes,
And failing to evoke any response,
Lifts its arm and resorts to violence.
Therefore,
After the loss of Tao, virtue appears;
After the loss of virtue, benevolence appears;
After the loss of benevolence, righteousness appears;
After the loss of righteousness, propriety appears.
Propriety is a mere veneer of loyalty and sincerity,
And constitutes the prime cause of confusion.
Traditional knowledge is the flower (outward show) of Tao,
And has become the origin of folly.
Therefore, men of the heroic type abide by depth,
And stay away from shallowness;
Abide by the fruit and stay away from the flower.
Forsooth, they reject this and adopt that.

Foundation of the Law
Fa Pen
Since antiquity, these have possessed the One -
Heaven in possession of the One has become clear;
Earth in possession of the One has become steady;
Spirits in possession of the One have become divine;
Valleys in possession of the One have become full;
Creatures in possession of the One have become alive;
Kings and nobles in possession of the One have become exemplary.
All the above became what they are in the same way.
Heaven without the One to make it clear
Is apt to crack;
Earth without the One to make it steady
Is apt to quake;
Spirits without the One to make them divine
Are apt to cease operation;
Valleys without the One to make them full
Are apt to become dry;
Creatures without the One to make them alive
Are apt to become extinct;
Kings and nobles without the One to make them exemplary
Are apt to lose their prestige and eminence.
Forsooth, the honorable is rooted in the humble,
And the high is founded on the low.
So kings and nobles call themselves orphaned, lonely, and unworthy.
Does not this indicate that the honorable is rooted in the humble?

Movement and Function

Cyclic reversion is Tao's movement.
Weakness is Tao's function.
All things in the universe are derived from Being.
Being is derived from Non-Being.

Similarity and Difference
T'ung I
The first-rate scholar, on hearing Tao,
Is diligent in practicing it;
The second-rate scholar, on hearing Tao,
Wavers between faith and forgetfulness;
The third-rate scholar, on hearing Tao,
Bursts into loud laughter.
If not laughed at, it would not be Tao!
Hence the following proverbs -
He who understands Tao seems confounded by it.
He who advances toward Tao seems retreating from it.
He who follows plain Tao seems treading on rugged ground.
Superior virtue appears to be hollow.
Perfect purity appears to be tainted.
Vast virtue appears to be inadequate.
Solid virtue appears to be infirm.
Genuine substance appears to be spurious.
Vast space is devoid of corners.
Great talent is late in maturing.
A high note can hardly be heard.
The Great Form has no sign.
Tao is hidden and has no name;
Yet only Tao excels in contributing to achievement.

The ten thousand things carry Yin and embrace Yang.
The two primordial breaths blend and produce harmony.
To be orphaned or lonely or unworthy
Is what all people detest;
Yet kings and nobles apply those terms to themselves.
Indeed, things sometimes benefit by an intended injury,
And sometimes receive injury from an intended benefit.
What others teach, I shall also teach:
"The strong and violent will die an unnatural death."
This will serve as my chief lesson.

When the world is out of keeping with Tao,

Importance of Life
Kuei Sheng
As life emerges, death enters.
The agents of life are thirteen;
The agents of death are likewise thirteen;
The thirteen also may make men move in a death spot.
Why so?
Because life is lived in too intense a manner.
I have heard that -
He, who is adept in guarding his life,
Will not come across rhinoceros and tigers,
When travelling on land;
And when in the armed forces,
Will not get wounded by deadly weapons.
In him the rhinoceros can find no place to butt,
Nor can the tiger find any place to claw,
Nor can the weapons find any place to injure.
Why so?
Because there is no death spot in him.

To know harmony is to accord with the Immutable;
To accord with the Immutable means enlightenment.
Improvement in health is a good omen;

Mystic Virtue
Hsuan Teh
Those who know do not speak;
Those who speak do not know.
Stop up the aperture of the vessel,
Shut the doors of the senses,
Blunt the sharp,
Unravel the tangled,
Harmonize with the light,
Merge with the dust, -

Use justice to rule a country;

When the world abounds in prohibitions,
The people will become impoverished.
When men have plenty of weapons in hand,
The state will be in great confusion.
When men have plenty of techniques and skills,

I love to be quiescent,

Transformation Without Friction
Shun Hua
When the government is shrouded in gloom,
The people will be simple and honest.
When the government is sharp and officious,
The people will get disgusted and discontented.
Misfortune is what fortune leans on;
Fortune is where misfortune conceals itself.
Who can know the ultimate result?
Is there no justice?
Anyway, justice will become injustice again,
And good will turn into evil once more.
Mankind has been thus deluded for a long time.
That's why the Sage acts four-square,
But does not "cut" people to his own shape;
He has a high sense of integrity,
But is not offensive to people;
He is upright and straightforward,
But does not push people around;
He is bright and brilliant,
But does not outshine people.

Adherence to Tao
Shou Tao
In ruling men and serving Heaven,
Nothing is comparable to a prudent economy.
A prudent economy means early preparation;
Early preparation means further accumulation of virtue;
Further accumulation of virtue can subdue everything;
The ability to subdue everything knows no bounds;
Knowing no bounds (in subduing opposition)
Can lead to the possession of a kingdom;
Possession of a kingdom along with its Mother
Can endure a long time.
This is called "deep roots and strong stalks."
It is the way to eternal life and everlasting vision.

Maintaining One's Position
Chu Wei
Ruling a big country is like frying a little fish.
When Tao is made to prevail in the world,
Evil spirits will lose their supernal power.
Not that they lose their supernal power,
But rather that the supernal power does no harm to people.
Not only the supernal power does no harm to people,
The Sage (Ruler) also will do no harm.
As both do not mutually cause any harm,
Virtue reverts to all parties respectively.

Virtue of Humility
Ch'ien Teh
A great country should assume a low position.
Being the hub of the world,
It should play the part of the Female.
The Female always employs quiescence
To subdue the Male, and takes a low position.
Therefore, a big country, stooping low,
Will win over a small country;
And a small country, staying low,
Will win over a big country.
Therefore, some stoop low to conquer,
And some stay low to conquer.
What a big country wants is merely
To absorb and support more people;
What a small country wants is merely
To enter a big country to offer services.
For each of the two to get what it wants,
The big country, therefore, should be lowly.

Respectfully presented before the team of horses,
There is nevertheless nothing better for them
Than to sit (in meditation) and advance in Tao.
For what reason did the ancients prize this Tao?
Did they not say:
"With Tao one finds what one seeks,
And can get pardoned for one's offenses"?
Hence Tao is highly prized by the world.

Origin of Favors
En Shih
Practice non-interference.
Assert non-assertion.
Taste the tasteless.
Regard small as great, little as much.
Requite evil with virtue.
Tackle difficult tasks while they are easy;
Perform great tasks while they are small.
Difficult tasks must be begun when yet easy;
Great tasks must be begun when yet small.
That's why the Sage, to the end of his days,
Does not have to tackle great tasks,
And for this very reason achieves greatness.
Promises lightly made show little good faith;
Duties neglected are bound to become difficult.
That's why the Sage assumes things to be difficult,
And never in life incurs any difficulty.

He who grasps will lose.

Therefore, the Sage does not interfere,
And incurs no failure;
He does not grasp,
And suffers no loss.
People in handling their affairs
Often fail when within an ace of fulfilment.
Be circumspect at the end as at the beginning,
And there will be no failure.
Therefore the Sage desires what is not desired (by others),
And does not treasure hard-to-get objects.
He learns what is not learned (by others),
And restores what the multitude has skipped.
He assists the natural trend of all things,
But dares not venture to tamper with it.

Virtue of Innocence
Ch'un Teh
The ancients who were adept in following Tao
Used it not to develop the people's intelligence,
But to keep the people simple-minded.
People are difficult to rule,
Because they have too much knowledge.
Therefore, to use knowledge to rule a country
Inflicts a curse on the country;
Not to use knowledge to rule a country
Confers a boon on the country.
He who is aware of these two rules
Also sets a standard pattern (as the ancients did).
Awareness of the standard pattern is called Mystic Virtue.
As Mystic Virtue goes deep and reaches far,
And leads creatures to revert to their origin,
Then Great Concord will prevail.

Three Treasures
San Pao
All the world says I am great
But rather odd and different from the ordinary.
Be it noted that greatness itself is the very reason
Why it appears rather odd and different from the ordinary.
If it had resembled the ordinary,
It would have become pettiness long ago.
I have three treasures.
Keep them and treasure them.
The first is compassion;
The second is frugality;
The third is:
Dare not be first in the world.
Because compassionate, a person can be courageous;
Because frugal, he can expand his scope;
Because he dare not be first in the world, he can develop his gifts of leadership.
Nowadays people are courageous without compassion,
Expand their scope without frugality,
And assume leadership without being humble.
They are doomed!
Compassion is invincible in offense,
And in defense invulnerable.
When Heaven wants to deliver a person from harm,
It grants him compassion as a protective charm.

Military strategists have said -
I dare not be the host,
But prefer to be the guest.
I dare not advance one inch,

This is called -

Difficult to Understand

Yet the world is incapable of understanding it,
And incapable of carrying it out.
My teaching has an ancient source,

As people are ignorant of this,
So they fail to understand me.

Therefore he is free from disease.

Chih Huo
When the people are not afraid of death,
What avails it to scare them with death?
Assuming that they often do fear death,
And that any pervert can be seized and killed,
Who dares to do the killing?
It is the job of the Director of Death to kill.
To take over the job of the Director of Death
Is like wielding the hammer for the master-builder.
He who wields the hammer for the master-builder
Seldom escapes wounding himself in the hand.

T'an Sun
The reason why the people are starving
Is that the officials "eat their taxes" too much.
That's why the people are starving.
The reason why the people are difficult to rule
Is that the authorities resort to interference.
That's why the people are difficult to rule.
The reason why the people make light of death
Is that they are too eager for high living.
That's why the people make light of death.
Those who have nothing to make life pleasurable
Are worthier than those who value high living.

[38t76c] **Henry Wei**
Abstain from Hardness
Chieh Ch'iang
Man is soft and weak at birth;
At death he is hard and rigid.
The ten thousand things, herbs and trees,
Are soft and delicate when growing up;
In dying, they wither and look haggard.
Thus hardness and rigidity are companions of death;
Softness and weakness are companions of life.
Therefore armies, having become rigid, will not win;
Trees, having become rigid, will break asunder.
The big and rigid will be laid low;
The soft and weak will be lifted up.

[38t77c] **Henry Wei**
The Way of Heaven
T'ien Tao
The Way of Heaven,
Is it not like stretching the bow?
What is high is brought low;
What is low is pulled up;
What is superfluous is taken off;
What is deficient is strengthened.
The Way of Heaven takes from what has a surplus
To supply what has a deficit.
The way of men acts differently.
It takes from what has a deficit
To serve what has a surplus.
Who will use his surplus to serve the world?
Only the man who is possessed of Tao.
Thus the Sage acts but does not presume on the result;
He achieves success but does not claim any credit.

Trust in Faith
Ren Hsin
Nothing in the world
Surpasses water in softness and weakness;
Yet among things that attack the hard and strong,
None can do a better job than water.
Nothing can serve as its substitute.
Therefore the weak overcomes the strong;
The soft overcomes the hard.
Few in the world do not know this;
Yet nobody is able to put it into practice.
Therefore the Sage says:
He who bears the blame for the ignominy of his country
Can be called lord of the state;
He who bears the blame for the misfortune of his country
Can become king of the world.
Statements of the truth seem paradoxical.

[38t79c] **Henry Wei**
Observance of Obligations
Ren Ch'i
In allaying a great grievance,
There is bound to be some grievance remaining.
How can this be called good?
Therefore the Sage holds the left tally,
But does not urge the other party to keep his word.
Thus the virtuous seeks to preserve the contract;
The unvirtuous seeks to blame the other party.
The Way of Heaven has no preferences,
But always suits the good man.

Independence
Tu Li
A state should be small in size and population.
It should teach the people not to use arms,
Even though arms may be found in abundance.
It should teach the people
To view death as a serious matter,
And not to move to a far-away place.
Though there are boats and carriages,
There is no occasion to use them;
Though there are arms and soldiers,

There is no occasion to stage public reviews.
The people are taught -
To resume the practice of tying knots;
To enjoy their daily food;
To wear beautiful clothes;
To enhance the comfort of their homes;
And to take delight in their social customs.
Neighbor states may be within sight of one another,
And the barking of dogs and the crowing of cocks
In one of them may be heard in the others,
Yet the people to the end of their days,
Do not maintain intercourse with their neighbors.

Expressing the Essential
Hsien Chih
Truthful words do not sound sweet;
Sweet words are not truthful.
Good men do not argue;
Those who argue are lacking in goodness.
The seers of truth are not vast in learning;
People with vast learning are not seers.
The Sage does not hoard.
The more he serves the people,
The more he gains.
The more he gives to the people,
The more he possesses.
The Way of Heaven is to benefit, not to harm;
The way of the Sage is to act, not to contend.

[39t01c] **Ha Poong Kim**
No Tao that may be Tao is the constant Tao;
No name that may be a name is the constant name.
By non-being you name the beginning of Heaven and Earth;
By being you name the mother of the ten thousand things.
Therefore, always free of desire you see the secret;
Always with desire you see its appearance.
These two
Are the same in origin yet different in name.
Their sameness may be called a mystery.
It is the mystery beyond mysteries,
The gate to myriad secrets.

[39t02c] **Ha Poong Kim**
All under Heaven recognize beautiful as beautiful,
But this is none other than ugly.
Everyone recognizes good as good,
But this is none other than bad.
Therefore being and non-being rise together;
Difficult and easy complete each other;
Long and short shape each other;
High and low lean on each other;
Sound and voice come in harmony;
Front and back accompany each other.
Therefore the sage
Relies on no-action,
Practices wordless teaching.
There rise the ten thousand things, but he disowns nothing,
He gives them life, yet does not possess them;
Rules them, yet does not depend on them;
His work is done, but he never dwells in it.
Truly, since he never dwells,
He never departs.

[39t03c] **Ha Poong Kim**
If you do not exalt the worthy,
You will keep the people from contention.
If you do not treasure rare goods,
You will keep them from stealing.
If you do not exhibit things that may arouse their desire,
You will keep their minds in peace.
Therefore the sage, in governing the people,
Makes their minds empty,
Their stomachs full,
Their ambitions weak,
Their bones strong.

[39t04c] **Ha Poong Kim**
Tao is empty,
You may use it but never fill it.
Fathomless, it is like the progenitor of the ten thousand things.
[It] blunts the sharpness,
Unravels the tangles,
Softens the brilliance,
Identifies with the dust.
Deep and still, it seems as though existing forever.
I don't know whose son it is.
It bears the image of God's forefather.

[39t05c] **Ha Poong Kim**
Heaven and Earth are not humane:
They treat the ten thousand things as straw dogs.
The sage is not humane:
He treats the people as straw dogs.
The space between Heaven and Earth -
Is it not as though it were a bellows?
It is empty, yet inexhaustible.
Ever active, it gives off more and more.
Much talk inevitably leads to predicament.
It is better to hold on to the void.

[39t06c] **Ha Poong Kim**
The spirit of the mountain gorge never dies.
It is called the mysterious female.
The gate of the mysterious female -
It is called the root of Heaven and Earth.
Never ceasing to be, it seems as though existing forever.
Use never exhausts it.

[39t07c] **Ha Poong Kim**
Heaven and Earth are everlasting.
The reason why they are everlasting
Is that they do not live for themselves.
That is why they can live long.
Therefore the sage
Puts himself last and finds himself first;
He leaves himself out and finds himself preserved.
Is it not because he is selfless
That he can fulfill himself?

Water benefits the ten thousand things, yet contends with nothing.
It dwells where everyone is loath to be.
That is why it is near to Tao.
In dwelling, the good is the ground,
In thought, the good is depth,
In association, the good is gentleness,
In speech, the good is truthfulness,
In government, the good is order,
In work, the good is ability,
In movement, the good is timeliness.
Truly, because it [water] contends with nothing,
It is beyond reproach.

[39t09c] **Ha Poong Kim**
Rather than hold the bowl until it fills to the brim,
Better quit in time.
Hammer the blade to its sharpest,
And you will be unable to preserve it long.
Fill the hall with gold and jade,
And you will be unable to keep them safe.
He who is arrogant with his wealth and position
Will bring calamity upon himself.
To withdraw when the task is accomplished
Is the way of Heaven.

[39t10c] **Ha Poong Kim**
Rest your shining spirit and embrace the One.
Can you forever hold onto it?
Concentrate your breath and attain the utmost softness.
Can you become a baby?
Clean your mysterious mirror.
Can you keep it free of blemish?
Love the people and keep the state in peace.
Can you rule through no-action?
As the gate of Heaven opens and closes,
Can you play the female part?
As bright light reaches all four directions,
Can you remain unknowing?
To give people life and nurture them;
To give them life, without possessing them;
To rule them, without depending on them;
To lead them, without directing them -
This is called the mysterious Te.

On its non-being depends the usefulness of the wheel.
You make a vessel, kneading clay;
On its non-being depends the usefulness of the vessel.
You make a room, carving out doors and windows;
On its non-being depends the usefulness of the room.
Therefore, being's advantage
Is non-being's usefulness.

The five colors make man's eyes go blind.
The five tones make man's ears go deaf.
The five tastes injure man's palate.
Hunting on horseback
Makes man's mind go crazy.
Rare goods
Impede man's action.
That is why the sage
Cares for the stomach, not for the eye.
Therefore he discards that and takes this.

[39t13c] **Ha Poong Kim**
"Be alarmed by favor and disgrace;
High rank brings you great misfortune, as if your own body."
What is the meaning of "Be alarmed by favor and disgrace"?
Regard favor as low.
Be alarmed to receive it;
Be alarmed to lose it.
This is the meaning of "Be alarmed by favor and disgrace."
What is the meaning of "High rank brings you great misfortune, as if your own body"?
My reason for having great misfortune
Is my having a body.
If I had no body,
What misfortune would I have?
Therefore, if a man values the care of his body above ruling all under Heaven,
He may be given all under Heaven.
If a man cherishes his body more than ruling all under Heaven,
All under Heaven may be entrusted to him.

Are beyond scrutiny.
Therefore, blend them into one.
No brightness above it,
No darkness below it -
Boundless, it cannot be named.
Return to the objectless object.
It is called the shapeless shape -
The formless form.
It is called the vague and dim.
You meet it but don't see its head.
You follow it but don't see its back.
Hold on to the Tao of old,
And thereby ride the being of now.
Know the old beginning,
Which is called the thread of Tao.

[39t15c] **Ha Poong Kim**
Of old a man who practiced Tao best
Had insight into the subtlest and penetrated into the darkest.
His depth was not to be plumbed.
Truly, because his depth was not to be plumbed,
He could be portrayed only arbitrarily:
Hesitant as if crossing a river in winter;
Cautious as if fearing all four sides;
Inviolable like a guest;
Loose like ice about to thaw;
Simple like the uncarved block;
Empty like a valley;
Murky like muddy water.
Who can be muddy and yet, keeping still, slowly turn clear?
Who can be calm and yet, keeping active, slowly come to life?
He who embraces this Tao
Never wishes to be full.
Truly, because he is never full,
He decays yet renews himself.

[39t16c] **Ha Poong Kim**
Attain the utmost emptiness,
Hold fast to stillness.
The ten thousand things rise together;
I see them return.
All things flourish;
Each reverts to its root.
Reverting to the root is called stillness.
It means submission to fate.
Submission to fate is called [submission to] the constant.

To know the constant is called enlightenment.
If you do not know the constant,
You act blindly, ruining yourself.
Knowing the constant, you will be all-embracing.
All-embracing, hence impartial;
Impartial, hence king;
King, hence Heaven;
Heaven, hence Tao;
Tao, hence long-lasting.
Thus, you will be free of danger until the end of your life.

[39t17c] **Ha Poong Kim**
Of the rulers, the best is one of whose existence his people are [merely] aware;
Next comes one whom they love and praise;
Next comes one whom they fear;
Next comes one whom they despise.
When you don't trust them,
They will not trust you.
Calm, I rarely speak.
Yet the task is accomplished;
The people call me tzu-jan.

[39t18c] **Ha Poong Kim**
When the great Tao is abandoned,
You have humaneness and righteousness.
When wisdom appears,
You have great falsehood.
When the six relations are in disharmony,
You have filial piety and parental love.
When the state is in disorder,
You have loyal ministers.

[39t19c] **Ha Poong Kim**
Banish sagehood and wisdom,
And the people will benefit a hundredfold.
Banish humaneness and righteousness,
And the people will return to filial piety and parental love.
Banish cleverness and profit,
And there will be no more thieves and robbers.
These three
I take to be insufficient as maxims.
Therefore, let them be attached to the following:
Display plainness and embrace the uncarved block,
Diminish the self and reduce desires.

Banish learning, and you will have no worries.
"Yes" and "yeah" -
How far apart are they?
Good and bad -
How far apart are they?
"What others fear
You must fear."
How outlandish!
It will never end.
Everybody is cheerful,
As if enjoying a great feast;
As if going up to the terrace for the Spring Festival.
I alone am unexcited, giving no sign,
Like a baby who has not yet smiled;
Weary, as if nowhere to return.
Everybody has more than enough,
I alone seem dispossessed.
Mine is the mind of an ignorant man.
How indifferent!
Common folks are bright,
I alone am dark.
They are keen,
I alone am dull.
Adrift, I feel as if on the sea -
Blown by a high wind that seems never to come to rest.
Everybody is put to use,
I alone am stubborn and foolish like a boor.
Alone, different from others, I treasure the nursing mother.

[39t21c] **Ha Poong Kim**
The look of the great Te
Follows from Tao alone.
It is Tao embodied.
How vague and dim it is!
Vague and dim -
In it are forms.
Vague and dim -
In it are things.
Deep and dark -
In it is the vital essence,
Which is most real.
In it is evidence.
From the time of old till today,
Its name has never departed.
By it you view the beginning of all.
How do I know the shape of the beginning of all?

[39t22c] **Ha Poong Kim**
To yield is to remain whole;
To bend is to get up straight;
To be hollow is to be full;
To decay is to renew;
To be small is to gain;
To have many is to be perplexed.
Therefore the sage,
Embracing the One, becomes the model for all under Heaven.
He does not show himself, therefore his presence is bright.
He does not claim to be right, therefore his virtue shines.
He is not boastful of his act, therefore his merit is great.
He is not conceited, therefore he is long-lasting.
Only because he does not contend,
No one under Heaven can contend with him.
Can the old saying "To yield is to remain whole"
Be an empty phrase?
Truly, he remains whole, and the world returns to him.

[39t23c] **Ha Poong Kim**
Tzu-jan rarely speaks.
Therefore no windstorm lasts all morning;
No rainstorm lasts all day.
Who causes these things?
Heaven and Earth.
If even Heaven and Earth can cause nothing to last forever,
How could man?
Therefore those who follow Tao
Are one with Tao.
Those who attain Te are one with Te;
Those who lose [Te] are one with the loss.
When a man is one with Tao,
Tao also rejoices at gaining him;
When a man is one with Te,
Te also rejoices at gaining him;
When a man is one with the loss,
The loss also rejoices at gaining him.
When you don't trust others,
They will not trust you.

He who claims to be right does not shine;
The boastful have no merit;
The conceited do not last long.
From Tao's standpoint
Such things may be called excess food and superfluous action.
Creatures abhor them.
Therefore the man of Tao stays away from them.

[39t25c] **Ha Poong Kim**
There is something undifferentiated
That precedes the birth of Heaven and Earth.
Silent and still,
It stands by itself and never changes -
All-pervading and never in danger.
One may regard it as the mother of Heaven and Earth.
I don't know its proper name;
I address it as Tao.
Were I forced to name it, I would call it Great.
"Great" means "to go."
"To go" means "far away."
"Far away" means "to return."
Therefore Tao is great,
Heaven is great,
Earth is great,
The king is also great.
In the universe there are four greats.
King is one of them.
The measure for man is Earth;
The measure for Earth is Heaven;
The measure for Heaven is Tao;
The measure for Tao is tzu-jan.

[39t26c] **Ha Poong Kim**
The heavy is the root of the light;
Stillness is the lord of bustle.
Therefore the prince,
Traveling all day,
Never parts with his baggage-wagon.
Even at a magnificent sight,
He remains at ease, unmoved.
How could the lord of ten thousand chariots
Regard his own body more lightly than all under Heaven?
If you act lightly, the root is lost;
If you bustle, the lord is lost.

Perfect going leaves no tracks.
Perfect speech has no flaws.
Perfect counting uses no counters.
The perfect lock uses no bolt; it is impossible to open.
The perfect knot uses no rope; it is impossible to untie.
Therefore the sage
Is always perfect in delivering people from distress.
Thus he abandons no one.
He is always perfect in delivering creatures from distress.
Thus he abandons no creature.
This is called following the light.
Therefore the perfect man
Is the leader of the imperfect man;
The imperfect man
Is the asset of the perfect man.
He who does not treasure his leader,
He who does not cherish his asset,
Though he may be wise, is greatly deluded.
This is called the fundamental secret.

[39t28c] **Ha Poong Kim**
He knows the male,
Yet holds fast to the female,
And thus becomes the ravine of all under Heaven.
When he becomes the ravine of all under Heaven,
The constant Te will never desert him.
He returns to the baby.
He knows white,
Yet holds fast to black,
And thus becomes the model for all under Heaven.
When he becomes the model for all under Heaven,
The constant Te will never fail him.
He returns to the infinite.
He knows glory,
Yet holds fast to ignominy,
And thus becomes the valley of all under Heaven.
When he becomes the valley of all under Heaven,
His constant Te will be sufficient,
He returns to the uncarved block.
When the uncarved block scatters, it turns into vessels.
When the sage uses them,
He becomes chief of ministers.
Therefore great cutting does not split.

I see you will never succeed.
All under Heaven is a sacred vessel;
No one can rule it by action.
Whoever rules it by action destroys it;
Whoever seizes it loses it.
Therefore, among the creatures,
Some go, some follow;
Some breathe lightly, some blow hard;
Some are strong, some are weak;
Some break, some fall.
Therefore the sage
Shuns extremes,
Shuns extravagance,
Shuns vanity.

[39t30c] **Ha Poong Kim**
He who assists the ruler by Tao
Does not resort to arms to dominate all under Heaven by force.
This thing loves to rebound.
Where troops have encamped,
Brambles grow;
After the raising of great armies
A famine follows invariably.
A good man merely lets it bear fruit;
He does not seek to force it.
He lets it bear fruit; he is not vainglorious.
He lets it bear fruit; he is not boastful.
He lets it bear fruit; he is not arrogant.
He lets it bear fruit, out of necessity.
He lets it bear fruit and does not force it.
When a thing reaches its prime, it becomes old.
Forcing is called contrary to Tao.
What is contrary to Tao expires early.

[39t31c] **Ha Poong Kim**
Dazzling arms
Are instruments of ill omen.
All creatures detest them.
Therefore the man of Tao does not keep company with them.
At home, the prince honors the left;
At war, the right.
Arms
Are instruments of ill omen -
No instruments for the prince.
When necessary to use them,
It's best to do so in calm disinterestedness.

You do not celebrate a victory.
To celebrate a victory
Is to delight in the slaughter of people.
He who delights in the slaughter of people
Will never realize his ambition under Heaven.
At times of good fortune, you honor the left;
At times of misfortune, you honor the right.
The second in command stands on the left;
The supreme commander stands on the right.
This means they stand as if observing funeral rites.
Having committed mass killings,
Let us weep with deep sorrow;
For a victory, let us observe funeral rites.

[39t32c] **Ha Poong Kim**
Tao is forever nameless.
Though the uncarved block is small,
No one under Heaven can make it his subject.
If kings and princes hold fast to it,
The ten thousand things will submit of their own accord;
Heaven and Earth will unite to send sweet dew;
The people will be fair of themselves, without being ordered.
When the cutting begins, names come to be.
As soon as names appear,
Know that it's time to stop.
By knowing this, you will be free from danger.
To draw an analogy, the working of Tao under Heaven
Is like streams and rapids flowing into great rivers and seas.

[39t33c] **Ha Poong Kim**
He who knows others is wise;
He who knows himself is enlightened.
He who overcomes others has strength;
He who overcomes himself is strong.
He who knows to be content is rich.
He who persists in his action is strong-willed.
He who does not lose his place is long-lasting.
He who dies but does not perish is long-lived.

[39t34c] **Ha Poong Kim**
The great Tao overflows left and right,
The ten thousand things depend on it for their lives, and it never disowns them.
Its work is done, but it has no name.
It clothes and nurtures the ten thousand things, yet it makes no claim to be lord over them.
It is always free of desire.
It may be called small.

The ten thousand things return to it, yet it makes no claim to be lord over them.
It may be called great.
Because it never regards itself as great,
It can accomplish its greatness.

[39t35c] **Ha Poong Kim**
Holding fast to the great form,
Go anywhere under Heaven.
Wherever you go, nothing will harm you -
You will be safe and in peace.
Music and fine food
Make the passing stranger stop.
When Tao comes out from the mouth,
How flavorless it is!
You look at it, but it is invisible.
You listen to it, but it is inaudible.
You use it, but it is inexhaustible.

[39t36c] **Ha Poong Kim**
When you want to shrink it,
You must first stretch it.
When you want to make it weak,
You must first make it strong.
When you want to make it fall,
You must first make it rise.
When you want to rob it,
You must first give it.
This is called subtle light.
The soft and weak prevails over the hard and strong.
The fish may not leave the depths.
The sharp instrument of the state
May not be shown to the people.

[39t37c] **Ha Poong Kim**
Tao never does,
Yet leaves nothing undone.
If kings and princes hold fast to this,
The ten thousand things will transform of themselves.
Should desires arise after transformation,
I shall calm them with the nameless, uncarved block.
The nameless, uncarved block
Brings desirelessness.
With desirelessness comes stillness,
And all under Heaven will be at peace by itself.

The man of superior virtue [te] is not virtuous;
Therefore he has virtue.
The man of inferior virtue never fails to be virtuous;
Therefore he has no virtue.
A man of superior virtue never acts;
He seeks nothing through action.
A man of inferior virtue acts;
He seeks [virtue] through action.
A man of superior humaneness [jen] acts;
Yet he seeks nothing through action.
A man of superior righteousness [i] acts;
He seeks [righteousness] through action.
A man of superior ritual propriety [li] acts;
And when others fail to respond accordingly,
He stretches his arm and charges at them.
Therefore, when Tao is lost, virtue appears;
When virtue is lost, humaneness appears;
When humaneness is lost, righteousness appears;
When righteousness is lost, ritual propriety appears.
Truly, ritual propriety means
The thinning of loyalty and truthfulness,
And the origin of disorder.
Foresight
Is the flower of Tao,
The beginning of folly.
Therefore the great man
Dwells in the thick,
Not in the thin,
In the fruit,
Not in the flower.
Therefore he discards that and takes this.

[39t39c] **Ha Poong Kim**
The things of old that have attained the One:
Heaven, having attained the One, is clear;
Earth, having attained the One, is steady;
Spirits, having attained the One, possess their numinous power;
Valleys, having attained the One, are full;
The ten thousand things, having attained the One, come to life;
Kings and princes, having attained the One, become the model for all under Heaven.
It is by virtue of the One that they become what they are.
Were Heaven not clear by virtue of that,
I fear it would soon shatter;
Were Earth not steady by virtue of that,
I fear it would soon collapse;
Were spirits not to possess their numinous power by virtue of that,

I fear they would soon cease to be;
Were valleys not full by virtue of that,
I fear they would soon dry up;
Were the ten thousand things not to come to life by virtue of that,
I fear they would soon perish;
Were kings and princes not noble and high by virtue of that,
I fear they would soon fall.
Therefore, for the noble the humble is the root;
For the high the low is the foundation.
For this reason, kings and princes
Refer to themselves as "the orphaned one," "the widowed one," and "the ill-provided one."
Isn't this because the humble is the root?
Is it not?
Therefore, if you tally your honors you will count none.
Don't try to jingle like jade-bells,
Rather, sound like rolling rocks.

[39t40c] **Ha Poong Kim**
Turning back is Tao's motion.
Being weak is Tao's function.
The ten thousand things under Heaven are born from being;
Being is born from non-being.

[39t41c] **Ha Poong Kim**
When the highest type of man hears Tao,
He practices it diligently.
When the middle type hears Tao,
He half believes and half disbelieves it.
When the lowest type hears Tao,
He laughs out loud.
If he didn't,
It couldn't possibly be considered Tao.
Therefore the Chien yen has it:
"The bright Tao looks dark;
The forward-moving Tao seems retreating;
The level Tao seems bumpy;
The highest Te is like a valley;
Perfect white looks soiled;
The broad Te seems insufficient;
The firm Te seems precarious;
The pure Te seems discolored;
The great square has no corners;
The great vessel takes long to complete;
The great sound is inaudible;
The great form is shapeless."
Tao is hidden and nameless.

Truly, Tao alone supports [all things] and brings them to completion.

[39t42c] **Ha Poong Kim**
Tao gives birth to One;
One gives birth to Two;
Two give birth to Three,
Three give birth to the ten thousand things.
The ten thousand things carry the yin on their backs and hold the yang in their arms;
And attain harmony through the blending of the two energies.
What people detest most
Is to be orphaned, widowed and ill-provided.
But that is how kings and princes call themselves.
Therefore, of things, some gain by losing,
Some lose by gaining.
What others teach
I also teach.
"The violent one will not attain his death."
I will take this to be my teacher.

[39t43c] **Ha Poong Kim**
The softest under Heaven
Rides roughshod over the hardest under Heaven.
The beingless [wu yu] penetrates the spaceless [wu chien].
From this I know the advantage of no-action [wu-wei].
The wordless teaching,
The advantage of no-action -
Nothing under Heaven exemplifies them better.

[39t44c] **Ha Poong Kim**
Your name or your body, which is dearer?
Your body or your possessions, which is more valuable?
Gaining or losing, which worries you more?
Therefore, when your craving is excessive, your spending is extravagant.
When you store much, you are bound to lose much.
Know how to be content, and you will not be disgraced.
Know when to stop, and you will be free from danger.
Thus you will be long-lasting.

Be clear and still, and you will be the lord of all under Heaven.

When Tao prevails under Heaven,
Fleet-footed horses are taken out [of service] to fertilize the fields.
When Tao fails to prevail under Heaven,
War horses breed on the sacred mounds outside the city walls.
No misfortune is greater than not knowing contentment;
No calamity is greater than wanting to possess.
Therefore, he who knows the sufficiency of contentment
Is always contented.

[39t47c] **Ha Poong Kim**
Without leaving the door,
You may know all under Heaven.
Without looking out the window,
You may know the way of Heaven.
The further you go,
The less you know.
Therefore the sage
Knows without going,
Sees without looking,
Fulfills without doing.

[39t48c] **Ha Poong Kim**
When you pursue learning, you gain day by day.
When you pursue Tao, you lose day by day.
You lose more and more,
Until you reach thereby the point of no-action.
You do nothing yet leave nothing undone.
You take all under Heaven
Always through no activity.
Should you rely on activity,
You will find it insufficient to take all under Heaven.

[39t49c] **Ha Poong Kim**
The sage has no fixed mind;
He takes the people's mind as his own.
I accept as good those who are good;
I also accept as good those who are not good.

I trust those who trust;

Such is Te's trust.

The sage, in ruling all under Heaven,
Makes his mind one with it.
All his subjects set their ears and eyes on him.
He regards them all as his children.

[39t50c] **Ha Poong Kim**
You come out to life and enter death.
The companions of life are three in ten;
The companions of death are three in ten:
The way humans live,
There are those who move into death-spots.
They too are three in ten.
Why is this so?
It is because of their hoarding of life.
I hear that those who nurture life well,
When traveling on land, do not meet wild buffaloes or tigers,
Nor do they, when going into battle, put on armor or shields.
The wild buffalo would find no place to thrust its horns;
The tiger would find no place to place its claws;
The sword would find no place to lodge its blade.
Why is this so?
Because for such men there are no death-spots.

[39t51c] **Ha Poong Kim**
Tao gives life [to the ten thousand things];
Te nurtures them.
Materiality shapes them;
The circumstances fulfill them.
Therefore, of the ten thousand things
None fails to revere Tao and honor Te.
The revering of Tao,
The honoring of Te -
No one orders it.
It is always so of itself [tzu-jan].
Therefore Tao gives them life;
Te nurtures them.
Makes them flourish and grow;
Gives them security and comfort;
Feeds and shelters them.
To give them life, without possessing them;
To rule them, without depending on them;
To lead them, without presiding over them -
This is called the mysterious Te.

Which may be regarded as the mother of all under Heaven.
Having recognized its mother,
You know the child, also;
Having known the child,
You hold fast to its mother, also.
Thus you will be free of danger till the end of your life.
Block the holes,
Shut the gates,
And you will never be spent till your last day.
Open up the holes,
Busy yourself with activities,
And you will never be saved till your last day.
To see what is small is called clear sight;
To hold fast to what is soft is called strength.
Use the light,
Return to clear sight,
And you will never bring misfortune upon yourself.
This is called following the constant.

[39t53c] **Ha Poong Kim**
Let me have even the slightest of wisdom.
Traveling the great way [Tao],
I will only fear going astray.
The great way is level.
Yet people prefer small paths.
The court is overrun with corruption;
The fields are overgrown with weeds;
The granaries are utterly empty;
Yet the officials wear embroidered clothes,
Carry sharp swords,
Feast on food and wine,
Possess more goods than they need.
This is called the robber's extravagance.
It is indeed contrary to Tao!

[39t54c] **Ha Poong Kim**
What is firmly planted cannot be pulled out;
What is tightly held in the arms cannot slip away,
So that the descendants will never stop offering ancestral sacrifice.
Cultivate it in yourself,
And its Te will be genuine.
Cultivate it in the household,
And its Te will be more than sufficient.
Cultivate it in the village,
And its Te will be long-lasting.
Cultivate it in the state,

And its Te will be plentiful.
Cultivate it in all under Heaven,
And its Te will be all-encompassing.
Therefore, observe yourself through yourself;
The household through the household;
The village through the village;
The state through the state;
All under Heaven through all under Heaven.
How do I know that all under Heaven is so?
With this.

[39t55c] **Ha Poong Kim**
He who possesses Te in abundance
May be likened to a newborn baby.
Bees, scorpions and vipers do not sting it;
Ferocious beasts do not seize it;
Birds of prey do not attack it.
Its bones are weak and its sinews soft, yet its grip is firm.
It doesn't yet know the union of male and female, yet its organ is erect.
Its vital energy is perfect.
It screams all day yet never becomes hoarse.
Its harmony is perfect.
To know harmony is called [to know the] constant.
To know the constant is called enlightenment.
To improve upon one's life is called ill omen.
When the mind dictates the vital breath, it is called forcing.
When a thing reaches its prime, it becomes old.
Forcing is called contrary to Tao.
What is contrary to Tao expires early.

[39t56c] **Ha Poong Kim**
He who knows does not speak;
He who speaks does not know.
Block the holes,
Shut the gates.
[He] blunts the sharpness,
Unravels the tangles,
Softens the brilliance,
Identifies with the dust.
This is called mysterious identity.
Therefore you can neither befriend him,
Nor alienate him,
Nor benefit him,
Nor harm him,
Nor exalt him,
Nor humble him.

That is why he is the noblest of all under Heaven.

[39t57c] **Ha Poong Kim**
"Govern the state according to what is right;
Use the troops by surprise tactics."
But take all under Heaven through no-action.
How do I know this is so?
Because of this -
The more bans and taboos under Heaven,
The poorer the people;
The more sharp instruments in the hands of the people,
The more trouble for the state;
The more skills the people have,
The more fanciful inventions appear;
The more laws and decrees,
The more thieves and robbers.
Therefore the sage says:
"I engage in no-action, and the people transform of themselves;
I love stillness, and the people correct themselves;
I engage in no work, and the people prosper of themselves;
I am free from desire, and the people turn into the uncarved block of themselves."

[39t58c] **Ha Poong Kim**
When the government is dull,
The people are simple.
When the government is keen,
The people are discontented.
Bad fortune is what good fortune leans on;
Good fortune is where bad fortune lurks.
Who knows the fortune's end?
There is nothing straight.
What is straight turns monstrous.
What is beautiful turns grotesque.
Man has been deluded
From time immemorial.
Therefore the sage
Is square without cutting;
Honest without scraping;
Straight without overbearing;
Bright without dazzling.

[39t59c] **Ha Poong Kim**
In ruling the people and serving Heaven
Nothing is better than being sparing.
Truly, being sparing
Means submitting early.

Submitting early
Means accumulating Te heavily.
If you accumulate Te heavily,
There will be nothing you cannot overcome.
If there is nothing you cannot overcome,
You will find no limit.
If you find no limit,
You will be fit to rule a state.
If you possess the mother of the state,
You will be long-lasting.
This is called deeply rooted and firmly planted.
It is the way of long life and lasting sight.

[39t60c] **Ha Poong Kim**
Governing a large state
Is like boiling a small fish.
When you rule all under Heaven according to Tao,
The spirits of the dead cease to exercise supernatural power.
It is not that they cease to exercise supernatural power.
Their supernatural power does not harm the people.
It is not simply that their supernatural power does not harm the people.
The sage, too, does not harm the people.
Since neither of them harms the people,
Their Te, united, returns.

[39t61c] **Ha Poong Kim**
The large state is the lower reaches of a river,
The place where all under Heaven meets -
The female of all under Heaven.
The female always overcomes the male by stillness.
With stillness she plays the lower part.
Therefore, when the large state plays the lower part toward the small state,
It takes the small state.
When the small state plays the lower part toward the large state,
It takes the large state.
Therefore some take by playing the lower part;
Some are taken by playing the lower part.
The large state merely wants to unite with the other and nurture it;
The small state merely wants to join and serve the other.
Each gets what it wants.
It is right that the large state should play the lower part.

The bad man's refuge.
Beautiful words can buy honor,
Beautiful deeds can benefit people.
Though a man may be bad,
How can he be abandoned?
Therefore, on occasion of crowning the Son of Heaven
Or installing the three ministers of state,
Rather than present a large disc of jade, accompanied by a team of four horses,
Better remain in your seat and offer a tribute of this Tao.
Why did the ancients honor this Tao?
Did they not say:
"You get thereby what you seek;
You escape thereby when you have sinned."
Therefore they regarded it as the most precious of all things under Heaven.

[39t63c] **Ha Poong Kim**
Act through no-action,
Attend to no-affair,
Relish no-flavor,
Take the small as big and the few as many.
Repay hatred with Te.
Plan difficult things while they are easy.
Handle big things while they are small.
Difficult things under Heaven
Always arise from what is easy;
Big things under Heaven
Always arise from what is small.
For this reason the sage
Never intends big things,
And thus can accomplish big things.
He who agrees lightly invariably inspires little faith.
He who considers many things easy invariably encounters many difficulties.
For this reason even the sage considers things difficult;
Therefore he never encounters difficulties.

[39t64c] **Ha Poong Kim**
What is at rest is easy to hold;
What has not yet shown its sign is easy to prepare for.
What is tender is easy to break up;
What is minute is easy to scatter.
Deal with things before they become reality;
Put things in order before disorder arises.

Grows from the tip of a fine hair.

Rises from a heap of earth.

A journey of a thousand miles
Starts from where one stands.
Whoever acts on it will ruin it;
Whoever lays hold of it will lose it.
For this reason the sage
Does nothing and therefore ruins nothing;
Lays hold of nothing and therefore loses nothing.
People, in handling their affairs,
Always ruin their work on the verge of completion.
Be careful at the end as at the start,
And you will never fail.
For this reason the sage
Desires not to desire,
Does not treasure rare goods,
Learns not to learn.
He returns to what the multitude passes by.
He thus helps the ten thousand things to be so of themselves [tzu jan],
And does not try to rule.

[39t65c] **Ha Poong Kim**
Of old a man who practiced Tao best
Did not thereby seek to make the people bright,
But to make them ignorant.
The people are difficult to govern,
Because they are too clever.
Therefore, to govern a state through knowledge
Is the robbing of the state;
Not to govern a state through knowledge
Is a blessing to the state.
Those who know these two
Also know the standard.
Always to know the standard
Is called the mysterious Te.
Deep and far-reaching is the mysterious Te!
Turn away from things.
Only then will the great obedience be attained.

[39t66c] **Ha Poong Kim**
The great rivers and seas are kings of hundred valleys,
Because they are good at keeping low.
That is why they can be kings of hundred valleys.
Therefore, if you want to stand above the people,
You must keep low in speaking to them.
If you want to stand ahead of the people,
You must put yourself behind them.
For this reason the sage

Is above the people yet does not weigh heavy on them;
He is ahead of the people yet causes no harm to them.
Therefore all under Heaven are happy to uphold him and never tire of him.
Because he does not contend,
No one under Heaven can contend with him.

[39t67c] **Ha Poong Kim**
All under Heaven says that
My Tao is great yet doesn't look like it [Tao].
Truly, because it is great,
It doesn't look like it.
If it did,
It would have turned out a petty one long ago.
I have three treasures.
I hold and cherish them.
The first is called mercifulness;
The second, frugality;
The third, refusal to be ahead of all under Heaven.
Being merciful, you can therefore be brave;
Being frugal, you can therefore be liberal;
Refusing to be ahead of all under Heaven,
You can therefore become the leader of the vessels.
Now, to be brave, forsaking mercifulness,
To be liberal, forsaking frugality,
To be ahead, forsaking being behind
Is death.
With mercifulness -
If you fight, you will be triumphant,
If you defend, you will be invincible.
Whatever Heaven is about to save
Heaven will protect it with mercifulness.

A good warrior is not belligerent;
A good fighter is not given to anger;
One who is good at winning does not engage the enemy;
One who is good at using others takes the lower position.
This is called the Te of non-contention;
This is called making use of the strength of others;
This is called fit to be Heaven's mate.
It is the ultimate [truth] of old.

This is called marching no-marching,
Stretching no-arms,
Arming with no-weapons,
Charging at no-enemy.
No disaster is greater than making light of the enemy.
When I make light of the enemy, I may lose my treasure.
Therefore, when two sides confront each other with arms,
The one who grieves wins.

[39t70c] **Ha Poong Kim**
My words are very easy to understand,
Very easy to put into practice.
Yet no one under Heaven can understand them
Or put them into practice.
Words have their source,
Deeds have their lord.
Truly, because people don't know this,
They don't understand me.
Those who know me are few;
Those who follow me are rare.
For this reason the sage
Wears coarse cloth but carries jade inside.

[39t71c] **Ha Poong Kim**
To know yet not to know is best;
Not to know yet to know is a disease.
Truly, when you recognize a disease as a disease,
You are free of disease.
The sage is free of disease.
Because he recognizes a disease as a disease,
He is free of disease.

[39t72c] **Ha Poong Kim**
When the people do not fear the authority [of the sovereign],
The supreme authority arrives.
They are neither contented in their abodes,
Nor satisfied with their lives.
Only because they are not satisfied,
They cannot be suppressed.
Therefore the sage
Knows himself but does not show himself,
Cherishes himself but does not exalt himself.
Therefore he discards that and takes this.

[39t73c] **Ha Poong Kim**
Being brave in daring leads to death,

Being brave in not daring leads to life.
Of these two,
One is advantageous and the other injurious.
What Heaven detests -
Who knows its reason?
Therefore even the sage finds it hard to tell.
The way of Heaven -
It never contends yet is good at winning,
It never speaks yet is good at responding.
It comes of itself without being invited,
It seems remiss yet good at planning.
Heaven's net is vast.
Though its meshes are coarse, nothing escapes it.

[39t74c] **Ha Poong Kim**
When the people do not fear death,
How can you frighten them with death?
Suppose the people do always fear death,
And we can seize and kill
Those who are lawless.
But who would dare to do so?
There is always the one who administers killings, and he does the killing.
If you do the killing, taking his place,
This is called hewing wood taking the place of the master-carpenter.
If you hew wood taking the place of the master-carpenter,
You will seldom escape injuring your own hand.

[39t75c] **Ha Poong Kim**
The people starve
Because the ruler consumes too much tax-grain.
Because of this they starve.
The people are hard to govern
Because the ruler rules through action [yu wei].
Because of this they are hard to govern.
The people take their death lightly
Because the ruler hoards his life.
Because of this they take their death lightly.
Truly, one who does nothing with life
Is wiser than one who prizes [the value of] life.

[39t76c] **Ha Poong Kim**
People are soft and weak when born,
But bard and strong when dead.
Plants are soft and supple when born,
But dry and shriveled when dead.
Therefore the hard and strong are companions of death,

The soft and weak are companions of life.
Therefore a strong weapon loses,
A strong tree breaks.
The strong and big belong below,
The soft and weak belong above.

[39t77c] **Ha Poong Kim**
The way of Heaven -
Isn't it like stretching a bow?
You press down the high,
Raise the low,
Take away the excess,
Add to the deficient.
The way of Heaven
Takes away from those who have too much and gives to those who have not enough.
The way of man
Is not so.
It takes away from those who have not enough and offers to those who have too much.
Who can have too much and offer to all under Heaven?
Only the man of Tao can.
Therefore the sage
Rules without depending on anyone.
His work is done, but he never dwells in it.
He does not wish to show his worthiness.

[39t78c] **Ha Poong Kim**
Nothing under Heaven is softer and weaker than water.
Yet in attacking what is hard and strong
Nothing can surpass water,
Because nothing can destroy it.
That the weak prevails over the strong,
That the soft prevails over the hard -
This everyone under Heaven knows,
Yet none can practice it.
Therefore the sage says:
"He who takes on himself the shame of the state
Is called lord of the land;
He who takes on himself the misfortune of the state
Is called king of all under Heaven."
True words sound contrary.

[39t79c] **Ha Poong Kim**
You allay the great discontent,
Yet, surely, there will still remain some discontent.
How can this be considered good?
Therefore the sage

Holds the left-hand tally,
Makes no claims on the people.
The man of Te oversees the tally,
The man of no Te oversees tax-collection.
The way of Heaven favors none,
Always sides with the good man.

[39t80c] **Ha Poong Kim**
Let the state be small and its people few.
Let the thousand contrivances go idle.
Let the people take death seriously and not move to distant places.
Though they may have boats and carriages,
They will not ride in them.
Though they may have armor and weapons,
They will not display them.
Let the people return to the practice of knotting cords.
They will relish what they eat,
Find their clothes beautiful,
Be content in their homes,
Delight in their customs.
States may be within sight of one another,
So that one may hear cocks and dogs from a neighboring state;
Yet people will grow old and die
Without trafficking with another state.

[39t81c] **Ha Poong Kim**
Trustworthy words are not beautiful,
Beautiful words are not trustworthy.
The good are not eloquent,
The eloquent are not good.
The wise are not learned,
The learned are not wise.
The sage stocks up nothing.
After using for others what he has,
He finds himself with still more.
After giving to others what he has,
He finds his stock even greater.
The way of Heaven
Is to benefit and not to harm.
The way of the sage
Is to rule and not to contend.

[40t01c] **Tao Huang**
The Tao that is voiced is no longer that of eternal Tao.
The name that has been written is no longer that of eternal name.
The nameless is the beginning of the cosmic universe.
The named is the mother of the myriad creatures.
Being at peace, one can see into the subtle.
Engaging with passion, one can see into the manifest.
They both arise from a common source but have different names.
Both are called the mystery within the mystery.
They are the door to all wonders.

[40t02c] **Tao Huang**
In the world,
Everyone recognizes beauty as beauty,
Since the ugly is also there.
Everyone recognizes goodness as goodness,
Since evil is also there.
Since being and nonbeing give birth to each other,
Difficulty and ease complete each other,
Long and short measure each other,
High and low overflow into each other,
Voice and sound harmonize with each other,
And before and after follow each other,
Therefore the sage
Lives in actionless engagement,
And preaches wordless doctrine.
The myriad creatures
Act without beginning,
Nourish without possessing,
Accomplish without claiming credit.
It is accomplishment without claiming credit that makes the outcome self-sustaining.

[40t03c] **Tao Huang**
Do not exalt intelligence and people will not compete;
Do not value rare goods and people will not steal;
Do not display for public view and people will not desire.
So the sage's governing methods are:
Emptying the mind,
Vitalizing the stomach,
Softening the will,
Strengthening the character.
This always makes people not know and not desire.
This always makes the knower dare not act.
Therefore, nothing is beyond ruling.

Tao functions in empty harmony.
When used, it remains full.
For sure, this source is the very ancestor of the myriad things.
Blunting the sharp edges,
Unraveling the tangles,
Husbanding into the light,
Being as ordinary as the dust.
Ah! Limpid, it seems to exist forever.
I do not know whose son it is,
This who is exceeding the Heavenly Emperor.

[40t05c] **Tao Huang**
Nature has no benevolence,
It treats all things like strawdogs;
The sage has no benevolence,
He treats his people like strawdogs.
Between heaven and earth it seems like a bellows:
Empty, yet inexhaustible,
The stronger it is activated, the greater the output.
Being overly informed leads to exhaustion,
Better to be centered.

[40t06c] **Tao Huang**
Valley spirit is deathless,
It is called the mystical female.
The gateway of the mystical female,
Is called the root of heaven and earth.
Hovering, it seems ever present.
Put to use, it is never exhausted.

[40t07c] **Tao Huang**
Heaven is eternal, and earth is long lasting.
What makes heaven and earth eternal and long lasting is that they do not give birth to themselves.
It is this that makes them eternal and long lasting.
Hence the sage,
Relaxing the body, the body comes to the fore.
Beyond the body, the body comes to the fore.
Beyond the body, the body exists of itself.
Not even relying on selflessness
Enables the self to be fulfilled.

[40t08c] **Tao Huang**
Eminent goodness is like water.
Water is good at benefiting all things,
Yet it actively competes.
It retires to undesirable places.

Thus it is near to Tao.
Dwelling in good places,
Drawing from good sources,
Supplying from good nature,
Speaking with good trust,
Governing with good rules,
Conducting with good ability,
And acting within good time.
For this reason,
There is no competition,
There is no concern.

[40t09c] **Tao Huang**
Hanging on to it will cause overflow, better to let go.
Forced consent does not endure.
Filling the house with gold and jade will not bring safety.
Riches and royalty result in pride, they bring about their own punishment.
When the work is done, the body withdraws.
This is the Tao of heaven.

[40t10c] **Tao Huang**
Donning the spirit and soul, and drawing them into Oneness,
Can this come apart?
Gathering in Qi and making the body supple,
Is this not an infant?
Being clear-headed and eliminating any mystic vision,
Can even a speck exist?
Loving the people and governing the country,
Is this not inactive?
Opening and closing the Gate of Heaven,
Is this not the female?
Comprehending the four corners of the world,
Is this not knowledge?
Begetting and nourishing,
Begetting but not possessing,
Enhancing but not dominating.
This is Mysterious Action.

[40t11c] **Tao Huang**
Thirty spokes join at one hub,
Yet it is the emptiness inside the hub that makes the vehicle useful;
Clay is molded into a vessel,
Yet it is the hollowness that makes the vessel useful;
Windows and doors are cut out,
Yet it is their empty space that makes the room usable.
So, any having makes for excess,

Any not-having makes for usefulness.

[40t12c] **Tao Huang**
Five colors blind the eyes.
Racing and hunting madden the heart.
Pursuing what is rare makes action deceitful.
Five flavors dull the palate.
Five tones deafen the ears.
So, the sage's method is for the belly, not for the eyes.
He abandons the latter and chooses the former.

[40t13c] **Tao Huang**
Favor and disgrace surprise the most.
Value the trouble as you do the body.
Why do "favor and disgrace surprise the most"?
Favor enhances only the inferior,
Receiving it is a surprise,
And losing it is also a surprise.
This is why "favor and disgrace surprise the most."
Why to "value the trouble as you do the body"?
It is only because I have a body that I have trouble.
If I did not have a body, where would the trouble be?
So, if you value the world as you do the body,
You can be entrusted with the world;
If you love the body as you love the beauty of the world,
You can be responsible for the world.

[40t14c] **Tao Huang**
Look for it and it can not be seen, it is called invisible;
Listen to it and it can not be heard, it is called inaudible;
Reach for it and it can not be touched, it is called intangible.
These three are beyond reckoning, so
When these three merge, they are One.
As for this One,
There is nothing above it remaining to be accounted for,
There is nothing below it that has been excluded.
Ever searching for it, it is beyond naming.
It returns to no-thing.
Its state is described as no state,
Its form is described as formless.
It is called the vision beyond focus.
Follow after it, and it proves endless.
Go before it, and no beginning can be found.
Employ the Tao of today in order to manage today's affairs and to know the ancient past.
This is called the principle of Tao.

[40t15c] **Tao Huang**
The ancient sages of Tao are subtle and mysteriously penetrating.
Their depth is beyond the power of will.
Because it is beyond the power of will,
The most we can do is describe it:
Thus, full of care, as one crossing the wintry stream,
Attentive, as one cautious of the total environment,
Reserved, as one who is a guest,
Spread open, as when confronting a marsh,
Simple, like uncarved wood,
Opaque, like mud,
Magnificent, like a valley.
From within the murky comes the stillness.
The feminine enlivens with her milk.
Keeping such a Tao, excess is undesirable.
Desiring no excess, work is completed without exhaustion.

[40t16c] **Tao Huang**
Reaching the ultimate emptiness,
Concentrating on the central stillness,
All things work together.
From this I observe their returning.
All things under heaven flourish in their vitality,
Yet each returns to its own root.
This is stillness.
Stillness means returning to its destiny.
Returning to its destiny is steadfastness.
To know steadfastness means enlightenment.
Not to know steadfastness is to act forcefully.
Acting forcefully brings disaster.
Knowing the steadfast implies acceptance.
Acceptance is impartial.
Impartial is regal.
Regal is heaven.
Heaven is Tao.
Tao is beyond danger even when the body perishes.

[40t17c] **Tao Huang**
The eminent has consciousness of self.
The next down are loved and praised.
The next down are feared,
At the bottom is the source.
When faith is weak, there is distrust.
Especially in the worth of speech.
Results speak for themselves.
This, people call me Nature.

[40t18c] **Tao Huang**
When the Great Tao is abandoned,
There is benevolence and righteousness.
When intelligence arises,
There is a great deal of manipulation.
When there is disharmony in the family,
There comes about filial piety.
When the country is in big trouble,
There arises patriotism.

[40t19c] **Tao Huang**
Get rid of wisdom, abandon intelligence, and
People will benefit a hundredfold.
Get rid of benevolence, abandon justice, and
People will return to filial piety and kindness.
Get rid of skill, abandon profit, and
Thieves will disappear.
These three are inadequate.
So just let things be.
Observe the plain and embrace the simple.
Do not think much and do not desire much,
Get rid of learning and worry will disappear.

[40t20c] **Tao Huang**
How much difference is there between yea and nay?
How much difference is there between beautiful and ugly?
What one fears is what he cannot help but fear.
One is in the wilderness without central ground.
Ordinary people are fulfilled,
Eating delicious food,
Reaching the climax of romance.
I am desireless and without anticipation,
Like a baby who does not yet.
Gathering energy together, entering the abyss beyond the point of no return.
Ordinary people have more than enough,
I am a fool at heart, as a water droplet is to the spring.
People of affairs are bright and intelligent.
I alone am unintelligent.
People of affairs are cunning and clever.
I alone am dull and unsophisticated,
Unnoticed in the depth of the sea,
Looked for in an endless horizon.
Ordinary people are productive,
I alone maintain the living essence within.
I alone stay with a unitary source, as if stubborn.

I want to be wholly different from everyone else,
By taking my sustenance from the mother source.

[40t21c] **Tao Huang**
The marks of profound action follow only from the Tao.
The substance of Tao is boundless and unfathomable.
Unfathomable and boundless,
In its center there is form;
Boundless and unfathomable,
In its center there is an object;
Embryonic and dark,
In its center there is essence;
The essence is very pure,
In its center there is trust.
From now to the days of old,
Its name never dies,
Because it creates all things in their beginning.
How do I know the source of all beginnings?
From this.

[40t22c] **Tao Huang**
Yield, and retain integrity.
In the depths of whirling, there is stillness.
The hollow enables the plentiful.
The old gives way to the new.
The small allows for increase.
Excess breeds confusion.
Therefore the sage holds oneness as the shepherd of the world.
He who does not display himself is seen.
He who does not justify himself is understood.
He who does not lash out succeeds.
He who does not build himself up endures.
Therefore,
Only the spirit of noncompetition makes things noncompetitive.
So the old saying, "yield, and retain integrity," is but a few words,
But when rightly understood, integrity returns.

[40t23c] **Tao Huang**
Natural speech consists of few words.
Gusty winds do not last all morning,
Cloudbursts do not last all day.
What makes this so?
Heaven and earth will not last forever,
How could a human being last!
So the person who works according to Tao unites with Tao.
In the same way he unites with action.

In the same way he unites with loss.
Uniting with action, the Tao becomes action.
Uniting with loss, the Tao becomes loss.

[40t24c] **Tao Huang**
Those who boast of themselves lose their stance.
He who displays himself is not seen.
He who justifies himself is not understood.
He who lashes out does not succeed.
He who builds himself up does not endure.
In the sense of Tao,
This is said to be eating too much and acting too much.
It results in disgust.
Those who desire will not endure.

[40t25c] **Tao Huang**
Matter is formed from chaos.
It was born before heaven and earth.
Silent and void.
Standing alone, without territory,
Able to be mother to the world.
I do not yet know its name,
I call it Tao.
With reluctance I deem it to be Great.
Great refers to the symbol.
The symbol refers to what is remote.
What is remote refers to returning.
Tao is great.
Heaven is great.
Earth is great.
Kingship is great.
These are the four great things in the world,
Kingship is one of them.
Humankind takes its origin from earth.
Earth takes her origin from heaven.
Heaven takes its origin from Tao.
Tao takes its origin from Nature.

[40t26c] **Tao Huang**
The heavy is the root of the light.
Tranquility is the master of the restless.
Thus, the noble person will travel all day without leaving his seat.
Though the center of the highest authority,
And surrounded by luxury,
He remains clear-minded.
How could the king of myriad chariots treat his body with less care than he gives the country?

Being careless loses the foundation.
Being restless loses mastery.

[40t27c] **Tao Huang**
A good traveler leaves no tracks.
A good speaker is without flaw.
A good planner does not calculate.
A good doorkeeper does not lock, yet it cannot be opened.
A good knotter does not use binding, yet it cannot be undone.
Therefore, the sage is good at his earnest demands upon people.
So no one is left out.
No talent is wasted.
This is called being in the tow of enlightenment,
And it ensures the good person.
For everything that is good is the teacher of the good person.
Everything that is bad becomes a resource for the good person.
No need to honor the teachers.
No need to love the resources.
Though knowing this is a great paradox,
It is the subtle principle.

[40t28c] **Tao Huang**
Understanding the male and holding onto the female
Enables the flow of the world.
This being the flow of the world, the eternal action abides.
Knowing that the eternal action abides is to return to childhood.
Understanding the pure and holding on to the impure
Enables the cleansing of the world.
With the cleansing of the world, ongoing action suffices.
When ongoing action suffices, it returns to simplicity.
Understanding the white and holding on to the black
Enables the formation of the world.
Being the formation of the world, ongoing action does not stray.
When ongoing action does not stray, it returns to the infinite.
This simplicity takes shape as a mechanism.
The sage makes it the head ruler.
Great ruling never divides.

[40t29c] **Tao Huang**
I see that those who want to take over the world and manipulate it do not succeed.
The sacred mechanism of the world cannot be manipulated.
Those who manipulate it will fail,
Those who hold on to it will lose it.
Matter
Either leads or follows,
Either heats or chills,

Either strengthens or weakens,
Either enhances or destroys.
So the sage abandons extremes, extravagance, multiplicity.

[40t30c] **Tao Huang**
Using the Tao as the rule for governing the people,
Do not employ the army as the power of the world.
For this is likely to backfire.
Where the army has marched, thorns and briars grow.
Being good has its own consequence,
Which cannot be seized by power.
Achieving without arrogance,
Achieving without bragging,
Achieving without damage,
Achieving without taking ownership.
This is called achieving without force.
Matter becomes strong, then old.
This is called "Not-Tao."
Dying young is "Not-Tao."

[40t31c] **Tao Huang**
The army is the mechanism of bad luck.
The elements of the world may oppose.
So those who have ambitions cannot rest.
Therefore the nobleman takes his place on the left side,
And the commander on the right side.
So the army is not the nobleman's weapon.
As a mechanism of bad luck,
He uses it only as the last resort.
Then the best way is to use it quickly and destructively.
Do not enjoy this.
To take delight in it is to enjoy killing people.
Those who enjoy killing people do not attract the favor of the world.
The good inclines to the left,
The bad inclines to the right.
Thus the intelligent officer stays on the left,
The army commander stays on the right.
Speaking in an image of sadness,
After killing the people, every one stands in mourning.
Victory is celebrated as a funeral service.

[40t32c] **Tao Huang**
Tao is eternally nameless.
Though simplicity is small,
The world cannot treat it as subservient.
If lords and rulers can hold on to it,

Everything becomes self-sufficient.
Heaven and earth combine and allow sweet dew.
Without rules, people will naturally become equal.
At the outset, the rule must be expressed.
Once it exists, stop speaking of it.
The result of not speaking of it is to eliminate danger.
In a manner of speaking, Tao is to the world
As the rivers are to oceans and seas.

[40t33c] **Tao Huang**
To know others is to be knowledgeable,
To know oneself is enlightenment;
To master others is to have strength,
To master oneself is to be powerful.
To know what is sufficient is to be rich.
To act with determination is to have will.
Not to lose one's substance is to endure.
To die, but not be forgotten is to be immortal.

[40t34c] **Tao Huang**
As the Tao is all-pervading,
It operates on both the left and the right.
Success is consequent to all affairs.
It does not proclaim its own existence.
All things return.
Yet there is no claim of ownership,
So it is forever desireless.
This can be called small.
All things return.
Yet there is no claim of ownership,
This can he called great.
The sage accomplishes greatness in not acting great.
Thus can he accomplished what is great.

[40t35c] **Tao Huang**
Holding on to the great Symbol,
The whole world carries on.
On and on without doing harm.
Being happy at peace,
Enjoying greatly the music and food,
Travelers stop by.
When the Tao is spoken forth plainly
It has no flavor at all.
Look, but that is not sufficient for seeing.
Listen, but that is not sufficient for hearing.
Use it, but it is not exhausted.

[40t36c] **Tao Huang**
When you want to constrict something,
You must first let it expand;
When you want to weaken something,
You must first enable it;
When you want to eliminate something,
You must first allow it;
When you want to conquer something,
You must first let it be.
This is called the Fine Light.
The weak overcomes the strong.
Fish cannot live away from the source.
The sharp weapon of the nation should never be displayed.

[40t37c] **Tao Huang**
Tao is eternally nameless.
If lords and rulers would abide by it,
All things would evolve of themselves.
What evolves desires to act.
I, then, suffuse this with nameless simplicity.
Suffusing with nameless simplicity is eliminating humiliation.
Without humiliation, peace arises.
Heaven and earth regulate themselves.

[40t38c] **Tao Huang**
Eminent action is inaction,
For that action it is active.
Inferior action never stops acting,
For that reason it is inactive.
Eminent action is disengaged,
Yet nothing is left unfulfilled;
Eminent humanness engages,
Yet nothing is left unfulfilled;
When eminent righteousness engages,
It reduces the results of engagements;
Eminent justice engages, but does not respond adequately to situations.
For that reason it is frustrated.
When Tao is lost,
It becomes Action;
When Action is lost,
It becomes benevolence;
When benevolence is lost,
It becomes justice.
When justice is lost,
It becomes propriety.

Propriety is the veneer of faith and loyalty,
And the forefront of troubles.
Foresight is the vain display of Tao,
And the forefront of foolishness.
Therefore, the man of substance
Dwells in wholeness rather than veneer,
Dwells in the essence rather than the vain display.
He rejects the latter, and accepts the former.

[40t39c] **Tao Huang**
Those from the past have attained Oneness.
By attaining Oneness, heaven is clear.
By attaining Oneness, earth is at peace.
By attaining Oneness, the spirit is quickened.
By attaining Oneness, the valley is filled.
By attaining Oneness, the king puts order in the whole world.
All these result from Oneness.
Without its clarity, heaven is liable to explode.
Without its peace, earth is liable to erupt.
Without its quickening, the spirit is liable to die out.
Without its fullness, valleys are liable to dry out.
Without proper esteem, the king is liable to fall.
Esteem is rooted in the humble.
The high is founded upon the low.
This is why the lords and rulers call themselves widows and orphans without support.
Is this is not the root of being humble?
Much praise amounts to no praise.
Without preference, Being is as resonant as Jade and as gravelly as stone.

[40t40c] **Tao Huang**
Tao moves by returning.
Tao functions by weakness.
All things under heaven are born of being.
Being is born of nonbeing.

[40t41c] **Tao Huang**
When eminent persons hear of Tao,
They practice it faithfully;
When average persons hear of Tao,
It seems that they practice it, and it seems they do not;
When inferior persons hear of Tao,
They ridicule it.
Without such ridicule, it would not be Tao.
Thus, the aphorism that suggests the way is:
Knowing the Tao seems costly.
Entering Tao seems like retreating.

Becoming equal with Tao gives birth to paradoxes.
Eminent action is like a valley.
Complete understanding resembles being disgraced.
Vast action seems yielding.
Action that builds up seems remiss.
Pure integrity seems perverse.
The great square has no angles.
The great talent matures late.
The great voice sounds faint.
The great image has no form.
The Tao is praised but is unnameable.
Only Tao is good at beginning and good at completion.

[40t42c] **Tao Huang**
Tao gives rise to one.
One gives rise to two.
Two gives rise to three.
Three gives rise to all things.
All things carry yin and embrace yang,
Drawing Chi together into harmony.
What the world hates is the widow and orphan without support.
But lords and rulers name themselves these.
Do not seek gain from losing, nor loss from gaining.
What people teach, after discussion becomes doctrine.
Those who excel in strength do not prevail over death.
I would use this as the father of teaching.

[40t43c] **Tao Huang**
What is softest in the world penetrates what is hardest in the world.
Nonbeing enters where there is no room.
From this I know the riches of nonaction.
Wordless teaching and the riches of nonaction is matched by very little in the world.

[40t44c] **Tao Huang**
Which is more cherished, the name or the body?
Which is worth more, the body or possessions?
Which is more beneficial, to gain or to lose?
Extreme fondness is necessarily very costly.
The more you cling to, the more you lose.
So knowing what is sufficient averts disgrace.
Knowing when to stop averts danger.
This can lead to a longer life.

[40t45c] **Tao Huang**
Grand perfection seems lacking, yet its use is never exhausted.
Grand fullness seems empty, yet its use never comes to an end.

Grand straightforwardness seems bent.
Grand skill seems clumsy.
Grand surplus seems deficient.
Activity overcomes cold.
Stillness overcomes heat.
Peace and tranquility can be the measure of the world.

[40t46c] **Tao Huang**
When there is Tao in the world, work horses are used to fertilize the land.
Without Tao in the world, the war horse flourishes in the countryside.
There is no crime greater than fostering desire.
There is no disaster greater than not knowing when there is enough.
There is no fault greater than wanting to possess.
Knowing that sufficiency is enough always suffices.

[40t47c] **Tao Huang**
In order to know the world, do not step outside the door.
In order to know the Tao of heaven, do not peer through the window.
The further out you go, the less you know.
So the sage knows without moving, identifies without seeing, accomplishes without acting.

[40t48c] **Tao Huang**
Having a zest for learning yields an increase day by day.
Hearing the Tao brings a loss day by day.
Losing more and more until inaction results.
Inaction results, yet everything is done.
Managing the world always involves nonengagement.
As soon as there is engagement, there is never enough of it to manage the world.

[40t49c] **Tao Huang**
The sage is always without his own mind.
He uses people's minds as his mind.
He is kind to those who are kind.
He is also kind to those who are not kind.
It is the kindness of Action itself.
He is trustworthy to those who are trustworthy.
He is also trustworthy to those who are not trustworthy.
It is the trust of Action itself.
In the world, the sage inhales.
For the world, the sage keeps the mind simple.
All people are fixated on the ears and eyes,
While the sage always smiles like a child.

The companions of death are three and ten.
That people live their active life necessarily leading to the ground of death is three and ten.
Why so?
It is the nature of life itself.
As a matter of fact, I hear of those who are good at preserving their lives:
Walking through, not avoiding rhinos and tigers.
Entering battle without wearing armaments.
The rhino has no place to dig its horns.
The tiger has no place to drag its claws.
The soldier has no place to thrust his blade.
Why is this so?
Because they have no place to die.

[40t51c] **Tao Huang**
Tao enlivens.
Action nourishes.
Matter forms.
Mechanism completes.
For that reason, all things worship Tao and exalt Action.
The worship of Tao and exaltation of Action are not conferred, but always arise naturally.
Tao enlivens and nourishes, develops and cultivates, integrates and completes, raises and sustains.
It enlivens without possessing.
It acts without relying.
It develops without controlling.
Such is called mystic Action.

[40t52c] **Tao Huang**
The world begins with the mother as its source.
When you have the mother, you know the son.
When you know the son, return to preserve the mother.
Although the body dies, there is no harm.
By closing your mouth and shutting the door, there would be no wearing down of life.
When opening the mouth and pursuing your affairs, life cannot be preserved.
Seeing what is small is discernment.
Preserving subtleness is strength.
Using the light enables one to return to discernment.
Without losing the center of the body is called penetrating the eternal.

[40t53c] **Tao Huang**
Through discrimination, I have the knowledge to walk in the great Tao.
The only fear is what is other than that.
The great Tao is quite smooth, yet people prefer a short-cut.
The court is so busy legislating that the fields go uncultivated and granaries are all empty.
They wear the magnificent clothing, girdle the sharp swords.
They are gorged with food and possess many brides.
Their bounty suffices but they continue to steal.

This is opposite of Tao.

[40t54c] **Tao Huang**
What is well-built is not pulled down.
What is well-fastened is not separated.
Sons and grandsons worship unceasingly.
Cultivate the self, and the Action is pure.
Cultivate the family, the Action is plentiful.
Cultivate the community, the Action endures.
Cultivate the nation, the Action is fruitful.
Cultivate the world, the Action is all-pervading.
Treat the self by the standard of self.
Treat the family by the standard of family.
Treat the community by the standard of community.
Treat the nation by the standard of nation.
Treat the world by the standard of world.
How do I know how the world is such?
Thus.

[40t55c] **Tao Huang**
Action in its profundity is like a newborn baby.
Poisonous insects and venomous snakes do not sting it.
Predatory birds and ferocious animals do not seize it.
Its bones are soft and its sinews supple, yet its grasp is firm;
Without knowing the union of male and female, its organs become aroused.
Its vital essence comes to the point;
Crying all day, its voice never becomes hoarse.
Its harmony comes to the point.
Harmony is eternal.
Knowing harmony is discernment.
Enhancing life is equanimity.
Generating vitality through mind is strength.
When things reach their climax, they are suddenly old.
This is "Non-Tao."
"Non-Tao" dies young.

[40t56c] **Tao Huang**
Those who know, do not say.
Those who say, do not know.
Close the mouth.
Shut the door.
Merge into light.
As ordinary as dust.
Blunt the sharpness.
Unravel the entanglements.
This is called mysterious sameness.

You are not intimate by acquiring it;
You are not distant in not acquiring it.
You do not profit by acquiring it;
You do not lose it by not acquiring it.
You are not ennobled by acquiring it;
You are not disgraced by not acquiring it.
This enables the nobility of the world.

[40t57c] **Tao Huang**
Using the right lawfulness to govern the country.
Using unexpectancy to conduct the battle.
Using disengagement to take over the world.
How do I know this is so?
Thus.
The more prohibitions there are in the world, the poorer people will be.
The more destructive weapons people have, the more chaotic the nation will become.
The more know-how people have, the more bizarre things will appear.
The more rules and demands that flourish, the more thefts there will be.
Therefore the sage says:
When I am inactive, people transform themselves.
When I abide in stillness, people organize themselves lawfully.
When I am disengaged, people enrich themselves.
When I choose nondesire, people remain simple.

[40t58c] **Tao Huang**
When the government is silent, people are sincere.
When the government is intrusive, the state is decisive.
Disaster is what fortune depends upon,
Fortune is what disaster subdues.
Who knows a final outcome?
There is no right lawfulness.
Justice tends towards the extreme.
Kindness tends towards evil.
People have been familiar with this for a long time.
So,
Be rounded without cutting.
Be compatible without puncturing.
Be straightforward without trapping.
Be bright without dazzling.

[40t59c] **Tao Huang**
For governing people and serving the heaven, nothing is better than frugality.
Only frugality enables the pre-empty measures.
Pre-empty measures mean a great accumulation of Action.
A great accumulation of Action leaves nothing to be conquered.
When nothing needs to be conquered,

No-boundary is known.
When no-boundary is known, it allows the country to exist.
The country, existing from its source, can endure.
This is the Tao of having a deep root, a strong stem, a long life, and an enduring vision.

[40t60c] **Tao Huang**
Governing a large country is like cooking a small fish.
If Tao is utilized to manage the society, its ghost will not become spirit.
Not that ghost is not spiritual, but that the spirit harms no people;
Not only does the spirit harm not the people, but that the sage is harmless.
As those two cause no harm, they are united in Action.

[40t61c] **Tao Huang**
A great nation flows downwardly, it is the mother of the world and the integration of the world.
The mother is always tranquil and overcomes the male by her tranquility, so she benefits the world.
A great nation relies on a low position to take over a small nation.
A small nation, being in a low position, is taken over by a great nation.
So being lower allows taking over or being taken over.
Being a great nation only desires to unify the people.
Being a small nation only seeks people's business.
They both get what they want, but the greater is being lower.

[40t62c] **Tao Huang**
Tao is the conductor of all things.
The treasure of the good.
The protector of the bad.
Beautiful words can advertise well.
Noble conduct brings praise to people.
As for those who conduct the bad, why reject them for it?
Therefore, after the crowning of the emperor comes the appointing of three administrations.
Being presented with jade in front of the team of four horses is not better than sitting and entering thus.
The reason why this is valued of old is,
It allows having without asking, and it allows forgiveness of wrong.
Thus, it is most valuable to the world.

[40t63c] **Tao Huang**
Do nondoing.
Engage in non-affairs.
Savor non-flavor.
Large or small, many or few, reward or punishment, are all being done through Action.
Seek what is difficult with ease.
Effect what is great while it is small.
The most difficult things in the world are done while they are easy.
The greatest things in the world are done while they are small.
The sage never plans to do a great thing.
Thus, he accomplishes what is great.

Underdog_way.pdf, revision 8, sanmayce@hotmail.com, a corpus of 50(42 english, 8 russian) proofed(many originals' bugs crushed) translations of 老子道德經 or Lao Zi Dao De Jing

Facile promises necessarily result in little trust.
What is easy necessarily entails difficulty.
Thus the sage, through extreme trials, encounters no difficulty.

[40t64c] **Tao Huang**
It is easy to sustain what is at rest.
It is easy to plan for that of which there is not even a sign.
What is fragile is easily broken.
What is minute is easily dispersed.
Act upon it before it exists.
Regulate it before it becomes chaos.
A massive tree grows from a little sprout.
A nine-story-building rises from a clod of earth.
A thousand fathoms begin with a single step.
Those who impose action upon it will fail.
Those who cling to it lose it.
So the sage, through nonaction, does not fail.
Not clinging, he does not lose.
The common people's engagement in affairs fails prior to success.
So the saying goes,
"Give as much careful attention to the end as to the beginning, then the affairs will not fail."
It is on that account that the sage desires not to desire and does not value goods that are hard to get.
He learns not to learn and restores the common people's losses.
He is able to support the nature of all things and, not by daring, to impose action.

[40t65c] **Tao Huang**
Those who practiced Tao in olden times did not enlighten people,
Rather they made them simple.
What makes it the hardest to govern the people is what they already know.
It becomes most difficult to govern people because of their knowledge.
So, using knowledge to govern the country, knowledge itself becomes the thief of the country.
Not using knowledge to govern the country, knowledge itself is the Action of the country.
Always realize that these two are the model for ruling.
Always be aware that this model is the mystic Action.
Mystic Action is deep and far-reaching.
It is the opposite of matter.
Only thus does it approach the Great Harmony.

[40t66c] **Tao Huang**
The reason why rivers and seas have the capacity for kingship over all the valleys is that they excel in lowliness.
That is why they have the capacity for kingship over all valleys.
Thus, since the sage wants to elevate the people, his speech is down to earth.
Since the sage wants to advance the people, he positions himself at the back,
So that when he is at the front, people do not harm him.
When he stands above, people do not feel pressure.

The whole world supports him untiringly.
Since he does not rely on competition, the world has nothing with which to compete.

[40t67c] **Tao Huang**
Everyone in the world says I am great, great without parallel.
Being without parallel is what enables greatness.
If there is a long-standing parallel, it becomes small.
I always have three treasures:
First is compassion.
Second is frugality.
Third is to not dare act in front of the world.
So compassion enables courage.
Frugality enables abundance.
Not daring to act in front of the world enables the mechanism to endure.
Today there is courage without compassion.
There is abundance without frugality.
There is appearance alone without substance.
This means no-life.
Through compassion: fight and win, defend and be secure.
When the heaven establishes itself, it always relies upon compassion.

[40t68c] **Tao Huang**
Being a good warrior does not entail power.
A good fighter is not angry.
One who is good at overcoming the enemy does not contact him.
One who is good at leading people acts humbly.
This is called the Action of noncompetition.
This is called leading people.
This is called the Ultimate as old as heaven.

[40t69c] **Tao Huang**
There is a saying on using military force:
I dare not be the host, but rather a guest.
I dare not advance an inch, but rather retreat a foot.
This is called performing without performing, rolling up one's sleeves without showing the arms.
By not holding on to an enemy, there is no enemy.
There is no disaster greater than having no enemy.
Having no enemy almost destroys my treasure.
When opposing armies clash, those who cry win!

[40t70c] **Tao Huang**
My words are easy to understand and easy to apply.
Yet no one in the world can understand them and no one could apply them.
Words have their origin, and events have their leader.
Only because of prevailing ignorance am I not understood.
The fewer who understand me, the more precious I am.

So the sage wears shabby cloth, but holds a treasure within.

[40t71c] **Tao Huang**
Knowing that you don't know (everything) is superior.
Not knowing that you don't know (everything) is a sickness.
So the sage's being without sickness is that he knows sickness as sickness;
Thus, he is without sickness.

[40t72c] **Tao Huang**
People are fearless before the power.
If fear arises, it will be a great fear.
Not constraining the living environment,
They do not get bored by life.
Because we do not get bored, there is no boredom.
Therefore the sage is self-aware but not introspective.
He has self-respect but does not price himself.
He rejects one and takes the other.

[40t73c] **Tao Huang**
Courage combined with daring promotes killing.
Courage not combined with daring promotes life.
These two can be either beneficial or harmful.
Who knows the reason for what heaven hates?
The Tao of heaven is
Good at winning without fighting,
Good at responding without speaking,
Appearing without being asked,
Good at strategizing while fighting.
The net of heaven is broad and loose,
Yet nothing slips through.

[40t74c] **Tao Huang**
Whenever people are unafraid of death, how can killing be used as a threat?
Whenever people are afraid of death and are acting contrary, I will catch and kill them, who else can act so?
When people are absolutely afraid of death but perform killing, they are the best qualified to be executioners.
This is like doing carving for a master craftsman.
Doing the carving for a master craftsman, how could one's hand not get cut?

[40t75c] **Tao Huang**
The reason people are starving is because the government taxes too much.
This is the reason for starvation.
The reason people are hard to govern is because their leaders are actively engaged.
This is why they are hard to govern.
The reason people are not serious about death is because they seek the burdens of life.
This is why they are not serious about death.
Only those who are not slaves to life are wise to the value of life.

2313/2593

[40t76c] **Tao Huang**
When people are born, they are soft and gentle.
When they die, they are stiff and callous.
When myriad things, grasses and trees, are born, they are soft and tender.
When they die, they are withered.
So stiffness and callousness are the company of death.
Softness and suppleness are the company of life.
The powerful army will not win.
A stiff tree will break.
So stiffness and power stay below.
Softness and suppleness stay above.

[40t77c] **Tao Huang**
The Tao of heaven is like drawing a bow.
The high bends down,
The low rises up.
The surplus decreases,
Insufficiency is supplied.
So the Tao of heaven reduces what is surplus and enhances what is insufficient.
The human Tao reduces what is insufficient and caters to the surplus.
Who can use the surplus to benefit the heaven?
Only those who possess Tao.
So the sage
Exists without ownership,
Accomplishes without holding on.
It is thus, without desire, that the wise see.

[40t78c] **Tao Huang**
Nothing in the world is softer and more supple than water.
When confronting strength and hardness nothing can overcome it.
Using nothing simplifies.
Using water overcomes hardness.
Using weakness overcomes strength.
There is no one in the world who does not know it, but no one can apply it.
So it is a saying of sages that:
Whoever can bear the disgrace of the country is the ruler of the country.
Whoever can bear the misfortune of the world is the ruler of the world.
Truthful speech seems paradoxical.

[40t79c] **Tao Huang**
Reconciling a great hatred necessarily entails unsolved hatred.
How can this be kindful?
So the sage honors the left-hand tally but does not blame people.
Before the kind Action, hold onto the tally.
Before the kindless Action, hold onto the openness.

The Tao of heaven is impersonal.
It enhances those who are kind.

[40t80c] **Tao Huang**
A small country has few people.
Weapons are far more numerous than the people, but they are not used.
Let people be serious about death and enjoy a long journey.
Though there are carriages and boats, they are not useful for travel.
Let people return to:
Use the technique of knotting the rope,
Enjoying the food,
Appreciating the cloth,
Delighting in customs,
Settling into their living conditions.
The neighboring countries are in sight.
The sounds of dogs and chickens are heard.
People grow old and die without interference from each other.

[40t81c] **Tao Huang**
Trustworthy words are not beautiful.
Beautiful words are not trustworthy.
The knower does not know everything.
The know-it-all knows nothing.
Kindness is not overindulgent.
Overindulgence is not kind.
The sage does not collect.
As soon as he exists for others, he has more.
As soon as he gives to others, he has more.
So the Tao of heaven benefits and does not harm.
The Tao of humankind exists and does not compete.

[41t01c] **Tang Zi-chang**
Dao that can be talked about is not the eternal Dao itself;
A name that can be given is not the eternal thing itself.
The nameless existed
Before the birth of birth of Heaven and Earth - Universe;
The names which were given were after
The birth of All Things.
By the eternity of unknown existence
Comprehend the common essence of things;
By the eternity of Existence
Observe the apparent differences.
These two came from the same origin - the unknown,
But with different names.
They all are called the "profoundness",
Profoundly and profoundly it is the entrance
From which come all wonders.

[41t02c] **Tang Zi-chang**
When the whole world recognizes that beauty is beautiful,
It may be not beautiful at all.
When the whole world recognizes that goodness is good,
It may not be good at all.
Thus, existence and nonexistence produce each other.
The high and the low are compared with each other.
The long and the short show off each other.
The high and the low compliment each other.
The front and the rear follow each other.
Thus the Sage ruler administered state affairs by non-interference and carried out education by non-preaching.
All things are resolved in order and nothing is rejected.
It produces All Things but it does not possess them.
It provides everything for them but it does not take anything from them.
He accomplished deeds for them, but he did not claim the deeds.
Since he did not claim the deeds, they did not leave him.

[41t03c] **Tang Zi-chang**
Promote no exalted persons, thus enabling the people to cease competition.
Prize no rare goods, thus enabling the people to cease robbery.
Don't display desirable things.
Let people's minds be undisturbed.
A Sage ruler enabled them to be tranquil in their hearts;
be filled in their stomachs;
be weakened in their ambitions;
be strengthened in their will.
He made them less intelligent and less desirous.
If intelligent people are made afraid of doing wrong, then no one in the world can not be governed.

[41t04c] **Tang Zi-chang**
Dao is charged to produce these gases into orderly use.
The eternal capacity will never overflow.
Profoundly!
It is the ancestor of All Things!
It blunts all sharpness;
it settles all disputes;
it harmonizes all lights and it unites all lands.
The clear mind will be constantly receptive.
We do not know whose descent it is.
It existed before all phenomena and all lives.

[41t05c] **Tang Zi-chang**
Heaven and earth are not benevolent because they make All Things sacrificial victims.
Sage rulers were not benevolent because they punished the people as sacrificial victims.
Between the heavens and the earth there is nothing but an empty space!
It may be compared to a bellow or pocket of vast capacity.
Humbly modest but not submissive.
The more it moves, changes, the more nearly perfect it becomes.
Excess means Extreme.
It is better to hold fast to perfection.

[41t06c] **Tang Zi-chang**
The unlimited capacity of valleys;
the unbelievable power of Spirits;
and the unending life of immortality are called the Profound Origin Mother.
The beginning of the Profound Origin Mother is the root of Heaven and Earth.
Endlessly, endlessly!
It is existing.
Yet its usefulness is invisible.

[41t07c] **Tang Zi-chang**
Heaven is enduring and earth is lasting.
Why heaven and earth can be enduring and lasting is because they do not live for themselves, thus, they can endure and last.
So that a Sage ruler put himself behind others, and he came to the front;
he excluded himself from struggle with others and he survived.
It is because he was selfless that he fulfilled himself.

[41t08c] **Tang Zi-chang**
Perfect excellence is like gentle water.
Gentle water benefits All Things and yet it does not struggle.
Do away with what all people hate.
Thus this is approaching Dao.
Give to what is of perfect personnel.

Stay in a perfect place,
think in a perfect way,
cooperate with perfect people,
speak perfect truth,
govern in perfect order,
work for perfect potentiality,
move when the time is perfect.
Because of non-struggle, therefore, there is no blame.

[41t09c] **Tang Zi-chang**
Do not concentrate one's wealth in abundance.
It is far better for one to know where to stop.
Do not beat one's sword sharp, one can never keep its edge for ever.
If their houses are full of gold and jade, they have no way to keep them forever.
If they are proud of having great riches and honors, they just make more troubles for themselves.
When merits have been achieved, fame has been completed - one may withdraw himself.
That is to follow the law of Nature.

[41t10c] **Tang Zi-chang**
By keeping the body and soul balanced, they can not be split.
By soft breathing and being tender, one can be innocent.
By purifying the mind and broadening views, one can be free from errors.
By loving the people and serving the country, one should not interfere.
If one's mind is indecisive, one should make it inactive.
By thoroughly understanding all angles, one can discard dogmatism.
It gives life, nourishes them.
It produces all things but it does not possess them.
It provides everything for them but it does not take anything from them.
It leads them but does not lord over them.
This is called the "incomprehensive Virtues".

[41t11c] **Tang Zi-chang**
To combine two thirty-spoke wheels makes a cart.
Where there is a capacity in it, it possesses the function of a cart.
A lump of clay can be made into pottery.
Where there is a capacity within it, it possesses the function of a vessel.
A house is built with windows and doors.
Where there is a capacity in it, it possesses the function of a house.
Thus to possess a thing is for its utility, while its capacity is its function.

[41t12c] **Tang Zi-chang**
Five excessive colors make people blind;
five excessive sounds make people deaf;
five excessive flavors rob people's taste;
racing and hunting make people mad;
and rare goods make people steal.

Thus a Sage ruler took care of people's basic-needs (stomachs), not their excessive-desires (luxuries).
Thus he eliminated desires and supplied needs.

[41t13c] **Tang Zi-chang**
Yet, honor and dishonor cause the same excitement.
Pleasure and worry affect the same body.
What does it mean by "honor and dishonor cause the same excitement"?
People look up to honor and look down upon dishonor.
They are excited when they get the honor;
they also are excited when they lose the honor.
What does it mean by "the great worry of man is because of love for self"?
The reason that we have worry is because we have ourselves.
If we could forget ourselves, what else remains to be our worry?
Hence, if one loves the world as much as himself, he may be able to rule the world.
If one treasures the world as much as himself, he may be trusted with the world.

[41t14c] **Tang Zi-chang**
Look at it, but it cannot be seen, it is called "the shapeless".
Listen to it, but it cannot be heard, it is called "the soundless".
Grasp it, but it cannot be held, it is called "the bodyless".
These three characteristics are incomprehensible, yet they uniquely constitute the oneness of Dao.
Look upward, it is not clear.
Look downward, it is not dim.
Continuously, continuously!
We are unable to trace it's original name because it returns to the state of Unknown existence.
It is called "the formless form" and "the imageless image".
That is why it is called "the indistinct and elusive".
To embrace Dao from ancient times is to know the original causes of the past in order to control what is going on in the present.
This is called "the Law of Dao".

[41t15c] **Tang Zi-chang**
The ancient scholar knew how to be perfect:
keep himself subtle, wonderful, profound and flexible.
He kept his mind so deep that it could not be fathomed!
Because it could not be fathomed, it could only be described superficially:
Hesitatingly, like one who is crossing a stream in winter;
Timidly, like one who is new to his surrounding neighbors;
Reservedly, like a new guest;
Yieldingly, like ice which is melting;
Honest, like Pure Matter;
Obscure, like muddy water;
and Capacious, like a deep valley.
Who can calmly make the muddy (chaotic) clear (orderly)?
Who can calmly change the static (matter) into dynamic (force)?
To return to Dao is to let the capacity of mind not be over-filled.

Only the mind which is not over-filled can renew the old and perfect the new.

[41t16c] **Tang Zi-chang**
To have the greatest capacity of mind, keep it quiet and patient,
All things are resolved in order,
In order to understand the merit of Return.
While individual things are growing simultaneously yet all of them will return eventually to the original root (Pure Matter).
To return toward the original root is to see the static phenomenon.
To see the static phenomenon is to know the original order.
To know the original order is to know the eternal law.
If one does not know the eternal law and acts only by means of trial and error he will end in disaster.
By knowing the eternal law one can have capacity;
by having capacity one can be impartial;
by being impartial one can be perfect;
being perfect one can be superior;
by being superior one can be eternal;
and by being eternal one can approach Dao.
There will be no discontinuation of life, even though a human body will die.

[41t17c] **Tang Zi-chang**
The highest rule is that the people are not aware of being ruled.
The next is that they love and praise it.
The last is what they fear and defy.
Truth alone is not enough, some truth is not always true.
It is still better to have Economy of Words.
After personal duties were accomplished, and the state affairs were satisfied - all people said "He is natural".

[41t18c] **Tang Zi-chang**
When the superior Dao was lost, benevolence and righteousness were created.
When intelligence and skills prevailed, superior hypocrisy was displayed.
When family relations were not in harmony, filial piety and parental kindness were encouraged.
When a country was in disorder and justice failed, loyalty and reliability were required.

[41t19c] **Tang Zi-chang**
Abandon sagacity and drop intelligence, the welfare of people can be increased hundredfold;
abandon benevolence and drop righteousness, the people will rejoice in filial piety and parental love;
abandon crafts and profits, robbers and thieves will cease to exist.
These three are remedies for artificial civilization.
They can never bring about satisfaction:
people should be led to, where they belong - The Nature.
He stopped research, reduced desires, sought plainness, and embraced original simplicity.

[41t20c] **Tang Zi-chang**
Abandon learning, there will be no worry!
What is the real meaning between Yes and No?

What is the clear distinction between good and bad?
What all men fear, one has to fear.
Most people are busy, busy and never know where to stop.
Most people are happy-go-lucky, as though they are attending a great feast or as though they are ascending a tower for sight-seeing in spring time.
My desire has not yet even started, like an infant who has not yet become a child.
They are rushing and rushing, and never know where to rest.
Most people desire more;
I alone prefer less.
I am simple,
Pure and calm.
Most people feel bright, bright;
I alone seem to be dull.
Most people are searching, searching;
I alone keep quiet, quiet.
Like a calm ocean moving without end.
Most people feel that they have merits;
I alone feel myself useless and worthless.
I alone am different from others and still prefer to drink mother's milk.

[41t21c] **Tang Zi-chang**
The capacity of Grand Virtues is obtained only by following Dao.
Dao is a matter, even though it is indistinct and elusive.
It is elusive and indistinct, yet within it All Images are formed;
It is indistinct and elusive, yet within it All Things are created;
It is shadowy and obscure, yet within it All Vitalities are produced.
It's own vitality is real and valid.
Throughout the past and present the name of Dao has never been dropped.
It observes All Origins.
How do we know that All Origins are so?
By these observations.

[41t22c] **Tang Zi-chang**
Through tolerance can perfection be attained.
By "indirect way" can "direct way" be reached.
Through lowness can highness be maintained.
Through old fashion can new fashion be created.
By "have less" can "have more" be possible.
By having plenty only confusion will result.
Hence one who does not show off is enlightened.
One who does not boast of himself has merit.
One who does not claim credit for himself is popular.
One who does not brandish his success thus leads all.
Because of non-struggle, therefore there is nothing under heaven which can struggle with him.
The ancient saying:
"Through tolerance can perfection be attained."

Is it an empty talk?
Thus, if one attains perfection everything under heaven will follow him.

[41t23c] **Tang Zi-chang**
Let us observe nature:
A heavy rain can hardly outlast the morning;
a violent hurricane can hardly outlast the day.
Who is responsible for this?
The Heaven and the earth - the Nature.
If the Heaven and the earth however can not make things great and lasting, how could a man expect to do even more?
Thus one who practices Dao is in accord with Dao.
One who is in accord with virtues thus attains virtues.
One who is not in accord with Dao loses Dao.
One who is not in accord with virtues loses virtues.
Truth alone is not enough, nevertheless some truth is not true.

[41t24c] **Tang Zi-chang**
One on tiptoe can not stand well.
One with hard breathing can not live long.
One astride can not walk well.
A self-displayer is not enlightened.
A self-asserter is not popular.
A self-approver has no merit.
A self-boaster can not lead.
From the point of view of Dao this is called "surfeit of food and a tumour on the body".
It is hated by everything!
Thus a man of Dao will never resort to it.

[41t25c] **Tang Zi-chang**
There was something unique manifesting from chaos before the birth of Heaven and Earth.
Remotely!
It stands alone without deviation!
Cyclically!
It moves without an end!
It may be called the mother of the Heaven and the Earth.
We do not know its eternal name but give it the name Dao.
Constrained to give a name, it may be called "Movement".
After moving it is called "Departure".
After departing it is called "Extreme".
To avoid remaining in the extreme, it may be called "Return".
Dao is superior;
the universe is superior;
the world is superior;
and the ruler is superior.
There are four superiors in existence among which the ruler is one.

Thus, the ruler should follow the law of the world.
The world should follow the law of the universe.
The universe should follow the law of Dao.
Dao follows its own law - the law of Nature.

[41t26c] **Tang Zi-chang**
Heaviness is the cause of lightness.
Serenity is the effect of restlessness.
Therefore, a commanding officer does not risk parting with his supply trains even for a single day journey.
Even though he had honors and respect from others, he stayed at ease and on high.
How could a ruler of "ten thousand chariots" (the King), take a risk lightly before the world?
To be light will then lose the effect.

[41t27c] **Tang Zi-chang**
The perfect traveler does not need a trail.
The perfect speaker does not leave any argument.
The perfect planner does not need a sketch.
The perfect door does not need a latch.
The perfect binder does not need string.
Hence Sage rulers always perfectly saved people, thus nobody was abandoned;
and always perfectly saved things, thus nothing was wasted.
This is called "blocking enlightenment".
The good person is the teacher of the bad person.
A bad person is a lesson for the good person.
Esteem the teacher and be aware of the lesson.
Otherwise even though one is intelligent, he will be misguided.
These are the marvelous functions of Dao.

[41t28c] **Tang Zi-chang**
Know what is the Male - Positive and know what is the Female - Negative.
Be a servant of the world, be a servant of the world, by never departing from virtues in order to lead the world to return to the state of innocent infancy.
Know what is known and reserve what is unknown.
Be a model of the world, be a model of the world, by never failing to attain virtues in order to lead the world to return to a state of "void" - trouble free.
Know what is honorable and know what is dishonorable.
Be the destiny of the world, be the destiny of the world, by constantly accumulating virtues in order to return again to purity Pure Matter.
Ever since Pure Matter purity was changed into civilization,
Sage rulers have used officials as the instruments of rule.
The superior system of rule may exercise no division.

[41t29c] **Tang Zi-chang**
Will anybody want to lead the world according to his selfish design?
I see that he will never attain his end.
The sacred instrument of the world cannot be grasped or intervened:

2323/2593

one who intervenes will be defeated;
one who grasps will lose it.
Among things:
some are moving ahead, others are following behind;
some are breathing in air, others are breathing in water;
some are strong, others are weak;
some are still carried on and some are dropped.
Therefore, a Sage ruler avoided:
Extreme, Extravagance and Indulgence.

[41t30c] **Tang Zi-chang**
A ruler who is in accord with Dao will never use military force to override the world,
Because this kind of affair ensures reciprocal killing.
Once an army has operated in the field there is nothing left growing but thorny bushes.
Once a great war is over, invariably there are horrible years following.
The perfect fighter is decisive, yet he does not allow himself to be violent.
Decisive but not proud;
decisive but not boastful and decisive when he is obliged to fight.
Be decisive but not aggressive.
A matured living body will soon grow old.
That is called "aberration of Dao".
Aberration of Dao will cause early death.

[41t31c] **Tang Zi-chang**
War is an unlucky instrument.
It is hated by everything!
Thus a man of Dao will never resort to use it.
A position taken by a gentle official is on the right - honorable side;
the position taken by a war conductor is on the left - less honorable side.
War is an unlucky instrument, it is not the instrument of a gentle ruler.
They are obligated to die and utilized by the authority.
To keep calm and have peace of mind is to be superior.
Victory of war is not delightful:
if one delights in war, he delights in killing people;
if one delights in killing people, it will never be possible for him to be at peace with the world.
Thus on happy occasions the right side is honored.
On sad occasions the left side is honored.
During a war, many people are killed,
It should be taken mournfully.
Even a victory should be treated as a funeral.

[41t32c] **Tang Zi-chang**
The eternity of Dao has no name:
Even though Pure Matter is infinitely small, its function is so superior that it is next to none,
If rulers can follow the model of nature, everything under the heaven will render homage to them,
Then the people would automatically be equally sufficient without being directed.

It was named after the initiation of regulations, when names were given,
Then one will know how to rest.
To know how to stop will not reach a perilous end.
The application of Dao to the world is like the relation of oceans to rivers.

[41t33c] **Tang Zi-chang**
One who knows others is intelligent.
One who knows himself is enlightened.
One who overcomes others has power.
One who disciplines himself has will power.
One who knows satisfaction is rich.
One who overcomes himself is strong.
One who does not lose one's personality, endures.
One who is dead and never forgotten has longevity.

[41t34c] **Tang Zi-chang**
How all-pervading the superior Dao is!
It could be on the left, it could be on the right.
Upon it the life of all things depends and it does not deny anyone.
It accomplishes merits but it does not possess fame.
It shields and nourishes All Things but it does not lord over them.
It may be called the Superior.
Hence, a Sage ruler never wishes to be superior.
Therefore he eventually became superior.

[41t35c] **Tang Zi-chang**
He who holds fast to the superior model, the whole world may follow him without ado.
They follow him without harm, but with comfort, equality and prosperity.
Musical temptation and food's flavor can stop a traveler on the road.
When Dao is tasted by mouth, it is mild and without flavor.
When it is looked at, it cannot be entirely seen;
when it is listened to, it cannot be entirely heard;
and when it is taken, it cannot be eaten.

[41t36c] **Tang Zi-chang**
What is to be contracted may need to be expanded;
what is to be weakened may need to be strengthened;
what is to be reduced may need to be increased;
and what is to be reformed may need to be impaired.
This is called "Starting enlightenment".
A fish cannot live out of water.
A country with deadly weapons should never demonstrate them before others.

[41t37c] **Tang Zi-chang**
The eternity of Dao contrives nothing, yet it provides everything.
If rulers can cling to it - Dao,

All Things will transform (change) themselves.
Any artificial desire occurring during the transformation, shall be suppressed by the nameless "Purity" (Pure Matter).
Nameless "Purity" (Pure Matter) will do away with artificial desires.
When artificial desires have been done away with, all peoples will be at peace and the world order will be established automatically.

[41t38c] **Tang Zi-chang**
When conduct is of high virtue, one is unconscious of virtue, thus he can accomplish virtue.
When conduct is of low virtue, one is conscious of virtue, thus he cannot accomplish virtue.
High virtue does not contrive and has no desire for gain.
Low virtue also does not contrive but has desire for gain.
High benevolence does contrive yet it has no desire for gain.
High righteousness does contrive and also has desire for gain.
High ritual does not only contrive and desire, but is also violent:
if it finds no response at all, it resorts to fighting its way out with stretched arms.
Hence when Dao is losing, then its virtues are losing.
When virtues are losing, benevolence is encouraged.
When benevolence is losing, the righteousness is encouraged.
When righteousness is losing, then rituals are encouraged.
Rituals stand for the lack of loyalty and reliability and are the beginning of disorder.
Divination stands for the emotional performance of Dao and is the beginning of stupidity.
Therefore the superior man prefers to possess few things rather than an abundance, to have insight rather than to see superficially.
Thus he prefers insight to superficiality.

[41t39c] **Tang Zi-chang**
Since the beginning of Heaven and Earth, there were things attaining balance:
through attaining balance, Heavens equilibrated;
through attaining balance, the Earth became secure;
through attaining balance, minds became calm;
through attaining balance, valleys became capacious;
through attaining balance, All Things became productive;
through attaining balance, rulers achieved justice throughout the world.
Were the heavens are not equilibrated, they might collapse;
were the Earth not secure, it might quake to bits;
were minds not calm, they might be disrupted;
were valleys not capacious, they might dry up;
were All Things non-productive, they might become extinct;
were rulers not obtaining justice throughout the world, they might fall.
Hence, the rulers established the rule based on the ruled;
and the highness was built upon the foundation of the lowness.
When rulers called themselves "orphans", "widows" and "indigents" reminds that they established the rule according to the needs of the ruled.
Did they not?
Thus frequent flattery becomes no flattery.

Therefore, a perfect gentleman has no excessive desires:
He is smooth like smooth jade!
He is solid like solid rock!

[41t40c] **Tang Zi-chang**
To return is to complete the movement - change.
To be tender is a virtue of Dao.
Universe (Heaven and Earth) and All Things were given birth by Existence.
Existence was given birth by Unknown-Existence.

[41t41c] **Tang Zi-chang**
The superior scholar hears of Dao, he may devote himself to it and follow it;
the average scholar hears of Dao, he sometimes understands it and sometimes he ignores it;
and the inferior scholar hears of Dao, he greatly ridicules it.
If it is not superior, it would not be Dao.
Thus, there are sayings in the Book of Establishment:
Enlightened Dao looks as if obscured;
advanced Dao looks as if retreating and the smooth way of Dao looks as if rugged;
high virtue looks as if common;
the superior distinction may seem indistinct;
abundant virtue looks as if insufficient;
vigorous virtue looks as if easy-going and pure virtue looks as if stupidity.
The superior square may seem to be cornerless.
The superior personality may be established late.
The superior sound may have no way to be heard.
The superior model may seem to be insignificant.
The function of Dao has no name.
It is Dao - the impartial law of nature that knows best how to help and accomplish.

[41t42c] **Tang Zi-chang**
Dao gave birth to One - Existence: Heaven;
One gave birth to Two - Coexistence: Heaven and Earth;
Two gave birth to Three: Heaven, Earth and Life;
and Three gave birth to All Things.
All Things are sustained by Yin - the inactive cosmic gas, and are embraced by Yang - the active cosmic gas.
To produce these gases into orderly use is to harmonize them.
What the people hate are: "orphanhood", "widowhood" and "indigence".
Yet these terms are used as designations by rulers.
Materialistically, one may gain by losing,
Similarly, one may lose by gaining.
What people preach I also preach.
Then I shall be the master of preaching.
A violent person cannot die a natural death.

It comes from the unknown (non-existence) and it enters no space.
From this we know how advantageous is non-interference!
Thus, education by non-preaching and the policy of non-interference have merits with which nothing under heaven can compare.

[41t44c] **Tang Zi-chang**
Between your fame and yourself, which is closer to you?
Between yourself and your wealth, which is more dear to you?
Between gain and loss, which is more of a burden to you?
Thus, excessive lust will cost one a great deal in the end.
Excessive wealth will make one suffer a heavy loss.
One who knows satisfaction will not be disgraced.
One who knows when to stop will not reach a perilous end.
Then he can rule everywhere and forever.

[41t45c] **Tang Zi-chang**
The superior perfection may seem imperfect.
Because of its vast capacity, its function is never exhausted.
Because of its vast capacity, its function is never limited.
The superior fulness may seem empty.
The superior straightness may look like crookedness.
The superior skill may appear clumsy.
The superior eloquence may sound like stammering.
Inaction overcomes restlessness.
Inaction overcomes impulsiveness.
Quiescence overcomes irritation.
He kept purity and tranquility to be the model of the world.

[41t46c] **Tang Zi-chang**
When the world was under the rule of Dao, horses were distributed to cultivate farms.
When the world was without the rule of Dao, horses were armed and brought to battlefields.
No fault if greater than excessive desire.
No calamity is greater than to know no satisfaction.
No sin is greater than excessive gain.
To know satisfaction is to be always satisfied.

[41t47c] **Tang Zi-chang**
Without leaving the door one may know the course of the world.
Without looking through the window one may see the law of nature.
The maximum extreme possesses a minimum of knowledge.
Hence a sage ruler knew without traveling;
designated without seeing;
and accomplished without interfering.

[41t48c] **Tang Zi-chang**
To learn daily will increase desires.

Underdog_way.pdf, revision 8, sanmayce@hotmail.com, a corpus of 50(42 english, 8 russian) proofed(many originals' bugs crushed) translations of 老子道德經 or Lao Zi Dao De Jing

To follow Dao will daily reduce desires.
Reduce and reduce desires until there is no coveting.
Dao contrives nothing yet it provides everything.
Therefore to lead the world is to be persistently with no intervention.
If there is any intervention, it will be impossible to lead the world.

[41t49c] **Tang Zi-chang**
The sage ruler had no prejudice of his own.
He made his mind to be based on the mind of the people.
If it was perfect, he liked it;
if it was not perfect, he also liked it:
then perfection was attained.
If it was true, he understood it;
if it was not true, he also understood it:
then truth was attained.
Indifferently, indifferently sage rulers were in the world.
Effortlessly, effortlessly they ruled the world.
The people turned their eyes and ears toward them.
Sage rulers treated all people like their own children.

[41t50c] **Tang Zi-chang**
Throughout human life, from birth to death:
There are one third who die naturally;
There are one third who die from disease;
And the other one third who die by speeding to death.
For what reasons have they done so?
Because they live by overdrawing upon their lives heavily.
As I used to hear that:
"One who takes good care of his life will not meet a rhinoceros or a tiger when he is traveling on land.
He does not need to wear armour or carry weapons when he is leading an army."
The rhinoceros finds no place to insert its horn.
The tiger finds no place to put its claws.
Weapons of war find no place to thrust their blades.
For what reasons?
Because one never lets himself be in a vulnerable situation.

[41t51c] **Tang Zi-chang**
Dao gives birth to All Things.
Its virtue nourishes them.
Its Matter forms them, and its Forces perfect them.
Thus among All Things there is none which does not esteem Dao and envy its virtues.
To esteem Dao and envy its Virtues do not take any order whatever, but follow the eternity of Nature.
Since Dao gives life;
and its virtues nourish it, grow it, cultivate it, accomplish it, mature it, nurse it, and protect it.
It produces All Things but it does not possess them.
It provides everything for them but it does not take anything from them.

It leads them but does not lord over them.
It is called "the Profound Virtue".

[41t52c] **Tang Zi-chang**
The universe has its mother - Dao,
The world has its mother - the universe.
As we already know the mother of the universe - Dao, we should know how to rule her son - the world.
As we already know her son - the world, we should know how to follow his mother - Dao.
By so doing, there will be no discontinuation of life even though a human body will die.
Close the entrances to attractions and control the excess of desires, till the end of life, there will be no effort to work.
Open the entrances to attractions, multiply excess of desires, till the end of life, there will be no completion of work.
One who knows a limited truth is intelligent.
To be gentle is to be strengthened.
One who uses his bright senses and recovers his enlightenment will not let himself be in a perilous situation.
This is called the awareness of eternity.

[41t53c] **Tang Zi-chang**
If I have just a little wisdom to lead me to approach the superior way of Dao, I fear that I may stray from it.
The superior way of Dao is plain and yet man prefers devious paths.
When government officers are very neglected;
farm lands are very weedy;
public granaries are very empty;
yet, brilliant clothes are displayed;
sharp swords are carried;
and excessive food and drinks are over used, and personal wealth and treasures are abundant.
This is called "Exhibition of Robbery".
Really it is aberration of Dao!

[41t54c] **Tang Zi-chang**
What is perfectly planted will not be uprooted.
What is perfectly held will not slip away.
Through generations the family's memorial service will not be discontinued.
Thus,
by cultivating Dao in a person, virtues become manifest;
by cultivating Dao in a family, virtues become abundant;
by cultivating Dao in the community, virtues become enduring;
by cultivating Dao in a country, virtues become flourishing;
and by cultivating Dao in the world, virtues become universal.
Thus,
by taking care of one's self, one takes care of others;
by taking care of one's family, one takes care of others' families;
by taking care of one's own community, one takes care of others' communities;
by taking care of one's own country, one takes care of others' countries;

and by taking care of the world, one takes care of the universe.
How do we know in what way the world should be ruled?
Through this.

[41t55c] **Tang Zi-chang**
The inherited abundance of tender virtues is comparable to a new-born baby:
the poisonous insects may not sting him;
the fierce animals may not touch him;
and birds of prey may not snatch him.
His bones are soft and his muscles are tender, yet, he can hold firm.
It is like an infant who has the organ of reproduction but does not know its function.
This is the perfection of natural vitality.
It is like an infant who cries all day without growing hoarse.
This is the perfection of natural harmony.
To comprehend this harmony is to know the eternal function of Dao.
One who knows the eternities is enlightened.
One who overdoes his living is unlucky.
One whose will overcomes his temper is strong.
A matured living body will soon grow old.
These are called "the aberration of Dao".
The aberration of Dao leads to early extinction.

[41t56c] **Tang Zi-chang**
One who knows may not preach.
One who preaches may not know.
Close the entrances to attractions and control the excess of desires.
It blunts all sharpness.
It settles all disputes.
It harmonizes all lights.
It unites all lands.
They are the "Profound Similarities" of Dao.
Thus,
It cannot be involved, nor can it be ignored.
It cannot be utilized, nor can it be harmed.
It cannot be honored, nor can it be disgraced.
Thus, it is cherished by all things under the heaven.

[41t57c] **Tang Zi-chang**
By positive policy rule the kingdom, by negative strategy conduct the war and by unselfish design lead the world.
How do we know that is so?
By this:
Where there were more taboos and inhibitions in the country, the general public was getting poorer and poorer.
Where there were more new tools and techniques in the hands of certain people, there were more confusions and injustices in the government.

The more laws and decrees were issued, the more robbers and crooks were propagated.
Thus a Sage ruler said:
"If I do not interfere, the people will cultivate themselves naturally.
If I love to be inactive, the people will govern themselves automatically.
If I do not look for display, the people will enrich themselves automatically.
If I have no excessive desires, the people will return themselves to the Pure Matter naturally.
If I have no emotional needs, the people will tranquilize themselves automatically."

[41t58c] **Tang Zi-chang**
Modest, and modest will be the government, then prosperous, and prosperous will be the people!
Shrewd will be the government, then discontented, and discontented will be the people!
Catastrophe rests upon fortune.
Fortune underlies catastrophe.
Who knows the ultimate answers?
What is normal soon becomes abnormal.
What is auspicious soon becomes ominous.
Do away with dogmatism!
Indeed, it is a long, long time ago since Man lost his way of Dao!
Therefore, a Sage is:
solidly square but has no sharp corners;
purely austere but not harmful;
straightly upright but not offensive;
humbly modest but not submissive;
and harmoniously bright but not dazzling.

[41t59c] **Tang Zi-chang**
To rule the people and serve the world there is nothing better than to follow the model of nature.
To follow the model of nature is to be the early appreciation of Dao.
To be the early appreciation of Dao is to give emphasis to the accumulation of Virtues.
To give emphasis to the accumulation of Virtues there is nothing that cannot be overcome.
When one has nothing that cannot be overcome, then nobody knows his limit.
When nobody knows his limit, then he may have a kingdom to rule.
When one has a kingdom to rule, he may mother (rule) the world.
He may rule everywhere and forever.
This is called the way of deepening the root;
consolidating the sprout;
prolonging the life;
and enduring the rule.

[41t60c] **Tang Zi-chang**
To rule a big country should be so simple like cooking small fish.
When the world rule is approaching Dao:
The Ghost and Spirit will not necessarily be divine.
It is not that the Ghost and Spirit will not necessarily be divine but the divine will not be utilized to threaten people with harm.
Not only the divine should not threaten people with harm, the Sage ruler should not threaten people with

harm either.
When those two (state and religion) do no harm to each other, both will achieve the same goal - Return to Nature.

[41t61c] **Tang Zi-chang**
To conduct a policy of a large country should be like a valley staying in the lower ground.
To conduct international affairs the best policy, is to be humble and non-aggressive (inactive).
Everyplace under the sun, all females outsmart the males by inaction.
Be inactive and be humble.
Therefore, the large country which is humble before the small country will lead the small country.
The small country which is humble before the large country will please the large country.
Thus sometimes a country unites the world by being humble and sometimes a country becomes humble in order to unite the world.
What a great country wants is no more than to lead more people.
What the small country wants is no more than to serve others.
To let both of them get what they want is simply to insure that the large country be humble.

[41t62c] **Tang Zi-chang**
Dao is the wonder of All Things.
Perfection is what people like.
Imperfection is what people dislike.
Beautiful words may be used for markets.
Beautiful deeds may be used for pride.
If a person is imperfect why should he be ignored?
Hence, the "Son of Heaven" was installed and the three dukes (Ministers) were appointed,
Even though one has abundant jade and wealth to establish war horses and chariots, it is not as good as to consolidate and advance Dao.
For what reasons did the ancients bless this Dao?
Is it not said that:
"Whatever is prayed for is obtained.
Whoever has sin is forgiven."?
Thus Dao becomes the blessing of the world.

[41t63c] **Tang Zi-chang**
Do not interfere;
prepare the unprepared;
and think the unthinkable.
No matter whether it is great or small, whether it is much or little, hatred must be met with love.
Therefore, resolve the difficulty when it is easy.
Change the graveness when it is insignificant.
A difficult world affair must be solved when it is still easy.
A grave world situation must be changed when it is insignificant.
However, the Sage ruler never wishes himself to be superior, therefore he eventually becomes superior.
Hence an easy promise must result in promise-breaking.
Frequent easy-goings meet more difficulties.
A Sage was always aware of difficulties, thus he met no difficulty at last.

[41t64c] **Tang Zi-chang**
What is still at rest is easy to maintain.
What is still insignificant is easy to dispose of.
What is still fragile is easily shattered.
What is still not yet begun is easy to plan.
Action should be taken before the emergency occurs.
Measures should be taken before confusion is formed.
A large tree, so large arms can hardly go around, was grown from a tiny seed.
A tall tower, of nine stories height, was built first with a handful of dirt.
A long journey of a thousand miles can be finished by moving feet.
One who intervenes will be defeated.
One who grasps the world will lose it.
So the Sage ruler does not intervene, thus he does not fail.
He does not grasp, thus he never loses.
Sometimes people fail to reach the end when they are already on the verge of success.
A Sage was as cautious at the end as in the beginning, so he could avoid failure.
Thus a Sage ruler never desired what should not be desired, such as he never cherished rare goods.
He did not experience what should not be experienced, such as he never repeated the faults of others.
It gives supplementary help to the nature of All Things, and yet it dares not to assert itself.

[41t65c] **Tang Zi-chang**
The perfect ruler of ancient times did not teach the people to be intelligent, but rather taught them to be simple,
Because the difficulty of ruling people is always due to their being too intelligent.
Thus to use intelligence and skills to rule a country is robbing the country;
not to use intelligence and skills to rule a country is blessing the country.
By knowing these two - Dao and virtues, both of them are the models of Nature.
By constantly following the models is called the "Profound Virtues".
The Incomprehensive is unfathomable and far-reaching.
It (Change) brings all things to return (from the extreme) until perfect harmony - "Grand Concord" is reached.

[41t66c] **Tang Zi-chang**
Oceans and rivers can be the destinations of a hundred waters because the former place themselves just lower than the latter, thus they can be the destinations of a hundred waters.
Hence if one wishes to be on top of others he must place himself lower than others;
If he wishes to lead others he must put his own interest behind others.
Hence, when a Sage ruler was on top of others, yet, they did not feel pressure;
when he was in front of others, still, they did not feel hurt.
And the whole world was glad to have him on top, and did not weary of him.
Because of non-struggle, therefore, there is nothing under heaven which can struggle with him.

[41t67c] **Tang Zi-chang**
All in the world may think that Dao is unlike to be so superior, that nothing in the world can compare to it.
If it were comparable to anything, it would be inferior.

If it is not superior, it would not be Dao.
I have three treasured strategies to which I hold fast and embrace them all:
the first is Mercy;
the second is Economy of Force;
and the third is Dare Not to Take Initiative Before the World.
Because of Mercy, one can be courageous.
Because of Economy of Force, one can have superior force.
Because of Dare Not To Take Initiative Before the World, one can be the master of instruments.
Alas!
Nowadays, rulers want to be brave without being merciful;
want to have superior force without knowing economy of force;
and want to take initiative without being able to be resistant.
They will surely die in the war.
Mercy helps one to win when on the offensive;
to consolidate when on the defensive.
If one guides oneself by mercy Heavens will protect him.

[41t68c] **Tang Zi-chang**
In the ancient times:
The perfect warriors were not warlike.
The perfect fighters were not angry.
The perfect winners were not aggressive and the perfect diplomats were humble before the world.
This is called the practice of the virtue of non-struggle.
This is called the use of the wisdom of benevolence.
This is called to comply with the ultimate Nature.

[41t69c] **Tang Zi-chang**
The Conduct of War has this to say:
"I dare not take the initiative but rather to be resistant.
I dare not advance an inch but rather I withdraw a foot."
So that, engage the enemy without advancing.
Drive out the enemy without arms.
Subdue the enemy without battle.
Take the enemy with invincibility.
No fault is greater than to underestimate the enemy:
To underestimate the enemy is to destroy all my treasured principles.
When an army of resistance engages, the mournful one - the army of resistance, wins.

[41t70c] **Tang Zi-chang**
My teaching is very easy to be understood and very easy to be followed,
Yet very few people in the world can understand and follow it.
My teaching is to trace the origin of all things and my service is to serve the fundamentals of Nature.
If one does not understand Nature, surely, he cannot understand me.
If I am known only by a few, I feel envious of it.
Therefore, the Sage ruler even wore coarse clothes but embraced his jadelike personality.

[41t71c] **Tang Zi-chang**
One who knows the unknown is a high type of man.
One who does not know the known is at fault.
Thus a Sage was not at fault because he was aware of faults.

[41t72c] **Tang Zi-chang**
People are not afraid of punishment, yet capital punishment is enforced.
Do not force people into moving.
Do not weary people of living.
Hence, only non-interference prevents people from becoming weary.
Therefore, Sage rulers were aware of self but not self-displaying;
self-respecting but not self-exalting.
He eliminated the former and supplied the later.

[41t73c] **Tang Zi-chang**
The courage of one daring to be aggressive will eventually kill his life.
The courage of one not daring to be aggressive will eventually ensure his life.
Between these two kinds of courage we know which one is good and which one is harmful.
Who knows the reason why?
Because it is hated by nature.
The law of Nature does not strive, yet achieves a perfect victory.
It does not use words, yet it is perfectly convincing.
It receives no call, yet it automatically responds.
It is plain and unnoticed, yet it is skillfully planned.
It covers every place all the time like a heavenly net, it seems to be wide meshed, yet it does not let anything slip away.

[41t74c] **Tang Zi-chang**
When people are no longer afraid of death, how can they be disciplined by death?
And if someone likes to be abnormal he may be arrested and punished, then who else would dare to be abnormal?
Since the one to kill is killed, a great professional killer is like a great professional chopper whose hands are subject to be hurt.

[41t75c] **Tang Zi-chang**
The hunger of people is caused by the ruler who levies too many taxes.
Thus they are hungry.
The difficulty of ruling people is due to the fact that the ruler interferes.
Thus they are difficult to rule.
The reason people take life lightly is because they live by overdrawing their lives heavily.
Therefore, they take life lightly.
Hence, only the one who has not overdone his living knows his life better.

[41t76c] **Tang Zi-chang**
A living person is gentle and tender, while a dying person is rigid and hard.
A living plant is gentle and tender, while a dying plant is dry and withered.

Thus, one who is rigid and hard is on the way to die.
One who is gentle and tender is on the way to live.
Thus, a strong army will soon be annihilated.
A hard stick of wood will soon be broken.
A piece of hard leather will soon be split.
Teeth are stronger than lips, yet the teeth decay first.
Therefore, hardness and strength are inferior, gentleness and tenderness are superior.

[41t77c] **Tang Zi-chang**
Is not the law of Nature like aiming with a bow?
It brings down the high and lifts up the low;
reduces the excessive, drawing strength;
and increases insufficient, drawing strength.
So that the law of Nature is to diminish the excess and supply the want.
But the way of Man is not so:
He robs the poor and serves the rich!
Who can give his excessive possessions to serve the world?
The man who possesses Dao.
Thus a Sage ruler provided everything but did not take anything.
He accomplished deeds but did not claim them.
That is, he did not display his sagacity.

[41t78c] **Tang Zi-chang**
Under heaven, there is nothing as soft as water, yet it can penetrate the hard;
while the strong things cannot overcome it.
Be not easy-going!
Thus, weakness overcomes strength and softness overcomes hardness.
Very few people in the world can understand and follow it.
Therefore, the Sage rulers said:
"One whose capacity can sustain blame from the whole kingdom, can be the ruler of the kingdom.
One whose capacity can bear the calamities of the world, can be the ruler of world."
Positive advice may use the opposite way.

[41t79c] **Tang Zi-chang**
When a great hatred is reconciled there must be some hatred remaining.
How can this be made into perfection?
Thus, the Sage ruler granted rights to the people and required no repayment from them.
Hence, the office of a virtuous ruler is established for welfare of the people;
while the office of a virtueless ruler is established for taxation of the people.
The law of Nature is impartial yet it is always with the good man.

[41t80c] **Tang Zi-chang**
Prefer to rule a small kingdom with few people.
Even though there are abundant resources, prefer to use the one tenth or one hundredth.
Care only for their life and refrain from moving far away, even though there were war ships and chariots
ready but no place to use them;

and there were arms and weapons ready but no front to deploy them.
He led them to a simple life even by use of "Knotted Cords" again,
To be contented with their foods, be beautiful with their clothes, be satisfied with their homes and be happy with their customs.
The neighboring countries are within sight of each other;
the voices of cocks and dogs were heard from both sides.
Yet the people might grow old and die before they would cross territories of each other.

[41t81c] **Tang Zi-chang**
Truth is not beautiful;
and beauty is not true.
One who is right may not argue;
and one who argues may not be right.
One who knows the special may not know the general;
and one who knows the general may not know the special.
Thus, a Sage ruler never concentrated his wealth:
What has been done for others makes him feel even better himself.
What has been distributed to others makes him feel richer himself.
Dao of Nature is to benefit and is not to injure.
Dao of a Sage ruler is to serve, and is not aggressive.

[42t01c] **Wing-tsit Chan**
The Tao that can be told of is not the eternal Tao;
The name that can be named is not the eternal name.
The Nameless is the origin of Heaven and Earth;
The Named is the mother of all things.
Therefore let there always be non-being, so we may see their subtlety,
And let there always be being, so we may see their outcome.
The two are the same,
But after they are produced, they have different names.
They both may be called deep and profound.
Deeper and more profound,
The door of all subtleties!

[42t02c] **Wing-tsit Chan**
When the people of the world all know beauty as beauty,
There arises the recognition of ugliness.
When they all know the good as good,
There arises the recognition of evil.
Therefore:
Being and non-being produce each other;
Difficult and easy complete each other;
Long and short contrast each other;
High and low distinguish each other;
Sound and voice harmonize each other;
Front and behind accompany each other.
Therefore the sage manages affairs without action
And spreads doctrines without words.
All things arise, and he does not turn away from them.
He produces them but does not take possession of them.
He acts but does not rely on his own ability.
He accomplishes his task but does not claim credit for it.
It is precisely because he does not claim credit that his accomplishment remains with him.

[42t03c] **Wing-tsit Chan**
Do not exalt the worthy, so that the people shall not compete.
Do not value rare treasures, so that the people shall not steal.
Do not display objects of desire, so that the people's hearts shall not be disturbed.
Therefore in the government of the sage,
He keeps their hearts vacuous,
Fills their bellies,
Weakens their ambitions,
And strengthens their bones.
He always causes his people to be without knowledge (cunning) or desire,
And the crafty to be afraid to act.
By acting without action, all things will be in order.

[42t04c] **Wing-tsit Chan**
Tao is empty (like a bowl).
It may be used but its capacity is never exhausted.
It is bottomless, perhaps the ancestor of all things.
It blunts its sharpness.
It unties its tangles.
It softens its light.
It becomes one with the dusty world.
Deep and still, it appears to exist forever.
I do not know whose son it is.
It seems to have existed before the Lord.

[42t05c] **Wing-tsit Chan**
Heaven and Earth are not humane.
They regard all things as straw dogs.
The sage is not humane.
He regards all people as straw dogs.
How Heaven and Earth are like a bellows!
While vacuous, it is never exhausted.
When active, it produces even more.
Much talk will of course come to a dead end.
It is better to keep to the center.

[42t06c] **Wing-tsit Chan**
The spirit of the valley never dies.
It is called the subtle and profound female.
The gate of the subtle and profound female
Is the root of Heaven and Earth.
It is continuous, and seems to be always existing.
Use it and you will never wear it out.

[42t07c] **Wing-tsit Chan**
Heaven is eternal and Earth everlasting.
They can be eternal and everlasting because they do not exist for themselves,
And for this reason can exist forever.
Therefore the sage places himself in the background but finds himself in the foreground.
He puts himself away, and yet he always remains.
Is it not because he has no personal interests?
This is the reason why his personal interests are fulfilled.

[42t08c] **Wing-tsit Chan**
The best (man) is like water.
Water is good;
It benefits all things and does not compete with them.
It dwells in (lowly) places that all disdain.
This is why it is so near to Tao.

(The best man) in his dwelling loves the earth.
In his heart, he loves what is profound.
In his associations, he loves humanity.
In his words, he loves faithfulness.
In government, he loves order.
In handling affairs, he loves competence.
In his activities, he loves timeliness.
It is because he does not compete that he is without reproach.

[42t09c] **Wing-tsit Chan**
To hold and fill a cup to overflowing
Is not as good as to stop in time.
Sharpen a sword-edge to its very sharpest,
And the (edge) will not last long.
When gold and jade fill your hall,
You will not be able to keep them.
To be proud with honor and wealth
Is to cause one's own downfall.
Withdraw as soon as your work is done.
Such is Heaven's Way.

[42t10c] **Wing-tsit Chan**
Can you keep the spirit and embrace the One without departing from them?
Can you concentrate your vital force and achieve the highest degree of weakness like an infant?
Can you clean and purify your profound insight so it will be spotless?
Can you love the people and govern the state without knowledge (cunning)?
Can you play the role of the female in the opening and closing of the gates of Heaven?
Can you understand all and penetrate all without taking any action?
To produce things and to rear them,
To produce, but not to take possession of them,
To act, but not to rely on one's own ability,
To lead them, but not to master them -
This is called profound and secret virtue.

[42t11c] **Wing-tsit Chan**
Thirty spokes are united around the hub to make a wheel,
But it is on its non-being that the utility of the carriage depends.
Clay is molded to form a utensil,
But it is on its non-being that the utility of the utensil depends.
Doors and windows are cut out to make a room,
But it is on its non-being that the utility of the room depends.
Therefore turn being into advantage, and turn non-being into utility.

[42t12c] **Wing-tsit Chan**

The five tones cause one's ears to be deaf.

The five flavors cause one's palate to be spoiled.
Racing and hunting cause one's mind to be mad.
Goods that are hard to get injure one's activities.
For this reason the sage is concerned with the belly and not the eyes.
Therefore he rejects the one but accepts the other.

[42t13c] **Wing-tsit Chan**
Be apprehensive when receiving favor or disgrace.
Regard great trouble as seriously as you regard your body.
What is meant by being apprehensive when receiving favor or disgrace?
Favor is considered inferior.
Be apprehensive when you receive them and also be apprehensive when you lose them.
This is what is meant by being apprehensive when receiving favor or disgrace.
What does it mean to regard great trouble as seriously as you regard the body?
The reason why I have great trouble is that I have a body.
If I have no body,
What trouble could I have?
Therefore:
He who values the world as his body may be entrusted with the empire.
He who loves the world as his body may be entrusted with the empire.

[42t14c] **Wing-tsit Chan**
We look at it and do not see it;
Its name is The Invisible.
We listen to it and do not hear it;
Its name is The Inaudible.
We touch it and do not find it;
Its name is The Subtle (formless).
These three cannot be further inquired into,
And hence merge into one.
Going up high, it is not bright, and coming down low, it is not dark.
Infinite and boundless, it cannot be given any name;
It reverts to nothingness.
This is called shape without shape,
Form without objects.
It is The Vague and Elusive.
Meet it and you will not see its head.
Follow it and you will not see its back.
Hold on to the Tao of old in order to master the things of the present.
From this one may know the primeval beginning (of the universe).
This is called the bond of Tao.

[42t15c] **Wing-tsit Chan**
Of old those who were the best rulers were subtly mysterious and profoundly penetrating;
Too deep to comprehend.
And because they cannot be comprehended,

I can only describe them arbitrarily:
Cautious, like crossing a frozen stream in the winter,
Being at a loss, like one fearing danger on all sides,
Reserved, like one visiting,
Supple and pliant, like ice about to melt,
Genuine, like a piece of uncarved wood,
Open and broad, like a valley,
Merged and undifferentiated, like muddy water.
Who can make muddy water gradually clear through tranquility?
Who can make the still gradually come to life through activity?
He who embraces this Tao does not want to fill himself to overflowing.
It is precisely because there is no overflowing that he is beyond wearing out and renewal.

[42t16c] **Wing-tsit Chan**
Attain complete vacuity.
Maintain steadfast quietude.
All things come into being,
And I see thereby their return.
All things flourish,
But each one returns to its root.
This return to its root means tranquility.
It is called returning to its destiny.
To return to destiny is called the eternal (Tao).
To know the eternal is called enlightenment.
Not to know the eternal is to act blindly to result in disaster.
He who knows the eternal is all-embracing.
Being all-embracing, he is impartial.
Being impartial, he is kingly (universal).
Being kingly, he is one with Nature.
Being one with Nature, he is in accord with Tao.
Being in accord with Tao, he is everlasting
And is free from danger throughout his lifetime.

[42t17c] **Wing-tsit Chan**
The best (rulers) are those whose existence is (merely) known by the people.
The next best are those who are loved and praised.
The next are those who are feared.
And the next are those who are despised.
It is only when one does not have enough faith in others that others will have no faith in him.
(The great rulers) value their words highly.
They accomplish their task, they complete their work.
Nevertheless their people say that they simply follow Nature.

When the great Tao declined,
The doctrine of humanity and righteousness arose.

When knowledge and wisdom appeared,
There emerged great hypocrisy.
When the six family relationships are not in harmony,
There will be the advocacy of filial piety and deep love to children.
When a country is in disorder,
There will be the praise of loyal ministers.

[42t19c] **Wing-tsit Chan**
Abandon sageliness and discard wisdom;
Then the people will benefit a hundredfold.
Abandon humanity and discard righteousness;
Then the people will return to filial piety and deep love.
Abandon skill and discard profit;
Then there will be no thieves or robbers.
However, these three things are ornaments (wen) and are not adequate.
Therefore let people hold on to these:
Manifest plainness,
Embrace simplicity,
Reduce selfishness,
Have few desires.

[42t20c] **Wing-tsit Chan**
Abandon learning and there will be no sorrow.
How much difference is there between "Yes, sir," and "Of course not"?
How much difference is there between "good" and "evil"?
What people dread, do not fail to dread.
But, alas, how confused, and the end is not yet.
The multitude are merry, as though feasting on a day of sacrifice.
Or like ascending a tower in the springtime.
I alone am inert, showing no sign (of desires),
Like an infant that has not yet smiled.
Wearied, indeed, I seem to be without a home.
The multitude all possess more than enough.
I alone seem to have lost all.
Mine is indeed the mind of an ignorant man,
Indiscriminate and dull!
Common folks are indeed brilliant;
I alone seem to be in the dark.
Common folks see differences and are clear-cut;
I alone make no distinctions.
I seem drifting as the sea;
Like the wind blowing about, seemingly without destination.
The multitude all have a purpose;
I alone seem to be stubborn and rustic.
I alone differ from others,
And value drawing sustenance from Mother (Tao).

[42t21c] **Wing-tsit Chan**
The all-embracing quality of the great virtue follows alone from the Tao.
The thing that is called Tao is eluding and vague.
Vague and eluding, there is in it the form.
Eluding and vague, in it are things.
Deep and obscure, in it is the essence.
The essence is very real, in it are evidences.
From the time of old until now, its name (manifestations) ever remains.
By which we may see the beginning of all things.
How do I know that the beginnings of all things are so?
Through this (Tao).

[42t22c] **Wing-tsit Chan**
To yield is to be preserved whole.
To be bent is to become straight.
To be empty is to be full.
To be worn out is to be renewed.
To have little is to possess.
To have plenty is to be perplexed.
Therefore the sage embraces the One
And becomes the model of the world.
He does not show himself, therefore he is luminous.
He does not justify himself, therefore he becomes prominent.
He does not boast of himself, therefore he is given credit.
He does not brag, therefore he can endure for long.
It is precisely because he does not compete that the world cannot compete with him.
Is the ancient saying, "To yield is to be preserved whole," empty words?
Truly he will be preserved and (prominence and credit) will come to him.

[42t23c] **Wing-tsit Chan**
Nature says few words.
For the same reason a whirlwind does not last a whole morning.
Nor does a rainstorm last a whole day.
What causes them?
It is Heaven and Earth (Nature).
If even Heaven and Earth cannot make them last long,
How much less can man?
Therefore he who follows Tao is identified with Tao.
He who follows virtue is identified with virtue.
He who abandons (Tao) is identified with the abandonment (of Tao).
He who is identified with Tao - Tao is also happy to have him.
He who is identified with virtue - virtue is also happy to have him.
And he who is identified with the abandonment (of Tao) - the abandonment (of Tao) is also happy to abandon him.
It is only when one does not have enough faith in others that others will have no faith in him.

[42t24c] **Wing-tsit Chan**
He who stands on tiptoe is not steady.
He who strides forward does not go.
He who shows himself is not luminous.
He who justifies himself is not prominent.
He who boasts of himself is not given credit.
He who brags does not endure for long.
From the point of view of Tao, these are like remnants of food and tumors of action,
Which all creatures detest.
Therefore those who possess Tao turn away from them.

[42t25c] **Wing-tsit Chan**
There was something undifferentiated and yet complete,
Which existed before heaven and earth.
Soundless and formless, it depends on nothing and does not change.
It operates everywhere and is free from danger.
It may be considered the mother of the universe.
I do not know its name, I call it Tao.
If forced to give it a name, I shall call it Great.
Now being great means functioning everywhere.
Functioning everywhere means far-reaching.
Being far-reaching means returning to the original point.
Therefore Tao is great.
Heaven is great.
Earth is great.
And the king is also great.
There are four great things in the universe, and the king is one of them.
Man models himself after Earth.
Earth models itself after Heaven.
Heaven models itself after Tao.
And Tao models itself after Nature.

[42t26c] **Wing-tsit Chan**
The heavy is the root of the light.
The tranquil is the ruler of the hasty.
Therefore the sage travels all day
Without leaving his baggage.
Even at the sight of magnificent scenes,
He remains leisurely and indifferent.
How is it that a lord with ten thousand chariots
Should behave lightheartedly in his empire?
If he is lighthearted, the minister will be destroyed.
If he is hasty, the ruler is lost.

[42t27c] **Wing-tsit Chan**

A good traveler leaves no track or trace.
A good speech leaves no flaws.
A good reckoner uses no counters.
A well-shut door needs no bolts, and yet it cannot be opened.
A well-tied knot needs no rope and yet none can untie it.
Therefore the sage is always good in saving men and consequently no man is rejected.
He is always good in saving things and consequently nothing is rejected.
This is called following the light (of Nature).
Therefore the good man is the teacher of the bad,
And the bad is the material from which the good may learn.
He who does not value the teacher,
Or greatly care for the material,
Is greatly deluded although he may be learned.
Such is the essential mystery.

[42t28c] **Wing-tsit Chan**
He who knows the male and keeps to the female
Becomes the ravine of the world.
Being the ravine of the world,
He will never depart from eternal virtue,
But returns to the state of infancy.
He who knows the white and yet keeps to the black
Becomes the model for the world.
Being the model for the world,
He will never deviate from eternal virtue,
But returns to the state of the non-ultimate.
He who knows glory but keeps to humility
Becomes the valley of the world.
Being the valley of the world,
He will be proficient in eternal virtue,
And returns to the state of simplicity (uncarved wood).
When the uncarved wood is broken up, it is turned into concrete things.
But when the sage uses it, he becomes the leading official.
Therefore the great ruler does not cut up.

[42t29c] **Wing-tsit Chan**
When one desires to take over the empire end act on it (interfere with it), I see that he will not succeed.
The empire is a spiritual thing, and should not be acted on.
He who acts on it harms it.
He who holds on to it loses it.
Among creatures some lead and some follow.
Some blow hot and some blow cold.
Some are strong and some are weak.
Some may break and some may fall.
Therefore the sage discards the extremes, the extravagant, and the excessive.

[42t30c] **Wing-tsit Chan**

He who assists the ruler with Tao does not dominate the world with force.
The use of force usually brings requital.
Wherever armies are stationed, briers and thorns grow.
Great wars are always followed by famines.
A good (general) achieves his purpose and stops,
But dares not seek to dominate the world.
He achieves his purpose but does not brag about it.
He achieves his purpose but does not boast about it.
He achieves his purpose but is not proud of it.
He achieves his purpose but only as an unavoidable step.
He achieves his purpose but does not aim to dominate.
(For) after things reach their prime, they begin to grow old,
Which means being contrary to Tao.
Whatever is contrary to Tao will soon perish.

[42t31c] **Wing-tsit Chan**

Fine weapons are instruments of evil.
They are hated by men.
Therefore those who possess Tao turn away from them.
The good ruler when at home honors the left.
When at war he honors the right.
Weapons are instruments of evil, not the instruments of a good ruler.
When he uses them unavoidably, he regards calm restraint as the best principle.
Even when he is victorious, he does not regard it as praiseworthy,
For to praise victory is to delight in the slaughter of men.
He who delights in the slaughter of men will not succeed in the empire.
In auspicious affairs, the left is honored.
In inauspicious affairs, the right is honored.
The lieutenant general stands on the left.
The senior general stands on the right.
This is to say that the arrangement follows that of funeral ceremonies.
For the slaughter of the multitude, let us weep with sorrow and grief.
For a victory, let us observe the occasion with funeral ceremonies.

[42t32c] **Wing-tsit Chan**

Tao is eternal and has no name.
Though its simplicity seems insignificant, none in the world can master it.
If kings and barons would hold on to it, all things would submit to them spontaneously.
Heaven and earth unite to drip sweet dew.
Without the command of men, it drips evenly over all.
As soon as there were regulations and institutions, there were names.
As soon as there are names, know that it is time to stop.
It is by knowing when to stop that one can be free from danger.
Analogically, Tao in the world may be compared to rivers and streams running into the sea.

[42t33c] **Wing-tsit Chan**
He who knows others is wise;
He who knows himself is enlightened.
He who conquers others has physical strength;
He who conquers himself is strong.
He who is contented is rich.
He who acts with vigor has will.
He who does not lose his place (with Tao) will endure.
He who dies but does not really perish enjoys long life.

[42t34c] **Wing-tsit Chan**
The Great Tao flows everywhere.
It may go left or right.
All things depend on it for life, and it does not turn away from them.
It accomplishes its task, but does not claim credit for it.
It clothes and feeds all things but does not claim to be master over them.
Always without desires, it may be called The Small.
All things come to it and it does not master them, it may be called The Great.
Therefore (the sage) never strives himself for the great, and thereby the great is achieved.

[42t35c] **Wing-tsit Chan**
Hold fast to the great form (Tao),
And all the world will come.
They come and will encounter no harm;
But enjoy comfort, peace, and health.
When there are music and dainties,
Passing strangers will stay.
But the words uttered by Tao,
How insipid and tasteless!
We look at it, it is imperceptible.
We listen to it, it is inaudible.
We use it, it is inexhaustible.

[42t36c] **Wing-tsit Chan**
In order to contract,
It is necessary first to expand.
In order to weaken,
It is necessary first to strengthen.
In order to destroy,
It is necessary first to promote.
In order to grasp,
It is necessary first to give.
This is called subtle light.
The weak and the tender overcome the hard and the strong.
Fish should not be taken away from water.
And sharp weapons of the state should not be displayed to the people.

[42t37c] **Wing-tsit Chan**
Tao invariably takes no action, and yet there is nothing left undone.
If kings and barons can keep it, all things will transform spontaneously.
If, after transformation, they should desire to be active,
I would restrain them with simplicity, which has no name.
Simplicity, which has no name, is free of desires.
Being free of desires, it is tranquil.
And the world will be at peace of its own accord.

[42t38c] **Wing-tsit Chan**
The man of superior virtue is not (conscious of) his virtue,
And in this way he really possesses virtue.
The man of inferior virtue never loses (sight of) his virtue,
And in this way he loses his virtue.
The man of superior virtue takes no action, but has no ulterior motive to do so.
The man of inferior virtue takes action, and has an ulterior motive to do so.
The man of superior humanity takes action, but has no ulterior motive to do so.
The man of superior righteousness takes action, and has an ulterior motive to do so.
The man of superior propriety takes action,
And when people do not respond to it, he will stretch his arms and force it on them.
Therefore:
When Tao is lost, only then does the doctrine of virtue arise.
When virtue is lost, only then does the doctrine of humanity arise.
When humanity is lost, only then does the doctrine of righteousness arise.
When righteousness is lost, only then does the doctrine of propriety arise.
Now, propriety is a superficial expression of loyalty and faithfulness, and the beginning of disorder.
Those who are the first to know have the flowers of Tao but are the beginning of ignorance.
For this reason the great man dwells in the thick, and does not rest with the thin.
He dwells in the fruit, and does not rest with the flower.
Therefore he rejects the one, and accepts the other.

[42t39c] **Wing-tsit Chan**
Of old those that obtained the One:
Heaven obtained the One and became clear.
Earth obtained the One and became tranquil.
The spiritual beings obtained the One and became divine.
The valley obtained the One and became full.
The myriad things obtained the One and lived and grew.
Kings and barons obtained the One and became rulers of the empire.
What made them so is the One.
If heaven had not thus become clear,
It would soon crack.
If the earth had not thus become tranquil,
It would soon be shaken.
If the spiritual beings had not thus become divine,

They would soon wither away.
If the valley had not thus become full,
It would soon become exhausted.
If the myriad things had not thus lived and grown,
They would soon become extinct.
If kings and barons had not thus become honorable and high in position,
They would soon fall.
Therefore humble station is the basis of honor.
The low is the foundation of the high.
For this reason kings and barons call themselves children without parents, lonely people without spouses, and men without food to eat.
Is this not regarding humble station as the basis of honor?
Is it not?
Therefore enumerate all the parts of a chariot as you may, and you still have no chariot.
Rather than jingle like the jade,
Rumble like the rocks.

[42t40c] **Wing-tsit Chan**
Reversion is the action of Tao.
Weakness is the function of Tao.
All things in the world come from being.
And being comes from non-being.

[42t41c] **Wing-tsit Chan**
When the highest type of men hear Tao,
They diligently practice it.
When the average type of men hear Tao,
They half believe in it.
When the lowest type of men hear Tao,
They laugh heartily at it.
If they did not laugh at it, it would not be Tao.
Therefore there is the established saying:
The Tao which is bright appears to be dark.
The Tao which goes forward appears to fall backward.
The Tao which is level appears uneven.
Great virtue appears like a valley (hollow).
Great purity appears like disgrace.
Far-reaching virtue appears as if insufficient.
Solid virtue appears as if unsteady.
True substance appears to be changeable.
The great square has no corners.
The great implement (or talent) is slow to finish (or mature).
Great music sounds faint.
Great form has no shape.
Tao is hidden and nameless.
Yet it is Tao alone that skillfully provides for all and brings them to perfection.

[42t42c] **Wing-tsit Chan**
Tao produced the One.
The One produced the two.
The two produced the three.
And the three produced the ten thousand things.
The ten thousand things carry the yin and embrace the yang, and through the blending of the material force they achieve harmony.
People hate to be children without parents, lonely people without spouses, or men without food to eat,
And yet kings and lords call themselves by these names.
Therefore it is often the case that things gain by losing and lose by gaining.
What others have taught, I teach also:
"Violent and fierce people do not die a natural death."
I shall make this the father of my teaching.

[42t43c] **Wing-tsit Chan**
The softest things in the world overcome the hardest things in the world.
Non-being penetrates that in which there is no space.
Through this I know the advantage of taking no action.
Few in the world can understand the teaching without words and the advantage of taking no action.

[42t44c] **Wing-tsit Chan**
Which does one love more, fame or one's own life?
Which is more valuable, one's own life or wealth?
Which is worse, gain or loss?
Therefore he who has lavish desires will spend extravagantly.
He who hoards most will lose heavily.
He who is contented suffers no disgrace.
He who knows when to stop is free from danger.
Therefore he can long endure.

[42t45c] **Wing-tsit Chan**
What is most perfect seems to be incomplete;
But its utility is unimpaired.
What is most full seems to be empty;
But its usefulness is inexhaustible.
What is most straight seems to be crooked.
The greatest skill seems to be clumsy.
The greatest eloquence seems to stutter.
Hasty movement overcomes cold,
(But) tranquility overcomes heat.
By being greatly tranquil,
One is qualified to be the ruler of the world.

[42t46c] **Wing-tsit Chan**
When Tao prevails in the world, galloping horses are turned back to fertilize (the fields with their dung).

When Tao does not prevail in the world, war horses thrive in the suburbs.
There is no calamity greater than lavish desires.
There is no greater guilt than discontentment.
And there is no greater disaster than greed.
He who is contented with contentment is always contented.

[42t47c] **Wing-tsit Chan**
One may know the world without going out of doors.
One may see the Way of Heaven without looking through the windows.
The further one goes, the less one knows.
Therefore the sage knows without going about,
Understands without seeing,
And accomplishes without any action.

[42t48c] **Wing-tsit Chan**
The pursuit of learning is to increase day after day.
The pursuit of Tao is to decrease day after day.
It is to decrease and further decrease until one reaches the point of taking no action.
No action is undertaken, and yet nothing is left undone.
An empire is often brought to order by having no activity.
If one (likes to) undertake activity, he is not qualified to govern the empire.

[42t49c] **Wing-tsit Chan**
The sage has no fixed (personal) ideas.
He regards the people's ideas as his own.
I treat those who are good with goodness,
And I also treat those who are not good with goodness.
Thus goodness is attained.
I am honest to those who are honest,
And I am also honest to those who are not honest.
Thus honesty is attained.
The sage, in the government of his empire, has no subjective viewpoint.
His mind forms a harmonious whole with that of his people.
They all lend their eyes and ears, and he treats them all as infants.

[42t50c] **Wing-tsit Chan**
Man comes in to life and goes out to death.
Three out of ten are companions of life.
Three out of ten are companions of death.
And three out of ten in their lives lead from activity to death.
And for what reason?
Because of man's intensive striving after life.
I have heard that one who is a good preserver of his life will not meet tigers or wild buffaloes,
And in fighting will not try to escape from weapons of war.
The wild buffalo cannot butt its horns against him,
The tiger cannot fasten its claws in him,

And weapons of war cannot thrust their blades into him.
And for what reason?
Because in him there is no room for death.

[42t51c] **Wing-tsit Chan**
Tao produces them.
Virtue fosters them.
Matter gives them physical form.
The circumstances and tendencies complete them.
Therefore the ten thousand things esteem Tao and honor virtue.
Tao is esteemed and virtue is honored without anyone's order!
They always come spontaneously.
Therefore Tao produces them and virtue fosters them.
They rear them and develop them.
They give them security and give them peace.
They nurture them and protect them.
(Tao) produces them but does not take possession of them.
It acts, but does not rely on its own ability.
It leads them but does not master them.
This is called profound and secret virtue.

[42t52c] **Wing-tsit Chan**
There was a beginning of the universe
Which may be called the Mother of the universe.
He who has found the mother (Tao)
And thereby understands her sons (things),
And having understood the sons,
Still keeps to its mother,
Will be free from danger throughout his lifetime.
Close the mouth.
Shut the doors (of cunning and desires).
And to the end of life there will be (peace) without toil.
Open the mouth.
Meddle with affairs.
And to the end of life there will be no salvation.
Seeing what is small is called enlightenment.
Keeping to weakness is called strength.
Use the light.
Revert to enlightenment.
And thereby avoid danger to one's life -
This is called practicing the eternal.

[42t53c] **Wing-tsit Chan**
If I had but little knowledge
I should, in walking on a broad way,
Fear getting off the road.

Broad ways are extremely even,
But people are fond of bypaths.
The courts are exceedingly splendid,
While the fields are exceedingly weedy,
And the granaries are exceedingly empty.
Elegant clothes are worn,
Sharp weapons are carried,
Foods and drinks are enjoyed beyond limit,
And wealth and treasures are accumulated in excess.
This is robbery and extravagance.
This is indeed not Tao (the Way).

[42t54c] **Wing-tsit Chan**
He who is well established (in Tao) cannot be pulled away.
He who has a firm grasp (of Tao) cannot be separated from it.
Thus from generation to generation his ancestral sacrifice will never be suspended.
When one cultivates virtue in his person, it becomes genuine virtue.
When one cultivates virtue in his family, it becomes overflowing virtue.
When one cultivates virtue in his community, it becomes lasting virtue.
When one cultivates virtue in his country, it becomes abundant virtue.
When one cultivates virtue in the world, it becomes universal.
Therefore the person should be viewed as a person.
The family should be viewed as a family.
The community should be viewed as a community.
The country should be viewed as a country.
And the world should be viewed as the world.
How do I know this to be the case in the world?
Through this.

[42t55c] **Wing-tsit Chan**
He who possesses virtue in abundance
May be compared to an infant.
Poisonous insects will not sting him.
Fierce beasts will not seize him.
Birds of prey will not strike him.
His bones are weak, his sinews tender, but his grasp is firm.
He does not yet know the union of male and female,
But his organ is aroused,
This means that his essence is at its height.
He may cry all day without becoming hoarse,
This means that his (natural) harmony is perfect.
To know harmony means to be in accord with the eternal.
To be in accord with the eternal means to be enlightened.
To force the growth of life means ill omen.
For the mind to employ the vital force without restraint means violence.
After things reach their prime, they begin to grow old,

Which means being contrary to Tao.
Whatever is contrary to Tao will soon perish.

[42t56c] **Wing-tsit Chan**
He who knows does not speak.
He who speaks does not know.
Close the mouth.
Shut the doors.
Blunt the sharpness.
Untie the tangles.
Soften the light.
Become one with the dusty world.
This is called profound identification.
Therefore:
It is impossible either to be intimate and close to him or to be distant and indifferent to him.
It is impossible either to benefit him or to harm him.
It is impossible either to honor him or to disgrace him.
For this reason he is honored by the world.

[42t57c] **Wing-tsit Chan**
Govern the state with correctness.
Operate the army with surprise tactics.
Administer the empire by engaging in no activity.
How do I know that this should be so?
Through this:
The more taboos and prohibitions there are in the world,
The poorer the people will be.
The more sharp weapons the people have,
The more troubled the state will be.
The more cunning and skill man possesses,
The more vicious things will appear.
The more laws and orders are made prominent,
The more thieves and robbers there will be.
Therefore the sage says:
I take no action and the people of themselves are transformed.
I love tranquility and the people of themselves become correct.
I engage in no activity and the people of themselves become prosperous.
I have no desires and the people of themselves become simple.

[42t58c] **Wing-tsit Chan**
When the government is non-discriminative and dull,
The people are contented and generous.
When the government is searching and discriminative,
The people are disappointed and contentious.
Calamity is that upon which happiness depends;
Happiness is that in which calamity is latent.

Who knows when the limit will be reached?
Is there no correctness (used to govern the world)?
Then the correct again becomes the perverse.
And the good will again become evil.
The people have been deluded for a long time.
Therefore the sage is as pointed as a square but does not pierce.
He is as acute as a knife but does not cut.
He is as straight as an unbent line but does not extend.
He is as bright as light but does not dazzle.

[42t59c] **Wing-tsit Chan**
To rule people and to serve Heaven there is nothing better than to be frugal.
Only by being frugal can one recover quickly.
To recover quickly means to accumulate virtue heavily.
By the heavy accumulation of virtue one can overcome everything.
If one can overcome everything, then he will acquire a capacity the limit of which is beyond anyone's knowledge.
When his capacity is beyond anyone's knowledge, he is fit to rule a state.
He who possesses the Mother (Tao) of the state will last long.
This means that the roots are deep and the stalks are firm,
Which is the way of long life and everlasting vision.

[42t60c] **Wing-tsit Chan**
Ruling a big country is like cooking a small fish.
If Tao is employed to rule the empire,
Spiritual beings will lose their supernatural power.
Not that they lose their spiritual power,
But their spiritual power can no longer harm people.
Not only will their supernatural power not harm people,
But the sage also will not harm people.
When both do not harm each other,
Virtue will be accumulated in both for the benefit (of the people).

[42t61c] **Wing-tsit Chan**
A big country may be compared to the lower part of a river.
It is the converging point of the world;
It is the female of the world.
The female always overcomes the male by tranquility,
And by tranquility she is underneath.
A big state can take over a small state if it places itself below the small state;
And the small state can take over a big state if it places itself below the big state.
Thus some, by placing themselves below, take over (others),
And some, by being (naturally) low, take over (other states).
After all, what a big state wants is but to annex and herd others,
And what a small state wants is merely to join and serve others.
Since both big and small states get what they want,

The big state should place itself low.

[42t62c] **Wing-tsit Chan**
Tao is the storehouse of all things.
It is the good man's treasure and the bad man's refuge.
Fine words can buy honor,
And fine deeds can gain respect from others.
Even if a man is bad, when has (Tao) rejected him?
Therefore on the occasion of crowning an emperor or installing the three ministers,
Rather than present large pieces of jade preceded by teams of four horses,
It is better to kneel and offer this Tao.
Why did the ancients highly value this Tao?
Did they not say, "Those who seek shall have it and those who sin shall be freed"?
For this reason it is valued by the world.

[42t63c] **Wing-tsit Chan**
Act without action.
Do without ado.
Taste without tasting.
Whether it is big or small, many or few, repay hatred with virtue.
Prepare for the difficult while it is still easy.
Deal with the big while it is still small.
Difficult undertakings have always started with what is easy.
And great undertakings have always started with what is small.
Therefore the sage never strives for the great,
And thereby the great is achieved.
He who makes rash promises surely lacks faith.
He who takes things too easily will surely encounter much difficulty.
For this reason even the sage regards things as difficult.
And therefore he encounters no difficulty.

[42t64c] **Wing-tsit Chan**
What remains still is easy to hold.
What is not yet manifest is easy to plan for.
What is brittle is easy to crack.
What is minute is easy to scatter.
Deal with things before they appear.
Put things in order before disorder arises.
A tree as big as a man's embrace grows from a tiny shoot.
A tower of nine stories begins with a heap of earth.
The journey of a thousand li starts from where one stands.
He who takes action fails.
He who grasps things loses them.
For this reason the sage takes no action and therefore does not fail.
He grasps nothing and therefore he does not lose anything.
People in their handling of affairs often fail when they are about to succeed.

If one remains as careful at the end as he was at the beginning, there will be no failure.
Therefore the sage desires to have no desire,
He does not value rare treasures.
He learns to be unlearned, and returns to what the multitude has missed (Tao).
Thus he supports all things in their natural state but does not take any action.

[42t65c] **Wing-tsit Chan**
In ancient times those who practiced Tao well
Did not seek to enlighten the people, but to make them ignorant.
People are difficult to govern because they have too much knowledge.
Therefore he who rules the state through knowledge is a robber of the state;
He who rules a state not through knowledge is a blessing to the state.
One who knows these two things also (knows) the standard.
Always to know the standard is called profound and secret virtue.
Virtue becomes deep and far-reaching,
And with it all things return to their original state.
Then complete harmony will be reached.

[42t66c] **Wing-tsit Chan**
The great rivers and seas are kings of all mountain streams
Because they skillfully stay below them.
That is why they can be their kings.
Therefore, in order to be the superior of the people,
One must, in the use of words, place himself below them.
And in order to be ahead of the people,
One must, in one's own person, follow them.
Therefore the sage places himself above the people and they do not feel his weight.
He places himself in front of them and the people do not harm him.
Therefore the world rejoices in praising him without getting tired of it.
It is precisely because he does not compete that the world cannot compete with him.

[42t67c] **Wing-tsit Chan**
All the world says that my Tao is great and does not seem to resemble (the ordinary).
It is precisely because it is great that it does not resemble (the ordinary).
If it did resemble, it would have been small for a long time.
I have three treasures.
Guard and keep them:
The first is deep love,
The second is frugality,
And the third is not to dare to be ahead of the world.
Because of deep love, one is courageous.
Because of frugality, one is generous.
Because of not daring to be ahead of the world, one becomes the leader of the world.
Now, to be courageous by forsaking deep love,
To be generous by forsaking frugality,
And to be ahead of the world by forsaking following behind -

This is fatal.
For deep love helps one to win in the case of attack,
And to be firm in the case of defense.
When Heaven is to save a person,
Heaven will protect him through deep love.

[42t68c] **Wing-tsit Chan**
A skillful leader of troops is not oppressive with his military strength.
A skillful fighter does not become angry.
A skillful conqueror does not compete with people.
One who is skillful in using men puts himself below them.
This is called the virtue of non-competing.
This is called the strength to use men.
This is called matching Heaven, the highest principle of old.

[42t69c] **Wing-tsit Chan**
The strategists say:
"I dare not take the offensive but I take the defensive;
I dare not advance an inch but I retreat a foot."
This means:
To march without formation,
To stretch one's arm without showing it,
To confront enemies without seeming to meet them,
To hold weapons without seeming to have them.
There is no greater disaster than to make light of the enemy.
Making light of the enemy will destroy my treasures.
Therefore when armies are mobilized and issues joined,
The man who is sorry over the fact will win.

[42t70c] **Wing-tsit Chan**
My doctrines are very easy to understand and very easy to practice,
But none in the world can understand or practice them.
My doctrines have a source (Nature),
My deeds have a master (Tao).
It is because people do not understand this that they do not understand me.
Few people know me, and therefore I am highly valued.
Therefore the sage wears a coarse cloth on top and carries jade within his bosom.

[42t71c] **Wing-tsit Chan**
To know that you do not know is the best.
To pretend to know when you do not know is a disease.
Only when one recognizes this disease as a disease can one be free from the disease.
The sage is free from the disease.
Because he recognizes this disease to be disease, he is free from it.

When the people do not fear what is dreadful,
Then what is greatly dreadful will descend on them.
Do not reduce the living space of their dwellings.
Do not oppress their lives.
It is because you do not oppress them that they are not oppressed.
Therefore the sage knows himself but does not show himself.
He loves himself but does not exalt himself.
Therefore he rejects the one but accepts the other.

[42t73c] **Wing-tsit Chan**
He who is brave in daring will be killed.
He who is brave in not daring will live.
Of these two, one is advantageous and one is harmful.
Who knows why Heaven dislikes what it dislikes?
Even the sage considers it a difficult question.
The Way of Heaven does not compete, and yet it skillfully achieves victory.
It does not speak, and yet it skillfully responds to things.
It comes to you without your invitation.
It is not anxious about things and yet it plans well.
Heaven's net is indeed vast.
Though its meshes are wide, it misses nothing.

[42t74c] **Wing-tsit Chan**
The people are not afraid of death.
Why, then, threaten them with death?
Suppose the people are always afraid of death and we can seize those who are vicious and kill them,
Who would dare to do so?
There is always the master executioner (Heaven) who kills.
To undertake executions for the master executioner is like hewing wood for the master carpenter.
Whoever undertakes to hew wood for the master carpenter rarely escapes injuring his own hands.

[42t75c] **Wing-tsit Chan**
The people starve because the ruler eats too much tax-grain.
Therefore they starve.
They are difficult to rule because their ruler does too many things.
Therefore they are difficult to rule.
The people take death lightly because their ruler strives for life too vigorously.
Therefore they take death lightly.
It is only those who do not seek after life that excel in making life valuable.

[42t76c] **Wing-tsit Chan**
When man is born, he is tender and weak.
At death, he is stiff and hard.
All things, the grass as well as trees, are tender and supple while alive.
When dead, they are withered and dried.
Therefore the stiff and the hard are companions of death.

2361/2593

The tender and the weak are companions of life.
Therefore if the army is strong, it will not win.
If a tree is stiff, it will break.
The strong and the great are inferior, while the tender and the weak are superior.

[42t77c] **Wing-tsit Chan**
Heaven's Way is indeed like the bending of a bow.
When (the string) is high, bring it down.
When it is low, raise it up.
When it is excessive, reduce it.
When it is insufficient, supplement it.
The Way of Heaven reduces whatever is excessive and supplements whatever is insufficient.
The way of man is different.
It reduces the insufficient to offer to the excessive.
Who is able to have excess to offer to the world?
Only the man of Tao.
Therefore the sage acts, but does not rely on his own ability.
He accomplishes his task, but does not claim credit for it.
He has no desire to display his excellence.

[42t78c] **Wing-tsit Chan**
There is nothing softer and weaker than water,
And yet there is nothing better for attacking hard and strong things.
For this reason there is no substitute for it.
All the world knows that the weak overcomes the strong and the soft overcomes the hard.
But none can practice it.
Therefore the sage says:
He who suffers disgrace for his country
Is called the lord of the land.
He who takes upon himself the country's misfortunes
Becomes the king of the empire.
Straight words seem to be their opposite.

[42t79c] **Wing-tsit Chan**
To patch up great hatred is surely to leave some hatred behind.
How can this be regarded as good?
Therefore the sage keeps the left-hand portion (obligation) of a contract
And does not blame the other party.
Virtuous people attend to their left-hand portions,
While those without virtue attend to other people's mistakes.
"The Way of Heaven has no favorites.
It is always with the good man."

[42t80c] **Wing-tsit Chan**

But let them not be used.
Let the people value their lives highly and not migrate far.
Even if there are ships and carriages, none will ride in them.
Even if there are arrows and weapons, none will display them.
Let the people again knot cords and use them (in place of writing).
Let them relish their food, beautify their clothing, be content with their homes, and delight in their customs.
Though neighboring communities overlook one another and the crowing of cocks and barking of dogs can be heard,
Yet the people there may grow old and die without ever visiting one another.

[42t81c] **Wing-tsit Chan**
True words are not beautiful;
Beautiful words are not true.
A good man does not argue;
He who argues is not a good man.
A wise man has no extensive knowledge;
He who has extensive knowledge is not a wise man.
The sage does not accumulate for himself.
The more he uses for others, the more he has himself.
The more he gives to others, the more he possesses of his own.
The Way of Heaven is to benefit others and not to injure.
The Way of the sage is to act but not to compete.

[91t01c] **И. И. Семененко**
Если Дао могут высказать, Дао не является незыблемым;
если могут назвать имя, имя не является незыблемым.
Безымянность - вот начало Неба и Земли,
в наличии же имени таится мать десяти тысяч вещей.
Незыблемое неналичие - желаю поглядеть на скрытые в нем чудеса;
наличие в незыблемости - желаю осмотреть его окраину.
Выходит эта пара вместе, но именами различается.
Даю одно им имя сокровенного.
За сокровенным - сокровенное, врата множества чудес.

[91t02c] **И. И. Семененко**
Когда все в Поднебесной знают, что прекрасное прекрасно, то вот и безобразное;
когда все знают, что добро является добром, то вот и зло.
Наличие и неналичие друг друга порождают,
трудное и легкое друг друга образуют,
короткое и длинное друг друга формируют,
высокое и низкое взаимно соотносятся,
тона звучат в гармонии,
переднее и заднее друг за другом следуют.
Вот почему Премудрый человек пребывает в деле недеяния,
проводит в жизнь учение, невыразимое в словах.
От десяти тысяч вещей, хотя они и возрастают, он не отказывается;
чему дает жизнь, не имеет, что делает, на то не опирается, свершая подвиги, к себе их не относит.
Лишь потому, что не относит, и остается с ними неразлучен.

[91t03c] **И. И. Семененко**
Когда не возвышают лучших, в народе нет соперничества;
когда не ценят редкие товары, в народе не бывает воровства;
когда устраняют все соблазны, сердце народа не находится в смятении.
Вот почему Премудрый человек при наведении порядка делает сердца людей пустыми, а желудки полными, стремления слабыми, а кости крепкими.
Он неизменно побуждает народ пребывать без знаний и желаний.
А на знающих влияет так, что они не смеют действовать.
Когда приводят в действие бездействие, то неизбежно добиваются порядка.

[91t04c] **И. И. Семененко**
Дао совершенно пусто, но при пользовании им его, пожалуй, не наполнить.
Как оно глубоко!
Это прародитель десяти тысяч вещей.
Оно притупляет свою остроту,
смиряет всю свою запутанность,
смягчает силу своего сияния,
делает единой свою пыль.
И как же оно скрытно!
Но существует, кажется, на самом деле.

Я не знаю, чье оно дитя.
Похоже, что предшествует Владыке.

[91t05c] **И. И. Семененко**
Небо и Земля не человечны.
Они видят в десяти тысячах вещей лишь соломенных собак;
Премудрый человек не человечен, он видит в ста фамилиях лишь соломенных собак.
Промежуток между Небом и Землей - это как кузнечные мехи:
они пусты, но не иссякают, а движутся и все больше производят.
Многоречивость для числа - тупик, лучше придерживаться середины.

[91t06c] **И. И. Семененко**
Душа долины не подвластна смерти и зовется сокровенной самкой.
Врата же сокровенной самки - это корень Неба и Земли.
Она, такая непрерывная, вроде существует.
При ее использовании не требуется никаких усилий.

[91t07c] **И. И. Семененко**
Небеса с Землею долговечны.
Небо и Земля могут быть долговечны, так как не живут сами по себе, и поэтому они способны вечно жить.
Вот почему Премудрый человек предпочитает находиться сзади, а оказывается впереди и, отстраняясь от себя, себя сохраняет.
Не потому ли это, что у него нет личного?
Но именно поэтому он может свое личное осуществить.

[91t08c] **И. И. Семененко**
Высшее добро сходно с водой.
Добро воды состоит в том, что она приносит пользу десяти тысячам вещей и при этом не соперничает.
Место, где она пребывает, ненавистно для толпы, поэтому она и близка к Дао.
Добрым местом обитания является Земля,
добром для сердца выступает глубина,
добро в общении составляет человечность,
добро в высказывании - это искренность,
добро в правлении исчерпывается порядком,
добро деяния заключается в способности,
добро движения есть время.
Не соперничает и поэтому не вызывает осуждения.

[91t09c] **И. И. Семененко**
Наполнить до краев, придерживая, чтобы не разлить, - не идет в сравнение с тем, когда уже пусто.
Не сохранить надолго острым то, что натачивают все острее.
Когда забита вся палата златом и нефритом, никто не сможет их сберечь.
Кто гордится тем, что знатен и богат, сам обрекает себя на несчастье.
Дао Неба в том, чтобы успешно завершить свои труды и удалиться.

[91t10c] **И. И. Семененко**
Возможно ль, сохраняя душу и в объятиях с единым, с ними не расстаться?
Возможно ль, как младенцу, сосредоточивать дыхание и быть предельно мягким?
Возможно ли избавиться от недостатков, если добиться чистоты и зреть сокровенное?
Возможно ли без знаний любить народ и управлять страной?
Возможно ли без самки открыть или закрыть Небесные врата?
Возможно ль, находясь в бездействии, все ясно понимать?
Рождать и взращивать,
чему давать жизнь - не иметь,
на свои действия не опираться,
быть старшим, но не властвовать
- это зовется сокровенной добродетелью.

[91t11c] **И. И. Семененко**
Ступицу окружают 30 спиц, но пользоваться повозкой позволяет пустота отверстия в ступице.
Мнут глину, чтобы вылепить сосуд, но пользоваться сосудом позволяет его пустота.
Строя дом, проделывают дверь и окна, но пользоваться домом позволяет его пустота.
Приносит пользу то, что в них имеется, но пользоваться ими позволяет то, чего в них нет.

[91t12c] **И. И. Семененко**
Пять цветов ведут к утрате зрения,
пять тонов ведут к потере слуха,
пять ощущений вкуса расстраивают вкус,
охотничий азарт приводит к умопомрачению,
редкие товары делают людей преступниками.
Именно поэтому Премудрый человек заботится о чреве и пренебрегает тем, что можно лицезреть очами.
Он отбрасывает то и берет это.

[91t13c] **И. И. Семененко**
Благоволение сменяется позором наподобие того, как конь трепещет.
В знатности, как в нашем теле, заключено великое несчастье.
Что подразумеваю, когда говорю:
благоволение сменяется позором наподобие того, как конь трепещет?
Благоволение проявляют к низшим.
При обретении его они походят на вострепетавшего коня и походят на вострепетавшего коня, когда лишаются благоволения.
В этом смысл высказывания:
благоволение сменяется позором наподобие того, как конь трепещет.
Что значит в знатности, как в нашем теле, заключено великое несчастье?
Я потому страдаю от великого несчастья, что у меня есть тело.
Но разве испытаю я несчастье, если у меня не будет тела?
Кто своим телом станет Поднебесной, когда знатен, тому можно ее поручить.
Кто своим телом станет Поднебесной, будучи любимцем, тому можно ее вверить.

На что гляжу, но не могу увидеть, называю ровным;
что слушаю, но не могу услышать, называю редким;
что пробую схватить, но никак не удается, называю крошечным.
Эти три расследовать нельзя, и потому создам из них одно, смешав.
Что у него вверху, то не блестит, а что внизу, то не тускнеет;
оно бесконечно и ему нельзя дать имени.
Все время возвращается к отсутствию вещей.
Это вид невидного, образ отсутствия вещей.
Оно расплывчато, неясно.
При встрече с ним не видят его спереди, а следуя за ним, не видят сзади.
Владеют Дао древности, чтобы править нынешним наличием;
в способности знать древнее начало заключена разгадка Дао.

[91t15c] **И. И. Семененко**
Искусные мужи древнего времени были тонки, чудесны, сокровенны, проницательны.
Их глубины не различить.
А раз не различить, то опишу их через силу внешне.
Они выглядят такими нерешительными, словно зимою переходят реку.
И такими неуверенными, словно боятся окружающих соседей.
Своей учтивостью напоминают гостя.
Расхлябанны, как лед перед началом таяния.
Они просты, как дерева обрубок, и просторны, как долина.
У них все смешано, словно в грязи.
Кто может, успокаиваясь, постепенно добиваться чистоты в грязи?
Кто может при посредстве вечного движения постепенно воскрешать в покое?
Кто сберегает это Дао, не стремится к полноте;
ведь потому лишь, что не полон, он в состоянии, не прибегая к новому, достигнуть совершенства в ветхом.

[91t16c] **И. И. Семененко**
В пределе достижения пустоты неколебимо сберегается покой.
В возрастании десяти тысяч вещей я зрю их возвращение.
Вещей несметно много, и каждая возвращается к своему корню.
Возвращение к корню называется покоем.
Это означает возвращение к судьбе.
Возвращение к судьбе делает незыблемым,
знание незыблемого называется просветом.
В незнании незыблемого - зло бессмысленного становления.
Знание незыблемого емко, в емком общее, общее есть царь, царь - это Небо, Небо означает Дао, а если - Дао, значит, вечен и в безопасности всю жизнь.

[91t17c] **И. И. Семененко**
Наивысший - это когда низшие лишь знают о его существовании;
ниже его тот, кого с любовью хвалят;
еще более низкого - боятся,
самого же низкого - презирают.

Кто не способен доверять другим, тому не доверяют.
С какою неуверенностью наивысший относится к словам!
Он ими дорожит!
Когда же свершены дела, достигнуты успехи, то все в народе говорят: "Я самостен".

[91t18c] **И. И. Семененко**
Лишь стоит пренебречь великим Дао, приходят с человечностью и справедливостью.
А возникает мудрость, и появляется большая ложь.
Когда враждует вся родня, то начинают исповедовать сыновнюю почтительность с родительской любовью.
Страна объята распрей, и тогда жалуют преданные подданные.

[91t19c] **И. И. Семененко**
Когда отринут мудрость и отбросят знания, от этого народу польза возрастет во много раз.
Когда отринут человечность и отбросят справедливость, в народе воцарятся вновь сыновняя почтительность с родительской любовью.
Когда отринут изощренность и отбросят выгоду, то воры и разбойники переведутся.
Эти три дают лишь лоск и не годятся,
поэтому проникнись главным: будь безыскусен, неразлучен с первозданным, уменьши свое личное, умерь желания.

[91t20c] **И. И. Семененко**
Не ведаешь заботы, когда перестаешь учиться.
Как мала разница между словами "да" и "ладно"!
И как же связаны между собой прекрасное и безобразное!
Чего страшатся люди, не может не страшить.
Какое запустение!
Нет этому конца!
Толпа находится в веселье, словно на пиру или на празднике весны.
Один я только пребываю безучастным и ни в чем себя не проявляю,
как новорожденный, который еще не научился улыбаться.
Я выгляжу понурым как бездомный.
В толпе у каждого имеется какой-либо излишек, и лишь у одного меня - словно все утеряно.
Какое сердце у меня, глупца!
В нем столько безрассудности!
Обыденные люди отличаются понятливостью, один я только ничего не смыслю.
Обыденные люди дотошно во всем разбираются, один только я остаюсь невеждой.
Какое у меня спокойствие!
Оно напоминает океан.
Несусь как ветер в вышине!
Словно не могу нигде остановиться!
Каждый из толпы находит себе применение, один я являюсь ни на что не годным неучем.
В отличие от остальных людей, я дорожу лишь тем, чтобы меня кормила грудью мать.

Все вмещается великой добродетелью, и в этом она следует лишь Дао.

Дао в смысле вещи всецело смутно и расплывчато.
И в нем, таком смутном и расплывчатом, есть образы!
И в нем, таком расплывчатом и смутном, есть вещи!
И в нем, таком глубоком и неясном, есть сгущенность!
Его сгущенность обладает высшей подлинностью.
В нем все является реальным.
Издревле и доныне не исчезает его имя.
Так оно собирает множество великих.
Откуда мне известно, каким видом обладает множество великих?
Отсюда.

[91t22c] **И. И. Семененко**
Изогнутое цело,
кривое прямо,
пустое полно,
ветхое ново,
в малом обретают,
при многом заблуждаются.
Поэтому Премудрый человек держит в объятиях единое и в этом выступает образцом для Поднебесной.
Себя не видит и поэтому находится в просвете;
не считает себя правым и поэтому заметен;
не хвастается и поэтому заслужен;
не зазнается и поэтому всех старше.
Он не соперничает и поэтому никто не может с ним соперничать.
Разве не имеют смысла сказанные в древности слова о том, что изогнутое цело?
К истинно целому и возвращаются.

[91t23c] **И. И. Семененко**
То слово самостно, что редко.
Поэтому-то вихрь не буйствует все утро, ливень не хлещет целый день.
Кто это делает?
Небо и Земля.
Коль даже Небо и Земля ничего не в силах делать вечно, то человек тем паче.
Поэтому и предаются Дао.
У кого Дао, тот ему тождествен;
добродетельный тождествен добродетели,
утративший тождествен утрате.
Кто отождествляет себя с Дао, того Дао тоже обретает с радостью;
кто отождествляет себя с добродетелью, того добродетель тоже обретает с радостью;
кто делает себя тождественным утрате, того утрата тоже обретает с радостью.
Кто не способен доверять другим, тому не доверяют.

[91t24c] **И. И. Семененко**

кто хвастается, не заслужен;
кто зазнается, тот других не старше.
У кого Дао, тот этого не делает, ибо такое поведение, согласно Дао, равняется тому, когда переедают или впустую ходят, а этого не любит, кажется, никто.

[91t25c] **И. И. Семененко**
Существует одна вещь, совершенная по смеси.
Она родилась прежде Неба и Земли.
О, как она безмолвна и бесформенна!
Стоит одна и неизменна, ходит кругом, и ей ничто не угрожает.
Она может быть для Поднебесной матерью.
Мне не известно ее имя.
Наделяю эту вещь прозванием "Дао" и через силу отыскиваю для него имя "Великое".
Великим называю уходящее,
уходит - значит далеко находится,
а далеко находится - значит возвращается.
Поэтому-то Дао и велико, велико Небо, велика Земля, велик и царь.
Во вселенной пребывают четверо великих, и место одного из них занимает царь.
Примером для людей является Земля,
для Земли примером служит Небо,
для Небес примером выступает Дао,
Дао свой пример находит в самости.

[91t26c] **И. И. Семененко**
Тяжесть составляет корень легковесности,
покой есть государь поспешности.
Вот почему Премудрый человек, даже когда он целый день идет, не разлучается с тяжелою поклажей.
И даже разместившись в царственных чертогах, он остается беззаботен и далек от мира.
Да и как может властелин десятка тысяч колесниц относиться к себе легковеснее, чем к Поднебесной?
При легковесности утрачивают корень, из-за поспешности теряют государя.

[91t27c] **И. И. Семененко**
Умелая езда не оставляет следа,
от умелых слов не остается крапин,
умея сосчитать, не прибегают к счетным биркам;
когда умело запирают дверь, не применяют никаких замков, но ее не отпереть;
когда с умением завязывают узел, не используют веревки, но его не развязать.
Так и Премудрый человек проявляет неизменное умение спасать других, и потому нет брошенных людей;
умеет с неизменностью спасать вещи, и потому они не брошены.
Это зовут внезапно набегающим просветом.
Поэтому-то добрый человек недоброму наставник,
недобрый же для доброго опора.
Когда не дорожат своим наставником и не щадят своей опоры, то пусть бы были даже и умны, но пребывают в тяжком заблуждении.
В этом заключается вся суть и тайна.

[91t28c] **И. И. Семененко**

Кто, зная о своем мужском начале, сберегает в себе женское, становится ущельем Поднебесной?
А став ущельем Поднебесной, не разлучается с незыблемою добродетелью и возвращается к младенцу.
Кто, зная, что он светел, сберегает свою темноту, становится для Поднебесной образцом.
А став для Поднебесной образцом, не вносит изменения в незыблемую добродетель и возвращается к бескрайности.
Кто, зная что он славен, сберегает свою опозоренность, становится долиной Поднебесной.
А став долиной Поднебесной, преисполняется незыблемою добродетелью и возвращается к тому, что первозданно.
Первозданное же рассыпается на чаши.
Когда Премудрый человек для них находит применение, то становится главой чинов.
Великое кроят не разрезая.

[91t29c] **И. И. Семененко**

Кто вознамерится взять Поднебесную и ею заниматься, на мой взгляд, это ему не удастся.
Поднебесная - чаша душевная, и сформовать ее нельзя.
Формуя, ее только портят, владея же, утрачивают.
Средь сущего одни ведут, другие следуют;
одни выдыхают медленно, другие - быстро;
одни становятся сильны, другие чахнут;
одни поднимаются, другие гибнут.
Именно поэтому Премудрый человек отбрасывает крайность, отвергает неумеренность, отказывается от излишества.

[91t30c] **И. И. Семененко**

Кто помогает государю на основе Дао, не подминает Поднебесную оружием.
В противном случае лишь ожидает крах.
Где стоит войско, там растут колючие кустарники.
После прохода большой армии настают голодные годы.
У искусного сбывается, и только!
Он не смеет брать оружием и подминать.
У него сбывается, и он не зазнается;
сбывается, и не кичится;
сбывается, и не гордится;
сбывается как неизбежное;
сбывается при том, что он не подминает.
На смену возмужалости, когда находятся в расцвете сил, приходит старость.
Это значит действовать вопреки Дао.
А тому, кто действует вопреки Дао, конец приходит рано.

[91t31c] **И. И. Семененко**

когда же он берется за оружие, то ценит правую.
Оружие - несчастья инструмент,
и благородный муж его своим не признает.
Он пользуется им лишь по необходимости.
Считает наилучшим сохранять невозмутимость и не восторгаться победой на войне.
Ведь ею восторгаться - значит радоваться убиению людей.
А кто радуется убиению людей - не может быть главою Поднебесной.
В праздничной обрядности дорожат левой стороной, в траурной предпочитают правую.
Подчиненные военачальника находятся на левой стороне, сам он занимает место справа.
Значит, они размещаются согласно погребальному обряду,
и им при множестве убитых следует оплакивать их с горечью и скорбью.
Победа на войне заслуживает погребального обряда.

[91t32c] **И. И. Семененко**
Дао, будучи незыблемым, не имеет имени.
И хоть первозданное ничтожно, никто под Небесами его сделать своим подданным не в силах.
Если владетели и царь смогут ему следовать, все десять тысяч вещей сами сочтут себя гостями, Небеса с Землей соединятся и снизойдет сладчайшая роса.
Народ, не получив ни от кого приказа, сам меж собою уравняется.
С началом кройки возникает имя;
а возникает имя, узнают, когда остановиться.
Узнав, когда остановиться, можно избежать опасности.
Дао Поднебесной напоминает горную долину со стремящимся по ней в реку к морям потоком.

[91t33c] **И. И. Семененко**
Знающий людей умен,
знающий себя находится в просвете.
Одолевающий других обладает силой,
одолевающий себя становится могучим.
Кто знает то, что для него достаточно, - богат;
кто действует с настойчивостью, когда могуч, тот обладает волей.
Кто не утрачивает своего места, долговечен;
кто не уходит, когда умирает, продолжает жить вечно.

[91t34c] **И. И. Семененко**
Какая широта в великом Дао!
Он может находиться слева, справа.
Опираясь на него, вещей родится десять тысяч.
И от них он не отказывается.
Но его заслуги не приносят ему славы.
Дает одежду, пищу всем вещам, но не становится их господином.
У него незыблемо отсутствие желаний, и он может находиться в унижении.
Все вещи к нему возвращаются, но он не становится их господином и может получить имя великого.
Он потому может осуществить свою великость, что не признает себя великим.

К держащему великий образ уходит Поднебесная.
Уход к нему не причиняет ей вреда, но приносит мир, спокойствие и благоденствие.
Музыка и яства останавливают проходящих странников.
Но как же пресно, как безвкусно Дао, когда источается из уст!
Глядя на него, в нем не вполне найдешь, чего увидеть;
слушая его, в нем не вполне найдешь, чего услышать;
когда же пользуешься им, его не исчерпать.

[91t36c] **И. И. Семененко**
Прежде чем что-либо сжать, следует сначала его растянуть;
прежде чем что-либо ослабить, следует сначала его укрепить;
прежде чем что-либо низринуть, следует сначала дать ему подняться;
прежде чем у кого-либо отнять, следует сначала ему предоставить.
Это зовут неуловимым крошечным просветом.
Мягкое и слабое одерживает верх над твердостью и силой.
Рыбе не годится выплывать из глубины.
Бразды правления не следует показывать.

[91t37c] **И. И. Семененко**
Дао, будучи незыблемым, находится в бездействии, но оно при этом непременно действует.
Если владетели и царь смогут ему следовать, то десять тысяч вещей сами же преобразуются.
Когда они, преобразовываясь, пожелают возрасти, я их укрощу посредством приведения к безымянной первозданности.
В состоянии безымянной первозданности не появится желаний.
А при отсутствии желаний и в покое Поднебесная сама придет к стабильности.

[91t38c] **И. И. Семененко**
Верх добродетели - ее не проявлять и потому быть добродетелью проникнутым.
При низшей добродетели стараются ее не упустить и потому не обладают добродетелью.
При высшей добродетели бездействуют и лишены намерения действовать.
При низшей добродетели берутся за дела и преисполнены намерения действовать.
При высшей человечности берутся за дела, но лишены намерения действовать.
При высшей справедливости берутся за дела и преисполнены намерения действовать.
При высшей ритуальности берутся за дела, и если не встречают отклика, то тащат с пылом за собой.
Поэтому с утратой Дао и обретают добродетель;
с утратой добродетели овладевают человечностью;
с утратой человечности усваивают справедливость;
с утратой справедливости вверяют себя ритуалу.
Ритуальность составляет мелочь в проявлении преданности и доверия.
В ней заключается начало смуты.
Различать заранее - это цветок Дао и начало глупости.
Именно поэтому великий муж довольствуется сутью и не гонится за мелочами, предпочитает плод цветку, отбрасывает то и берет это.

Благодаря ему Небо и делается чистым,
Земля хранит устойчивость,
души обретают чудотворность,
долины наполняются,
вещей родится десять тысяч,
владетели и царь становятся для Поднебесной образцом.
Достигнуть этого им помогает именно единое.
Когда у Неба нет того, что доставляет чистоту, оно, пожалуй, разломается;
Земля, не обладая тем, что придает устойчивость, пожалуй, станет шаткой;
души, не имея того, что сохраняет чудодейственность, пожалуй, перестанут проявляться;
долины при отсутствии того, что позволяет им наполниться, пожалуй, пересохнут;
десяти тысячам вещей по неимению того, чем можно жить, не избежать, пожалуй, истребления;
владетели и царь, не обладая тем, что обеспечивает знатностью и высшим положением, пожалуй, этого лишатся.
Знатность коренится в худородстве, высокому основой служит низкое.
Именно поэтому владетели и царь называют себя: "сирый", "вдовый" и "убогий".
Не значит ли это, что в худородстве заключается их корень? Разве не так?
Отсюда и выходит, что все части, из которых состоит повозка, повозкой еще не являются.
Не стремись быть редким словно яшма или многим как простые камни.

[91t40c] **И. И. Семененко**
В обратном ходе заключается движение Дао, в слабости - его использование.
Десяти тысячам вещей под Небесами жизнь дает наличие, а само наличие рождается от неналичия.

[91t41c] **И. И. Семененко**
Высший из мужей, слыша о Дао, усердно претворяет его в жизнь;
средний из мужей, слыша о Дао, пребывает в замешательстве;
низший из мужей, слыша о Дао, над ним насмехается.
Над чем не смеялись бы, то не было бы Дао.
Поэтому есть веские суждения.
Дао уясняют, словно помрачаются;
по нему идут вперед, как пятятся назад;
оно ровно, будто все в ухабах;
верх добродетели напоминает впадину долины;
пречистое походит на запятнанное;
бескрайность добродетели уподобляется изъяну;
добродетель делают незыблемой как бы невзначай;
безыскусная правдивость кажется чем-то превратным.
У великого квадрата нет углов,
великое изделие не скоро создается,
великая мелодия является беззвучной,
великий образ не имеет формы.
Дао скрытно, у него нет имени, но лишь оно умеет дать взаймы и довести до самого конца.

[91t42c] **И. И. Семененко**
Дао порождает единицу,

единица родит двойку,
два рождает тройку,
три дает жизнь десяти тысячам вещей.
Все вещи, прислоняясь спиной к Тени (Инь), обнимают Свет (Ян), и дыхание (ци) пустоты приводит их к гармонии.
Что людям ненавистно - это оказаться "сирым", "вдовым" и "убогим", но так зовут себя цари с князьями.
Выходит, что ущербность может доставлять прибыток, прибыток - приносить ущерб.
Такое наставление я получаю от людей.
И я их тоже наставляю: за произвол, насилие ждет преждевременная смерть.
Это будет моим самым главным наставлением.

[91t43c] **И. И. Семененко**
Мягчайшее под Небесами проскакивает сквозь твердейшее.
Неналичие проходит в то, что не имеет промежутка.
Именно поэтому я знаю о полезности бездействия.
В Поднебесной редко кому удается овладеть учением, невыразимым в слове, и полезностью бездействия.

[91t44c] **И. И. Семененко**
Милее славу заиметь или живым остаться?
Ценней живым остаться иль разбогатеть?
Больней приобрести или утратить?
Это объясняет, как дорого приходится расплачиваться за свою привязанность,
и сколь велик убыток, приносимый накопительством.
Кто знает то, что для него является достаточным, не подвергается бесчестью;
кто ведает, когда остановиться, пребывает в безопасности и может долго жить.

[91t45c] **И. И. Семененко**
Верх совершенства кажется изъяном, но польза от него не умаляется;
верх полноты напоминает пустоту, но польза от нее не иссякает.
Верх прямоты походит на извилистость,
верх мастерства напоминает неуклюжесть,
верх красноречия уподобляется косноязычию.
Поспешность преодолевает холод, покой одолевает жар.
Покой, невозмутимость - главное в Поднебесной.

[91t46c] **И. И. Семененко**
Когда Дао в Поднебесной есть, то скакунов отводят унавоживать поля;
когда Дао в Поднебесной нет, то боевых коней растят в походах.
Нет худшего несчастья, чем незнание того, что для тебя является достаточным;
нет тяжелее бедствия, чем страсть к приобретению.
Когда же ведают о том, что то, чего достаточно, является достаточным, находятся в незыблемом достатке.

Знают Поднебесную, не выходя за дверь, и видят Дао Неба, не подглядывая из окна.
Чем далее уходят, тем меньше знают.
Именно поэтому Премудрый человек не делает ни шагу, а все знает, он прозревает в то, чего не видит, и добивается успеха, находясь в бездействии.

[91t48c] **И. И. Семененко**
Когда учатся, имеют каждый день прибыток,
а занимаясь Дао, ежедневно терпят умаление.
Умаление следует за умалением, и так доходят до бездействия.
Но в состоянии бездействия непременно действуют.
Поднебесную берут незыблемо посредством недеяния.
А кто при помощи деяний собирается взять Поднебесную, тому для этого их никогда не хватит.

[91t49c] **И. И. Семененко**
Премудрый человек не ведает незыблемости сердца.
Сердцем для него являются сердца простых людей.
С добрыми я добр, но и с недобрыми я тоже добр.
К добру приводит добродетель.
Кто честен, тем я доверяю, но и нечестным я тоже доверяю.
К честности приводит добродетель.
Премудрый человек под Небесами беспристрастен и ради Поднебесной мутит свое сердце.
При нем все по-детски улыбаются.

[91t50c] **И. И. Семененко**
Выходят, чтобы жить;
входя обратно, умирают.
Из каждых десяти лишь три вступают в жизнь и три, уж находясь в конце ее, вышагивают к смерти.
И те, чья человеческая жизнь является лишь местом смерти, по которому им двигаться, тоже составляют три из десяти.
Чем это объясняется?
Тем, что они всего превыше ценят жизнь.
Говорят, есть человек, умеющий заботиться о жизни.
Когда идет по суше, на него не нападает носорог и тигр, вступая в войско, он не запасается оружием и латами.
Носорогу некуда его ударить рогом, тигру негде в него впиться когтями, мечу некуда в него вонзиться острием.
Чем это объясняется?
Тем, что в нем нет места для смерти.

[91t51c] **И. И. Семененко**
Дао рождает, добродетель взращивает, вещь оформляется, обстоятельства приводят к завершению.
Поэтому-то среди десяти тысяч вещей нет ни одной, которая не почитала бы Дао и не ценила добродетель.
Чтить Дао, ценить добродетель - это не чей-либо приказ, а незыблемая самость.
Дао рождает, добродетель взращивает.
Она растит, лелеет, совершенствует, делает зрелым, содержит, укрывает.

Чему давать жизнь, не иметь,
на свои действия не опираться,
быть старшим, но не властвовать
- это называют сокровенной добродетелью.

[91t52c] **И. И. Семененко**
У Поднебесной есть начало, и оно становится ей матерью.
Дитя, только окажется пред матерью, и мать сразу же его узнает, а узнает, и дитя вновь будет ее слушаться и до скончания жизни не изведает опасности.
Закрыв отверстия и заперев врата, до самого конца избавишься от тягот,
а если распахнешь их и возьмешься за дела, не испытаешь никогда спасения.
Видеть малое значит быть в просвете,
в сбереженной мягкости заключено могущество.
Пользуясь сиянием Дао, вновь возвращаются в его просвет и не причиняют себе зла.
Это называют навыком к незыблемому.

[91t53c] **И. И. Семененко**
Знай я совсем немного, вступил бы на Великий Путь и лишь боялся бы с него сойти.
Великий Путь отменно ровен, но людям нравятся тропинки.
Когда дворец блещет убранством, поля заполоняют сорняки и житницы стоят совсем пустые.
И надевать при этом яркие наряды,
носить отборные клинки,
чревоугодничать,
купаться в роскоши
- это зовется воровской кичливостью.
В ней все противоречит Дао.

[91t54c] **И. И. Семененко**
Умеющего крепко встать не шелохнуть,
умеющего охватить не оторвать.
Сыновья и внуки будут непрестанно поминать их жертвами.
У того, кто это совершенствует в себе, добродетель делается подлинной;
у того, кто это совершенствует в семье, добродетель достигает изобилия;
у того, кто это совершенствует в селении, добродетель возрастает;
у того, кто это совершенствует в уделе, добродетель процветает;
у того, кто это совершенствует и в Поднебесной, добродетель делается всеобъемлющей.
Поэтому-то зрят себя собою, семью семьей, селение селением, удел уделом, Поднебесную всей Поднебесной.
Откуда мне известно истинное состояние Поднебесной?
Отсюда.

[91t55c] **И. И. Семененко**
Кто преисполнен добродетели, походит на младенца.
Его не ужалит ядовитая змея, не схватит лютый зверь, не заклюет пернатый хищник.
Его кости слабы, сухожилия мягки, но держит в горсти крепко.
Хотя ему еще неведома связь самца и самки, он всецело развит.

Его сгущенность совершенна.
Он может целый день кричать и не охрипнуть.
Гармония в нем совершенна.
Знание гармонии зовут незыблемым, знание незыблемого называется просветом.
Становиться взрослым, отходя от состояния младенца, значит предрекать себе несчастье.
Когда сердце властвует дыханием, это говорит о силе возмужалости.
Но ей на смену спешит старость.
Это значит действовать вопреки Дао.
А тому, кто действует вопреки Дао, конец приходит рано.

[91t56c] **И. И. Семененко**
Кто знает, тот не говорит;
кто говорит, не знает.
Закрыть свои отверстия и запереть свои ворота,
умерить свою остроту,
смирить свою запутанность,
ослабить силу своего сияния и сделать единой свою пыль
- это значит находиться в сокровенном тождестве.
Кто в нем, того нельзя приблизить, нельзя и отдалить, нельзя сделать ему что-либо полезное, нельзя и навредить, нельзя его возвысить и нельзя принизить.
Поэтому он в Поднебесной и становится превыше всех.

[91t57c] **И. И. Семененко**
Порядок в княжестве наводят прямо, в военном деле прибегают к хитрости,
Поднебесную берут посредством недеяния.
Откуда это мне известно?
Отсюда.
В Поднебесной множатся запреты, и народ все более беднеет;
в народе много острого оружия, и в стране усиливается разлад;
у людей искусность увеличивается, и каверзы становятся в почете;
законы и приказы возрастают, и воров с разбойниками появляется все больше.
Поэтому Премудрый человек и говорит:
"Я нахожусь в бездействии, и народ сам преобразуется;
я предаюсь покою, и народ сам исправляется;
я пребываю в недеянии, и народ сам богатеет;
у меня не появляется желаний, и народ сам обретает первозданность".

[91t58c] **И. И. Семененко**
При несведущем правительстве народ бесхитростен и добр,
при въедливом правительстве народ корежит недовольство.
В несчастье коренится счастье,
в счастье укрывается несчастье.
Кто знает их пределы?
В них нет определенности.
Прямолинейность переходит в хитрость,
добро приносит пагубу.

Люди заблуждаются уже очень давно.
Вот почему Премудрый человек, квадратным делаясь, не режет;
остер углами, но не колок,
прям, но не задирист,
ярок, но не затмевает.

[91t59c] **И. И. Семененко**
Для управления людьми и службы Небу нет лучше бережливости.
А бережливость - это когда загодя посвящают себя Дао.
Загодя посвятить ему себя значит скопить вдвое больше добродетели.
Кто скапливает ее вдвое больше, становится непобедим.
Когда становится непобедим, его предел перестает кому-либо быть ведом.
А чей предел становится неведом, тот может иметь княжество.
Мать, обладающая княжеством, может достигнуть долговечности,
и это называется глубоким корнем, прочным основанием, Дао вечной жизни и нескончаемого видения.

[91t60c] **И. И. Семененко**
Править великим государством - это как готовить кушаенье из мелкой рыбы.
Когда правят Поднебесной на основе Дао, души умерших не имеют чудотворной силы.
Они не только не имеют чудотворной силы, но и не наносят вреда людям.
Не только души не наносят вреда людям, но и Премудрый человек не причиняет вреда людям.
А так как обе стороны друг другу не чинят вреда, их добродетели между собой соединяются.

[91t61c] **И. И. Семененко**
Великая держава образует нижнее течение реки.
Это скрепа Поднебесной, ее самка.
Самке неизменно в состоянии покоя удается побеждать самца.
Покой ей позволяет быть внизу.
Когда великая держава ставит себя ниже небольшого государства, то она его берет;
когда небольшое государство принижается перед великою державой, то оно ее берет.
Так берут тем, что ставят себя ниже, либо находятся внизу.
Не пожелай великая держава, когда что-либо захватывает, большего, чем взращивать людей,
а небольшое государство - большего, чем вступить в то, где служат людям,
то оба обрели бы исполнение своих желаний.
Великому пристало быть внизу.

[91t62c] **И. И. Семененко**
Дао - это святыня десяти тысяч вещей, сокровище для людей добрых и то, что берегут недобрые.
Прекрасные слова могут найти непревзойденный спрос,
почтенному поступку могут все последовать.
Зачем отбрасывать людскую скверну?
Ведь именно для этого поставлены Сын Неба и три его советника.
Хотя они и выезжают на четверке лошадей с большой регалией из яшмы впереди, им лучше было бы
сидя продвигаться в Дао.
Почему же в древности ценили это Дао?
Не потому ли, что, благодаря ему, успешно обретали то, к чему стремились,

и избегали наказания, когда были виноваты?
Поэтому нет ничего его ценнее в Поднебесной.

[91t63c] **И. И. Семененко**
Действовать в бездействии, заниматься делом недеяния и наслаждаться вкусом не имеющего вкуса.
Находить большое в малом, многое в немногом и воздавать добром за ненависть.
Добывают трудное из легкого, создают великое из незначительного.
Все, что в Поднебесной трудно делать, начинать легко,
и все великие дела берут начало в самом незначительном.
Именно поэтому Премудрый человек никогда не делает великого и потому он наделен способностью осуществить свою великость.
Кто много обещает, тому мало доверяют.
Большая легкость оборачивается великим затруднением.
Вот почему Премудрый человек как бы во всем испытывает затруднение, но именно поэтому он никогда не затрудняется.

[91t64c] **И. И. Семененко**
Легко придерживаться безопасного,
легко замыслить еще не начавшееся,
легко разъединять непрочное,
легко рассеивать мельчайшее.
Начинают заниматься тем, что еще не возникло;
наводится порядок там, где он еще не нарушается.
Дерево в охват рождается из самой малости,
девятиярусная насыпь восстает из пригорошни земли,
далекий путь берет начало в пяди под стопой.
Кто действует, тот терпит поражение;
кто чем-то обладает, тот его теряет.
Вот почему Премудрый человек находится в бездействии и потому не знает поражения,
ничем не обладает и потому не ведает потерь.
В своих делах люди обычно накануне достижения успеха терпят поражение.
Не терпят поражения, когда в конце бывают так же осторожны, как в начале.
Поэтому Премудрый человек желает не иметь желаний и не ценит редкие товары,
он учится быть неученым и возвращается к тому, что скопище людей минует.
Помогая десяти тысячам вещей быть самостными, он не смеет действовать.

[91t65c] **И. И. Семененко**
Кто в древности умел следовать Дао, с его помощью не просвещал народ, а делал глупым.
Когда люди много знают, ими трудно управлять.
Править на основе знаний для государства - это подлинное бедствие;
когда в правлении не полагаются на знания, приносят государству счастье.
Кто ведает об этой паре истин, тот постигает вечный образец.
А знать неколебимо вечный образец - это называют сокровенной добродетелью.
Она глубока, далека и со всеми возвращается.
Но только так ей удается достигать великой слаженности.

Моря и реки потому способны царствовать над горными потоками, что умеют быть внизу.
Только поэтому они способны царствовать над горными потоками.
И при желании подняться над народом следует словесно перед ним принизиться,
при желании быть впереди народа следует поставить себя сзади его.
Именно поэтому, когда Премудрый человек встает над всеми, народу он не делается в тягость;
когда он пребывает впереди, народу не наносится вреда.
Все в Поднебесной с радостью его выдвигают и им не пресыщаются.
А так как сам он не соперничает, никто и не способен с ним соперничать.

[91t67c] **И. И. Семененко**
Все говорят о том, как сходство Дао моего велико с недостойным сыном.
Но мое Дао потому-то и велико, что напоминает сына, не похожего на предков.
А было бы похожим, то уж давно бы измельчало.
У меня есть три сокровища, я их держусь и берегу.
Одно зовется материнскою любовью,
второе - бережливостью,
а третье - тем, когда не смеют находиться впереди других.
Люблю по-матерински и поэтому способен преисполниться бесстрашия,
обладаю бережливостью и потому способен обрести широкость,
не смею находиться впереди других и потому способен стать распорядителем готовых чаш.
Кто отрекается любить по-матерински и предпочитает быть бесстрашным,
отбрасывает бережливость и предпочитает широту,
отказывается быть сзади и предпочитает находиться впереди,
того ждет гибель.
Когда сражаются, преисполняясь материнскою любовью, побеждают,
а оборона с ее помощью становится незыблемой.
Спасение грядет от Неба, дающего защиту с материнскою любовью.

[91t68c] **И. И. Семененко**
Умеющий быть воином не ведает воинственности,
умеющий сражаться - не бывает гневен,
умеющий одерживать победу над противником с ним не вступает в схватку,
умеющий использовать людей становится их ниже.
Это называют добродетелью отказа от соперничества,
способностью использовать людей и верхом сочетания с Небесной древностью.

[91t69c] **И. И. Семененко**
Стратеги говорят:
"Я смею быть лишь гостем, не хозяином, скорее отступлю назад, чем двинусь на вершок вперед".
Это называют маршированием без маршировки,
боевитостью без боевитости,
завоеванием при неналичии противника,
стратегией без войн.
Нет большего несчастья, чем пренебрежение противником.
Пренебрежение противником близко к утрате моего сокровища.

Поэтому когда идут войною друг на друга, то побеждает тот, кто сострадает погибающим на поле боя.

[91t70c] **И. И. Семененко**
Мои слова понять так просто, так просто выполнить.
Но их понять никто не может, никто не может выполнить.
У слов имеется исток, а у поступков то, что ими управляет.
Их-то как раз не понимают и потому меня не знают.
Коль редкостен, кто меня знает, то я ценен.
Именно поэтому Премудрый человек таит под рубищем нефрит.

[91t71c] **И. И. Семененко**
Знать о том, чего не знаешь, всего выше;
а не знать, что знаешь, значит быть больным.
Перестают болеть, лишь когда болеют о своей болезни.
Премудрый человек не болен.
Он болеет о своей болезни и потому не болен.

[91t72c] **И. И. Семененко**
Когда народу не страшны угрозы, грозит великая беда.
Не гнушайтесь его местом обитания, не пресыщайтесь тем, что он растит.
Не пресытетесь, и вам не будет тошно.
Именно поэтому Премудрый человек в своем самопознании себя не видит и при любви к себе не придает себе значения.
Он отвергает то и берет это.

[91t73c] **И. И. Семененко**
Когда смелы в том, чтобы сметь, предают смерти;
когда смелы в том, чтобы не сметь, то воскрешают.
В обоих случаях приносится иной раз польза, а иной раз вред.
Кто знает, почему бывает Небу что-то ненавистно?
Именно поэтому Премудрый человек как бы во всем испытывает затруднение.
Дао Небес умеет без борьбы одерживать победу,
умеет молчаливо откликаться,
является само без зова,
умеет неумышленно замыслить.
Широко раскинута сеть Неба, и хоть она редка, но из нее не выскользнуть.

[91t74c] **И. И. Семененко**
Когда народ не ощущает страха смерти, то как же можно смертью устрашать народ?
И кто посмел бы это делать, если бы народ незыблемо боялся смерти, а тех, кто строят козни, мне удалось бы взять и предать смерти?
В незыблемости пребывает ведающий убиением, который подвергает смерти.
Убивать вместо него - это все равно как попытаться что-либо вытесывать, вообразив себя великим плотником.
Скорей всего поранишь только свои руки.

[91t75c] **И. И. Семененко**
Народ голодает, ибо стоящие над ним объедают его податями.
Именно поэтому и голодает.
Народом трудно управлять, ибо стоящие над ним привержены деянию.
Именно поэтому и трудно управлять.
Народ не придает значения смерти, ибо стоящие над ним всего превыше ценят жизнь.
Именно поэтому не придает значения смерти.
Но ведь не гонясь за жизнью сохраняют ее лучше, чем когда ею дорожат.

[91t76c] **И. И. Семененко**
Человек, когда родится, слаб и нежен;
умирая же он делается тверд и крепок.
Вся тьма существ, деревья, травы при своем рождении нежны и слабы, когда же гибнут - засыхают.
Твердое и сильное выступают спутниками смерти, нежное и слабое - спутниками жизни.
Поэтому, когда могуче войско, оно победы не одерживает,
когда крепким вырастает дерево, его срубают на оружие.
Великое и сильное низки, а слабое и нежное высоки.

[91t77c] **И. И. Семененко**
Не сходно ль Дао Неба с тем, как натягивают лук?
Сгибают его верхний конец и поднимают в то же время нижний,
отнимают от избытка и восполняют недостаток.
И Дао Неба восполняет недостаток, отнимая от избытка.
Людское Дао заключается в обратном:
ущемлять лишенного достатка и одаривать живущего в избытке.
Кто способен одарить своим избытком Поднебесную?
Лишь тот, кто обладает Дао.
Именно поэтому Премудрый человек не ищет для себя опоры в том, что делает, и не относит к себе совершенные им подвиги.
Он не желает выставлять на обозрение свои достоинства.

[91t78c] **И. И. Семененко**
Слабей и мягче, чем вода, нет ничего под Небесами, но в сокрушении твердости и силы ее не превзойти.
В этом ее нечем заменить.
Слабость побеждает силу, мягкость преодолевает твердость.
Это известно в Поднебесной всем, но претворить в деяние никто не может.
Премудрый человек так говорит:
Править страной - значит принять ее позор,
царить в Поднебесной - значит принять беду своей страны.
В правдивом слове есть подобие ему обратного.

[91t79c] **И. И. Семененко**
Большая ненависть, когда ее смягчают, лишь делается затаенной.
Как может это приводить к добру?
Именно поэтому Премудрый человек дает по соглашению взаймы и, владея левой половиной бирки,

счета никому не предъявляет.

в ком ее нет, следит за тем, чтобы взыскать.
Дао Небес не ведает пристрастия и неизменно помогает добрым людям.

[91t80c] **И. И. Семененко**
В небольшом и малолюдном государстве способствовать тому, чтобы таланты не использовались, даже если бы их было в десять, сто раз больше, чем обычно, и побуждать народ из почтения к смерти не ездить далеко.
Появись там лодки и повозки, им не нашлось бы места для использования,
появись там даже латы и оружие, их негде было бы расположить.
Пусть люди снова бы завязывали на веревках узелки вместо письма и было бы им сладко есть, прекрасно одеваться, удобно жить и радостно изведывать свои обычаи.
Со страною по соседству друг на друга бы глядели издалека и слушали бы друг у друга лай собак и крики петухов,
но меж собою не общались бы до самой старости и смерти.

[91t81c] **И. И. Семененко**
Нет красоты в правдивом слове,
нет правды в сказанном красиво.
Кто добр, не спорит,
кто спорит, тот не добр.
Пониманию чужда ученость,
ученость далека от понимания.
Премудрый человек не скопидом.
Но он все больше обретает, всецело помогая людям, и неизменно богатеет, когда все людям отдает.
Дао Неба, доставляя пользу, не вредит;
Дао Премудрого человека действует без противоборства.

[92t01c] **А. А. Маслов**
Дао, которое может быть выражено словами, не есть постоянное Дао.
Имя, которое может быть поименовано, не есть постоянное имя.
Небытие зовётся началом Неба и Земли.
Бытие зовётся Матерью мириад созданий.
Поэтому, желая узреть его утончённо-неуловимую сущность, обрети постоянство небытия.
Желая наблюдать его проявления, пребывай в постоянстве бытия.
Оба они произрастают вместе и различаются лишь именем.
Будучи тождественными, они зовутся сокровенным.
Сокровенное и ещё раз сокровенное - врата ко множеству потаённого.

[92t02c] **А. А. Маслов**
Лишь только в Поднебесной узнали, что красивое - красиво, тотчас появилось и уродство.
Как только все узнали, что добро - это добро, тотчас появилось и зло.
Ибо наличие и отсутствие порождают друг друга.
Сложное и простое создают друг друга.
Длинное и короткое поверяют друг друга.
Высокое и низкое тянутся друг к другу.
Голоса и звуки приходят в гармонию друг с другом.
"До" и "после" следуют друг за другом.
Поэтому мудрец действует недеянием и учит молчанием.
Мириады созданий возникают из этого, а он не правит ими.
Он порождает их и не обладает ими;
действует, не имея воздаяния;
достигая совершенства, не считает это успехом;
в силу того, что он никогда не стремится к успеху, тот никогда не покидает его.

[92t03c] **А. А. Маслов**
Не превозноси мудрых - и люди не будут соперничать.
Не цени редкие вещи - и не будут красть.
Не гляди на то, что возбуждает желания, и сердца людей не придут в смятение.
Поэтому, управляя людьми, мудрец опустошает их сердца и наполняет желудки;
ослабляет их волю, но усиливает их кости;
постоянно стремится к тому, чтобы они были незатронуты знаниями и свободны от желаний,
а те, кто освящён мудростью, не помышляли о действии.
Действуй недеянием - и не будет того, что не управлялось бы тобой.

[92t04c] **А. А. Маслов**
Дао пустотно, но использованием не исчерпать его.
Глубочайшее! Оно подобно предку мириад существ.
Притупи лезвие, развяжи узлы, пригаси блеск, уподобь его пылинке.
Отсутствующее! Лишь кажущееся присутствующим здесь.
Мне не постичь, чьим сыном оно является.
Но кажется предком Владыки.

[92t05c] **А. А. Маслов**

Небо и Земля не гуманны и относятся к мириадам существ, как к соломенным собачкам.
Мудрый человек не гуманен и относится к людям, как к соломенным собачкам.
Не подобно ли пространство между Небом и Землёй [кузнечным] мехам?
Будучи пустотным, оно неисчерпаемо.
Чем больше оно движется, тем больше ему прибавляется.
Произносящий бесчисленное множество речей не сравним со сберегающим это в себе.

[92t06c] **А. А. Маслов**
Дух в долине никогда не умирает.
И зовётся это сокровенной самкой.
Врата сокровенной самки зовутся корнем Неба и Земли.
Едва различимое, лишь кажущееся присутствующим здесь, оно неисчерпаемо в использовании.

[92t07c] **А. А. Маслов**
Небо извечно, Земля - долговременна.
Небо и Земля могут быть извечны и долговременны, ибо они не порождают сами себя.
Вот почему они извечны и долговременны.
Поэтому мудрец, становясь позади всех, оказывается впереди всех, пренебрегает собой и потому сберегает себя.
Разве этим он не преследует личных целей?
Поэтому он и может достичь их.

[92t08c] **А. А. Маслов**
Человек высшей Благости подобен воде,
ибо вода приносит пользу мириадам существ, не соперничая с ними, и находится в том месте, которое все ненавидят.
Поэтому она близка Дао.
В жилище он ценит землю,
в сердце ценит глубину,
в союзе ценит гуманность,
в словах ценит искренность,
в правлении ценит порядок,
в поступках ценит способности,
в делах ценит время.
В силу того, что он не соперничает, он и не допускает ошибок.

[92t09c] **А. А. Маслов**
Лучше вовремя остановиться, чем наполнить [сосуд] до краёв.
Если заточить лезвие до предела, то долго его не сохранить.
Покои могут быть полны золота и каменьев, но не найдётся того, кто устерёг бы их.
Похваляться богатством и знатностью - значит накликать на себя беду.
Добившись успеха - отступай.
В этом - Путь Неба.

[92t10c] **А. А. Маслов**
Можно ли, соединив душу и плоть, объять Единое и не утратить это?

Можно ли, регулируя ци и становясь податливым, обрести состояние новорождённого?
Можно ли, отполировав сокровенное зеркало, не оставить на нём пятен?
Можно ли, любя народ и правя государством, пребывать в недеянии?
Можно ли, открывая и закрывая Небесные Врата, сохранять состояние самки?
Можно ли, постигнув четыре начала, пребывать вне знания?
Давать жизнь и вскармливать?
Давать жизнь и не обладать этим?
Действуя, не требовать воздаяния?
Взращивая, не править этим?
Это зовётся сокровенной Благостью.

[92t11c] **А. А. Маслов**
Тридцать спиц соединяются в одной ступице.
Использование же повозки обуславливается пустотой между ними.
Для того, чтобы изготовить сосуд, размешивают глину.
Использование же сосуда обуславливается пустотой в нём.
Для того, чтобы соорудить жилище, прорубают двери и окна.
Использование же жилища обуславливается пустотой в нём.
Поэтому ту выгоду, которую получаем благодаря "наличию", мы можем использовать лишь благодаря "отсутствию".

[92t12c] **А. А. Маслов**
Пять цветов слепят глаза человека.
Пять тонов музыки притупляют его слух.
Пять вкусовых ощущений ранят его рот.
Скачка на лошадях и охота делают необузданым его сердце.
Редкие вещи влекут человека к совершению зла.
Поэтому мудрец заботится о желудке, а не о глазах;
отказывается от одного, дабы достичь другого.

[92t13c] **А. А. Маслов**
Слава и позор подобны страху.
Ценить своё тело - то же самое, что ценить величайшие несчастья.
Что значит: "Слава и позор подобны страху?"
Даже при малейшей славе, достигая её - страшатся, утрачивая - страшатся тоже.
Это и значит: "Слава и позор подобны страху."
Что значит: "Ценить своё тело - то же самое, что ценить величайшие несчастья?"
Причина, по которой я сталкиваюсь с величайшими несчастьями, заключена в том, что я имею тело.
Если бы я не имел тела, откуда же взяться несчастьям?
Поэтому, тому, кто ценит Поднебесную больше, чем себя, может быть доверена Поднебесная.
Тот, кто любит Поднебесную больше, чем себя, встретит поддержку Поднебесной.

Зовём это редким.
Пытаемся коснуться его и не достигаем.
Зовём это мельчайшим.
Эти три ипостаси невозможно разделить, ибо смешаны они и являют собой Единое.
Его верхняя часть не источает света.
Его нижняя часть не окутана мраком.
Едва различимое, его нельзя даже поименовать.
Оно возвращается к тому, что не имеет сущности.
Это зовётся формой, не имеющей форм;
образом, не имеющим сущности.
Это зовётся расплывчато-туманным.
Встретившись с ним, не увидим его начала.
Следуя за ним, не увидим его тыльной стороны.
Придерживайся пути древности, дабы контролировать дела сегодняшние.
Способность познать изначальную древность и зовётся принципом Дао.

[92t15c] **А. А. Маслов**
С древности искушённый муж видел мельчайше-утончённое, проникал в сокровенное и был непостижим в своей глубине.
Из-за того, что он непостижим, можно лишь описать его.
Он робок, будто переходит реку зимой.
Он осмотрителен, словно опасается своих соседей.
Он серьёзен, как гость.
Он неоформленно-распылён, будто тающий лёд.
Он груб, подобно необработанному дереву;
пустотен, подобно долине;
неясен, словно мутная вода.
Кто способен посредством покоя мутное постепенно сделать прозрачным?
Кто способен посредством долгого движения постепенно породить к жизни безмятежное?
Сберегающий Дао и не стремящийся к избытку.
Лишь потому, что он не стремится к избытку, он способен сокрыться, не воплощаясь вновь.

[92t16c] **А. А. Маслов**
Достигая предельной пустоты, я сохраняю полный покой.
Мириады вещей возникают вместе, я же взираю на их возвращение.
Из множества вещей каждая восходит к своему корню.
Возвращение к корню назову умиротворением.
Это то, что зовётся возвращением к судьбе.
Возвращение к судьбе назову постоянством.
Познавшего постоянство назову просветлённым.
Не познавший постоянства творит зло и коварен.
Тот, кто познал постоянство, - всеобъемлющ.
Всеобъемлющий беспристрастен, беспристрастный становится государем, государь единится с Небом, Небо единится с Дао.
Дао единится с вечностью.
Достигший этого до конца дней своих не встретит опасностей.

[92t17c] **А. А. Маслов**
Лучший из правителей - тот, о существовании которого низы не знают.
Следом за ним идут те правители, которых любят и почитают.
За ними следуют правители, которых низы боятся, вслед за коими идут правители, которых презирают.
Тот, в ком недостаточно искренности, сталкивается с неискренностью.
Сомневающиеся, они ценят свои слова.
Когда их цель достигнута, а дело завершено, простой народ говорит: "Это случилось с нами само собой".

[92t18c] **А. А. Маслов**
Когда Великое Дао утрачивается, возникают "гуманность" и "долг".
Когда появляется великое мудрствование, то возникает и великая фальшь.
Когда нет гармонии среди шести категорий родственников, то возникает "сыновняя почтительность".
Когда государство охвачено смутой, то появляются "преданные чиновники".

[92t19c] **А. А. Маслов**
Устрани учения - и не будет более забот.
Устрани мудрецов и отвергни мудрость - и выгода народу возрастёт стократно.
Устрани гуманность, отвергни справедливость - и народ вернётся к сыновней почтительности и добрым делам.
Устрани хитроумие, отвергни выгоду - и не будет более воров и бандитов.
Эти три [начала] обманчиво приукрашены и не обладают достаточностью.
Поэтому надо сделать так, чтобы люди принадлежали к тем, кто прозревает неприукрашенное и объемлет простоту, мало думает о себе и уменьшает свои желания.

[92t20c] **А. А. Маслов**
Велика ли разница между одобрением и хулой?
Велико ли расстояние между добром и злом?
Того, чего боятся люди, нельзя не бояться.
Пустынное! Оно не имеет границ.
Все люди радостны, будто захвачены праздником императорского угощения или прогулкой по весенним террасам.
Лишь я один безразличен и не подаю знаков, будто младенец, который ещё не научился улыбаться;
утомлённый, словно странник, не имеющий дома, куда бы мог возвратиться.
Люди всё имеют с избытком, лишь я один подобен отказавшемуся ото всего.
У меня сердце невежды - столь замутнено!
Простые люди пресветло-светлы, лишь я один погружён во тьму.
Простые люди пречисто-чисты, лишь я один невежественно-безыскусен,
безграничен, словно море,
неудержим, будто яростный ветер.
Все люди знают об использовании, но я один глуп и ограничен.
Лишь я один отличаюсь от других и ценю матерь Благости.

[92t21c] **А. А. Маслов**
Облик великой Благости проистекает из Дао.

В вещах Дао неразличимо-туманно.
Неразличимо-туманное! Но в нём заключены образы.
Туманно-неразличимое! Но оно объемлет вещи.
Отдалённое и тёмное! Но оно содержит семя.
Семя это истинное, ибо оно освящено искренностью.
С древности и до наших дней имя его не высказано.
Оно известно как отец мириад созданий.
Откуда я знаю, что форма отца созданий такова?
Из него же самого.

[92t22c] **А. А. Маслов**
Склоняясь, сохраняем целостность.
Сгибаемся, затем распрямляемся.
Опустошаемся, затем наполняемся.
Стареем, чтобы потом обновиться.
Уменьшаем, дабы затем достичь завершения.
Увеличиваем - и становимся жертвой заблуждения.
Таким образом, мудрецы объемлели Единое, делая его принципом Поднебесной;
не показывали себя и потому были разумны;
не считали себя правыми, потому их правота была очевидна;
не превозносили себя, потому достигали успеха;
не хвастали, потому могли прожить долго.
И лишь потому, что они ни с кем не соперничали, никто в Поднебесной не мог соперничать с ними.
Фраза древних: "Склоняясь, сохраняем целостность", - разве это пустые слова?
Достигший целостности, вернётся к этому.

[92t23c] **А. А. Маслов**
Редко пользоваться словами - значит следовать естественности.
Поэтому резкий ветер не может длиться всё утро, а проливной дождь не может хлестать весь день.
Кто делает всё это? Небо и Земля.
Если даже Небо и Земля не могут сделать что-то вечным, так что же требовать от человека?!
Поэтому он действует через Дао.
Действующий через Дао тождественен с Дао.
Обретший Благость тождественен с Благостью.
Утрачивающий тождественен с утратой.
Тождественный с Дао - радостно принимается Дао,
Тождественный с Благостью - радостно принимается Благостью.
Тождественный с утратой - радостно принимается утратой.
Тот, в ком недостаточно искренности, встретится с неискренностью.

[92t24c] **А. А. Маслов**
Стоящему на цыпочках долго не простоять.
Идущему большими шагами далеко не уйти.
Демонстрирующий себя - не просветлён.
Считающий себя правым - не очевиден.
Кичащийся собой не имеет заслуг.

Заносчивому не стать властителем.
Рассуждая с позиций Дао, про это говорят: "Излишество в пище и непристойность в поступках в сочетании с вещами несут вред".
Поэтому, обладающий Дао, свободен от пребывания в этом.

[92t25c] **А. А. Маслов**
Существует нечто, из Хаоса возникшее, рождённое прежде Неба и Земли.
Беззвучно-пустотное, одиноко-неизменчивое.
Двигаясь по кругу, не устаёт и способно быть матерью Неба и Земли.
Я не знаю его имени, а иероглифом обозначу это "Дао".
Через силу назову его ещё и "Великим".
Великое назову скоротечным.
Быстротечное назову отдалённым.
Отдалённое назову обращающимся вспять.
Поэтому Дао - велико.
Небо - велико.
Земля - велика.
Человек также велик.
Во Вселенной пребывают эти четыре великих, и человек - одно из них.
Человек следует Земле.
Земля следует Небу.
Небо следует Дао.
Дао же естественно.

[92t26c] **А. А. Маслов**
Тяжёлое - это корень лёгкого.
Покой - это правитель движения.
Поэтому мудрец, странствуя повседневно, не отходит от гружёной повозки.
Хотя он владеет роскошными дворцами, в своём умиротворении он отстранён от них.
Может ли властитель десяти тысяч колесниц пренебрегать Поднебесной ради себя?
То, что лёгко, - не имеет корней.
То, что пребывает в движении, - утрачивает правителя.

[92t27c] **А. А. Маслов**
Умеющий путешествовать не оставляет колеи.
Умеющий говорить не делает оговорок.
Умеющий считать не пользуется счётными палочками.
Умеющий закрывать двери не пользуется засовами, а то, что он закрыл, невозможно открыть.
Умеющий связывать не использует верёвок, а то, что он завязал, невозможно распутать.
Поэтому мудрецу часто удаётся спасать людей, не оставляя ни одного из них.
Это зовётся сокрытой мудростью.
Поэтому добрый человек - учитель злых людей.
Злой человек - материал для добрых людей.
Если не ценить учителей, если не любить материала для них, то даже умудрённые впадут в величайшие заблуждения.
Это зовётся глубочайшей утончённостью.

[92t28c] **А. А. Маслов**
Познав мужское, сохраняй и женское, становясь лощиной Поднебесной.
Будь лощиной Поднебесной, - тогда постоянная Благость не покинет тебя, и вернёшься в состояние новорождённого.
Познав белое, сохраняй и чёрное, становясь образчиком Поднебесной.
Будь образчиком Поднебесной, - тогда в постоянной Благости не будет недостатка, и вернёшься к Беспредельному.
Познав славу, сохраняй безвестность, становясь долиной Поднебесной.
Будь долиной Поднебесной, - тогда постоянная Благость будет в избытке, и вернёшься к изначальной простоте.
Когда изначальная простота рассеивается, то возникают инструменты.
Мудрец использует их и становится правителем чиновников.
Поэтому даже великие уложения не несут вреда.

[92t29c] **А. А. Маслов**
Тому, кто хочет править Поднебесной и при этом предается деяниям, я думаю, не достичь успеха.
Поднебесная - это священный сосуд, с которым ничего нельзя сделать.
Действующий - потерпит неудачу.
Желающий обрести это - утратит.
Поэтому одни существа идут впереди, другие следуют за ними.
Одни выдыхают через нос, другие дуют ртом.
Одни разрушают, другие уничтожаются.
Вот почему мудрец сторонится избыточности, избегает чрезмерности и отбрасывает бахвальство.

[92t30c] **А. А. Маслов**
Тот, кто помогает правителю людей посредством Дао, не понуждает Поднебесную силой оружия.
Этому делу предначертано доброе воздаяние.
Там, где стояли лагерем войска, растут лишь терновники да колючки.
После большого сражения неизбежно грядёт неурожайный год.
Умелый [полководец] достигает цели и на этом останавливается.
Он не смеет прибегать к принуждению.
Он достигает цели и не восхваляет себя;
достигает цели и не кичится этим;
достигает цели и не проявляет высокомерия;
достигает цели лишь тогда, когда у него нет другого выбора;
достигает цели, но не принуждает.
Когда вещи, исполняясь силы, стареют, то это зовётся противоречащим Дао.
То, что противоречит Дао, сгинет до срока.

[92t31c] **А. А. Маслов**
Оружие - инструмент зла.
Даже вещи - и те ненавидят его.
Поэтому ему нет места у того, кто овладел Дао.
Благородный муж, будучи дома, предпочитает левую сторону, а отправляясь в поход - правую.
Оружие - инструмент зла, а не орудие благородного мужа.

И он не пользуется им, пока его к этому не принудят;
а главное - делает это в равнодушии к славе и выгоде, побеждает, но не стремится к славе.
Стремящийся же к славе получает удовольствие, убивая людей.
Тот, кто получает удовольствие, убивая людей, никогда не сможет повелевать Поднебесной.
В случае радостного события обращайся влево, в случае печального события - вправо.
Место помощника полководца - слева, место полководца - справа.
Это значит, что приходит время погребальных обрядов.
Когда гибнет великое множество людей, кто-то должен оплакивать их, скорбя.
Даже когда достигнута победа в сражении, должно найтись место и погребальным обрядам.

[92t32c] **А. А. Маслов**
Дао неизменно и безымянно.
Хотя простота и мала, никто в Поднебесной не может править ею.
Если бы правитель и князья могли придерживаться её, мириады существ сами повиновались бы ей.
Когда Небо и Земля взаимосочетаются, то выпадают сладкие росы и народ безо всяких указов умиротворяется.
Когда начинается управление, - возникают и имена.
Коль скоро возникают имена, - муж должен знать, что настало время остановиться.
Знающий, где надо остановиться, избежит гибели.
Дао в Поднебесной подобно рекам и морям, куда впадают долинные ручьи.

[92t33c] **А. А. Маслов**
Познавший людей - мудр.
Познавший себя - просветлён.
Побеждающий людей - силён.
Победивший себя - могущественен.
Познавший меру - богат.
Упорный - целеустремлён.
Тот, кто не утратит этого, обретёт долговечность и будет жить долго, не умирая.

[92t34c] **А. А. Маслов**
Великое Дао всеохватно и распростёрто и влево, и вправо.
Мириады созданий опираются на него, а оно порождает их и не отрекается от них, но достигая успеха, остаётся безвестным.
Оно одевает и вскармливает мириады созданий, не правя ими.
Неизменно остаётся свободным от желаний и может быть названо Малым.
Мириады созданий возвращаются к нему, и посему оно может быть названо Великим.
В силу того, что оно никогда не считает себя великим, ему удаётся достичь величия.

[92t35c] **А. А. Маслов**
К тому, кто овладел Великим образом, приходит Поднебесная.
Приходит - и устраняются бедствия, наступают умиротворение и покой.
Музыка и изысканная пища остановят уходящего путника.
Когда "Дао" исходит изо рта, оно не имеет запаха, не видимо и не слышимо, но в использовании неисчерпаемо.

[92t36c] **А. А. Маслов**
Желая что-то сжать, сначала растяни его.
Желая что-то ослабить, сначала усиль его.
Желая что-то уничтожить, позволь этому сначала расцвести.
Желая что-то отнять, сначала дай это.
Это и зовётся утончённо-искусным просветлением.
Мягкое и слабое одолевают твёрдое и сильное.
Рыба не может покинуть глубину.
Равно и государству нельзя показывать инструменты управления народу.

[92t37c] **А. А. Маслов**
Дао извечно пребывает в недеянии, но нет того, чего бы оно ни совершало.
Если правители и князья могли бы соблюдать его, мириады существ обрели бы самопреображение.
Если же после того, как они обретут преображение, родятся желания, то я погашу их безымянной простотой.
Безымянная простота свободна от желаний.
И если, избавясь от желаний, я обрету спокойствие, то Поднебесная сама придёт в порядок.

[92t38c] **А. А. Маслов**
Человек высшей Благости не проявляет свою Благость, и потому он обладает Благостью.
Человек низкой Благости не отклоняется от Благости, и потому он не обладает Благостью.
Человек высшей Благости пребывает в недеянии и не имеет намерения действовать.
Человек низкой Благости погружён в деяния и к тому же имеет намерение действовать.
Человек высокой гуманности действует, и нет того, чего бы он ни сделал.
Человек высокой справедливости действует, но всё же остаётся то, что ещё надо сделать.
Человек высоких ритуалов погружён в деяния, но когда он не достигает желаемого, то закатывает рукава и прибегает к силе.
Поэтому, когда утрачивается Дао, - приходит Благость.
Когда утрачивается Благость, - приходит гуманность.
Когда утрачивается гуманность, - приходит справедливость.
Когда утрачивается справедливость, - приходят ритуалы.
Ритуалы - это тончайшая ширма для преданности и искренности и предвестник смуты.
Предзнание - это цветок Дао и начало невежества.
Поэтому великий муж пребывает в плотно-возвышенном и отвергает тонко-ничтожное.
Он принимает плоды и отвергает цветы.
Поэтому он отказывается от первого ради второго.

[92t39c] **А. А. Маслов**
Вот то, что с древности пребывало в Едином:
Небо пребывало в Едином и потому достигало чистоты.
Земля пребывала в Едином и потому достигала покоя.
Духи пребывали в Едином и потому были одухотворённо-подвижны.
Долина пребывала в Едином и потому достигала расцвета.
Мириады вещей пребывали в Едином и потому обретали рождение.
Правитель и князья пребывали в Едином и потому были честны с Поднебесной.
Лишь благодаря Единому они достигали этого.

Если Небо не чисто, оно разверзается.
Если Земля не спокойна, она опускается.
Если духи не одухотворённо-подвижны, они истощаются.
Если долина не расцветает, она иссыхает.
Если мириады вещей не обретают рождения, они обречены на уничтожение.
Если знать и правители не честны, они будут свергнуты.
Поэтому в основе ценного лежит дешёвое.
Благородный муж рассматривает подданных в качестве своего корня.
Высшие рассматривают низших в качестве своей основы.
Поэтому правитель и князья называют себя "сирыми", "покинутыми", "неудачниками".
Так разве это не значит: "Рассматривать подданных в качестве своего корня"?
Разве это не так?
Поэтому они и достигают величайшего признания вне признания, не желая быть прекраснейшими, словно яшма, и твердейшими, будто камень.

[92t40c] **А. А. Маслов**
Обращение вспять - это движение Дао.
Ослабление - это использование Дао.
Мириады существ в Поднебесной рождаются из бытия.
Бытие же рождается из небытия.

[92t41c] **А. А. Маслов**
Когда муж высоких способностей слышит о Дао, он усердно следует ему.
Когда муж средних способностей слышит о Дао, он порой сохраняет его, порой утрачивает.
Когда муж низких способностей слышит о Дао, он громко смеётся над ним.
Если бы над ним не смеялись, было бы недостаточно, чтобы оно считалось истинным Дао.
Поэтому "Извечные суждения" гласят:
"Пресветлое Дао кажется тёмным.
Дао, ведущее вперёд, кажется влекущим назад.
Обыденное Дао кажется исключительным.
Высшая Благость подобна долине.
Великая белизна кажется покрытой пятнами.
Всеохватная Благость кажется недостаточной.
Подлинная Благость кажется сокрытой.
Извечная истина кажется пустой.
Великий квадрат не имеет углов.
Великий сосуд долог в изготовлении.
Великий Звук не часто услышишь.
Великий Образ не имеет формы".
Дао потаённо и безымянно.
И лишь потому, что это - Дао, оно может быть совершенным и в воздаянии, и в воплощении.

[92t42c] **А. А. Маслов**
Дао порождает одно.
Одно порождает два.
Два порождает три.

Три порождает мириады существ.
Мириады существ несут в себе инь и объемлют ян, а пустотное ци приводит их в гармонию.
Нет слов, которых бы человек страшился больше, чем "сирый", "покинутый", "неудачник".
А ведь знать и правители именно так называют себя.
Поэтому вещи то принижаются, возвышаясь, то возвышаются, принижаясь.
Тому, чему учат другие, учу и я: "Сильные и жестокие не умирают своей смертью",
считаю это своим первейшим наставлением.

[92t43c] **А. А. Маслов**
Самое мягкое в Поднебесной может одолеть самое твёрдое в Поднебесной.
То, что не имеет сущности, проникает туда, где нет даже щели.
Потому-то я и постиг пользу недеяния.
Но учение вне слов и пользу недеяния крайне редко встретишь в Поднебесной.

[92t44c] **А. А. Маслов**
Что дороже - славное имя или жизнь?
Что ценнее - жизнь или богатство?
Что мучительнее - достигать или утрачивать?
Вот почему великие пристрастия неизбежно ведут к большим потерям, а неуёмное накопление оборачивается огромной утратой.
Знай меру - и не придётся испытать стыд.
Умей остановиться - и не столкнёшься с опасностями.
И сумеешь прожить долго.

[92t45c] **А. А. Маслов**
Великое совершенство кажется ущербным, но в использовании неистощимо.
Великая наполненность кажется пустой, но в использовании бесконечна.
Великая прямизна кажется изогнутой.
Великое мастерство кажется грубым.
Великое красноречие кажется косноязычным.
Покой побеждает движение, а холод одолевает жару.
Лишь тот, кто умиротворён и спокоен, способен править Поднебесной.

[92t46c] **А. А. Маслов**
Когда Поднебесная следует Дао, боевых лошадей отправляют унавоживать поля.
Когда Поднебесная не следует Дао, боевых лошадей приводят к городским стенам.
Нет большей беды, чем не знать меры.
Нет большего зла, чем быть в плену у желаний.
Поэтому, познавший меру в мере, неизменно хранит её.

[92t47c] **А. А. Маслов**
Не выходя со двора, можно познать весь мир.
Не выглядывая в окно, можно узреть Путь Неба.
Чем дальше идёшь - тем меньше узнаёшь.
Поэтому мудрецы познавали, никуда не отправляясь;
постигали, не видя;

свершали, не действуя.

[92t48c] **А. А. Маслов**
Следуя учению, день ото дня обретают.
Следуя Дао, день ото дня теряют.
Теряя и вновь теряя, достигают недеяния.
В недеянии нет того, что не вершилось бы само собой.
Не свершая дел, неизменно овладевают Поднебесной.
Лишь предашься делам - как станешь недостоин овладеть Поднебесной.

[92t49c] **А. А. Маслов**
Мудрец не имеет постоянного сердца.
Его сердце - сердце людей.
Для добрых я добр.
Для недобрых я тоже добр.
И так достигаю добра.
Искренним я верю.
Неискренним я верю тоже.
И так достигаю искренности.
Мудрец, правя в Поднебесной, делает своё сердце безыскусным и приводит его в согласие с Поднебесной.
Люди внемлют ему слухом и взором.
Он же смотрит на них как на своих детей.

[92t50c] **А. А. Маслов**
Появляясь - живём, уходя - умираем.
Трое из десяти последуют жизни.
Трое из десяти последуют смерти.
Тех, кто стремится к жизни и потому часто сталкивается со смертью, - также трое из десяти.
Почему это так?
Потому что они излишне стремятся к жизни.
Я слышал, что искушённый в сбережении своей жизни, в своих странствиях не столкнётся с носорогами и тиграми.
В сражении его не задеть ударом оружия.
Носорогам некуда воткнуть свой рог.
Тиграм некуда вонзить свои когти.
Воину некуда направить своё оружие.
Почему это так?
Потому что в нём нет места смерти.

[92t51c] **А. А. Маслов**
Дао порождает, Благость вскармливает.
В вещах оформляется, в обстоятельствах воплощается.
Поэтому мириады существ не только почитают Дао, но и ценят Благость.
Почитают Дао и ценят Благость не за то, что они предопределяют судьбу, а потому, что извечно следуют естественности.

Вот поэтому Дао порождает, Благость вскармливает.
Взращивает и воспитывает, классифицирует и укрепляет, пестует и оберегает, порождает, но не обладает этим, свершает и не требует воздаяния, взращивает [мириады вещей] и не властвует над ними.
Оттого и зовётся это сокровенной Благостью.

[92t52c] **А. А. Маслов**
Поднебесная имеет начало.
которое является Матерью Поднебесной.
Когда достигнута мать,- познаёшь и её детей.
Когда познаны дети, - вновь возвращаешься для сбережения матери.
И тогда до конца дней своих не встретишь опасности.
Закрой отверстия, запри двери - и в твоём теле более не родятся болезни.
Открой отверстия, предайся делам - и твоё тело уже не спасти.
То, что видится малым, назову пресветлым.
Сохраняющее гибкость назову укреплённым.
Используй его сияние, возвращайся к его свету - и не причинишь себе вреда.
Это и зовётся овладением постоянством.

[92t53c] **А. А. Маслов**
Когда я обрету мельчайшее знание, я буду следовать Великому Пути, не боясь заблудиться.
Великое Дао просто, но люди предпочитают узкие тропинки.
Когда двор роскошествует, а поля поросли сорняками и амбары пусты;
когда знать, опоясавшись драгоценными мечами, излишествует в напитках и еде, в избытке владея всяким добром, - это зовётся грабительством и бахвальством.
О, сколь отлично это от Дао!

[92t54c] **А. А. Маслов**
То, что глубоко посадил, нельзя выдернуть.
То, что крепко обхватил, трудно отнять.
Поэтому нельзя положить конец ритуальным подношениям сыновей и внуков своим предкам.
Пестуй это в своём теле - и Благость [в тебе] обретёт истинность.
Пестуй это в семье - и Благость будет в достатке.
Пестуй это в своём государстве - и Благости будет в избытке.
Пестуй это в Поднебесной - и Благость станет повсеместной.
Поэтому смотри на других людей через самого себя.
Смотри на другие семьи через свою семью.
Смотри на другие деревни через свою деревню.
Смотри на другие государства через своё государство.
Смотри на Поднебесную через Поднебесную.
Откуда мне знать, что Поднебесная такова?
Из неё же самой.

[92t55c] **А. А. Маслов**
Постигший глубину Благости уподобляется новорождённому.
Ядовитые насекомые не жалят его.

Дикие звери не бросаются на него.
Хищные птицы не клюют его.
Его кости слабы, а мышцы податливы, но хватка крепка.
Он не знает о союзе мужского и женского, но пенис его уже воспрял, ибо семя его достигло совершенства.
Он кричит весь день, но голос его не хрипнет, ибо гармония его достигла совершенства.
Познание гармонии зовётся достижением постоянства.
Познание постоянства зовётся просветлением.
Избыток жизни зовётся [недобрым] знамением.
Регулирование [круговорота] ци сердцем зовётся укреплением.
Вещи, исполняясь силы, стареют, и это считается противоречащим Дао.
То, что противоречит Дао, рано приходит к своему концу.

[92t56c] **А. А. Маслов**
Знающий не говорит.
Говорящий не знает.
Закрой отверстия, запри двери, притупи лезвие, распутай узлы, пригаси свет, уподобься пылинке.
Это зовётся сокровенным единением.
Поэтому ты не можешь, достигнув его, сродниться с ним.
И не можешь, достигнув его, пренебречь им.
Не можешь, достигнув его, извлечь пользу.
И не можешь, достигнув его, причинить вред.
Не можешь, достигнув его, облагородить его.
И не можешь, достигнув его, унизить его.
Потому оно и почитается в Поднебесной.

[92t57c] **А. А. Маслов**
Управляй государством строгостью.
Используй армию с умением.
Но покоряй Поднебесную, не действуя.
Откуда я знаю это?
Из него же самого.
Чем больше запретов в Поднебесной, тем беднее становится народ.
Чем больше оружия у народа, тем сильнее смута в государстве.
Чем больше люди искусны в ремесле своём, тем больше творится неправедных дел.
Чем лучше знают законы, тем больше становится воров и бандитов.
Поэтому мудрец говорит:
"Я пребываю в недеянии, а народ сам преображается.
Я люблю покой, а народ сам исправляется.
Я не предпринимаю действий, а народ сам богатеет.
Я не имею желаний, а народ сам опрощается".

[92t58c] **А. А. Маслов**
Когда власть пассивно-отстранённа, то и народ чистосердечно-прост.
Когда правительство жестокосердно-строго, то и народ хитёр и убог.
Несчастье - вот что является опорой счастья.

Счастье - вот где кроется несчастье.
И кто знает, где положен предел этому?
И нет в этом правильности.
Правильность оборачивается ловкостью.
Добро оборачивается коварством.
Людские заблуждения, о сколь стары и неизменны они!
Вот почему мудрец хотя и прям, но не груб;
остёр, но не колет;
прямолинеен, но не своеволен;
ярок, но не слепит.

[92t59c] **А. А. Маслов**
В правлении людьми и служении Небу ничто не сравнится с воздержанностью.
Тот, кто воздержан, зовётся изначально готовым [следовать Дао].
Тот, кто готов изначально, зовётся собравшим Благость в избытке.
Для того, в ком Благость собрана в избытке, нет ничего, способного противостоять ему.
Если ему ничто не может противостоять, то нет ему предела.
Если нет ему предела, то он может владеть государством.
Обладая Матерью государства, можно стать долговечным.
Это зовётся глубокими и крепкими корнями нетленного и долговечного Дао.

[92t60c] **А. А. Маслов**
Управление большим государством подобно варке мелкой рыбёшки.
Когда управление Поднебесной согласно с Дао, даже духи утрачивают своё могущество.
Но даже если они и не теряют своего могущества, то хотя бы не вредят людям.
И если даже духи не вредят людям, то и мудрецы не могут им повредить.
А поскольку они не вредят друг другу, то и Благость их, сочетаясь, восходит [к Дао].

[92t61c] **А. А. Маслов**
Великое государство подобно низовью реки, где сходятся [воды] Поднебесной, и самке Поднебесной.
Самка всегда одолевает самца своим покоем.
Пребывая в покое, она занимает нижнюю позицию.
Поэтому великое государство, занимая нижнюю позицию, завоёвывает доверие малого государства.
Малое государство, занимая нижнюю позицию, оказывает доверие великому государству.
Поэтому то, что занимает нижнюю позицию, либо завоёвывает доверие, либо оказывает его.
Всё, к чему стремится большое государство, - лишь принимать людей под своё крыло.
Всё, к чему стремится малое государство, - это вникать в людские дела.
Если оба хотят достичь желаемого, большее должно занять нижнюю позицию.

[92t62c] **А. А. Маслов**
Дао - величайшее хранилище мириад существ.
Это то, что является сокровищем добрых людей и защитой для тех, в ком нет добра.
Прекрасные слова высоко ценятся при продаже.
Прекрасные поступки могут вызвать людское уважение.
Даже если в человеке нет добра, зачем же отвергать его?
Поэтому взошедший на трон правитель и три властвующих князя, хотя и имеют драгоценные кольца и

сопровождаются четвёркой лошадей, не сравнятся с теми, кто, не сходя с места, снискал дары Дао.

Почему древние ценили Дао?
Разве не говорилось: "Устремись, дабы достичь его, и даже если ты имел пороки - избегнешь зла".
За это оно и ценится в Поднебесной.

[92t63c] **А. А. Маслов**
Действуй недеянием.
Совершай дела недеянием.
Осязай то, что не имеет запаха.
Умаляй великое и делай большое малым.
И на зло воздавай Благостью.
Намеревайся свершить трудное, пока оно легко.
Осуществляй большое, пока оно мало.
Все трудные дела в Поднебесной должны вершиться, пока они легки.
Все великие дела в Поднебесной должны вершиться, пока они малы.
Вот почему мудрецы, никогда не начиная своих свершений с великого, могли достичь Великого.
В том, кто легко даёт обещания, мало искренности.
Тот, кто считает дела лёгкими, неизбежно столкнётся с великими трудностями.
Вот почему мудрецы, считая многие дела крайне трудными, от начала не сталкивались с трудностями.

[92t64c] **А. А. Маслов**
Легко сохранить то, что умиротворено.
Легко спланировать то, что ещё не получило развития.
Легко разломать то, что ещё хрупко.
Легко рассеять то, что ещё мало.
Действуй тогда, когда ещё ничего нет.
Правь там, где ещё нет смуты.
Полнокровное древо вырастает из мельчайшего ничто.
Башня в девять уступов поднимается из просеянной земли.
Путешествие в тысячу ли начинается с одного шага.
Действующий - терпит неудачу.
Стяжающий - утрачивает.
Поэтому мудрец, пребывая в недеянии, не терпит неудач и поскольку не стяжает - не утрачивает.
Зачастую люди терпят неудачу в делах, находясь на пороге успеха.
Будь в конце столь же осторожен, как и в начале, - и не будет неудачных дел.
Вот почему мудрецы желали не-желания и не ценили труднодостижимых предметов, учились вне учения и возвращались к ошибкам людей, дабы помочь мириадам существ пребывать в естественности и воздерживаться от деяний.

[92t65c] **А. А. Маслов**
Издревле совершенные в следовании Дао не просвещали народ, но оставляли его невежественным.
Причина того, что народом трудно управлять, заключена в избытке у него знаний.
Потому управление государством с помощью знания будет разрушительно для государства.
Отказ от управления государством с помощью знания будет благотворен для государства.
Два этих примера являются образчиками.

Неизменное понимание этих образчиков зовётся сокровенной Благостью.
О, сколь глубока, сколь отдалена сокровенная Благость!
Сколь противоположна она вещам!
Но лишь то, что идёт за ней, и есть Великое Следование.

[92t66c] **А. А. Маслов**
Моря и реки лишь потому могут быть властителями сотен долин, что способны ставить себя ниже их.
Вот почему они могут быть властителями сотен долин.
Поэтому тот, кто желает возвыситься над людьми, в речах своих должен ставить себя ниже их.
Тот, кто желает идти впереди людей, должен встать позади них.
Вот почему мудрец стоит над людьми, но не бывает им в тягость;
находится впереди, но не вредит народу.
Оттого вся Поднебесная без устали и с радостью поддерживает его.
Он не вступает в борьбу, и потому нет в Поднебесной того, кто мог бы соперничать с ним.

[92t67c] **А. А. Маслов**
Все в мире говорят, что моё Дао велико и ни на что не похоже.
Лишь потому, что оно велико, оно и ни на что не похоже.
Если бы оно походило на что-нибудь, то давно бы стало едва приметным.
Я обладаю тремя сокровищами, [кои] храню и [коими] дорожу.
Первое - великодушие.
Второе - бережливость.
Третье - не смею быть первым в Поднебесной.
Благодаря великодушию могу быть храбрым.
Благодаря бережливости могу быть щедрым.
Благодаря тому, что не смею быть первым в Поднебесной, могу стать господином сосудов.
Сегодня те, кто жертвует великодушием ради храбрости, бережливостью ради щедрости, местом позади ради того, чтобы быть впереди, обречены на смерть.
Великодушием побеждаешь в наступлении и становишься неприступным в обороне.
Даже Небо спасает тех, кто бережёт себя великодушием.

[92t68c] **А. А. Маслов**
Умелый полководец не воинственен.
Умелый воин не гневлив.
Умеющий побеждать врага не вступает [с ним в поединок].
Умеющий использовать людей ставит себя ниже их.
Это зовётся Благостью без противостояния.
Это зовётся способностью использовать людей.
Это зовётся следованием Небу и Пределу древности.

[92t69c] **А. А. Маслов**
У стратегов есть поговорка:
"Я не посмею быть хозяином, буду лишь гостем.
Я не дерзну шагнуть и на цунь вперёд, но отступлю на чи назад".
Это зовётся продвижением вне движения, закатыванием рукавов, не имея рук, противостоянием врагу, не имея противника, победой без оружия.

Нет большего несчастья, чем легко одержать верх над слабым противником.
Слабый противник будет стоить мне всех моих сокровищ.
Когда две враждующие стороны вступают в поединок, побеждает преисполненный милосердия.

[92t70c] **А. А. Маслов**
Мои слова легко понять и столь же легко им следовать.
И всё же никто в мире не способен их понять и тем более следовать им.
Слова имеют предка, дела имеют господина.
Из-за того, что люди сиры, им и не удаётся понять меня.
Как же мало тех, кто понимает меня!
Как же редки те, кто следует мне.
Поэтому мудрецы носили холщовые одежды, но в душе берегли драгоценную яшму.

[92t71c] **А. А. Маслов**
Знать и при этом думать, что не знаешь, - это высшее достижение.
Не знать и при этом думать, что знаешь, - это ведёт к трудностям.
Мудрец не имеет трудностей лишь потому, что устранил [главную] трудность.
Лишь потому, что он осознает трудности, он устраняет их.
Вот потому он и не имеет трудностей.

[92t72c] **А. А. Маслов**
Если народ не трепещет перед властью, то власть достигает величайшего могущества.
Не сгоняйте народ с его мест, не презирайте устоев его жизни.
Тот, кто не презирает этого, не презрен будет.
Вот почему мудрецы, познав себя, не проявляли себя;
любили себя, не превознося себя.
И потому, отказываясь от одного, они достигали другого.

[92t73c] **А. А. Маслов**
Кто безрассуден в своём бесстрашии - погибает.
Кто не безрассуден в своём бесстрашии - остаётся жить.
Из этих двух начал одно ведёт к пользе, другое - к беде.
Кто знает, почему Небо презирает одно из них?
Даже мудрецы считали некоторые дела крайне трудными.
Путь Неба не соперничает, но побеждает;
не говорит, но даёт ответ;
не будучи призванным, приходит сам;
медлителен, но в намерениях всеобъемлющ.
Широка Небесная сеть, редки её ячейки, но не пропускают ничего.

[92t74c] **А. А. Маслов**
Когда народ не боится смерти, зачем же угрожать ему смертью?
Если бы народ постоянно боялся смерти, а я хватал провинившихся и предавал их казни, кто посмел бы творить беззаконие?
Всегда существует Палач, который казнит.
Казнить от имени Палача - подобно тому, как рубить дерево от имени Великого мастера.

Редко найдётся тот, кто, рубя от имени Великого мастера, не поранил бы себе руки.

[92t75c] **А. А. Маслов**
Народ голоден, ибо налоги верхов на зерно слишком велики, - оттого он и голоден.
Народом трудно управлять, ибо верхи творят деяния, - оттого им и трудно управлять.
Народ презирает смерть, ибо верхи слишком ценят свою жизнь, - оттого он и презирает смерть.
Те, кто не слишком заботится о своей жизни, стоят выше тех, кто переоценивает её.

[92t76c] **А. А. Маслов**
При рождении человек податлив и слаб.
Умирая - твёрд и крепок.
Трава и деревья гибки и податливы при жизни, а умирая, становятся сухи и ломки.
Поэтому твёрдое и сильное идут стезёй смерти, а податливое и слабое идут стезёй жизни.
Оттого сильное войско обречено на погибель, а крепкое дерево будет срублено.
Потому крепкое и сильное стоят ниже, а податливое и слабое - выше.

[92t77c] **А. А. Маслов**
Разве не напоминает Путь Неба натягивание лука?
Что было вверху - опускается, а что было внизу - поднимается.
Что было в избытке - уменьшается, а что было в недостатке - дополняется.
В этом и заключается Путь Неба: уменьшать то, что в избытке, и дополнять то, что в недостатке.
Путь человека, увы, не таков.
Он уменьшает то, что и так в недостатке, и дополняет этим то, что и так в избытке.
Кто же может дополнить Поднебесную тем, чем он владеет в избытке?
Лишь тот, кто обладает Дао.
Именно так поступали мудрецы и не требовали воздаяния, достигали цели и не считали это заслугой.
Ибо они не хотели, чтобы их ставили выше других.

[92t78c] **А. А. Маслов**
В Поднебесной нет ничего податливее и слабее воды.
Но в противостоянии твёрдому и сильному ничто не сравнится с ней.
И в использовании ничто не может заменить её.
Слабое одолеет сильное, податливое одолеет твёрдое.
Нет в Поднебесной того, кто не знал бы об этом.
Но нет и того, кто мог бы следовать этому.
Именно об этом и говорили мудрецы:
"Принимающий на себя скверну государства, зовётся правителем алтарей и амбаров.
Принимающий на себя беды страны, зовётся властителем Поднебесной".
Истинные слова похожи на свою противоположность.

[92t79c] **А. А. Маслов**
Даже когда утихнут великие несчастья, какая-то беда непременно останется.
Так можно ли назвать это благом?
Поэтому мудрецы, беря в руку левую часть [договорной] бирки, не требовали взыскания долгов с народа.
Благостный человек правит через договорённость.

Человек вне Благости правит через налоги.
Путь Неба беспристрастен, он лишь извечно воздаёт добрым людям.

[92t80c] **А. А. Маслов**
Когда государство мало, а его население невелико, пусть даже у него будет огромное количество оружия, - некому будет воспользоваться им.
Люди же, в страхе смерти, не уедут в дальние места.
Даже если у них будут корабли и повозки, они не снарядят их.
Даже если у них будут доспехи и оружие, им не представится случая продемонстрировать их.
Чтобы народ вернулся к использованию узелковых веревок [для письма], пусть наслаждается пищей, красуется одеждами, будет доволен жилищем и радуется жизни.
Когда соседние владения находятся на расстоянии взаимной видимости, они слышат пение петухов и лай собак друг у друга, а народ доживает до старости и умирает, не ездя туда-сюда.

[92t81c] **А. А. Маслов**
Искренние речи не изящны, изящные речи не искренни.
Добрый не красноречив, красноречивый не добр.
Мудрый не образован, образованный не мудр.
Мудрец не накопительствует.
Но чем больше он делает для других, тем больше прибавляется ему.
Чем больше он даёт другим, тем богаче становится сам.
Путь Неба - в принесении пользы без причинения вреда.
Путь мудреца - в деянии без противостояния.

[93t01c] **Е. А. Торчинов**

Путь, что может быть пройден, не есть постоянный Путь-Дао.
Имя, что может быть поименовано, не есть постоянное имя.
Безымянное - Неба, Земли начало.
Именуемое - Матерью сущего стало.
В отсутствии тайну вещей созерцать стремись.
В наличии предел бытия созерцать стремись.
Те двое родятся вместе, но их имена различны.
Их вместе назову я Сокровенным.
И Сокровенное вновь Сокровенным стало.
Таковы врата всех тайн.

[93t02c] **Е. А. Торчинов**

Когда в Поднебесной все узнают, что прекрасно прекрасное, - это уже безобразно.
Когда в Поднебесной все узнают, что добро есть добро, - это уже не добро.
Поэтому отсутствие и наличие друг друга порождают,
легкое и трудное друг друга определяют,
длинное и короткое друг друга измеряют,
высокое и низкое друг друга исчисляют,
мелодия и ритм друг с другом гармонируют,
начало и конец друг с другом чередуются.
Поэтому совершенный мудрец пребывает в делах недеяния, не прибегая к словам, он осуществляет учение.
Все сущее творит, не полагая начала творению, и действует, не замышляя ничего преднамеренно.
И Дао-Путь - рождает, но не обладает, действует, но не предумышляет, благими качествами и свойствами обладает, к ним не привязываясь никогда.
Поскольку в них он к ним не привязан, то их он и не теряет.

[93t03c] **Е. А. Торчинов**

Не почитайте мудрецов, и ссор не будет меж людьми.
Не цените труднодоступные товары, и люди не пойдут разбойничать и грабить.
Не устремляйте взор на вожделенное, и не смутится ваше сердце.
Вот совершенномудрый управляет так:
опустошает подданных сердца, но наполняет животы им,
их волю-самочинность ослабляет, взамен их кости укрепляя.
Всегда стремится он, чтоб у народа не было ни знаний, ни желаний, а знающие чтобы действовать не смели.
Творит недеяние он, но нет на свете ничего, не приведенного им в порядок.

[93t04c] **Е. А. Торчинов**

Путь-Дао пуст, но при использовании неисчерпаем.
О как глубок он, словно предок всех существ!
Скрой остроту свою и развяжи узлы, умерь свой свет и уподобься пыли.
О! Тонет он в пучинах бытия и как бы существует в них и ныне!
Не знаю я, чье он дитя, но он предшествует Небесному Владыке.

[93t05c] **Е. А. Торчинов**
Не милосердны Небо и Земля,
и сущее для них - соломенное чучело собаки.
Не милосерден и мудрец совершенный,
и для него все люди - соломенное чучело собаки.
Пространство между Небом и Землей, пожалуй, как кузнечные меха:
оно пустеет, но не знает искривленья, и чем сильнее в нем движенье, тем более вовне выходит ветра.
В тупик многословье ведет.
Не лучше ли тот, кто всегда середину блюдет?

[93t06c] **Е. А. Торчинов**
Ложбинный дух бессмертен.
Называют Сокровенной Самкою его.
Врата той Самки Сокровенной - корень бытия, из коего родятся Небо и Земля.
Как нить, в бесконечность тянется он.
Используй его без усилий!

[93t07c] **Е. А. Торчинов**
Вековечно Небо и постоянна Земля.
Небо и Земля вековечны и постоянны потому, что не сами собой рождены.
Поэтому и могут быть они вековечными и постоянными.
Поэтому и совершенномудрый себя назад всенепременно ставит, но вдруг оказывается впереди.
Себя он чем-то внешним почитает, существованье в этом обретя.
И уж не потому ли это, что лишен он личных интересов?
Благодаря такому поведению он как раз и может всегда и полностью блюсти свой личный интерес.

[93t08c] **Е. А. Торчинов**
Высшее благо словно вода.
Вода приносит благо и пользу всем существам, ни с кем вражды не зная.
Течет она в таких местах, где людям, да и тварям, жить нельзя.
Поэтому близка она Дао-Пути.
Живи в благих землях, пусть твое сердце станет полноводным водоемом блага.
Пусть милосердие твое всегда обрящет единение с благом, а речи проникнутся благом достоверности.
Всегда осуществляй благое исправление, свершай дела благие по возможности своей и действуй лишь во время должное, благое.
Лишь тот, кто не враждует, не будет ненавидим.

[93t09c] **Е. А. Торчинов**
Не лучше ли ослабить натянутую тетиву, чем вечно напрягать ее?
И даже если бесконечно точить клинок, надолго сохранить остроту его, пожалуй, не удастся.
Когда нефритом или золотом наполнен зал, кто сможет уберечь его от вора?
Когда богатством или знатностью кичатся люди, не навлекают сами этим ли беду большую?
Богатство, почести и слава сгинут прочь, истлеет тело - вот небесное Дао, вот Путь!

[93t10c] **Е. А. Торчинов**
Соедини воедино души земные и дух небес,

Одно обними - и не смогут они ввек расстаться!
Сосредоточь пневму-ци и мягкость этим обрети -
тогда сумеешь уподобиться дитяте!
Зерцало темное от скверны омой -
и беспорочен стань душой!
Цени народ, страну в порядок приведи -
тогда недеяние осуществить ты сможешь!
Небесные врата то отверзаются, то затворяются -
узри начало женственное в них!
Поняв четыре принципа, ты можешь пребывать в неведении полном!
Дао рождает сущее и его питает.
Рождает, но им не обладает и действует, не замышляя преднамеренно.
Оно все взращивает, но ничем не повелевает, и это Сокровенной Силой-Дэ зовется, знаю!

[93t11c] **Е. А. Торчинов**
Тридцать спиц вместе - одно колесо.
Но то, что в нем - отсутствие, определяет наличие возможности использования телеги.
Стенки из глины - это сосуд.
Но то, что в нем - отсутствие, определяет наличие возможности использования сосуда.
В стенах пробиты окна и двери - это дом.
Но то, что в нем - отсутствие, определяет наличие возможности использования дома.
Поэтому наличие чего-либо определяет характер использования вещи, а отсутствие - принципиальную возможность использовать ее.

[93t12c] **Е. А. Торчинов**
Пять цветов глаза ослепляют.
Пять звуков уши оглушают.
Пять вкусов рот ощущений лишают.
Стремительные скачки по полям и пустошам до безумия доводят.
Труднодоступные товары препятствуют благим свершениям.
Поэтому совершенномудрый заботится о полном животе, а не о том, что приятно для глаза.
Отбрасывая то, берет он это.

[93t13c] **Е. А. Торчинов**
В почете быть столь же страшно, сколь и быть в позоре.
Быть почитаемым такая же беда, как обладать телесной самостью.
Почему так говорят о почестях и о позоре?
Позор нас унижает, ну а почести мы со страхом принимаем и со страхом же теряем.
А почему быть почитаемым такая же беда, как обладать телесной самостью?
Я потому в беде великой пребываю, что телом-самостью я обладаю.
И если б телом-самостью не обладал, то разве б были беды у меня?
Поэтому коль человек заботится о теле-самости своей, как о Поднебесной всей, ему и Поднебесная доверится не медля.
И если человек дорожит телом-самостью своей, как Поднебесной всей, его признает всякий в Поднебесной.

[93t14c] **Е. А. Торчинов**

Смотрю на него и не вижу - называю его тончайшим.
Слушаю его и не слышу - называю его тишайшим.
Ловлю его, но схватить не могу - неуловимым его нареку.
Триаду эту словами объяснить не дано: хаотична она и едина.
Ее верх не освещен, ее низ не затемнен.
Тянется-вьется, но нельзя ее назвать;
вновь возвращается к отсутствию сущего она.
Поэтому говорят: безвидный облик, невещный образ.
Поэтому говорят: туманное и смутное.
Не вижу начала, когда ей навстречу иду, не вижу конца, когда следом за ней спешу.
Держусь за древний Путь-Дао и так управляю сущим ныне.
Могу постичь древнее первоначало и устоями Дао-Пути его называю.

[93t15c] **Е. А. Торчинов**

Те древние мужи, что Дао-Путь постигли, были таинственны и утонченны, пронизанные Сокровенным.
И столь они были глубоки, что распознать их нельзя.
Поскольку нельзя распознать, с усилием попробую лишь указать на свойства их обличья:
О, они были столь же внимательны, как если бы зимой переходили реку вброд!
О, они были столь же осторожны, как если бы опасались соседей со всех четырех сторон!
О, они были столь же серьезны, как если бы чинно встречали гостей!
О, они были столь же мягки, как лед, что готов распасться!
О, они были столь же ровны, как простота необработанного чурбана!
О, они были столь же всеобъемлющи, как широкая долина!
О, они были столь же мутны, как взбаламученная вода!
Кто может мутную воду сделать чистой, когда она отстоится?
Кто может оживить покоящееся, приведя его в движение?
Блюдущий это Дао-Путь не стремится к полноте и избытку.
Поскольку он не стремится к полноте и избытку, он всегда остается бедным и не нуждающимся в обновлении и завершении.

[93t16c] **Е. А. Торчинов**

Достигнув предела пустоты, блюдя покой и умиротворение, взирая на взаимопорождение сущего, я буду созерцать лишь постоянное его возвращение.
Все сущее в движении, то возникая, то снова уходя.
Но каждое из множества существ стремится неизменно к корню своему, а возвращение к корню я назову покоем.
Покой я назову возвратом к жизненности изначальной судьбы.
Возврат к жизненности назову я постоянством.
Знание постоянства назову я просветленной мудростью.
Тот, кто не знает постоянства, живет во мраке заблуждений и творит порочные дела.
Но постоянство знающий обширно всеохватен.
И эту всеохватность назову я всеобщностью.
Тот, кто обрел сию всеобщность, достоин быть царем.
А царственный по праву обретает Небо, а Небо обретает Дао-Путь.
А Дао-Путь - он вековечен.

Тот, кто стал к сей вековечности причастен, до самой смерти не узнает никаких несчастий.

[93t17c] **Е. А. Торчинов**
О высочайшем правителе все подданные знают лишь одно: он есть.
Ему уступит тот, кого народ любит и хвалит.
Но еще ниже тот, кого народ боится.
Но хуже всех такой монарх, которого в народе презирают.
Когда правитель никому не доверяет, ему доверия не будет тоже никогда.
Но подлинный правитель осторожно относится к словам, ценя их.
Когда все славные дела его завершены, народ воскликнет: "О, так мы и сами точно таковы!"

[93t18c] **Е. А. Торчинов**
Великий Дао-Путь понес ущерб, и появились милосердие и справедливость, а мудрость видна лишь тогда, когда есть великая ложь.
Шесть родственников не в мире, и появляются сыновняя почтительность и материнская любовь.
Когда страна погружена в междоусобицы и смуты, то появляются и преданные подданные.
Отсеките совершенномудрие!
Отбросьте мудрость!
И тогда народ стократную выгоду обретет.

[93t19c] **Е. А. Торчинов**
Отсеките гуманность, отбросьте справедливость - и народ к сыновней почтительности и материнской любви вернется вновь!
Отсеките изощренность, отбросьте выгоду - и воры и разбойники исчезнут!
С триадой этой не дано высокому покончить просвещению.
Поэтому указываю, что ведет к избавлению:
Смотрите на безыскусственную чистоту и обнимите первозданную простоту.
Умеряйте себялюбие, искореняйте страсти.

[93t20c] **Е. А. Торчинов**
Отбросьте ученость, и не будете знать печали.
"О да!" и "конечно нет" далеко ли друг от друга отстоят?
Ну а добро и зло друг от друга отстоят далеко ли?
Тот, кого люди боятся, сам не может людей не бояться.
О как все это путано и неясно, и конца ему не видно!
Все люди радостны-радостны, как будто они в ритуале участвуют жертвенном, как будто весенней порой на башню они восходят.
О! Только лишь я один спокоен-безгласен, подобно младенцу, еще не узнавшему детства.
О! Я весь обвит-перевязан, и мне некуда возвращаться.
У всех людей как будто излишек, лишь у меня одного как будто бы недостаток.
О! Так ведь я разум глупца!
О! Во мне все смешано-перемешано.
Все люди светлы-светлы, я один темен.
Все люди отчетливо-четки, я один скрыт и неявен.
О! Я колыхаюсь, как море.
О! Я парю в пространстве, и мне негде остановиться.

Все люди к чему-то стремятся, а я один остаюсь простец простецом.
О! Я обширен и глубок, как море.
Как ураган, в пространстве ношусь, и мне негде остановиться!
Я один отличаюсь от людей тем, что ценю мать-кормилицу.

[93t21c] **Е. А. Торчинов**
Из пустоты Блага-Дэ Путь-Дао исходит вовне.
Дао - вещь такая: неясная и смутная, безликая и туманная.
О неясная!
О смутная!
В твоем средоточии есть образы.
О безликая!
О туманная!
В твоем средоточии есть вещи.
О загадочная!
О темная!
В твоем средоточии есть суть энергии жизни.
Эта суть энергии жизни предельно истинна, в ее средоточии сокрыто доверие.
С древности и доныне не исчезало ее имя и с помощью его обозреваю все множество множеств сущего.
Но откуда мне известно, что множество множеств сущего таково?
Из этого.

[93t22c] **Е. А. Торчинов**
Если нечто ущербно, то оно обретет целостность.
Если нечто согнуто, то оно выпрямится.
Если нечто пусто, то оно наполнится.
Если нечто одряхлело, то оно обновится.
Если чего-то недостаток, то будет прибавлено,
Если что-то в избытке, то наступит смятение.
Поэтому совершенный мудрец объемлет Одно и становится образцом для Поднебесной.
Он не поглощен сам собой и потому умудренно-просветлен.
Он не превозносит сам себя и потому прославлен.
Он сам ни на кого не нападает и потому свершает подвиги.
Он не занимается самовосхвалением и потому долговечен.
Ведь поскольку он не враждует ни с кем, с ним также никто не враждует.
Древние говорили: "Если нечто ущербно, то оно обретет целостность", - разве это пустые слова?
Когда целостность удается обрести, существо возвращается к этому Дао-Пути.

[93t23c] **Е. А. Торчинов**
Тот, кто мало говорит, естественности следует.
Ураган не свирепствует целое утро, ливень не льет весь день напролет.
Кто сделал так?
Небо и Земля.
Уж если Небо и Земля не могут сделать долговечным то, что ими же самими порождено, то что уж говорить о человеке!
Поэтому те люди, что все свои дела отдали Дао, - едины с Дао!

Те, что отдали все Благу-Дэ, - едины с Благом-Дэ!
Но те, кто посвятили все лишь гибели, - те с гибелью едины!
Когда некто един с Дао, Дао само радуется, обретя его.
Когда некто един с Благом, Благо тоже радуется, обретя его.
Когда некто един с гибелью, гибель тоже радуется, обретя его.
Когда человек не верен слову, то ему не станут верить!

[93t24c] **Е. А. Торчинов**
Стоящий на кончиках пальцев долго не простоит,
Оставляющий отчетливые следы далеко не уйдет.
Поглощенный сам собой не станет умудренно-просветленным,
Превозносящий сам себя не будет подлинно прославлен,
Нападающему на всех не дано свершить великий подвиг,
Самовосхваляющийся не станет долговечным.
Ну а для Дао это все - протухшая еда и тягостная ноша.
Все сущее такие нравы ненавидит.
Поэтому обретший Дао-Путь так не живет.

[93t25c] **Е. А. Торчинов**
Вот Вещь, в Хаосе свершившаяся, прежде Неба и Земли родившаяся!
О безмолвная!
О безвидная!
Одиноко стоишь и не меняешься, окружаешь все сущее и не гибнешь!
Тебя можно назвать Матерью Поднебесной.
Я не знаю твоего имени, но, обозначая знаком, называю тебя Путем-Дао.
Делая усилие, называю тебя Великим.
Великое называю уходящим, уходящее называю далеким, далекое называю возвращающимся.
Поэтому Дао велико, Небо велико, Земля велика, Монарх также велик.
Таким образом, в мире четверо великих, но Монарх из них - на первом месте.
Человек берет за образец Землю.
Земля берет за образец Небо.
Небо берет за образец Дао.
А Дао берет за образец свою самоестественность.

[93t26c] **Е. А. Торчинов**
Тяжелое - корень легкого.
Покой - властелин поспешности.
Поэтому совершенномудрый весь день в движении пребывает, не покидая той телеги, что в обозе.
Хотя бывает так, что он живет средь роскоши и блеска, он непременно выше их и их не замечает.
Так может ли правитель царства, в коем десять тысяч колесниц, пренебрегать покоем Поднебесной во имя собственного блага?
Если он пренебрежет - потеряет подданных.
Если он поспешит - потеряет правление.

В речах хороших не бывает оговорок,
Не пользуется палочками тот, кто хорошо считать умеет,
Тот, кто умеет запирать, и без замка запрет так, что не откроешь,
Тот, кто связывает умело, веревки не возьмет, но его узел не развяжешь.
Поэтому-то совершенномудрый готов всегда к спасению людей и потому никогда не теряет людей.
Поэтому-то совершенномудрый всегда готов спасать существ и потому никогда не теряет существ.
И это его глубокой просветленной мудростью зовут.
Поэтому хороший человек - учитель дурных людей, а дурные люди - сокровище хорошего человека.
Если человек не ценит свое сокровище, то даже если он многомудр, все ж пребывает в великом заблуждении.
Это называется важнейшей тайной.

[93t28c] **Е. А. Торчинов**
Знай мужественность свою и женственность свою храни,
Тогда долиной пустоты для Поднебесной станешь ты.
Долиною для Поднебесной став, ты не лишишься этого вечного обретения.
Тогда ты вновь вернешься к состоянию младенца.
Знай белое свое и черное свое блюди,
Тогда бессменным образцом для Поднебесной станешь ты.
Когда ты станешь образцом для Поднебесной,
Благая Сила-Дэ у тебя не убудет и ты снова вернешься к Беспредельному.
Знай славу свою и позор свой храни,
Тогда ложбиною пустой для Поднебесной станешь ты.
Ложбиной пустоты для Поднебесной став,
Ты сделаешь достаточной свою Благую Силу-Дэ и вновь вернешься к изначальной простоте-первозданности.
Первозданность рассеивается, и появляются орудия.
Совершенные мудрецы используют их и становятся начальниками чиновников.
Поэтому Великий Порядок не может понести ущерб.

[93t29c] **Е. А. Торчинов**
Если кто-либо возжелает овладеть Поднебесной, то я знаю, что он не возьмет ее.
Поднебесная - божественный сосуд, и нельзя воздействовать на нее.
Воздействующий на нее потерпит поражение, и хватающий ее потеряет ее.
Поэтому среди существ есть такие, которые идут вперед, есть и такие, что идут следом за ними;
бывают существа, которые молчат, бывают существа, которые кричат;
бывают сильные, бывают слабые;
бывают надежно защищенные, бывают беззащитно обнаженные.
Поэтому совершенномудрый уходит от чрезмерности, уходит от избытка, уходит от излишества.

[93t30c] **Е. А. Торчинов**
Тот, кто, обладая Дао-Путем, оказывает как советник помощь государю, оружие не применяет, дабы силой взять Поднебесную, ибо к нам возвращаются плоды деяний наших.
Там, где прошли войска, родится только терновник да репей колючий, а по пятам за войском следуют голодные годы.
Благому следующий полководец лишь цели должной достигает, и все.

Не смеет брать он то, что взять лишь силой можно.
Он достигает только должной цели и не гордится этим.
Он достигает только должной цели и не воюет более.
Он достигает только должной цели и не кичится этим.
Он достигает только должной цели и не более того.
Он достигает только должной цели и не творит насилий.
Когда живое существо сильно и крепко, но вдруг дряхлеет, говорят, что это результат утраты Дао.
Кто истинный теряет Дао-Путь, тот гибнет рано.

[93t31c] **Е. А. Торчинов**
Оружие недоброго знамения вестник.
Поэтому все существа оружие и брань всем сердцем ненавидят.
Поэтому тот муж, что Дао обладает, его не применяет никогда.
Муж благородный, пребывая дома, ценит левую сторону, а применяя оружие, предпочитает правую.
Оружие недоброго знамения вестник.
Оно не есть орудие благородных мужей.
И только если нет иного выбора, его возможно применить.
Муж благородный ценит всего превыше мир и покой.
И даже коль в войне он побеждает, тому не радуется он нимало: ведь радоваться ей - то же самое, что наслаждаться убиением людей.
А тот, кто наслаждается смертоубийством, неспособен направить свою волю на благо Поднебесной.
Ведь когда празднуют нечто хорошее, то выбирают левую сторону, а когда оплакивают и скорбят, то выбирают правую.
Вот почему генерал-адъютант слева, а главнокомандующий войском справа.
Их расположение соответствует траурному ритуалу.
В войне погибло много людей, о них надо скорбеть, печалиться и плакать.
А победу в войне достойно отмечать лишь погребальным ритуалом.

[93t32c] **Е. А. Торчинов**
Дао-Путь постоянно и безымянно.
Хотя оно столь просто и так мало, никто в Поднебесной не смеет сделать его своим слугой.
Если князья и цари смогут блюсти его, все сущее упокоится и умиротворится.
Тогда Небо и Земля в согласии и гармонии пребудут, с небес прольется сладкая роса и весь народ без всякого приказа сам обретет равновесие.
Когда все вещи обрели раздельное существование, тогда установились имена.
С тех пор как появились имена, необходимо Поднебесной познать, где следует остановиться в своих стремлениях.
И зная, где остановиться, мы избегаем гибели и бедствий.
Ведь Дао-Путь для Поднебесной - как море-океан для всех ручьев и рек.

[93t33c] **Е. А. Торчинов**
Знающий людей - мудр.
Знающий самого себя - просветлен.
Побеждающий самого себя - могуч.
Знающий меру - богат.
Заставляющий себя идти вперед - наделен волей.

Не теряющий своего места - долговечен.
Тот, кто умер, но не исчез, - долголетен.

[93t34c] **Е. А. Торчинов**
Великий Путь, безбрежное Дао, повсюду растекается оно.
Вот оно слева, но оно и справа.
Все сущее, опираясь на него, рождается, но Дао им не обладает.
Благие качества и свойства свои оно не выставляет напоказ для прославления, оно питает, пестует все сущее, но не становится над сущим властелином.
Когда мудрец в бесстрастии все время пребывает, он Дао даже в самом малом созерцает.
Все сущее к нему стремится возвратиться, но не становится оно над ним владыкой.
Его поэтому назвать Великим можно!
Поэтому и совершенномудрый до самого конца к величию нисколько не стремится.
Поэтому он может стать поистине великим!

[93t35c] **Е. А. Торчинов**
К тому, кто держит великий образ, стекается вся Поднебесная.
Стекается, и ничто не причиняет ей вреда; она в покое, мире и благоденствии великом пребывает.
Всюду радость и обильные яства, что путника влекут остановиться и их вкусить.
Когда Дао-Путь исходит из наших уст, он пресен и лишен вкуса.
Смотришь на него - и не можешь узреть.
Слушаешь его - и никак не услышать.
Используешь его - и никак не исчерпать его возможностей.

[93t36c] **Е. А. Торчинов**
Если хочешь нечто сжать - прежде растяни его.
Если хочешь нечто ослабить - прежде усиль его.
Если хочешь нечто погубить - прежде дай расцвести ему.
Если хочешь нечто отнять - вначале нечто дай.
Это и называют утонченной просветленностью:
Ведь мягкое и слабое побеждает сильное и крепкое.
Острое оружие Поднебесной ни в коем случае нельзя показывать людям.

[93t37c] **Е. А. Торчинов**
Дао-Путь постоянен, в недеянии он пребывает, но нет ничего, не сделанного им.
И если князья и цари умеют его блюсти, все сущее будет изменяться само по себе.
Но если изменяясь, оно возжелает творить самочинно, я буду давить на него простотой первозданной.
После того как я надавлю на него простотой первозданной, оно желать перестанет.
Без вожделений оно обретет покой, и тогда Поднебесная исправится сама собой.

[93t38c] **Е. А. Торчинов**
Высшее Благо не благо, и благодаря этому оно наделено благом.
Низшее Благо не теряет блага, и благодаря этому оно лишено блага.
Высшее Благо пребывает в недеянии, и ему незачем действовать.
Низшее Благо деятельно, и оно имеет цель для своих деяний.
Высшее милосердие деятельно, но ему незачем действовать.

Высшая справедливость деятельна, и она имеет цель для своих деяний.
Высшее ритуальное благоговение деятельно, но ему не соответствует ничего во всем мире;
поэтому следующие ритуалу тогда закатывают рукава до плеч и силой принуждают народ идти за ними.
Поэтому люди утрачивают Дао-Путь и обретают Благо;
теряют Благо и обретают милосердие;
теряют милосердие и обретают справедливость;
теряют справедливость и обретают ритуальное благоговение.
Но ритуальное благоговение - свидетельство того, что у людей оскудевают преданность и верность слову.
Поэтому оно - начало смуты.
Предвидение будущего - не только цвет Дао-Пути, но и начало глупости.
Поэтому великий муж пребывает в том, что обильно, а не в том, что скудно.
Он не пребывает в цветущих верхушках сущего.
Отбрасывая то, берет он это.

[93t39c] **Е. А. Торчинов**
Вот те, кто некогда причастны стали Одному:
Небо стало причастно Одному - и очистилось,
Земля стала причастна Одному - и упокоилась,
Божественное стало причастно Одному - и одухотворилось,
Долины стали причастны Одному - и наполнились,
Все сущее стало причастно Одному - и стало порождать,
Цари и князья стали причастны Одному - и Поднебесная выправилась.
А вот что было бы в противном случае:
Не стало бы Небо чистым и распалось бы на куски,
Не упокоилась бы Земля и раскололась бы на части,
Не одухотворилось бы божественное и истощилось бы немедленно,
Не наполнились бы долины и пересохли бы тотчас,
Не стало порождать бы сущее и тотчас бы погибло,
Не ценили бы цари и князья высокое и были бы низложены внезапно.
Поэтому цените униженное, считая его корнем, поскольку для всего высокого низкое будет всегда основанием.
Вот поэтому-то цари и князья и называют себя "сирыми", "одинокими" и "недостойными".
Разве это не означает "считать униженное корнем"?
Не так ли?
Поэтому стремящийся быть владельцем многих колесниц остается без колесницы.
И я не стремлюсь быть блестящим и сияющим, как яшма, а хочу быть столь же простым и незаметным, как простой булыжник.

[93t40c] **Е. А. Торчинов**
Возвращение к самому себе - вот принцип движения Дао-Пути.
Ослабление - вот в чем использование Дао-Пути.
Все в Поднебесной сущее рождается из наличия, но само наличие рождается из отсутствия.

Когда муж высшего ума о Дао слышит, то стремится с усердием осуществлять его.
Когда муж среднего ума о Дао слышит, то сомневается - то ли оно есть, то ли его и нет вовсе.
Когда муж низшего ума о Дао слышит, то над ним смеется громко!
И если бы тот хохот не раздался, оно бы недостойно было Дао, Путем Великим, называться!
Поэтому попробую связать слова, чтобы сказать об этом:
Прозрение Дао - словно омрачение,
приближение к нему - словно отступление от него,
ровная поверхность Пути - как кочки и ухабы;
высшее Благо-Дэ - словно ложбина,
белизна великая - как очернение,
обширность Силы Благостной - как недостаток,
утвержденная Благая Сила - словно ослабленная,
незапятнанное существо истины - как загрязненное.
Великий квадрат не имеет углов,
великий сосуд изготовляется последним,
голос великого звука столь утончен,
великий образ не имеет телесной формы и само Дао сокрыто в безымянности своей.
О, только Дао-Путь хорош бывает и вначале, и при завершении!

[93t42c] **Е. А. Торчинов**
Дао рождает Одно.
Одно Двоих рождает.
Двое рождают Трех.
Трое рождают все сущее.
Все сущее носит на себе инь - силу темную и обнимает ян - силу светлую, так достигая гармонии энергий жизни и сил равновесия.
Теми именами, что люди так не любят: "сирыми", "одинокими", "недостойными", - цари и правящие князья сами себя зовут.
Поэтому таков существования принцип: вещь, умаляясь, возрастает, а возрастая - умаляется.
Тому же я учу, чему все люди учат: "Насильник и тиран своей не умирает смертью".
Вот мудрость эту я и сделаю своим учителем.

[93t43c] **Е. А. Торчинов**
В Поднебесной предельно мягкое управляет предельно твердым.
А не имеющее наличия входит в плотное, не имеющее промежутков.
Вот и я обладаю знанием того, что польза проистекает из недеяния.
Бессловесное учение, польза недеяния - о, как мало в Поднебесной людей, которые могут этого достичь!

[93t44c] **Е. А. Торчинов**
Слава или собственное тело - что нам роднее?
Собственное тело или имущество - о чем заботимся мы больше?
Обретение или утрата - что уязвляет нас больнее?
Чем сильнее любовь, тем мучительнее утрата.
И чем больше храним, тем тяжелее потеря.
Знающий меру не узнает позора; знающий, когда надо остановиться, не попадет в беду.
Такой человек сможет стать долговечным!

[93t45c] **Е. А. Торчинов**
Великое совершенство подобно ущербности, но использование его не знает ограничений.
Великая полнота подобна пустоте, но использование ее не знает предела.
Великая прямота подобна кривизне.
Великая изощренность подобна неумелости.
Великое красноречие подобно косноязычию.
Возбуждение преодолевает холод, покой преодолевает жар.
Чистота и покой - вот секрет исправления Поднебесной.

[93t46c] **Е. А. Торчинов**
Когда в Поднебесной есть Дао-Путь, кони спокойно унавоживают землю.
Когда в Поднебесной нет Дао-Пути, боевые кони родятся в предместьях.
Нет больше вины, чем страстям поддаться.
Нет больше беды, чем меры не знать.
Нет больше преступления, чем желание обладать.
Поэтому знающий меру сам является мерой; он всегда всему мера.

[93t47c] **Е. А. Торчинов**
Не выходя со двора, я познаю Поднебесную.
Не открывая окна, зрю я небесный Путь-Дао.
Чем дальше мы ходим, тем меньше мы знаем.
Поэтому совершенномудрый никуда не ходит, но все знает;
Он ни на что не смотрит, но все постигает;
Он ничего не творит, но все свершает.

[93t48c] **Е. А. Торчинов**
Кто следует учености, тот день за днем возрастает.
Кто следует Дао-Пути, тот день за днем умаляется: так достигает он недеяния.
Он пребывает в недеянии, но нет ничего им не сделанного.
Такой человек, дел никаких не делая, легко берет Поднебесную: ведь совершения дел недостаточно, чтобы взять Поднебесную.

[93t49c] **Е. А. Торчинов**
Нет постоянного разума-сердца у совершенномудрого.
Сердца всех людей Поднебесной образуют его разум-сердце.
Добрым людям я делаю добро, и злым людям я также делаю добро:
Благая Сила преисполнена добра.
Достойным доверия я верю, и недостойным доверия я также верю:
Благая Сила преисполнена доверия.
Совершенный мудрец спокойно и мирно живет в Поднебесной;
все чаяния народа стекаются в его глаза и уши, и всех людей считает совершенномудрый детьми своими.

[93t50c] **Е. А. Торчинов**

Учеников жизни - трое из десятка.
Учеников смерти - трое из десятка.
Тех людей, что рождены для жизни, но стремятся в царство смерти, - трое из десятка.
И по какой причине это?
По той причине, что жадны до жизни люди.
Я слышал, что умеющий жизнь свою беречь, идя по суше, не столкнется с тигром или носорогом, а вступая в войско, может он не опасаться оружия и лат.
Ведь носорогу некуда свой рог вонзить, тигру некуда когти свои запустить, оружию некуда клинок вонзить.
И по какой причине это?
По той причине, что для таких людей не существует царства смерти.

[93t51c] **Е. А. Торчинов**
Дао-Путь все порождает.
Благая Сила-Дэ все вскармливает.
Вещественность все оформляет.
Сила все доводит до свершения.
Таким образом, среди всего сущего нет ни одного существа, что не почитало бы Дао-Пути и не ценило бы Благой Силы-Дэ.
Дао-Путь почитаем, а Благая Сила-Дэ ценима потому, что никому они не отдают велений, но постоянно пребывают в самоестественности свободной.
Поэтому Дао-Путь все порождает, Благая Сила-Дэ все вскармливает.
Они все взращивают и все пестуют, все завершают и все до зрелости доводят;
они все выхаживают и все собою покрывают;
рождают, но не обладают;
вершат, но преднамеренно не замышляют своих свершений;
взращивают все, но не господствуют над ним.
Вот что такое Сокровенная Благая Сила-Дэ!

[93t52c] **Е. А. Торчинов**
У Поднебесной есть начало, и оно - Мать Поднебесной.
И тот, кто знает Мать, знает и дитя ее.
А тот, кто знает дитя ее, тот может блюсти и Мать.
Тогда до самой смерти он не узнает никаких несчастий.
О, заслони свои отверстия, запри свои врата, и до конца жизни не будешь изнурен.
А того, кто отверзает свои отверстия и вмешивается во все дела на свете, не спасет ничто, пока он не умрет.
Того, кто созерцает мельчайшее, зовут просветленно-мудрым.
Того, кто блюдет мягкое, зовут сильным.
Используй свой свет - и возвратишься к просветленности, а также не подвергай себя невзгодам - это называют "упражнением в постоянстве".

[93t53c] **Е. А. Торчинов**
Если бы я знанием обладал, то шел бы по Великому Пути.
Единственное, чего я боюсь, это сбиться с пути.
Великий Путь сокрыт и неуловим, но народ ему предпочитает тропы.

Если при дворе роскошествуют, то поля покрываются сорняками и пустеют амбары.
Знать одевается в одежды из узорчатых тканей,
носит у пояса острые мечи,
вкушает только изысканные яства и увеличивает имущество свое сверх всякой меры.
Это называется разбоем и бахвальством.
О, это не истинный Путь!

[93t54c] **Е. А. Торчинов**
Умеющего стоять - не опрокинуть.
Из обхвата умеющего обхватить - не высвободиться.
Жертвоприношения предкам, приносимые детьми и внуками такого умельца, никогда не оскудеют.
Кто это умение в себе совершенствует, у того Благая Сила станет истинной.
Кто это умение в семье совершенствует, у того Благая Сила станет обильной.
Кто это умение в селении совершенствует, у того Благая Сила станет взращенной.
Кто это умение в государстве совершенствует, у того Благая Сила станет превеликой.
Кто это умение во всей Поднебесной совершенствует, Благая Сила того распространится повсюду.
Поэтому
если я посредством себя самого буду зреть себя,
если я посредством семьи буду зреть семью,
если я посредством селения буду зреть селение,
если я посредством государства буду зреть государство,
если я посредством Поднебесной буду зреть Поднебесную,
то откуда я узнаю, что Поднебесная именно такова?
Именно из этого созерцания.

[93t55c] **Е. А. Торчинов**
Того, кто крепко держится за Силу-Дэ благую, сравню я с новорожденным младенцем.
Пчелы, пауки и змеи ядовитые его не жалят.
Хищные звери его не тронут, хищные птицы его не клюнут.
Его кости мягки, его мышцы слабы, но хватает он крепко.
Ничего не знает он о союзе самца и самки, но уд его вздымается, ибо его семя-энергия предельно совершенно.
Гармония - источник постоянства, а постоянство - корень просветления.
Стремление к пестованию жизни зовется благовещим.
Контроль сознания над жизненной энергией дарит силу.
Коль существо сильно и вдруг стареет - оно отвергло истинный Путь-Дао, значит.
Тот, кто с Пути сворачивает, гибнет рано.

[93t56c] **Е. А. Торчинов**
Знающий не говорит, говорящий не знает.
Заслони свои отверстия,
запри свои врата,
притупи свою остроту,
развяжи свои узлы,
умерь свой свет и
уподобься пыли.

Зовется это Сокровенным Единением.
Поэтому с человеком, обретшим его, нельзя сблизиться, чтобы с ним сродниться, и с ним нельзя сблизиться, чтобы его отбросить.
С ним нельзя сблизиться, чтобы извлечь из этого пользу, и с ним нельзя сблизиться, чтобы другим причинить с его помощью вред.
С ним нельзя сблизиться, чтобы стать знатным, и с ним нельзя сблизиться, чтобы стать низкородным.
Поэтому он почитается всей Поднебесной.

[93t57c] **Е. А. Торчинов**
Прямотою упорядочивается государство, хитростью война ведется, и бездействием берется Поднебесная.
Откуда знаю я, что это так и есть?
Отсюда знаю это:
Когда в Поднебесной много запретов и ограничений, народ нищает и беднеет;
когда у людей много смертоносного оружия, государство и семья погружаются в брань и смуты;
когда среди людей много искусников-умельцев, влечение к дорогим диковинам растет;
когда закон издается за законом, разбойники и воры множатся на воле.
Поэтому совершенный мудрец так говорит:
Я буду пребывать в недеянии,
и народ начнет самоизменяться.
Я буду любить покой,
и народ исправится сам собой.
Я буду в бездействии,
и народ тогда разбогатеет.
Я буду в бесстрастии,
и народ сам вернется к исконной простоте.

[93t58c] **Е. А. Торчинов**
Когда правление беспомощно и слабо, народ прост и добродушен.
Когда правление активно и всевластно, народ испытывает нужду и недостаток.
О горе, ты - опора счастья!
О счастье, в тебе таится горе!
И кто пределы ваши знает?
Нет прямоты, она хитростью обернулась, а добро превратилось в злобу.
Заблуждения людские, о как они долговечны!
Поэтому совершенномудрый угловат, но не вонзится в человека.
Он остер, но зла не содеет.
Он прям, но не заносчив.
Он словно свет, но блистать не хочет.

[93t59c] **Е. А. Торчинов**
Управлять людьми и служить Небу ничто так не способствует, как умеренность.
Ведь только про умеренность говорят, что она помогает рано приготовиться.
Рано приготовиться - значит обладать обильным накоплением Благой Силы.
Для обладающего обильным накоплением Благой Силы нет ничего непреодолимого.
Что касается того, для кого нет ничего непреодолимого, то никто не знает его предела.

Тот, предела которого никто не знает, может обладать царством.
Мать царства обретя, можно стать долговечным и непреходящим.
Этот принцип называют корнем глубоким и черенком крепким.
В нем путь продления жизни и вечного видения.

[93t60c] **Е. А. Торчинов**
Управлять большим государством - все равно что готовить блюдо из мелкой рыбы.
Если посредством Дао-Пути власть над всей Поднебесной обрести, то нави не будут обладать божественностью.
И не только нави Поднебесной не будут обладать божественностью, но и сами божества не смогут навредить народу.
Но не только сами божества не смогут навредить народу, совершенномудрый тоже не сможет навредить народу.
А коль эти двое навредить народу не смогут, благие силы их соединятся и возвратятся к людям на их благо.

[93t61c] **Е. А. Торчинов**
Великое государство стремится в низину подобно потоку воды.
Оно - средоточие всей Поднебесной, оно самка Поднебесной.
Самка постоянно посредством покоя самца побеждает, покой ее вниз опускает.
Поэтому великое государство опускается под малые царства и так берет эти малые царства.
Если же малое царство опустится под великое государство, то оно возьмет великое государство.
Поэтому одни опускаются вниз, чтобы взять, а другие опускаются вниз, чтобы их взяли.
Великое государство не должно желать ничего сверх возможности равно пестовать свой народ.
Малое царство не должно желать ничего сверх возможности равным образом служить своим людям.
Поэтому и то и другое получают желаемое, когда великое соглашается опуститься под малое.

[93t62c] **Е. А. Торчинов**
Дао-Путь - глубинная тайна природы всего сущего.
Он есть сокровище добрых; он есть то, что хранят недобрые.
Хорошие речи могут прославить человека в городах и весях, достойное поведение может увеличить уважение людей к нему.
Но даже недоброго человека можно ль отбросить?
Поэтому, когда Сын Неба вступает на престол и трем великим князьям-советникам даруется их сан, то впереди процессии несут диск яшмы, за коим следует четверка лошадей.
Но эта церемония все же хуже поведения человека, который лишь сидит, чтобы к Пути Великому приблизиться.
За что же древние ценили так сей Дао-Путь?
Разве не говорили они: "С ним вы будете искать - и обрящете, будете виновны - и избежите кары".
Вот почему его ценит Поднебесная.

[93t63c] **Е. А. Торчинов**
Действуй в недеянии;

вкушай, не чувствуя вкуса;

во многом зри малое.
На зло плати благом.
Стремись совершать трудное благодаря тому, что в нем легкое, и верши великое благодаря тому, что в нем незаметное.
Ведь трудные дела Поднебесной свершаются только исходя из легкого;
великие дела Поднебесной вершатся только благодаря незаметному.
Тот, кто может до конца не творить ничего великого, один лишь способен завершить великое.
Поэтому легкомысленному редко верят, поэтому во многом легком обязательно таится много трудного.
Поэтому совершенный мудрец считает свои дела трудными, но до самого их завершения не испытывает никаких затруднений.

[93t64c] **Е. А. Торчинов**
Пребывающее в умиротворении легко удерживать.
Когда признаки еще не проявились, положение легко исправить.
То, что хрупко, легко разбить.
Мелкое легко рассеять.
Действуй, пока положение еще не выявилось,
упорядочивай, пока смута еще не началась.
Дерево, ствол которого с трудом можно обхватить, вырастает из крошечного ростка.
Девятиэтажная башня возводится из комка земли.
Путешествие в десять тысяч верст начинается с одного шага.
Действуя, губишь дело.
Удерживая, теряешь удерживаемое.
Совершенный мудрец пребывает в недеянии и поэтому не знает поражений; он ничего не удерживает и поэтому ничего не теряет.
Люди в делах своих часто стремятся к завершенности и потому терпят поражение.
Если человек столь же внимателен в конце, как и в начале, он не будет знать поражений.
Поэтому совершенный мудрец,
желая не желать,
не ценит труднодоступные товары;
учась не учась,
возвращается к тому, что все люди уже прошли.
Он споспешествует самоестественности сущего и не смеет действовать.

[93t65c] **Е. А. Торчинов**
Древние, умеющие следовать Дао-Пути, не просвещали народ, а оглупляли его.
Трудно управлять народом, когда он преисполнен многомудрия.
Тот, кто упорядочивает страну при помощи мудрости, - грабитель страны.
Тот, кто не упорядочивает страну при помощи мудрости, - счастье для страны.
Знание этих двух принципов создает образец для исполнения.
Постоянное знание сего образца называют Сокровенной Благой Силой-Дэ.
О сколь глубока Сокровенная Благая Сила!
О сколь она удалена от нас!
Но она возвращается к единству со всем сущим, и следующий ей обретает великий успех!

Почему моря и реки царят над всеми долинами?
Они всегда стремятся быть внизу, поэтому и царят над всеми долинами.
Поэтому совершенномудрый, желая над народом вознестись, словами должен унижать себя;
желая стать впереди народа, ставить самого себя позади всех.
Поэтому, когда совершенномудрый возвышается над народом, народ не чувствует обузы;
находится впереди народа, народ не страдает.
Таким образом, вся Поднебесная, ликуя, несет его вперед, не чувствуя никакого гнета.
Поскольку он ни с кем не борется, и с ним никто в Поднебесной не борется.

[93t67c] **Е. А. Торчинов**
В Поднебесной все говорят, что я велик.
Но я вовсе не похож на великого.
Ведь поскольку я велик, я вовсе не похож на великого.
Если бы я долго был бы похож на великого, то давно бы уже стал ничтожным.
Ведь у меня есть три драгоценности, которые я храню и ценю:
Первая - это сострадание,
Вторая - это бережливость,
Третья - я не смею поставить себя впереди Поднебесной и поэтому могу стать во главе всех на свете.
Поскольку есть сострадание, есть и храбрость.
Поскольку есть бережливость, есть и великодушие.
Поскольку я ставлю себя позади, то оказываюсь впереди.
И так до самой смерти.
Ведь сострадательный побеждает в сражениях, а в обороне становится неуязвимым.
Небо всегда спасает того, кого сострадание хранит само.

[93t68c] **Е. А. Торчинов**
Хороший воин не воинствен.
Хороший боец не гневлив.
Умеющий побеждать врагов не сражается с ними,
умеющий использовать людей ставит себя ниже их.
Вот что называют Благой Силой непротивоборствования.
Вот что называют силой использования людей.
Вот что называется быть соработником Неба, вот предел искусства древних мудрецов.

[93t69c] **Е. А. Торчинов**
Полководцы говорят:
"Я не смею стать хозяином, а буду действовать как гость.
Я не смею продвинуться вперед и на дюйм, а буду отступать на фут".
Вот что называют маршем без шеренг, нанесением удара без использования кулака, противостоянием при отсутствии противника, владением оружием без оружия.
Среди бед большей нет, чем недооценить противника.
Недооценить противника - значит похоронить свои драгоценности.
Поэтому, когда в битве войска скрещивают свои клинки, побеждает скорбящий.

[93t70c] **Е. А. Торчинов**
Мои слова так легко понять, им так легко следовать,

Но в Поднебесной их никто не может понять, им никто не может следовать.
В словах есть главное, в делах есть первенствующее.
Ведь незнание людей заключается в том, что они не знают меня.
Поскольку знающих меня так мало, то я являюсь их сокровищем.
Поэтому на совершенномудром одежда из простой грубой ткани, но на груди у него скрыта драгоценная яшма.

[93t71c] **Е. А. Торчинов**
Тот, кто знает, что он не знает, - превосходен.
Тот, кто не знает, что он знает, - недужен.
Но ведь тот, кто недужит свой недуг, - тот вовсе не недужен.
Совершенный мудрец не недужен, он недужит недуг свой и поэтому не недужен.

[93t72c] **Е. А. Торчинов**
Когда народ не боится грозной воинственной силы - грозная воинственная сила скоро настигнет его.
Пусть власти не утесняют народ в его жилищах, пусть власти не давят на жизнь народа.
Ведь если не давить, то и не нужны будут строгости и кары.
Поэтому совершенный мудрец знает сам себя, но не стремится из себя делать зрелище для людей.
Он ценит сам себя, но не понуждает других дорожить собой.
Отбрасывая то, берет он это.

[93t73c] **Е. А. Торчинов**
Когда храбрец безрассуден - он гибнет.
Когда храбрец осмотрителен - он продолжает жить.
В этих двух качествах скрываются и польза и вред.
По какой причине Небо ненавидит нечто - кто знает?
Поэтому совершенный мудрец считает этот вопрос трудным.
Небо не борется ни с кем, но умело всех побеждает.
Оно не говорит, но должным образом всем отвечает.
Его не успели позвать, а оно уже и само пришло.
Оно безмятежно-покойно, но искусно в создании планов.
Небесная сеть распростерта повсюду.
Ячейки ее широки, но ничего не упустят.

[93t74c] **Е. А. Торчинов**
Если люди не боятся даже смерти, то чем же запугаешь их до смерти?
Если найдется такой, кто будет все время запугивать людей до смерти и этим тешиться, а я его поймаю и убью, кто еще посмеет так поступить?
Ведь в государстве есть всегда палач.
А подменять собою палача не то же самое ли, что вместо лесоруба идти рубить деревья?
Ведь тот, кто вместо лесоруба пойдет деревья рубить, тот всегда рискует собственную руку отрубить!

[93t75c] **Е. А. Торчинов**
Народ голодает, поскольку власти с его снеди берут так много налогов!
Поэтому он голодает.
Народом так трудно управлять потому, что власть предержащие активны и деятельны.

Поэтому им трудно управлять.
Народ потому так легкомысленно относится к смерти, что он привязан к жизни, жаждая ее утех.
Поэтому он легкомысленно относится к смерти.
И только тот, кто действует не ради лишь жизненных благ, мудрее тех, кто ценит жизнь одну.

[93t76c] **Е. А. Торчинов**
Когда человек рождается, он мягок и слаб.
Когда человек умирает, он тверд и силен.
Так и среди всех существ: пока растения живут, они мягки и слабы.
Когда они гибнут, они сухи и тверды.
Поэтому удел твердого и сильного - смерть,
А мягкого и слабого - жизнь.
Поэтому мощное оружие не может победить,
Поэтому крепкое дерево должно упасть.
Люди, склонные к насилию, не умирают своей смертью.
Поэтому сильное и великое будет унижено, а мягкое и слабое будет возвышено.

[93t77c] **Е. А. Торчинов**
Разве природа небесного Дао-Пути не похожа на натягивание лука?
Возвышающееся он опускает, опускающееся он возвышает, когда есть избыток, он отнимает его, когда есть недостаток, он восполняет его.
Небесный Дао-Путь отнимает, когда есть излишек, и дает, когда есть недостаток.
Но не таков путь людской, ибо он в том, чтобы отнять, когда и так недостаток, и прибавить, когда и так излишек.
Кто сможет при помощи излишка прибавить нечто в Поднебесной?
Только тот, кто обладает Дао-Путем.
Поэтому совершенномудрый действует, не замышляя преднамеренно.
Он обладает благими качествами и свойствами, но к ним не привязан.
И он нисколько не намерен смотреться перед миром как мудрец.

[93t78c] **Е. А. Торчинов**
По мягкости и слабости своей ничто в Поднебесной не может воду превзойти.
Но ничто не может также превзойти ее по способности атаковать и побеждать то, что сильно и крепко.
И тут ничто не сможет заменить ее.
Слабое побеждает сильное, мягкое побеждает твердое.
И нет никого в Поднебесной, кто не мог бы этого понять, кто не мог бы этому следовать.
Поэтому совершенномудрый говорит:
"Кто принимает на себя всю скверну Поднебесной, становится владыкой над храмами зерна и предков.
Кто принимает на себя невзгоды Поднебесной, тот становится царем всей Поднебесной".
Правильные слова подобны их противоположности.

[93t79c] **Е. А. Торчинов**
Отвечайте на гнев воздействием Блага-Дэ.
Если смириться с великим гневом, часть гнева все еще останется непременно, разве это можно считать удачным приемом?
Поэтому совершенномудрый всегда держится за левую половину договорной бирки, не требуя мзды от

людей.
Тот, кто владеет Благом-Дэ, тот держится за договорную бирку.
Тот, кто не обладает Благом-Дэ, тот взыскивает плату.
Небесный Дао-Путь не знает родственных симпатий, но постоянно творит добро для всех людей.

[93t80c] **Е. А. Торчинов**
Пусть государство будет маленьким и редким население.
Орудия в нем, даже если есть, пусть не используются вовсе.
Пусть люди в нем относятся серьезно к смерти и не уходят далеко от дома.
Пусть даже есть там лодки или колесницы, но ездить в них не надо.
Пусть даже есть оружие и латы - не надо содержать их в порядке и готовности.
Пусть люди вновь начинают завязывать узелки и применять их вместо письмен.
Пусть будет для людей сладка их пища, и пусть одежда будет их красива.
Пусть мирными жилища будут их, и пусть они найдут усладу в своих обычаях и нравах.
Соседние страны пусть рядом глядят друг на друга и слушают крик петухов и лай псов у соседей, но люди пусть до самой старости не ходят друг к другу туда-сюда.

[93t81c] **Е. А. Торчинов**
Достойные доверия слова не могут быть красивы.
Красивые слова достойными доверия быть не могут.
Достойный человек не красноречив.
Красноречивый не может быть достойным человеком.
Мудрец не обладает многознанием.
Многознающий - не мудр.
Совершенный мудрец ничего не копит.
И чем он больше людям отдает, тем больше достается и ему.
Чем больше у людей - тем больше у него.
Небесный Дао-Путь приносит пользу всем, вреда же никому не причиняет.
Путь совершенномудрого - действуя, ни с кем не враждовать.

[94t01c] **А. Е. Лукьянов**
Дао, которое может быть высказано, не есть постоянное Дао.
Имя, которое может быть названо, не есть постоянное имя.
Небытием именуется начало Неба и Земли,
Бытием именуется Мать мириад вещей.
Поэтому:
обращаясь к постоянному небытию, стремлюсь к тому, чтобы увидеть его тайну;
обращаясь к постоянному бытию, стремлюсь к тому, чтобы увидеть его предел (спиральный путь).
Оба они (небытие и бытие) из тождества происходят, но различно именуются.
В тождестве они называются первоначалом.
Первоначало и еще первоначало - вот дверь ко всем тайнам.

[94t02c] **А. Е. Лукьянов**
Когда в Поднебесной все узнают, что прекрасное есть прекрасное, то появляется и безобразное.
[Когда в Поднебесной] все узнают, что добро есть добро, то появляется и не добро.
Это происходит потому, что бытие и небытие друг друга порождают,
трудное и легкое друг друга создают,
длинное и короткое друг с другом соизмеряются,
высокое и низкое друг с другом сопоставляются,
звук и мелодия друг с другом согласуются,
переднее и заднее друг за другом следуют.
Вот почему совершенномудрый человек правит службу недеяния, ведет учение без слов.
Мириады вещей творит и не уклоняется от этого.
Рождает и не обладает [ими].
Возделывает и ни на что не опирается,
Успешно завершает и не ставит себе это в заслугу.
А поскольку не ставит в заслугу, постольку и не отвергается.

[94t03c] **А. Е. Лукьянов**
Не превозносите достойных (талантливых), чтобы люди не соперничали.
Не цените трудно добываемого богатства, чтобы люди не становились разбойниками.
Не показывайте могущее вызвать страсть, чтобы сердца людей не трепетали.
Вот почему правление совершенномудрого человека состоит в следующем:
опустошай свое сердце,
наполняй свой живот,
ослабляй свою волю,
укрепляй свои кости.
Постоянство ведет к тому, что люди не будут иметь знаний, не будут иметь страстей;
ведет к тому, что мужи мудрствующие не посмеют деять.
Деяй недеяние, и тогда не будет неуправляемого.

[94t04c] **А. Е. Лукьянов**
Дао пусто, и кто бы ни старался [наполнить] его, не наполнит.
О бездна-пучина, подобная Пращуру мириад вещей!
Стихает ее стремительность,
слабеют ее путы,

умеряется ее свечение,
осаждается ее пыль.
И тогда вот он, чистейший!
Подобие будущего существования!
Я не ведаю, чей это сын.
Видимо, родоначальник Первопредков.

[94t05c] **А. Е. Лукьянов**
Небо и Земля не соотносятся через Жэнь (Человеколюбие),
и потому мириады вещей живут как трава и собаки.
Совершенномудрые люди не соотносятся через Жэнь (Человеколюбие),
и потому все роды человеческие живут как трава и собаки.
(Вариант перевода: Небо и Земля не проявляют Жэнь,
ибо все вещи превратятся в "соломенное чучело".
Совершенномудрые люди не проявляют Жэнь,
ибо все роды человеческие превратятся в "соломенное чучело").
Пространство между Небом и Землей, не подобно ли оно кузнечному меху?
[Оно] пусто и не складывается, а сжимается и выдыхает.
Много слов - все напраслина, не лучше ли держаться середины?

[94t06c] **А. Е. Лукьянов**
Дух лона [рождения] бессмертен, это и есть Сокровенная Самка.
Врата Сокровенной Самки - корень Неба и Земли.
Непрерывно вьется, предвосхищая существование.
Действует он без усилий.

[94t07c] **А. Е. Лукьянов**
Небо вечно, Земля долговечна.
Небо и Земля оттого могут быть одно вечным,
а другая долговечной, что не сами себя породили.
Поэтому [они] могут вечно жить.
Вот почему совершенномудрый человек ставит себя позади,
но сам оказывается впереди;
забывает о себе самом, но сам существует.
Нельзя ли сказать, что тем самым ему не достичь своей личной цели?
Напротив, только так он и может осуществить задуманное.

[94t08c] **А. Е. Лукьянов**
Верхняя доброта подобна воде.
Доброта воды приносит пользу вещам и не борется [с ними].
[Вода] устремляется туда, где многие люди погрязли во зле.
Поэтому [она] почти как Дао.
Селясь где-нибудь, проявляй доброту к земле.
Сердцу повинуясь, проявляй доброту безмерно.
Завязывая дружбу, наполняй добротой Жэнь (Человеколюбие).
Говоря что-либо, наполняй добротой Синь (Доверие-Веру).

Управляя, согласовывай с добротой методы управления.
Отправляя службы, наполняй добротой способности.
Действуя, будь добр, следуй времени.
Ни в коем случае не соперничай и тогда не будешь повинен ни в чем.

[94t09c] **А. Е. Лукьянов**
Можно взять да и наполнить что-либо,
но не лучше ли оставить его как есть?
Можно расплющить и отточить что-либо,
но невозможно надолго сохранить [остроту].
Можно золотом и яшмой завалить палаты,
да разве найдется тот, кто сможет сберечь [все это]?
Можно осыпать себя драгоценностями и смотреть на всех свысока,
но ведь только накличешь беду на себя.
Поэтому для успешного достижения цели ты сам возьми да и уступи Небесному Дао.

[94t10c] **А. Е. Лукьянов**
Если сопрячь тело и душу и заключить в одно-единое,
могут ли остаться [они] нераздельны?
Если грубое семя-энергию довести до мягкости,
можно ли обратиться новорожденным?
Если начисто устранить видение сокровенного первоначала,
можно ли избежать изъяна?
Если любить народ и управлять страной, можно ли быть незнающим?
Если небесные врата открываются и закрываются,
может ли не быть Самки [Поднебесной]?
Если прояснить все в пределах четырех сторон, можно ли не деять?
[Оно] рождает все, размножает все.
Порождающее и не обладающее [порожденным],
возделывающее и ни на что не опирающееся,
главенствующее и не карающее -
это и есть изначально-сокровенное Дэ.

[94t11c] **А. Е. Лукьянов**
Тридцать спиц сходятся в одной ступице, а используется она в колесе за счет своего небытия и бытия (пустоты и полноты).
Формуют глину, чтобы изготовить сосуд, а используется он за счет своего небытия и бытия.
Пробивают окна и двери, чтобы устроить жилище, а используется оно за счет своего небытия и бытия.
Следовательно:
бытием приносится польза, небытием создается использование.

[94t12c] **А. Е. Лукьянов**
Пять цветов ослепляют человека.
Пять звуков оглушают человека.
Пять вкусов забивают рот человека.
Погоня и охота приводят сердце человека в бешенство.

Трудно добываемое богатство вредит человеческим поступкам.
Вот почему совершенномудрый человек занят животом (внутренним), а не занят глазами (внешним).
Вот почему отбрасывает одно, избирает другое.

[94t13c] **А. Е. Лукьянов**
Любовь и бесчестье подобны страху.
Почтение и величие приносят страдание, подобно телу.
Что значит "любовь и бесчестье подобны страху"?
Любовь идет от низов, ее обретают со страхом, ее и теряют со страхом.
Вот что значит "любовь и бесчестье подобны страху".
Что значит "почтение и величие приносят страдание, подобно телу"?
Я потому испытываю большие страдания, что имею тело.
Если бы у меня не было тела, разве я испытывал бы какие-либо страдания?
Вот почему, тому, кто ценит тело так же, как Поднебесную,
пожалуй, можно доверить Поднебесную.
Кто любит тело так же, как Поднебесную,
на того, пожалуй, можно возложить Поднебесную.

[94t14c] **А. Е. Лукьянов**
Смотрю на него - не вижу, именем называю "невидимый".
Слушаю его - не слышу, именем называю "беззвучный".
Ловлю его - не обретаю, именем называю "сокрытый".
Эти три нельзя разграничить, потому как смешаны и образуют одно-единое.
Его верх не светлый, его низ не темный, непрерывно вьется, [его] невозможно наименовать.
[Оно] нашло пристанище в невещественном.
Это и есть изображение без изображения, образ без плоти.
Это и есть туманная смесь.
Иду навстречу ему - не вижу его лица (головы).
Следую за ним - не вижу его спины (хвоста).
Только неуклонно следуя древнему Дао, чтобы править ныне существующим, можно познать древнее начало.
Это и есть уток (путеводная нить) Дао.

[94t15c] **А. Е. Лукьянов**
В древности те, кто, воплощая доброту (шань), стали учеными мужами (ши), проникли в сокровенно-тайное первоначало.
[Они] сокрылись в такой глубине, что [их] невозможно постичь.
А так как невозможно постичь, насколько способен, даю их описание в образах:
Предусмотрительно-чутки [они], будто зимой переходят реку [по тонкому льду].
Осторожно-расчетливы, будто страшатся соседей со всех четырех сторон.
Благоговейно-почтенны они, подобно всеобъемлющему.
Светло-блестящи, словно подтаявший лед.
Сердечно-естественны, как духовная простота (пу).
Открыто-широки, подобно долине.
Как первозданный хаос, они подобны мутному.
Любой из них может, будучи мутным, успокоить себя и постепенно очиститься.

Любой из них может, будучи спокойным, привести себя в вечное движение и постепенно родиться.
Однако тот, кто хранит это Дао, не страждет наполнения.
А так как не наполняется, то может сокрыться и заново не рождаться.

[94t16c] **А. Е. Лукьянов**
Достиг предела пустоты, сохраняю покой и (душевную) чистоту.
Вещи попарно творятся, а я созерцаю их возвращение.
Вещей многое множество, но каждая возвращается к их общему корню.
Возвращение к корню называю покоем,
покой называю судьбой возвращения;
судьбу возвращения называю постоянством.
Знание постоянства называю просветленностью.
Незнание постоянства называю безрассудством, творящим зло.
Знающий постоянство всеобъемлющ.
Всеобъемлющий и есть гун-правитель.
Гун-правитель и есть Ван-царь.
Ван-царь и есть Небо.
Небо и есть Дао.
Дао и есть вечность.
Бестелесное не истощается.

[94t17c] **А. Е. Лукьянов**
Лучший правитель тот, о котором низы знают лишь то, что есть таковой.
Хуже его тот, с которым роднясь, превозносят его.
Хуже этого тот, которого боятся.
И всех хуже тот, которого презирают.
"Недоверие питает неверие!"
О, как трогательно глубоки эти драгоценные слова!
Успешно завершаю последовательность дел, и все сто родов человеческих называют меня
естественностью (цзы жань).

[94t18c] **А. Е. Лукьянов**
Когда отбрасывается Великое Дао,
появляются Жэнь (Человеколюбие) и И (Долг).
Когда вылезают мудрствование и умничанье,
появляется большая ложь.
Когда шесть родственников в раздоре,
появляются сыновняя почтительность и отцовская любовь.
Когда в стране и царствующем доме смута и беспорядок,
появляются верные слуги.

[94t19c] **А. Е. Лукьянов**
Когда отбросят мудрость, забудут умничанье,
народу польза во сто крат.
Когда отбросят Жэнь (Человеколюбие), забудут И (Долг),
народ возвратится к [естественной] сыновней почтительности и отцовской любви.

Когда отбросят искусность, забудут выгоду,
не будет воров и разбойников.
Эти три появляются от недостатка культуры (вэнь).
Поэтому владейте тем, что дано.
Внешне выглядите скромно, внутри сохраняйте первозданную духовную простоту, будьте бескорыстны и бесстрастны.

[94t20c] **А. Е. Лукьянов**
Отбросишь ученье, исчезнет и скорбь.
Насколько здесь одно отлично от другого?
Настолько ровно, насколько зло расходится с добром!
То, чего люди боятся, нельзя не бояться.
О ширь пустотная, без края и без центра!
Среди людей согласие, веселье, как будто делают Великое закланье в день наступления весны, когда она в свои владенья входит.
Один лишь я сокрыт в тиши без всяких признаков живого, подобный эмбриону, еще не ставшему ребенком.
В усталости скитаюсь по простору, как будто некуда пристать.
У всех людей достаток неизбывный, один лишь я как тот, кто все отверг.
Я сердце глупого.
О тьма космической утробы!
Миряне все сиянием полны, один лишь я во мраке мрачном.
Миряне любознательны в исканьях, один лишь я в безумной тьме.
[Вокруг] то безмятежность, которая подобна глади океана,
то ветра смерч, который не дает волнам остановиться.
В толпах людей везде есть применение разумным силам,
лишь я наивной глупостью подобен дикарю.
От всех других я отличаюсь тем, что Мать кормящую ценю.

[94t21c] **А. Е. Лукьянов**
Насыщенность пустого Дэ совпадает только с Дао.
Дао есть нечто туманное, неразличимое!
О, неразличимое!
О, туманное!
Внутри Его содержатся образы.
О, туманное!
О, неразличимое!
Внутри Его содержатся вещи.
О, глубокое!
О, сокровенное!
Внутри Его содержится семя-энергия (цзин).
Это семя-энергия в высшей степени подлинно, в нем содержится вера-доверие (синь).
С древности и поныне Его имя не исчезает, в Нем вижу Отца всего тварного.
Откуда я знаю, что Отец всего тварного таков?
Из того, что сказано.

[94t22c] **А. Е. Лукьянов**
Если есть ущербное, то есть и целостное.
Если есть кривое, то есть и прямое.
Если есть пустое, то есть и полное.
Если есть старое, то есть и новое.
Если есть недостаток, то есть и достаток,
Если есть большее, то есть и меньшее.
Вот почему совершенномудрый человек берет одно-единое за образец для Поднебесной.
Не выставляет себя эрудитом, поэтому просветлен.
Не считает себя правым, поэтому просвещен.
Не прославляет себя, поэтому доблестен.
Не восхваляет себя, поэтому главенствует.
Поскольку не соперничает, постольку и в Поднебесной нет таких, кто мог бы с ним соперничать.
В древности говорили: "Если есть ущербное, то есть и целостное".
Разве это пустые слова!
Поэтому искренне приемли совершенную целостность и возвращайся к ней.

[94t23c] **А. Е. Лукьянов**
Примолкни и следуй естественности.
Ведь порывистый ветер не дует все утро, ливневый дождь не льет весь день.
Тот, кто посылает их, - Небо и Земля.
Но Небо и Земля и те не могут делать это вечно, так куда уж человеку равняться с ними.
Вот почему:
тот, кто ведет дела в соответствии с Дао, тождествен Дао.
[Тот, кто ведет дела в соответствии] с Дэ, тождествен Дэ.
[Тот, кто ведет дела в соответствии] с утратой, тождествен утрате.
Того, кто тождествен Дао, Дао с радостью принимает его.
Того, кто тождествен Дэ, Дэ с радостью принимает его.
Того, кто тождествен утрате, утрата с радостью принимает его.
"Недоверие питает неверие".

[94t24c] **А. Е. Лукьянов**
Вставший на цыпочки не устоит прямо.
Сдвинувший ноги не тронется с места.
Кто выставляет себя эрудитом, не просветлен.
Кто считает себя правым, не просвещен.
Кто прославляет себя, не доблестен.
Кто восхваляет себя, не главенствует.
Все это, с позиции Дао, зовется избытком достатка и поведением раба.
Всяк ненавидит таких.
Поэтому тот, кто обладает Дао, с такими рядом не живет.

[94t25c] **А. Е. Лукьянов**
Есть нечто, хаос образующее, прежде Неба и Земли живущее.
Беззвучное!
Пустое!

Одиноко стоит, не изменяется, в себе самом вращается без устали.
Можно считать его Матерью Поднебесной.
Я не знаю его имени.
Даю ему прозвище - называю Дао.
Подбираю для него имя - называю Великим (Высоким).
Великое называю уходящим, уходящее называю удаляющимся,
удаляющееся называю возвращающимся.
Поэтому Дао велико, Небо велико, Земля велика, Ван-царь тоже велик.
Среди границ есть четверо великих, и Ван-царь один из них.
Человек берет за образец Землю.
Земля берет за образец Небо.
Небо берет за образец Дао.
Дао берет за образец естественность (цзы жань).

[94t26c] **А. Е. Лукьянов**
Тяжелое есть основа легкого.
Покой есть господин беспокойного.
Вот почему совершенномудрый человек, шагая весь день, не отходит от груженой повозки.
Хотя его и зовут во дворцы, он селится подобно свободно гнездящейся ласточке.
И что тут поделать, если хозяин десяти тысяч колесниц сам облегчает Поднебесную?
Если облегчает, то теряет основу.
Если спешит, то теряет царственность.

[94t27c] **А. Е. Лукьянов**
Искусный в передвижении не оставляет колеи и следов.
Искусный в речах не допускает изъянов и ошибок.
Искусный в счете не пользуется счетными таблицами.
Искусный закрывать не запирает на ключ, но открыть невозможно.
Искусный связывать не вяжет веревкой, но развязать невозможно.
Вот почему совершенномудрый человек искусностью постоянства (постоянным добром) спасает людей и таким образом не отвергает людей;
искусностью постоянства (постоянным добром) спасает вещи и таким образом не отвергает вещи.
Это и есть практическое осуществление просветленности.
Вот почему искусные люди - учителя неискусных людей,
неискусные люди - ученики искусных людей.
Не почитайте своих учителей, не любите своих учеников.
Хотя это и разумеют как большое заблуждение, в действительности [оно] есть требование сокровенно-тайного [Дао].

[94t28c] **А. Е. Лукьянов**
Кто знает свое женское, хранит свое мужское, становится ложбиной Поднебесной.
Ставшего ложбиной Поднебесной постоянное Дэ не оставляет и возвращает в [состояние] младенца.
Кто знает свое белое, хранит свое черное, становится образцом для Поднебесной.
Ставшему образцом Поднебесной постоянное Дэ не наносит вреда и возвращает в беспредельное.
Кто знает свою славу, хранит свой позор, становится руслом Поднебесной.
Ставшим руслом Поднебесной постоянное Дэ овладевает во всей полноте и возвращает в духовную

простоту (пу).
Духовная простота рассеивается и становится правилом-предметом.
Совершенномудрый человек использует его и становится чиновным вождем.
Вот почему Великое правление не разрушается.

[94t29c] **А. Е. Лукьянов**
[Положим, некто] одержим страстью овладеть Поднебесной и воздействовать на нее.
А мне ясно: у него ничего не получится.
Поднебесная - это духовный сосуд, на него нельзя воздействовать.
Тот же, кто будет воздействовать, разрушит его.
А тот, кто будет удерживать, потеряет его.
Ведь искони устроено так:
из существ одни идут, другие следуют за ними,
одни фыркают, другие трубят,
одни усиливаются, другие истощаются,
одни хищники, другие жертвы.
Вот почему совершенномудрый человек отказывается от излишеств,
отказывается от роскоши, отказывается от расточительности.

[94t30c] **А. Е. Лукьянов**
Тот, кто посредством Дао помогает государю,
не использует солдат, чтобы насиловать Поднебесную,
ибо такое действие вызывает противодействие.
Места, где побывали войска, зарастают колючками и терновником,
после скопища армий непременно наступают лихие годы.
Искусный (добрый) добился успеха - и все,
[он] не дерзнет прибегнуть к насилию.
Добился успеха и не бахвалится.
Добился успеха и не карает.
Добился успеха и не своевольничает.
Добился успеха и не взимает.
Добился успеха и не прибегает к насилию.
Если вещь должна быть в расцвете сил, а стара,
значит, она не-Дао.
Не-Дао рано умирает.

[94t31c] **А. Е. Лукьянов**
Превосходное войско - орудие несчастья, любой из людей ненавидит его.
Поэтому обладающие Дао не состоят в нем.
Если благородный муж на мирной службе, то поддерживает левых.
Если на военной службе, то поддерживает правых.
Войско - орудие несчастья и не орудие благородного мужа.
Если вопреки желанию приходится все-таки использовать его,
то сверх всего ставь равнодушие к славе и выгоде.
Одержав победу, не считай это прекрасным.
А если сочтешь это прекрасным, то, значит, радуешься убийству людей.

Кто радуется убийству людей, тот не сможет добиться своих целей в Поднебесной.
Служение счастью относится к левому.
Служение злу относится к правому.
Противостоящие командующим войсками занимают позицию левых.
Идущие в командующие войсками занимают позицию правых.
Правильно говорят, что следует встречать их (войско) похоронным ритуалом.
Всех убитых людей следует горестно и скорбно оплакивать.
Военную победу нужно встречать похоронным ритуалом.

[94t32c] **А. Е. Лукьянов**
Дао постоянно и безымянно.
(Вариант перевода: Дао именуется постоянным небытием.)
Духовное естество хотя и младенчески слабое (маленькое),
никто в Поднебесной не может подчинить [его] себе.
Если хоу и ваны смогут блюсти его, то мириады вещей сами покорятся.
Небо сочетается в браке с Землей, ниспадая сладкой росой.
Людям никто не приказывает, и все само по себе уравновешивается.
С началом насильственного правления появились имена.
И поскольку имена уже есть, постольку нужно знать, как пресечь (искоренить) [их].
Зная то, как пресечь [имена], можем избежать гибели.
Тому пример: когда Дао находится в Поднебесной, это подобно стоку ручьев и рек в Цзян и Море.

[94t33c] **А. Е. Лукьянов**
Познавший других - мудр, познавший себя - просветлен.
Победивший других - силен, победивший себя - могуществен.
Познавший достаток - богат, вынуждающий действовать - обладает волей.
Не потерявший своего места [в жизни] - вечен,
отдавший жизнь, но не забытый - увековечен.

[94t34c] **А. Е. Лукьянов**
Великое Дао разлито повсюду, оно может быть и слева и справа.
Мириадам вещей оно служит опорой и, порождая [их], не уклоняется от этого;
успешно завершает и остается безвестным;
одевает и пестует мириады вещей и не становится их властелином.
[Оно] постоянно остается бесстрастным,
(Вариант перевода: [Оно] стремится к постоянному небытию,)
можно назвать его маленьким.
Мириады вещей возвращаются к нему и не считают его властелином,
можно назвать его великим.
Оно вообще не считает себя великим,
поэтому и может возвышаться в своем величии.

[94t35c] **А. Е. Лукьянов**
К тому, кто держит Великий Образ, приходит вся Поднебесная.
Приходит и не испытывает вреда, находит благополучие, мир, уважение, радость и угощение;
забредший путник и тот остается.

Дао выходит изо рта, пресное, оно без вкуса.
Смотришь на него и не можешь увидеть.
Слушаешь его и не можешь услышать.
Используешь его и не можешь исчерпать.

[94t36c] **А. Е. Лукьянов**
Чтобы нечто сжать, необходимо прежде расширить его.
Чтобы нечто ослабить, необходимо прежде усилить его.
Чтобы нечто уничтожить, необходимо прежде взрастить его.
Чтобы нечто отнять, необходимо прежде дать его.
Это и называется сокровенно-глубокой просветленностью.
Мягкое и слабое побеждает твердое и сильное.
Как рыбе нельзя уйти из глубин, так и методам управления государством не должно обучать людей.

[94t37c] **А. Е. Лукьянов**
Дао постоянно не деяет и не не-деяет.
Если хоу и ваны смогут блюсти его, то мириады вещей будут сами собою развиваться.
[Но если кто] наравне с развитием вдруг возжелает еще и мастерить,
я обуздаю того безымянным духовным естеством (пу).
Само же безымянное духовное естество по-прежнему останется бесстрастным.
[Его] бесстрастие приведет к покою, и Поднебесная сама собою утвердится.

[94t38c] **А. Е. Лукьянов**
Верхняя Дэ не Дэ, поэтому обладает Дэ.
Нижняя Дэ не теряет Дэ, поэтому не обладает Дэ.
Верхняя Дэ не деяет и не обладает деянием.
Нижняя Дэ деяет и обладает деянием.
Верхняя Жэнь деяет и не обладает деянием.
Верхняя И деяет и обладает деянием.
Если верхняя Ли что-то деяет, но никто ей не откликается, то засучи рукава и выброси ее.
Вот почему после потери Дао следует Дэ;
после потери Дэ следует Жэнь;
после потери Жэнь следует И;
после потери И следует Ли.
Ли - это ничтожность преданности Синь (Доверию) и начало смуты.
Только что представленная [вам норма Ли] - это цветок Дао и начало тупости.
Поэтому великий муж там, где Дао обильно, а не там, где ничтожно;
там, где плод, а не там, где его цветок.
Вот почему отбрасывает одно, избирает другое.

[94t39c] **А. Е. Лукьянов**
Вот те, кто в древности обрели единство:
Небо обрело единство чистотой,
Земля обрела единство незыблемостью,
дух обрел единство духовностью (лин),
лоно [Поднебесной] обрело единство полнотой,

мириады вещей обрели единство рождением,
хоу и ваны обрели единство, став воплощением честности для Поднебесной.
Они достигли этого.
Небо, не став чистым, боюсь, может лопнуть.
Земля, не став незыблемой, боюсь, может рассыпаться.
Дух, не став одухотворенным, боюсь, может истощиться.
Мириады вещей, не рождаясь, боюсь, могут исчезнуть.
Хоу и ваны, не став ценимыми и высокопочитаемыми, боюсь, могут оступиться.
Основой дорогого (благородного) является дешевое (худородное).
Основой высокого является низкое.
Поэтому хоу и ваны называют себя сирыми, одинокими, несчастными.
Это не оттого ли, что дешевое (худородное) является основой?
А разве нет?!
Однако если за несколькими колесницами погонишься, ни одну не догонишь.
Не желай сверкать словно драгоценная яшма, будь блеклым, как простой камень.

[94t40c] **А. Е. Лукьянов**
Переход в противоположность (опрокидывание) - движение Дао, ослабление - действие Дао.
Мириады вещей Поднебесной рождаются в бытии, бытие рождается в небытии.

[94t41c] **А. Е. Лукьянов**
Муж высокой учености, услышав о Дао, усердно следует ему.
Муж средней учености, услышав о Дао, то сохраняет, то теряет его.
Муж низкой учености, услышав о Дао, громко насмехается над ним.
Не осмеяв, и не будет считать за Дао, ибо среди незыблемых суждений есть таковые:
Светлое Дао подобно темному.
Наступающее Дао подобно отступающему.
Совершенное Дао подобно ущербному.
Верхнее Дэ подобно [нижнему] руслу.
Громкая слава подобна позору.
Обширное Дэ подобно недостаточному.
Закрытое Дэ подобно похищенному.
Чистая правда подобна мутной смеси.
Великий квадрат не имеет углов.
Великие замыслы рождаются в сумерки.
Великий звук не громогласен.
Великий образ не имеет формы.
Дао сокрыто и безымянно.
Только Дао одаривает добротой и завершается [природой].

[94t42c] **А. Е. Лукьянов**
Дао рождает один.
Один рождает два.
Два рождает три.
Три рождает десять тысяч вещей.
Вещи несут за плечами инь и на руках держат ян.

Пустота-энергия образует [условие их] гармонии (согласия).
То, что люди ненавидят, это быть сирыми, одинокими, несчастными.
А ваны и гуны называют себя так.
Это потому, что из вещей одни, ослабляя себя, усиливают себя,
другие, усиливая себя, ослабляют себя.
Чему надо научить людей, тому именно я и учу.
Тот же, кто препятствует [этому], не умирает своей смертью.
Я вскоре стану Отцом Учения.

[94t43c] **А. Е. Лукьянов**
То, что в Поднебесной стало мягким, гонит то, что в Поднебесной стало твердым.
Небытие и бытие входят в неразрывное пространственно-временное единство.
Вот откуда я знаю, что недеяние имеет пользу.
Обучать без слов, приносить пользу недеянием -
редко кто в Поднебесной достиг этого.

[94t44c] **А. Е. Лукьянов**
Имя или тело, что роднее?
Тело или богатство, что дороже?
Обретение или утрата, что больнее?
Вот почему кто чрезмерно скуп, непременно понесет большие убытки;
кто безмерно накапливает, непременно потерпит немалую утрату.
Знающий меру не опозорится.
Знающий предел не подвергнется опасности.
Такие смогут быть долговечными.

[94t45c] **А. Е. Лукьянов**
Великое совершенство подобно несовершенству, они действуют неустанно.
Великая полнота подобна пустоте, они действуют неистощимо.
Великая прямота подобна кривизне.
Великая искусность подобна неискусности.
Великое красноречие подобно косноязычию.
Движение побеждает холод, покой побеждает жару.
Чистота и покой образуют прямизну Поднебесной.

[94t46c] **А. Е. Лукьянов**
Когда Дао находится в Поднебесной, пасущиеся кони унавоживают землю.
Когда в Поднебесной нет Дао, боевые кони кормятся в предместье.
Нет большей беды, чем незнание меры.
Нет большего бедствия, чем страсть к выгоде.
Вот почему знание меры в мере есть постоянная мера.

[94t47c] **А. Е. Лукьянов**
Не выходя за дверь, познаю Поднебесную.
Не выглядывая в окно, вижу небесное Дао.
Чем дальше идешь, тем меньше знаешь.

Вот почему совершенномудрый человек не ходит, а познает;
не смотрит, но именует;
не деяет, но создает.

[94t48c] **А. Е. Лукьянов**
Кто посвящает себя учебе, с каждым днем прибавляет.
Кто посвящает себя Дао, с каждым днем уменьшает.
Уменьшает и уменьшает до тех пор, пока не достигнет недеяния: недеяния и не недеяния.
Чтобы овладеть Поднебесной, постоянно осуществляй неслужение (бездействие).
А кто прибегнет к службе (делам), тому не достанет того, чтобы овладеть Поднебесной.

[94t49c] **А. Е. Лукьянов**
Совершенномудрый человек не имеет обычного сердца
и сердца ста родов человеческих делает [своим] сердцем.
Кто добр, я к тому отношусь с добром.
Кто не добр, я к тому также отношусь с добром.
В этом проявляется доброта Дэ.
Кто доверяет, я к тому отношусь с доверием.
Кто не доверяет, я к тому также отношусь с доверием.
В этом проявляется доверие Дэ.
Когда совершенномудрые люди находятся в Поднебесной, [они] ради Поднебесной вдыхают хаос своим сердцем,
и все совершенномудрые люди становятся ее детьми.

[94t50c] **А. Е. Лукьянов**
Приходят жизнью, уходят смертью.
Придут жизнью тринадцать, уйдут смертью тринадцать, из живущих людей движущихся к месту смерти тоже тринадцать.
Почему это так?
Из-за их обильного рождения и размножения.
Как-то слыхал, что тот, кто искусно (посредством добра-шань) управляет жизнью, идя по суше, не избегает носорогов и тигров,
вступая в бой, неуязвим для латников.
Носорогу некуда вонзить свой рог, тигру некуда запустить свои когти,
латнику некуда ударить своим мечом.
Почему это так?
Потому что у него нет места смерти [ни на нем, ни на земле].

[94t51c] **А. Е. Лукьянов**
Дао рождает их, Дэ пестует их, вещество оформляет их, условия завершают их.
Поэтому среди мириад вещей нет таких, которые не почитали бы Дао и не ценили Дэ.
Дао почитаемо, Дэ ценимо, нет над ними судьбы, они в постоянной естественности.
Дао рождает вещи, Дэ пестует их, растит их, воспитывает их, классифицирует их, упорядочивает их, вскармливает и оберегает их.
Порождающее и не обладающее [ими],
возделывающее и ни на что не опирающееся,

главенствующее и не карающее -
это и есть изначально-сокровенное Дэ.

[94t52c] **А. Е. Лукьянов**
Поднебесная имеет начало, и оно есть Мать Поднебесной.
Достигнешь Матери - познаешь и ее детей.
Познаешь ее детей - вернешься и к сохранению их Матери.
Бестелесное не истощается.
Закроешь своих чувств отверстия, запрешь к ним доступ извне -
до конца жизни не будешь испытывать страданий.
Откроешь своих чувств отверстия, направишь их на пользу дела, -
вовек не отыщешь спасения.
Видение малого называю просветленностью.
Сохранение мягкости называю могуществом.
Пользуйся этим светом, возвращайся к этой просветленности
(Вариант перевода:
Станешь младенцем - назову просветленным.
Сохранишь мягкость - назову могущественным.
Пользуйся его светом, возвращайся к его просветленности)
и тогда не обречешь себя на погибель.
Это и есть овладение постоянством.

[94t53c] **А. Е. Лукьянов**
Для того чтобы я твердо овладел знанием, последую за Великим Дао.
И только петляний надо бояться.
Великое Дао - словно широкий путь, а люди любят тропинки.
Аудиенции совсем прекращены, поля сплошь заросли, амбары до дна опустели.
[А правители] одеваются в красочные шелка,
препоясываются острыми мечами, пресыщаются питьем и едой, богатства копят с излишком.
Все это - грабеж и разврат, не-Дао.

[94t54c] **А. Е. Лукьянов**
Что установлено твердыней - того не искоренить.
Что незыблемо соблюдается - с тем не порвать.
Вот почему сыновья и внуки продолжают непрестанно приносить ритуальные жертвы предкам.
Кто совершенствует это в себе - его Дэ подлинно.
Кто совершенствует это в семье - его Дэ еще полнее.
Кто совершенствует это в селении - его Дэ еще больше.
Кто совершенствует это в царстве - его Дэ еще пышнее.
Кто совершенствует это в Поднебесной - его Дэ всеобще.
Поэтому:
по себе сужу о себе,
по семье сужу о семье,
по селению сужу о селении,
по царству сужу о царстве,
по Поднебесной сужу о Поднебесной.

Откуда я знаю, что Поднебесная такова?
Из того, что сказано.

[94t55c] **А. Е. Лукьянов**
Таящий в себе полноту Дэ подобен новорожденному:
ядовитые насекомые и змеи не ужалят, свирепые звери не схватят, хищные птицы не унесут.
Кости [у него] нежные, мышцы мягкие, но цепляется [он] накрепко.
Не знает союза самца и самки, но все творит -
это совершенство семени-энергии (цзин).
Весь день голосит, но не хрипнет -
это совершенство созвучия (гармонии).
Знание созвучия называю постоянством.
Знание постоянства называю просветленностью.
Богатую жизнь называю счастьем.
Управление сердцем (разумом) энергией (ци) называю могуществом.
Если вещь в расцвете сил, а стара, называю это не-Дао.
Не-Дао рано умирает.

[94t56c] **А. Е. Лукьянов**
Знающий не говорит, говорящий не знает.
[О бездна-пучина, подобная Пращуру мириад вещей!]
Закрывает свое лоно, затворяет свои врата,
стихает ее стремительность, слабеют ее путы,
умеряется ее свечение, осаждается ее пыль -
это и называется изначально-сокровенным тождеством.
А потому:
[с Ним] невозможно соединиться,
[от Него] невозможно и отделиться.
[Ему] нельзя принести пользу,
[Ему] невозможно нанести и вред.
[Его] невозможно сделать дорогим,
[Его] невозможно сделать и дешевым.
Поэтому [изначально-сокровенное тождество] и является ценностью для Поднебесной.

[94t57c] **А. Е. Лукьянов**
Царство управляется прямотой.
Война ведется хитростью.
Поднебесная берется бездействием.
Откуда я знаю, что это так?
Исходя из следующего:
когда в Поднебесной растет число запретов и табу,
народ все более беднеет;
когда у народа растет число острого оружия,
в царстве и царствующем доме все больше смут;
когда растет число людей умелых и искусных,
все больше возникает невиданных вещей;

когда множатся статьи законов и приказов,
все больше появляется воров и разбойников.
Вот почему совершенномудрый человек говорит:
"Я не деяю, и народ сам развивается.
Я совершенно спокоен, и народ сам выпрямляется.
Я не служу, и народ сам богатеет.
Я бесстрастен, и народ сам становится простым".

[94t58c] **А. Е. Лукьянов**
Кто правит, сокрывшись и молча, у того и народ добр и прост.
Кто правит, взыскуя с пристрастием, у того и народ в непомерной нужде.
О, несчастье - опора счастья!
О, счастье - ложе несчастья!
Кто знает этому предел?
Он в отсутствующей здесь прямоте.
Прямота превратилась в хитрость, добро превратилось в зло.
Людские заблуждения день ото дня все более укореняются и дольше держатся.
Вот почему совершенномудрый человек образует квадрат-(совершенство) без выкройки по образцу,
[он] бескорыстен и не алчен, справедлив и не своеволен, светел и не блестит.

[94t59c] **А. Е. Лукьянов**
В управлении людьми и служении Небу-Отечеству нет ничего лучшего, чем бережливость.
Если проявить бережливость - значит, заблаговременно позаботиться.
Заблаговременно позаботиться - значит, вдвое приумножить Дэ.
Если вдвое приумножить Дэ, то не будет непреодолимого.
Если не будет непреодолимого,
то никому не будет известен и его предел.
Если никому не будет известен его предел,
то можно овладеть царством.
Овладев Матерью-Родиной царства,
можно стать долговечным [вождем].
(Вариант перевода: можно обеспечить долговечность [царству].)
Это и называется глубоким истоком, прочным корнем, вечно живущим и вечно существующим Дао.

[94t60c] **А. Е. Лукьянов**
Управление великим царством подобно приготовлению мелкой рыбы.
Тот, кто посредством Дао служит Поднебесной,
у того душа не [ранит (?)] дух.
И не только его душа не [ранит (?)] дух,
но и его дух не ранит людей.
Да и не только его дух не ранит людей,
но и совершенномудрый человек тоже не ранит людей.
А поскольку обе стороны не ранят друг друга,
то они связаны друг с другом Дэ (Добродетелью).

Великое царство - это низовье реки,
это связь Поднебесной, это Самка Поднебесной.
Самка всегда спокойствием побеждает самца, тихо ложась внизу.
Поэтому если великое царство ляжет под малое царство,
то овладеет малым царством.
Если малое царство ляжет под великое царство,
то овладеет великим царством.
Поэтому одно стремится лечь внизу, чтобы овладеть, другое лежит внизу и овладевает.
Великое царство желает лишь принять заботу о людях,
малое царство желает лишь впустить людей для дела.
Из них каждое получает то, что желает.
Великому полагается быть внизу.

[94t62c] **А. Е. Лукьянов**
Дао - таинственная основа мириад вещей,
драгоценность добрых людей, защита от недобрых людей.
Красивыми речами, конечно, можно заворожить толпу на базарной площади.
Благопристойным поведением, конечно, можно возвыситься над другими.
Однако как же избавиться от того недоброго, что глубоко таится в людях?
Для этого утверждают на престоле Сына Неба и назначают трех гунов.
Они хотя и держат в руках символы власти и ездят в экипажах,
запряженных четверками лошадей, но все же не лучше ли [им] воссесть и ехать на самом Дао!
Почему в древности ценили это Дао?
Безгласные через него получали необходимое,
а совершившие злодеяние через него искореняли вредное.
Вот почему [оно] было ценностью для Поднебесной.

[94t63c] **А. Е. Лукьянов**
Деяй недеяние, служи неслужбу, вкушай безвкусное,
в величии и ничтожестве, в достатке и недостатке
на зло ответь Дэ (Добродетелью).
Планирование трудного начинается с самого легкого.
Созидание великого начинается с самого малого.
Трудные дела Поднебесной непременно начинаются с легкого.
Великие дела Поднебесной непременно начинаются с малого.
Вот почему совершенномудрый человек никогда не стремится к величию, поэтому может создать свое величие.
Кто легко обещает, непременно теряет доверие.
Кто умножает легкое, непременно умножает трудное.
Вот почему совершенномудрый человек относится ко всему как к трудному, поэтому никогда не испытывает трудностей.

[94t64c] **А. Е. Лукьянов**
Умиротворенное состояние легко поддерживается.
Еще не проявившее признаков легко предугадывается.
Хрупкое легко растворяется.

Мелкое легко рассеивается.
Принимай меры, пока еще не произошло событие.
Наводи порядок, пока еще не наступил хаос.
Дерево толщиной в обхват вырастает из былинки.
Девятиэтажная башня начинается с горстки земли.
Путь в тысячу ли начинается с первого шага.
Кто деяет - вредит всему.
Кто удерживает - теряет все.
Вот почему совершенномудрый человек не деяет,
поэтому не терпит неудач, не удерживает, поэтому не теряет.
Люди, идя на дело, часто, еще только приступив, уже все портят.
Если будешь осторожным в конце, как и в начале, то не навредишь делу.
Вот почему совершенномудрый человек страждет бесстрастия,
не ценит трудно добываемого богатства, учит неучение,
возвращается к тому, что пройдено многими людьми,
опирается на естественность мириад вещей и не смеет деять.

[94t65c] **А. Е. Лукьянов**
В древности те, кто были совершенным воплощением Дао,
не просвещали народ и стремились держать его в темноте.
Народом трудно управлять, если у него много знаний.
Вот почему, если с помощью знаний управлять царством, то царство погибнет;
если без помощи знаний управлять царством, то царство будет процветать.
Знание этих двух положений и есть уставный образец [правления].
Знание уставного образца с позиции постоянства (чан) -
это и есть изначально-сокровенное Дэ.
Изначально-сокровенное Дэ глубоко, далеко!
В сопоставлении с вещами - противоположность.
Вот только в таком [соположении] и достигается великое послушание (следование).

[94t66c] **А. Е. Лукьянов**
Реки и моря потому могут быть царями ста долин,
что они с легкостью ставят себя ниже их.
Вот почему [они] могут быть царями ста долин.
Поэтому, желая встать над народом, непременно говори, что ты ниже его.
Желая встать впереди народа, непременно ставь себя позади него.
Вот почему совершенномудрый человек, утверждаясь наверху,
народу не в тягость, находясь впереди, народу не вредит.
Оттого-то Поднебесная с радостью выдвигает [его],
не отворачивается [от него] и с ним не борется.
Поэтому в Поднебесной нет таких, кто мог бы с ним бороться.

[94t67c] **А. Е. Лукьянов**
В Поднебесной все называют мое Дао Великим, в подобии [ничему] не подобным.
А поскольку велико, поэтому в подобии [ничему] и не подобно.
Если уподобить [его] вечности, то и она будет крошечной.

Я имею три драгоценности, держусь их и дорожу ими.
Первая называется "милосердие",
вторая - "простота",
третья - "не смею встать впереди Поднебесной".
Милосерден, поэтому могу быть мужественным.
Прост, поэтому могу быть широким.
Не смею встать впереди Поднебесной, поэтому могу быть духовным вождем.
Ныне тому,
кто отбрасывает милосердие, а мужествен,
кто отбрасывает простоту, а широк,
кто отбрасывает то, чтобы встать сзади, а становится впереди, -
смерть!
Если, питая милосердие, начнешь войну - победишь.
Если организуешь оборону - будет крепка.
Небо поможет такому, милосердие защитит его.

[94t68c] **А. Е. Лукьянов**
Лучший из воинов не прибегает к силе.
Искусный в ратном деле не гневен.
Способный побеждать врага с ним не соприкасается.
Умелый в использовании людей ставит себя ниже их.
Это и называется не ведущей борьбы Дэ.
Это и называется использованием силы других.
Это и называется сочетанием с Древним Пределом Неба.

[94t69c] **А. Е. Лукьянов**
У полководцев есть такое клятвенное изречение:
"Я не посмею стать хозяином, а буду гостем;
я не посмею двинуться на цунь вперед, а отступлю на чи назад".
Это означает:
двигаться без движения,
отбиваться без рукопашной,
метать в отсутствующего врага,
сдерживать без солдат.
Нет большей беды, чем опрометчивый противник.
Опрометчивый противник сводит на нет мою драгоценность [милосердия].
Вот почему именно в обороне войска добиваются превосходства друг над другом.
Выигрывает милосердный.

[94t70c] **А. Е. Лукьянов**
Мои слова очень легко понять, очень легко [им] следовать.
Но в Поднебесной нет таких, кто мог бы понять, кто мог бы последовать.
В словах есть предок, в делах есть царь.
Поскольку [этого] не знают, постольку и меня не понимают.
Понимающие меня - редки, подражающие мне - ценны.
Вот почему у совершенномудрого человека сверху рубище, внутри яшма.

[94t71c] **А. Е. Лукьянов**
Знание незнания - высшее, незнание знания - изъян.
Однако отношение к изъяну как изъяну не является изъяном.
Совершенномудрый человек без изъяна,
так как он относится к изъяну как изъяну.
Вот почему он без изъяна.

[94t72c] **А. Е. Лукьянов**
Когда народ не боится власти, тогда и приходит великая власть.
Не оскверняй его жилища, не вреди тому, чем он живет.
Если не будешь вредить, не будет и вреда.
Вот почему совершенномудрый человек,
себя познав, себя не выставляет эрудитом;
собою дорожа, себя не ценит высоко.
И потому отбрасывает одно, избирает другое.

[94t73c] **А. Е. Лукьянов**
Храбрый и безрассудно-дерзкий останется без головы.
Храбрый, но не безрассудно-дерзкий останется в живых.
Из этих двух одно означает пользу, другое вред.
Небу нечто ненавистно, а разве кто знает причину этого?
Поэтому и совершенномудрый человек тоже затрудняется в ответе на это.
Дао Неба не борется, но легко побеждает;
не говорит, но дружески откликается;
не призывается, но само приходит;
чисто-спокойно, но искусно в замыслах.
Сеть Неба широка и редка, но ничего не упускает.

[94t74c] **А. Е. Лукьянов**
Если люди не боятся смерти, то зачем же пугать их смертью?
Если было бы так, что люди постоянно боялись бы смерти и творили зло,
а я хватал бы и казнил, то кто посмел бы [нарушить закон]!
Всегда есть тот, кто отвечает за казнь и казнит.
Но если заменить собой того, кто отвечает за казнь и казнит,
то это все равно, что заменить великого мастера рубить.
Тот, кто заменит великого мастера рубить, редко когда не поранит себе руку.

[94t75c] **А. Е. Лукьянов**
Народ голодает, потому что налоги на содержание верхов велики.
Вот почему [он] голодает.
Народом трудно управлять, если верхи деятельны.
Вот почему трудно управлять.
Народ презирает смерть, потому что требования стоящих над ним верхов к жизни чрезмерны.
Вот почему презирает смерть.
Только тот, кто не считается с жизнью, мудр в оценке жизни.

[94t76c] **А. Е. Лукьянов**
Человек при рождении мягок и слаб, при наступлении смерти он крепок и силен.
Среди вещей трава и деревья при рождении мягкие и хрупкие,
при наступлении смерти пожухлые и сухие.
Поэтому крепкость и сила - спутники смерти,
мягкость и слабость - спутники жизни.
Вот почему, если войско сильное, оно не победит,
если дерево могучее, его срубят.
Сильное и большое уходит вниз,
мягкое и слабое пробивается наверх.

[94t77c] **А. Е. Лукьянов**
Небесное Дао подобно натягиванию лука:
верх в нем опускается, низ в нем поднимается,
излишек в нем сокращается, недостаток в нем восполняется.
Дао Неба сокращает излишек и восполняет недостаток.
Если же взять человеческое Дао, то здесь не так:
[оно] изымает, где недостаток, и отдает туда, где избыток.
Кто же может, имея избыток, отдать его Поднебесной?
Только тот, в ком [небесное] Дао.
Вот почему совершенномудрый человек возделывает и ни на что не опирается,
успешно завершает и не ставит себе это в заслугу.
Он не желает выглядеть мудрым (достойным).

[94t78c] **А. Е. Лукьянов**
В Поднебесной нет ничего мягче и слабее воды.
Но ничто из устойчивого, крепкого и сильного не может победить ее.
Согласно этому нет ничего, что могло бы изменить следующее:
"Слабое побеждает сильное, мягкое побеждает твердое".
В Поднебесной нет таких, кто не знал бы этого, но нет и таких, кто мог бы последовать этому.
Вот почему совершенномудрые люди говорят:
"Тот, кто принял на себя позор царства,
становится главой страны и трона (земли и злаков).
Тот, кто принял на себя беды царства,
становится ваном Поднебесной".
Истинное высказывание подобно парадоксу.

[94t79c] **А. Е. Лукьянов**
После усмирения большого недовольства непременно остается недовольство.
Успокоить всех можно посредством добра.
Поэтому совершенномудрый человек, соблюдая договор, не взыскивает с людей.
Обладающий Дэ руководствуется договором.
Не обладающий Дэ руководствуется взиманием налогов.
Дао Неба не роднится с таким, [оно] постоянно с человеком добра.

[94t80c] **А. Е. Лукьянов**

Пусть царства станут маленькими, а население редким,
чтобы никакое имеющееся в неисчислимом множестве оружие не применялось,
чтобы люди под страхом смерти далеко не переселялись.
Хотя есть лодки и колесницы, пусть бы никто в них не садился.
Хотя есть латники, пусть бы никто не строился в боевые порядки.
Пусть люди вернутся к вязанию узелков на веревках и пользуются ими [вместо письма],
наслаждаются своей пищей и любуются своей одеждой,
спокойно себе живут и радуются своим обычаям.
Пусть соседние царства взирают друг на друга и слушают друг у друга пение петухов и лай собак,
а люди [этих царств] пусть доживают до глубокой старости и друг с другом не общаются.

[94t81c] **А. Е. Лукьянов**

Доверительные речи не красивы,
красивые речи не вызывают доверия.
Добрый (искусный) не спорит, спорящий не добр (не искусен).
Знающий не многознающ, многознающий не знающ.
Совершенномудрый человек не накапливает,
чем больше он делает для других, тем больше приобретает сам;
чем больше он отдает другим, тем больше получает сам.
Дао Неба - приносить пользу и не вредить.
Дао совершенномудрого человека - деять, но не соперничать.

[95t01c] **Ян Хин-шун**
Дао, которое может быть выражено словами, не есть постоянное дао.
Имя, которое может быть названо, не есть постоянное имя.
Безымянное есть начало неба и земли,
обладающее именем - мать всех вещей.
Поэтому тот, кто свободен от страстей, видит чудесную тайну [дао],
а кто имеет страсти, видит его только в конечной форме.
Оба они одного и того же происхождения, но с разными названиями.
Вместе они называются глубочайшими.
[Переход] от одного глубочайшего к другому -
дверь ко всему чудесному.

[95t02c] **Ян Хин-шун**
Когда все в Поднебесной узнают, что прекрасное является прекрасным, появляется и безобразное.
Когда все узнают, что доброе является добром, возникает и зло.
Поэтому
бытие и небытие порождают друг друга,
трудное и легкое создают друг друга,
длинное и короткое взаимно соотносятся,
высокое и низкое взаимно определяются,
звуки, сливаясь, приходят в гармонию,
предыдущее и последующее следуют друг за другом.
Поэтому совершенномудрый,
совершая дела, предпочитает недеяние;
осуществляя учение, не прибегает к словам;
вызывая изменения вещей, [он] не осуществляет их сам;
создавая, не обладает [тем, что создано];
приводя в движение, не прилагает к этому усилий;
успешно завершая [что-либо], не гордится.
Поскольку он не гордится, его заслуги не могут быть отброшены.

[95t03c] **Ян Хин-шун**
Если не почитать мудрецов, то в народе не будет ссор.
Если не ценить редких предметов, то не будет воров среди народа.
Если не показывать того, что может вызвать зависть, то не будут волноваться сердца народа.
Поэтому, управляя [страной], совершенномудрый делает сердца [подданных] пустыми, а желудки - полными.
[Его управление] ослабляет их волю и укрепляет их кости.
Оно постоянно стремится к тому, чтобы у народа не было знаний и страстей, а имеющие знания не смели бы действовать.
Осуществление недеяния всегда приносит спокойствие.

[95t04c] **Ян Хин-шун**
Дао пусто, но в применении неисчерпаемо.
О глубочайшее!
Оно кажется праотцем всех вещей.

Если притупить его проницательность,
освободить его от хаотичности,
умерить его блеск,
уподобить его пылинке,
то оно будет казаться ясно существующим.
Я не знаю, чье оно порождение, [я лишь знаю, что] оно предшествует небесному владыке.

[95t05c] **Ян Хин-шун**
Небо и земля не обладают человеколюбием и предоставляют всем существам возможность жить собственной жизнью.
Совершенномудрый не обладает человеколюбием и предоставляет народу возможность жить собственной жизнью.
Разве пространство между небом и землей не похоже на кузнечный мех?
Чем больше [в нем] пустоты, тем дольше [он] действует,
чем сильнее [в нем] движение, тем больше [из него] выходит [ветер].
Тот, кто много говорит, часто терпит неудачу,
поэтому лучше соблюдать меру.

[95t06c] **Ян Хин-шун**
Превращения невидимого [дао] бесконечны.
[Дао] - глубочайшие врата рождения.
Глубочайшие врата рождения - корень неба и земли.
[Оно] существует [вечно] подобно нескончаемой нити, и его действие неисчерпаемо.

[95t07c] **Ян Хин-шун**
Небо и земля - долговечны.
Небо и земля долговечны потому, что они существуют не для себя.
Вот почему они могут быть долговечными.
Поэтому совершенномудрый ставит себя позади других, благодаря чему он оказывается впереди.
Он пренебрегает своей жизнью, и тем самым его жизнь сохраняется.
Не происходит ли это от того, что он пренебрегает личными [интересами]?
Напротив, [он действует] согласно своим личным [интересам].

[95t08c] **Ян Хин-шун**
Высшая добродетель подобна воде.
Вода приносит пользу всем существам и не борется [с ними].
Она находится там, где люди не желали бы быть.
Поэтому она похожа на дао.
[Человек, обладающий высшей добродетелью, так же как и вода], должен селиться ближе к земле;
его сердце должно следовать внутренним побуждениям;
в отношениях с людьми он должен быть дружелюбным;
в словах должен быть искренним;
в управлении [страной] должен быть последовательным;
в делах должен исходить из возможностей;
в действиях должен учитывать время.
Поскольку [он], так же как и вода, не борется с вещами, [он] не совершает ошибок.

[95t09c] **Ян Хин-шун**
Лучше ничего не делать, чем стремиться к тому, чтобы что-либо наполнить.
Если [чем-либо] острым [все время] пользоваться, оно не сможет долго сохранить свою [остроту].
Если зал наполнен золотом и яшмой, то никто не в силах их уберечь.
Если богатые и знатные проявляют кичливость, они сами навлекают на себя беду.
Когда дело завершено, человек [должен] устраниться.
В этом закон небесного дао.

[95t10c] **Ян Хин-шун**
Если душа и тело будут в единстве, можно ли сохранить его?
Если сделать дух мягким, можно ли стать [бесстрастным] подобно новорожденному?
Если созерцание станет чистым, возможны ли тогда заблуждения?
Можно ли любить народ и управлять страной, не прибегая к мудрости?
Возможны ли превращения в природе, если следовать мягкости?
Возможно ли осуществление недеяния, если познать все взаимоотношения в природе?
Создавать и воспитывать [сущее];
создавая, не обладать [тем, что создано];
приводя в движение, не прилагать к этому усилий;
руководя, не считать себя властелином - вот что называется глубочайшим дэ.

[95t11c] **Ян Хин-шун**
Тридцать спиц соединяются в одной ступице, [образуя колесо],
но употребление колеса зависит от пустоты между [спицами].
Из глины делают сосуды,
но употребление сосудов зависит от пустоты в них.
Пробивают двери и окна, чтобы сделать дом,
но пользование домом зависит от пустоты в нем.
Вот почему полезность [чего-либо] имеющегося зависит от пустоты.

[95t12c] **Ян Хин-шун**
Пять цветов притупляют зрение.
Пять звуков притупляют слух.
Пять вкусовых ощущений притупляют вкус.
Быстрая езда и охота волнуют сердце.
Драгоценные вещи заставляют человека совершать преступления.
Поэтому совершенномудрый стремится к тому, чтобы сделать жизнь сытой, а не к тому, чтобы иметь красивые вещи.
Он отказывается от последнего и ограничивается первым.

[95t13c] **Ян Хин-шун**
Слава и позор подобны страху.
Знатность подобна великому несчастью в жизни.
Что значит, слава и позор подобны страху?
Это значит, что нижестоящие люди приобретают славу со страхом и теряют ее также со страхом.
Это и называется - слава и позор подобны страху.

Что значит, знатность подобна великому несчастью в жизни?
Это значит, что я имею великое несчастье, потому что я [дорожу] самим собой.
Когда я не буду дорожить самим собой, тогда у меня не будет и несчастья.
Поэтому знатный, самоотверженно служа людям, может жить среди них.
Гуманный, самоотверженно служа людям, может находиться среди них.

[95t14c] **Ян Хин-шун**
Смотрю на него и не вижу, а поэтому называю его невидимым.
Слушаю его и не слышу, поэтому называю его неслышимым.
Пытаюсь схватить его и не достигаю, поэтому называю его мельчайшим.
Не надо стремиться узнать об источнике этого, потому что это едино.
Его верх не освещен, его низ не затемнен.
Оно бесконечно и не может быть названо.
Оно снова возвращается к небытию.
И вот называют его формой без форм, образом без существа.
Поэтому называют его неясным и туманным.
Встречаюсь с ним и не вижу лица его, следую за ним и не вижу спины его.
Придерживаясь древнего дао, чтобы овладеть существующими вещами, можно познать древнее начало.
Это называется принципом дао.

[95t15c] **Ян Хин-шун**
В древности те, кто были способны к учености, знали мельчайшие и тончайшие [вещи].
Но другим их глубина неведома.
Поскольку она неведома, [я] произвольно даю [им] описание:
они были робкими, как будто переходили зимой поток;
они были нерешительными, как будто боялись своих соседей;
они были важными, как гости;
они были осторожными, как будто переходили по тающему льду;
они были простыми подобно неотделанному дереву;
они были необъятными подобно долине;
они были непроницаемыми подобно мутной воде.
Это были те, которые, соблюдая спокойствие, умели грязное сделать чистым.
Это были те, которые своим умением сделать долговечное движение спокойным содействовали жизни.
Они соблюдали дао и не желали многого.
Не желая многого, они ограничивались тем, что существует, и не создавали нового.

[95t16c] **Ян Хин-шун**
Нужно сделать [свое сердце] предельно беспристрастным, твердо сохранять покой, и тогда все вещи будут изменяться сами собой, а нам останется лишь созерцать их возвращение.
[В мире] - большое разнообразие вещей, но [все они] возвращаются к своему началу.
Возвращение к началу называется покоем, а покой называется возвращением к сущности.
Возвращение к сущности называется постоянством.
Знание постоянства называется [достижением] ясности, а незнание постоянства приводит к беспорядку и [в результате] к злу.
Знающий постоянство становится совершенным;

тот, кто достиг совершенства, становится справедливым;
тот, кто обрел справедливость, становится государем.
Тот, кто становится государем, следует небу.
Тот, кто следует небу, следует дао.
Тот, кто следует дао, вечен и до конца жизни [такой государь] не будет подвергаться опасности.

[95t17c] **Ян Хин-шун**
Лучший правитель тот, о котором народ знает лишь то, что он существует.
Несколько хуже те правители, которые требуют от народа его любить и возвышать.
Еще хуже те правители, которых народ боится, и хуже всех те правители, которых народ презирает.
Поэтому, кто не заслуживает доверия, не пользуется доверием [у людей].
Кто вдумчив и сдержан в словах, успешно совершает дела, и народ говорит, что он следует естественности.

[95t18c] **Ян Хин-шун**
Когда устранили великое дао, появились "человеколюбие" и "справедливость".
Когда появилось мудрствование, возникло и великое лицемерие.
Когда шесть родственников в раздоре, тогда появляются "сыновняя почтительность" и "отцовская любовь".
Когда в государстве царит беспорядок, тогда появляются "верные слуги".

[95t19c] **Ян Хин-шун**
Когда будут устранены мудрствование и ученость, народ будет счастливее во сто крат;
когда будут устранены "человеколюбие" и "справедливость", народ возвратится к сыновней почтительности и отцовской любви;
когда будут уничтожены хитрость и нажива, исчезнут воры и разбойники.
Все эти три вещи [происходят] от недостатка знаний.
Поэтому нужно указывать людям, что они должны быть простыми и скромными, уменьшать личные [желания] и освобождаться от страстей.

[95t20c] **Ян Хин-шун**
Когда будет уничтожена ученость, тогда не будет и печали.
Как ничтожна разница между обещанием и лестью и как велика разница между добром и злом!
Надо избегать того, чего люди боятся.
О! Как хаотичен [мир], где все еще не установлен порядок.
Все люди радостны, как будто присутствуют на торжественном угощении или празднуют наступление весны.
Только я один спокоен и не выставляю себя на свет.
Я подобен ребенку, который не явился в мир.
О! Я несусь!
Кажется, нет места, где мог бы остановиться.
Все люди полны желаний, только я один подобен тому, кто отказался от всего.
Я сердце глупого человека.
О, как оно пусто!
Все люди полны света.
Только я один подобен тому, кто погружен во мрак.

Все люди пытливы, только я один равнодушен.
Я подобен тому, кто несется в мирском просторе и не знает, где ему остановиться.
Все люди проявляют свою способность, и только я один похож на глупого и низкого.
Только я один отличаюсь от других тем, что вижу основу в еде.

[95t21c] **Ян Хин-шун**
Содержание великого дэ подчиняется только дао.
Дао бестелесно.
Дао туманно и неопределенно.
Однако в его туманности и неопределенности содержатся образы.
Оно туманно и неопределенно.
Однако в его туманности и неопределенности скрыты вещи.
Оно глубоко и темно.
Однако в его глубине и темноте скрыты тончайшие частицы.
Эти тончайшие частицы обладают высшей действительностью и достоверностью.
С древних времен до наших дней его имя не исчезает.
Только следуя ему, можно познать начало всех вещей.
Каким образом мы познаем начало всех вещей?
Только благодаря ему.

[95t22c] **Ян Хин-шун**
В древности говорили:
"Ущербное становится совершенным,
кривое - прямым,
пустое - наполненным,
ветхое сменяется новым;
стремясь к малому, достигаешь многого;
стремление получить многое ведет к заблуждениям".
Поэтому совершенномудрый внемлет этому поучению, коему необходимо следовать в Поднебесной.
Совершенномудрый исходит не только из того, что сам видит, поэтому может видеть ясно;
он не считает правым только себя, поэтому может обладать истиной;
он не прославляет себя, поэтому имеет заслуженную славу;
он не возвышает себя, поэтому он старший среди других.
Он ничему не противоборствует, поэтому он непобедим в Поднебесной.
Слова древних: "Ущербное становится совершенным..." - разве это пустые слова?
Они действительно указывают человеку путь к [истинному] совершенству.

[95t23c] **Ян Хин-шун**
Нужно меньше говорить, следовать естественности.
Быстрый ветер не продолжается все утро, сильный дождь не продержится весь день.
Кто делает все это?
Небо и земля.
Даже небо и земля не могут сделать что-либо долговечным, тем более человек.
Поэтому он служит дао.
Кто [служит] дао, тот тождествен дао.
Кто [служит] дэ, тот тождествен дэ.

Тот, кто теряет, тождествен потере.
Тот, кто тождествен дао, приобретает дао.
Тот, кто тождествен дэ, приобретает дэ.
Тот, кто тождествен потере, приобретает потерянное.
Только сомнения порождают неверие.

[95t24c] **Ян Хин-шун**
Кто поднялся на цыпочки, не может [долго] стоять.
Кто делает большие шаги, не может [долго] идти.
Кто сам себя выставляет на свет, тот не блестит.
Кто сам себя восхваляет, тот не добудет славы.
Кто нападает, не достигает успеха.
Кто сам себя возвышает, не может стать старшим среди других.
Если исходить из дао, все это называется лишним желанием и бесполезным поведением.
Таких ненавидят все существа.
Поэтому человек, обладающий дао, не делает этого.

[95t25c] **Ян Хин-шун**
Вот вещь, в хаосе возникающая, прежде неба и земли родившаяся!
О беззвучная!
О лишенная формы!
Одиноко стоит она и не изменяется.
Повсюду действует и не имеет преград.
Ее можно считать матерью Поднебесной.
Я не знаю ее имени.
Обозначая иероглифом, назову ее дао; произвольно давая ей имя, назову ее великое.
Великое - оно в бесконечном движении.
Находящееся в бесконечном движении не достигает предела.
Не достигая предела, оно возвращается [к своему истоку].
Вот почему велико дао, велико небо, велика земля, велик также и государь.
Во вселенной имеются четыре великих, и среди них - государь.
Человек следует [законам] земли.
Земля следует [законам] неба.
Небо следует [законам] дао, а дао следует самому себе.

[95t26c] **Ян Хин-шун**
Тяжелое является основой легкого.
Покой есть главное в движении.
Поэтому совершенномудрый, шагая весь день, не отходит от [телеги] с тяжелым грузом.
Хотя он живет прекрасной жизнью, но он в нее не погружается.
Почему властитель десяти тысяч колесниц, занятый собой, так пренебрежительно смотрит на мир?
Пренебрежение разрушает его основу, а его торопливость приводит к потере власти.

[95t27c] **Ян Хин-шун**
Умеющий шагать не оставляет следов.
Умеющий говорить не допускает ошибок.

Кто умеет считать, тот не пользуется инструментом для счета.
Кто умеет закрывать двери, не употребляет затвор и закрывает их так крепко, что открыть их невозможно.
Кто умеет завязывать узлы, не употребляет веревку, [но завязывает так прочно], что развязать невозможно.
Поэтому совершенномудрый постоянно умело спасает людей и не покидает их.
Он всегда умеет спасать существа, поэтому он не покидает их.
Это называется глубокой мудростью.
Таким образом, добродетель является учителем недобрых, а недобрые - ее опорой.
Если [недобрые] не ценят своего учителя и добродетель не любит свою опору, то они, хотя и [считают себя] разумными, погружены в слепоту.
Вот что наиболее важно и глубоко.

[95t28c] **Ян Хин-шун**
Кто, зная свою храбрость, сохраняет скромность, тот, [подобно] горному ручью, становится [главным] в стране.
Кто стал главным в стране, тот не покидает постоянное дэ и возвращается к состоянию младенца.
Кто, зная праздничное, сохраняет для себя будничное, тот становится примером для всех.
Кто стал примером для всех, тот не отрывается от постоянного дэ и возвращается к изначальному.
Кто, зная свою славу, сохраняет для себя безвестность, тот становится главным в стране.
Кто стал главным в стране, тот достигает совершенства в постоянном дэ и возвращается к естественности.
Когда естественность распадается, она превращается в средство, при помощи которого совершенномудрый становится вождем и великий порядок не разрушается.

[95t29c] **Ян Хин-шун**
Если кто-нибудь силой пытается овладеть страной, то, вижу я, он не достигает своей цели.
Страна подобна таинственному сосуду, к которому нельзя прикоснуться.
Если кто-нибудь тронет [его], то потерпит неудачу.
Если кто-нибудь схватит [его], то его потеряет.
Поэтому
одни существа идут, другие - следуют за ними;
одни расцветают, другие высыхают;
одни укрепляются, другие слабеют;
одни создаются, другие разрушаются.
Поэтому совершенномудрый отказывается от излишеств, устраняет роскошь и расточительность.

[95t30c] **Ян Хин-шун**
Кто служит главе народа посредством дао, не покоряет другие страны при помощи войск, ибо это может обратиться против него.
Где побывали войска, там растут терновник и колючки.
После больших войн наступают голодные годы.
Искусный [полководец] побеждает и на этом останавливается, и он не осмеливается осуществлять насилие.
Он побеждает и себя не прославляет.
Он побеждает и не нападает.

Он побеждает и не гордится.
Он побеждает потому, что к этому его вынуждают.
Он побеждает, но он не воинствен.
Когда существо, полное сил, становится старым, то это называется [отсутствием] дао.
Кто не соблюдает дао, погибнет раньше времени.

[95t31c] **Ян Хин-шун**
Хорошее войско - средство, [порождающее] несчастье, его ненавидят все существа.
Поэтому человек, следующий дао, его не употребляет.
Благородный [правитель] во время мира предпочитает быть уступчивым [в отношении соседних стран] и лишь на войне применяет насилие.
Войско - орудие несчастья, поэтому благородный [правитель] не стремится использовать его, он применяет его, только когда его к этому вынуждают.
Главное состоит в том, чтобы соблюдать спокойствие, а в случае победы себя не прославлять.
Прославлять себя победой - это значит радоваться убийству людей.
Тот, кто радуется убийству людей, не может завоевать сочувствия в стране.
Благополучие создается уважением, а несчастье происходит от насилия.
Слева строятся военачальники флангов, справа стоит полководец.
Говорят, что их нужно встретить похоронной процессией.
Если убивают многих людей, то об этом нужно горько плакать.
Победу следует отмечать похоронной процессией.

[95t32c] **Ян Хин-шун**
Дао вечно и безымянно.
Хотя оно ничтожно, но никто в мире не может его подчинить себе.
Если знать и государи могут его соблюдать, то все существа сами становятся спокойными.
Тогда небо и земля сольются в гармонии, наступят счастье и благополучие, а народ без приказания успокоится.
При установлении порядка появились имена.
Поскольку возникли имена, нужно знать предел [их употребления].
Знание предела позволяет избавиться от опасности.
Когда дао находится в мире, [все сущее вливается в него], подобно тому, как горные ручьи текут к рекам и морям.

[95t33c] **Ян Хин-шун**
Знающий людей благоразумен.
Знающий себя просвещен.
Побеждающий людей силен.
Побеждающий самого себя могуществен.
Знающий достаток богат.
Кто действует с упорством, обладает волей.
Кто не теряет свою природу, долговечен.
Кто умер, но не забыт, тот бессмертен.

[95t34c] **Ян Хин-шун**
Великое дао растекается повсюду.

Оно может находиться и справа и слева.
Благодаря ему все сущее рождается и не прекращает [своего роста].
Оно совершает подвиги, но славы себе не желает.
С любовью воспитывая все существа, оно не считает себя их властелином.
Оно никогда не имеет собственных желаний, поэтому его можно назвать ничтожным.
Все сущее возвращается к нему, но оно не рассматривает себя их властелином.
Его можно назвать великим.
Оно становится великим, потому что никогда не считает себя таковым.

[95t35c] **Ян Хин-шун**
К тому, кто представляет собой великий образ [дао], приходит весь народ.
Люди приходят, и он им не причиняет вреда.
Он приносит им мир, спокойствие, музыку и пищу.
Даже путешественник у него останавливается.
Когда дао выходит изо рта, оно пресное, безвкусное.
Оно незримо, и его нельзя услышать.
В действии оно неисчерпаемо.

[95t36c] **Ян Хин-шун**
Чтобы нечто сжать, необходимо прежде расширить его.
Чтобы нечто ослабить, нужно прежде укрепить его.
Чтобы нечто уничтожить, необходимо прежде дать ему расцвести.
Чтобы нечто у кого-то отнять, нужно прежде дать ему.
Это называется глубокой истиной.
Мягкое и слабое побеждает твердое и сильное.
Как рыба не может покинуть глубину, так и государство не должно выставлять напоказ людям свои совершенные методы [управления].

[95t37c] **Ян Хин-шун**
Дао постоянно осуществляет недеяние, однако нет ничего такого, что бы оно не делало.
Если знать и государи будут его соблюдать, то все существа будут изменяться сами собой.
Если те, которые изменяются, захотят действовать, то я буду подавлять их при помощи простого бытия, не обладающего именем.
Не обладающее именем - простое бытие - для себя ничего не желает.
Отсутствие желания приносит покой, и тогда порядок в стране сам собой установится.

[95t38c] **Ян Хин-шун**
Человек с высшим дэ не стремится делать добрые дела, поэтому он добродетелен;
человек с низшим дэ не оставляет [намерения] совершать добрые дела, поэтому он не добродетелен;
человек с высшим дэ бездеятелен и осуществляет недеяние;
человек с низшим дэ деятелен, и его действия нарочиты;
обладающий высшим человеколюбием действует, осуществляя недеяние;
человек высшей справедливости деятелен, и его действия нарочиты;
человек, во всем соблюдающий ритуал, действует, [надеясь на взаимность].
Если он не встречает взаимности, то он прибегает к наказаниям.
Вот почему дэ появляется только после утраты дао;

2460/2593

человеколюбие - после утраты дэ;
справедливость - после утраты человеколюбия;
ритуал - после утраты справедливости.
Ритуал - это признак отсутствия доверия и преданности.
[В ритуале] - начало смуты.
Внешний вид - это цветок дао, начало невежества.
Поэтому [великий человек] берет существенное и оставляет ничтожное.
Он берет плод и отбрасывает его цветок.
Он предпочитает первое и отказывается от второго.

[95t39c] **Ян Хин-шун**
Вот те, которые с древних времен находятся в единстве.
Благодаря единству небо стало чистым, земля - незыблемой, дух - чутким, долина - цветущей и начали рождаться все существа.
Благодаря единству знать и государи становятся образцом в мире.
Вот что создает единство.
Если небо не чисто, оно разрушается;
если земля зыбка, она раскалывается;
если дух не чуток, он исчезает;
если долины не цветут, они превращаются в пустыню;
если вещи не рождаются, они исчезают;
если знать и государи не являются примером благородства, они будут свергнуты.
Незнатные являются основой для знатных, а низкое - основанием для высокого.
Поэтому знать и государи сами называют себя "одинокими", "сирыми", "несчастливыми".
Это происходит оттого, что они не рассматривают незнатных как свою основу.
Это ложный путь.
Если разобрать колесницу, от нее ничего не останется.
Нельзя считать себя "драгоценным", как яшма, а нужно быть простым, как камень.

[95t40c] **Ян Хин-шун**
Превращение в противоположное есть действие дао,
слабость есть свойство дао.
В мире все вещи рождаются в бытии,
а бытие рождается в небытии.

[95t41c] **Ян Хин-шун**
Человек высшей учености, узнав о дао, стремится к его осуществлению.
Человек средней учености, узнав о дао, то соблюдает его, то его нарушает.
Человек низшей учености, узнав о дао, подвергает его насмешке.
Если оно не подвергалось бы насмешке, не являлось бы дао.
Поэтому существует поговорка:
кто узнает дао, похож на темного;
кто проникает в дао, похож на отступающего;
кто на высоте дао, похож на заблуждающегося;
человек высшей добродетели похож на простого;
великий просвещенный похож на презираемого;

безграничная добродетельность похожа на ее недостаток;
распространение добродетельности похоже на ее расхищение;
истинная правда похожа на ее отсутствие.
Великий квадрат не имеет углов;
большой сосуд долго изготовляется;
сильный звук нельзя услышать;
великий образ не имеет формы.
Дао скрыто [от нас] и не имеет имени.
Но только оно способно помочь [всем существам] и привести их к совершенству.

[95t42c] **Ян Хин-шун**
Дао рождает одно, одно рождает два, два рождают три, а три рождают все существа.
Все существа носят в себе инь и ян, наполнены ци и образуют гармонию.
Люди не любят [имена] "одинокий", "сирый", "несчастливый".
Между тем гуны и ваны этими [именами] называют себя.
Поэтому вещи возвышаются, когда их принижают, и принижаются, когда их возвышают.
Чему учат люди, тому обучаю и я:
сильные и жестокие не умирают своей смертью.
Этим я руководствуюсь в своем обучении.

[95t43c] **Ян Хин-шун**
В Поднебесной самые слабые побеждают самых сильных.
Небытие проникает везде и всюду.
Вот почему я знаю пользу от недеяния.
В Поднебесной нет ничего, что можно было бы сравнивать с учением, не прибегающим к словам, и пользой от недеяния.

[95t44c] **Ян Хин-шун**
Что ближе - слава или жизнь?
Что дороже - жизнь или богатства?
Что тяжелее пережить - приобретение или потерю?
Кто многое сберегает, тот понесет большие потери.
Кто много накапливает, тот потерпит большие убытки.
Кто знает меру, у того не будет неудачи.
Кто знает предел, тот не будет подвергаться опасности.
Он может стать долговечным.

[95t45c] **Ян Хин-шун**
Великое совершенство похоже на несовершенное, но его действие [не может быть] нарушено;
великая полнота похожа на пустоту, но ее действие неисчерпаемо.
Великая прямота похожа на кривизну;
великое остроумие похоже на глупость;
великий оратор похож на заику.
Ходьба побеждает холод, покой побеждает жару.
Спокойствие создает порядок в мире.

[95t46c] **Ян Хин-шун**
Когда в стране существует дао, лошади унавоживают землю;
когда в стране отсутствует дао, боевые кони пасутся в окрестностях.
Нет больше несчастья, чем незнание границы своей страсти,
и нет большей опасности, чем стремление к приобретению [богатств].
Поэтому, кто умеет удовлетворяться, всегда доволен [своей жизнью].

[95t47c] **Ян Хин-шун**
Не выходя со двора, можно познать мир.
Не выглядывая из окна, можно видеть естественное дао.
Чем дальше идешь, тем меньше познаешь.
Поэтому совершенномудрый не ходит, но познает [все].
Не видя [вещей], он проникает в их [сущность].
Не действуя, он добивается успеха.

[95t48c] **Ян Хин-шун**
Кто учится, с каждым днем увеличивает [свои знания].
Кто служит дао, изо дня в день уменьшает [свои желания].
В непрерывном уменьшении [человек] доходит до недеяния.
Нет ничего такого, что бы не делало недеяние.
Поэтому овладение Поднебесной всегда осуществляется посредством недеяния.
Кто действует, не в состоянии овладеть Поднебесной.

[95t49c] **Ян Хин-шун**
Совершенномудрый не имеет постоянного сердца.
Его сердце состоит из сердец народа.
Добрым я делаю добро и недобрым также делаю добро.
Таким образом и воспитывается добродетель.
Искренним я верен и неискренним также верен.
Таким образом и воспитывается искренность.
Совершенномудрый живет в мире спокойно и в своем сердце собирает мнения народа.
Он смотрит на народ, как на своих детей.

[95t50c] **Ян Хин-шун**
[Существа] рождаются и умирают.
Из десяти человек три [идут] к жизни, три - к смерти.
Из каждых десяти еще имеются три человека, которые умирают от своих деяний.
Почему это так?
Это происходит оттого, что у них слишком сильно стремление к жизни.
Я слышал, что, кто умеет овладевать жизнью, идя по земле, не боится носорога и тигра, вступая в битву, не боится вооруженных солдат.
Носорогу некуда вонзить в него свой рог, тигру негде наложить на него свои когти, а солдатам некуда поразить его мечом.
В чем причина?
Это происходит оттого, что для него не существует смерти.

[95t51c] **Ян Хин-шун**

Дао рождает [вещи], дэ вскармливает [их].
Вещи оформляются, формы завершаются.
Поэтому нет вещи, которая не почитала бы дао и не ценила бы дэ.
Дао почитаемо, дэ ценимо, потому что они не отдают приказаний, а следуют естественности.
Дао рождает [вещи], дэ вскармливает [их], взращивает их, воспитывает их, совершенствует их, делает их зрелыми, ухаживает за ними, поддерживает их.
Создавать и не присваивать, творить и не хвалиться, являясь старшим, не повелевать - вот что называется глубочайшим дэ.

[95t52c] **Ян Хин-шун**

В Поднебесной имеется начало, и оно - мать Поднебесной.
Когда будет постигнута мать, то можно узнать и ее детей.
Когда уже известны ее дети, то снова нужно помнить о их матери.
В таком случае до конца жизни [у человека] не будет опасности.
Если [человек] оставляет свои желания и освобождается от страстей, то до конца жизни не будет у него усталости.
Если же он распускает свои страсти и поглощен своими делами, то не будет спасения [от бед].
Видение мельчайшего называется зоркостью.
Сохранение слабости называется могуществом.
Следовать сиянию [дао], постигать его глубочайший смысл, не навлекать [на людей] несчастья - это и есть соблюдение постоянства.

[95t53c] **Ян Хин-шун**

Если бы я владел знанием, то шел бы по большой дороге.
Единственная вещь, которой я боюсь, - это узкие тропинки.
Большая дорога совершенно ровна, но народ любит тропинки.
Если дворец роскошен, то поля покрыты сорняками и хлебохранилища совершенно пусты.
[Знать] одевается в роскошные ткани, носит острые мечи, не удовлетворяется [обычной] пищей и накапливает излишние богатства.
Все это называется разбоем и бахвальством.
Оно является нарушением дао.

[95t54c] **Ян Хин-шун**

Кто умеет крепко стоять, того нельзя опрокинуть.
Кто умеет опереться, того нельзя свалить.
Сыновья и внуки вечно сохранят память о нем.
Кто совершенствует [дао] внутри себя, у того добродетель становится искренней.
Кто совершенствует [дао] в семье, у того добродетель становится обильной.
Кто совершенствует [дао] в деревне, у того добродетель становится обширной.
Кто совершенствует [дао] в царстве, у того добродетель становится богатой.
Кто совершенствует [дао] в Поднебесной, у того добродетель становится всеобщей.
По себе можно познать других;
по одной семье можно познать остальные;
по одной деревне можно познать остальные;
по одному царству можно познать другие;

по одной стране можно познать всю Поднебесную.
Каким образом я узнаю, что Поднебесная такова?
Поступая так.

[95t55c] **Ян Хин-шун**
Кто содержит в себе совершенное дэ, тот похож на новорожденного.
Ядовитые насекомые и змеи его не ужалят, свирепые звери его не схватят, хищные птицы его не заклюют.
Кости у него мягкие, мышцы слабые, но он держит [дао] крепко.
Не зная союза двух полов, он обладает животворящей способностью.
Он очень чуток.
Он кричит весь день, и его голос не изменяется.
Он совершенно гармоничен.
Знание гармонии называется постоянством.
Знание постоянства называется мудростью.
Обогащение жизни называется счастьем.
Стремление управлять чувствами называется упорством.
Существо, полное сил, стареет - это называется нарушением дао.
Кто дао не соблюдает, тот погибает раньше времени.

[95t56c] **Ян Хин-шун**
Тот, кто знает, не говорит.
Тот, кто говорит, не знает.
То,
что оставляет свои желания,
отказывается от страстей,
притупляет свою проницательность,
освобождает себя от хаотичности,
умеряет свой блеск,
уподобляет себя пылинке,
представляет собой глубочайшее.
Его нельзя приблизить для того, чтобы с ним сродниться;
его нельзя приблизить для того, чтобы им пренебрегать;
его нельзя приблизить для того, чтобы им воспользоваться;
его нельзя приблизить для того, чтобы его возвысить;
его нельзя приблизить для того, чтобы его унизить.
Вот почему оно уважаемо в Поднебесной.

[95t57c] **Ян Хин-шун**
Страна управляется справедливостью, война ведется хитростью.
Поднебесную получают во владение посредством недеяния.
Откуда я знаю все это?
Вот откуда:
когда в стране много запретительных законов, народ становится бедным.
Когда у народа много острого оружия, в стране увеличиваются смуты.
Когда много искусных мастеров, умножаются редкие предметы.

2465/2593

Когда растут законы и приказы, увеличивается число воров и разбойников.
Поэтому совершенномудрый говорит:
"Если я не действую, народ будет находиться в самоизменении;
если я спокоен, народ сам будет исправляться.
Если я пассивен, народ сам становится богатым;
если я не имею страстей, народ становится простодушным".

[95t58c] **Ян Хин-шун**
Когда правительство спокойно, народ становится простодушным.
Когда правительство деятельно, народ становится несчастным.
О несчастье! Оно является опорой счастья.
О счастье! В нем заключено несчастье.
Кто знает их границы?
Они не имеют постоянства.
Справедливость снова превращается в хитрость, добро - в зло.
Человек уже давно находится в заблуждении.
Поэтому совершенномудрый справедлив и не отнимает ничего у другого.
Он бескорыстен и не вредит другим.
Он правдив и не делает ничего плохого.
Он светел, но не желает блестеть.

[95t59c] **Ян Хин-шун**
Управляя людьми и служа небу, лучше всего соблюдать воздержание.
Воздержание должно стать главной заботой.
Оно называется совершенствованием дэ.
Совершенствование дэ - всепобеждающее.
Всепобеждающее обладает неисчерпаемой силой.
Неисчерпаемая сила дает возможность овладеть страной.
Начало, при помощи которого управляется страна, долговечно и называется глубоким и прочным, вечно существующим дао.

[95t60c] **Ян Хин-шун**
Управление большим царством напоминает приготовление блюда из мелких рыб.
Если Поднебесной управлять, следуя дао, то злые духи [умерших] не будут действовать.
Но злые духи не только не будут действовать, они также не смогут вредить людям.
Не только они не смогут вредить людям, но и совершенномудрые не смогут вредить людям.
Поскольку и те и другие не смогут вредить людям, их дэ соединятся друг с другом.

[95t61c] **Ян Хин-шун**
Великое царство - это низовье реки, узел Поднебесной, самка Поднебесной.
Самка всегда невозмутимостью одолевает самца, а по своей невозмутимости [она] стоит ниже [самца].
Поэтому великое царство располагает к себе маленькое тем, что ставит себя ниже последнего, а маленькое царство завоевывает симпатию великого царства тем, что стоит ниже последнего.
Поэтому располагают к себе либо тем, что ставят себя ниже, либо тем, что сами по себе ниже.
Пусть великое царство будет желать не больше того, чтобы все одинаково были накормлены, а малое царство пусть будет желать не больше того, чтобы служить людям.

Тогда оба получат то, чего они желают.
Великому полагается быть внизу.

[95t62c] **Ян Хин-шун**
Дао - глубокая [основа] всех вещей.
Оно сокровище добрых и защита недобрых людей.
Красивые слова можно произносить публично, доброе поведение можно распространять на людей.
Но зачем же покидать недобрых людей?
В таком случае для чего же выдвигают государя и назначают ему трех советников?
Государь и советники хотя и имеют драгоценные камни и могут ездить на колесницах, но лучше будет им спокойно следовать дао.
Почему в древности ценили дао?
В то время люди не стремились к приобретению богатств и преступления прощались.
Поэтому [дао] в Поднебесной ценилось дорого.

[95t63c] **Ян Хин-шун**
Нужно осуществлять недеяние, соблюдать спокойствие и вкушать безвкусное.
Великое состоит из малого, а многое - из немногого.
На ненависть нужно отвечать добром.
Преодоление трудного начинается с легкого,
осуществление великого начинается с малого,
ибо в мире трудное образуется из легкого, а великое - из малого.
Поэтому совершенномудрый начинает не с великого, тем самым он совершает великое.
Кто много обещает, тот не заслуживает доверия.
Где много легких дел, там много и трудных.
Поэтому совершенномудрый относится к делу как к трудному, поэтому он не испытывает трудности.

[95t64c] **Ян Хин-шун**
То, что спокойно, легко сохранить.
То, что еще не показало признаков, легко направить.
То, что слабо, легко разделить.
То, что мелко, легко рассеять.
Действие надо начать с того, чего еще нет.
Наведение порядка надо начать тогда, когда еще нет смуты.
Ибо большое дерево вырастает из маленького, девятиэтажная башня начинает строиться из горстки земли, путешествие в тысячу ли начинается с одного шага.
Кто действует - потерпит неудачу.
Кто чем-либо владеет - потеряет.
Вот почему совершенномудрый бездеятелен, и он не терпит неудачи.
Он ничего не имеет и поэтому ничего не теряет.
Те, кто, совершая дела, спешат достигнуть успеха, потерпят неудачу.
Кто осторожно заканчивает свое дело, подобно тому как он его начал, у того всегда будет благополучие.
Поэтому совершенномудрый не имеет страсти, не ценит труднодобываемые предметы, учится у тех, кто не имеет знаний, и идет по тому пути, по которому прошли другие.
Он следует естественности вещей и не осмеливается [самовольно] действовать.

[95t65c] **Ян Хин-шун**

В древности те, кто следовал дао, не просвещали народ, а делали его невежественным.
Трудно управлять народом, когда у него много знаний.
Поэтому управление страной при помощи знаний приносит стране несчастье, а без их помощи приводит страну к счастью.
Кто знает эти две вещи, тот становится примером для других.
Знание этого примера есть знание глубочайшего дэ.
Глубочайшее дэ, оно и глубоко и далеко.
Оно противоположно всем существам, но приводит их к полному соответствию [с ним].

[95t66c] **Ян Хин-шун**

Реки и моря потому могут властвовать над равнинами, что они способны стекать вниз.
Поэтому они властвуют над равнинами.
Когда [совершенномудрый] желает возвыситься над народом, он должен ставить себя ниже других.
Когда он желает быть впереди людей, он должен ставить себя позади других.
Поэтому хотя он и стоит над народом, но народу он не в тягость;
хотя он находится впереди, народ ему не вредит.
Поэтому люди с радостью его выдвигают и от него не отворачиваются.
Он не борется, благодаря чему он в мире непобедим.

[95t67c] **Ян Хин-шун**

Все говорят о том, что мое дао велико и не уменьшается.
Если бы оно уменьшилось, то после долгого времени оно стало бы маленьким.
Не уменьшается потому, что оно является великим.
Я имею три сокровища, которыми дорожу:
первое - это человеколюбие,
второе - бережливость,
а третье состоит в том, что я не смею быть впереди других.
Я человеколюбив, поэтому могу стать храбрым.
Я бережлив, поэтому могу быть щедрым.
Я не смею быть впереди других, поэтому могу стать умным вождем.
Кто храбр без человеколюбия, щедр без бережливости, находясь впереди, отталкивает тех, кто находится позади, - тот погибает.
Кто ведет войну человеколюбиво, побеждает,
и возведенная им оборона неприступна.
Небо его спасает, человеколюбие его охраняет.

[95t68c] **Ян Хин-шун**

Умный полководец не бывает воинствен.
Умелый воин не бывает гневен.
Умеющий побеждать врага не нападает.
Умеющий управлять людьми не ставит себя в низкое положение.
Это я называю дэ, избегающее борьбы.
Это сила в управлении людьми.
Это значит следовать природе и древнему началу [дао].

[95t69c] **Ян Хин-шун**
Военное искусство гласит: я не смею первым начинать, я должен ожидать.
Я не смею наступать хотя бы на вершок вперед, а отступаю на аршин назад.
Это называется действием посредством недеяния, ударом без усилия.
В этом случае не будет врага и я могу обходиться без солдат.
Нет беды тяжелее, чем недооценивать противника.
Недооценка противника повредит моему сокровенному средству [дао].
В результате сражений те, кто скорбит, одерживают победу.

[95t70c] **Ян Хин-шун**
Мои слова легко понять и легко осуществить.
Но люди не могут понять и не могут осуществлять.
В словах имеется начало, в делах имеется главное.
Поскольку люди их не знают, то они не знают и меня.
Когда меня мало знают, тогда я дорог.
Поэтому совершенномудрый подобен тому, кто одевается в грубые ткани, а при себе держит яшму.

[95t71c] **Ян Хин-шун**
Кто, имея знания, делает вид, что не знает, тот выше всех.
Кто, не имея знаний, делает вид, что знает, тот болен.
Кто, будучи больным, считает себя больным, тот не является больным.
Совершенномудрый не болен.
Будучи больным, он считает себя больным, поэтому он не болен.

[95t72c] **Ян Хин-шун**
Когда народ не боится могущественных, тогда приходит могущество.
Не тесните его жилища, не презирайте его жизни.
Кто не презирает [народа], тот не будет презрен [народом].
Поэтому совершенномудрый, зная себя, себя не выставляет.
Он любит себя и себя не возвышает.
Он отказывается от самолюбия и предпочитает невозвышение.

[95t73c] **Ян Хин-шун**
Кто храбр и воинствен - погибает, кто храбр и не воинствен - будет жить.
Эти две вещи означают: одна - пользу, а другая - вред.
Кто знает причины того, что небо ненавидит [воинственных]?
Объяснить это трудно и совершенномудрому.
Небесное дао не борется, но умеет побеждать.
Оно не говорит, но умеет отвечать.
Оно само приходит.
Оно спокойно и умеет управлять [вещами].
Сеть природы редка, но ничего не пропускает.

[95t74c] **Ян Хин-шун**
Если народ не боится смерти, то зачем же угрожать ему смертью?
Кто заставляет людей бояться смерти и считает это занятие увлекательным, того я захвачу и уничтожу.

Кто осмеливается так действовать?
Всегда существует носитель смерти, который убивает.
А если кто его заменит - это значит заменит великого мастера.
Кто, заменяя великого мастера, рубит [топором], повредит свою руку.

[95t75c] **Ян Хин-шун**
Народ голодает оттого, что власти берут слишком много налогов.
Вот почему [народ] голодает.
Трудно управлять народом оттого, что власти слишком деятельны.
Вот почему трудно управлять.
Народ презирает смерть оттого, что у него слишком сильно стремление к жизни.
Вот почему презирают смерть.
Тот, кто пренебрегает своей жизнью, тем самым ценит свою жизнь.

[95t76c] **Ян Хин-шун**
Человек при своем рождении нежен и слаб, а при наступлении смерти тверд и крепок.
Все существа и растения при своем рождении нежные и слабые, а при гибели сухие и гнилые.
Твердое и крепкое - это то, что погибает, а нежное и слабое - это то, что начинает жить.
Поэтому могущественное войско не побеждает и крепкое дерево гибнет.
Сильное и могущественное не имеют того преимущества, какое имеют нежное и слабое.

[95t77c] **Ян Хин-шун**
Небесное дао напоминает натягивание лука.
Когда понижается его верхняя часть, поднимается нижняя.
Оно отнимает лишнее и отдает отнятое тому, кто в нем нуждается.
Небесное дао отнимает у богатых и отдает бедным то, что у них отнято.
Человеческое же дао - наоборот.
Оно отнимает у бедных и отдает богатым то, что отнято.
Кто может отдать другим все лишнее?
Это могут сделать только те, которые следуют дао.
Поэтому совершенномудрый делает и не пользуется тем, что сделано, совершает подвиги и себя не прославляет.
Он благороден потому, что у него нет страстей.

[95t78c] **Ян Хин-шун**
Вода - это самое мягкое и самое слабое существо в мире, но в преодолении твердого и крепкого она непобедима, и на свете нет ей равного.
Слабые побеждают сильных, мягкое преодолевает твердое.
Это знают все, но люди не могут это осуществлять.
Поэтому совершенномудрый говорит:
"Кто принял на себя унижение страны - становится государем,
и, кто принял на себя несчастье страны - становится властителем".
Правдивые слова похожи на свою противоположность.

[95t79c] **Ян Хин-шун**
После успокоения большого возмущения непременно останутся его последствия.

2471/2593

Как можно назвать это добром?
Поэтому совершенномудрый дает клятву, что он не будет никого порицать.
Добрые стремятся к соглашению, а недобрые - к вымогательству.
Небесное дао относится ко всем одинаково, оно всегда на стороне добрых.

[95t80c] **Ян Хин-шун**
Пусть государство будет маленьким, а население редким.
Если [в государстве] имеются различные орудия, не надо их использовать.
Пусть люди до конца своей жизни не уходят далеко [от своих мест].
Если [в государстве] имеются лодки и колесницы, не надо их употреблять.
Даже если имеются воины, не надо их выставлять.
Пусть народ снова начинает плести узелки и употреблять их вместо письма.
Пусть его пища будет вкусной, одеяние красивым, жилище удобным, а жизнь радостной.
Пусть соседние государства смотрят друг на друга, слушают друг у друга пение петухов и лай собак, а люди до самой старости и смерти не посещают друг друга.

[95t81c] **Ян Хин-шун**
Верные слова не изящны.
Красивые слова не заслуживают доверия.
Добрый не красноречив.
Красноречивый не может быть добрым.
Знающий не доказывает, доказывающий не знает.
Совершенномудрый ничего не накапливает.
Он все делает для людей и все отдает другим.
Небесное дао приносит всем существам пользу и им не вредит.
Дао совершенномудрого - это деяние без борьбы.

[96t01c] **Д. П. Конисси**

Тао, которое должно быть действительным, не есть обыкновенное Тао.
Имя, которое должно быть действительным, не есть обыкновенное имя.
То, что не имеет имени, - есть начало неба и земли;
то, что имеет имя, - есть мать всех вещей.
Вот почему свободный от всех страстей видит величественное проявление Тао,
а находящийся под влиянием какой-нибудь страсти видит только незначительное его проявление.
Эти оба происходят из одного и того же начала, но только носят разное название.
Они называются непостижимыми.
Непостижимое из непостижимых и есть ворота всего таинственного.

[96t02c] **Д. П. Конисси**

Под небом все (люди) знают, что красивое есть красивое, но оно только безобразное.
Точно также все знают, что добро есть добро, но оно только зло.
Из бытия и небытия произошло все;
из невозможного и возможного - исполнение;
из длинного и короткого - форма.
Высокое подчиняет себе низшее;
высшие голоса вместе с низшими производят гармонию;
предшествующее подчиняет себе последующее.
Святой муж, будучи бездеятельным, распространяет свое учение.
Вся тварь повинуется ему и никогда не откажется от исполнения его воли.
Он производит много, но ничего не имеет;
делает много, но не хвалится сделанным;
совершает подвиги, но их не приписывает себе.
Он нигде не останавливается, поэтому ему не будет надобности удаляться туда, куда он не желает.

[96t03c] **Д. П. Конисси**

Чтобы не было ссор в народе, нужно не уважать мудрецов.
Чтобы люди не сделались ворами, нужно не придавать никакого значения трудно добываемым (ценным) предметам, потому что когда люди не будут иметь тех предметов, которые бы прельстили их сердца, они никогда не соблазнятся ими.
Отсюда, когда святой муж управляет страной, то сердце его пусто, а тело его полно;
(он) ослабляет желания и укрепляет (свои) кости.
Он старается, чтобы народ был в невежестве и без страстей.
Также он старается, чтобы мудрые не смели сделать чего-нибудь.
Когда все сделаются бездеятельными, то (на земле) будет полное спокойствие.

[96t04c] **Д. П. Конисси**

Тао пусто, но когда его употребляют, то, кажется, оно неистощимо.
О, какая глубина! Оно начало всех вещей.
Оно притупляет свое острие, развязывает узлы, смягчает блеск и, наконец, соединяет между собою мельчайшие частицы.
О, как чисто!
Оно существует предвечно, но я не знаю, чей оно сын и предшествовало ли первому царю.

[96t05c] **Д. П. Конисси**
Небо и земля не суть любвеобильные существа.
Они поступают со всеми вещами, как с соломенною собакой.
Святой муж не любвеобилен: он поступает с земледельцами, как с соломенной собакой.
Все находящееся между небом и землей похоже на кузнечный мех.
Он (кузнечный мех) пуст, но неистощим: чем чаще надувается, тем больше выпускает воздух.
Кто много говорит, тот часто терпит неудачу;
поэтому лучше всего соблюдать средину.

[96t06c] **Д. П. Конисси**
Чистейший дух бессмертен.
Он называется непостижимой матерью (самкой).
Ворота непостижимой матери - называются корнем неба и земли.
Он (т.е. чистейший дух) будет существовать без конца.
Кто хочет употреблять его, тот не устанет.

[96t07c] **Д. П. Конисси**
Небо и земля вечны.
Причина того, что небо и земля вечны, заключается в том, что они существуют не для самих себя.
Вот почему они вечны.
Святой муж заботится о себе после других, поэтому он легко достигает безопасности.
Он оставляет свое тело без всякой заботы, поэтому он будет жить долго.
Кто не заботится о себе, тот весьма удачно совершит и свое личное дело.

[96t08c] **Д. П. Конисси**
Высшая добродетель похожа на воду.
Вода, давая всем существам обильную пользу, не сопротивляется ничему.
Она находится на том месте, которого люди не видят, поэтому она похожа на Тао.
Жить хорошо - для земли;
сердце - для глубины;
союз - для любви;
слова - для доверия;
управление - для благоденствия (страны);
дела - для умения;
движение - для жизни.
Не ссорящийся не осуждается.

[96t09c] **Д. П. Конисси**
Чтобы посуда была наполнена чем-нибудь, нужно держать ее твердо (без малейшего движения) и ровно.
Чтобы лезвие наострилось, нужно долго продолжать натачивание.
Когда дом наполнен золотом и драгоценными камнями, то невозможно сохранить его в целости.
Кто достигнет чести и приобретет богатство, тот сделается гордым.
Он легко забудет, что существует наказание (за преступление).
Когда дела увенчаются блестящим успехом и будет приобретено доброе имя, то лучше всего удалиться (в уединение).

Вот это-то и есть небесное Тао (или естественное Тао).

[96t10c] **Д. П. Конисси**

Душа имеет единство, поэтому она не делится (на части).
Кто вполне духовен, тот бывает смирен, как младенец.
Кто свободен от всякого рода знаний, тот никогда не будет болеть.
Кто любит народ и управляет им, тот должен быть бездеятельным.
Кто хочет открыть небесные ворота, тот должен быть как самка.
Кто делает вид, что много знает и ко всему способен, тот ничего не знает и ни к чему не способен.
Кто производит (вещь) и постоянно держит ее, тот ничего не имеет.
Не хвалиться тем, что сделано, не начальствовать над другими, превосходя их, называется небесною добродетелью.

[96t11c] **Д. П. Конисси**

Тридцать спиц соединяются в одной ступице (колесницы), но если они недостаточны для предназначенной цели, то их можно употребить для другой (воза).
Из глины делают домашний сосуд;
но если она недостаточна для известной цели, то годится для другой.
Связывая рамы и двери, устраивают дом;
но если они недостаточны для этого, то из них можно делать домашнюю утварь.
Отсюда видно, что если вещь не годна для одной цели, то можно употребить ее для другой.

[96t12c] **Д. П. Конисси**

Пять цветов ослепляют человека.
Пять звуков оглушают его.
Пять вкусов пресыщают его.
Верховая гонка и охота одуряют душу (сердце) человека.
Стремление к обладанию редкими драгоценностями влечет человека к преступлению.
Отсюда святой муж делает исключительно нравственное, а не для глаз.
Поэтому он удаляется от того и приближается к этому.

[96t13c] **Д. П. Конисси**

Почесть и позор от сильных мира (для мудреца) одинаково странны.
Собственное тело тяготит его, как великое бремя.
Что значит: почесть и позор от сильных мира одинаково странны (для мудреца)?
Почесть от сильных мира - унижение (для мудреца), поэтому, когда она достанется (ему), то (он) относится к ней, как к совершенно призрачной;
когда она потеряется, то также к ней относится как к презренной.
Вот это-то и есть: к почести и позору от сильных мира относиться как к призрачному.
Что значит: собственное тело тяготит его (мудреца), как великое бремя?
Я имею потому великую печаль, что имею тело.
Когда я буду лишен тела, то не буду иметь никакой печали.
Поэтому когда мудрец боится управлять вселенной, то ему можно поручить ее;
когда он сожалеет, что управляет вселенной, то ему можно отдать ее.

(Предмет, на который) мы смотрим, но не видим, называется бесцветным.
(Звук, который) мы слушаем, но не слышим, - беззвучным.
(Предмет, который) мы хватаем, но не можем захватить, - мельчайшим.
Эти три (предмета) неисследимы, поэтому когда они смешаются между собой, то соединяются в одно.
Верх не ясен, низ не темен.
О, бесконечное!
Его нельзя назвать именем.
Оно существует, но возвращается к небытию.
Оно называется формою (или видом) бесформенною.
Оно также называется неопределенным.
Встречаясь с ним, не видать лица его, следуя же за ним, не видать спины его.
Посредством древнего Тао можно управлять жизнью настоящего времени.
Исследовать происхождение всего (или начало древности) называется нитью Тао.

[96t15c] **Д. П. Конисси**
Древние, выдававшиеся над толпой люди хорошо знали мельчайшее, чудесное и непостижимое.
Они глубоки - постигнуть их невозможно.
Они непостижимы, поэтому внешность их была величественная.
О, как они медленны, подобно переходящим зимой через реку!
О, как они нерешительны, подобно боящимся своих соседей!
О, как они осанисты, подобно гостящим в чужом доме!
О, как они осторожны, подобно ходящим на тающем льду!
О, как они просты, подобно необделанному дереву!
О, как они пусты, подобно пустой долине!
О, как они мрачны, подобно мутной воде!
Кто сумеет остановить их и сделать ясными?
Кто же сумеет успокоить их и продлить их тихую жизнь?
Исполняющий Тао не желает быть удовлетворенным.
Он же не удовлетворяется ничем, поэтому, довольствуясь старым и не обновляясь (душою), достигает совершенства.

[96t16c] **Д. П. Конисси**
Когда пустота будет доведена до последнего предела, то будет глубочайший покой.
Всякая вещь растет, в чем я вижу возвращение (или круговорот).
Правда, вещи чрезвычайно разнообразны, но все они возвращаются к своему началу.
Возвращение вещей к своему началу и есть покой.
Покой и есть возвращение к жизни.
Возвращение к жизни и есть постоянство.
Знающий постоянство (или вечность) - мудрец.
Незнающий постоянства будет действовать по своему произволу, поэтому он призывает к себе беду.
Знающий постоянство имеет всеобъемлющую душу.
Имеющий всеобъемлющую душу будет правосуден.
Правосудный будет царем.
Кто царь, тот соединяется с Небом.
Кто соединен с Небом, тот будет подобен Тао, которое существует от вечности.
Тело его погибнет (умрет, когда настанет время), но (дух его) никогда не уничтожится.

[96t17c] **Д. П. Конисси**
Существует ли высочайшее бытие, я не знаю;
но можно (духом) приблизиться к нему и воздавать ему хвалу, потом - бояться его, а затем - пренебрегать им.
От недостатка веры происходит неверие.
О, как медленны слова, сказываемые с весом и со смыслом!
Когда совершены заслуги и сделаны подвиги, то все земледельцы скажут, что это достигнуто естественным ходом вещей.

[96t18c] **Д. П. Конисси**
Когда великое Тао будет покинуто, то появится истинная человечность и справедливость.
Когда широко будет распространена мудрость, то появится великая печаль.
Когда шесть ближайших родственников находятся в раздоре, то является почитание родителей и любовь к детям.
Когда в государстве царит усобица, то являются верные слуги.

[96t19c] **Д. П. Конисси**
Когда оставлены святость и мудрость, то польза народа увеличится во сто раз.
Когда оставлены человеколюбие и справедливость, то дети будут почитать своих родителей, а родители будут любить своих детей.
Когда покинуты всякого рода лукавство и выгоды, то воров не будет.
Одной только внешностью достигнуть этих трех (пунктов) невозможно.
Для этого необходимо быть более простым и менее способным и бесстрастным.

[96t20c] **Д. П. Конисси**
Когда уничтожено будет учение, то печали не будет.
Как велика разница между простым и сложным!
Как велика разница между добром и злом!
Необходимо бояться того, чего люди боятся.
О, дико! еще далеко до средины.
Многие держат себя важно, словно получают жертвенное мясо, словно весной восходят на башню.
О, как я прост!
Во мне нет ничего определенного, как в младенце, еще не достигшем детства.
Я как будто несусь, но не знаю куда и где остановлюсь.
Многие люди богаты, но я ничего не имею, как будто все потерял.
Я прост, как душа глупого человека, но люди света блестят.
Я один темен, но люди света просвещены.
Я один страдаю душевно;
волнуюсь, как море;
блуждаю и не знаю, где остановиться.
Многие люди делают то, к чему способны, но я один глуп и мужиковат.
Я один отличаюсь от других тем, что люблю питаться у матери.

[96t21c] **Д. П. Конисси**
Высоконравственный повинуется только одному Тао.

Сущность Тао похожа на блеск света.
О, неуловим блеск света! но в нем есть изображение.
О, как он блестит!
Он решительно неуловим, но в нем есть вещество.
О, как призрачно и непостижимо (Тао)!
В нем есть сущность, которая достоверна.
От древности до ныне имя (его) никогда не исчезало.
Я обозрел многие начала, но не знаю, отчего такие начала, а не иные.

[96t22c] **Д. П. Конисси**
Из несовершенного происходит цельное.
Из кривого - прямое.
Из углубленного - гладкое.
Из старого - новое.
Если не много, то легко приобрести, а если много, то легко запутаться.
Поэтому святой муж имеет только одно, но он сделается примером для всего мира.
Он открыто не объявляет своих мыслей, поэтому он никогда не заблуждается (ясен).
Он никогда не выставляет себя, поэтому он всегда известен.
Он сам никогда не воюет, поэтому имеет заслуги.
Ничем он не гордится, поэтому он превозносится.
Ни с кем он не ссорится, поэтому вся вселенная никогда не сопротивляется ему.
Отсюда высказанные древними слова "из несовершенного происходит совершенное, из кривого - прямое" можно ли назвать лживым изречением?

[96t23c] **Д. П. Конисси**
Редкие слова заключают в себе самые достоверные мысли.
Редкие изречения сами собою правдивы.
Утренний сильный ветер не продолжается до полудня; сильный дождь не продолжается целый день.
Ни небо, ни земля вечно существовать не могут.
Тем более человек.
Живущий и поступающий по Тао равен ему;
нравственный человек равен добродетели;
потерявший все равен потере.
Тао любит находить равное себе;
нравственный - равное себе;
потерявший - также равное себе.
Где вера слаба, там не будет веры.

[96t24c] **Д. П. Конисси**
Сухоногий не может встать.
Сидящий не может ходить.
Кто думает, что постиг все, тот ничего не знает.
Кто доволен самим собою, тот не может прославиться.
Кто хвастается, тот не может иметь заслуги.
Кто горд, тот не может возвыситься.
Такие люди, с точки зрения Тао, называются питающимися излишеством и творящими напрасное.

Поэтому когда они находят Тао, то оставаться в нем решительно не могут.

[96t25c] **Д. П. Конисси**
Вещество произошло из хаоса.
Есть бытие, которое существует раньше, нежели небо и земля.
Оно недвижимо, бестелесно, самобытно и не знает переворота.
Оно идет, совершая бесконечный круг, и не знает предела.
Оно одно только может быть матерью (самкой) неба и земли.
Я не знаю его имени, но (люди) называют его Тао.
Могущество его называется величием;
величие его - безграничным;
безграничное - бесконечным;
бесконечное - возвращением.
Тао велико, небо велико, земля велика, и, наконец, царь велик.
Итак, в мире существуют четыре величия, одно из которых составляет царь.
Земля несет людей; небо несет землю; Тао несет небо, и, наконец, естественность несет Тао.

[96t26c] **Д. П. Конисси**
Тяжелое лежит в основании легкого.
Тишина господствует над движением.
Хотя мудрец бывает занят целый день, но относится к своим делам внимательно и с большой осторожностью.
Хотя ему будет слава и внешнее великолепие, но он никогда не прельстится ими, ибо он стоит выше их.
Что случится с тем царем, который, имея 10 000 колесниц, презирает заботу о своей стране и думает только о своем удовольствии?
Презирающий заботу о своей стране потеряет лучших слуг - опору государства.
Где легкомысленное движение в народе, там царь легко упразднится.

[96t27c] **Д. П. Конисси**
Нравственный человек не оставляет после себя никаких следов.
Красноречивый не сделает ошибки в своих речах.
Победоносный полководец не употребляет никакой хитрости.
Если что крепко заперто, то (оно), хотя и без замков, не отпирается.
Если что крепко связано, то (оно), хотя и без замысловатых узлов, не развязывается.
Мудрецы спасают погибающих и не оставляют нуждающихся в чем-нибудь без помощи.
Они всегда очень бережно сохраняют вещи и не выкидывают их.
Это называется двойным просвещением.
Отсюда нравственный человек есть учитель (или руководитель) безнравственных;
безнравственные люди суть орудие нравственного.
Кто не уважает своего учителя и кто не любит своего орудия, тот, хотя умен, очень заблуждается.
Это называется важным отступлением от Тао.

[96t28c] **Д. П. Конисси**
Тот, кто знает свою силу и сохраняет свою слабость, сделается долиной вселенной.
Когда он будет долиной вселенной, то в нем будет пребывать вечная добродетель.
Человек вторично возвращается в состояние младенца (Тао).

Кто знает глубину своего просвещения и остается в невежестве, тот сделается примером всего мира.
Кто будет примером всего мира, тот не изменит вечной добродетели и возвратится к совершенству (Тао): он познает славу Его.
Находясь в презрении, он сделается долиной вселенной.
Кто долина вселенной, тот будет доволен только добродетелью и возвратится в совершенную простоту.
Когда эта простота будет удалена, то из него выйдет превосходный сосуд.
Если святый муж употребит его, то сделается начальником.
Вот почему великое установление никогда не уничтожится.

[96t29c] **Д. П. Конисси**
Кто действует, сильно желая завладеть вселенной, тот никогда не достигнет желаемого, потому что вселенная есть божественное орудие, поэтому распоряжаться ее судьбою никто не вправе.
Отсюда, кто покушается на это, тот нарушает порядок мира;
кто хочет завладеть им, тот немедленно потеряет его.
Вообще вещи идут вперед или назад; воют или дуют; сильны или слабы; несутся или же останавливаются на одном месте.
Поэтому мудрец избегает всякой крайности, роскоши и великолепия.

[96t30c] **Д. П. Конисси**
Кто помогает царю по Тао, тот не будет заботиться о процветании страны посредством военной силы: что бы вы ни сделали людям, они тем же воздадут вам.
Где войско стоит, там будет расти колючая трава (вместо хлеба).
После великой войны бывает неурожайный год.
Отсюда когда нравственный человек управляет (страной), то никогда не прибегает к грубой силе, не ищет тщеславия, не воюет, не гордится ничем, не останавливается нигде и не усиливается.
Когда вещь дойдет до полноты своего развития, то она ослабеет и дряхлеет.
То, что не Тао, быстро уничтожается.

[96t31c] **Д. П. Конисси**
Благоустроенное войско есть нечестивое орудие, есть предмет по своему существу злой.
Мудрец предпочитает левую сторону правой, ибо употребляющие войско предпочитают правую сторону левой.
Войско есть нечестивое орудие, поэтому оно не может быть орудием для (истинно) мудрых.
Отсюда, оно и употребляется только в неизбежных случаях.
Хотя война ставит, быть может, целью спокойствие, но она несомненное зло.
Если б она была добро, то нужно было бы радоваться ей, но радуется ей лишь любящий убивать людей.
Любящий убивать людей не может осуществить свой добрый замысел в мире.
При добром деле левая сторона предпочитается правой, а при беде - правая левой.
Подчиненные генералы останавливаются на левой стороне, а начальствующие - на правой.
Когда сделается известной победа, то следует встретить эту весть с траурным обрядом, ибо на войне очень многие погибают.
Так как на войне очень многие погибают, то следует оплакивать войну.
Когда война окончится победою, следует объявить всеобщий траур.

[96t32c] **Д. П. Конисси**
Вечное Тао не имеет имени.

Оно незначительно, как щепка, но мир не может подчинить его себе.
Когда цари и князья заботятся о защите (своей страны), то сама природа сделается помощницей их.
Когда небо совокупляется с землей, то спускается роса на землю, чего человек не в состоянии устроить.
Когда Тао разделилось на части, то получило имя.
Если имя известно, то нужно воздерживаться.
(Каждому) следует знать, где ему нужно оставаться.
Кто соблюдает во всем воздержание, тот не будет знать (нравственного) падения.
Это - Тао, которое существует во всей вселенной.

[96t33c] **Д. П. Конисси**
Знающий людей разумен, а знающий себя самого прозорлив.
Побеждающий других силен, а побеждающий самого себя могуществен.
Довольствующийся самим собой - богач.
Твердый в своих действиях имеет твердую волю.
Не отступающий от своего назначения долговечен.
Неуничтожимый после смерти вечен.

[96t34c] **Д. П. Конисси**
О, беспредельно великое Тао!
Оно справа и слева.
Вся тварь появилась на свет, благодаря ему; оно не отталкивает ее от себя.
Заслуги Тао велики, но оно ими не хвалится.
Оно промышляет о всех вещах с любовью, но не желает быть господином их.
Так как оно не имеет никакой страсти, то оно называется ничтожным.
Его можно назвать маленьким, ибо мельчайшая вещь возвращается в него.
Все существа подчиняются ему, но оно не считает себя господином их;
поэтому его можно назвать великим.
Мудреца нельзя назвать великим, хотя он совершает великие дела.
Причина того, что святой легко достигает величия, заключается в том, что он не величает самого себя.

[96t35c] **Д. П. Конисси**
(Святой) берет великого слона и идет по всему миру.
Ходит, но не делает никакого вреда.
От удовольствия, спокойствия, тишины и величия дает ему (миру) пищу.
Проходящий пришелец остановился.
Когда он говорит о Тао, то как просты его слова!
(Когда) они произнесены, (то бывают) без всякого вкуса.
(Люди) смотрят на него (Тао), но не видят; они слушают его, но не слышат; они употребляют его, но оно не истощается.

[96t36c] **Д. П. Конисси**
То, что сжимается, - расширяется.
То, что ослабевает, - усиливается.
То, что уничтожается, - восстановляется.
То, что лишается всего, - имело все.
Все это называется то скрытым, то ясным.

Мягкое побеждает твердое, слабое - сильное.
Как рыба не может покинуть глубины, так страна не может оставаться без орудия.
Сильное орудие правления не должно быть показываемо народу.

[96t37c] **Д. П. Конисси**
Тао ничего не делает, но нет того, чего бы оно не сделало.
Если царь и князья хорошо будут управлять страной, то все существа преобразуются так, как они желают.
Если все существа придут в сильное движение, то я удержу их посредством безымянной простоты.
Безымянная простота не имеет страсти.
Когда (в мире) не будет страстей, то будет спокойствие повсеместное и на всей земле будет правда.

[96t38c] **Д. П. Конисси**
Люди высшей нравственности не считают себя нравственными, поэтому они имеют высшую нравственность.
Люди низшей нравственности не в состоянии потерять свою нравственность и поэтому безнравственны.
Люди высшей нравственности, находясь в бездеятельности, не делают ничего.
Люди низшей нравственности делают то, что делают.
Люди высшего человеколюбия, находясь в бездеятельности, совершают дела, но не признают их (за свои).
Люди высшей справедливости делают то, что делают.
Люди высшей почтительности уважают других, но другие не уважают их, поэтому они принудят их к почтению.
Отсюда когда потеряно Тао, то является нравственность;
когда нравственность забыта, то является человеколюбие;
когда человеколюбие оставлено, то является справедливость;
когда справедливость покинута, то является почтительность.
Вот почему почтительность есть последствие ослабления верности и преданности (господину) и начало всякого рода беспорядков в стране.
Поэтому великий человек держится существенного и оставляет ничтожное.
Он все делает по правде, но никогда не будет опираться на законы.
Берите первое и бросьте последнее.

[96t39c] **Д. П. Конисси**
В древности всякое существо достигало единства.
Небо, достигши единства, стало чистым.
Земля, достигши единства, стала спокойной.
Дух, достигши единства, стал разумным.
Долина, достигши единства, стала полной.
Всякая вещь, достигши единства, стала существовать.
Цари и князья, достигши единства, стали образцами для мира.
Все это было достигнуто, благодаря единству.
Достижение единства во всем этом одно и то же.
Если бы небо было не чисто, то казалось бы, что оно боится взрыва.
Если бы земля потеряла спокойствие, то она была бы в опасности разрушения.

Если бы дух лишился разумности, то он потерял бы (свойство) быть духом.
Если бы пустота долины наполнилась чем-нибудь, то она перестала бы быть долиной.
Всякая вещь, если бы перестала расти, уничтожилась бы.
Если бы цари и князья потеряли верность и преданность (своих подданных), то были бы свергнуты.
Отсюда благородные люди смотрят на неблагородных, как на свое начало; высшие смотрят на низших, как на свое основание.
Цари и князья заботятся о бедных сиротах и вдовах.
Этим же они могли бы свидетельствовать о своем происхождении.
Ужели это неправда?
Если разобрать телегу по частям, то не останется телеги.
Я не желаю быть гордым, как драгоценный камень.
Также я не желаю быть презираемым, как дикий камень.

[96t40c] **Д. П. Конисси**
Движение Тао происходит от сопротивления (всему вещественному).
Слабость есть отличительная черта действия Тао.
Все вещи произошли от бытия (что), и бытие от небытия (ничто).

[96t41c] **Д. П. Конисси**
Когда ученый услышит о Тао, то будет стараться осуществить услышанное (в жизни).
Когда человек средней руки услышит о Тао, то не будет соблюдать его до конца жизни.
Когда малоученый услышит о Тао, то он будет глумиться над ним.
Если бы над ним не глумились, то оно и не заслужило бы имени Тао.
Поэтому сказано следующее:
Тот, кто разумеет очевидное Тао, кажется облеченным мраком;
тот, кто идет вперед, держась Тао, кажется идущим назад;
тот, кто на высоте Тао, кажется обыкновенным смертным.
Человек высшей добродетели похож на долину.
Человек высшей чистоты похож на презираемого.
Человек высшей нравственности похож на неспособного.
Совершающий добродетель похож на вора.
Испытывающий правду похож на похищающего вещи.
У большого четырехугольника не видно углов.
Большой сосуд не скоро делается.
Самый громкий голос не слышен.
Большое изображение не имеет никакой формы.
Тао скрыто от нас, поэтому оно не имеет имени.
Оно снабжает все существа (силой) и ведет их к усовершенствованию.

[96t42c] **Д. П. Конисси**
Тао произвело одно, одно - два, два - три, а три - все вещи.
Всякая вещь носит на себе инь и заключает в себе ян.
Находящийся в исступленном состоянии легко умиротворяется.
Люди ненавидят тех, которые оставляют сирот и бедняков без помощи.
Поэтому умные цари и князья помогают сиротам и беднякам; они же сделаются предметом похвалы (народа).

Потеря есть начало размножения, множество - начало потери.
Чему другие учили и учат по справедливости, тому и я учу людей.
Очень сильный не умирает естественною смертью.
Я сделаюсь отцом учения.

[96t43c] **Д. П. Конисси**
Мир смирен: все люди едят и бегают над его твердынею.
Небытие поглощается беспромежуточным.
Поэтому я знаю, что бездеятельность имеет высокое достоинство.
Бессловесное учение и бездеятельность полезнее всего существующего между небом и землей.

[96t44c] **Д. П. Конисси**
Что ближе к себе: свое имя или собственное тело?
Что больше: свое тело или богатство?
Что тяжелее испытать: приобретение или потерю?
Кто увлекается, тот потерпит большой убыток.
Кто имеет много, тот может потерять больше, нежели имеющий мало.
Кто знает, чем человек должен быть довольным, тот никогда не потерпит позора.
Кто, зная границы своей деятельности, не приблизится к опасностям, тот будет жить долго.

[96t45c] **Д. П. Конисси**
Великое совершенство похоже на несовершенство, но оно неистощимо (хотя беспрестанно употребляется).
Великая полнота похожа на пустоту, но польза ее неизмерима.
Великая прямота кажется непрямой.
Великий мастер кажется тупым.
Великий оратор кажется заикающимся.
Когда беготня преодолевает (тишину), то бывает холодно;
когда тишина преодолевает беготню, то бывает тепло.
Полная тишина есть пример всего мира.

[96t46c] **Д. П. Конисси**
Когда во всем мире соблюдается Тао, то быстрые кони забудутся и вся нива будет обрабатываться.
Когда на всей земле не соблюдается Тао, то военные кони будут расти в окрестностях города.
Нет греха тяжелее страстей.
Нет беды тяжелее незнания удовлетворения.
Нет преступления тяжелее жадного хотения приобрести много.
Вот почему знающий меру бывает доволен своим положением.

[96t47c] **Д. П. Конисси**
Не выходя из дома, (мудрецы) знают, что делается на свете.
Не глядя в окно, они видят Небесное Тао.
Чем больше удаляешься от дома, тем меньше знаешь.
Поэтому, святые (мудрецы) достигают знания, не выходя никуда;
не видя предмета, они знают название его.
Не делая ничего, они совершают много.

[96t48c] **Д. П. Конисси**
Учение прибавляется со дня на день, но Тао теряется со дня на день.
Эта потеря увеличится и дойдет до желания неделания.
Когда человек дойдет до неделания, то нет того, чего бы не было сделано.
Если в мире все в порядке, то следует завладеть им, но если нет, то не следует.

[96t49c] **Д. П. Конисси**
Святые люди не имеют определенного (чувства), ибо они принимают чувство простолюдина как свое.
Добрых людей я принимаю уже потому одному, что они добры.
Злых принимаю, как добрых.
Искренним людям я верю;
также и верю неискренним,
ибо в этом и состоит верх искренности.
Когда святые живут на земле, то они просты и тихи;
они питают ко всем одинаковое чувство.
Для (блага) мира они делают свои сердца темными.
Простые люди будут смотреть на них (как на своих учителей) и будут слушать сказание о их делах.
Святые смотрят на народ, как на младенца.

[96t50c] **Д. П. Конисси**
(Все существа), уходя из жизни, входят в смерть.
Жизнь имеет 13 ступеней своего развития; смерть также имеет 13 ступеней.
Ступеней человеческой жизни, которая постоянно стремится к смерти, опять 13.
Это почему?
Потому что стремление к жизни слишком сильно.
Я слышал, что ведущий воздержную жизнь не боится ни носорога, ни тигра, ни быть на поле сражения без воинского наряда, ибо на нем нет места, куда носорог мог бы ударить рогом, тигр мог бы вонзить свои острые когти и воин мог бы нанести удар мечом.
Это почему?
Потому что для ведущего жизнь воздержную не существует смерти.

[96t51c] **Д. П. Конисси**
Тао производит существа, добродетель кормит их;
они дают им вещественную форму, а могущество их совершенствует вещи.
Поэтому все существа почитают Тао и добродетель.
Никто не сообщал Тао его достоинства, а добродетели - ее ценности, но они сами собой вечно обладают ими.
Поэтому Тао производит вещи, питает их, дает им расти, совершенствует, делает зрелыми, кормит и защищает.
Оно производит их и не делает их своими;
делает их тем, что они есть, и не хвалится ими;
оно царствует над ними и оставляет их свободными.
Вот что называют глубокой добродетелью.

Вселенная имеет начало, которое и есть мать всего мира.
По матери можно знать ее сына.
Когда сын известен, то и мать будет сохранена невредимо.
Хотя тело умирает, но (сущность его) никогда не уничтожается.
Кто закрывает уши и глаза, тот останется без употребления во всю жизнь.
Кто прислушивается ко всему изящному и старается удовлетворить страстям, тот никогда не спасется.
Могущий разбирать мельчайшие вещи называется ясновидцем.
Сохраняющий мягкость называется могущественным.
Употребляющий свет называется блестящим.
Тело истлевает, не оставляя ничего после себя.
Это и есть наследие вечности.

[96t53c] **Д. П. Конисси**
Я беззаботен, но имею ум, поэтому живу в великом Тао.
Я раздаю милостыню в великом страхе.
Большая дорога (Тао) гладка и ровна, но люди любят ходить по тропинкам.
Когда правительство перестанет заботиться о благосостоянии народа, то поля опустеют и государственное хлебохранилище не наполнится никогда;
люди будут надевать на себя разноцветные одежды, носить острые мечи и питаться изысканными блюдами.
Все это совокупно называется разбойничьею гордостью.
Ужели это есть Тао?!

[96t54c] **Д. П. Конисси**
Крепко стоящего нельзя вынуть.
Хорошо связанного нельзя развязать.
Дни кончины предков празднуются потомками.
Кто совершает это для самого себя, тот делает добро только для одного себя;
кто совершает это для своего дома, тот делает добро для своего дома;
кто совершает это для своей деревни, тот будет начальником в ней;
кто совершает это для своей страны, тот делает добро для страны;
кто совершает это для всего мира, тот делает добро для всего мира.
Я изучаю тело по телу, дом - по дому, деревню - по деревне, страну - по стране и, наконец, весь мир - по всему миру.
Но могу ли я знать, почему вселенная такая, а не иная?

[96t55c] **Д. П. Конисси**
Достигший нравственного совершенства похож на младенца.
Вредоносные насекомые не укусят его; дикие звери не сделают ему вреда;
хищные птицы не вопьются в него своими когтями.
Хотя у него кости мягки и мышцы слабы, но он будет держать предмет очень крепко.
Хотя он не знает, как совокупляется самец с самкою и как образуется зачаток во чреве, но ему известно до подробности все, что совершается в мире.
Хотя он кричит целый день, но голос его никогда не ослабеет, ибо в нем (голосе) существует полнейшая гармония.
Знание гармонии называется постоянством.

Знание постоянства называется очевидностью.
Творить приятное только для плоти называется нечистотою.
Душа, могущая господствовать над своим настроением, есть сильная (душа).
Вообще, цветущее отцветает, ибо в нем нет Тао.
Где нет Тао, там скоро наступит конец.

[96t56c] **Д. П. Конисси**
Знающий много молчалив, а говорящий много не знает ничего.
Тао закрывает свои глаза, затворяет ворота, ослабляет острие, развязывает узлы, смягчает свет, собирает мелочь.
Это называется непостижимым единством.
Сродниться с Тао невозможно;
пренебрегать им нельзя;
воспользоваться им непозволительно;
повредить ему никто не может;
чтить его нет основания;
презирать его также нет причины.
Отсюда видно, что Тао благороднее всего существующего в мире.

[96t57c] **Д. П. Конисси**
Без справедливости нельзя управлять страной.
Для того чтобы вести войну успешно, необходима ловкость.
Когда в стране нет (еще) беспорядка, (тогда) следует им овладеть.
Как я могу постигнуть, почему в мире такой порядок, а не иной?
Когда в стране много такого, что должно быть уничтожено, народ обеднеет.
Когда в стране много удобных машин, то народ перестает работать.
Когда в народе много искусных мастеров, то увеличится число чудовищных вещей.
Когда в государстве много законов и постановлений, то число преступников увеличится.
Отсюда учит и святой:
"Когда я ничего не делаю (т.е. не предпринимаю ничего нового), то народ делается лучше;
когда я спокоен, то народ делается справедливым;
когда я не предпринимаю ничего нового, то народ обогащается;
когда во мне не будет никакой страсти, то народ сделается простодушным".

[96t58c] **Д. П. Конисси**
Когда не будет мелочности в управлении государством, то народ обогатится.
А когда управление государством мелочно, то народ обеднеет.
О, беда! Где благо, там и несчастье.
О, благо! Где беда, там и счастье.
Но я не знаю, где оканчивается беда и где начинается счастье.
Где нет правды, там люди будут относиться к правде как к чему-то странному, к добру - как к призрачному.
Издавна люди находятся в заблуждении, поэтому святой муж никогда не сделает им уступки.
Он не корыстолюбив, но ничего не раздает им.
Он - праведник, поэтому он ничего не сделает своевольно.
Хотя он - светило для всего мира, но не любит блеска.

[96t59c] **Д. П. Конисси**
Для того чтобы служить небу и управлять людьми, всего лучше соблюдать воздержание.
Воздержание - это первая ступень добродетели, которая и есть начало нравственного совершенства.
Человек высокой нравственности преодолеет всякую трудность.
Глубина и могущество силы преодолевшего всякую трудность неизмеримы.
Он может быть владыкою мира.
Владыка мира и есть мать вселенной.
Мать вселенной будет жить вечно, ибо она имеет глубокий корень и крепкое основание.

[96t60c] **Д. П. Конисси**
Управление великой страной напоминает приготовление вкусного блюда из мелких рыб.
Когда святой муж будет управлять страною, то злой дух перестанет быть богом.
Это, впрочем, не значит, что злой дух перестанет быть богом (или духом), - но люди не будут терпеть вреда от него.
Святой муж никому не сделает вреда и никто не повредит ему.
Поэтому нравственность святого мужа все более и более усовершенствуется.

[96t61c] **Д. П. Конисси**
Великая страна похожа на устье реки.
Совокупление вселенной есть начало всего мира.
Самка всегда побеждает самца потому, что она тиха и спокойно стоит ниже самца.
Когда большая страна стоит ниже маленькой, то первая завладеет последней.
Когда маленькая страна стоит ниже большой, то первая завладеет последней.
Отсюда видно, что стоящая ниже других страна будет владычествовать над всеми другими.
Что такое большая страна и маленькая?
Большая страна - вместилище многих народов, а маленькая - вместилище немногих.
Если правитель страны будет стоять ниже других, то он осуществит свой добрый замысел.
Отсюда ясно, что желающий быть великим должен быть ниже всех.

[96t62c] **Д. П. Конисси**
Тао есть глубина бытия.
Оно и есть сокровище добрых людей.
Оно также и есть то, что держат злые люди.
Изящные слова могут быть куплены ценою.
Добрые поступки могут быть совершаемы всеми.
Хотя люди злы, но нельзя совсем бросить их.
Выбирают царя и трех великих сановников.
Имея в руках драгоценный камень, они разъезжают в колесницах, но это бесконечно хуже, нежели проповедовать Тао, сидя на одном месте.
В чем заключается причина того, что в древности Тао глубоко уважалось?
Не в том ли заключается, что благодаря Тао прощались преступники?
Оттого, быть может, в древности Тао почиталось во всем мире.

[96t63c] **Д. П. Конисси**
Все должны быть бездеятельными.

Всем следует соблюдать полное спокойствие.
Все должны употреблять простейшую пищу.
Великое есть малое, многое - не многое.
Ненавидящим вас отмстите добром.
Когда вы благополучны, то подумайте, что нужно предпринять во время беды, так как великая беда начинается с незначительной.
Беда всего мира происходит из мелочи, как великое дело - из малых.
Святой муж не желает быть великим мира, поэтому и совершает великое дело.
Легко достигнутое согласие не заслуживает доверия.
Где много легких дел, там много и трудных.
Вот почему святой муж всегда живет как в беде, поэтому для него не существует беды.

[96t64c] **Д. П. Конисси**
Не трудно держать легкую вещь.
Легко предотвратить (беду) до полного обнаружения.
Слабого легко разбить, мелкого легко рассеять.
Следует устраивать защиту тогда, когда еще нет (в том) надобности (т.е. нет врагов).
Следует заботится о спокойствии страны тогда, когда еще в ней все в порядке.
Дерево, которого нельзя обнять руками (т.е. большое), выросло из маленького.
Девятиэтажная башня созидается из клочков земли.
Чтобы пройти тысячу верст, нужно начать ходьбу с одного шага.
Кто может создать, тот может и разрушить.
Имеющий может потерять.
Святой муж ничего не создает, поэтому ничего не разрушает;
он ничего не имеет, поэтому ничего не потеряет.
Кто, предпринимая дело, спешит наскоро достигнуть результата, тот ничего не сделает.
Кто осторожно оканчивает свое дело, как начал, тот не потерпит неудачи.
Поэтому святой муж всегда старается быть беспристрастным, не придавать ценности труднодобываемым вещам и не слушать бесплодного учения.
Он повторяет то, что делалось многими.
Он будет стараться, чтобы пособить естественному течению вещей, но ни в каком случае, не препятствовать ему.

[96t65c] **Д. П. Конисси**
В древности исполнявшие Тао не старались просветить народ: они держали его в невежестве.
Причина того, что трудно управлять народом, заключается в том, что народ просвещается и в нем много умных.
Управляющий страною посредством умствования погубит ее.
Когда страна управляется без всякого умствования, то в ней будет благоденствие.
Знающий (сущность) этих двух пунктов будет образцом нравственной жизни (для народа).
Его будут называть (человеком) непостижимой добродетели.
О, глубока и непостижима нравственность!
Она противоположна по своему существу всему вещественному, но никогда не сопротивляется ничему.
Она соблюдает великое послушание.

Причина того, что реки и моря суть цари многочисленных долин (по которым текут речки), заключается в том, что первые находятся ниже последних.
Вот почему реки и моря суть цари многочисленных долин.
Когда святой желает поднять народ, то понижает его.
Когда он желает поставить его вперед, то ставит его назад.
Отсюда - когда народ займет высокое место, то не будет гордиться;
когда пойдет вперед, то никому не сделает вреда.
Когда осуществится все, что сказано мною, то на всей земле будет мир.
Когда будет мир на всей земле, то не будет ссоры.

[96t67c] **Д. П. Конисси**
На всей земле люди говорят, что мое Тао велико.
Правда, оно похоже на безумство, но несомненно велико.
Я имею три преимущества, которые я сохраняю как сокровище.
Первое из трех сокровищ есть человеколюбие.
Второе - бережливость.
Третье - смирение или то, благодаря чему я не желаю быть руководителем для всей земли.
Человеколюбивые храбры.
Бережливые щедры.
Смиренные или не желающие быть руководителями для всей земли будут полезны на долгое время.
Кто храбр, не зная человеколюбия, кто щедр, не зная бережливости, кто идет вперед, не зная смирения, тот погибнет.
Кто ведет войну ради человеколюбия, тот победит врагов.
Если он защитит народ, то оборона будет сильна.
Это потому, что его спасет Небо, которое дорожит подобным человеком.

[96t68c] **Д. П. Конисси**
Истинно просвещенный человек никогда не воюет.
Превосходный воин никогда не разгневается.
Победитель никогда не попросит содействия постороннего.
Умеющий пользоваться людьми охотно занимает низкое место, что называется добродетелью без сопротивления, средством для (благоразумного) пользования (услугами) людей и, наконец, согласованием с Небом.
Таково древнее постановление.

[96t69c] **Д. П. Конисси**
В "военном искусстве" говорится, что на войне я никогда не бываю активным, а - пассивным.
Не сделав ни шага вперед, идти назад аршин - значит уступить врагам оспариваемое без сопротивления.
Когда нет врагов, то не бывает войны.
Нет беды тяжелее, чем презирать врагов.
Презирать врагов - все равно что бросить богатства без надобности.
Плачущий об увеличении своего войска всегда будет победителем.

[96t70c] **Д. П. Конисси**
Я говорю, что очень легко приобрести знание и творить благие дела.

Между тем на всей земле никто не знает этого и не делает благих дел.
В словах должен быть принцип, в делах - господин.
Нет знания.
Вот почему я не знаю ничего.
Знающих меня мало, поэтому я почтителен.
Отсюда святой муж надевает на себя худую одежду, но в себе имеет драгоценный камень.

[96t71c] **Д. П. Конисси**
Кто, зная много, держит себя как незнающий ничего, тот - нравственный муж.
Кто, не зная ничего, держит себя, как знающий много, тот болен.
Кто болеет телесною болезнью, тот еще не (есть) действительно больной.
Святой муж никогда не болеет, ибо он не знает болезни, хотя болеет (телом).

[96t72c] **Д. П. Конисси**
Когда народ перестает бояться сильного, то сильный нападет на него.
Каково бы ни было жилище, оно для святого не тесно.
Каково бы ни было место рождения, для святого все равно.
Никакой предмет не стесняет его, поэтому и он не стесняет никого.
Хотя святой хорошо знает свое достоинство, но никогда не обнаружить этого.
Хотя ему не чуждо самолюбие, но он никогда не гордится.
Вот почему все должны удалиться от первого и приблизиться к последнему.

[96t73c] **Д. П. Конисси**
Кто силен и дерзок, тот убьет людей.
Кто силен, но не дерзок, тот оживит людей.
Эти оба либо полезны, либо вредны.
Никто не знает, почему небо любит один предмет, а другой нет.
Решить этот вопрос даже святой муж не может.
Небесное Тао никогда не ссорится, поэтому оно побеждает всех.
Хотя оно мало говорит, но обсуждает лучше, нежели многоречивые.
Никто не вызывает (Тао), но оно присутствует везде.
Нам кажется, что оно ничего не делает, но на самом деле оно действует лучше всех.
Небесная сеть не плотна и как будто пропускает все предметы через себя; но из нее ничего не выйдет наружу.

[96t74c] **Д. П. Конисси**
Народ, не боящийся смерти, нельзя страшить смертью.
Народ, приученный бояться смерти, нельзя страшить делами, могущими причинить ему смерть.
Есть люди, должность которых - убивать.
Убивающий людей вместо палача называется наместником убийцы.
Наместник убийцы повредит свою руку, совершая убийство.

[96t75c] **Д. П. Конисси**
Оттого народ голодает, что слишком велики и тяжелы государственные налоги.
Это именно - причина бедствия народа.
Народ сделается непослушным, если правительство будет хлопотать о нем чрезмерно много.

Это именно - причина непослушания народа.
Когда народ слишком сильно ищет жизни, то он будет смотреть на смерть как на самое легкое дело.
Это и есть причина пренебрежительного отношения народа к смерти.
Вот почему не ищущий жизни мудрее ищущего ее.

[96t76c] **Д. П. Конисси**
Новорожденный младенец нежен и слаб.
Труп мертвеца крепок и не гибок.
Только что распустившееся растение нежно и слабо.
Засохшее растение твердо и не гибко.
Отсюда ясно, что нежное и слабое живет.
Сильное войско не победоносно.
Нельзя поломать связку прутьев.
Сильное находится внизу, а слабое - наверху.

[96t77c] **Д. П. Конисси**
Небесное Тао похоже на человека, натягивающего тетиву на лук:
высокий поднимает лук наверх, а низкий поднимает взор наверх.
Имеющий избыток потерпит потерю.
Страдающий недостатком будет иметь избыток.
Потому что небесное Тао всегда отнимает у изобилующих и отдает страдающим недостатком.
Человеческое Тао, впрочем, наоборот: оно отнимает от не имеющих и отдает изобилующим.
Поэтому кто посвящает свой избыток всему миру, тот имеет Тао.
Святой муж делает много, но не хвалится сделанным;
совершает заслуги, но не признает их, потому что он не желает обнаружить свою мудрость.

[96t78c] **Д. П. Конисси**
Хотя в мире нет предмета, который был бы слабее и нежнее воды, но она может разрушить самый твердый предмет.
В мире нет вещи, которая победила бы воду, ибо она нежнее и слабее всех вещей.
Известно, что слабое существо побеждает сильное, нежное - крепкое, но никто этого не признает.
Святой муж говорит, что получивший (от царя) удел сделается господином;
но принимающий на себя несчастье страны сделается царем ее.
Голос истины противен слуху.

[96t79c] **Д. П. Конисси**
После сильной ненависти останется слабая ненависть.
Ненавидящий, хоть слабо, не может творить добро для ненавистного.
Святой берет от всех клятвенное свидетельство, но не притесняет никого.
Нравственный человек соблюдает клятву, а безнравственный нарушает.
Небесное Тао не имеет родственников, поэтому оно всегда склоняется к добрым людям.

[96t80c] **Д. П. Конисси**
Так как в маленьком государстве мало народа, то хотя в нем много лучших орудий, но они останутся без употребления и без надобности.
Народ такого государства потеряет всякую предприимчивость и умрет на месте своего рождения, не

двигаясь никуда.
Если у него много возов и кораблей, то они останутся без употребления.
Хотя он имеет благоустроенное войско, но негде выставить его.
Он будет плесть веревку, чтобы ею оградить свое государство.
Хотя он кушает хорошо, одевается красиво, устраивает покойное жилище и живет весело, но существование его будет бесполезно.
Хотя такое государство находится с соседним в таком близком расстоянии, что слышны пение петухов и лай собак в нем, но сообщения между ними никогда не будет.

[96t81c] **Д. П. Конисси**
Голос истины неизящен, а изящная речь лжива.
Нравственный человек не красноречив, а красноречивый - лжец.
Мудрец не знает многого, а знающий много - не мудрец.
Святой муж ничем не запасается.
Если запасается чем-нибудь, то для других.
Когда он имеет что-нибудь, то все раздает другому.
Поэтому запас его все более и более увеличивается.
Небесное Тао полезно: оно не имеет в себе ничего вредного для людей.
Тао святых - творить добро и не ссориться.

Путь, о котором можно поведать, - не постоянный Путь.
Имя, которое можно назвать, - не постоянное Имя.
Где имени нет - там начало всех вещей,
Где имя есть - там мать всех вещей.
Посему, постоянно не имея желания, видишь его исток,
А постоянно имея желание, видишь его исход.
То и другое является совместно,
Они имеют разные имена, но одинаково сказываются.
В сокровенном есть еще сокровенность:
Вот откуда исходит все утонченное.

[97t02c] **В. В. Малявин**
Когда в мире узнают, что прекрасное - прекрасно, тотчас появляется уродство.
Когда в мире узнают, что доброе - добро, появляется зло.
Наличное и отсутствующее друг друга порождают.
Трудное и легкое друг друга создают.
Длинное и короткое друг друга выявляют.
Высокое и низкое друг друга устанавливают.
Музыка и голос друг другу откликаются.
Предыдущее и последующее друг за другом следуют.
Так будет всегда.
Посему премудрый человек предается делу недеяния
И претворяет бессловесное учение.
Десять тысяч вещей созидают - и он ничего не отвергает,
Рождают - и он ничем не владеет.
Все свершают - и он за это не держится.
Успехи приходят - и он не помещает себя в них.
Он ни в чем не пребывает - и от него ничто не уходит!

[97t03c] **В. В. Малявин**
Не возвышайте "достойных" - тогда люди не будут соперничать.
Не цените редкостные товары - тогда люди не будут разбойничать.
Не выставляйте напоказ привлекательные вещи - тогда в людских сердцах не будет смущения.
Вот почему премудрый человек, управляя людьми,
Опустошает их головы
И наполняет их животы,
Ослабляет их стремления
И укрепляет их кости.
Он всегда делает так, что у людей нет ни знаний, ни желаний,
А знающие не осмеливаются что-либо предпринять.
Действуй неделанием - и во всем будет порядок.

[97t04c] **В. В. Малявин**
Путь - все вмещающая в себя пустота,
Пользуйся ею - и она как будто не переполняется.

О, бездна! Предок десяти тысяч вещей!
Тупит свои острые края,
Развязывает свои узлы,
Смиряет свое свечение,
Уподобляется своему праху.
Неуловимое! Оно как будто существует вечно.
Я не ведаю, чье оно дитя.
Кажется, оно предшествует Верховному Владыке!

[97t05c] **В. В. Малявин**
Небо и Земля не обладают человечностью,
Для них вся тьма вещей - что соломенные собаки.
Премудрый человек не обладает человечностью,
Для него все люди - что соломенные собаки.
Пространство между Небом и Землей
Подобно кузнечным мехам:
Пустое - а нельзя его устранить,
Надави на него - и из него выйдет еще больше.
Кто копит знания, тот скоро утомится,
Так не лучше ли держаться срединности?

[97t06c] **В. В. Малявин**
Дух, клонящийся долу, не умирает;
Сие зовется Сокровенной Родительницей.
Врата Сокровенной Родительницы
Называются корнем Неба и Земли.
Вьется и вьется, такой переменчивый!
Пользу его исчерпать невозможно.

[97t07c] **В. В. Малявин**
Небо вечно, Земля неизбывна.
Небо и Земля вечны и неизбывны благодаря тому, что не существуют для себя.
Вот почему они могут быть вечны и неизбывны.
Оттого премудрый человек ставит себя позади, а оказывается впереди;
Не думает о себе - и себя сохраняет.
Не желает ничего для себя -
Не потому ли может обрести все свое?

[97t08c] **В. В. Малявин**
Высшее благо подобно воде:
Вода приносит благо всей тьме вещей и ни с чем не борется.
Собирается в местах, которых люди избегают,
Вот почему она близка Пути.
Для жизни благотворна земля;
Для сердца благотворна глубина;
В общении благотворна доброта;

В речах благотворно доверие;
В правлении благотворно смирение;
В деяниях благотворно умение;
В движениях благотворно само время.
Лишь там, где нет соперничества, не будет и ущерба.

[97t09c] **В. В. Малявин**
Чем удерживать наполненное до краев,
Лучше вовремя остановиться.
Кто старается наточить острее,
Не сохранит достигнутого надолго.
Коли золото и яшма заполнили покои,
Никому не под силу их сберечь.
Тот, кто кичится богатством и знатностью,
Сам навлечет на себя беду.
Подвиг совершен, слава явилась, а сам скрылся -
Вот Путь Небесный.

[97t10c] **В. В. Малявин**
Пестуй душу, обнимай Единое - можешь ли не терять их?
Сосредоточь дух, приди к мягкости - можешь ли быть как младенец?
Очищай сокровенное зеркало - можешь ли быть без изъяна?
Люби народ, блюди порядок в царстве - можешь ли пребывать в недеянии?
Небесные врата отворяются и затворяются - можешь ли быть женственным?
Постигай все в четырех пределах - можешь ли обойтись без знания?
Порождает и вскармливает,
Все рождает и ничем не обладает.
Всему поспешествует, а не ищет в том опоры,
Всех старше, а ничем не повелевает:
Вот что зовется сокровенным совершенством.

[97t11c] **В. В. Малявин**
Тридцать спиц колеса сходятся в одной ступице,
Но польза от колеса в том, что в ступице нет ничего.
Лепят из глины сосуд,
Но польза от сосуда в том, что внутри него нет ничего.
Прорезывают окна и двери, чтобы получился дом:
А польза от дома там, где дома нет.
Поистине:
То, что имеешь, приносит выгоду.
А то, чего не имеешь, приносит пользу.

Тот, кто гонится во весь опор за добычей, теряет разум.
Редкостные товары портят людские нравы.
Вот почему премудрый человек
Служит утробе и не служит глазам
И потому отвергает то и берет это.

[97t13c] **В. В. Малявин**
Милость бесчестит: ее опасайся.
Цени великое несчастье как самого себя.
Что значит "милость бесчестит: ее опасайся"?
Милость для нас - униженье.
Бойся, когда ее получаешь,
Бойся, когда ее теряешь.
Вот что значит "милость бесчестит: ее опасайся".
Что значит "цени несчастье как самого себя"?
Оттого, что у меня есть "я", у меня есть и несчастье.
Не будь у меня моего "я", могу ли я быть несчастлив?
Поистине: тому, кто ценит себя больше мира,
Можно вверить мир.
Тому, кто любит себя, как мир,
Можно вручить мир.

[97t14c] **В. В. Малявин**
Смотрю на него и не вижу: называю его глубочайшим.
Вслушиваюсь в него и не слышу: называю его тишайшим.
Касаюсь его и не могу ухватить: называю его мельчайшим.
Эти три невозможно определить,
Посему я смешиваю их и рассматриваю как одно.
[Это одно] вверху не светло, внизу не темно,
Тянется без конца и без края, нельзя дать ему имя.
И вновь возвращается туда, где нет вещей.
Оно зовется бесформенной формой, невещественным образом,
Оно зовется туманным и смутным.
Встречаешь его - не видишь его главы,
Провожаешь его - не видишь его спины.
Держаться Пути древних,
Чтобы повелевать ныне сущим,
И знать Первозданное Начало -
Вот что такое основа и нить Пути.

[97t15c] **В. В. Малявин**
Те, кто в древности претворял Путь,
Погружались в утонченное и изначальное, сокровенно все проницали.
Столь глубоки они были, что познать их нельзя.
Оттого, что познать их нельзя,
Коли придется описать их облик, скажу:

Сосредоточенные! Словно переходят реку в зимнюю пору.
Осторожные! Словно опасаются беспокоить соседей.
Сдержанные! Словно в гостях.
Податливые! Словно тающий на солнце лед.
Могучие! Словно один цельный ствол.
Все вмещают в себя, словно широкая долина.
Все вбирают в себя, словно мутные воды.
Если мутной воде дать отстояться, она станет чистой.
А то, что долго покоилось, сможет постепенно ожить.
Кто хранит этот Путь, не знает пресыщенья.
Не пресыщаясь, он лелеет старое и не ищет новых свершений.

[97t16c] **В. В. Малявин**
Дойди в пустоте до предела.
Блюди покой со всем тщанием.
Все вещи в мире возникают совместно,
Я так прозреваю их возврат.
Вещи являются без порядка, без счета,
И каждая возвращается к своему корню.
Возвращение к корню - это покой,
Покой - это возвращение к судьбе.
Возвращение к судьбе - это постоянство,
Знание постоянства - это просветленность,
А не знать постоянства - значит слепотой навлечь беду.
Кто знает постоянство, тот все вместит в себя;
Кто все вместит в себя, тот беспристрастен.
Кто беспристрастен, тот царствен,
Кто царствен, тот подобен Небу.
Кто подобен Небу, тот претворяет Путь.
Кто претворяет Путь,
Тот пребудет долго
И до конца дней избегнет вреда.

[97t17c] **В. В. Малявин**
С наивысшими было так: низы просто знали, что они есть.
Ниже стояли те, кого все любили и прославляли.
Еще ниже стояли те, кого боялись,
А ниже всех - те, кого презирали.
Тому, кто в себе не имеет достаточно доверия, доверия не окажут.
Нерешительный! Вот так он ценит слова.
Добьется успеха, сделает дело,
А люди говорят: "У нас все получилось само собой".

[97t18c] **В. В. Малявин**
Когда Великий Путь в упадке, являются "человечность" и "долг".
Когда возникают суемудрие и многознайство, является великая ложь.

Когда среди родичей нет согласия, являются почтительность и любовь.
Когда государство во мраке и в смуте, являются "преданные подданные".

[97t19c] **В. В. Малявин**
Устраните "мудрость", отбросьте "разумность",
И польза людям будет стократная.
Устраните "человечность", отбросьте "справедливость",
И люди вернутся к почитанию и любви.
Устраните ловкость, не ищите выгоды,
И в мире не станет воров и разбойников.
Три эти суждения не открывают всей истины,
Посему добавлю кое-что сюда относящееся:
Будь безыскусен, храни первозданную цельность;
Избавляйся от себялюбия, не угождай желаниям.

[97t20c] **В. В. Малявин**
Отбрось ученость, и не будешь знать печали.
"Конечно!" и "Ладно!" - далеки ль друг от друга?
Красота и уродство - что их разделяет?
Страхи людские - нельзя их не страшиться.
Темное! Пустынное! Не достать его дна!
Все люди исполнены радости,
Словно празднуют великую жертву или весной восходят на башню.
Я один покоен, ничем не выдаю себя, как младенец, еще не улыбнувшийся,
Бессильно влачащийся путник - и некуда возвращаться!
Все вокруг имеют в избытке,
Я один как будто лишен всего.
У меня сердце глупца - смутное, простодушное!
Обыкновенные люди так скоры на суд,
Я один пребываю в неведении.
Обыкновенные люди судят так тщательно,
Я один отрешен и бездумен.
Покоен в волнении! Словно великое море.
Мчусь привольно! Словно нет мне пристанища.
У обыкновенных людей на все есть причина,
Я один прост и прям, словно неуч.
Я один не таков, как другие,
Потому что умею кормиться от Матери.

[97t21c] **В. В. Малявин**
Сила всевмещающего совершенства исходит единственно от Пути.
Путь же вот что такое: туманное, смутное.
О, смутное! О, туманное! А в нем есть образы!
О, туманное! О, смутное! А в нем есть нечто!
О, сокрытое! О, темное! А в нем есть семена.
Эти семена такие подлинные! Они дают уверенность.

С древности и поныне имя его не преходит,
Благодаря ему опознаем величие превращений.
Откуда я знаю, что таково величие всех превращений?
Благодаря этому.

[97t22c] **В. В. Малявин**
Что скривилось - тому быть целым.
Что согнулось - тому быть прямым.
Порожнему - быть полным.
Ветхому - новым быть.
Кто имеет мало, получит много.
Кто имеет много, тот слеп.
Вот почему премудрый держится за Единое
И так становится мерилом мира.
Не имеет "своего взгляда" и потому просветлен.
Не имеет "своего мнения" и потому всем светит.
Не рвется вперед и потому имеет заслуги.
Не хвалит себя и потому живет долго.
Он ни с кем не соперничает, и никто в мире не соперничает с ним.
Поговорка древних: "Кривому - быть целым" разве пустые слова?
Быть воистину целым только ему дано.

[97t23c] **В. В. Малявин**
Неслышное веление - то, что таково само собой.
Сильный ветер не продержится все утро.
Внезапный ливень не продержится весь день.
Кто создает их? Небо и Земля.
Даже Небу и Земле не сотворить ничего долговечного,
Тем менее это доступно человеку!
Посему тот, кто предан Пути, един с Путем.
Тот, кто предан совершенству, един с Совершенством.
А тот, кто предан утрате, един с утратой.
Того, кто един с Путем, Путь тоже принимает.
Тому, кто един с Совершенством, Путь дает Совершенство,
А того, кто един с утратой, Путь тоже теряет.
Лишь тому, кто недостаточно доверяет другим,
Тоже не будет доверия.

[97t24c] **В. В. Малявин**
Кто встал на цыпочки, долго не простоит.
Кто широко шагает, далеко не уйдет.
Кто имеет свой взгляд, немного сможет понять.
Кто имеет свою правду, немногих сможет убедить.
Кто рвется вперед, славы не стяжает.
Кто радеет за себя, долго не проживет.
Для Пути это только "лишнее угощение, напрасное хождение".

Для людей это только повод для ненависти.
Посему претворяющий Путь так не поступает.

[97t25c] **В. В. Малявин**
Есть нечто, в хаосе завершенное,
Прежде Неба и Земли рожденное.
Пустотное! Безбрежное!
Само в себе пребывает и не меняется.
Растекается повсюду и не знает преград.
Можно считать это Матерью Поднебесной.
Я не знаю, как называть его.
Давая ему прозвание, скажу: "Путь".
Если придется дать ему имя, скажу: "Великий".
"Великое" значит "распространяющееся повсюду",
"Распространяться повсюду" значит "уходить далеко",
"Уходить далеко" значит "возвращаться".
Воистину:
Путь велик,
Небо велико,
Земля велика
И Господин человека тоже велик.
Во вселенной есть четыре великих, и Господин человека - один из них.
Человеку образец - Земля.
Земле образец - Небо.
Небу образец - Путь.
А Пути образец - то, что таково само по себе.

[97t26c] **В. В. Малявин**
Тяжелое - корень легкого.
Покой - господин подвижности.
Вот почему мудрец, проведя в странствии целый день,
Не отлучится от своей поклажи.
Даже обладая прекрасным дворцом,
Он сидит безмятежно, воспаряя привольно над миром.
Как может господин тысяч колесниц
Относиться к себе легкомысленнее, чем к царству?
Кто легкомыслен, лишится корня.
Кто спешит, потеряет в себе господина.

[97t27c] **В. В. Малявин**
Умеющий ходить не оставляет следов.
Умеющий говорить никого не заденет словом.
Умеющий считать не пользуется счетами.
Умеющий запирать не пользуется засовом, а запертое им не отпереть.
Умеющий связывать не пользуется веревкой, а связанное им не развязать.
Вот почему премудрый человек всегда спасает людей и никого не отвергает.

Всегда спасает вещи и ничего не отвергает.
Это зовется "сокрытое преемствование просветленности".
Посему добрый человек - учитель недоброму человеку,
А недобрый человек - орудие доброму человеку.
Не чтить учителя, не любить орудие -
Тут и великий ум впадет в заблуждение.
Вот что такое предел утонченности.

[97t28c] **В. В. Малявин**
Знай свое мужское, но блюди свое женское:
Станешь ущельем Поднебесного мира.
Если уподобишься ущелью мира,
Превечное Совершенство не оставит тебя.
Тогда будешь как новорожденный младенец.
Знай свое светлое, но блюди свое темное:
Станешь образцом для Поднебесного мира.
Если станешь образцом для мира,
Превечное Совершенство не потерпит ущерба.
Тогда вернешься к Беспредельному.
Зная свою славу, но блюдя себя в умалении,
Станешь долиной Поднебесного мира.
Если уподобишься долине мира,
Превечное Совершенство будет в достатке.
Тогда будешь как Цельный Ствол.
Когда Цельный Ствол разрубят, появляются предметы;
А пользование премудрого таково, что он встает во главе чинов:
Великий резчик ничего не разрезает.

[97t29c] **В. В. Малявин**
Когда кто-то хочет завладеть миром и переделать его,
Я вижу, что он не добьется своей цели.
Мир - божественный предмет, переделать его нельзя.
Кто будет его переделывать, погубит его;
Кто будет держаться за него, потеряет его.
Среди вещей одни действуют, другие следуют,
Одни пышут жаром, другие источают холод,
Одни сильны, другие слабы,
Одни расцветают, другие клонятся к упадку.
Вот почему премудрый человек отвергает крайности, отвергает излишества, отвергает роскошь.

[97t30c] **В. В. Малявин**
Тот, кто берет Путь в помощь господину людей,
Не подчиняет мир силой оружия:
Ибо это навлечет скорое возмездие.
Где стояло войско, там вырастут бурьян и колючки,
Где прошла война, там будет голодный год.

Искусный [стратег] ценит только плод
И не пользуется случаем, чтобы стать сильнее.
Одержав победу, не кичится;
Одержав победу, не бахвалится;
Одержав победу, не гордится.
Он побеждает словно поневоле.
Он побеждает - и не показывает силы.
Кто накопил силу, быстро одряхлеет,
Это означает "противиться Пути".
А кто противится Пути, скоро погибнет.

[97t31c] **В. В. Малявин**
Доброе оружие - зловещее орудие.
Многим вещам оно ненавистно,
И тот, кто имеет Путь, его не держит.
Благой государь в своем доме чтит левое,
А, идя войной, чтит правое.
Оружие - зловещее орудие, благородный муж его не держит,
Применяют его, только если к тому принудят,
И применять его нужно сдержанно и бесстрастно.
Одержав победу, не гордись содеянным,
Кто гордится победой, тот радуется убийству.
А кто рад убийству, тот не преуспеет в мире.
В счастливых событиях ценится левое,
В несчастных событиях ценится правое.
Младший полководец стоит слева,
Старший полководец стоит справа:
Значит, они стоят как на похоронах.
На убийство множества людей откликайтесь скорбным плачем,
Победу на войне отмечайте траурным обрядом.

[97t32c] **В. В. Малявин**
Путь вечно безымянен;
Цельный Ствол хотя и невелик,
В мире над ним никто не властен.
Если князья и цари смогут держаться его,
Все вещи им покорятся сами,
Небо и Земля в согласии соединятся и породят сладкую росу,
И та сама, без приказания, извергнется поровну на всех.
Где есть порядок, есть и имена.
Как только появляются имена,
Надобно знать, где в знании остановиться.
Кто знает, где остановиться в знании,
Сможет избежать большой беды.
Великий Путь для мира
Все равно что полноводная река и море для ручья.

Знающий других умен.
Знающий себя просветлен.
Победивший других силен.
Победивший себя могуч.
Кто знает, в чем достаток, богат.
Кто действует решительно, имеет волю.
Кто не теряет того, что имеет, долговечен.
А кто не гибнет в смерти, живет вечно.

[97t34c] **В. В. Малявин**
Великий Путь разливается привольно!
Он может быть и слева, и справа.
Все вещи опираются на него, чтобы жить,
И он их не отвергает,
Во всем достигает успеха,
И не имеет славы.
Он одевает и кормит все вещи,
Но им не хозяин,
Вечно лишенный желаний -
Его можно причислить к тому, что мало.
Все вещи вверяют себя ему,
А он все же им не хозяин -
Его можно причислить к тому, что велико.
Оттого, что он никогда не считает себя великим,
Он и может воистину быть велик.

[97t35c] **В. В. Малявин**
Держись Великого Образа,
И Поднебесная к тебе придет,
Придет - и знать не будет зла,
Всюду будет царить великий мир,
Где музыка звучит и яства на столе,
Там всякий путник мимо не пройдет.
Но слово, которое исходит от Пути,
Так блекло! Различишь его едва ли.
Смотришь на него - не можешь его видеть.
Слушаешь его - не можешь слышать.
Пользуйся им - за целый век не исчерпаешь.

[97t36c] **В. В. Малявин**
Если хочешь сжать,
Прежде нужно растянуть.
Если хочешь ослабить,
Прежде нужно усилить.

Если хочешь развалить,
Прежде нужно возвеличить.
Если хочешь отнять,
Прежде нужно дать.
Вот что зовется "опережающим прозрением".
Мягкое и слабое одолеет твердое и сильное.
Рыбе лучше не покидать глубины,
А то, что приносит царству благо, нельзя показывать людям.

[97t37c] **В. В. Малявин**
Путь вечно в недеянии,
А в мире все делается.
Если князья и цари смогут блюсти его,
Вещи сами себя претворят.
Если потом они возымеют желание действовать,
Я сдержу их безымянной простотой.
Безымянная простота не таит никаких желаний.
Когда в покое не родится желаний,
Поднебесный мир выправится сам собой.

[97t38c] **В. В. Малявин**
Высшее совершенство не хочет совершенства,
Вот почему в нем есть совершенство.
Низшее совершенство хочет совершенства,
Вот почему в нем нет совершенства.
Высшее совершенство ничего не делает и не имеет на то причин.
Низшее совершенство действует и имеет на то причины.
Высшая человечность действует, но не имеет на то причин.
Низшая человечность действует и имеет на то причины.
Высшая справедливость действует и имеет на то причины.
Высшее благочестие действует, и, если отклика нет,
Оно засучит рукава и принудит к покорности.
А посему:
Когда утратили Путь, появилось совершенство;
Когда утратили совершенство, появилась человечность;
Когда утратили человечность, появилась справедливость;
Когда утратили справедливость, появилось благочестие.
Благочестие - истощенье преданности и доверия и начало всякой смуты.
Знать наперед - это только цветочки Пути и начало невежества.
Вот почему великий муж находит приют в глубоком и не живет мелким,
Он находит приют в корне и не живет цветочками.
Он не принимает второе и берет первое.

Земля, обретя единое, стала покойной;
Духи, обретя единое, стали божественными;
Долины, обретя единое, стали полны;
Вся тьма вещей, обретя единое, живет;
Князья и цари, обретя единое, правят Поднебесной.
Так все происходит благодаря единому.
Небо, не будучи чистым, не расколется ли?
Земля, не будучи покойной, не растрясется ли?
Духи, не будучи божественными, не обессилят ли?
Долины, не будучи наполненными, не оскудеют ли?
Вся тьма вещей, не имея в себе жизни, не исчезнет ли?
Князья и цари, не имея почета и славы, не падут ли?
Посему корень почета - униженность.
Основа славы - безвестность.
Оттого князья и цари зовут себя сиротами, одинокими, беспомощными.
Не значит ли это, что для них униженность - корень?
Разве нет?
Имея множество колесниц, считай, что у тебя нет колесниц.
Не желай ни блестеть, словно прекрасная яшма,
Ни быть твердым, словно простой булыжник.

[97t40c] **В. В. Малявин**
Возвращение - это действие Пути.
Слабость - это применение Пути.
Все вещи в мире исходят из сущего,
А сущее исходит из отсутствующего.

[97t41c] **В. В. Малявин**
Высшие люди, узнав о Пути, являют усердие и претворяют его.
Обычные люди, узнав о Пути, отчасти следуют ему, отчасти нет.
Низшие люди, узнав о Пути, громко смеются над ним.
Если б они не смеялись, это не был бы Путь.
А потому издавна говорят так:
Пресветлый Путь кажется мраком.
Путь, ведущий вперед, кажется отступлением.
Ровный Путь самый труднопроходимый.
Высшее Совершенство подобно долине.
Великая чистота кажется позором.
Беспредельное совершенство кажется ущербностью.
Незыблемое совершенство кажется потворством.
Настоящая искренность кажется притворством.
Великий квадрат не имеет углов.
Великий сосуд делается всего дольше.
Великая музыка слышна всего меньше.
Великий образ не имеет формы.
Но только Великий Путь сокрыт и безымянен,

Он все дает и все завершает.

[97t42c] **В. В. Малявин**
Путь рождает Одно,
Одно рождает Два,
Два рождает Три,
А Три рождает всю тьму вещей.
Все вещи несут в себе Инь и обнимают Ян,
Пустотное дыхание приводит их к согласию.
То, чего люди не любят, -
Это быть "сиротой", "одиноким", "беспомощным",
Но так называют себя цари и князья.
Посему тот, кто теряет, порою приобретает,
А кто приобретает - тот теряет.
Чему люди учили, я тоже учу:
"Злой и сильный умрет не своей смертью".
Пусть это будет мне отцом моих поучений.

[97t43c] **В. В. Малявин**
Самое мягкое в мире покроет самое твердое.
Невещественное войдет в то, что не имеет пустот.
Так узнаем, что от недеяния есть выгода.
Учение без слов, выгоду недеяния
В мире способны понять немногие.

[97t44c] **В. В. Малявин**
Что каждому ближе: слава или жизнь?
Что дороже: жизнь или богатство?
Что хуже: иметь или потерять?
Вот почему кто многое любит, тот много потратит,
А у того, кто много скопил, будут велики и потери.
Если знаешь, как быть довольным, не изведаешь позора.
Если знаешь, где остановиться, избегнешь опасности
И сможешь жить долго.

[97t45c] **В. В. Малявин**
Великое достижение кажется ущербным,
Но польза его беспредельна.
Великая наполненность кажется пустой,
Но польза ее неистощима.
Великая прямота не дает ходить прямо.
Великое искусство не дает сделать искусно.
Великое красноречие не дает сказать красиво.
Быстрые движения одолеют холод,
Но покой одолеет жару.
Кто чист и покоен, сможет выправить мир.

[97t46c] **В. В. Малявин**
Когда в мире есть Путь,
Верховых лошадей отводят унавоживать поля.
Когда в мире нет Пути,
Боевых коней растят на дальних заставах.
Нет большего преступления, чем потакать вожделению.
Нет больше беды, чем не знать, что имеешь довольно.
Нет большего порока, чем страсть к обладанию.
Посему удовлетворенность знанием того, что имеешь в достатке, - вот неизбывное довольство.

[97t47c] **В. В. Малявин**
Не выходя со двора, можешь познать мир.
Не открывая окна, можешь узреть Небесный Путь.
Чем дальше уходишь, тем меньше узнаешь.
Вот почему премудрый человек
Никуда не ходит - а все знает,
Ни на что не смотрит - а все понимает,
Ничего не делает - а все свершает.

[97t48c] **В. В. Малявин**
Посвящать себя учению - значит каждый день приобретать.
Посвящать себя Пути - значит каждый день терять.
Потеряй и еще потеряй - так дойдешь до недеяния.
Ничего не будешь делать - и все будет делаться.
Завладеет миром тот, кто никогда не занимается делами,
А тот, кто занимается делами, никогда не завладеет миром.

[97t49c] **В. В. Малявин**
У премудрого человека нет постоянного мнения.
Его помышления таковы же, как помышления всех.
Тех, кто добр, я считаю добрыми,
Тех, кто недобр, я тоже считаю добрыми:
Так торжествует добро.
Тем, кто заслуживает доверия, я верю,
Тем, кто доверия не заслуживает, я тоже верю:
Так торжествует доверие.
Премудрый человек, царствуя в мире,
Все вмещает в себя и ради мира замутняет свое сердце.
Все люди напрягают зрение и слух,
А он привечает их, словно детей.

Жизнь свою в смерть обращающих - тоже три из десяти.
А почему?
Все из-за жажды быть живым в этой жизни.
Известно: тот, кто постиг премудрость сбереженья жизни,
В пути не встретит тигра или носорога,
Вступив в сраженье, избежит разящего клинка.
В нем носорогу некуда воткнуть свой рог,
Тигру некуда вонзить свои когти,
Воину некуда направить свой меч.
Почему так?
Потому что смерти негде поселиться в нем.

[97t51c] **В. В. Малявин**
Путь рождает их, Совершенство взращивает,
Вещество придает им формы, сила обстоятельств их завершает:
Вот почему все вещи почитают Путь и ценят Совершенство.
Путь почитают и Совершенство ценят не по приказу:
Так всегда происходит само собой;
Посему Путь рождает их, Совершенство взращивает,
Они вынашивают их и вскармливают их,
Дают им вырасти, дают им созреть,
Пестуют их, оберегают их.
Все рождает и ничем не обладает.
Всему поспешествует, а не ищет в том опоры,
Всех старше, а ничем не повелевает:
Вот что зовется сокровенным совершенством.

[97t52c] **В. В. Малявин**
В мире есть начало,
Его можно считать Матерью вселенной.
Тот, кто постигает мать, чтобы знать ее дитя,
И познает дитя, чтобы держаться за мать,
До конца своих дней избежит опасности.
Завали свои дыры, затвори свои ворота -
И до конца жизни не будешь знать забот.
Раскрой дыры, нагрузи себя делами -
И до конца жизни себя не спасешь.
Прозреть малое зовется просветленностью,
Держаться мягкости зовется силой.
Воспользуйся свечением, чтобы вернуться к светочу -
Так избавишься от опасности для жизни:
Вот что значит претворять постоянство.

Великий Путь так ровен, так широк,
Но люди любят кривые тропинки.
Палаты царские так чисто прибраны,
Поля же заросли бурьяном, житницы пусты.
Носят шелка, расшитые узорами, на поясе мечи,
Вкусно едят и пьют, в домах избыток всякого добра.
Вот что я зову великим разбоем,
Великого Пути здесь нет в помине!

[97t54c] **В. В. Малявин**
Того, кто прочно стоит, нельзя повалить.
Того, кто крепко обнимает, нельзя оторвать:
Тому дети и внуки не перестанут приносить жертвы.
У того, кто это пестует в себе, совершенство будет подлинным.
У того, кто это пестует в семье, совершенство будет в избытке.
У того, кто это пестует в селении, совершенство будет долгим.
У того, кто это пестует в царстве, совершенство будет неизбывным.
У того, кто это пестует в мире, совершенство будет всеобъемлющим.
А потому смотри на себя исходя из себя,
Смотри на семью исходя из семьи,
Смотри на селение исходя из селения,
Смотри на царство исходя из царства,
Смотри на мир исходя из мира.
Откуда я знаю, что мир таков?
Благодаря этому.

[97t55c] **В. В. Малявин**
Тот, кто хранит в себе глубину совершенства,
Подобен новорожденному младенцу:
Ни скорпионы, ни осы, ни змеи его не ужалят,
Хищные птицы и дикие звери его не схватят.
Его кости и сухожилия мягки, а хватка крепка,
О соитии не знает, а мужская сила в нем есть -
Ибо семя в нем пребывает сполна.
Целый день кричит, а не хрипнет -
Ибо согласие в нем не имеет изъяна.
Знать согласие означает "быть постоянным",
Пребывать в постоянстве означает "быть просветленным",
Прибавлять что-то к жизни - это предвестье несчастья,
Когда ум повелевает жизненной силой - это насилие.
Кто накопит силу, тот одряхлеет:
Это означает "противиться Пути".
А кто противится Пути, тот быстро погибнет.

Говорящий не знает.
Завали дыры,
Затвори ворота,
Затупи острые края,
Развяжи узлы,
Смири сияние,
Уподобься праху.
Вот что зовется "сокровенным уподоблением".
Посему нельзя его обрести и быть ему родным;
Нельзя его обрести и быть ему далеким.
Нельзя его обрести и ему угодить;
Нельзя его обрести и ему навредить.
Нельзя его обрести и его почитать,
Нельзя его обрести и его унизить.
Вот чем оно ценно в мире.

[97t57c] **В. В. Малявин**
Государством управляй прямо,
На войне применяй хитрость
И посредством бездействия завладевай Поднебесной.
Отчего мне известно, что это так?
Вот отчего:
Чем больше в мире запретов, тем люди беднее.
Чем больше народ знает о выгоде, тем больше в царстве смуты.
Чем больше в народе мастерства и сноровки, тем больше безделиц.
Чем больше в стране законов и приказов, тем больше разбойников.
Посему премудрые люди говорили:
Я не действую, а люди сами становятся лучше,
Я привержен покою, а люди сами себя выправляют,
Я не вмешиваюсь в дела, а люди сами богатеют,
Я не имею желаний, а люди сами блюдут простоту.

[97t58c] **В. В. Малявин**
Когда миром правят отстраненно-покойно,
Люди просты и добродушны.
Когда миром правят придирчиво-строго,
Люди хитры и коварны.
Беда - вот где счастья опора,
Счастье - вот откуда приходит беда.
Кто знает, где их предел?
В них нет ничего навек "правильного".
Правильное станет неправильным,
Доброе станет худым,
И люди пребывают в заблуждении с давних пор.
Вот почему премудрый человек
Ровен, а ничего не срезает,

Остер, а ничего не ранит,
Прям, а не идет напролом,
Ярко сияет, а никого не слепит.

[97t59c] **В. В. Малявин**
В управлении людьми и служении Небу
Нет ничего лучше, чем быть бережливым.
Кто умеет беречь, первым изготовится.
Первым изготовиться означает копить Совершенство.
Кто умеет копить Совершенство, тот все превзойдет.
Если он все превзойдет, никто не будет знать, где его предел.
Кто не имеет предела, может владеть царством.
А кто владеет матерью царства, будет жить долго.
Вот что такое "глубокий корень, прочная основа",
Это Путь вечной жизни и долгого взгляда.

[97t60c] **В. В. Малявин**
Управлять большим царством - все равно что варить мелкую рыбу.
Если мир упорядочивать посредством Пути,
Злые духи лишатся власти над душами.
Не то чтобы в них не было духовной силы,
Но их сила не сможет больше вредить людям.
И не только их сила не будет вредить людям,
Но и премудрый человек не будет вредить им.
Коль эти оба не будут причинять друг другу вред,
Их совершенства сольются и в себе упокоятся.

[97t61c] **В. В. Малявин**
Большое царство - как низина, куда стекаются воды:
Средоточие мира, Сокровенная Родительница мира.
Самка всегда одолеет самца покоем, и, покоясь, пребывает внизу.
Посему большое царство возьмет малое, если будет ниже его,
Малое царство будет взято большим, ибо находится ниже его.
Вот так, себя ставя ниже, забирают других
И, стоя ниже, дают другим взять себя.
Большое царство хочет только объединить и пестовать других,
Малое царство хочет только примкнуть к другим и им послужить.
Чтобы те и другие смогли получить то, что хотят,
Большому царству подобает быть внизу.

[97t62c] **В. В. Малявин**
Путь - это хранилище всех вещей,
Сокровищница для добрых людей и убежище для недобрых.
Красивыми речами можно торговать,
Славными поступками можно привлечь почитателей.
Пусть человек недобр - бывало ли так, чтоб его отвергали?

Посему, когда восходит Сын Неба или жалуют
Трех Князей,
Не подносите им яшмовые жезлы и четверки коней,
А лучше, сидя покойно, вручите им этот Путь.
Древние ценили этот Путь - что же он такое?
Разве не сказано: "Кто ищет с ним, тот обрящет,
Кто провинился, тот, обладая им, уцелеет"?
Вот почему его ценили в мире.

[97t63c] **В. В. Малявин**
Действуй, не действуя.
Делай, не делая.
Находи вкус там, где вкуса нет.
Находи большое в маленьком и многое в малом.
На зло отвечай совершенством.
Готовься к трудностям, пока легко,
Предвидь великое в пустячном:
Все трудное в мире происходит из легкого,
Все великое в мире происходит из ничтожного.
Премудрый человек никогда не стремится к величию -
И потому может стать великим.
Кто легко раздает обещания, тот не заслужит доверия,
Кто многое считает легким, познает много трудностей.
Вот почему премудрый человек все считает трудным -
И вовек не испытывает трудностей.

[97t64c] **В. В. Малявин**
Что покоится, то легко удержать.
Что еще не проявилось, то легко упредить.
Что хрупко, то легко разбить.
Что мелко, то легко рассеять.
Действуй там, где еще ничего нет.
Упорядочивай там, где еще не разладилось.
Дерево толщиной в обхват вырастает из крошечного ростка,
Башня в девять этажей начинается с комка земли.
Путь в тысячу ли начинается с одного шага.
Тот, кто воздействует на это, разрушит его.
Тот, кто крепко держится за это, потеряет его.
Вот почему премудрый человек не действует и ничего не разрушает,
Ни за что не держится - и ничего не теряет.
Когда успех уже близок, люди часто все портят.
Кто в конце так же осмотрителен, как в начале, не изведает неудачи.
Посему премудрый человек желает нежелания и не ценит редкие в мире товары.
Он учится не быть ученым и уводит всех от заблуждений.
Посему он во всех вещах поддерживает то, что таково само по себе - и ничего не делает.

В древности те, кто умел претворять Путь,
Не желали с его помощью просветить людей,
А применяли его так, чтобы сделать людей простодушными.
Людьми трудно управлять оттого, что они много знают.
А потому тот, кто знанием управляет царством, - вор царства.
А кто незнанием управляет царством - счастье царства.
Кто знает эти две истины, тот для всех образец.
Всегда знать образец называется "сокровенным совершенством".
Сокровенное совершенство так глубоко!
Простирается так далеко!
С ним все вещи вечно возвращаются.
Вот тогда воцарится Великое Согласие.

[97t66c] **В. В. Малявин**
Реки и моря потому могут быть господином горным ручьям,
Что они расположены ниже всего.
Вот так они владеют ручьями в горах.
Посему премудрый человек, желая быть над людьми,
Должен в речах своих быть ниже их.
А, желая быть прежде людей,
Должен в поступках своих быть позади их.
Вот почему премудрый человек стоит над людьми, а людям не тяжело.
Он стоит впереди всех, а людям не страшно.
Вот почему весь мир восхваляет его без пресыщения.
Он ни с кем не соперничает, и мир не соперничает с ним.

[97t67c] **В. В. Малявин**
Все в мире говорят, что мой Путь велик, да как будто ни на что не годен.
Да, велик - и оттого как будто ни на что не годен!
Будь он для всего пригоден, давно бы уже измельчал.
Есть у меня три сокровища, я бережно их храню:
Первое - это любовь,
Второе - бережливость,
Третье - нежелание быть первым в мире.
Благодаря любви я могу быть отважен.
Благодаря бережливости, я могу быть щедр.
Благодаря нежеланию быть первым, я могу главенствовать в мире.
А быть отважным, отбросив любовь,
Быть щедрым, забыв бережливость,
Быть впереди, не умея быть позади, -
Это верная гибель.
Ибо любовь приносит победу тому, кто нападает,
И оберегает того, кто защищается.
Когда Небо желает кого-то спасти,
Оно окружает его любовью, словно прочной стеной.

[97t68c] **В. В. Малявин**
Умеющий воевать не воинствен.
Умеющий сражаться не дает волю гневу.
Умеющий одерживать победу над противником не борется с ним.
Умеющий управлять людьми, ставит себя ниже их.
Это зовется совершенством миролюбия.
Это зовется силой использования людей.
Это зовется "соответствием Небу", пределом древности.

[97t69c] **В. В. Малявин**
У знатоков военного дела есть такое суждение:
"Я не смею быть хозяином, а лучше буду гостем.
Я не смею продвинуться на вершок, а лучше отступлю на шаг".
Это называется: "выступать, не выступая",
"Закатывать рукав, не обнажая руки".
"Побеждать, не враждуя",
"Держать в покорности, не применяя войск".
Нет большего несчастья, чем презирать противника.
Кто презирает противника, разбрасывает мои сокровища.
Посему, когда войска сходятся для жестокой битвы,
Кто скорбит, тот победит.

[97t70c] **В. В. Малявин**
Мои слова очень легко понять
И очень легко исполнить.
Но никто в мире не может их понять,
Не может их исполнить.
Мои слова имеют предка.
Мои дела имеют государя.
И оттого, что люди этого не понимают,
Они не понимают и меня.
И если тех, кто понимает меня, мало,
Значит, во мне есть что ценить.
Вот почему "премудрый ходит в рубище, но хранит яшму у груди".

[97t71c] **В. В. Малявин**
Знать, а казаться незнающим, - вот совершенство.
Не знать, а думать, что знаешь - это болезнь.
Только тот, кто знает свою болезнь, способен не быть больным.
Премудрый человек не подвержен болезням.
Он знает, что такое болезнь, и потому не болеет.

[97t72c] **В. В. Малявин**
Когда в народе не страшатся грозной власти,
Придет великая гроза.

Не стесняй людей в их жилищах,
Не причиняй вред жизни других.
Лишь когда людям не вредят,
Они сами не вредят другим.
А посему премудрый человек знает себя, но не показывает себя,
Любит себя, но не ценит себя.
Итак, он отбрасывает то и берет себе это.

[97t73c] **В. В. Малявин**
Тот, кто смел в удали, погибнет.
Тот, кто смел в скромности, будет жить.
Из этих двух одно полезно, другое вредно.
Небо чего-то не любит - кто знает тому причину?
Даже премудрый здесь затруднится с ответом.
Путь Неба: не борется, зато искусно побеждает,
Не говорит, зато искусно откликается,
Не призывает, а все приходит само,
Не вдается в частности, а все искусно рассчитывает.
Небесная Сеть широка и редка,
Но из нее ничто не ускользает.

[97t74c] **В. В. Малявин**
Люди не боятся смерти,
Как можно запугать их казнями?
Если сделать так, чтобы люди всегда жили в страхе перед смертью,
А мы могли бы поймать шальных и казнить их -
Кто бы тогда осмелился быть таким?
Всегда есть главный палач, который казнит.
Но казнить людей вместо главного палача -
Все равно что рубить деревья вместо старшего дровосека.
Из тех, кто возьмется рубить деревья вместо старшего дровосека,
Редко кто сумеет не поранить себе руку!

[97t75c] **В. В. Малявин**
Люди голодают оттого, что верхи забирают себе зерно.
Вот отчего голодают люди.
Людьми трудно управлять оттого, что верхи деятельны.
Вот отчего ими трудно управлять.
Люди ни во что не ставят смерть оттого, что верхи слишком любят жизнь.
Вот отчего люди ни во что не ставят смерть.
Поистине, те, кто живет без мысли о жизни, лучше тех, кто ценит жизнь.

[97t76c] **В. В. Малявин**
Человек, рождаясь, мягок и нежен.
Умирая, он тверд и напряжен.
Когда все вещи, трава и деревья, живут, они мягки и гибки.

А умирают они сухими и жесткими.
Посему жесткость и напряженность - спутники смерти,
Мягкость и нежность - спутники жизни.
Вот почему, коли войско сильно, оно не победит.
А если дерево крепко, оно сломается.
Крепкое и большое будет внизу.
Мягкое и слабое будет вверху.

[97t77c] **В. В. Малявин**
Небесный Путь - это как натягивание на лук тетивы:
Верхний край надо опустить вниз,
Нижний край надо поднять вверх.
Если слишком длинно, укоротить,
Если слишком коротко, удлинить.
Так и Путь Небес: отнимает лишнее и прибавляет недостающее.
Путь же людей не таков:
Отнимают недостающее и добавляют к тому, что в избытке.
Кто способен, имея излишек, отдать его миру?
Только человек Пути.
Вот почему Премудрый человек
Действует - и не держится за сделанное,
Имеет успехи - и не привязан к ним,
И не имеет желания показывать свою мудрость.

[97t78c] **В. В. Малявин**
В целом мире нет ничего мягче и слабее воды,
Но вода лучше всего побеждает то, что прочно и твердо,
Ибо ничто не может ее изменить.
То, что слабое одолеет сильное, а мягкое - твердое,
Знает весь мир, а исполнить никто не может.
Вот почему премудрые люди говорили:
Кто берет на себя грязь царства,
Может быть господином его алтарей.
Кто берет на себя несчастья царства,
Может быть повелителем мира.
В прямых речах все говорится словно наоборот.

[97t79c] **В. В. Малявин**
Когда мирятся после большой ссоры,
Непременно остается обида.
Как можно счесть это благом?
Вот почему премудрый человек держит левую часть договора
И ничего не требует от других.
Человек совершенства будет блюсти договор,
Человек без совершенства будет собирать подати.
"Небесный Путь не выказывает пристрастия,

Но он всегда с добрым человеком".

[97t80c] **В. В. Малявин**
Лучше царству быть маленьким, а населению - редким.
Пусть у людей будут десятки и сотни орудий,
Но пользы от них искать не нужно.
Пусть люди будут почтительны к смерти и не уезжают далеко от дома.
Даже если есть лодки и повозки, пусть на них никто не ездит.
Даже если есть пики и стрелы, пусть никто не берет их в руки.
Пусть люди завязывают узелки вместо письма.
Пусть люди наслаждаются едой и любуются своей одеждой,
Имеют покой в своем жилище и радуются своим обычаям.
Пусть будут видны соседние селения
И оттуда доносятся лай собак и крик петухов.
А люди до самой старости и смерти друг с другом не знаются.

[97t81c] **В. В. Малявин**
Правдивые слова не ласкают слух.
Ласкающие слух речи не правдивы.
Добрый человек не искусен в спорах.
Тот, кто искусен в споре, - не добрый человек.
Знающий человек не нагружен знаниями.
Тот, кто нагружен знаниями, - не знающий человек.
Премудрый человек не накапливает.
Чем больше он отдает другим, тем больше имеет сам.
Путь Неба - приносить пользу и ничему не вредить.
Путь мудрого - действовать и не мешать другим.

[98t01c] **Б. Б. Виногродский**

Постоянный Путь составляется из возможности выбора Пути и невозможности выбора Пути.
Постоянное имя составляется из возможности выбора имени и невозможности выбора имени.
Отсутствием именуется начальное действие Неба-Земли.
Наличием именуется рождение-материнство мириад сущностей.
Причинность:
Стремление к постоянному отсутствию осуществляет созерцание тончайшей тайны.
Стремление к постоянному наличию осуществляет созерцание его внешнего проявления.
Эта пара представляет собой общность исхода при различии наименования.
Если определить вместе, то это будет непостижимая тайна.
Пытаясь проникнуть в эту тайну, придешь только к тайне.
Это врата для появления множества тончайших начал.

[98t02c] **Б. Б. Виногродский**

В Поднебесной всегда, узнав о красоте, начинают осуществлять красивое.
И вот - уже безобразное.
Всегда, узнав о совершенствовании, начинают осуществлять совершенствование.
И вот - уже не-совершенствование.
Причинность:
В контакте наличия и отсутствия происходит рождение.
В контакте трудного и легкого происходит становление-завершение.
В контакте длинного и короткого появляется форма.
В контакте высокого и низкого происходит потеря равновесия.
В контакте звука и голоса осуществляется согласие.
В контакте переднего и заднего появляется следование.
Это дает:
Человек мудрости пребывает в осуществлении отсутствия.
Таково его дело.
Совершает действия без пояснений словами.
Таково его учение.
Ведь мириады сущностей совершают работу, а нет оформления в словах.
Происходит рождение, а нет обладания.
В осуществлении нет отождествления.
При успешном завершении нет пребывания в этом.
А коли нет пребывания в этом, то нет и исчезновения.

[98t03c] **Б. Б. Виногродский**

Если не восхвалять умелость, тогда народ не соперничает.
Если не придавать ценности трудно достающимся товарам, тогда в народе не будет воровства.
Если не смотреть на то, что может вызвать стремление, тогда в сердце-сознании народа не будет смуты.
Это дает:
Человек мудрости, упорядочивая -
Поддерживает состояние пустоты в своем сердце-сознании.
Поддерживает ощущение полноты в своем животе.
Делает слабыми свои волеустремления.

2518/2593
Underdog_way.pdf, revision 8, sanmayce@hotmail.com, a corpus of 50(42 english, 8 russian) proofed(many originals' bugs crushed) translations of 老子道德經 or Lao Zi Dao De Jing

Делает сильными свои кости.
Постоянство позволяет народу пребывать в отсутствии знания и отсутствии стремления.
Это приводит к тому, что даже знающий не осмеливается осуществлять-действовать.
Когда осуществляется осуществление отсутствия, тогда отсутствует беспорядок.

[98t04c] **Б. Б. Виногродский**
В срединной пульсации происходит функционирование Пути.
Невозможно, чтобы случилось заполнение.
В бездонности своей он - будто бы прародитель мириад сущностей.
Затупляет их остроту.
Разрубает их путы.
Смягчает их сияние.
Объединяет их прах.
В прозрачности своей он - будто бы возможность существования.
Сущность моя не знает, чье это порождение.
Предшествует первопредку всех образов.

[98t05c] **Б. Б. Виногродский**
Небо-Земля не вступают в контакт.
Из мириад сущностей они делают соломенную собаку.
Человек мудрости не вступает в контакт.
Из ста родов он делает соломенную собаку.
Пространство Неба-Земли можно уподобить кузнечным мехам.
При опустошении не истощаются.
Приводишь в движение, а выходит еще больше.
Избыточность в речах истощает возможности чисел.
Лучше всего удерживать срединность.

[98t06c] **Б. Б. Виногродский**
Если движется дух по долинам, то нет смерти.
Это определяется:
Мистическая женственность.
Врата, ведущие в мистическую женственность - это определяется:
Корень Неба-Земли.
В движении - ниточкой тонкой, на грани существования.
Применяя, никогда не натягивай.

[98t07c] **Б. Б. Виногродский**
Небо длит.
Земля продолжает.
Небо-Земля потому и способны длить и продолжать, что живут не сами по себе.
Причинность:
Способны длить жизнь.
Это дает:
Человек мудрости помещает свою личность позади, а его личность оказывается впереди.
Он отстраняется от своей личности, а личность сохраняется.

Именно через отсутствие личных устремлений он способен осуществлять свои личные устремления.

[98t08c] **Б. Б. Виногродский**
Продвижение к совершенству подобно воде.
Вода в своем совершенстве приносит пользу мириадам сущностей, не соперничая при этом.
Она находится в местах, которые неприятны множеству людей.
Причинность:
Она близка Пути.
Пребывание совершенствуется землей.
Сердце-сознание совершенствуется бездонностью.
Сопричастность совершенствуется контактностью.
Речь совершенствуется верой.
Управление совершенствуется порядком.
Ситуация-дело совершенствуется энергией-возможностью.
Движение совершенствуется временем.
И если только не соперничаешь, тогда - отсутствие просчетов.

[98t09c] **Б. Б. Виногродский**
Удерживают и заполняют его.
А лучше бы прекратить это.
Куют и заостряют его.
Не смогут сохранить долго.
Золото и драгоценности заполнили залы.
Никто не сумеет уберечь.
Если в богатстве и знатности загордился, сам себе создаешь проблемы на будущее.
Приходит успех - личность отступает.
Таков Путь Неба.

[98t10c] **Б. Б. Виногродский**
Практикуя осознание единности духовного и физического начал, способен ли пребывать в состоянии отсутствия рассеяния?
Концентрируя дыхание-ци, устремляясь к мягкости, способен ли быть в состоянии младенца?
Совершенствуя и очищая мистическое видение, способен ли быть в состоянии отсутствия изъянов?
В любви к народу и управлении государством, способен ли пребывать в состоянии отсутствия знаний?
Когда открываются и закрываются Небесные врата, способен ли быть в состоянии отсутствия иньской асимметрии?
Стремясь к полному постижению четырех пределов, способен ли пребывать в состоянии отсутствия осуществления?
Порождают и накапливают.
Порождая, не вступай в отношения обладания.
Осуществляя, не отождествляйся.
Возрастая, не главенствуй.
Это определяется:
Мистическая Потенция.

Тридцать спиц сходятся в одной ступице.
Наличие в ней отсутствия делает возможным функциональное применение повозки.
Придают форму глине, изготовляя утварь.
Наличие в ней отсутствия делает возможным функциональное применение утвари.
Прорубают двери и окна, делая комнату.
Наличие в ней отсутствия делает возможным функциональное применение комнаты.
Причинность:
Наличие - посредством этого осуществляют использование плодов.
Отсутствие - посредством этого осуществляют функциональное применение.

Как раз из-за пяти цветов человеческие глаза и слепнут.
Как раз из-за пяти звуков человеческие уши и глохнут.
Как раз из-за пяти вкусов рот человеческий и теряет способность восприятия вкусовых ощущений.
Как раз из-за азарта гонок и пыла охоты в человеческом сердце и возникает безумие.
Как раз из-за трудно достающихся товаров и возникают помехи в движениях человека.
Это дает:
Человек мудрости осуществляет внутренними органами; не осуществляет глазами.
Причинность:
Отбрасывает то, берет это.

[98t13c] **Б. Б. Виногродский**
И к почестям, и к позору относись как к тревожному предупреждению.
Цени большую беду как собственное тело.
Что значит: и к почестям, и к позору относиться как к тревожному предупреждению?
Почести соответствуют движению вверх.
Позор соответствует движению вниз.
Обретению их сопутствует тревога.
Потере их сопутствует тревога.
Это определяется:
И к почестям, и к позору относись как к тревожному предупреждению.
Что значит: ценить большую беду как собственное тело?
Потому для твоей сущности может быть большая беда, что сущность осуществляет наличие тела.
И если бы у сущности отсутствовало тело, то откуда бы взялась беда?
Причинность:
Когда через придавание большого значения собственному телу осуществляешь действия в Поднебесной, тогда можно доверить Поднебесную.
Когда через любовь к своему телу осуществляешь действия в Поднебесной, тогда можно поручить Поднебесную.

[98t14c] **Б. Б. Виногродский**
Смотришь на него, не видя.

Имя назови: "Тончайшее".
Эту троицу нельзя определить, задавая вопросы.
Причинность:
Смешиваясь, осуществляют единое.
При движении вверх оно не светлое.
При движении вниз оно не темное.
Как ускользающая нить.
Нельзя его определить именем.
Повторяется возвращение в состояние отсутствия вещей.
Это определяется:
Трепетное и мерцающее.
Движешься ему навстречу, не видя его главы.
Следуешь за ним, не видя его спины.
Путь древности применяй для контроля наличия данного момента.
Будь способен знать начало древности.
Это определяют:
Путеводная нить.

[98t15c] **Б. Б. Виногродский**
Воин, осуществляющий совершенствование, в древности находился в состоянии мистического проникновения в мельчайшее и тончайшее, в глубинах, не поддающихся познанию.
Поскольку это не поддается познанию, то постараемся описать через образы.
В бдительности - будто зимой переходишь поток.
В уподоблении - будто боишься соседей с четырех сторон.
В строгости - будто гость.
В распространении - будто тающий лед.
В искренности - будто необработанный кусок дерева.
В широте восприимчивости - будто долина.
В непроницаемости - будто мутная вода.
Кто способен, будучи мутным, стать неподвижным, посредством покоя постепенно очистится.
Кто способен, будучи тихим, постепенно переходить к движению, будет плавно жить.
Сохраняя этот Путь, не стремись к наполнению.
Если только не наполняешь, тогда будешь способен ветшать, не становясь новым.

[98t16c] **Б. Б. Виногродский**
Стремись к пределу пустоты.
Старайся удерживать состояние покоя.
Мириады сущностей действуют одномоментно.
Моя сущность - для того, чтобы созерцать возвращение.
Ведь сущностей беспорядочно много, а каждая возвращается, приходя к своему корню.
Приход к корню выражается покоем.
Покой выражается возвращением судьбы.
Возвращение судьбы выражается постоянством.
Знание постоянства выражается просветлением.
Не зная постоянства, суетишься, создавая неудачи.
Осознание постоянства делает восприимчивым.

Восприимчивость ведет к способности быть справедливым.
Если справедлив, то можешь быть правителем.
Будучи правителем, сообщаешься с Небом.
Сообщаясь с Небом, приходишь к Пути.
Двигаясь по Пути, способен бесконечно длить.
Тело исчезнет, а не погибнешь.

[98t17c] **Б. Б. Виногродский**
Самый высший - внизу лишь осознают его существование.
Следующий - его любят и восхваляют.
Следующий - относятся со страхом.
Следующий - относятся с презрением.
Если в тебе недостаточно веры, то бытие не верит тебе.
Будь осторожным и цени свои слова.
Успехи достигаются, дела совершаются.
Представители ста родов всегда считают, что я в состоянии самопроизвольной естественности.

[98t18c] **Б. Б. Виногродский**
Исчезает великий Путь - появляется контактность и осознание.
Уходят мудрые и знающие - появляется большая искусственность.
Нет гармонии в шести родственных связях - появляется сыновья почтительность и братская любовь.
Смута и хаос в государстве и семьях - появляются верные слуги.

[98t19c] **Б. Б. Виногродский**
Избавьтесь от мудрости, отбросьте знания.
Народ выгадает во сто крат.
Избавьтесь от контактности, отбросьте осознание-долг.
Народ вернется к сыновьей почтительности и братской любви.
Избавьтесь от умений, откажитесь от выгоды.
Больше не будет воров и разбойников.
Этой триады недостаточно, чтобы создать текст.
Причинность:
Можно свести к следующим установкам:
Проявляй простоту некрашеного холста.
Содержи в себе безыскусность необделанного куска дерева.
Уменьшай корысть.
Ограничивай желания.

[98t20c] **Б. Б. Виногродский**
Прекратите учиться, и тогда не будет беспокойств.
Как далеко отстоят друг от друга почтительность и пренебрежение?
Как далеко отстоят друг от друга добро и зло?
Если человека боятся, то и он не может не бояться.
Безграничное - это то, что еще не имеет центра.
Человек толпы радуется наслаждениям, как будто празднует жертвоприношение тай-лао, как будто взбирается на башню весной.

Я - один.
Прозрачно-безвкусен - нет еще никаких проявлений.
Подобен ребенку, который еще не начал и улыбаться.
Утомленно скитаюсь, будто некуда мне вернуться.
У человека толпы - всегда есть избыток.
А я - один, как будто утратил.
Я - глупость в человеческом сердце.
Непроницаемость тьмы.
Обычные люди светом сияют.
Я - один.
Сумрачно-мрачный.
Обычные люди всматриваются-внимают.
Я - один.
Скучный и хмурый.
Бесформенность - это напоминание о море.
Ветра круговорот - это напоминание об отсутствии остановки.
У человека толпы всегда есть мотивы.
Лишь я - один.
Тупой и грубый.
Я - один.
Отличаюсь от человека
и питаю в первую очередь то, что меня порождает.

[98t21c] **Б. Б. Виногродский**
Всеобъемлющий характер Потенции пространства определяется лишь тем, что вытекает из Пути.
Путь реализуется в вещах лишь как мерцание, лишь как трепетание.
Вот трепетание, вот мерцание.
А в сердцевине - наличие образа.
Вот мерцание, вот трепетание.
А в сердцевине - наличие вещи.
Вот мрак, вот тьма.
А в сердцевине - наличие семени.
Его семя является совершенно сущим.
А в сердцевине - наличие веры.
С древности до современности имя его не исчезает.
Тем самым он проявляется как прародитель множеств.
Откуда же известно сущности моей, что таковым является прародитель множеств?
Через это.

[98t22c] **Б. Б. Виногродский**
От ущербности проходят к целостности.
От кривды приходят к правде.
От пустоты приходят к наполненности.
От ветхости приходят к новому.
От уменьшения происходит обретение.
От умножения происходят сомнения.

Это дает:
Человек мудрости, охватывая единое, становится моделью Поднебесной.
Не выставляет себя, потому ясен.
Не утверждает себя, потому четок.
Не гордится собой, потому имеет заслуги.
Не превозносит себя, потому существует долго.
И именно потому, что не соперничает, поэтому никто в Поднебесной не способен вступить с ним в отношения соперничества.
Разве древнее высказывание: "От ущербности приходят к целостности" - это пустые слова?
Ведь все сходится в том, кто обладает действительной целостностью.

[98t23c] **Б. Б. Виногродский**
Разреженность в словах - это самопроизвольная естественность.
Ураганный ветер не длится все утро.
Проливной дождь не идет до конца дня.
Кто осуществляет это?
Небо-Земля.
Даже Небо-Земля не способны сделать их долгими.
Что уж тут сравнивать с человеком?
Причинность:
Если в ситуациях действуешь, исходя из Пути, тогда отождествляешься с Путем.
Если действуешь, исходя из Потенции, тогда отождествляешься с Потенцией.
Если действуешь, исходя из потери, тогда отождествляешься с потерей.
Когда отождествляешься с Путем, тогда и Путь, радуется, обретая тебя.
Когда отождествляешься с Потенцией, тогда и Потенция радуется, обретая тебя.
Когда отождествляешься с потерей, тогда и потеря радуется, обретая тебя.
Если в тебе недостаточно веры, то бытие не верит в тебя.

[98t24c] **Б. Б. Виногродский**
На цыпочках не простоишь.
Широко расставив ноги, не пойдешь.
Выставляя себя, не будешь ясен.
Утверждая себя, не будешь четок.
Гордясь собой, не будешь иметь заслуги.
Превознося себя, не сможешь просуществовать долго.
В пространстве Пути это называется избытком в пище и лишними движениями.
Всем сущностям от этого только зло.
Причинность:
При наличии Пути не застаиваются.

[98t25c] **Б. Б. Виногродский**
Вещь в наличии формируется из бесформенного завихрения.
Рождается прежде Неба-Земли.
В беззвучности, в безмятежности.
Стоит независимо, не изменяясь.
Движется в циклах, не погибая.

Так можно осуществлять порождающее начало в Поднебесной.
Сущность моя не знает этому имени.
Обозначим его знаком "Путь".
Постараясь подобрать ему имя, определим его как "великое".
Великое определим как преходящее.
Преходящее определим как далекое.
Далекое определим как обратное.
Причинность:
Путь - великий.
Небо - великое.
Земля - великая.
Человек - тоже великий.
Средь сфер есть четыре "великих", а человек из них занимает первое место.
Для человека образец - Земля.
Для Земли образец - Небо.
Для Неба образец - Путь.
Для Пути образец - самопроизвольная естественность.

[98t26c] **Б. Б. Виногродский**
Тяжелое является корнем легкого.
Покой является владыкой подвижности.
Это дает:
Человек мудрости в движении до конца дней не забывает о связи легкого и тяжелого.
Хотя есть шикарные перспективы, живет спокойно, минуя их все.
Отчего же хозяин десяти тысяч колесниц считает, что для тела его Поднебесная легка?
Легкость ведет к потере основы.
Подвижность ведет к потере владыки.

[98t27c] **Б. Б. Виногродский**
Совершенствование в движении - в отсутствии колеи и следа.
Совершенствование в речи - в отсутствии заминок и оговорок.
Совершенствование в числах - в отсутствии бирок и фишек.
Совершенствование в запорах - в отсутствии замка и щеколды, а открыть не смогут.
Совершенствование в завязывании - в отсутствии веревок и узлов, а распутать не смогут.
Это дает:
Человек мудрости постоянно совершенствуется, помогая людям, поэтому не отвергает людей.
Постоянно совершенствуется, помогая вещам, поэтому не отвергает вещи.
Это определяется:
Преемственность ясности.
Причинность:
Совершенствующийся человек является наставником для несовершенствующегося человека.
Несовершенствующийся человек является средством для совершенствующегося человека.
Если не чтят своих наставников и не любят свои средства, то даже обладая знаниями, пребывают в великом заблуждении.
Это определяется:
Сущностная тайна.

[98t28c] **Б. Б. Виногродский**

Осознавая свою мужскую асимметрию, удерживай свою женскую асимметрию, -
и станешь руслом ручья для нисхождения Небес.
Став руслом ручья для нисхождения Небес, не будешь терять связь с Потенцией постоянства;
вернувшись, придешь в состояние ребенка.
Осознавая белое в себе, руководствуйся черным в себе, - станешь моделью для нисхождения Небес.
Став моделью для нисхождения Небес, не допустишь чрезмерности в Потенции постоянства;
вернувшись, придешь в состояние Отсутствия пределов.
Осознавая благородное в себе, руководствуйся низким в себе, - и станешь долиной для нисхождения Небес.
Если станешь долиной для нисхождения Небес, тогда Потенции постоянства будет достаточно;
вернувшись, придешь в состояние необделанного куска дерева.
В результате воздействия на целостную простоту дерева получается утварь.
Применяя это, человек мудрости становится властителем функций.
Причинность:
В большом порядке нет разделения.

[98t29c] **Б. Б. Виногродский**

Если заранее стремишься взять себе Поднебесную и осуществляешь это, то для сущности моей очевидно, что не обретя, прекратишь.
Поднебесная - божественная утварь.
Нельзя осуществлять.
Нельзя удерживать.
Кто осуществляет - потерпит поражение.
Кто удерживает - потеряет ее.
Причинность:
Для вещей существует чередование - движения и следования, вдоха и выдоха, усиления и ослабления, возвышения и падения.
Эта дает:
Человек мудрости отвергает крайность, излишество, полноту.

[98t30c] **Б. Б. Виногродский**

Если с мотивацией Пути помогаешь правителю людей, то не будешь посредством оружия усиливать Поднебесную.
В таких делах сильно воздаяние.
Там, где стоят войска, вырастают колючки и тернии.
За большими ратями следуют годы неудач и бедствий.
Наилучшее - добившись успеха, устраниться.
Не старайся через это получить силу.
В успехе не гордись.
В успехе не хвастай.
В успехе не возносись.
В успехе оказывайся против своей воли.
В успехе не будь сильным.
Сущность, достигнув пика силы, начинает стареть.

Это определяется:
Не Путь.
Если не Путь, то устраняйся пораньше.

[98t31c] **Б. Б. Виногродский**
Даже самое хорошее оружие - это инструмент, который не предвещает блага.
Любая вещь может пострадать от него.
Причинность:
При наличии Пути, его не применяют.
Правитель-мудрец, пребывая в мире, ценит левое;
применяя оружие, ценит правое.
Оружие - это инструмент, который не предвещает блага.
Это инструмент - не для правителя-мудреца.
Лишь против своей воли применяют его.
Высшее осуществляется безмятежностью и бесстрастностью.
Побеждая, не восторгаются.
Если восторгаешься, значит радуешься гибели людей.
А ведь тот, кто радуется гибели людей, не сможет добиться, чтобы устремления Поднебесной сошлись в нем.
В счастливых делах возвышают правое.
Заместитель командующего располагается слева.
Главнокомандующий располагается справа.
Говорят, что так располагают для траурного ритуала.
При гибели множества людей следует в печали и горести оплакивать их.
После победы в битве следует устраивать траурные ритуалы.

[98t32c] **Б. Б. Виногродский**
Постоянство Пути - в отсутствии имени.
Первозданную целостность даже и в малом никто в Поднебесной не может заставить служить себе.
Удельные князья и правители если способны руководствоваться этим, тогда мириады сущностей сами стремятся следовать их воле.
Образуется контакт меж Небом и Землей, в результате чего выпадают медовые росы.
Начало систематизации - это наличие имен.
Имя и есть приближение к наличию.
И здесь нужно уметь вовремя останавливаться.
Умеешь останавливаться - тем самым не подвергаешься опасности.
Чтобы образно определить Путь в пространстве Поднебесной, уподобим его потокам в долинах, стремящимся в пространство рек и морей.

[98t33c] **Б. Б. Виногродский**
Осознающий людей - познает.
Осознающий себя - просветляется.
Побеждающий людей - обладает силой.
Побеждающий себя - становится сильным.
Осознающий достаток - богат.
Движение сильного - это наличие волеустремлений.

Не терять свою позицию - это способность длить.
Умирая, не исчезать - это долгожительство.

[98t34c] **Б. Б. Виногродский**
В разливе великого Пути можно быть и слева, и справа.
Мириады сущностей, отождествляясь с этим, рождаются-живут, не облекаясь при этом в слова.
Успех дела - не в прославлении наличия.
Одевай и вскармливай мириады сущностей, но не осуществляй роль хозяина.
Устремляясь к постоянству отсутствия, можешь прославиться в малом.
Мириады сущностей приходят, но не осуществляй роль хозяина.
Можешь прославиться в великом.
Так как до конца не возвеличиваешь себя в осуществлении.
Причинность: можешь реализовать свое великое.

[98t35c] **Б. Б. Виногродский**
Держи великий образ.
Тогда Поднебесная уходит, а уходя, не вредит.
В этом великий мир и покой.
Музыка и яства задерживают мимолетного гостя.
На Пути то, что выходит изо рта, становится пресным - в нем отсутствует вкус.
Смотреть на него недостаточно, чтобы увидеть.
Слушать его недостаточно, чтобы услышать.
Использовать его недостаточно, чтобы исчерпать.

[98t36c] **Б. Б. Виногродский**
Стремишься сжать - необходимо сильно растянуть.
Стремишься ослабить - необходимо сильно укрепить.
Стремишься разрушить - необходимо сильно возвысить.
Стремишься завладеть - необходимо сильно дать.
Это определяется:
Просветление в тончайшем.
Мягкое и слабое побеждает твердое и сильное.
Рыбу нельзя вытаскивать из пучины.
Функциональные инструменты управления обществом нельзя показывать народу.

[98t37c] **Б. Б. Виногродский**
Постоянство Пути - в отсутствии осуществления.
В результате отсутствует не-осуществленное.
Если удельные князья и правители способны придерживаться этого, тогда мириады сущностей сами стремятся к преобразованиям.
Если в преобразованиях желают действовать, то сущность моя удержит их посредством первозданной целостности отсутствия имен.
Состояние первозданной целостности отсутствия имен также ориентирует на отсутствие стремлений.
Когда состояние отсутствия стремлений осуществляется посредством покоя, тогда выправление Поднебесной будет происходить само собой.

[98t38c] **Б. Б. Виногродский**
Направляя вверх Потенцию, отрицаешь Потенцию.
Это дает:
Наличие Потенции.
Направляя вниз Потенцию, не утрачиваешь Потенцию.
Это дает:
Отсутствие Потенции.
Направляя вверх Потенцию, осуществляют отсутствие.
При этом отсутствует не-осуществленное.
Направляя вниз Потенцию, осуществляют ее при наличии мотивов осуществления.
Направляя вверх контактность, осуществляют ее при отсутствии мотивов осуществления.
Направляя вверх осознание, осуществляют его при наличии мотивов осуществления.
Направляя вверх ритуал, осуществляют его, но никто ему не соответствует.
Тогда усердствуют в сохранении его.
Причинность:
Утрачивают Путь, и следует Потенция.
Утрачивают Потенцию, и следует контактность.
Утрачивают контактность, и следует осознание.
Утрачивают осознание, и следует ритуал.
Ведь ритуал - это ослабление чести и веры, он является началом смуты.
Предварительное знание - это цветы на Пути, которые порождают глупость.
Это дает:
Великий муж основывается на том, что является мощным, и не пребывает в том, что ослаблено.
Основывается на том, что является плодами, и не пребывает в том, что является цветами.
Причинность:
Отбрасывает то, берет это.

[98t39c] **Б. Б. Виногродский**
Изначально так обретают единство:
Небо обретает единство способностью чистоты.
Земля обретает единство способностью покоя.
Дух обретает единство способностью божественной тайны.
Долина обретает единство способностью наполнения.
Мириады сущностей обретают единство способностью жить.
Удельные князья и правители обретают единство способностью осуществлять исправление Поднебесной.
Это и приводит их к единству.
Если у Неба отсутствует способность чистоты, может и расколоться.
Если у Земли отсутствует способность покоя, может прийти в движение.
Если у духа отсутствует способность божественной тайны, может и иссякнуть.
Если у долины отсутствует способность наполнения, может и истощиться.
Если у мириад сущностей отсутствует способность жить, могут и исчезнуть.
Если у удельных князей и правителей отсутствует способность к исправлению посредством почитания высокого, могут и рухнуть.
Причинность:
Основой для благородного является подлое.

Опорой для высокого является низкое.
Это дает:
Удельные князья и правители называют себя сирыми, вдовыми, неприкаянными.
Разве это не потому, что подлое является основой?
Разве нет?
Причинность:
В частом выражении восхваления - отсутствие восхваления.
Не стремись к блеску драгоценного камня, будь заурядным, как простой булыжник.

[98t40c] **Б. Б. Виногродский**
От обратного - таково движение Пути.
От слабости - таково применение Пути.
В Поднебесной мириады сущностей рождаются в наличии.
Наличие рождается в отсутствии.

[98t41c] **Б. Б. Виногродский**
Высший воин, внимая Пути, усердно движется по нему.
Средний воин, внимая Пути, то хранит, то утрачивает.
Низший воин, внимая Пути, громко смеется над ним.
Если не будет смеяться, не сможет осуществлять Путь.
Причинность:
Об этом говорится в устойчивых выражениях.
Просветление Пути отражается в тьме.
Продвижение по Пути отражается в отступлении.
Равномерность Пути отражается в изъянах.
Ориентацию вверх Потенции отражает долина.
Великая белизна отражается в сраме.
Обширная Потенция отражается в недостаточности.
Напряженность Потенции отражается в халатности.
Простейшая истина отражается в текучести.
В большом квадрате - отсутствие углов.
Для большого инструмента - позднее завершение.
В большом звуке - разреженность голоса.
Большой образ - отсутствие формы.
Путь сокрыт в отсутствии имени.
Ведь только на Пути, совершенствуясь в зачине, еще и завершают.

[98t42c] **Б. Б. Виногродский**
Путь рождает один.
Один рождает два.
Два рождает три.
Три рождает мириады сущностей.
Для мириад сущностей то, что давит на спину - Инь, а что обнимают спереди - Ян.
Через срединность дыхания-ци осуществляют гармонию.
Люди в первую очередь не любят быть сирыми, вдовыми, не-прикаянными, а правители и удельные князья так и называют себя.

Причинность:
Для сущности и убыль может обернуться прибылью.
А может и прибыль обернуться убылью.
Чему люди учат, тому учу и я.
Коль сильный хребет, то умрешь, так и не обретя.
Сущность моя - это и делает родителем своего учения.

[98t43c] **Б. Б. Виногродский**
Предельно мягкое в Поднебесной опережает в гонке предельно твердое в Поднебесной.
Отсутствие наличия приникает в пространство отсутствия.
Сущность моя посредством этого знает наличие прибыли-пользы в осуществлении отсутствия.
Учение, не выраженное в словах, прибыль-польза от не-осуществления, - в Поднебесной редко достигают этого.

[98t44c] **Б. Б. Виногродский**
Что роднее, имя или тело?
Чего больше, тела или предметов?
Что больнее, обретенье или потеря?
Вот причинность:
От сильной любви будут большие утраты.
Коль много накопишь, то много исчезнет.
Зная достаточность, не посрамишься.
Умея останавливаться, не погибнешь.
Сможешь тем самым тянуть и длить.

[98t45c] **Б. Б. Виногродский**
Великая завершенность отражает изъяны.
В своем применении неразрушима.
Великая полнота отражает срединность.
В своем применении неистощима.
Великая прямота отражает кривизну.
Великая смекалка отражает глупость.
Великое красноречие отражает бормотанье.
Подвижность побеждает холод.
Покой побеждает жар.
Чистота и покой осуществляют исправление Нисхождения Небес.

[98t46c] **Б. Б. Виногродский**
При наличии Пути в Поднебесной и скаковых жеребцов отправляют для унавоживания полей.
При отсутствии Пути в Поднебесной и кобылы, обряженные в боевую упряжь, живут в предместьях.
Нет большего преступления, чем попустительствовать стремлениям.
Нет большей беды, чем неосознание достаточности.
Нет большей проблемы, чем стремление обрести.
Причинность:
Осознание достаточности достаточного - это постоянная достаточность.

[98t47c] **Б. Б. Виногродский**
Не выходя в двери, осознаешь Нисхождение Небес.
Не выглядывая в окна, видишь небесный Путь.
Чем дальше ты выходишь, тем меньше ты осознаешь.
Это дает:
Человек мудрости не движется, а осознает.
Не видит, а именует.
Не осуществляет, а совершает.

[98t48c] **Б. Б. Виногродский**
Осуществляя учение, ежедневно прибавляют.
Осуществляя Путь, ежедневно убавляют.
Убавляя еще и от убавления, достигают отсутствия осуществления.
В отсутствии осуществления отсутствует не-осуществленное.
Овладевая нисхождением Небес, будь постоянно в отсутствии ситуаций.
Когда же возникает состояние наличия ситуаций, этого недостаточно для овладения нисхождением Небес.

[98t49c] **Б. Б. Виногродский**
В сердце-сознании человека мудрости - постоянство отсутствия.
Способен осуществлять сердцем-сознанием сердца-сознания ста родов.
С совершенствующимися сущность моя совершенствуется.
С несовершенствующимися сущность моя тоже совершенствуется.
Это Потенция совершенствования.
С верующими сущность моя верует.
С неверующими сущность моя тоже верует.
Это Потенция веры.
Человек мудрости в пространстве нисхождения Небес воспринимает-впитывает, осуществляя нисхождение Небес в завихрении своего сердца-сознания.
Сто родов всегда направляют внимание в свои уши и глаза.
Человек мудрости всегда ограждается от этого.

[98t50c] **Б. Б. Виногродский**
Выход - рождение.
Вход - смерть.
Попутчиков рождения - на десять есть три.
Попутчиков смерти - на десять есть три.
Людей, рождающих движение, ведущее в Землю смерти, тоже - на десять есть три.
И какова же причинность?
Это мощность порождения порождающего.
Так, внимающий совершенствованию накопления порождающего, он, двигаясь по суше, не встретит носорога и тигра.
Войдя в войско, он не столкнется с вооруженным воином.
Для носорога отсутствует место, куда приложить свой рог.
Для тигра отсутствует место, куда применить свои когти.
Для воина отсутствует место, куда вонзить свой клинок.

И какова же причинность:
Из-за отсутствия в нем Земли смерти.

[98t51c] **Б. Б. Виногродский**
Путь порождает это.
Потенция накапливает это.
Сущности-вещи оформляют это.
Энергия-сила завершает это.
Это дает:
Из мириад сущностей нет не почитающих Путь и не возвышающих Потенцию.
Почитание Пути и возвышение Потенции делается не по чьему-то наставлению, а является самопроизвольной естественностью постоянства.
Причинность:
Путь порождает это, Потенция накапливает это, взращивает это, питает это, распределяет это, регулирует это, вскармливает это, покрывает это.
Порождая, не вступай в отношения обладания.
Осуществляя, не отождествляйся.
Возрастая, не главенствуй.
Это определяется:
Мистическая потенция.

[98t52c] **Б. Б. Виногродский**
При наличии начала в Поднебесной тем самым осуществляется материнская функция Поднебесной.
Когда же постигают свою материнскую функцию, тогда узнают о своей детской функции.
Узнав свою детскую функцию, возвращаются к тому, чтобы руководствоваться своей материнской функцией.
Тело исчезнет, а не погибнешь.
Закрываешь свои отверстия;
запираешь свои врата.
До кончины тела не будет напряжения.
Открываешь свои отверстия;
улаживаешь свои дела-ситуации.
До кончины тела не будет избавления.
Видение малого выражает ясность.
Руководство слабостью выражает силу.
Применяй свой свет.
Возвращаясь, приходи к своей ясности.
Отсутствует беда утраты тела.
Это определяется:
Постоянство преемственности.

Поля совсем заросли.
Хранилища совершенно пусты.
Одежда в цветных узорах.
На поясе острые мечи.
Пресыщение питьем и пищей.
Наличие избытка товаров, предметов.
Это определяется:
Воровской беспредел.
Но ведь это же отрицание Пути.

[98t54c] **Б. Б. Виногродский**
Если хорошо водрузить, то не вырвешь.
Если хорошо охватить, то не отнимешь.
Посредством этого от детей к внукам непрерывно передается культ поклонения предкам.
Если совершенствовать это в теле, тогда его Потенция будет истинной.
Если совершенствовать это в семье, тогда ее Потенция будет избыточной.
Если совершенствовать это в округе, тогда его Потенция, возрастет.
Если совершенствовать это в государстве, тогда его Потенция создаст изобилие.
Если совершенствовать это в Поднебесной, тогда эта Потенция распространится повсюду.
Причинность:
Тело следует рассматривать как тело.
Семью следует рассматривать как семью.
Округ следует рассматривать как округ.
Государство следует рассматривать как государство.
Поднебесную следует рассматривать как Поднебесную.
Посредством чего сущность моя осознает такой характер Поднебесной?
Посредством этого.

[98t55c] **Б. Б. Виногродский**
Если вмещаешь полноту Потенции, то приближаешься к состоянию новорожденного.
Ядовитые твари не ужалят.
Лютые звери не утащат.
Хищные птицы не вцепятся.
Кости мягкие, сухожилия слабые, а хватает крепко.
Еще не осознает единения самки и самца, а в действиях целостен.
Это предельное выражение семени.
До конца дня кричит, а горло не садится.
Это предельное выражение гармонии.
Осознание гармонии выражается в постоянстве.
Осознание постоянства выражается в ясности.
Прибыль в жизни выражается благими знамениями.
Управление дыхания-ци сердцем выражается в силе.
Сущность, став крепкой, начинает стареть.
Это определяется:
Не Путь.
Если не Путь, устраняйся пораньше.

Познание - не речь.
Речь - не познание.
Закрывают их отверстия.
Запирают их врата.
Затупляют их остроту.
Разрубают их путы.
Смягчают их сияние.
Объединяют их прах.
Это определяется:
Мистическое объединение.
Причинность:
Нельзя, захотев, быть родственным.
Нельзя, захотев, быть отчужденным.
Нельзя, захотев, иметь выгоду.
Нельзя, захотев, причинить вред.
Нельзя, захотев, быть благородным.
Нельзя, захотев, быть подлым.
Причинность:
Осуществляют благородное в Поднебесной.

[98t57c] **Б. Б. Виногродский**
Посредством нормального упорядочивают государство.
Посредством аномального применяют оружие.
Посредством отсутствия дел-ситуаций овладевают Поднебесной.
Каким образом сущность моя знает, что это так?
А так оно и есть.
В Поднебесной растет количество запретов и табу, а народ становится беднее.
У народа увеличивается количество полезной утвари, а в государстве и семье все больше беспорядка.
Чем больше у людей мастерства и хитрых приемов, тем больше возникает аномальных явлений.
Чем больше издают указов и распоряжений, тем больше появляется воров и разбойников.
Причинность:
Человек мудрости говорит:
Я - в отсутствии осуществления, и народ сам изменяется.
Я - в стремлении к покою, и народ сам себя исправляет.
Я - в отсутствии дел-ситуаций, и народ сам богатеет.
Я - в отсутствии стремлений, и народ сам приходит к изначальной целостности.

[98t58c] **Б. Б. Виногродский**
Его управление невежественно, а народ его бесхитростен.
Его управление проницательно, а народ его хитер и коварен.
Несчастье пусть станет опорой для счастья.
Счастье пусть таит в себе несчастье.
Кто осознает свой предел?
Нормальное обращается, становясь аномальным.

Добро обращается, становясь нечистью.
Человек потерял свое солнце в глубокой древности.
Это дает:
Человек мудрости,
упорядочивая по квадрату, не разделяет; выделяя грани, не режет;
будучи прямым, не жесток; будучи светлым, не слепит.

[98t59c] **Б. Б. Виногродский**
Упорядочивание - люди.
Дела - Небо.
Нет ничего, что сравнится с бережливостью.
Будь только бережливым.
Это определяется:
Заранее воспринимать.
Заранее воспринимать.
Это определяется:
Двойное накопление Потенции.
Двойное накопление Потенции - тогда отсутствие не-преодолимого.
Отсутствие не-преодолимого - тогда никто не знает своего Предела.
Никто не знает своего предела - может быть наличие государства.
Наличие материнского принципа в государстве позволяет достичь длительности и долготы.
Это определяется: Глубокий корень, прочный ствол.
Путь длинной жизни и долгого видения.

[98t60c] **Б. Б. Виногродский**
Порядок в большом государстве отражается в приготовлении мелкой рыбешки.
Посредством Пути управляют Поднебесной -
их бесы не обожествляются.
Суть не в том, чтобы их бесы не обожествлялись, а в том, чтобы их божественность не вредила людям.
Суть не в том, чтобы их божественность не вредила людям, а в том, чтобы человек мудрости тоже не вредил людям.
Пусть в паре не возникают отношения взаимного уничтожения.
Причинность:
Тогда Потенция, соединившись, возвращается.

[98t61c] **Б. Б. Виногродский**
Большое государство - это нисходящий поток, фокус нисхождения Небес,
женский принцип нисхождения Небес.
Постоянство женского в том, что покой побеждает мужское.
Покой осуществляет нисхождение.
Причинность:
Большое государство способно нисходить к маленькому государству, и тогда берет маленькое государство.
Маленькое государство способно нисходить к большому государству, и тогда берет большое государство.
Причинность:

Или, нисходя, способен взять; или нисходишь и берешь.
Большое государство стремится только присоединить и накопить людей.
Маленькое государство стремится только подключиться к делам других людей.
Вот пара, в которой каждый обретает то, к чему стремится.
Большое - это необходимость осуществлять нисхождение.

[98t62c] **Б. Б. Виногродский**
Путь - красный угол мириад сущностей.
Сокровище для совершенствующихся людей.
Охраняющая сила для не-совершенствующихся людей.
Красивые слова подходят для базаров.
Благородные поступки нужны для репутации.
Есть в человеке несовершенное.
Как можно избавиться от этого?
Причинность:
Происходит интронизация сына Неба, инаугурация трех князей-гунов.
Хотя несут регалии двумя руками и впереди четверка лошадей, не лучше ли сидеть, чтобы продвигаться по этому Пути.
В древности то, из-за чего ценили этот Путь, разве не выражали таким образом:
Через это ищущий обрящет, а имеющий грехи будет прощен.
Причинность:
Осуществляют благородное в Поднебесной.

[98t63c] **Б. Б. Виногродский**
Осуществляют отсутствие осуществления.
Действуют в отсутствии дел.
Вкушают отсутствие вкуса.
Большое - маленькое.
Многое - малое.
Отвечай на обиды посредством Потенции.
Замышляя трудное, будь в его легком.
Осуществляя большое, будь в его тонком.
В Поднебесной трудные дела обязательно складываются из легких.
В Поднебесной большие дела обязательно складываются из мелочей.
Это дает:
Человек мудрости заканчивает, не осуществляя большого.
Причинность:
Может совершить это большое.
Ведь, легко обещая, уменьшаешь веру.
Умножая легкое, обязательно умножаешь трудное.
Это дает:
Человек мудрости приближает к трудному.
Причинность:
Заканчивает в отсутствии трудного.

Что спокойно, легко удержать.
Что еще не проявилось, легко проконтролировать.
Что хрупко, легко разрушить.
Что тонко, легко рассеять.
Осуществляй это, когда еще нет наличия.
Упорядочивай это, когда еще нет неурядиц.
Дерево толщиной в обхват рождается из тончайшего ростка.
Башня в девять этажей поднимается с кучки земли.
Движение в тысячу ли начинается под ступней.
Осуществляешь - испортишь это.
Удерживаешь - потеряешь это.
Это дает:
У человека мудрости - отсутствие осуществления.
Причинность:
Отсутствие порчи.
Отсутствие удержания.
Причинность:
Отсутствие потери.
Народ, делая дела, постоянно, приближаясь к завершению, портит их.
Если осторожен в конце так же, как и в начале, тогда не испортишь дело.
Это дает:
Человек мудрости стремится не стремиться.
Не придает ценности трудно достающимся товарам.
Учится не учиться.
Возвращается туда, где проходят большинство людей.
Тем самым поддерживает самопроизвольную естественность мириад сущностей и не осмеливается осуществлять.

[98t65c] **Б. Б. Виногродский**
Осуществляющие совершенствование на Пути древности отрицают применение просвещения народа, а скорее делают его невежественным.
Трудность управления народом объясняется избытком у него знаний.
Причинность:
Посредством знаний управлять государством - разграбление государства.
Не через знания управлять государством - благосостояние государства.
В осознании этой пары - суть следования идеалу.
Постоянно осознавай следование идеалу.
Это определяется:
Мистическая Потенция.
Мистическая Потенция и глубока, и далека.
В контакте с вещью - она от обратного.
Но именно так и достигается большая послушность.

[98t66c] **Б. Б. Виногродский**
Реки и моря оттого способны осуществлять функцию правителя ста долин, что они совершенны в их ориентации вниз.

Причинность:
Способны осуществлять функцию правителя ста долин.
Это дает:
Человек мудрости, стремясь продвинуться вверх в народе, посредством своих речей ориентирует его вниз.
Стремясь продвинуться вперед в народе, посредством своего тела ориентируется назад.
Это дает:
Человек мудрости находится наверху, а народу не тяжело.
Находится впереди, а народу нет вреда.
Это дает:
В Поднебесной рады продвигать, а не преграждать.
В связи с тем, что не соперничает.
Причинность:
В Поднебесной никто не способен вступить с ним в отношения соперничества.

[98t67c] **Б. Б. Виногродский**
В Поднебесной всегда называют мой Путь великим.
А он, похоже, ни с чем не сравним.
Ведь только потому и велик.
Причинность:
В схожести ни с чем не сравним.
Если уподоблять, то с течением времени он становится крошечным.
У меня в наличии три драгоценности.
Удерживаю и сберегаю их.
Первая выражается в милосердии.
Вторая выражается в умеренности.
Третья выражается в том, что не осмеливаюсь осуществлять впереди Поднебесной.
Милосердие -
Причинность:
Способность к мужеству.
Умеренность -
Причинность:
Способность к широте.
Не осмеливаюсь осуществлять впереди Поднебесной -
Причинность:
Способность главенствовать в сотворении инструментов.
Теперь же, если, оставив милосердие быть мужественным,
оставив умеренность быть широким,
оставив задних быть впереди -
это смерть.
Ведь, воюя с милосердием, побеждаешь.
Удерживая с милосердием, достигаешь крепости.
Когда Небо помогает тебе, оно посредством милосердия охраняет тебя.

[98t68c] **Б. Б. Виногродский**
Совершенствующийся в деле воина не воинствен.

Совершенствующийся в битвах не гневлив.
Совершенствующийся в победах над противником не вступает в контакт.
Совершенствующийся в использовании людей осуществляет ориентацию вниз.
Это определяется:
Потенция не-соперничания.
Это определяется:
Сила использования людей.
Это определяется:
Союз с пределом небесной древности.

[98t69c] **Б. Б. Виногродский**
У использующих оружие есть изречения:
"Сущность моя не осмеливается осуществлять функцию хозяина, а осуществляет функцию гостя;
Не осмеливается продвинуться на сантиметр, а отступает на метр.
Это определяется:
Движутся в отсутствии движения.
Закатывают рукава в отсутствии рук.
Бросаются на отсутствие противника.
Удерживают отсутствие оружия.
Нет большей беды, чем недооценивать противника.
Недооценивая противника, близок к потере драгоценностей сущности своей".
Причинность:
Когда скрещивают оружие при равных силах, побеждает сожалеющий.

[98t70c] **Б. Б. Виногродский**
Речь сущности моей -
очень легка для осознания,
очень легка для действия-движения.
В Поднебесной никто не способен осознавать, никто не способен действовать-двигаться.
В речи - наличие предков.
В делах - наличие владыки.
Вот только отсутствует осознание.
Это дает:
Не "я" осознает.
Осознание "я" - это разреженность.
Подражание "я" - это придавание ценности.
Это дает:
Человек мудрости покрыт грубой шерстяной материей, а за пазухой яшма-нефрит.

[98t71c] **Б. Б. Виногродский**
Осознание не-осознания - ориентация вверх.
Не-осознание осознания - болезнь.
Ведь только боление болезнью -
Это дает:
Не боление.
Человек мудрости не болеет -

2541/2593

Через боление своей болезнью.
Это дает:
Не боление.

[98t72c] **Б. Б. Виногродский**
Если народ не боится власти, тогда придет еще большая власть.
Будьте в отсутствии привыкания к тому, что приносит покой.
Будьте в отсутствии пресыщения тем, что вас порождает.
Ведь только не пресыщение -
Это дает:
Не пресыщение.
Это дает:
Человек мудрости осознает себя, не показывая себя.
Любит себя, не предавая ценности себе.
Причинность:
Отбрасывает то, берет это.

[98t73c] **Б. Б. Виногродский**
Храбрость в смелости ведет к гибели.
Храбрость в не-смелости ведет к жизни.
В этой паре может быть польза, может быть вред.
Если Небо не любит кого-то, кто знает причину этого?
Это дает:
Человек мудрости приближает процесс к трудности.
В Пути Небес - нет соперничества - а совершенствование в победах; нет речи - а совершенствование отклика; нет призывания - а само приходит; такая беспечность - а совершенствование замыслов.
Сеть Неба необъятно редка, а нет упущений.

[98t74c] **Б. Б. Виногродский**
Если народ не боится смерти, то что его смертью пугать?
А вот, если человек при постоянстве страха смерти осуществляет аномальное, то "сущность моя" должна схватить и убить его.
Кто осмелится?
Постоянно есть ведающий убийствами, который убивает.
А вот если убивать вместо ведающего убийствами -
Это определяется:
Заменить великого мастера-плотника.
Вот замените великого мастера-плотника, - и редко будет такой, кто не поранит себе руки.

[98t75c] **Б. Б. Виногродский**
Голод в народе - это из-за того, что их высшие берут много налогов на зерно.
Это дает:
Голод.
Народом трудно управлять - это из-за того, что их высшие осуществляют наличие.
Это дает:

Трудно управлять.
Народ легко относится к смерти - это из-за того, что их высшие стремятся в толщу жизни.
Это дает:
Легко относится к смерти.
Ведь только в отсутствии осуществления за счет жизни заключается мудрая способность ценить жизнь.

[98t76c] **Б. Б. Виногродский**
Человек в жизни - мягкость и слабость.
В его смерти - твердость и сила.
Из мириад сущностей травы и деревья в жизни - это мягкость и хрупкость.
В их смерти - сухость, крепость.
Причинность:
Твердость и сила - это попутчики смерти.
Мягкость и слабость - это попутчики жизни.
Это дает:
Сила оружия ведет к уничтожению.
Сила дерева ведет к перелому.
В сильном и большом находится ориентация вниз.
В мягком и слабом находится ориентация вверх.

[98t77c] **Б. Б. Виногродский**
В небесном Пути нет ли подобия натягиванию лука?
Высокое - оно придавливается.
Низкое - оно приподнимается.
При наличии излишка его убавляют.
При недостаточности его восполняют.
В небесном Пути убавляют наличие излишка и восполняют не-достаточность.
Кто способен наличие излишка отдавать Поднебесной?
Только тот, у кого в наличии Путь.
Это дает:
Человек мудрости в осуществлении не отождествляется,
совершив дело, не пребывает в нем.
Нет у него стремления проявить умелость.

[98t78c] **Б. Б. Виногродский**
В Поднебесной нет ничего мягче и слабее воды.
Но при столкновении с твердостью и силой никто не способен ее победить.
Посредством отсутствия в себе, посредством переменчивости.
Через слабость побеждают силу.
Через мягкость побеждают твердость.
В Поднебесной нет никого, кто не знает.
Нет никого, кто способен сделать.
Это дает:
Человек мудрости говорит:
Принимаешь на себя грязь государства.
Это определяется:

Хозяин главного алтаря.
Принимаешь на себя недобрые знамения в государстве.
Это определяется:
Правитель Поднебесной.
Правильность речи отталкивается от обратного.

[98t79c] **Б. Б. Виногродский**
Смирение в большой обиде обусловливает наличие остаточной обиды.
Как можно таким образом осуществлять совершенствование?
Это дает:
Человек мудрости держит левую половину контрактной бирки и не предъявляет претензий к людям.
При наличии Потенции отвечают за обязательства.
При отсутствии Потенции ведают взиманием податей.
В небесном Пути отсутствует родственность, а есть постоянство контакта с совершенствующимся человеком.

[98t80c] **Б. Б. Виногродский**
Маленькое государство, скудное население.
Пусть у народа будут десятки и сотни приспособлений-инструментов, а не применяют.
Пусть народ придает значение смерти и не путешествует далеко.
Хотя есть лодки и колесницы, а никто на них не ездит.
Хотя есть вооруженные воины, а никто их не строит.
Пусть народ вернется к письму через вязание узлов и использует его.
Сладка его пища.
Красива его одежда.
Мирны его покои.
Радостны его обычаи.
Соседние государства глядят друг на друга.
Петухи и собаки слышат голоса друг друга.
А народ до старости и смерти не общается друг с другом, не приходя и не уходя.

[98t81c] **Б. Б. Виногродский**
Верные речи не красивы.
Красивые речи не верны.
Совершенствующийся не рассуждает.
Рассуждающий не совершенствуется.
Знание - это не эрудиция.
Эрудиция - это не знание.
Человек мудрости не накапливает.
Чем больше он делает для других,
тем больше у него в наличии для себя.
Отдавая другим, он умножает себе.
Путь Небес приносит пользу, а не вредит.
Путь человека мудрости в осуществлении без соперничества.

Wandering On The Way
An Interview with Gia-fu Feng

Transcribed by Shi Jing and Shi Tao

This article is an amalgamation of three separate interviews recorded with Gia-fu Feng some years ago before his death in 1985.

A Brief Background on Gia-fu Feng

Gia-fu Feng was born in Shanghai in 1919 into a fairly wealthy family of some influence. He was educated privately in his own home in the classics of the Chinese tradition, learning such things as the teachings of Taoism and Confucianism, art, calligraphy, poetry and tai chi. His family were followers of Taois. In the springtime, they traveled to a temple in the mountains of Hang-Chou for the spring festivals. When Gia-fu stayed at the temple for longer periods, he was trained in Taoist practices. He continued with his education by going to Beijing University where he gained a bachelor's of arts degree.

Shortly after, in 1947, the communists took over China. Gia-fu left the country taking, in his own words, "The last boat out of China" and traveled to America. After further study at the University of Pennsylvania, where he received a master's of arts degree, he became involved in teaching Taoism. First he taught at the American Academy of Asian Studies, followed by the Esalen Institute, then moved to Colorado and started his own center-called Stillpoint Foundation-in Manitou Springs. There he worked on his well known translation of the Tao Te Ching. He also began to teach in Europe; it was on one of those trips in 1978 that Alan Redman (Shi Jing) became his student. Gia-fu was a real "Man of Tao," unpredictable and wild. Alan once described him as a character who had jumped straight out of the pages of a Chuang Tzu story!

How did you get involved in teaching Taoism in America?

By 1950, at age 31, I was forced to be a "dropout" and started wandering all over the country. By the early fifties I was on the West Coast and by chance met Alan Watts, Jack Kerouac and the North Beach San Francisco crowd. Later on, of course, I joined the Esalen Institute where I met Fritz Pearls, Abraham Maslow and Bishop Pike.

What sort of things were you doing at Esalen?

I was doing my own things from the Taoist tradition, like acupressure, the ancient way of moving chi in the meridians, the relationship between the muscles, emotion and well being. I did some movement and tai chi to help in family therapy sessions and so on. The important thing in the sixties was that there was a great deal of interest in the integration of body, mind and spirit. This is exactly what Taoists try to do. So by 1966 I started my own center called Stillpoint, a Taoist retreat with Taoist philosophy put into practice, mainly centering on the flowing of chi.

Do you see this as the central aspect of many of the Taoist practices and arts, such as meditation or calligraphy?

Wandering On The Way: An Interview with Gia-fu Feng

2/8

Yes, and calligraphy especially is a very true manifestation of chi. We can maybe translate the word chi as "emanation" or "energy" or "breath," which is physical. So in order to be a good painter you must have a good flow of chi, which is what tai chi is all about, making your chi flow. Your chi is centered in the belly, in the tan tien, a couple of inches below the naval; it is the center. So during meditation we always try to put our mind in the belly, so to speak, to get out of the mind and come back to the body-bodily center, a physical manifestation of the Tao. Meditation in Taoism is when you hit rock bottom. We call it the great stillness, or sometimes I translate it as the great certainty. Taoist meditation is to reach the stage of a great physical certainty. Taoist meditation is very physical. A lady asked me, "What is Taoist meditation?" I said, "Holding on to the center, literally holding on to your tan tien and clinging to the chi, clinging to your breath, your chi, your life energy." Your breath is from the cosmic energy and you literally transform yourself, not by your own breath but the breath that comes from the cosmos, which brings a sense of being reborn. I was telling Alan just a minute ago, the Tao is everywhere, it is manifested in your tan tien and therefore you are the Tao. You are the microscopic version of the Tao. It's physical. You actually can feel the Tao rest in your belly. Your whole body is settling in stillness. You reach the rock bottom like a rock in the ocean. You really are a rock because you don't have to use mind. No interference with the mind.

Where do the basic teachings of the Tao originate?

I think all of Taoism is a formation of the old verbal tradition and I think it's real Chinese stuff. There is no foreign influence at all in the Tao Te Ching or the I Ching of course. The I Ching is also a formation of old wisdoms come along by word of mouth. Duke Chou is the founder or the one who really put it into words in a book. So I tend to think that Duke Chou, together with Lao Tzu, are the formation of the ancient teachings of China, of the northwestern part especially, where civilization was born thousands of years ago.

Could you talk about the Tao Te Ching and some of the main teachings that it is expressing?

Certainly. If we look at the Tao Te Ching it seems to me that the basis of these verses is a thread of respect for the primal nature:

Chapter 20
Give up learning and put an end to your troubles.
Is there a difference between yes and no?
Is there a difference between good and evil?
Must I fear what others fear? What nonsense!
Other people are contented, enjoying the sacrificial feast of the ox.
In spring some go to the park and climb the terrace,
But I alone am drifting, not knowing where I am.
Like a newborn babe before it learns to smile,
I am alone without a place to go.

Others have more than they need, but I alone have nothing.
I am a fool. Oh, yes! I am confused.
Others are clear and bright,
But I alone am dim and weak
Others are sharp and clever,
But I alone am dull and stupid.
Oh, I drift like the waves of the sea,

Wandering On The Way: An Interview with Gia-fu Feng

3/8

Without direction, like the restless wind.

Everyone else is busy,
But I alone am aimless and depressed.
I am different.
I am nourished by the great mother.

The last sentence really means in Chinese "I prefer to eat mother." Now my first version is "I suck off my mother" and then of course I am told they cannot print this, so it says "I am nourished by the great mother." It's just as good. Here we touch on this emphasis of giving up cultural conditioning and preconceptions and returning to the primal, returning to the little babe, returning to the mothers' breast.

Chapter 1
The Tao that can be told is not the eternal Tao.
The name that can be named is not the eternal name.
The nameless is the beginning of heaven and earth.
The named is the mother of ten thousand things.
Ever desireless, one can see the mystery.
Ever desiring one can see the manifestations.
These two spring from the same source but differ in name;

This appears as darkness.
Darkness within darkness.
The gate to all mystery.

So there's a great deal of emphasis on the nameless, on the darkness, on the primal chaos, so to speak. It is strongly emphasized that the Tao cannot be told. It is a kind of non-duality beyond the opposites and the unknowable and we have to see that our conscious mind is not the ultimate. In this chapter we also see the relativity in Taoism:

Ever desireless, one can see the mystery.
Ever desiring one can see the manifestation.

This is the only translation that has that flavor. In Chinese it literally says "Constantly no desire to see the mystery or constantly have desire to see the obvious." But I said, "Ever desireless, ever desiring." It is two in one, meaning the Tao is beyond desireless or desiring. Ever desiring and ever desireless is one and the same thing. You can't really be desireless without desire. Put it right on the line. This is the crux of Taoism-very paradoxical. What do you mean, I have no desire? Of course I have! Then the theme of relativity continues in the second chapter; this brings in the Taoist concept of yin and yang. The Taoists usually talked about yin and yang, weak and strong. When you have yin you must have yang, when you have yang you must have yin; they compliment each other. For instance you cannot succeed without failure. If you always succeed you can't succeed anymore. You've got to have some failure in order to succeed-it's all relative. Perhaps it's a good way to relieve anxiety. Today, for instance, we are so troubled with anxiety. Perhaps this is the way to deal with it.

Chapter 2

Under heaven all can see beauty as beauty only because there is ugliness.
All can know good as good only because there is evil.

Wandering On The Way: An Interview with Gia-fu Feng

4/8

Therefore having and not having arise together.
Difficult and easy compliment each other.
Long and short contrast each other;
High and low rest upon each other;
Voice and sound harmonize each other;
Front and back follow one another.

Therefore the sage goes about doing nothing, teaching no-talking.
The ten thousand things rise and fall without cease. Creating, yet not possessing,
Working yet not taking credit.
The work is done, then forgotten.
Therefore it lasts forever.

So you almost come to a state of mind that is non-judgmental, a state of suchness. Nothing is set, you notice; it's all in flux and you can stay with your experience without rejecting or accepting. If you're angry, be angry. If you feel shitty, be shitty. If you're depressed, be depressed. You really see the pure light is beyond accepting and rejecting. The Taoist mantra would be, "There's nothing lacking. Nothing in excess. It is only because we accept and reject that we know not the suchness of things." Alan Watts mentions this all the time. If you're long bamboo, you're long bamboo. If you're short bamboo, you're short bamboo. Everything compliments everything else. Don't get messed up about anything. It's absolutely basic when you see everything from the Tao. No matter what you do there's no right or wrong. At the moment all that counts is here and now, you and I, what works, what doesn't work. So this is a beautiful chapter.

Now "Teaching no talking." Mitsui, our internationally famous yogi teacher from Japan, was talking to me yesterday. She spent ten years with master Oki in Japan. She says, "Master Oki never taught me." The Americans, who were also there, went crazy! "What do you mean-we spend all this money here and you don't teach us!" But everybody there in the dojo knows how to put in an acupuncture needle with absolutely no teaching. They know how to do therapy; they're a healing center. Mitsui herself had a breast disease which was completely healed without ever being told by master Oki "I'm going to heal you." Nothing was said and it just healed by itself. So this is teaching by not teaching. You don't teach them; that's a teaching also! Refusing to teach is a teaching. This is traditional of many Japanese and Taoists, even more now in Tokyo than in Peking or Shanghai, absolutely, I vouch for it. Japan has a great simplicity. There is the little tea house where you have to stoop to get inside, the beautiful gardens, the Zen gardens. You know I was in Japan and they gave me a block of ink in an ink stone. It was so narrow and I had to prepare the ink in this. But in China they are big! I have one. A big, huge rock, and there you grind with a big huge ink! But in Japan everything is small and simple. In absolutely every house you go to there's a Tokonoma. This is an alcove in the wall of the room, with a statue or painting of some kind. So this is the only furniture in the whole room of empty tatami mats. The beauty, the art is Japanese, pure asthetics, you know. So I have such liking for all Japanese teaching in this country, especially for Sabro Hasegawa. He actually was Taoist and a great artist from Japan. He died in 1958, in San Francisco, which Alan Watts mentioned in his book "Tao-The Water Course Way." He was a great Taoist. He asked me once, "What's the most delicious food you ever had?" I said "Well, chop suey." He said, "Yeah . . . just plain rice." (Gia-fu laughs like mad.) That's the most delicious food you could ever have! Just plain rice! Pure, blank, but it must be cooked grain by grain. Mitsui was telling me about Shintoism, which she studied in Japan. She told me yesterday, on a walk, that in Shinto you have to soak in water in the sea every day. Even if the water is cold you have to go in there. You must soak and purify. Another thing they do is look in the mirror every day and see yourself as God. You have to face the mirror and see yourself as a god. And these two things she told

Wandering On The Way: An Interview with Gia-fu Feng

5/8

me were very, very significant. You literally have to go down to the ocean of cold water to purify yourself, not just to think about it. The trouble with Western man is that everything is intellectualized.

So now we talk about wu wei which means non-action, but really better translated as non-interference. Wu wei is wei. Meaning non-action is action. When you're totally quiet, your organ really manifests itself into action without you even knowing it. And that's the real action.

Chapter 48

In the pursuit of learning, every day something is acquired.
In the pursuit of Tao, every day something is dropped.

Less and less is done
Until non-action is achieved.
When nothing is done, nothing is left undone.

The world is ruled by letting things take their course.
It cannot be ruled by interfering.

The action of non-action is a true action without any anxiety and without any competitive ideas, without wanting to conquer anything, so you become a total action of your organs. Now I always want to bring it down to the physical level. What your organ really feels.

Do not seek fame.
Do not make plans.
Do not be absorbed by activities.
Do not think that you know.
Be aware of all that is and dwell in the infinite.
Wander where there is no path,
Be all that heaven gave you,
But act as though you had received nothing.
Be empty, that is all.

The mind of a perfect man is like a mirror.
It grasps nothing.
It expects nothing.
It reflects but does not hold.
Therefore the perfect man can act without effort.

Chapter 43

The softest thing in the universe
Overcomes the hardest thing in the universe.
That without substance can enter where there is no room.
Hence I know the value of non-action.

Teaching without words and work without doing
Are understood by very few.

In translating this into English we lost the real punch line. "Teaching without words and work without

Wandering On The Way: An Interview with Gia-fu Feng

6/8

doing are understood by very few." There is no punch to it, but in Chinese it says "Wordless teaching, actionless benefit-the benefit of no action, the teaching of no words. All under heaven seldom get into it." That's the real translation. Not "understood by very few." So I want to do a new edition. "Teaching of no words, the benefit of no action, all under heaven is seldom into it."

Chapter 15

The ancient masters were subtle, mysterious, profound, responsive.
The depth of their knowledge is unfathomable.
Because it is unfathomable,
All we can do is describe their appearance.
Watchful, like men crossing a winter stream.
Alert, like men aware of danger.
Courteous, like visiting guests.
Yielding, like ice about to melt.
Simple, like uncarved blocks of wood.
Hollow, like caves.
Opaque, like muddy pools.

Who can wait quietly while the mud settles?
Who can remain still until the moment of action?
Observers of the Tao do not seek fulfillment.
Not seeking fulfillment, they are not swayed by desire for change.

"Observers, observe" actually would be the best translation. They who have, who carry out, who guard against the Tao, do not seek to be full. You're not full, so you cannot be worn out and you have no desire for change. Then you can be renewed. So fulfillment is not really the right word, not to seek to be full, but to succeed actually is better. "Who can wait till the mud settles?" Let dust settle before you act. Yeah! It's too bad; it's very poetic in Chinese. Here we said, "Alert, like men aware of danger. Courteous, like visiting guests. Yielding, like ice about to melt. Simple, like uncarved blocks of wood. Hollow, like caves. Opaque, like muddy pools." All this charm is lost in English. But still, it's better than nothing. And then, "Who can remain still until the moment of action?" Again there is the meaning of some kind of divine accident here also. You really are very open and still until the moment that you're moved to act. Again, back to the emptiness, total openness, to totally listen to your own center with no preconceived idea. Now I think that emptiness is the essence of Taoism. Many chapters start with "be empty." The empty vessel is used but never filled.

Chapter 11 is very potent about emptiness:

Chapter 11

Thirty spokes share the wheel's hub;
It is the center hole that makes it useful.
Shape clay into a vessel;
It is the space within that makes it useful.
Cut doors and windows for a room;
It is the holes that make it useful.
Therefore benefit comes from what is there;
Usefulness from what is not there.

Wandering On The Way: An Interview with Gia-fu Feng

7/8

This is again the basis for non-action. It is the holes that make it useful. So leave something undone, you know, do not try to do everything, and don't interfere. It is only when you do not interfere that a divine essence will take over. So no interference and be empty.

You've mentioned Alan Watts several times and I know that you've been with him when he was teaching. What was he like to be with?

You see Alan Watts was very creative. When he drinks he's very clever. He was in a class, you know, at night time, he was all drunk. But his lectures were never boring. He was a tremendous entertainer. He said, "I'm an entertainer, I'm no Buddhist philosopher."

Alan Watts actually died from alcohol, didn't he?

Oh yeah. At that time he drank whisky by the bottle.

But how could that tie in with the Tao?

That's from the Tao! The fact that he drank is totally in tune with the Seven Sages of the Bamboo Grove-his utter disregard for convention. One of the sages, a famous poet called Liu Ling, had a servant who followed him carrying a jug of wine and a spade. In this way he always had some wine to drink and his servant would be ready to bury him if he dropped dead during a drinking bout! It's in the Tao. So Alan Watts' drinking is quite Taoistic.

Have you experienced that people come into tai chi as physical exercise and through the practice of it have come to understand and be interested in the philosophy?

Yes. Oh yes. There is definitely a great demand today. Young people want to learn kung fu or want to fight, they want to achieve a certain technique and power. This is always the preoccupation of young people today. "How can I have power?" like such and such guru or whatever. So people use physical exercise as an expression for their own aggression and then finally after they empty their aggression they come to the philosophy of the Tao, and they really find peace. There is a place for something that is violent, that is physical, that uses great strength and so on, but this is only a step toward the ultimate integration of body and mind. If you only follow the forms you lose the essence, and essence can only be experienced by yourself and through yourself. But now of course the gurus are here to demonstrate that they have reached a certain stage, like a master, a tai chi master so to speak. Actually there is not an outside master, but you can see some essence of the practice of Taoism in some people who are fully on their path. There is a saying in China that of every three men walking there is always one who is my teacher. I would say every man is my teacher.

And in this way nature is also your teacher?

Nature especially. You become so empty that you find all experiences are a learning opportunity. I live by the Rocky Mountains where there is a trail to one of the peaks. I spend hours there every day, in the afternoon usually. I walk maybe as much as seven hours and I'll disappear into nature and just experience my own Tao. You know I can't do it with many people around. I have to be alone and I have to be into nature. When you walk down the street it's a different affair all together. You see everybody can experience that. There's nothing like being with nature. So the great experience is interwoven with nature. It really proves that we are a part of nature. Taoism has always held that we are a part of the cosmic organ or the organism and that a human being is a microscopic version of nature. We see that a waterfall is pretty, but we see a garbage dump is not pretty. Why? Because the

Wandering On The Way: An Interview with Gia-fu Feng

8/8

waterfall is in me. There is a waterfall in every human being. That's why we see that nature is beautiful.

It sometimes feels as though we have a garbage dump within us too.

But that's in me too! Yes. Oh yes. Now another thing is that Taoists would never deny anything human, including our bad parts. So I was sometimes called a rogue. Why? Because I indulge my instincts perhaps. I don't deny my instincts. So it is important to become comfortable with yourself, comfortable with others and comfortable with nature. Taoists are very much interested in the coming and going of the seasons, in the process of nature, and that really reminds me of a NBC show I did just yesterday. It was a one hour talk show and we played it this morning after they all finished and, although I have been in the United States for thirty years, all I see is my father in my own expression. My way of talking, my gesture is totally Chinese. I have not Americanized at all, even though I can pronounce words better than I could thirty years ago. All the essence is so Chinese and so I almost give myself a revelation, but I cannot change, meaning the nature takes over. Now we can't speed up a plant - the seasons just come. Nature cannot be hurried. It takes it's course and it is the same with human beings. The same with our growth even. So we can certainly learn something from the east - to reach the simple, the comfortable, the natural, the real living so to speak. We don't want to be zombies! We want to live our lives to suit our human needs, our organic needs at that. To listen to our own organs, listen to our own flow, listen to our own chi. Now this is very true if you're an artist, or a writer or, a painter. Just like Picasso says, "I can't help painting. I don't want to be a big huge name, but I can't help doing it." Once he listens to his own organs he has to paint. So his painting is organic, it's from his true nature. Love, in the Chinese language is a true expression of the organs, meaning you are totally naked, your organ is perfectly functioning, and this expression we say is 'love'. So this is a totally organic concept of the universe. Beneath all that we know there is a Tao that's working silently, working without words, that really runs the whole universe or manifests in ourselves. I think one of the contributions of Taoism is to put the spiritual level into our pragmatic everyday life, which is chi. You can get in touch with your centre by physically feeling the flow.

Wandering On The Way: An Interview with Gia-fu Feng

Navigating Into the Unknown

1/6

An Interview with Carlos Castaneda for the magazine Uno Mismo, Chile and Argentina, February, 1997 by Daniel Trujillo Rivas *

See the January/February '98 issue of Utne Reader for excerpts from this interview and from another interview with Carlos Castaneda entitled "The World of Waking Dreams," written by Michael Brennan.

Q: *Mr. Castaneda, for years you've remained in absolute anonymity. What drove you to change this condition and talk publicly about the teachings that you and your three companions received from the nagual Juan Matus?*
A: What compels us to disseminate don Juan Matus's ideas is a need to clarify what he taught us. For us, this is a task that can no longer be postponed. His other three students and I have reached the unanimous conclusion that the world to which Don Juan Matus introduced us is within the perceptual possibilities of all human beings. We've discussed among us what would be the appropriate road to take. To remain anonymous the way don Juan proposed to us? This option was not acceptable. The other road available was to disseminate don Juan's ideas: an infinitely more dangerous and exhausting choice, but the only one that, we believe, has the dignity don Juan imbued all his teachings with.

Q: *Considering what you have said about the unpredictability of a warrior's actions, which we have corroborated for three decades, can we expect this public phase you're going through to last for a while? Until when?*
A: There is no way for us to establish a temporal criteria. We live according to the premises proposed by don Juan and we never deviate from them. Don Juan Matus gave us the formidable example of a man who lived according to what he said. And I say it is a formidable example because it is the most difficult thing to emulate; to be monolithic and at the same time have the flexibility to face anything. This was the way don Juan lived his life. Within these premises, the only thing one can be is an impeccable mediator. One is not the player in this cosmic match of chess, one is simply a pawn on the chessboard. What decides everything is a conscious impersonal energy that sorcerers call intent or the Spirit.

Q: *As far as I've been able to corroborate, orthodox anthropology, as well as the alleged defenders of the pre-Colombian cultural heritage of America, undermine the credibility of your work. The belief that your work is merely the product of your literary talent, which, by the way, is exceptional, continues to exist today. There are also other sectors that accuse you of having a double standard because, supposedly, your lifestyle and your activities contradict what the majority expect from a shaman. How can you clear up these suspicions?*
A: The cognitive system of the Western man forces us to rely on preconceived ideas. We base our judgments on something that is always "a priori," for example the idea of what is "orthodox." What is orthodox anthropology? The one taught at university lecture halls? What is a shaman's behavior? To wear feathers on one's head and dance to the spirits? For thirty years, people have accused Carlos Castaneda of creating a literary character simply because what I report to them does not concur with the anthropological "a priori," the ideas established in the lecture halls or in the anthropological field work. However, what don Juan presented to me can only apply to a situation that calls for total action and, under such circumstances, very little or almost nothing of the preconceived occurs. I have never been able to draw conclusions about shamanism because in order to do this one needs to be an active member in the shamans' world. For a social scientist, let's say for example a sociologist, it is very easy

Navigating Into the Unknown: An Interview with Carlos Castaneda

2/6

to arrive at sociological conclusions over any subject related to the Occidental world, because the sociologist is an active member of the Occidental world. But how can an anthropologist, who spends at the most two years studying other cultures, arrive at reliable conclusions about them? One needs a lifetime to be able to acquire membership in a cultural world. I've been working for more than thirty years in the cognitive world of the shamans of ancient Mexico and, sincerely, I don't believe I have acquired the membership that would allow me to draw conclusions or to even propose them. I have discussed this with people from different disciplines and they always seem to understand and agree with the premises I'm presenting. But then they turn around and they forget everything they agreed upon and continue to sustain "orthodox" academic principles, without caring about the possibility of an absurd error in their conclusions. Our cognitive system seems to be impenetrable.

Q: *What's the aim of you not allowing yourself to be photographed, having your voice recorded or making your biographical data known? Could this affect what you've achieved in your spiritual work, and if so how? Don't you think it would be useful for some sincere seekers of truth to know who you really are, as a way of corroborating that it is really possible to follow the path you proclaim?*

A: With reference to photographs and personal data, the other three disciples of don Juan and myself follow his instructions. For a shaman like don Juan, the main idea behind refraining from giving personal data is very simple. It is imperative to leave aside what he called "personal history". To get away from the "me" is something extremely annoying and difficult. What shamans like don Juan seek is a state of fluidity where the personal "me" does not count. He believed that an absence of photographs and biographical data affects whomever enters into this field of action in a positive, though subliminal way. We are endlessly accustomed to using photographs, recordings and biographical data, all of which spring from the idea of personal importance. Don Juan said it was better not to know anything about a shaman; in this way, instead of encountering a person, one encounters an idea that can be sustained; the opposite of what happens in the everyday world where we are faced only with people who have numerous psychological problems but no ideas, all of these people filled to the brim with "me, me, me."

Q: *How should your followers interpret the publicity and the commercial infrastructure a side of your literary work surrounding the knowledge you and your companions disseminate? What's your real relationship with Cleargreen Incorporated and the other companies (Laugan Productions, Toltec Artists)? I'm talking about a commercial link.*

A: At this point in my work I needed someone able to represent me regarding the dissemination of don Juan Matus's ideas. Cleargreen is a corporation that has great affinity with our work, as are Laugan Productions and Toltec Artists. The idea of disseminating don Juan's teachings in the modern world implies the use of commercial and artistic media that are not within my individual reach. As corporations having an affinity with don Juan's ideas, Cleargreen Incorporated, Laugan Productions and Toltec Artists are capable of providing the means to disseminate what I want to disseminate. There is always a tendency for impersonal corporations to dominate and transform everything that is presented to them and to adapt it to their own ideology. If it weren't for Cleargreen's, Laugan Productions' and Toltec Artists' sincere interest, everything don Juan said would have been transformed into something else by now.

Q: *There are a great number of people who, in one way or another, "cling" to you in order to acquire public notoriety. What's your opinion on the actions of Victor Sanchez, who has interpreted and reorganized your teachings in order to elaborate a personal theory? And of Ken Eagle Feather's assertions that he has been chosen by don Juan to be his disciple, and that don Juan came back just for him?*

A: Indeed there are a number of people who call themselves my students or don Juan's students,

Navigating Into the Unknown: An Interview with Carlos Castaneda

3/6

people I've never met and whom, I can guarantee, don Juan never met. Don Juan Matus was exclusively interested in the perpetuation of his lineage of shamans. He had four disciples who remain to this day. He had others who left with him. Don Juan was not interested in teaching his knowledge; he taught it to his disciples in order to continue his lineage. Due to the fact that they cannot continue don Juan's lineage, his four disciples have been forced to disseminate his ideas. The concept of a teacher who teaches his knowledge is part of our cognitive system but it isn't part of the cognitive system of the shamans of ancient Mexico. To teach was absurd for them. To transmit his knowledge to those who were going to perpetuate their lineage was a different matter. The fact that there are a number of individuals who insist in using my name or don Juan's name is simply an easy maneuver to benefit themselves without much effort.

Q: *Let's consider the meaning of the word "spirituality" to be a state of consciousness in which human beings are fully capable of controlling the potentials of the species, something achieved by transcending the simple animal condition through a hard psychic, moral and intellectual training. Do you agree with this assertion? How is don Juan's world integrated into this context?*
A: For don Juan Matus, a pragmatic and extremely sober shaman, "spirituality" was an empty ideality, an assertion without basis that we believe to be very beautiful because it is encrusted with literary concepts and poetic expressions, but which never goes beyond that. Shamans like don Juan are essentially practical. For them there only exists a predatory universe in which intelligence or awareness is the product of life and death challenges. He considered himself a navigator of infinity and said that in order to navigate into the unknown like a shaman does, one needs unlimited pragmatism, boundless sobriety and guts of steel. In view of all this, don Juan believed that "spirituality" is simply a description of something impossible to achieve within the patterns of the world of everyday life, and it is not a real way of acting.

Q: *You have pointed out that your literary activity, as well as Taisha Abelar's and Florinda Donner-Grau's, is the result of don Juan's instructions. What is the objective of this?*
A: The objective of writing those books was given by don Juan. He asserted that even if one is not a writer one still can write, but writing is transformed from a literary action into a shamanistic action. What decides the subject and the development of a book is not the mind of the writer but rather a force that the shamans consider the basis of the universe, and which they call intent. It is intent which decides a shaman's production, whether it be literary or of any other kind. According to don Juan, a practitioner of shamanism has the duty and the obligation of saturating himself with all the information available. The work of shamans is to inform themselves thoroughly about everything that could possibly be related to their topic of interest. The shamanistic act consists of abandoning all interest in directing the course the information takes. Don Juan used to say, "The one who arranges the ideas that spring from such a well of information is not the shaman, it is intent. The shaman is simply an impeccable conduit." For don Juan writing was a shamanistic challenge, not a literary task.

Q: *If you allow me to assert the following, your literary work presents concepts that are closely related with Oriental philosophical teachings, but it contradicts what is commonly known about the Mexican indigenous culture. What are the similarities and the differences between one and the other?*
A: I don't have the slightest idea. I'm not learned in either one of them. My work is a phenomenological report of the cognitive world to which don Juan Matus introduced me. From the point of view of phenomenology as a philosophical method, it is impossible to make assertions that are related to the phenomenon under scrutiny. Don Juan Matus' world is so vast, so mysterious and contradictory, that it isn't suitable for an exercise in linear exposition; the most one can do is describe it, and that alone is a supreme effort.

Q: *Assuming that don Juan's teachings have become part of occult literature, what's your opinion*

Navigating Into the Unknown: An Interview with Carlos Castaneda

4/6

about other teachings in this category, for example Masonic philosophy, Rosicrucianism, Hermeticism and disciplines such as the Cabala, the Tarot and Astrology when we compare them to nagualism? Have you ever had any contact with or maintain any contact with any of these or with their devotees?

A: Once again, I don't have the slightest idea of what the premises are, or the points of view and subjects of such disciplines. Don Juan presented us with the problem of navigating into the unknown, and this takes all of our available effort.

Q: *Do some of the concepts of your work, such as the assemblage point, the energetic filaments that make up the universe, the world of the inorganic beings, intent, stalking and dreaming, have an equivalent in Western knowledge? For example, there are some people who consider that man seen as a luminous egg is an expression of the aura.*

A: As far as I know, nothing of what don Juan taught us seems to have a counterpart in Western knowledge. Once, when don Juan was still here, I spent a whole year in search of gurus, teachers and wise men to give me an inkling of what they were doing. I wanted to know if there was something in the world of that time similar to what don Juan said and did. My resources were very limited and they only took me to meet the established masters who had millions of followers and, unfortunately, I couldn't find any similarity.

Q: *Concentrating specifically on your literary work, your readers find different Carlos Castanedas. We first find a somewhat incompetent Western scholar, permanently baffled at the power of old Indians like don Juan and don Genaro (mainly in The Teachings Of Don Juan, A Separate Reality, A Journey To Ixtlan, Tales Of Power, and The Second Ring Of Power.) Later we find an apprentice versed in shamanism (in The Eagle's Gift, The Fire from Within, The Power of Silence and, particularly, The Art Of Dreaming.) If you agree with this assessment, when and how did you cease to be one to become the other?*

A: I don't consider myself a shaman, or a teacher, or an advanced student of shamanism; nor do I consider myself an anthropologist or a social scientist of the Western world. My presentations have all been descriptions of a phenomenon which is impossible to discern under the conditions of the linear knowledge of the Western world. I could never explain what don Juan was teaching me in terms of cause and effect. There was no way to foretell what he was going to say or what was going to happen. Under such circumstances, the passage from one state to another is subjective and not something elaborated, or premeditated, or a product of wisdom.

Q: *One can find episodes in your literary work that are truly incredible for the Western mind. How could someone who's not an initiate verify that all those "separate realities" are real, as you claim?*

A: It can be verified very easily by lending one's whole body instead of only one's intellect. One cannot enter don Juan's world intellectually, like a dilettante seeking fast and fleeting knowledge. Nor, in don Juan's world, can anything be verified absolutely. The only thing we can do is arrive at a state of increased awareness that allows us to perceive the world around us in a more inclusive manner. In other words, the goal of don Juan's shamanism is to break the parameters of historical and daily perception and to perceive the unknown. That's why he called himself a navigator of infinity. He asserted that infinity lies beyond the parameters of daily perception. To break these parameters was the aim of his life. Because he was an extraordinary shaman, he instilled that same desire in all four of us. He forced us to transcend the intellect and to embody the concept of breaking the boundaries of historical perception.

Q: *You assert that the basic characteristic of human beings is to be "perceivers of energy." You refer to the movement of the assemblage point as something imperative to perceiving energy directly. How can this be useful to a man of the 21st century? According to the concept previously defined,*

Navigating Into the Unknown: An Interview with Carlos Castaneda

5/6

how can the attainment of this goal help one's spiritual improvement?
A: Shamans like don Juan assert that all human beings have the capacity to see energy directly as it flows in the universe. They believe that the assemblage point, as they call it, is a point that exists in man's total sphere of energy. In other words, when a shaman perceives a man as energy that flows in the universe, he sees a luminous ball. In that luminous ball, the shaman can see a point of greater brilliance located at the height of the shoulder blades, approximately an arm's length behind them. Shamans maintain that perception is assembled at this point; that the energy that flows in the universe is transformed here into sensory data, and that the sensory data is later interpreted, giving as a result the world of everyday life. Shamans assert that we are taught to interpret, and therefore we are taught to perceive. The pragmatic value of perceiving energy directly as it flows in the universe for a man of the 21st century or a man of the 1st century is the same. It allows him to enlarge the limits of his perception and to use this enhancement within his realm. Don Juan said that to see directly the wonder of the order and the chaos of the universe would be extraordinary.

Q: *You have recently presented a physical discipline called Tensegrity. Can you explain what is it exactly? What is its goal? What spiritual benefit can a person who practices it individually get?*
A: According to what don Juan Matus taught us, the shamans who lived in ancient Mexico discovered a series of movements that when executed by the body brought about such physical and mental prowess that they decided to call those movements magical passes. Don Juan told us that, through their magical passes, those shamans attained an increased level of consciousness which allowed them to perform indescribable feats of perception. Through generations, the magical passes were only taught to practitioners of shamanism. The movements were surrounded with tremendous secrecy and complex rituals. That is the way don Juan learned them and that is the way he taught them to his four disciples. Our effort has been to extend the teachings of such magical passes to anyone who wants to learn them. We have called them Tensegrity, and we have transformed them from specific movements pertinent only to each of don Juan's four disciples, to general movements suitable to anyone. Practicing Tensegrity, individually or in groups, promotes health, vitality, youth and a general sense of well-being. Don Juan said that practicing the magical passes helps accumulate the energy necessary to increase awareness and to expand the parameters of perception.

Q: *Besides your three cohorts, the people who attend your seminars have met other people, like the Chacmools, the Energy Trackers, the Elements, the Blue Scout . . . Who are they? Are they part of a new generation of seers guided by you? If this is the case, how could one become part of this group of apprentices?*
A: Every one of these persons are defined beings who don Juan Matus, as director of his lineage, asked us to wait for. He predicted the arrival of each one of them as an integral part of a vision. Since don Juan's lineage could not continue, due to the energetic configuration of his four students, their mission was transformed from perpetuating the lineage into closing it, if possible, with a golden clasp. We are in no position to change such instructions. We can neither look for nor accept apprentices or active members of don Juan's vision. The only thing we can do is acquiesce to the designs of intent. The fact that the magical passes, guarded with such jealousy for so many generations, are now being taught, is proof that one can, indeed, in an indirect way, become part of this new vision through the practice of Tensegrity and by following the premises of the warriors' way.

Q: *In Readers of Infinity, you've utilized the term "navigating" to define what sorcerers do. Are you going to hoist the sail to begin the definitive journey soon? Will the lineage of Toltec warriors, the keepers of this knowledge, end with you?*
A: Yes, that is correct, don Juan's lineage ends with us.

Q: *Here's a question that I've often asked myself: Does the warriors' path include, like other*

Navigating Into the Unknown: An Interview with Carlos Castaneda

6/6

disciplines do, spiritual work for couples?
A: The warriors' path includes everything and everyone. There can be a whole family of impeccable warriors. The difficulty lies in the terrible fact that individual relationships are based in emotional investments, and the moment the practitioner really practices what she or he learns, the relationship crumbles. In the everyday world, emotional investments are not normally examined, and we live an entire lifetime waiting to be reciprocated. Don Juan said I was a diehard investor and that my way of living and feeling could be described simply: "I only give what others give me."

Q: *What aspirations of possible advancement should someone have who wishes to work spiritually according to the knowledge disseminated in your books? What would you recommend for those who wish to practice don Juan's teachings by themselves?*
A: There's no way to put a limit on what one may accomplish individually if the intent is an impeccable intent. Don Juan's teachings are not spiritual. I repeat this because the question has come to the surface over and over. The idea of spirituality doesn't fit with the iron discipline of a warrior. The most important thing for a shaman like don Juan is the idea of pragmatism. When I met him, I believed I was a practical man, a social scientist filled with objectivity and pragmatism. He destroyed my pretensions and made me see that, as a true Western man, I was neither pragmatic nor spiritual. I came to understand that I only repeated the word "spirituality" to contrast it with the mercenary aspect of the world of everyday life. I wanted to get away from the mercantilism of everyday life and the eagerness to do this is what I called spirituality. I realized don Juan was right when he demanded that I come to a conclusion; to define what I considered spirituality. I didn't know what I was talking about. What I'm saying might sound presumptuous, but there's no other way to say it. What a shaman like don Juan wants is to increase awareness, that is, to be able to perceive with all the human possibilities of perception; this implies a colossal task and an unbending purpose, which can not be replaced by the spirituality of the Western world.

Q: *Is there anything you would like to explain to the South American people, especially to the Chileans? Would you like to make any other statement besides your answers to our questions?*
A: I don't have anything to add. All human beings are at the same level. At the beginning of my apprenticeship with don Juan Matus, he tried to make me see how common man's situation is. I, as a South American, was very involved, intellectually, with the idea of social reform. One day I asked don Juan what I thought was a deadly question: How can you remain unmoved by the horrendous situation of your fellow men, the Yaqui Indians of Sonora? I knew that a certain percentage of the Yaqui population suffered from tuberculosis and that, due to their economic situation, they couldn't be cured. "Yes," don Juan said, "It's a very sad thing but, you see, your situation is also very sad, and if you believe that you are in better condition than the Yaqui Indians you are mistaken. In general the human condition is in a horrifying state of chaos. No one is better off than another. We are all beings that are going to die and, unless we acknowledge this, there is no remedy for us." This is another point of the shaman's pragmatism: to become aware that we are beings that are going to die. They say that when we do this, everything acquires a transcendental order and measure.

When undercover investigators made their way onto Chinese fur farms recently, they found that many animals are still alive and struggling desperately when workers flip them onto their backs or hang them up by their legs or tails to skin them. When workers on these farms begin to cut the skin and fur from an animal's leg, the free limbs kick and writhe. Workers stomp on the necks and heads of animals who struggle too hard to allow a clean cut. When the fur is finally peeled off over the animals' heads, their naked, bloody bodies are thrown onto a pile of those who have gone before them. Some are still alive, breathing in ragged gasps and blinking slowly. Some of the animals' hearts are still beating five to 10 minutes after they are skinned. One investigator recorded a skinned raccoon dog on the heap of carcasses who had enough strength to lift his bloodied head and stare into the camera.

Before they are skinned alive, animals are pulled from their cages and thrown to the ground; workers bludgeon them with metal rods or slam them on hard surfaces, causing broken bones and convulsions but not always immediate death. Animals watch helplessly as workers make their way down the row.

Undercover investigators from Swiss Animals Protection/EAST International recently toured fur farms in China's Hebei Province, and it quickly became clear why outsiders are banned from visiting. There are no regulations governing fur farms in China—farmers can house and slaughter animals however they see fit—meaning miserable lives and excruciating deaths. The investigators found horrors beyond their worst imaginings and concluded, "Conditions on Chinese fur farms make a mockery of the most elementary animal welfare standards. ... In their lives and their unspeakable deaths, these animals have been denied even the simplest acts of kindness."

On these farms, foxes, minks, rabbits, and other animals pace and shiver in outdoor wire cages, exposed to driving rain, freezing nights, and, at other times, scorching sun. Mother animals, who are driven crazy from rough handling and intense confinement and have nowhere to hide while giving birth, often kill their babies after delivering litters. Disease and injuries are widespread, and animals suffering from anxiety-induced psychosis chew on their own limbs and throw themselves repeatedly against the cage bars.

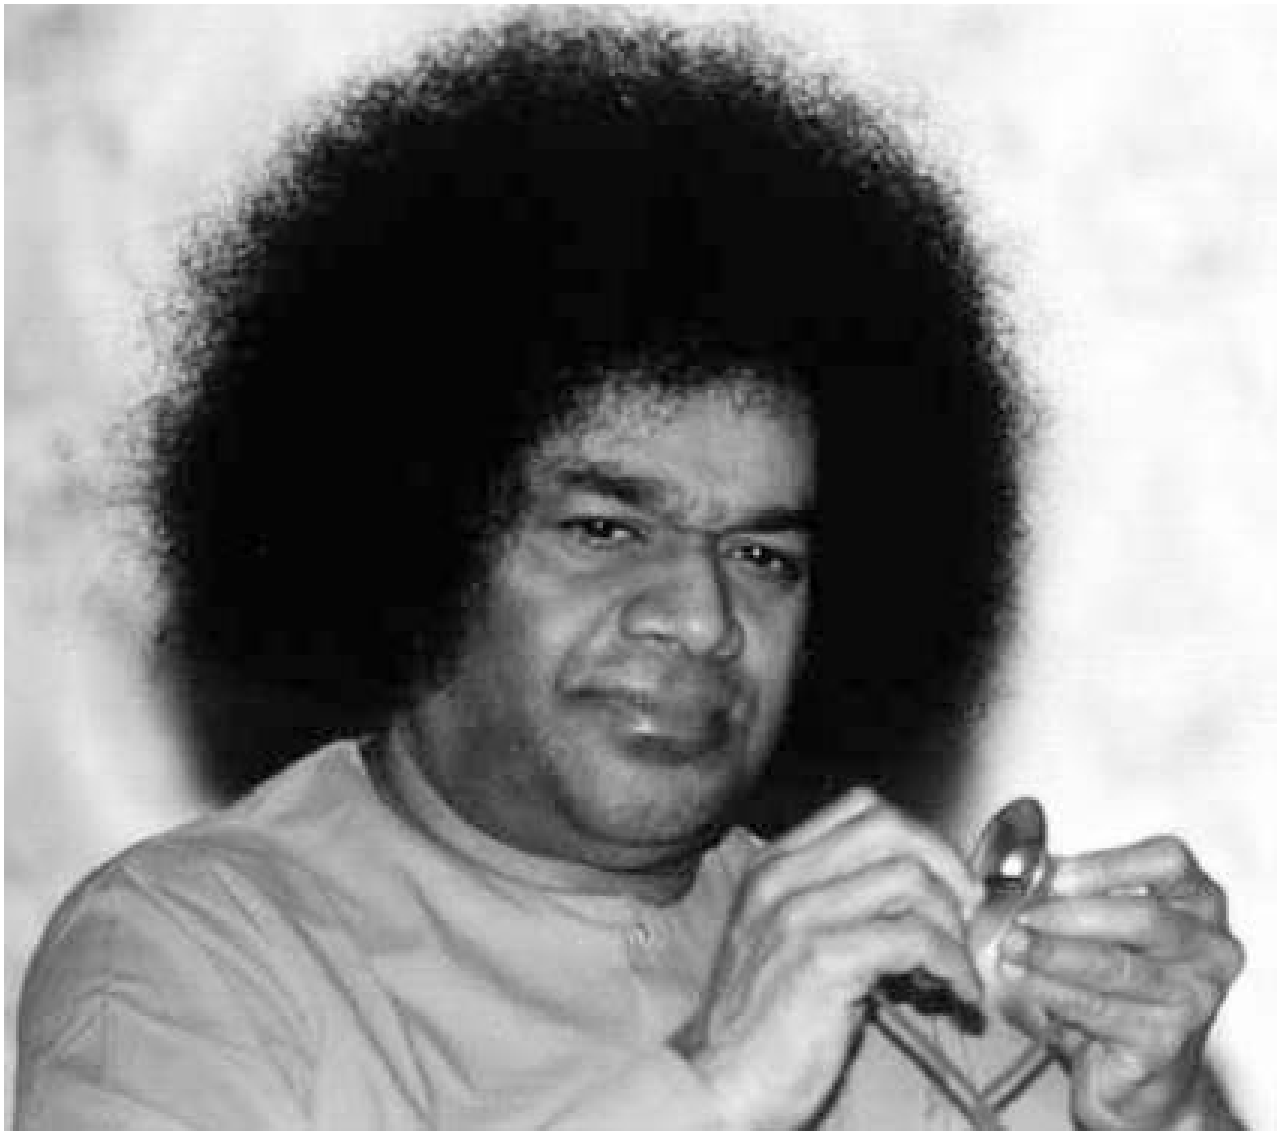
The book of Lao Zi



What the country needs today is not wealth and prosperity.
Human life is sacred, valuable and worth living.
Without human values,
spirituality will reach its abysmal depths;
morality, integrity and peace will become extinct;
sweet experience of right conduct will be destroyed;
idealism will reach its rock bottom.
Have faith that you are born to foster human values.
Keep the welfare of society as your ideal and sanctify your time.

Sathya Sai Baba\

I want to raise the character of man so high that people as different as the lion and the goat can live together without jealousy or hatred - only in love.
